Conditional Veto of Assembly No 2002

Mr Greenwald moved that the message be spread in full upon the Minutes

Which motion was adopted

ASSEMBLY BILL NO 2002

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No 2002 with my recommendations for reconsideration

Assembly Bill No 2002 seeks to enable county surrogates to provide certified copies of death certificates to individuals who they are serving First, the bill would require the State registrar to facilitate a county surrogate's real-time access to vital statistics records so that the surrogate can provide a certified copy of a death certificate to an authorized person for whom the county surrogate is already providing services Second, the bill adds county surrogates to the list of entities, along with local registrars, alternate deputy registrars, and others, who may provide certified copies of death certificates to statutorily authorized persons

I wholeheartedly support the intent of this bill and applaud its sponsors for seeking to make it easier for county surrogates to obtain certified death certificates Among the many critical functions that county surrogates perform, one of the most important is to assist the relatives of those who pass away without a will, including by appointing an administrator of the deceased's estate In the days and weeks after a loved one has passed away, surviving family members can count on a county surrogate for crucial supports and services In addition, when someone passes away, a certified copy of the deceased's death certificate is required for various matters, such as collecting on life insurance or transferring ownership of a vehicle This bill recognizes that obtaining a certified copy of a death certificate from the State or a local registrar may impose an additional burden and hardship on someone who has just suffered a loss, especially if there is a delay in obtaining the certificate

However, I have concerns regarding the bill's proposal to allow county surrogates to have direct access to vital statistics records and to produce certified copies of death certificates themselves The State registrar in the Department of Health ("DOH") is charged with overseeing the State's vital statistics records, and the State and local registrars have the authority and training to produce certified copies of death certificates Vital statistics records contain extremely sensitive information, and it is important that the list of entities who have access to those records and who have the authority to produce death certificates remains circumscribed Moreover, a county surrogate

performs services on behalf of the person in need of a death certificate Given that preexisting relationship, it would be inappropriate for the county surrogate to also have the authority to produce the death certificate Finally, as a practical matter, the State registrar does not have the resources to train and supervise 21 county surrogate's offices with respect to the production of death certificates

Accordingly, I am suggesting changes that will address these concerns, while preserving the sponsors' intent of reducing barriers to obtaining certified copies of death certificates in a timely manner for grieving families being served by county surrogates First, instead of allowing county surrogates to have direct access to the State's vital statistics and the ability to produce certified copies of death certificates themselves, I recommend allowing county surrogates to have access to the New Jersey Electronic Death Registration System ("NJ-EDRS"), which is also accessible by medical professionals, mortuary practitioners, and local registrars, among others This will enable county surrogates to have real-time, view-only access to verify death records on behalf of authorized persons without providing county surrogates with real-time access to all vital statistics or the authorization to produce certified copies of death certificates Second, I recommend amending the bill to require registrars to provide county surrogates with certified copies of death certificates within fourteen days of a request that is made on behalf of an authorized person who is already receiving services from the surrogate This will ensure county surrogates can quickly assist those in need without unduly disrupting the registrars' work

I am pleased to have developed these recommendations in collaboration with the DOH, the State registrar, and the bill's sponsors, and I once again thank the bill's sponsors for their attention to this issue

Therefore, I herewith return Assembly Bill No 2002 with my recommendations for amendment

Respectfully,
Philip D Murphy
Governor

The Clerk read the following message from the Governor

Absolute Veto of Assembly No 4790 (First Reprint)

Mr Greenwald moved that the message be spread in full upon the Minutes

Which motion was adopted

ASSEMBLY BILL NO 4790
(First Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No 4790 (First Reprint) without my approval

This bill would establish the "New Jersey Non-Profit Loan Guarantee Pilot Program" (the "program") in the New Jersey Economic Development Authority ("EDA") to provide financial assistance, in the form of loan guarantees, to support the construction of new physical spaces by non-profit organizations that can generate income sufficient to repay the loan through box office sales, private donations, sponsorships, or other sources of revenue Under the program, the EDA would enter into an agreement with a participating bank and a non-profit organization to guarantee a direct loan or revolving line of credit provided by the participating bank to the non-profit organization to finance the construction of new physical spaces The bill provides that the source of funding for the program would be the Economic Recovery Fund ("ERF") and other moneys available from other business assistance programs administered by the EDA

I commend the sponsors of this legislation for endeavoring to create new physical spaces for our State's residents to utilize, which will enhance New Jersey's attractiveness as a place to live, work, and visit I am concerned, however, that the mechanism created by the bill will not effectively achieve the bill's noble purpose A loan guarantee program, like the one contemplated by this legislation, would require the EDA to

establish an applications and appeals process and develop robust underwriting criteria Each project seeking a loan guarantee under the program would also need to win approval by the EDA Board Since the bill would provide loan guarantees for construction projects, program participants would be subject to laws which require that all workers employed in the performance of a construction project, undertaken in connection with EDA financial assistance, be paid the prevailing wage rate Additionally, the fact that the bill utilizes the ERF as its funding source means applicants would need to demonstrate the economic feasibility of the project and a reasonable expectation of loan repayment, as those are statutory conditions on the use of ERF funds These criteria are of course totally appropriate when the EDA is operating in its traditional role of providing economic assistance to for-profit businesses, but are not adaptable to a program intended to support non-profits, which may not be able to overcome the cost and administrative burdens that attach when the EDA administers a program like the one envisioned by this legislation

While I am not opposed to the idea of establishing programs for, or otherwise providing funding to, non-profit organizations to create new physical spaces for our residents, the program established by this bill is unworkable in its current form A more appropriate approach to providing non-profit organizations with financial assistance to support the construction of new physical spaces is through the annual budget process or administration of federal relief funds I look forward to working collaboratively with legislative leadership so that we can fund our shared priorities in a coordinated manner that meets our obligations to the State of New Jersey and its residents now and in the future

