STATE OF NEW JERSEY,  
SENATE CHAMBER,

TUESDAY, January 10, 1961.

At 12:00 o'clock noon, this being the time and place appointed by the Constitution for the assembling of the Legislature, the Senate was called to order by the Honorable George B. Harper, Senator from Sussex County.

The following statement was read by Mr. Henry H. Patterson:

STATE OF NEW JERSEY,  
DEPARTMENT OF STATE.

I, EDWARD J. PATTEN, Secretary of State of the State of New Jersey do hereby certify that the following Members of the Senate have been duly qualified:

Atlantic County—Frank S. Farley.

Bergen County—Walter H. Jones.

Burlington County—Henry S. Haines.

Camden County—Joseph W. Cowgill.

Cape May County—Charles W. Sandman, Jr.

Cumberland County—Robert H. Weber.

Essex County—Donal C. Fox.

Gloucester County—Thomas F. Connery, Jr.

Hudson County—William F. Kelly, Jr.

Hunterdon County—Wesley L. Lance.

Mercer County—Sido L. Ridolfi.

Middlesex County—John A. Lynch.  
 Monmouth County—Richard R. Stout.  
 Morris County—Thomas J. Hillery.  
 Ocean County—W. Steelman Mathis.  
 Passaic County—Anthony J. Grossi.  
 Salem County—John A. Waddington.  
 Somerset County—William E. Ozzard.  
 Sussex County—George B. Harper.  
 Union County—Robert C. Crane.  
 Warren County—Wayne Dumont, Jr.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed my Official Seal at Trenton, this tenth day of January A. D. 1961.

EDWARD J. PATTEN,  
*Secretary of State.*

[SEAL]

Mr. Jones nominated Mr. Cowgill for the office of temporary President. There being no further nominations, Mr. Cowgill was declared elected to the office of temporary President by voice vote.

Mr. Farley and Mr. Waddington escorted Mr. Cowgill to the rostrum.

Mr. Stout nominated Henry H. Patterson for the office of temporary Secretary. There being no further nominations, Mr. Patterson was directed to call the roll.

In the affirmative were—

Messrs. Connery, Cowgill, Dumont, Farley, Fox, Grossi, Haines, Harper, Hillery, Jones, Kelly, Lance, Lynch, Mathis, Ozzard, Sandman, Stout, Waddington, Weber—19.

In the negative—None.

Mr. Patterson was declared elected as temporary Secretary.

Mr. Jones nominated Mr. Harper as President *pro tempore*. There being no further nominations, the Secretary was directed to call the roll.

In the affirmative were—

Messrs. Connery, Dumont, Farley, Fox, Grossi, Haines, Harper, Hillery, Jones, Kelly, Lance, Lynch, Mathis, Ozzard, Sandman, Stout, Waddington, Weber—18.

In the negative—None.

Mr. Harper was declared elected President *pro tempore*.

Messrs. Stout, Mathis and Lynch escorted Mr. Harper, President *pro tempore*, to the rostrum, whereupon, Mr. Cowgill administered the oath of office to Mr. Harper as President *pro tempore*.

Mr. Jones moved to proceed to the election of a permanent President of the Senate, which motion was adopted.

Mr. Jones nominated Mr. Hillery for the office of permanent President of the Senate.

Mr. Cowgill seconded the nomination. The temporary Secretary was directed to call the roll.

In the affirmative were—

Messrs. Connery, Cowgill, Dumont, Farley, Fox, Grossi, Haines, Harper, Jones, Kelly, Lance, Lynch, Mathis, Ozzard, Sandman, Stout, Waddington, Weber—18.

In the negative—None.

Mr. Hillery was declared elected President of the Senate for the legislative year and was escorted to the rostrum by Messrs. Farley, Sandman and Fox.

Messrs. Jones, Ozzard and Kelly escorted Judge Eldon R. Mills to the rostrum for the purpose of administering the oath of office to President-elect Hillery.

The oath of office as President of the Senate was administered by Judge Eldon R. Mills.

After the oath of office was administered, President Hillery addressed the Senate as follows:

The opening session of a new year is always an historical event since it marks the milestone of an accomplishment and the planning of a new year.

We have closed a successful term under the leadership of our distinguished colleague, Senator George Harper. I trust that I will show the same grace with which he conducted our meetings.

My brother senators have bestowed a distinct honor on me this day by placing me in this high post. I am particularly sensitive to the offer made by my good friend Senator Robert Crane to make a special effort to be here.

It is this type of loyalty which exemplifies the true spirit of brotherhood. I am also aware of the decision reached by the Democratic members of the Senate under their leader Senator Cowgill. In their generosity they have made it possible for Senator Crane to continue his return to health. . . . We must all applaud their action. We all await Senator Crane's return. We miss him for he has proved himself a valuable member of this body.

This is a banner day for my home county of Morris—we are proud of our county because it played such an important role in the decisions which shaped the destiny of this great nation. If we examine history we will know this.

Today the county is one of the fastest growing areas of the metropolitan district and this growth is being handled in an expert fashion by our county and local governments' planning and zoning boards. It is a task requiring patience and knowledge. These are being supplied.

You have honored Morris County as you honor me. It might be of interest to call the roll of the Senate presidents from Morris in the period since 1850.

1849—Ephriam March.

1889—George T. Werts.

1901—Mahlon Pitney.

1908—Thomas J. Hillery.

1953—David Young 3rd.

You will note that 52 years have elapsed since my father held this position. If he were here today I am sure he

would chide me by saying "I wondered—would you ever make it."

To my colleagues I extend a heartfelt "thank you."

Today marks the 185th session of our Legislature.

New Jersey is rich in history, in culture, religious fervor, industrial growth, educational opportunities and all the attributes which make up a healthy society. It follows then that serving in our elected capacities that we are the recipients of a rich experience, one that broadens our minds and hearts. We are better for the experience and we give the best that is in us as we deliberate and act on what is best for the citizenry of the State. We are motivated in this by our own deep religious convictions.

When one has lived through legislation years, particularly when a new Constitution was prepared and adopted by the people—we instinctively know the divisions and segments of this great body politic . . . when we have served preparing the yearly budgets we share a housekeeper's knowledge of the many services and the needs of the people.

One of the fears of any society is the cost of the government which controls its affairs. Political beliefs differ on the need and extent of control and services. I believe that as legislators we should examine our government in this light. We are constantly told here in Trenton that the people need more State services . . . but this request is usually brought to us by those who lobby for services. It is well to remember that lobbyists are expected to produce for their constituency . . . without results . . . there is little enthusiasm for their service. It is the responsibility of any representative to check his constituency and know how valid the demands are that are presented to him here on the Senate floor. Surely there is an area of rationalism.

For several years now a commission has been awaiting appointments and funds to analyze and streamline State Government under the new Constitution. Having worked on the original commission with excellent help from business and department heads—I know that much can be done to put the State's affairs on a true business basis. How can we go to the people with proposals for new revenues if we are not aware of where savings can be effected?

History will tell us that the early days of the legislation meeting in New Jersey were marked with strife and storm

against financial depletion of the people for the crown. Within the last few months an important agency, a creature of both the New York and the New Jersey legislatures has come into sharp focus before the minds of the people—I am speaking of the Port of New York Authority. This Authority has been the subject of important legislation during the 1960 session of this Senate. We all know the Port Authority deserves credit for many of the major installations it has built in the metropolitan area. Some of the criticism levelled against it has been unfair, but there is one fact that the Senate Investigating Committee and the Congressional Committee have brought to light; namely, that the Authority, despite commissions appointed by the legislatures of both States, is run as a very closed operation . . . unfortunately this operation is not alone closed but smacks of arrogance which to me is intolerable in any kind of government.

The Port spends large sums of money collected from the people for public relations and it has a surplus which approximates one fifth of the total cost of running the State Government of New Jersey. The State has no surplus to speak of . . . this past year it stood some \$600,000.00 out of a budget of some 340 millions. Power and money are to be feared if they are not closely controlled. In my judgment the operation of the Port should be brought closer to the people. There is no reason why the public should not be conversant with all its operations . . . especially the financial ones—the public pays the bill.

The law should be amended to provide that all reports and minutes of the Port Authority meetings be delivered to the President of the Senate and the Speaker of the House; further, it would be worthy of consideration to give the legislative bodies the veto power over Port actions by concurrent legislative action.

Since we are hearing requests for new revenues for the State, it would not be out of order to request the Port to contribute directly a percentage of its revenues to both States to help in budgetary problems. If such a request is resisted, then the tolls should be reduced on bridges and tunnels.

It is shocking but true to learn the Port of New York Authority spent over a million dollars this past year on community relations.

In another area, the Port should be restricted from entering into competition with private industry. It is wrong for a government agency to kill the incentive which provides State revenues. Lastly the Port should desist in its courting of legislative representation.

My observations of necessity have been brief today. I am sure the Senate Investigating Committee under Senator Farley will give serious consideration to these and other recommendations which will come to his committee.

We face a difficult year; a year colored with political overtones. We will be working in many cases with an evenly divided house—such a situation will require tolerance and patience from all. It is my hope that we subject ourselves to a personal restraint exemplified in true humility as we face the task before us. Let us remember that we are legislators first. If we do this, God cannot help but bless our deliberations and decisions and when the year's end rolls around, we will be justly proud of our accomplishments.

Upon announcement by President Hillery that the Senate has organized and is now ready to proceed with business, the 1961 Session was opened with prayer by the Rev. J. Francis Feenan, of Our Lady of Mt. Carmel Church, Boonton, New Jersey.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Connery, Cowgill, Dumont, Farley, Fox, Grossi, Haines, Harper, Hillery (President), Jones, Kelly, Lance, Lynch, Mathis, Ozzard, Sandman, Stout, Waddington, Weber—19.

Mr. Stout moved to proceed with the election of a permanent Secretary of the Senate.

Mr. Stout nominated Henry H. Patterson, of the county of Monmouth, as permanent Secretary of the Senate. There being no further nominations, President Hillery directed Mr. Roy J. Schleich to call the roll.

In the affirmative were—

Messrs. Connery, Cowgill, Dumont, Farley, Fox, Grossi, Haines, Harper, Hillery (President), Jones, Kelly, Lance, Lynch, Mathis, Ozzard, Sandman, Stout, Waddington, Weber—19.

In the negative—None.

President Hillery declared Mr. Patterson elected permanent Secretary and administered the oath of office to Secretary Patterson.

Mr. Jones offered the following resolution which was read and adopted:

*Resolved*, That a committee of three be appointed to await upon His Excellency the Governor and inform him that the Senate has organized and elected the Honorable Thomas J. Hillery, of the county of Morris, President, and Henry H. Patterson, of the county of Monmouth, Secretary, and is now ready to proceed to business and also to receive any communications that he may forward.

The President appointed Messrs. Harper, Farley and Cowgill to await upon the Governor, in accordance with said resolution.

Mr. Jones offered the following resolution which was read and adopted:

*Resolved*, That the Secretary of the Senate be directed to inform the General Assembly that the Senate has organized and elected the Honorable Thomas J. Hillery, of the county of Morris, President, and Henry H. Patterson, of the county of Monmouth, Secretary, and has proceeded to business.