Accordingly, I herewith return Assembly Bill No 4790 (First Reprint) without my approval

Respectfully,
Philip D Murphy
Governor

The Clerk read the following messages from the Governor

Absolute Veto of Assembly No 4035 (Second Reprint), and Conditional Veto of Assembly No 4889 (Third Reprint)

Mr Greenwald moved that the messages be spread in full upon the Minutes

Which motion was adopted

ASSEMBLY BILL NO 4035

(Second Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No 4035 (Second Reprint) without my approval

This bill would modify how the Executive Director of the State Agriculture Development Committee ("SADC") is appointed and amend the terms of the Executive Director's employment Under current law, the SADC is allocated within the Department of Agriculture ("NJDA") but is largely independent of supervision or control by the State Board of Agriculture ("SBOA"), the NJDA, or the Secretary of the NJDA The Executive Director of the SADC is appointed by the SADC itself, which is composed of 11 members, including the Secretary of Agriculture, who serves as chair, the Commissioner of Environmental Protection, the Commissioner of Community Affairs, the State Treasurer, the Dean of Cook College, Rutgers University, and six gubernatorial appointees with the advice and consent of the Senate The mission of the SADC is to preserve New Jersey's farmland and promote innovative approaches to maintain the viability of agriculture in the State

If Assembly Bill No 4035 (Second Reprint) were signed into law, the Executive Director of the SADC would be appointed by the Governor from among three candidates recommended by the SBOA and with the advice and consent of the Senate The bill would also specify the Executive Director's term of service, reappointment eligibility, and would limit the Director's post-appointment employment Additionally, the bill would require the Governor to nominate an Executive Director of the SADC no later than 12 months after the effective date of the bill and would not allow for the appointment of an interim Executive Director

I am deeply committed to making appointments at every level of government in a manner that ensures a diverse and qualified pool of candidates for such positions I am concerned that limiting the candidates for the SADC Executive Director position to three individuals selected by the SBOA would unduly limit my discretion and impede the State's ability to find the best candidate to carry out the SADC's important mission This concern is compounded by the fact that these three candidates are put forward by a board whose members are solely selected by the agricultural community Currently, the SBOA consists of eight members that are appointed by the Governor based upon recommendations of delegates to the annual State Agricultural Convention, which holds elections for the purpose of making such recommendations

Farmlands preservation in New Jersey requires the work of multiple constituencies Groups critical to this effort include, not only the farmers and the rest of the agricultural community, but also the businesses supplying the farmers with needed equipment and financing, those further down the supply chain preparing the agricultural products for consumers, and conservationists The Legislature historically has recognized this by insulating the SADC and its staff from control by the SBOA The Governor's ability to appoint a qualified candidate to serve as Executive Director of the SADC should not be limited to choices provided by just one group that has an interest within this complex and vital industry

Accordingly, I herewith return Assembly Bill No 4035 (Second Reprint) without my approval

Respectfully,

Philip D Murphy

Governor

ASSEMBLY BILL NO 4889

(Third Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No 4889 (Third Reprint) with my recommendations for reconsideration

This bill eliminates the obligation of local government officers to disclose their home addresses on the financial disclosure statements that local government officers are required to file annually under the Local Government Ethics Law ("LGEL") Under the bill, in situations where a required disclosure of the address of a source of income, business organization, or real property interest would entail disclosure of the local government officer's home address, principal residence, or any secondary residence where the officer or a member of the officer's immediate family may reside, the local government officer would instead provide a brief description of the source of income, business organization, or property interest being disclosed, including the county and municipality where located The bill would become effective immediately and apply to financial disclosure statements filed in 2023 and thereafter For filings due by April 30, 2023, the bill permits the Local Finance Board ("LFB") to extend the deadline by up to 60 days

I commend the bill's sponsors for collaborating with my Administration to pass this bill aimed at protecting the privacy of local government officers I agree with my colleagues in the Legislature that precise disclosure of local government officers' home addresses on their financial disclosure statements is not necessary to enforce the requirements of the LGEL A brief description of the source of income, business organization, or real property interest, including the county and municipality where located, will be sufficient to identify the source, business, or real property when identification is necessary to ensure compliance with the LGEL

Moreover, many local government officers are "covered persons" whose home addresses may be protected from public disclosure under "Daniel's Law" active, formerly active, or retired judicial officers, law enforcement officers, or prosecutors, and immediate family members residing in the same household as the judicial officer, law enforcement officer, or prosecutor See P L 2021, c 371 By amending the financial disclosure statement filing form so that home addresses are not included on the statements to begin with, the bill will reduce the burden on the LFB in complying with Daniel's Law, as well as reduce the risk of accidental non-compliance, because the LFB will not have to individually determine on a case-by-case basis whether a covered person's home address appears on a financial disclosure statement

Despite my strong support of this legislation, I am unable to sign it in its current form because the financial disclosure statements required to be filed in 2023 were due by April 30 In other words, the deadline has passed and nearly all financial disclosure statements have been filed already It is thus virtually impossible to local government officers and the LFB to comply

with the changed rules for statements filed in 2023, as required by the bill's effective date, extending the filing deadline 60 days and requiring all local government officers to re-file their disclosures would be substantially and unnecessarily burdensome on the LFB and the thousands of local government officers in the State Accordingly, I am recommending the bill be amended so that it is effective only for financial disclosure statements filed in 2024 and thereafter

Therefore, I here with return Assembly Bill No 4889 (Third Reprint) with my recommendations for amendment

Respectfully,

Philip D Murphy

(Note The Governor's recommendations on these two bills were adopted and passed during today's voting session)

ASSEMBLY BILL NO 4701

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No 4701 with my recommendations for reconsideration