Mr. Jones offered the following resolution which was read and adopted:

*Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):*

That at 2:30 P.M., both Houses of the Legislature meet in joint session for the purpose of receiving the Annual Message of His Excellency Robert B. Meyner, Governor of the State of New Jersey, which will be delivered in person.

On motion of Mr. Jones, the Senate recessed and proceeded to the Assembly Chamber for the purpose of receiving the Annual Message of the Governor.

## GOVERNOR'S ANNUAL MESSAGE TO THE LEGISLATURE

January 10, 1961.

*Mr. President, Mr. Speaker and Members of the Senate and General Assembly:*

New Jersey has a proud heritage. Many of our concepts of the rights of man and of representative government were wrought in pre-Revolutionary times. We were the third State to ratify the Federal Constitution. Our shores have been a haven to people of varying ancestry. Our growth has been steady. In the past ten years our population has increased by 25 percent. We are leaders in many fields.

Our achievements are due in no small measure to our peoples' foresight in accepting constitutional reform. Likewise, our public officials have been alert to the need for legislative change, administrative action and judicial interpretation. Change begets growth and growth begets change. A recognition of developing situations before they reach crises proportions is essential if our State is to serve our citizens in a forward march of progress.

Much of our expansion has been spontaneous. True, we have had mechanisms that encouraged growth. But unplanned growth has brought problems which call for solution. Technological knowledge and increasing scientific achievements promise more rapid change.

It is true that New Jersey has much to its credit in coping with new situations. But it will take more reflection, more foresight and more planning if we are to serve our fellow-citizens adequately and maintain our forward position among the 50 States.

Now is the time to look at our handiwork and that of our predecessors. Let us see how it works. Let us recognize any deficiencies. Let us build on the past, examine the present and plan for the future.

In constructing a building it is far better to plan to the last detail beforehand than to build hurriedly and alter afterward. In State Government it is even more important

that we plan well, for we are not merely putting up a building. Look at what we build as we govern this great State! We are providing law and order; essential protection of life and health; guardianship of the sick, the poor and the infirm; the education of our youth; protection of civil and economic rights of all citizens; highways; the climate for job opportunities and industrial growth; the development of precious resources. We create a framework for the prosperity of six million citizens and millions more to come.

These are great responsibilities. We must plan well and act wisely and imaginatively as we move into this new legislative year.

## I. LAW AND ORDER

### A. REPRESENTATIVE GOVERNMENT

One item on the 1961 legislative agenda stands out above all others—fair representation of the people. Our population is nearly 2,000,000 greater than it was when the General Assembly seats were last apportioned—20 years ago. Our congressional districts were established 30 years ago. The growth in these periods has been accompanied by drastic changes in the relative populations of our counties and districts.

Atlantic County has double the Assembly voice of Burlington County, yet it now has 28 percent fewer people than Burlington. In Union there is now one Assembly vote for every 126,000 people. By contrast, it is one for every 68,000 people in Hudson County. And these are, by no means, the only inequities.

Ideally, under our 1960 census, each of our congressional districts should have roughly 400,000 people. The fact is, however, four districts now have more than 550,000 and five have less than 320,000. There are just over 250,000 people in one of our districts—another has over 660,000 people. We must provide for another congressional district before the 1962 elections. If we don't, we will have a congressman-at-large.

We cannot afford continued neglect of these problems. Government must be representative of the people. A generation of neglect is too much.

This year, the parties share control of State Government. Next year, this may not be so. I urge you to use this opportunity to reach a bi-partisan solution on reapportionment and redistricting in 1961.

#### LEGISLATIVE PROCESS

I suggest broader use of the committee system. Each year you are faced with a thousand or more bills on all kinds of subjects. Many of the bills are complex. Without a working system of committee hearings, discussions and reports, sound appraisal of each measure is nearly impossible for any legislator. On important bills the public hearing process should be more widely employed.

We must keep in mind that a legislator represents all the people, not just those of his party or the area from which he comes. Excessive partisanship or provincialism impedes the legislative process.

I urge both houses to adopt a rule providing for report of a bill and for a vote upon petition of one-third of the members.

#### CONFLICT OF INTERESTS AND DUTIES

The Legislature should define the areas where private and public conduct come into conflict. There should be a definition as to what offices are conflicting. A resort to litigation or a search of the vague common law concepts is a poor substitute for legislative mandate. The administration has taken executive action in this sphere, but that is not enough. We need a legislative code for all levels and branches of government.

#### B. REVISION OF LAWS

Periodic revision of our laws is essential to combat obsolescence and to fit the continuing legislative product into consistent patterns. I am pleased to report progress in our revision efforts.

The first chapters of the revision of our county and municipal law were approved last week. The balance of the entire revision of this title will be presented to you before the end of this session.

The first stages of the revisions of Title 18, Education, and Title 14, the General Corporation Laws, will soon be

submitted. The revision of Title 38, the Militia, will be presented this session. The Public Utility Commission has just completed its revision of Title 48. The Attorney General's Office is finishing a revision of the Weights and Measures Law for your consideration this year. The Commissioner of Banking and Insurance recently arranged for a citizens' group to study the laws on branch banks and to recommend necessary changes.

The Uniform Commercial Code Commission recently presented a complete study of the Code as it would affect New Jersey. Hearings have been held, and the Code is ready for legislative attention. This modernization of our commercial law should be adopted this session.

An insurance law revision commission was approved nearly two years ago, but no money has been provided. I again urge an appropriation for the work of this commission.

Other titles of our statutes are overdue for revision. The Election Law and the Motor Vehicle Laws are prime examples. These and other revisions require the full cooperation of the executive branch. This you have. But we must bear in mind that the basic responsibility for law revision rests with the Legislature.

#### CENSUS ADJUSTMENT

The final report on the 1960 census should be available this month or next. This will affect many areas of government. I arranged last year for a full study outlining the legal effect of the new census figures. This is available to you. It warrants immediate attention.

#### C. LAW ENFORCEMENT

New Jersey has had a good record in law enforcement in recent years. A large factor has been our ability to respond to emerging needs before they become critical. The consumer protection measures of last session—the home improvement act, the sales finance law, the consumer fraud bureau, our securities regulation statute—these and other measures have assisted legitimate business enterprise and have strengthened our hand against the fleecers and the frauds.

In the area of criminal law enforcement, however, there are needs which remain unmet.

## POLICE TRAINING

The police training measure is of principal importance. Some 750 men will become permanent policemen this year. They will handle deadly weapons; they will administer increasingly intricate detection devices; they will contend with highly skilled criminals; they will share the responsibility to protect the lives and property of six million people. Yet we do not require that they be trained. Some are, of course. But many are not.

The police training bill would require a period of training for police appointees before their appointments become permanent. Home rule would be preserved.

This bill has broad and responsible support. I urge action at an early date.

## CRIMES AND ADMINISTRATION

Several important legal weapons must again be requested to keep ahead in the fight against criminal elements.

—The witness immunity bill—to enable law enforcement officials to get vital testimony otherwise unavailable.

—The crime reporting measure. It is particularly important in fighting organized crime that we have a continuing picture of criminal activity throughout the State. The crime reporting bill will provide this.

—Bills to strengthen the laws on extortion and bribery.

—Licensing and regulation of refuse collection and disposal. The widespread abuse in this area has been shown clearly in the investigations by the Attorney General and the Senate Committee.

—A bill authorizing Regional Grand Juries to act where criminal activity ranges beyond county lines.

Each of these has been before you in the past. There is no reason for further delay.

In addition to these measures, I will submit a bill to impose criminal penalties for collusive bidding on public contracts. This bill has the full backing of the prosecutors' conference.

The Waterfront Commission recently reported the difficulty it has encountered in reaching certain criminal elements. I will submit legislation to amend the Waterfront Act as recommended by the Commission.

#### PROSECUTORS' SALARIES

Prosecutors' salaries need legislative attention. These men are seriously underpaid. Three receive the same salary paid in 1926. In at least one case, the prosecutor's maximum is less than the salary received by his assistant. The present law is so poor that one prosecutor will get no salary at all under the 1960 census. The public relies on the prosecutors to carry full-time responsibilities as the chief law enforcement officers of the counties. I believe we have a responsibility to compensate them at an adequate rate.

#### D. THE ADMINISTRATION OF JUSTICE

I commend you for increasing the number of judges. We had to see the crisis before we acted, but action did come and the problem is abated for the present.

#### JUDICIAL TENURE

Last year I concurred in the proposal to provide tenure for magistrates, with certain recommendations concerning its application, mandatory retirement age, and removal procedures. I repeat these recommendations, and call your attention to the question of tenure for judges at the county level. It is hardly fitting to grant tenure to part-time magistrates and deny it to full-time judges. Reasonable tenure provisions should be adopted for all judicial positions.

#### MUNICIPAL COURTS

In my message a year ago I recommended a legislative look at our Municipal Court system. I do not believe that justice is best administered by 505 separate, part-time courts. I recognize the great improvements in the Municipal Court system, and I endorse efforts, such as the tenure proposal, to improve it further. But the number and structure of these courts severely circumscribe all improvement efforts. We may not have reached a crisis, but the need for change is apparent. I urge you to seek a practicable alternative to the host of Municipal Courts.

## II. GUARDING LIFE AND HEALTH

### A. ACCIDENT PREVENTION

New Jersey was recently honored as the "Green Cross State" for 1959. We ranked first among all the States in overall accident prevention.

#### ON THE HIGHWAYS

The major reason for the honor was our record in traffic safety. The mileage death rate for 1959 was 3.1 per 100 million miles of vehicular travel, a record for our State. Tentative figures indicate another record in 1960—a rate of 2.9. This is the third lowest among all the States, a remarkable achievement for the most crowded vehicular State of all. But even more significant than the rate is the fact that, despite increases in travel, fewer lives were lost on our highways in 1960 than in 1959.

During 1960, several traffic safety programs were instituted or blueprinted for the immediate future. We entered reciprocal enforcement pacts with Connecticut and Pennsylvania. Others are in the making. We instituted uniform post-mortems to determine the influence of alcohol in traffic tragedies. We also began an intensive program to develop pedestrian safety habits among our elderly citizens.

Proven programs will be continued this year. We will continue to pioneer in safety engineering for highways. Enforcement efforts will be pushed.

But even greater efforts are necessary. Despite the fatality record, traffic accidents in 1960 were up sharply from 1959. The number of licensed drivers is 50 percent higher than 10 years ago. Our automobile arteries, the busiest in the nation, become busier day by day.

We need legislative action.

As I stressed a year ago, the drinking driver takes a deadly toll. Indications are that alcohol is a factor in close to half of all fatal accidents. I repeat the request for the "implied consent" bill to require a scientific test of suspected drivers.

Traffic safety co-ordinators should be put on a full-time basis in each county. The measure to accomplish this will

be resubmitted. I urge action also to improve the statutes governing commercial vehicle lighting, and to increase the penalties for drivers who operate vehicles while on the revoked list.