Assembly Bill No 4701 implements, through an amendment to the Fiscal Year 2023 Appropriations Act, a per diem Medicaid rate increase

from $86 10 to $89 54 for adult medical day care providers and contains a supplemental appropriation of $3 6 million to the Department of Human Services for State Fiscal Year 2023

While I applaud my colleagues in the Legislature for their support for the adult medical day care industry, which provides vital services to a vulnerable population, this rate increase and accompanying supplemental appropriations are now moot, as Fiscal Year 2023 ends today, June 30th Moreover, I am pleased to have reached a comprehensive deal with my partners in the Legislature concerning the State's spending plan for Fiscal Year 2024, fulfilling our shared constitutional obligations to enact a single appropriations law governing overall State spending needs for the year That plan implements a $89 55 minimum per diem rate for adult medical day care providers, rendering the current text of Assembly Bill No 4701 unnecessary

Another element of that comprehensive deal was the allocation of $25,000,000 from the New Jersey Affordable Housing Trust Fund to New Jersey chapters of Habitat for Humanity to support the construction, rehabilitation, or both, of affordable homes to be owned and occupied by low and moderate-income households Unfortunately, however, the Fiscal Year 2024 appropriations bill does not accurately reflect the components of that agreement My recommended amendments for Assembly Bill No 4701 thus include an additional supplemental appropriation for the upcoming Fiscal Year to facilitate the provisions of grants to two New Jersey Habitat for Humanity chapters, who will then be able to provide subgrants to additional chapters throughout the State This allocation complements several measures in this year's budget agreement dedicated to the construction of affordable housing in New Jersey

Therefore, I herewith return Assembly Bill No 4701 with my recommendations for amendment

Respectfully,

Philip D Murphy

Governor

ASSEMBLY BILL NO 5655

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No 5655 with my recommendations for reconsideration

This bill would appropriate $87,783,515 from constitutionally dedicated corporation business tax (CBT) revenues and various Green Acres funds to the Department of Environmental Protection ("DEP") Of the total amount appropriated by the bill, $83,514,765 would be used by the DEP to provide grants, loans, or both, to assist local government units in the State to acquire or develop lands for recreation and conservation purposes, and $4,268,750 would be used for the DEP's associated administrative costs

These grants and loans will benefit numerous communities across the State by providing opportunities to engage in healthy activities, enjoy the outdoors, and spend quality family time together Consistent with our shared goal of benefitting the environmental, quality of life, and economic health in New Jersey by conserving open space for natural resources and recreational purposes, I am recommending changes that would allow enhanced payments to municipalities in lieu of taxes for lands acquired by the State and non-profit organizations for recreation and conservation purposes Section 30 of the Garden State Preservation Trust Act requires the State to extend payments in lieu of taxes to municipalities in which lands are acquired by the State or nonprofit organizations for these purposes My recommend changes will enhance compensation for municipalities that protect and preserve open, undeveloped lands, reflect the comprehensive deal struck with my legislative partners for Fiscal Year 2024, and advance our shared commitments to open space conservation

Therefore, I herewith return Assembly Bill No 5655 with my recommendations for amendment

Respectfully,
Philip D Murphy
Governor

Mr Greenwald moved that the message be spread in full upon the Minutes

Which motion was adopted

ASSEMBLY BILL NO 3681
(Third Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No 3681 (Third Reprint) with my recommendations for reconsideration

This bill establishes the New Jersey Educator Scholarship Program (the "program") in the Higher Education Student Assistance Authority ("HESAA") to provide incentives for students to pursue careers in

education Under the program, scholarships would be awarded by HESAA to 200 students annually who are enrolled in educator preparation programs at institutions of higher education within the State Each eligible recipient would also receive a stipend of $5,000 annually Scholarship recipients would be required to seek and accept full-time employment as teaching staff members with a public school district, charter school, or renaissance school in the State and maintain such employment for no less than three full school years out of the first five full school years immediately following their graduation

Under the bill, a student would be required to repay in full the amount of any stipend and the value of any scholarship received as a debt owed to the State in certain cases, including if the student is dismissed from the program of study for academic or disciplinary reasons or becomes ineligible to receive a certificate of eligibility with advanced standing from the Board of Examiners A student who does not complete the required three full years of employment in a public school district, charter school, or renaissance school within five years of receiving a bachelor's degree and completing an educator preparation program would also be required to repay the amount of any stipend and the value of any scholarship as a debt to the State prorated to account for the time of qualifying employment

I applaud the bill's sponsors for working to attract more teachers to the field by establishing scholarships to reduce the out-of-pocket costs of completing an educator preparation program I am concerned, however, that this bill also would impose unduly harsh financial penalties on scholarship recipients who do not satisfy certain post-graduate employment and other requirements - including if they fail to satisfy those requirements for reasons beyond their control - by requiring those individuals to repay amounts received as a debt to the State Many well-intentioned students seeking to become teachers under the program may find themselves on the hook for tens of thousands of dollars These penalties risk making the bill's scholarships unattractive to potential recipients and saddling students and recent graduates with unexpected debt at a time when many students are already overburdened with student loan debt In close collaboration with the bill's sponsors, I am therefore recommending revisions to address the unintended consequences of the provisions in the bill that provide for the conversion of scholarships and stipends to debts to the State

Therefore, I herewith return Assembly Bill No 3681 (First Reprint) with my recommendations for amendment

Respectfully,

Philip D Murphy

Governor

ASSEMBLY BILL NO 4750
(Second Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No 4750 (First Reprint) with my recommendations for reconsideration

Assembly Bill No 4750 (First Reprint) requires the Business Action Center ("BAC") within the Department of State to establish and maintain a public database of vacant commercial spaces available for purchase or lease by small businesses BAC would be required to make the database available online, to promote its availability, and to update it each month with new information concerning available vacancies I commend the bill's sponsors for recognizing the challenges business owners and prospective business owners face in identifying viable commercial real estate opportunities However, the legislation overlooks the fact that such a database would duplicate the efforts of countless private real estate brokers and related online resources that advertise such information on a more frequent basis Moreover, BAC lacks the relevant experience and staff needed to create such a platform, and I am concerned that the inordinate amount of time and resources necessary to do so would impede BAC's ability to establish and maintain such a database effectively

I am therefore recommending amendments to allow BAC to broadly study the impact of vacant commercial properties on small business owners and prospective small business owners, including available programs or services offered by private entities and county and local governments, and whether such existing programs or services have been effective The study would aim to produce recommended policy actions and guidance materials that may help county and local governments effectively reach the small business community with respect to real estate opportunities

Accordingly, I herewith return Assembly Bill No 4750 (First Reprint) with my recommendations for amendment

Respectfully,

Philip D Murphy

Governor

ASSEMBLY BILL NO 4752
(First Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No 4752 (First Reprint) with my recommendations for reconsideration

Assembly Bill No 4752 (First Reprint) requires the New Jersey Small Business Development Centers ("NJSBDCs") to work with the Business Action Center ("BAC") within the Department of State to establish a program to help small businesses with fewer than 25 employees develop an Internet presence The bill aims to help small business owners launch websites, social media, and other online tools to advance their business purposes

I commend the bill's sponsors for exploring ways to help business owners leverage the Internet and social media to their advantage In an increasingly digital world, a strong online presence is crucial for businesses to establish and promote their brand I am advised, however, that Assembly Bill No 4752 (First Reprint) would duplicate existing efforts being undertaken by the New Jersey Economic Development Authority ("EDA") pursuant to its "Small Business E-Commerce Support Program" ("E-Commerce Program") The E-Commerce Program launched in December 2022 and has assisted approximately 68 businesses to date with website development and optimization, as well as the development of e-commerce platforms and digital marketing plans The EDA's efforts required a significant amount of planning and investment, which is only expected to grow in the future Therefore, it would be an inefficient use of State resources to ask the NJSBDCs, in conjunction with BAC, to replicate that work

For the foregoing reasons, I am recommending amendments to allow BAC to work in consultation with the EDA and NJSBDCs on ensuring the public has access to relevant information about the E-Commerce Program and other existing programs that help businesses develop an online presence Creating a one-stop information shop for business owners to learn about available opportunities will ensure that as many eligible businesses as possible can obtain the assistance they need

Accordingly, I herewith return Assembly Bill No 4752 (First Reprint) with my recommendations for amendment

Respectfully,

Philip D Murphy

Governor

ASSEMBLY BILL NO 5179

(First Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No 5179 (First Reprint) with my recommendations for reconsideration

Assembly Bill No 5179 (First Reprint), entitled the "Fire Life Safety Damper and Smoke Control System Inspection Verification Act," aims to codify periodic inspection and testing, routine maintenance, and compliance and reporting requirements for fire dampers, smoke dampers, combination fire and smoke dampers, and smoke control systems installed in buildings throughout the State The bill also establishes certification and training requirements for contractors and their employees who provide testing services for smoke and fire dampers and smoke control systems And it imposes penalties on anyone who violates provisions of the bill or regulations adopted pursuant to the bill's authority

I commend my colleagues in the Legislature and the fire safety advocates who championed this bill for their recognition that properly installed and functioning fire dampers, smoke dampers, combination fire and smoke dampers, and smoke control systems are critical fire prevention tools I wholeheartedly agree that these smoke and fire protection mechanisms should be tested properly and regularly, and that building owners and operators who skirt compliance requirements should be held responsible My Administration also agrees that it makes sense to certify the contractors who perform fire and smoke damper and smoke control system testing Credentialing not only ensures that fire protection professionals receive proper training and have sufficient experience to perform their duties, but also helps to attract and retain quality workers in this essential field

Despite these laudable goals, I am concerned that this bill is, in many ways, redundant of the requirements found in the Uniform Fire Code ("UFC") — which has been adopted and is enforced by the

Division of Fire Safety ("DFS") in the Department of Community Affairs ("DCA") — and bypasses the standard process by which DFS updates the UFC Importantly, for example, the UFC already incorporates routine maintenance and periodic testing requirements, as well as reporting requirements, for smoke dampers, fire dampers, combination fire and smoke dampers, and smoke control systems in New Jersey buildings These requirements were adopted in accordance with international best practices embodied in model codes

Relatedly, the UFC also already imposes larger penalties for noncompliance than those that would be imposed under the bill Finally, requiring all building owners to submit compliance certificates with DCA, and subsequently requiring DCA to initiate enforcement actions for noncompliance, is out of step with the State's current fire protection regime, wherein local enforcing agencies are primarily responsible for inspections and enforcement, with the exception of certain jurisdictions where DFS has assumed the local agency's responsibilities It is important to note that DFS is in the process of building out new information technology infrastructure to better enable seamless and efficient communication between local enforcing agencies and the State This will provide more insight into noncompliance and allow for more responsive enforcement, helping to achieve the goals of the bill

Imposing new statutory requirements onto this regime would lead to regulated parties and enforcing agencies having to consult two overlapping sources of law Additionally, it would prevent DFS from flexibly updating the UFC as standards evolve For these reasons, I am recommending changes to the bill that would remove the provisions overlapping with the UFC, while reinforcing DFS's statutory authority to promulgate rules regulating the installation, testing, and inspection of smoke and fire dampers and smoke control systems