#### ON TIDAL WATERS

The bill governing power boats on tidal waters failed to pass last year. This has been costly in terms of safety, and in the loss of revenue to improve boating conditions. It has also resulted in a duplication of licenses for those who use both our lakes and tidal waters. New York and Delaware have acted, and Pennsylvania plans to follow suit. In New Jersey, however, the Coast Guard is now numbering power vessels on our tidal waters with negligible benefit to the State or the boatmen.

A study group representing legislators, boating interests and the administration has a boating measure ready for introduction. The Coast Guard will cease numbering vessels if we enact this bill which will recognize the federal numbers for at least one year. I request your urgent attention to this measure.

#### ON THE JOB

We need a modern law on safety practices in construction work. The existing statute is an ill-fitting, inflexible survivor of a past generation. Literal enforcement would impede work in the construction industry. A modern measure to replace the existing law was submitted last year. It has the approval of industry and labor and deserves priority treatment.

### B. HEALTH PROTECTION

#### MODERN FOOD AND DRUG LAWS

New Jersey's food and drug laws were drawn for an era now gone. They are out of touch with today's technology. They must be rewritten for the sixties if we are to continue to guard the health of our citizens as food and drug consumers.

In addition, New Jersey does not license the manufacture of drugs. This has opened the public supply to contamination by counterfeit drug products. I recommend that New

Jersey license drug manufacturers to insure compliance with adequate manufacturing standards. Responsible manufacturers actively endorse State licensing.

Our consumer protection bills of last year drew great acclaim, yet they protected only the citizen's pocketbook. These food and drug bills are fundamentally more important—they will protect the citizen's life and health. I hope you will join in an effort to obtain early enactment.

#### CONTROL OF RADIATION

A recent amendment to the national atomic energy act authorizes transfer to the States of the power to regulate certain sources of radiation. I recommend that our Radiation Protection Act be altered to enable New Jersey to take advantage of this program. This will enhance our ability to protect the health of the growing number of citizens who work with radiation sources. It will also encourage development of nuclear industrial enterprises.

#### HEALTH RESEARCH

The Department of Health is expanding its efforts to find the facts of disease and death. Its new "anti-coronary club," an effort to use diet control to aid persons who have had a heart attack, is an example of the expanding research. The success of efforts such as this will be aided by legislation to assure anonymity to those who cooperate by submitting personal data to Health Department research teams. I ask early approval of an appropriate measure.

### III. OUR SPECIAL RESPONSIBILITIES

Some of our citizen groups require special attention. The infirm, the mentally disturbed, our youth, the aging—government has a special responsibility for the well-being of these citizens. We have made significant progress in meeting this responsibility in recent years. More can be done at this session.

#### ADMINISTRATION OF PROGRAMS FOR THE NEEDY

The Alexander Commission last year gave us a blueprint for progress in the work of our institutions and agencies. Some of the recommendations already have been adopted; others are in process. A major one concerning the adminis-

tration of public welfare is now ready for legislative action. It would transfer the work of the State Board of Child Welfare to a Bureau of Children's Services and create a citizen Board of Public Welfare to oversee all welfare programs. It would also transfer the administration of financial assistance for the needy blind to complete the unification of all categorical assistance programs. The State would relieve the counties of one-half of the county cost of blind assistance. The Commission for the Blind would continue to administer the specialized services it has so notably developed. I commend this bill to you.

#### MEDICAL CARE FOR THE NEEDY

The Commission on Public Medical Care last year proposed a unified system of comprehensive medical services for the needy. An implementing bill came before you last session. There is considerable support for the Commission's conclusions, though, of course, new revenues would be required.

Since the Commission reported, Congress has acted to help finance state programs for the "medically indigent." But its program applies only to persons over 65. Moreover, some of the conditions required by Congress are in conflict with the Commission's proposed legislation.

It is likely that Congress will soon inaugurate a broad new program to finance medical care for the aging. We must learn the dimensions of that program before designing a permanent State plan. With that knowledge, we can draw supplementary legislation to insure that all citizens get the protection they need. The Department of Institutions and Agencies is in day-to-day touch with developments in Washington. It will submit full recommendations as soon as possible.

#### THE MENTALLY ILL

We have made progress in our programs for the mentally ill. Through bi-partisan cooperation at the end of last session we launched the important construction program. In the past year we gained full accreditation of three of our psychiatric hospitals, and we expect similar rating for the other two in the near future. All five hospitals are now approved for the full three years of training required for certification by the American Board of Psychiatry and Neurology.

This year, the final report of the Commission on Mental Health is scheduled. The Commission's report should serve as a guide for further constructive action for the mentally ill.

#### THE SICK AND INFIRM

I urge you to approve measures, to be submitted, further insuring safe and healthful conditions in the nursing homes, hospitals and boarding houses of our State.

#### THE RIGHT OF THE AGING TO WORK

A study last year showed widespread discrimination against older job seekers. Several bills on the subject came before you last session. I urge you to join forces this year on a measure to ban discrimination in hiring solely because of age.

#### TAX RELIEF FOR THE AGING

The voters have approved a tax exemption for older citizens with limited income. This should be implemented by legislation this session.

#### TAX BASIC EDUCATION OF YOUTH

The Commissioner of Education has proposed a study of the operation of our school aid laws. I endorse the proposal and urge your support.

#### ADVANCED EDUCATION FOR YOUTH

The Scholarship Commission has reported on a full year's experience with the State scholarship law. It recommends that the limitation on scholarships to out-of-State schools be eased or abandoned. The Commission also recommends an annual review of the scholarships based on the students' need, residence and scholastic progress; and that school records as well as test scores be weighed in the initial selection of recipients.

These are sound recommendations. Legislative action should not be delayed any longer.

The Department of Education will soon publish a report on the need for public two-year colleges and technical institutes. This is an important matter and the Department's findings will merit careful attention.

#### IV. CIVIL RIGHTS

Last year we enacted legislation facilitating enforcement of our law on civil rights. There is now considerable sentiment to extend the law to eliminate discrimination in all types of housing. I believe we must consider this seriously.

I urge your consideration of legislation to tighten our laws governing discrimination by State suppliers and contractors, and to strike those statutes which now require submission of unnecessary ethnic data.

#### V. A FRAMEWORK FOR LABOR AND INDUSTRY

We have a responsibility to reshape the laws concerning labor and industry into a realistic framework for economic progress in the sixties.

##### UNEMPLOYMENT AND WORKMEN'S COMPENSATION

Our unemployment compensation law has not been substantially revised for more than 20 years. An overhaul is overdue. Contributions are still based on \$3,000 of wages, yet today the average yearly wage in covered employment is nearly \$5,000. Benefits, though increased slightly from time to time, are still keyed to the economy of a past generation. Eligibility standards need revision. Outgo has exceeded income in the operation of our system and employers are faced with even higher rates. This places us in a dangerously unfair competitive position with other States.

Our workmen's compensation and temporary disability programs have similar shortcomings.

The Legislature's failure to agree on proper changes in these laws is costly to the economy of this State. The subjects have been fully researched. All the material is in your hands. I urge you to lay aside partisanship and move ahead on these programs.

##### LABOR-MANAGEMENT RELATIONS

New Jersey still does not have effective machinery for the resolution of labor disputes. A labor-management relations act will be presented. I urge you to give it fresh consideration in the interests of labor, management and the public.

## MINIMUM WAGE LAW

New Jersey has had laws dealing with the wages of women and children for more than 50 years. It is difficult to understand why an all-embracing minimum wage law has not been enacted. The need is clear; the solution is tested. I again ask for action on such a bill.

## VI. HOUSING AND URBAN RENEWAL

The Limited Dividend Housing Law was amended last year to provide a realistic return on investment and increased payments to municipalities in lieu of taxes. Significant progress has followed in housing for families of moderate income. New projects are advancing in Paterson and Asbury Park and more are planned elsewhere. We also inaugurated a program of financial and technical assistance to municipalities preparing urban renewal programs. But housing and urban renewal needs still require attention.

I propose the following five-point program:

First—A State bond issue for long-term, low interest loans to promote private construction of middle-income rental housing in urban areas.

Second—Local Housing Authorities should be authorized to construct rental housing for middle- as well as low-income families.

Third—Legislation should be adopted to encourage private enterprise to participate in urban renewal programs consistent with our housing needs. This legislation, together with a continued program of State assistance, should step up State-wide urban renewal efforts.

Fourth—A State program to promote construction of rental units for older citizens under Title II of the National Housing Act of 1959.

Fifth—Municipalities should be given the power of eminent domain to acquire land for middle-income housing projects under the Limited Dividend Law in non-urban renewal areas. This would prevent excessive price demands which now hamper communities seeking to meet legitimate middle-income housing needs.

## VII. TRANSPORTATION

### RAILROADS

Last year we took an important step to salvage dwindling railroad passenger service. Our contracts with railroads under this program cover 95 percent of the suburban passenger car miles now in operation. It is notable that the three carriers which do not participate have petitioned to abandon their passenger service.

Recently we added five measures to aid rail carriers. We must continue our search for solutions to the mass transportation problem. The contract program should be continued this year. Two other steps should be taken at this session:

### COMMUTER BENEFIT TAX

We cannot solve the transportation problem by magic. It takes money. I am perplexed by the Senate's refusal to approve the commuter benefit tax proposal. Here is a measure to provide nearly \$40 million to meet the transportation needs in our northern metropolitan area—without a single cent of additional cost to our citizens. The commuter's money now goes to New York State. It ought to come to New Jersey where it would be put to work for his benefit.

### HUDSON AND MANHATTAN

The Hudson and Manhattan Railroad is essential to the swift movement of people between New Jersey and New York. After conferences with our Railroad Division, the Port of New York Authority announced its willingness to purchase, modernize and operate the Hudson and Manhattan. This will be a constructive step in the development of our interstate transportation facilities. Legislation authorizing this program is a "must."

### THE DELAWARE COMPACT

New Jersey has a voice in the operation of all major interstate river crossings except the Delaware Memorial Bridge. Bipartisan representatives of New Jersey and Delaware have prepared a compact which will give us a proper say in the operation of this and future crossings to Delaware. The compact legislation was amended by the

Legislature to restrict our representatives to a few southern counties. The interest of the State as a whole is entitled to consideration here. I urge adoption of the compromise plan offered at the last session.

## VIII. PRECIOUS NATURAL RESOURCES

### A. GREEN ACRES

We have made significant progress in the last 10 years in acquiring and developing open lands for public recreation. In 1953, the State owned 145,000 acres of open land. In the last seven years our holdings have risen to 275,000. But the teeming growth we are experiencing permits no letup. The emerging needs of the sixties require that we plan now for continued growth. In the next 10 years New Jersey should double its open acreage. Thus, by 1970, we would have nearly 600,000 acres of State lands for recreation. I hope to recommend means to accomplish this 10-year program in my coming budget message.

In the meantime, we will move ahead promptly on the acquisition of the 6,800-acre Lake Wawayanda Tract in Sussex and Passaic Counties, described by the National Park Service as the "most significant site" in the Delaware River Basin. It will be an important addition to our public lands.

As a promotion of this end, I would suggest the Legislature consider a conservation easement law. This law would offer a means to preserve desirable lands in their natural state under private ownership, and facilitate their future acquisition as recreational sites. Also helpful would be a measure allowing the State to perfect title to tax-delinquent lands already acquired.