For the reasons discussed above, however, I do support creating a system for certifying contractors involved in the installation, testing, and maintenance of fire dampers, smoke dampers, combination fire and smoke dampers, and smoke control systems My recommended amendments preserve the core component of this bill, while facilitating DFS's authority to promulgate rules and regulations in this subject area within its current fire protection contractor certification regime The primary change I am recommending in this area is to remove certain training and experience requirements in the bill — while still ensuring

minimum training and experience standards are included in DFS rulemaking — as the requirements underlying certification for fire protection contractors are better suited to be set forth in regulations Through the regulatory process, DFS will directly engage with advocates and stakeholders and make an informed judgment about how to best address safety and workforce goals

As mentioned, the fire protection goals embodied by this bill are admirable, and I once again would like to thank the bill's sponsors for promoting the regular testing and maintenance of fire and smoke dampers and smoke protection systems I am confident that my recommended amendments will enable DFS to continue to effectively address these issues through the regulatory process and lead to the development of a credentialed, experienced, and well-trained workforce

Therefore, I herewith return Assembly Bill No 5179 (First Reprint) with my recommendations for amendment

Respectfully,

Philip D Murphy

Governor

ASSEMBLY BILL NO 5225
(Second Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No 5225 (Second Reprint) with my recommendations for reconsideration

Assembly Bill No 5225 (Second Reprint) requires the State Medicaid program, administered by the Department of Human Services ("DHS"), to provide coverage to eligible beneficiaries for community-based palliative care The bill defines community-based palliative care to include specialized medical care, along with emotional and spiritual support, for individuals with serious advanced illnesses, relief of symptoms, pain, and stress of serious illness, improvement of quality of life for beneficiaries and their families, and age-appropriate care for any stage of a serious illness, alongside curative treatment The palliative care benefit would include hospice services, to be provided simultaneously with curative treatment, to the extent that the services are not duplicative, and to be made available to beneficiaries with fatal conditions, regardless of the estimated remaining period of life The bill also clarifies which types of providers would be authorized to provide

community-based palliative care services Beneficiaries receiving palliative care would still be eligible to concurrently receive any already-covered non-duplicative services

I applaud the bill's sponsors for working to make a community-based palliative care benefit available to New Jersey's roughly two million Medicaid beneficiaries There is far more to caring for individuals with serious illnesses than curative treatment, and this bill will create the opportunity for more community-based, quality-of-life-centered options for patients and their families dealing with an immeasurably painful experience Adding coverage for palliative care reflects the value our State places in patient choice, emphasizes autonomy around end-of-life treatment, and recognizes that no person should be defined by their illness And as community-based palliative treatment continues to garner recognition as a vital component of end-of-life care, this bill provides Medicaid with the opportunity to be at the forefront of the conversation and set an example for private insurers in the State For these reasons, I fully support adding community-based palliative care as a State Medicaid benefit

My only concern with this bill is that it takes effect immediately, presupposing that DHS would be able to offer the benefit in a very short time frame Adding any new form of coverage to Medicaid takes a substantial commitment of time and resources, including investigating and designing the benefit, building out the information technology infrastructure, and, critically, securing the federal approvals and financial participation necessary to reduce State costs And with respect to this circumstance in particular, studies have revealed racial disparities in who receives quality end-of-life care and shown that New Jersey has room to improve when it comes to transitions between the hospital, rehabilitation centers and other facilities, and home for individuals with serious illnesses Accordingly, to design a comprehensive, equitable system of coverage, DHS will need to carefully study the current palliative care landscape and engage thoughtfully with our communities For that reason, I am recommending that Assembly Bill No 5225 (Second Reprint) be amended to provide DHS with two years to conduct the work necessary to design a quality benefit, and — to optimize reach while protecting State financial resources — make clear that coverage would be contingent on receiving all necessary federal approvals

With these amendments, I am confident that the State will develop the best possible coverage for our Medicaid recipients

Therefore, I herewith return Assembly Bill No 5225 (Second Reprint) with my recommendations for amendment

Respectfully,

Philip D Murphy

ASSEMBLY BILL NO 2146
(Third Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No 2146 (Third Reprint) with my recommendations for reconsideration

This bill would create a business assistance program ("the program") for socially and economically disadvantaged businesses Additionally, the bill requires the Director of the Division of Purchase and Property (DPP), in the Department of Treasury ("the Treasury"), to establish contracting agency procurement goals for socially and economically disadvantaged businesses It further requires each contracting agency to submit an annual report to the Treasury concerning the contracts the agency awards, allowing the State to measure whether progress is being made toward the objective of the legislation According to the bill's statement, the objective of this bill is to recognize the need to encourage, nurture, and support the growth of socially and economically disadvantaged businesses, to foster their development, and to increase the number of qualified competitors in the marketplace

I commend the sponsors of this bill for advancing legislation that promotes broader diversity and inclusivity in State procurement and endeavors to address past discriminatory practices in public contracting The certification of socially and economically disadvantaged businesses will advance our shared goal of ensuring more businesses have the opportunity to fully participate in New Jersey's multi-billion-dollar supply chain While I wholeheartedly endorse the goal and objective of this legislation, I am recommending several revisions to improve the administrability of the program and to provide more flexibility to implement the legislation within the confines of well-established constitutional principles

My recommended changes will enable the Treasury to certify socially and economically disadvantaged businesses for participation in the program and better align the process with the current certification process for Minority and Woman-Owned Business Enterprises ("MWBE") In 2020, the Treasury adopted new MWBE regulations that created a streamlined and more business-friendly process for certifying MWBEs By using the MWBE certification process as a model, my recommended changes will both make the bill less burdensome for the State to implement and simplify the certification process Moreover, by eliminating some of the bill's more rigid requirements, my proposed revisions will ensure that the State has the flexibility to respond to fluctuating economic conditions and an evolving legal landscape

Programs like the one contemplated in this legislation will be crucial as we continue to assess the procurement process to address disparities between the availability and utilization of small and disadvantaged business enterprises in particular market areas I am optimistic that my recommendations today, coupled with the many other initiatives in this area that we have undertaken

together, will accomplish the objective of the bill, align with the intent of its sponsors, and create a stronger and fairer New Jersey for all