It may well be that a broad approach to this recreational program should include State aid to encourage expansion of local parks.

### B. WATER RESOURCES

The water supply legislation of 1958 has provided a framework for long-range development of the water resources within the State.

We have also been developing a program for use of our interstate waters. The Governors of the four States border-

ing the Delaware River, together with other officials, have prepared a compact to govern the development and control of the waters of the Delaware River Basin. The compact will be submitted for legislative consideration in the near future. It will provide for water supply, flood control, pollution control, recreation and related uses of the basin waters. This is a program of first importance. It should command your attention and support.

Other important matters for legislative action concern our water resources. A measure is needed to regulate the private use of surface waters so as to maintain dependable supplies for industrial, agricultural and other uses. Our law governing industries within potable watersheds should be extended to cover plants locating in any watershed of the State.

An advisory committee has been studying the growing problem of sewage disposal in New Jersey. Its report is expected shortly. It is clear that State action is needed. The committee's recommendations will bear close attention.

#### FLOOD PLAINS

Water's destructive potential requires attention too. The State should be authorized to mark flood hazard areas to give fair notice to citizens who may plan to buy land in these areas. I also invite your consideration of legislation to regulate the use of flood plains.

### IX. AGRICULTURE

The Department of Agriculture is preparing a bill to authorize voluntary self-help marketing orders. Many commodity groups feel the need for systematic means of marketing their increasing production. This bill will provide the mechanism. It has worked well in other States and should be adopted for New Jersey.

### X. TAX ADMINISTRATION

The county-ratio assessment bill adopted last year was an important breakthrough in property tax assessments. But a century of neglect in property taxation cannot be corrected at a single stroke. I urge the completion of the program outlined in my message a year ago:

—Assessment of property at two- or three-year intervals instead of annually;

—Mandatory publication of assessments in the public press;

—Legislation to authorize use of county or joint municipal assessors;

—Legislation to upgrade the qualifications, staff and compensation of the office of assessor.

In addition, consideration should be given to State aid to encourage consolidation of the assessing function at the county level, and general authorization for municipalities to change from elected to appointed assessors.

The key to the property tax problem is quality assessment. Adoption of these recommendations will advance us significantly toward that goal.

## XI. OTHER LEGISLATIVE BUSINESS

Many other matters of public importance will come before you this session. Among these, mention should be made of a bill regulating crew leaders of day-haul farm laborers; a measure to reduce the authorized number of daylight harness tracks; a constitutional amendment easing residence requirements for voting for president; the identical bill act; and essential amendments to our escheat laws.

## CONCLUSION

It is my hope that we can maintain our lines of communication between the legislative and executive branches. The facts, the procedures and our views are available to you for the asking. By cooperative effort we can avoid the pitfalls of unsound legislation.

The political observers tell us that a peculiar paralysis grips the Legislature in a gubernatorial year. Jockeying for position and advantage is held to get more attention than weightier considerations of citizen service. Legislation is measured for appeal, they say, before it is tested for merit.

I invite you to defy this cynical presumption.

The public interest in progressive legislation is no less keen than in other years; your ability is no less; your responsibility is as great. And, I might add, your self-interest in a worthwhile session is greater.

Still, they tell us, progress comes on slow feet every fourth year. You can gainsay this mean appraisal, and I would bid you, in the words of the little boy to his ballplayer-hero, "Say it ain't so." Say it with an expeditious session and a productive one.

Respectfully submitted,

ROBERT B. MEYNER,  
*Governor.*

Attest:

EDWIN C. LANDIS, Jr.,  
*Acting Secretary to the Governor.*

Upon the conclusion of the recess and under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Committee Clerk—Frank X. Hinek.

File Clerk—Mrs. Kathleen Schaad.

Gallery Keeper—Franklin R. Sickle.

The Secretary called the roll:

In the affirmative were—

Messrs. Comery, Cowgill, Dumont, Farley, Fox, Grossi, Haines, Harper, Hillery (President), Jones, Kelly, Lance, Lynch, Mathis, Ozzard, Sandman, Stout, Waddington, Weber—19.

In the negative—None.

Mr. Jones offered the following resolution which was read and adopted:

*Resolved*, That there be employed for each Senator a Secretary, to be designated by him, at a salary of \$500.00,

payable in the same manner as all other Senate employees, for the legislative year.

Mr. Jones offered the following resolution which was read and adopted:

*Resolved*, That unless otherwise ordered, the daily sessions of the Senate shall begin at 11:00 o'clock in the forenoon and 2:00 o'clock in the afternoon.

Mr. Jones offered the following resolution which was read and adopted:

*Resolved*, That the Legislative Manual be distributed to the State Senate on the same basis as for the session of 1960.

Mr. Jones offered the following resolution which was read and adopted:

*Resolved*, That 1,000 copies of each bill, joint resolution, and concurrent resolution be printed for the use of the Senate, and 900 copies of each official copy reprint.

Mr. Jones offered the following resolution which was read and adopted:

*Be It Resolved*, That all statements of expenses of the Senate, or of the Legislature on account of the Senate, be referred to the Ways and Means Committee, and, when approved by said committee, as indicated by the signature of the chairman thereof, and by the Secretary of the Senate, said bills shall be forwarded to the Legislative Budget and Finance Director for audit, and to the Director of the Division of Budget and Accounting and the State Treasurer for payment.

Mr. Jones offered the following resolution which was read and adopted:

*Resolved*, That the payroll for the officers and employees of the Senate be adopted and that the Secretary be authorized to authenticate the same as approval officer.

Mr. Jones offered the following resolution which was read and adopted:

*Resolved*, That the "Official Manual for Use in Drafting Legislation for introduction in the New Jersey Legislature," prepared and published by the Law Revision and Legislative Services, be adopted as the official manual of

practice and procedure of the Senate governing the form of bills to be introduced in the Senate and governing the conduct of the preliminary examination of bills proposed for introduction in the Senate required by the Rules of the Senate; and

*Be It Further Resolved*, That in order to carry out said practice and procedure, Charles DeF. Besoré, John W. Oekford, William Lanning, and H. Arthur Smith, Jr., be designated as counsel to the Committee on Revision and Amendment of the Laws of the Senate, and that the duties of such counsel shall be to conduct said preliminary examination of bills proposed for introduction in the Senate under the general supervision of the chairman of said committee and through the Division of Law Revision and Bill Drafting of the Law Revision and Legislative Services pursuant to law, and that they shall receive such additional compensation for acting as such counsel as shall be determined by the Senate by resolution.

Mr. Jones offered the following resolution which was read and adopted:

Mr. Jones offered the following resolution which was read and adopted:

*Resolved*, That copies of the Legislative Daily Record for the use of the Senate be purchased for the session of 1961 at a cost of \$450.00 for the session.

The following message was received from the General Assembly by the hands of its Clerk:

STATE OF NEW JERSEY,

GENERAL ASSEMBLY CHAMBER,

*Mr. President:*

January 10, 1961.

I am directed by the General Assembly to inform the Senate that the General Assembly has passed the following concurrent resolution:

A Concurrent Resolution to provide for the purchase and distribution of the Revised Statutes and Cumulative Supplements to the Revised Statutes of New Jersey by the Senate and General Assembly.

*Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):*

1. The following volumes shall be purchased and distributed to each member of the Senate and General Assembly such of the following as such member has not already received by distribution of the State, that is to say:

One complete set of the Revised Statutes (including volumes 4 and 5);

One volume, Revised Statutes Cumulative Supplement, 1938 to 1940;

One volume, Revised Statutes Cumulative Supplement, 1941 to 1944;

One volume, Revised Statutes Cumulative Supplement, 1945 to 1947;

One volume, Revised Statutes Cumulative Supplement, 1948 to 1950;

One volume, Revised Statutes Cumulative Supplement, 1951 to 1952;

One volume, Revised Statutes Cumulative Supplement, 1953 and 1954;

One volume, Revised Statutes Cumulative Supplement, 1955 to 1958;

One volume, Revised Statutes Cumulative Supplement, 1959 to 1960;

One volume, Titles 2A and 3A, New Jersey Statutes as revised in 1951, including 1960 pocket part; and that payment therefor on the basis of \$17.50 per copy for each volume of the Cumulative Supplements, \$4.00 for the 1960 pocket part to Titles 2A and 3A, and \$12.00 for each volume of the New Jersey Statutes, for the account of, the Senate and General Assembly, respectively, be referred to the subcommittee on Incidental Expenses of that House and when approved by said committee, said approval to be indicated by the signature of its chairman, and of the Secretary of the Senate or Clerk of the General Assembly, respectively,

SENATE RESOLUTION No. 1

A resolution to create an investigating committee consisting of 5 members, to be appointed by the President of

the Senate, with power to investigate any public body receiving funds in whole or in part from the State.

*Be It Resolved by the Senate of the State of New Jersey:*

1. There is hereby created a committee to be known as the "Senate Investigating Committee" to be composed of 5 Senators to be named by the President of the Senate, who shall constitute a committee for the purpose of investigating the finances, affairs and operations of any and all departments, boards, officers and commissions of the State Government, and all other bodies and political subdivisions of the State who shall be receiving State moneys or public funds of any kind. The committee is authorized to examine into the pay and duties of the employees and the conduct of the work and affairs of all such boards and political subdivisions of the State who shall be receiving State moneys, for the purpose of recommending ways and means of reducing costs of administration and promoting efficiency.

2. Such committee shall serve without pay, but is authorized to employ counsel and such accounting, investigating, clerical or other assistants as to it may seem necessary.

3. Such committee shall have the power to subpoena and examine witnesses and any accounts, records, or other matter pertaining to the operating of any department or departments of the State Government, of any political subdivision of the State, or of any other body receiving State moneys or public funds of any kind, or of any bi-state commission which may be acting jointly with another State.

4. The committee may appoint a secretary who need not be a member of the committee. Said committee shall meet from time to time, hold hearings and examinations in a manner and in places which to them may seem best and proper.

5. Any agency, board or department of the State Government, any officer or employee of any political subdivision of the State or of any other body receiving State funds, and the officers and employees of any bi-state commission which may be acting jointly with another State, shall furnish to such committee such information, records, and data as may be required for a comprehensive analysis of the operation and financial affairs of such agency, board or commission, or other public body, including any bi-state

commission, as from time to time such committee shall determine.

6. Investigations and examinations may be made privately or publicly, but it shall be unlawful for any person to divulge the results of any investigation or examination to any person or persons other than such committee, unless a public hearing shall have been first held. Whenever any person shall be examined by such committee or by its duly authorized representative or representatives, under the powers contained in this act, at a public hearing, the officer, department, board, bureau, commission or individual under investigation or scrutiny may, through his or its authorized representative or representatives, cross-examine any such person on any phase of the matter concerning which he has been examined or questioned, and such officer, department, board, bureau, commission or individual may introduce other evidence to explain, enlarge upon, or clarify the matter, situation or condition under investigation or scrutiny to the end that the full details of any such matter, situation or condition may be developed and presented at one and the same time.

7. This committee shall remain in effect and force until the opening day of the 1962 Legislature, notwithstanding any sine die adjournment.