Therefore, I herewith return Assembly Bill No 2146 (Third Reprint) with my recommendations for amendment

Respectfully,
Philip D Murphy
Governor

ASSEMBLY BILL NO 3092

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No 3092 with my recommendations for reconsideration

Assembly Bill No 3092 requires State agencies to update demographic data collection and reporting methods to better reflect the rich diversity of New Jersey's Asian American, Native Hawaiian, Pacific Islander, Middle Eastern, and North African communities Specifically, the bill calls for the disaggregation of certain demographic data to account for a wider range of ethnicities, marking a shift from outdated categorizations that tend to generalize and overlook unique socioeconomic distinctions of each ethnic group

I applaud the bill's sponsors and advocates for seeking to modernize New Jersey's demographic data collection and reporting practices This important legislation will help the State improve the administration of government programs and lead to better-informed policy decisions I am advised, however, that Assembly Bill No 3092 requires amendments that will afford State agencies the flexibility to comply with any distinct data collection and reporting practices required by federal laws, regulations, programs, or surveys, and to account for evolving standards and guidance that may be issued by the federal Office of Management and Budget or the United States Census Bureau in the future

I herewith return Assembly Bill No 3092 with my recommendations for amendment

Respectfully,
Philip D Murphy

ASSEMBLY COMMITTEE SUBSTITUTE FOR

ASSEMBLY BILL NOS 3677 AND 2807
(First Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Committee Substitute for Assembly Bill Nos 3677 and 2807 (First Reprint) without my approval

This bill would prohibit the sale, offer for sale, distribution, importation, exportation, or other propagation of certain invasive plant species in the State, except under a valid permit issued by the Department of Agriculture ("NJDA") The bill further requires the NJDA to adopt rules and regulations establishing and implementing a permitting program to facilitate the safe sale, import, export, introduction, distribution, and propagation of regulated invasive species in the State Under the bill, "regulated invasive species" include those invasive plant species enumerated in the bill and others that are formally designated as a regulated invasive species in a list to be published by the NJDA

The bill would also re-establish, and codify into law, the New Jersey Invasive Species Council ("Council"), originally created by Governor McGreevey in Executive Order No 97 (2004) The Council would be charged with a number of responsibilities relating to the identification and management of invasive species in New Jersey, as well as reviewing and revising the 2009 New Jersey Strategic Management Plan for Invasive Species that was prepared by the original Council

I commend the sponsors for seeking to combat the spread of invasive species that pose a threat to New Jersey's ecology through the establishment of a regulatory permitting scheme of invasive plants under the NJDA Invasive species have the potential to significantly impact both natural and agricultural resources throughout the State While the goals of the bill are laudable, I am concerned that the bill does not consider the existing authority of the New Jersey Department of Environmental Protection ("DEP") in this space Successfully controlling and limiting the spread of invasive species in New Jersey necessitates careful consideration of the framework already established under DEP around potentially dangerous species, which includes non-native and environmentally harmful species Additional discussion with the relevant agencies is needed to limit duplicative and unproductive efforts to address invasive species across the State

I look forward to working with the Legislature on building upon this legislation to advance a plan that will best mitigate the threats posed by invasive species I also look forward to ensuring that the NJDA has the necessary support to successfully administer an invasive species permitting program

Accordingly, I herewith return Assembly Committee Substitute for Assembly Bill Nos 3677 and 2807 (First Reprint) without my approval

Respectfully,
Philip D Murphy
Governor

The following conditional veto message was received from the governor, and its recommendations adopted, during today's voting session

ASSEMBLY BILL NO 4033

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No 4033 with my recommendations for reconsideration

This bill would permanently shift the deadline for the completion of a school district's annual audit to the January 31 next following the end of the school fiscal year The report of each annual audit would be required to be submitted to the Commissioner of Education ("Commissioner") not later than the February 5 next following the end of the school fiscal year This bill also provides that, notwithstanding the extended deadline for the submission of a school district's annual audit report, and notwithstanding the provision of any law to the contrary, a school district is required to submit the audit summary to the Commissioner not later than the January 15 next following the end of the school fiscal year

Under current law, all school districts must complete an annual audit no later than five months after the end of the school fiscal year The report of each annual audit in turn must be filed with the Commissioner five days after its submission to the Board of Education While I commend the sponsors' intent to provide a longer runway for the submission of school district audits, I am concerned that a permanent extension for the audits will undermine the school district budget process

School district annual audits not only ensure that funds are received and disbursed properly, but also help shape school district budgets Data generated by these audits are essential to creating responsible budgets, and any delays in data that flow from the audits has the potential to negatively impact the budget process Additionally, the audits generate key data necessary for the calculation and release of certified tuition rates and the Taxpayers' Guide to Education Spending, both of which districts rely on to create their budgets

Audited balances are also required to be included in the school district budget, and delays leave less time for districts to adjust the budget for changes in the amount of fund balance available Furthermore, delaying the timeline of the audits may have ramifications beyond the school district level given

the timeline of the Governor's Budget Message, which is typically presented to the Legislature by the end of February Delays in receiving the data will make it challenging to utilize any such relevant data in the budget planning process leading up to the Governor's Budget Message

Before instituting a permanent extension to the school district audit deadlines, we should fully analyze the potential repercussions, unintended consequences, and overall impacts of doing so As we return to more normal operations following the Coronavirus disease 2019 ("COVID-19") pandemic, a more prudent approach would be to extend the deadlines for two years coupled with an analysis on whether such extensions should be made permanent For this two-year pilot, which will apply to the audits conducted in connection with the 2022-2023 and the 2023-2024 school years, I am recommending changing the deadline for completion of the school district audit to the January 10 next following the end of the school fiscal year, and the submission of the audit summary to the Commissioner not later than the January 1 next following the end of the school fiscal year Additionally, under my recommendations, the annual audits would need to be filed with the Commissioner not later than the January 15 next following the end of the corresponding school fiscal year