*Resolved*, That Howard S. Borden, of the County of Ocean, be appointed as Assistant Journal Clerk of the Senate, at a salary of \$1,750.00 per annum for the legislative year.

Senate Bill No. 25, entitled "An act concerning education, and amending section 18:7-27 of the Revised Statutes,"

And

Senate Bill No. 27, entitled "An act concerning education and supplementing article 3 of chapter 7 of Title 18 of the Revised Statutes,"

Were each taken up, read a second time, considered by sections, agreed to, and ordered to have a third reading.

Mr. Weber, on leave, introduced

Senate Bill No. 58, entitled "An act concerning elections, dividing the State into 15 congressional districts and amending section 19:46-1 of the Revised Statutes,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on State, County and Municipal Government.

Senate Concurrent Resolution No. 5, entitled "A concurrent resolution recreating a commission of the Legislature to be known as the Law Enforcement Council and defining its functions, powers and duties,"

And

Senate Concurrent Resolution No. 1, entitled "A concurrent resolution proposing to amend Article IV, Section III, paragraph 1 of the Constitution of the State of New Jersey,"

Were taken up, read a second time, considered by sections, agreed to and ordered to have a third reading.

Mr. Stout offered the following resolution which was read and adopted:

*Resolved*, That Senate Concurrent Resolution No. 1, entitled "A concurrent resolution proposing to amend Article IV, Section III, paragraph 1 of the Constitution of the State of New Jersey," be referred to the Committee on State, County and Municipal Government to hold a public hearing thereon before said committee in the Assembly

Chamber, in the State House, Trenton, New Jersey, on Wednesday, February 1, 1961, at 11:00 o'clock, and that it make written report thereof to the Senate.

*Resolved*, That printed copies of Senate Concurrent Resolution No. 1, entitled "A concurrent resolution proposing to amend Article IV, Section III, paragraph 1 of the Constitution of the State of New Jersey," be placed upon the desks of the members of this House forthwith, and that a record of the placing thereof be made in the Journal of the Senate and that the Secretary of the Senate forward to the General Assembly 60 copies of Senate Concurrent Resolution No. 1, with the request that they be placed upon the desks of the members of that House in open meeting forthwith.

The Secretary then caused to be placed a printed copy of Senate Concurrent Resolution No. 1, entitled "A concurrent resolution proposing to amend Article IV, Section III, paragraph 1 of the Constitution of the State of New Jersey," upon the desk of each member of the Senate and the placing thereof is hereby noted in the Journal accordingly.

Mr. Jones offered the following resolution which was read and adopted.

*Resolved*. That when the Senate adjourns, it be to meet on Thursday morning at 10:00 o'clock, and that when it then adjourn, it be to meet on Saturday morning at 10:00 o'clock, and that when it then adjourn it be to meet on Monday afternoon at 2:00 o'clock.

On motion of Mr. Jones the Senate then adjourned.

THURSDAY, January 26, 1961.

In the absence of the President, Mr. Ridolfi took the Chair as President *pro tempore*.

Under the direction of the President *pro tempore*, the Secretary called the Senate, when the following Senator appeared and answered the call:

Mr. Ridolfi—1.

As there was no quorum present, the Senate then adjourned.

SATURDAY, January 28, 1961.

In the absence of the President, Mr. Ridolfi took the Chair as President *pro tempore*.

Under the direction of the President *pro tempore*, the Secretary called the Senate, when the following Senator appeared and answered the call:

Mr. Ridolfi—1.

As there was no quorum present, the Senate then adjourned.

MONDAY, January 30, 1961.

At 2:00 o'clock P. M. the Senate met.

The session was opened with prayer by the Reverend Neal W. Raver.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Connery, Cowgill, Dumont, Farley, Fox, Grossi, Haines, Harper, Hillery (President), Jones, Lance, Lynch, Mathis, Ozzard, Ridolfi, Sandman, Stout, Waddington—18.

On motion of Mr. Jones the journal of the previous session was approved and its further reading was dispensed with.

Mr. Jones offered the following resolution which was read and adopted:

*Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):*

That at 2:30 o'clock P. M., both Houses of the Legislature meet in joint session for the purpose of receiving the Annual Budget Message of His Excellency Robert B. Meyner, Governor of the State of New Jersey, which will be delivered in person.

The Ninth Annual Report of the New Jersey Highway Authority was received and filed.

The following message was received from the General Assembly by the hands of its Clerk:

STATE OF NEW JERSEY, }  
GENERAL ASSEMBLY CHAMBER, }  
January 30, 1961. }

Mr. President:

I am directed by the General Assembly to inform the Senate that a printed copy of Senate Concurrent Resolution No. 1, entitled "A concurrent resolution proposing to amend Article IV, Section III, paragraph 1 of the Constitu-

tion of the State of New Jersey," has this day been placed upon the desk of each member of the General Assembly while the same was in open meeting.

ERNEST T. SCHEIDEMANN,  
*Clerk of the General Assembly.*

Mr. Sandman, Chairman of the Committee on Printed Bills, reported

Senate Bills Nos. 9, 10, 14, 25, 26, 27, 33, 40, 69 and Senate Concurrent Resolution No. 5.

Correctly printed.

Signed—Charles W. Sandman, Jr., W. Steelman Mathis, William E. Ozzard, Robert H. Weber, Sido L. Ridolfi.

Mr. Jones offered the following resolution, which was read and adopted:

*Resolved*, That the Senate do now recess and proceed to the Assembly Chamber for the purpose of receiving the Annual Budget Message of the Governor.

Mr. Jones moved that the Annual Budget Message of the Governor be received and filed and also spread in full upon the Senate Journal.

## BUDGET MESSAGE

*To the Members of the Senate and General Assembly:*

This is my eighth Budget Message, and the last one of this administration. You will find, I believe, that it represents a prudent plan for the expenses of government. It covers statutory state aid programs over which there is but little control by the Executive. It accommodates a broad range of public needs, especially in the areas of education and welfare. It makes wise and careful disposition of our available income and of the additional revenue that New Jersey must have if we are to acquit the literal and moral obligations of our public trust.

The hard, unblinkable fact is that State Government in the next fiscal year is going to cost more than we can anticipate from existing revenue sources and rates. The Constitution requires a balanced budget. Therefore, allowing for a modest surplus of \$1.4 million at the close of fiscal 1961-62, we face the necessity of raising an additional \$39 million.

## THE BUDGET IN BRIEF

*Resources*

Estimated Surplus, July 1, 1961 .....	.....
Estimated Revenues for 1961-62 .....	\$434,947,633
Less: Amount required to restore curtailed 1960-61 Highway program .....	5,140,192
Net Resources for 1961-62 .....	<u>\$429,807,441</u>

*Recommendations*

General State Operations .....	\$207,334,144
State Aid .....	199,694,718
Capital Construction .....	60,350,538
Total Recommendations .....	<u>\$467,379,400</u>
Amount needed to balance .....	\$37,571,959
Surplus, June 30, 1962 .....	1,428,041
Amount to be raised .....	<u>\$39,000,000</u>

There are three reasons why we must raise more revenue next year:

1. The cost of new state programs, for which new or additional revenues have not been provided.
2. The cost of state aid, which has far outpaced the normal growth of existing revenues.
3. The failure of certain revenues, notably the 1.75% corporate income tax, to come up to expectations.

#### COST OF NEW STATE PROGRAMS

Here are the 1962 costs of a few of the spending programs put into effect over the past seven years with no provision for new revenue:

The new scholarship program .....	\$2,317,000
Staffing of new buildings .....	6,000,000
Debt service on educational, water and institutional bond issues....	4,142,000
Community mental health clinics .....	1,000,000
Increase in allowances to certain pensioners .....	900,000
Development of recreational areas .....	500,000

You will recall, I am sure, that over the years, I have been obliged to veto proposed programs that would be costing us an additional \$12.5 million a year because the proposals left unanswered a key question, "Where do we get the money?"

#### COST OF ACCELERATED STATE AID

More significant than the cost of new spending programs, however, is the soaring cost of state aid for education. Our public schools next year will enroll 1,100,000 children. The figure was 750,131 in 1954. We now have 49,419 teachers, an increase of more than 50% since 1953-54. In that year the average teacher's salary was \$4,184. Today, it is \$5,930. These statistics, in great measure, explain the extraordinary increase in state aid costs which will total \$142.6 million next year. This is a better than threefold rise over the \$44.5 million that was appropriated when I first took office.

True, we raised taxes of \$42.5 million in 1955 and 1956 to liberalize the school aid formula. That tax increase, however, now produces only \$60 million of the additional \$98 million required for our school aid programs next year. Thus, we must absorb

\$38 million of these increased costs from the growth of other revenue sources.

#### FAILURE OF REVENUES

We have, in the past, pointed with some pride to the stability of our revenue structure. Geared to population for the most part, it is not nearly as sensitive to economic changes as one that rises and falls with the economy, like a structure with a general sales or income tax. However, one of our sources that is sensitive to economic change is the 1.75% Corporate Income Tax.

You will remember that a considerable difference of opinion arose in the Spring of 1958 between the Executive and Legislative Branches on the amount that would be raised in fiscal 1958-59 from the corporate income tax at the 1.75% rate. The Senate finally arrived at an estimate of \$27 million. It was not until late May, 1959, that we knew what the tax would produce. It turned out to be \$9 million short of the estimate. Fortunately, over-runs in other areas largely offset this shortage.

The Appropriations Bill for 1959-60 estimated that this tax would bring in \$34 million. Actually, the yield fell \$7 million short of the mark. Again, revenue over-runs offset much of this deficit.

Not long ago, I directed the Department of the Treasury to survey some of our larger corporations to compare profits in 1960 with those of 1959. The findings indicate that our current revenue estimates from this source are over-stated by approximately \$7 million. Incidentally, the federal budget and many of our sister-states' budgets also overestimated the revenue from corporate income taxes.

It should also be noted that revenue earnings for the first six months of the current year, projected to next June 30, indicate that our motor fuels tax may fall off by about \$4 million.

These expected under-runs of \$11 million in the current year may to some degree be offset by over-runs in other revenues and by expected lapsed balances. But we must expect a deficiency. Were it not for the fact that our laws provide the means to limit appropriations when the State is faced with adverse revenue

conditions, there would be a deficit. The provisions of R. S. 52:27B-26 empower the Budget Director, on my order, to curtail appropriations if it appears that revenues will fall dangerously below anticipations. Accordingly, to insure that the State may end 1960-61 in the black, I have ordered that appropriations to the Highway Department be curtailed temporarily. The operations of this Department are the least affected by temporarily deferring the award of contracts to July 1, 1961.

The funds so withheld are restored to the Highway Department in this budget for use beginning that date.

These are the facts. They indisputably show the need for additional revenue.

#### A SUGGESTED REVENUE PROGRAM

To finance next year's budget recommendations, I propose the following revenue program:

1. A 1% tax on the actual consideration paid on all real estate transfers .....	\$10,000,000
2. A 2% public utility tax on	
(a) Gas and electricity .....	10,400,000
(b) Telephone and telegraph .....	3,600,000
3. An increase in the registration fees on motor vehicles, as follows:	
(a) Passenger vehicles by 26% .....	7,277,441
(b) Non-passenger vehicles by 26% .....	6,348,908
(c) Service charge on dual and duplicate registration certificates, and an inspection fee on all transfers ....	1,373,651
Total .....	<u>\$39,000,000</u>

A neighboring state levies a real estate transfer tax. Another imposes a .5% tax on mortgages. In a number of other states, there are varying rates on the recording of documents or on real estate transfers. The application of the recommended tax would, incidentally, furnish useful information for assessment equalization purposes.

The proposed tax on public utility services would be collected by the utility for the State. The tax lends itself to economical collection and is easy to administer. It is reliable, stable and geared to growth. Thirteen other states impose it.

The proposed increase in motor vehicle fees would mean an additional \$2 for a Class I passenger vehicle, \$3 for Class II and \$5 for Class III. These increases represent 20% of the passenger vehicle fees now paid. The fees on non-passenger vehicles would be increased approximately 26%. New Jersey is one of 19 states which limit taxation of automobiles to license fees. In 21 states, automobiles are subject to property taxes besides license fees. Eight other states apply other forms of tax on motor vehicles in addition to license fees.

I am informed that if New Jersey still calculated its motor vehicle fees on the old rated horsepower system rather than the present flat fee basis, next year's revenue would approximate what we could receive from the new fees I am suggesting.

If Congress lets the federal telephone tax lapse next June 30, as contemplated by existing federal legislation, the State, by picking up this tax, would realize from \$18 million to \$22 million without added cost to the taxpayer. This could serve as an alternate to part of the suggested new revenue program.

#### COMMUTER BENEFIT TAX

I strongly urge the Legislature to enact the commuter benefit tax. The budget I am presenting today includes heavy allocations for rails and roads to help transport the thousands of people who cross the Hudson to go to work.

The rail passenger service contract program and the highway construction program each require millions of dollars. These millions come from general revenues—from all the people of the State. This need not be so. The money could come from the commuter benefit tax, thus freeing our general revenues for road construction and other public purposes in all parts of the State. In addition, the commuter benefit tax would enable us to launch great new projects in the northern metropolitan area for the commuters' benefit. An obvious example of such a project is the development of rapid transit facilities.

The important and attractive feature of this proposal is that all of this would be done without taking a single penny of additional taxes from our citizens. They now pay some \$40 million

to New York State each year and get next to nothing for it. The commuter benefit tax would bring this money home to New Jersey where it belongs—to be put to work for the real benefit of our commuters and the State as a whole.

#### REQUESTS AND RECOMMENDATIONS

Requests from the various departments and agencies totalled \$612 million. After careful analysis and review, I am recommending expenditures of \$467.4 million, exclusive of the \$5,140,192 to be restored to the highway program. This is about \$145 million less than the total requests. The greater part of this reduction represents funds requested for capital construction in the Department of Institutions and Agencies. These needs, now and in the future, are to be met either from the proceeds of the recently enacted \$30 million bond issue or from revenue derived from the additional penny tax on cigarettes.

The recommended \$467.4 million program comprises \$207.3 million for general state purposes, \$199.7 million for state aid, and \$60.4 million for capital construction. The total increase over the adjusted appropriation for the present year is \$29.7 million, of which \$15.3 million is for general state operations, \$7.7 million for state aid, and \$6.7 million for capital construction.

#### EDUCATION

Education will receive the lion's share of the increase in this budget. This follows the trend of the past few years. In round figures, education will cost \$183.7 million, exceeding by \$15.4 million the sum available this year. It is worth noting that in this proposed budget, education, all by itself, gets a sum higher than the whole state budget of a decade ago. Local school districts will receive \$101,130,557, or \$4.3 million more than in the current year. The contribution needed to keep the Teachers' Pension and Annuity Fund on a sound actuarial basis, together with the State's share of social security taxes for teachers, will be \$40,425,648. This is \$3.7 million more than in the current year. In 1954, by the way, the teachers' pension cost was \$13,751,989.

To continue our expansion of facilities at the School for the Deaf at West Trenton, \$1 million is earmarked for the construction of the upper school classroom building.

Of the balance of \$41.1 million, substantially all of it will support higher education at the State University, the six State Colleges and Newark College of Engineering. This will be \$7.4 million more than was appropriated in the current year.

We expect that some of the educational facilities to be constructed from an appropriation in 1958-59 will be available sometime during the 1961-62 school year. This budget provides funds to staff these buildings and accommodate more students.

#### ENROLLMENTS SOAR

Our student enrollment continues to climb rapidly. We are already exceeding the estimates made when the recently approved bond issue for education was presented to the people.

Our six State Colleges, for which approximately \$11.4 million is appropriated next year, will enroll 10,900 full-time and 25,045 part-time students. Enrollment in the current year was 9,768 full-time and 23,117 part-time students. We must therefore anticipate providing educational facilities for an additional 3,060 students next year at our State Colleges alone.

This upward trend is even more pronounced at the State University and Douglass College. Their full-time student body is expected to increase next year from 8,594 to 9,474, and part-time enrollment from 22,989 to 27,694, a total increase of 5,585 students. More students mean more faculty, more supplies, more equipment. The sum recommended for the University, Douglass and the Agricultural Experiment Station approximates \$15.3 million and represents an increase of \$810,000 over the current year.

#### UNIVERSITY LOAN

The present statutes provide that the proceeds from the escheat of personal property may be loaned to any state agency. Rutgers, the State University, has requested a loan of \$1 million from this fund as an emergency measure to provide, by next September,

low-cost buildings that will be used as temporary dormitories. These facilities will serve 500 male students for whom no other accommodations are available. Their admission to Rutgers depends on the issuance of this loan.

Accordingly, I recommend that you enact legislation to permit a \$1 million loan from this fund, to be repaid over a 20-year period at an interest rate of 4%. When permanent dormitories are available, the University will convert the temporary facilities to class-room, laboratory and storage use.

I am recommending \$100,000 to support the Trenton Junior College and School of Industrial Arts. The Commissioner of Education informs me that this school, which operates as a two-year college, is turning out students who enroll for their final years of college training in institutions of national repute. State funds for this school will be allotted under a contract similar to that now in effect with Newark College of Engineering.

As was to be expected, our State Competitive Scholarship Program is rapidly expanding. The program will cost approximately \$2.3 million in 1961-62. It includes \$100,000 for student loans.

#### DEBT SERVICE FOR EDUCATION

One of the larger items included in the amount recommended for education is the debt service charge of \$2,314,250 on the State Higher Education Bonds sold under the bond acts of 1959. A considerable part of this cost will be offset in 1961-62 by revenue derived from the investment of the proceeds after bond sales. Substantial payments for construction out of these proceeds will not be made until the latter part of 1961 and the early part of 1962, because many of the projects have not as yet reached the bid stage. For this reason approximately \$1.8 million is being included in the estimated revenue from the investment of these funds, but this revenue will not recur. Therefore, the entire debt service cost on this bond issue, beginning with the fiscal year 1962-63, will be chargeable against the revenue structure then existing.

## INSTITUTIONS AND WELFARE AID

The amount recommended for the Department of Institutions and Agencies in 1961-62 is \$104.1 million divided as follows: \$63.5 million to operate various hospitals, institutions and prisons; \$30.8 million for state aid, and \$9.8 million for capital construction. The increase of \$5.2 million over the current fiscal year is due principally to proposed capital construction, to be financed from funds recently made available from the penny increase in the cigarette tax.

### NEW BUILDING PROGRAM

The State Board of Control has prepared a schedule of high priority construction needs. Out of funds appropriated in the current fiscal year and the funds recommended in 1961-62, we hope to complete the fireproofing projects at Trenton State Hospital and Greystone Park State Hospital, to plan and start construction on the new Colony for the Mentally Retarded at Woodbridge, and to do the initial planning on a new medium-security correctional institution and a new unit for defective delinquents.

I am pleased to inform you that all four State Hospitals have now received full accreditation. Among many benefits from such recognition, it is possible for the hospitals to recruit residents-in-psychiatry. This budget contains funds for their salaries.

The funds recommended include an increase of \$52,000 for the expansion of the family care program for the mentally retarded. Eighty of the 120 new positions allowed the Department of Institutions and Agencies are assigned to institutions for the retarded, providing care, protection and training to patients.

### PROGRESS IN REHABILITATION

In 1954 there were very few inmates on work detail outside our correctional institutions. Since that time we have established four work camps, affording occupational therapy for idle inmates and relieving overcrowded conditions. To provide adequate operation of these facilities, funds have been included for inmates' wages and for supervision by 30 officers.

In 1957 the Department of Institutions and Agencies was authorized to establish residential group centers throughout the State, following the pattern of the now well known Highfields Project. As a result, in the past year, the Warren Residential Group Treatment Center was opened and the Turrell Residential Group Center at Allaire for delinquent girls was established with private funds.

#### THE NEED FOR ROADS

In addition to the \$45.5 million for highway construction, we shall have available such sums as will be received from the Port of New York Authority for construction of approach roads to the George Washington Bridge. The exact amount of these Port Authority funds cannot be determined until the actual construction program for 1961-62 is prepared.

As our highway system develops, we must build into it added safety features. Most of these are a charge against the State alone.

Recognizing that the use of highway money for commuter service limits the amount which the Department can spend for non-federal projects, I again urge you in the strongest terms to adopt the commuter benefit tax. Failing that action, I must with considerable reluctance recommend that the money for commuter service contracts be taken from the capital construction funds of the Highway Department. This was the pattern followed by the Legislature this current fiscal year.

#### GRADE CROSSING ELIMINATION

Following the directive restated by Chapter 153 of the Laws of 1960, I am recommending \$2 million as the State's share of the grade crossing elimination program. A great deal of work needs to be done in this area for public safety and convenience. We should start the program without delay.

#### PENSIONS AND RELATED COSTS

I have already pointed out that this budget provides funds sufficient to assure the actuarial soundness of the Teachers' Pension and Annuity Fund and to pay the cost of teachers' social

security and group life insurance. I am recommending similar appropriations for state employees in the sum of \$14.1 million, or approximately \$2 million more than in the current fiscal year. These funds are necessary to keep the Public Employees' Retirement System on a sound actuarial basis. Incidentally, in 1954, State pension costs were \$3,329,000.

#### MEETING EMPLOYEE NEEDS

In past budget messages, I have recommended funds for the purchase of medical-surgical and hospital benefits for state employees. The Legislature, however, chose not to include such funds in the Appropriation Bills. In last year's message I stated that I would be agreeable to a plan by which the State would assume this expense. My purpose, of course, was to have the Legislature raise the required funds. Several bills were introduced in the 1960 Legislature which would have authorized major medical benefits, otherwise known as catastrophic illness insurance, for state employees. However, with the prospect of declining revenues about which I have already spoken, and with no additional revenue being raised for such a program, I was obliged to veto the measure that was finally presented to me.

Now that we undertake to get new revenue, we ought to make available to our state employees some of the fringe benefits that are a commonplace in private industry. Therefore, I recommend the adoption of a hospitalization, medical-surgical and major medical insurance program for our state employees. This will cost \$2 million.

If you concur in this recommendation, the legislation should be so drawn as to permit the employee to pay for other members of his family. Under a group insurance agreement, the cost to the employee should be relatively small.