Therefore, I herewith return Assembly Bill No 4033 with my recommendations for amendment

Respectfully,
Philip D Murphy
Governor

The following conditional veto message was received from the governor, and its recommendations adopted, during today's voting session

ASSEMBLY COMMITTEE SUBSTITUTE
FOR ASSEMBLY BILL NOS 4821 AND 4823
(First Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Committee Substitute for Assembly Bill Nos 4821 and 4823 (First Reprint) with my recommendations for reconsideration

This bill would require the Department of Environmental Protection ("DEP") and the Drinking Water Quality Institute ("DWQI") to establish a definition of "microplastics" and testing methodologies for microplastics in drinking water The bill would further require the DEP, within three years, to adopt rules establishing microplastics testing and reporting requirements for drinking water systems and institute criteria for laboratory certification

In addition, the bill would require the DEP and the Board of Public Utilities ("BPU") to complete a study, within two years, of the feasibility and benefits of using microplastics removal technologies in drinking water and wastewater systems, and to submit a report to the Governor and Legislature with the results of the study The study would include pilot microplastics removal projects and stakeholder engagement, and the report would include recommendations for legislative and executive actions and the development of a strategic plan to deploy, approve, and incentivize microplastics removal technologies

Following the submission of the report, the DEP and the BPU would be required to undertake a public education campaign to inform water system owners and the public about the importance of microplastics removal, available technologies, the goals and primary elements of the strategic plan, and available incentives The agencies would also be required to issue permits for removal projects and, within the limits of appropriated funding, to establish incentive programs to promote the use of removal technologies

I commend the sponsors of Assembly Committee Substitute for Assembly Bill Nos 4821 and 4823 (First Reprint) for their attention to the concerns associated with the ever-increasing prevalence of microplastics in drinking water, wastewater, and the environment in general, their efforts to take a multifaceted approach to the problem, and their recognition of the need for significant further study of this emerging issue However, I have concerns with several aspects of the bill as passed

In particular, I am concerned that this bill requires the development of methodologies for testing in advance of the study and requires DEP to promulgate regulations requiring mandatory testing and reporting immediately after the required study is completed Rather, in an area of emerging science such as this, the results of an initial study, and particularly the findings with respect to impacts on human health, are necessary to inform the next steps that DEP and DWQI will take For a contaminant found to pose a health risk, those next steps typically include more detailed studies of precise human health effects, actual testing capability, and treatment capacity, all of which are necessary in order for DEP to take steps to regulate a contaminant This further evaluation may, but does not always need to, include collection of data on local occurrence of the contaminant I am therefore recommending that, instead of requiring DEP to establish testing methodologies and sampling requirements, the bill be amended to require DEP to develop a definition of microplastics in drinking water as part of the study and, following submission of the report, to require DEP to work with DWQI to undertake the further studies necessary to inform future regulatory development if the study shows that microplastics in drinking water pose a health risk

I am further concerned that the requirement for the State to develop a plan to provide financial support and incentives for the deployment of microplastics removal technologies gets ahead of the very study the bill requires, presupposing that such technologies will be found to be feasible and cost-effective, that the public health and environmental risks of microplastics will justify the State financing the deployment of these technologies, and that a State plan coupled with incentives will be the best way to address potential health and environmental risks As a result, I am recommending that the final report not be required to include a strategic deployment plan, procedures for approving proposals, or financial incentives to promote adoption The report will still be required to provide recommendations on all actions that should be taken to facilitate, encourage, promote, support, or require removal of microplastics from drinking water, and DEP will still be required to evaluate the benefits of different technologies and the feasibility and desirability of establishing incentive or other financial support programs As such, the final report will necessarily include recommendations on these issues that the study shows to be appropriate

Additionally, in light of the significant extent of the issues to be studied and the limited available science to date on many of these issues, I am recommending that the study be narrowed to focus on microplastics in drinking water to provide a more manageable and cohesive scope, and that DEP be given additional time to complete the study I am, however, also recommending that DEP evaluate, as part of the study, important related questions regarding the entry of microplastics into our water resources and their proper disposal once removed DEP will also be required to assess a broader range of options for providing support to water systems with particular attention to smaller local utilities and authorities, which may face particular financial barriers when it comes to implementing new technologies

With respect to implementation of the study recommendations, I am similarly recommending that, if DEP develops grant, financing, or incentive programs based on the recommendations of the study report, such programs have a primary focus on smaller municipal and local systems

Finally, I am recommending other minor changes to provide greater clarity and administrability, including removing BPU from the study because the study's scope falls squarely within the DEP's expertise as the agency responsible for ensuring water quality and evaluating environmental contaminants, requiring DEP to coordinate with the Department of Health with respect to the public education and awareness campaign, and specifying that the recovery in rates by any public utility regulated by BPU of costs associated with any pilot or permanent projects is subject to BPU approval

Therefore, I herewith return Assembly Committee Substitute for Assembly Bill Nos 4821 and 4823 (First Reprint) with my recommendations for amendment

Respectfully,
Philip D Murphy
Governor

The following absolute veto message was received from the governor today

ASSEMBLY BILL NO 5283

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No 5283 without my approval

This bill directs all Title 45 professional or occupational licensing boards in New Jersey to collect data regarding comparable boards from each state in the United States to determine the national average processing time for the issued credentials The national average processing times are then to be implemented as the deadlines for application approvals within New Jersey, and if those deadlines are missed, licensing fee revenues collected by the board must be used to contract with a third party to develop best practices to meet the national average processing time The boards are required to subsequently implement the best practices as developed by the third party