To meet rising costs of living and the competition of other employers, we have in the past made periodic salary adjustments. In furtherance of this program, I recommend that the salary ranges for all employees be raised by one range grade. To meet the cost of this program I have included \$2.5 million in this budget.

## ADDED BENEFITS FOR COLLEGE FACULTIES

New Jersey has no cause for apology about its college faculty salary scales. In many respects, in fact, we rank with the Nation's highest. Nevertheless, competition for the available talent is keen, especially so in our particular geographical area.

I therefore recommend that the salary ranges for academic personnel teaching at State-supported institutions of higher education should be raised one range grade. This would be in addition to the general range rise for all employees. I have included \$1 million in the budget for this purpose.

Another area of the program is my recommendation of \$500,000 for selective range revisions for critically needed employees in the various professions, including accountants, engineers, doctors and other key personnel from whom we expect college training.

In addition, I am recommending \$150,000 for the Department of Institutions and Agencies for selective pay increases or better starting pay for personnel working with patients. We have a large group of dedicated employees in this area. The work they perform is often trying and difficult. It deserves recognition. We should strive toward the goal set by the State Board of Control of paying or recruiting these people at about \$3,000 a year. Should these recommendations be adopted, the effect will be that every employee will receive no less than a normal increment. Many employees will receive, as well, an additional adjustment.

## OTHER PROGRAMS

A number of other state programs have in recent years been strengthened or expanded to accommodate changing needs and population growth. I am listing some of these for which additional funds are recommended:

Nine positions are needed in the Division of Law to enforce the new securities regulation law and the consumers fraud act.

Twenty-eight troopers are being added to the State Police so that more adequate services can be furnished in areas which have experienced an increasingly larger burden of traffic and

policing problems. Our State Police force is outstanding. Because of the nature of its members' task, they must obtain most of their meals away from home, or without leaving their assigned patrol. To meet higher meal costs, I am asking for funds to increase their daily allowance from \$3.50 to \$4.

Nineteen Motor Vehicle Examiner positions are being added for our inspection stations. The new three-lane North Hudson inspection facility, which should be completed next year to replace the one-lane station in Union City, will require nine of these positions. Part of the balance is intended for increasing the number of lanes in the Union County area. A few are being added where workload and congestion problems may need attention. Other positions, to cover such activities as interstate reciprocity for driver license revocation, maintenance of existing inspection facilities and traffic safety engineering, are also included.

The Motor Vehicle Division had requested a much larger number of positions, but I believe the need for these can be met through consolidation in the new Motor Vehicle Building. The centralizing of offices which had been dispersed should result in more efficiency.

Additional employees are being recommended in the Department of Civil Service where a large examination and clerical workload has to be met. This is the result of the larger number of jurisdictions which have adopted Civil Service.

Twenty-six new positions are needed in the Department of Banking and Insurance to enforce new consumer protection laws and new regulations on surplus lines insurance.

In the Department of Labor and Industry, I am asking for more help for safety inspection in the construction industry; for assistance to meet the workmen's compensation caseload; and to strengthen the Rehabilitation Commission program.

The maintenance and construction activities of the Highway Department continue to increase as more roads are built. We must meet an increasing responsibility in these areas through the addition of more engineering personnel.

Radiation and sanitation problems are still among the more perplexing of those faced by our State Health Department. I have included sums for more personnel to aid in their control.

#### GREEN ACRES

Energetic as we have been during the last 10 years in the acquisition of land for public purposes, we have reached the now-or-never point where the program must be accelerated. New Jersey faces an open-space crisis. Its land resources are disappearing at a startling rate while the price of those sites which remain continues to soar. I therefore recommend a \$60 million "green acres" bond issue to be used by the State to purchase land for recreation, reservoir sites and water reserve uses, and by municipalities and counties for the purchase of local recreation land.

Future urbanization of New Jersey as a great metropolitan area could leave us without places to play and hunt and fish—places to contemplate the beauty of virgin land. Foresight is needed so that those who follow us may have a fit inheritance. We should act now.

For the acquisition of land by the State for these multiple uses, it has been suggested that \$45 million be used.

More than 75% of our municipalities—424 of them—and 15 of our counties have active planning programs. These citizen planning boards have become acutely aware of the vanishing open space in their localities and the desperate need to preserve some of it now. They also know that local budgets cannot be stretched to include the high cost of these last remaining open areas.

It has been further proposed that \$15 million of the bond issue be used on a matching basis with municipal and county funds in the acquisition of recreation space.

#### CONCLUSION

As I leave this, my last Budget Message, with you, it is but natural that I take a backward glance over the seven fiscal plans that preceded it. My terms in office have been marked by many demands for additional services. We have witnessed a tremendous

growth in these services over the past generation. We have grown remarkably in population, and urbanization has brought us a whole set of new problems. Technological advances and scientific achievements have placed new demands on our education, health, welfare and highway programs. Inflation has been ever with us.

And so, as our numbers have grown and the scope of government has widened, the costs of government have increased, too.

In my budget messages including this one, I have attempted to develop sound policies and plans to allocate funds fairly for necessary state services. As the elected representative of all the people, I felt it a solemn duty to resist all pressures, no matter how sincerely motivated, that would lead New Jersey down the easy and dangerous path of imprudent taxing and spending. This task has not been an easy one.

When elected, I promised that I would recommend no personal income or general sales tax. I have kept that pledge. I firmly believe the people of our State have benefited by it.

This Budget Message recognizes the need for increasing the pay of dedicated and deserving public servants. It is axiomatic that the success or failure of government and the quality of service it renders inevitably rest with them. We need in government men and women of capacity, character and devotion who believe in rendering service rather than in worshipping at the shrine of bureaucracy.

My recommendation for additional revenue will not be popular with everyone. But the needs are there and they must be met. I earnestly hope that the program will be adopted so that my successor may receive a fiscal inheritance permitting the continuance of sound State Government.

Respectfully submitted,

ROBERT B. MEYNER,

*Governor of New Jersey.*

Attest :

EDWIN C. LANDIS, JR.,

*Acting Secretary to the Governor.*

January 30, 1961.

WHEREAS, The New Jersey Civil War Centennial Commission, on March 9, 1961, adopted the following Resolution:

WHEREAS, The Civil War, the greatest internal crisis through which this Nation has passed, was fought at tremendous sacrifice to preserve and to amplify the fundamental law of our land, as set forth originally in the Bill of Rights; and

WHEREAS, The perpetuation of this Union was guaranteed therewith forever; and

WHEREAS, The sons of both North and South have subsequently fought side by side for human freedom, justice, and the dignity of the individual among people everywhere; and

WHEREAS, The Civil War Centennial period has been conceived as a period for commemorating these basic American ideas above all; and

WHEREAS, The National Civil War Centennial Commission has scheduled its Fourth National Assembly on

the dates of April 11 and 12, 1961, in the city of Charleston, S. C.; and

WHEREAS, The National Civil War Centennial Commission is a creature of the Congress of the United States; and

WHEREAS, Custom and/or law in the City of Charleston forbids equal hospitality to members of the Negro race; and

WHEREAS, A National Assembly under these conditions would abrogate the fundamental law of our land and the fundamental concepts of human decency and the fundamental guarantees of Civil liberties under the New Jersey Constitution; and

WHEREAS, Mrs. Madaline A. Williams, a member of the Negro race, is a duly appointed member of the New Jersey Civil War Centennial Commission; and

WHEREAS, Mrs. Williams has served as an elected member of the Essex County delegation of the New Jersey General Assembly, and is currently serving in the elective post of Essex County Register;

*Now, Therefore, Be It Resolved*, That this Commission cannot in good conscience, under its sworn obligations, participate in the Fourth National Assembly; and

*Be It Further Resolved*, That members of all other state Civil War Centennial Commissions be urged to call upon their respective Congressional delegations to demand that the Fourth National Assembly, as presently conceived, be cancelled forthwith as an act of responsible national statesmanship and scheduled for a later date in a location which will respect the fundamental constitutional rights of persons of all races and creeds.

*Now, Therefore, Be It Resolved* by the Senate of the State of New Jersey that the foregoing Resolution adopted by the New Jersey Civil War Centennial Commission is approved;

*Be It Further Resolved*, That the Secretary of the Senate provide the New Jersey Civil War Centennial Commission with a copy of this Resolution attested by him in order that

the said Centennial Commission may forward copies hereof to the other State Civil War Centennial Commissions; and

*Be It Further Resolved*, That the Secretary of the Senate forward copies of this Resolution attested by him to the United States Senators from New Jersey and the members of the House of Representatives from the several Congressional Districts of New Jersey.

*Clerk of the General Assembly.*

Messrs. Jones and Cowgill offered the following resolution which was read and adopted:

Resolution establishing a temporary committee on financing of transit projects and defining its functions

*Be It Resolved* by the Senate of the State of New Jersey:

1. There is hereby established a temporary Committee on Financing of Transit Projects which shall consist of 6 members, each of whom shall be appointed by the President of the Senate. One of said members shall be a Senator of the Majority party in the Senate, one of whom shall be a Senator from the Minority party in the Senate, and the remaining 4 members shall be appointed at large from the citizens of the State. The members of the Committee shall be persons qualified by training and experience to perform the functions assigned to the Committee, hereunder, and shall be

appointed with regard to bi-partisan considerations, that is, two of each. Any vacancy occurring in the membership of the Committee from any cause shall be filled in the same manner as the original appointment. The members of the Committee shall serve without compensation.

2. The Committee shall undertake a study of the extent to which funds of existing State or Interstate Authorities and Agencies may be available for use in the development, coordination, integration or improvement of intrastate and interstate transit facilities and projects, and the feasibility of two or more of such authorities or agencies joining in the financing of such projects.

3. In the event that a similar Committee or commission is established by the New York State Legislature or either House thereof, the functions assigned to the Committee established hereby shall be undertaken by such Committee jointly with the New York Committee or Commission.

4. The Committee shall report its findings and conclusions to the Senate not later than March 1, 1962.

5. This resolution shall take effect immediately.

*Mr. President:*

I am directed by the General Assembly to inform the Senate that the General Assembly has passed the following resolution:

A CONCURRENT RESOLUTION commemorating the one hundredth anniversary of Bayonne.

WHEREAS, One hundred years ago, on April eighth, one thousand eight hundred sixty-one, the township of Bayonne was incorporated by act of the Legislature; and

WHEREAS, The growth of Bayonne from a rural township of less than fifteen hundred people to an industrial city of seventy-five thousand has paralleled the growth of New Jersey from a rural State to one of the world's great industrial complexes; and

WHEREAS, The products of Bayonne industry, today, are distributed throughout the world enhancing the prestige of the State and the Nation; and

WHEREAS, The people of Bayonne are dedicated to civic advancement presaging a second century of continued growth and improvement; now, therefore,

*Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):*

That the Legislature of the State of New Jersey does hereby commemorate April eighth, one thousand nine hundred sixty-one, as the one hundredth anniversary of the incorporation of Bayonne and congratulates the people of Bayonne as representative of the growth of the State and the Nation in the last one hundred years; and

*Be It Further Resolved,* That copies of this resolution signed by the President of the Senate and Speaker of the General Assembly and attested to by the Secretary of the Senate and the Clerk of the General Assembly be forwarded to Mayor Alfred Brady of Bayonne, the Bayonne Board of Commissioners, Louis Most, Chairman, Bayonne Centennial Committee, Herman Lazarus, Publisher, The Bayonne Times and the Mayor of Bayonne, France.