If this bill were to be signed into law, over 50 professional boards would each be required to do national surveys of application processing times of all other states regulating their given professions for each category and sub-category of licenses issued This is problematic for a number of reasons First, other states with regulated professions will not necessarily have as stringent requirements as those imposed in New Jersey, casting doubt on the utility of these statistical comparisons Second, requiring professional boards to conduct these national surveys will utilize substantial resources that could be put to better use processing applications Third, this arduous process would be largely duplicative of work already undertaken by the Division of Consumer Affairs in the Department of Law and Public Safety ("DCA") The DCA routinely meets to review, identify, and discuss metrics for each board, including application review time, and is already well-equipped to identify any weak spots and to implement appropriate solutions when delays are identified Moreover, DCA has made significant strides in improving and streamlining the boards' approval processes in recent years

Accordingly, I herewith return Assembly Bill No 5283 without my approval

Respectfully,

Philip D Murphy
Governor

The following conditional veto message was received from the governor, and its recommendations adopted, during today's voting session

ASSEMBLY BILL NO 5416
(Third Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No 5416 (Third Reprint) with my recommendations for reconsideration

This bill would require the State Board of Education to authorize an alternate route to expedite the teacher certification of persons who are employed or have been employed by a school district as a paraprofessional or an instructional assistant Under the bill, the Commissioner of Education is to develop recommendations for the alternate route program after consulting with representatives of the education community The bill further specifies certain minimum criteria for the alternate route program, including, but not limited to, a formula for applying a candidate's direct classroom service to any student teaching requirements

I commend the bill's sponsors for recognizing the great potential in recruiting paraprofessionals and instructional assistants to the teaching profession They serve critical roles in our schools and make positive impacts on the lives of our students, and many of them consider becoming a certified teacher as the next step in their career I am concerned, however, that this bill may be counterproductive in achieving the bill's intended objective which is to encourage and make it simpler for these individuals to obtain a teaching certificate The Department of Education currently provides an expedited certification review process for paraprofessionals and instructional assistants Creating an alternate route as contemplated under this bill may cause significant confusion to prospective candidates in the application process

Instead, efforts should focus on addressing obstacles facing education support professionals when seeking teaching certification, including by providing supports towards degree attainment My recommendations will change the creation of an alternate route for paraprofessionals and instructional assistants into the creation of a paraprofessional educator pathway, which would apply to paraprofessionals and instructional assistants pursuing a Certificate of Eligibility with Advance Standing ("CEAS") in a specific endorsement area The pathway will include counting a candidate's direct classroom service that meets the clinical practice requirements for the CEAS as credit towards the clinical practice requirements found in N J A C 6A 9A et seq Furthermore, the pathway will include a requirement that the

school district in which the candidate is currently authorized to work make every reasonable effort to place the candidate in a classroom setting in the endorsement area the paraprofessional is seeking Finally, my recommendations will allow educator preparation programs to be approved as preparation programs specifically for the paraprofessional educator pathway

Therefore, I herewith return Assembly Bill No 5416 (Third Reprint) with my recommendations for amendment

Respectfully,

ASSEMBLY BILL NO 5610
(Third Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No 5610 (Third Reprint) with my recommendations for reconsideration

Assembly Bill No 5610 (Third Reprint) amends N J S A 2C 33-15 to allow for the issuance of a $50 fine and a complaint-summons to municipal court for a juvenile — an individual under the age of 18 years old — found to be in possession of alcohol Additionally, this bill amends the provision relating to a law enforcement officer's involvement with a juvenile if the officer believes the juvenile possesses either alcohol or marijuana N J S A 2C 30-6 1 was previously amended to lower the threshold for law enforcement officers to be found guilty of the crime of deprivation of civil rights when interacting with juveniles suspected of using or possessing alcohol or marijuana This bill reverts that section back to its original language, which provides that for a law enforcement officer to be found guilty of deprivation of civil rights, the aggrieved individual must prove that the officer acted with the purpose to intimidate or discriminate because of a protected characteristic

I commend the bill's sponsors for listening to law enforcement officers who have expressed concerns about the language relating to the deprivation of civil rights Simply put, there was no need to amend the longstanding criteria to establish this criminal offense, and this change and the uncertainty regarding its application has chilled law enforcement officers from interacting with juveniles found in possession of alcohol or marijuana

However, the imposition of a fine of any monetary amount runs counter to the progress that this Administration and the Legislature have

made in our juvenile justice system Research indicates that fines and fees do not have a deterrent impact on delinquent behavior, and instead only drive additional contact with the criminal legal system Affluent individuals who have the financial resources to pay fines can do so repeatedly without any impact on their behavior, which neither serves as a deterrent from future delinquent behavior nor addresses the underlying concerns with substance use Individuals without those same resources, who are disproportionately juveniles of color, are at risk for further involvement with the legal system because of non-payment These consequences affect not only the juvenile but the entire family unit Moreover, there is no persuasive justification for treating the possession of alcoholic beverages more harshly than the possession of cannabis items, which is not subjected to monetary fines under the bill

My Administration strives to alleviate disparate racial and socioeconomic outcomes in the criminal legal system and to address substance use matters with an approach focused on public health I am therefore recommending amendments that remove the fine and complaint-summons relating to juvenile possession of alcohol My amendments do not alter the language eliminating the lower threshold for claims of deprivation of civil rights arising out of law enforcement encounters with juveniles suspected of using or possessing alcohol or marijuana I am grateful to the bill's sponsors for sending that provision to my desk, and I am hopeful that the Legislature will swiftly concur with my recommendations and enact that provision into law

Accordingly, I herewith return Assembly Bill No 5610 (Third Reprint) with my recommendations for amendment

Respectfully,
Philip D Murphy
Governor