In which the concurrence of the Senate is requested.

MONDAY, August 28, 1961.

At 2:00 o'clock P. M. the Senate met.

The session was opened with prayer by the Reverend W. Neal Raver.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Connery, Cowgill, Dumont, Farley, Fox, Grossi, Harper, Hillery (President), Jones, Kelly, Lance, Lynch, Mathis, Ozzard, Ridolfi, Sandman, Stout, Waddington, Weber—19.

On motion of Mr. Jones the journal of the previous session was approved and its further reading was dispensed with.

Mr. Cowgill, on leave, introduced

Senate Bill No. 232, entitled "An act to validate certain foreclosure proceedings of tax sale certificates where the tax sale certificate was assigned by the municipality and the final judgment was not recorded within the prescribed period of time,"

Which was read for the first time by its title and given no reference.

Mr. Cowgill moved that the rules be suspended and that Senate Bill No. 232 be advanced to second reading without reference.

Which motion was adopted.

Was taken up, read a second time, considered by sections, agreed to, and ordered to have a third reading.

Mr. Farley, on leave, introduced

Senate Bill No. 234, entitled "An act concerning the State Highway Department and adding a new route to the State highway system,"

Mr. Farley moved that the rules be suspended and that Senate Bill No. 234 be advanced to second reading without reference.

Which motion was adopted.

Senate Bill No. 234, entitled "An act concerning the State Highway Department and adding a new route to the State highway system,"

Was taken up, read a second time, considered by sections, agreed to, and ordered to have a third reading.

Mr. Sandman, on leave, introduced

Senate Bill No. 235, entitled "An act concerning the practice of medicine and surgery, and amending section 45:9-13 of the Revised Statutes,"

Mr. Sandman moved that the rules be suspended and that Senate Bill No. 235 be advanced to second reading without reference.

Which motion was adopted.

Senate Bill No. 235, entitled "An act concerning the practice of medicine and surgery, and amending section 45:9-13 of the Revised Statutes,"

Was taken up, read a second time, considered by sections, agreed to, and ordered to have a third reading.

Twenty-three communications were received from the Governor by the hands of his secretary.

On motion of Mr. Jones, the Senate proceeded to the consideration of Executive business, on the conclusion of which, and,

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

SENATE BILL No. 191

*To the Senate:*

I herewith return Senate Bill No. 191, without my approval, for the following reasons:

This bill provides that where a new census causes a county or municipality to move into a population range

such that the law makes no provision for the salary of some public officer, he shall continue to receive the salary payable to him under the former population range.

The bill was introduced on May 8, 1961, two days after the effective date of the 1960 census in New Jersey. It is in the pattern of the undesirable "freeze" legislation which so often is rushed through when a new census comes into effect. Fortunately, we succeeded in avoiding the worst of it this year through advance study and analysis of the census effects.

Rather than adjust the law selectively where necessary to avoid undesirable legal effects of new population figures, this type of legislation would achieve the effect by adjusting the population facts to fit the law. This is an easy way to legislate, of course, but not a very desirable one. Where a law is amended the lawmaker and the reader ordinarily can tell with some precision from the language what the real legal effects will be. But when the facts are amended, no one can tell what the effects will be without an analysis of every law where those facts might be operative. In addition, the legal effects, by definition, will be out of tune with the intent of the laws affected, and the disparity may be expected to increase with the years. There is nothing to commend this type of legislation.

The real purpose of this measure, I am told, is to continue the salaries of the Morris County District Court Judges. Under the legislation governing the County District Courts, Morris County, with 3 part-time Judges and a population of 261,000, fits into no salary classification. This bill is intended to continue the Judges at the basic salary of \$4,000.00 That salary, significantly, was fixed under the 1940 census when Morris had 125,000, less than half its present population. An examination of this matter raises the question whether there was any authority for salary payments to the Judges under the 1950 census. Morris, with 164,000 under that census, seems not to have fit into any classification even then. If no salary was payable under the former census, of course, then one might inquire whether there is any legal salary to be continued by this bill. In the circumstances, however, these questions need not be answered.

Under the 1960 census, Morris County is authorized two more full-time County Judges, making a total of four. I

MONDAY, AUGUST 28, 1961

believe the new positions should be filled. The additional judges not only would serve Morris well, but, serving full-time, they would be available for assignments in other counties to assist in meeting the ever increasing burden of litigation throughout the State.

With these new positions filled, there will be no need or justification to continue the three part-time County District Court Judges in Morris. The County Judges will be able to handle the County District Court work without difficulty. Indeed, the County Judges may be relieved of one of their present burdens, since, for the first time, Morris is now entitled to the appointment of a judge of the Juvenile and Domestic Relations Court, although he would serve only part time. The work of this Court in Morris has been done by the County Judges to date.

Part-time judicial positions are not a desirable part of any system of justice. In New Jersey, we have provided for their elimination down through the County Courts, and we have taken important steps toward their elimination in other Courts. We retain them, reluctantly, where less than one full-time judge is needed, or where it is not possible to achieve legislative agreement on a suitable alternative. In the case of the Morris County District Court, however, retention of these part-time positions is not justified any longer. Accordingly, there is no need to provide salaries for the positions.

Respectfully,

ROBERT B. MEYNER,

*Governor.*

SENATE BILL No. 200

*To the Senate:*

I herewith return Senate Bill No. 200, without my approval, for the following reasons:

This bill was introduced on May 8, 1961, two days after the 1960 census became effective in New Jersey. *L. 1961, c. 3*. It was designed to avoid an effect of that census on county district court judges in Bergen County.

An act of 1955, *L. 1955, c. 271*, had provided that in counties in the population range 400,000 to 600,000 those judges could be assigned to hold the County Court. In the same act the Legislature included provisions concerning full and part-time status of county district court judges in those counties.

Under the 1950 census Bergen was the only county in the 400,000 to 600,000 range. Under the 1960 census, the Bergen population is 780,000. This bill would restore the 1955 act to its former effect by "supplementing" it with the provision that, for its purposes, "population shall be determined according to the Federal census of 1950". The only object of the proponents in offering this bill, I am informed, was to preserve the authority for Bergen County district court judges to hold the Bergen County Court.

Under the 1960 census, three other counties entered the 400,000-600,000 range. Those responsible for administration of the courts had looked forward with favor to the broadening of the scope of the 1955 act. If the act were restricted to its effect under the 1950 census, of course, the broadening would not occur. In addition, the peculiar method used in Senate Bill No. 200 to make the change, the redefinition by supplement of the term "population", would have an unintended effect on the other parts of the 1955 act concerning full and part-time service since they also are conditioned on county population.

For these reasons, I directed the preparation of a proper measure to preserve the desired authority for Bergen County without denying it to other counties unnecessarily. This was done and the resulting bill, Senate Bill No. 209, has since become law. *L. 1961, c. 58*.

Respectfully,

ROBERT B. MEYNER,

*Governor.*

SENATE BILL NO. 218

*To the Senate:*

I herewith return Senate Bill No. 218, without my approval, for the following reasons:

This bill would prohibit the construction in seven northern counties—Morris, Hunterdon, Somerset, Union, Essex, Warren and Passaic—of an airport “for usage by air carriers engaged in interstate air transportation, overseas air transportation, or foreign air transportation”. Airports “presently served by air carriers certificated by the Civil Aeronautics Board” could be expanded, however, and military airports “operated and maintained” by the national government would not be affected. In short, the bill would prohibit any major new commercial airport in the seven named counties.

The bill grows out of a controversy which opened in December, 1959, when the Port of New York Authority, charged with the responsibility to see to the air terminal needs of the metropolitan region, issued a preliminary report citing an urgent need for another major regional airport. The report reviewed some 15 sites which had been initially evaluated by the agency and singled out the Great Swamp area of southeastern Morris County as the only feasible location. The controversy has continued ever since, fed by strenuous opposition from some who feel they would be adversely affected, by efforts of persons in southern New Jersey to have the “jetport” located there, by intermittent reports of studies of the Morris site, by the final report of the Port of New York Authority and now, by this bill.

In the course of the last 20 months a number of studies have been made by experts in various fields related to airport need and location. These include studies of the air-space question, airport accessibility, airport capacity, future demand for air passenger transportation, air cargo growth, the future requirements of general aviation, climate factors, the effect of an airport on local property values, the general economic effect of an airport on its immediate

area, the relationship of air transportation to the economy of the region, noise level factors, airport design, land use, engineering and city to airport transportation considerations. I have studied all these reports. I have also made inspections of specific sites, and I have made a personal search for alternative sites. On July 12, 1961, after this bill was passed, I conducted a hearing to provide an opportunity for an expression of views by the public. Among those attending was a spokesman for the Federal Aviation Agency who, at my invitation, gave the views of that agency.

The natural analysis of all this material takes the following form. (1) We must ask whether we really care about having adequate air transportation facilities. If we don't, the controversy is over. If we do, the next question, (2), goes to the matter of adequacy. Do we have enough runways now? If not, can we build new ones at the present airports, or must we have a new airport? If we find need for a new airport, then, (3), we must mark off the general area which can be considered, according to the fundamental standards of airspace and accessibility. The final step, (4), is to select a specific site within the available general area according to factors of land use, climate, airport design and noise level considerations, economic impact, topography and engineering.

Observing this pattern of analysis, I have no difficulty answering the first question. We must have adequate air transportation facilities. They are essential to our economic health. While this bill was under study several weeks ago I received a letter from the Chamber of Commerce of Greater Philadelphia offering to take the international flights from the airport system in the New York-New Jersey metropolitan region to ease the strain on our existing airports. No doubt other regions would be delighted to make equally kind offers to relieve us of this or that industry to lighten the load on our facilities. While I answered the Philadelphia letter with a polite declination, the only lasting answer to the acquisitive interests of competitive areas is to provide the necessary facilities at home. We will fail to do so only at our peril.

The next step is to determine how long our present airports will be able to meet the demand. There is a difference of opinion on this, but it is not substantial.

It is generally agreed that the region soon will need an additional major airport. The only disagreement concerns the length of time the need might be postponed by changes at our present airports. The most optimistic view is reported in the "White Paper" issued by The Jersey Jetport Site Association, an organization formed by those who oppose location of the facility at the Great Swamp site in Morris County. This report says that a new airport might not be required until about 1972 or so "if current FAA research projects designed to increase airport capacity are successful". Even this, however, is not very optimistic. It concedes that our present capacity will be inadequate very soon; that it cannot be increased significantly by tested techniques; and that even if untried techniques prove out unexpectedly well, we will still have to have another major airport in operation by about 1972.

Other experts are clear that the need is here or close at hand. The authorities who studied the question at the request of the Port of New York Authority report that by 1965 the peak demand will exceed regional instrument flight capacity by 13 aircraft movements per hour. Both men who appeared as experts for The Jersey Jetport Site Association at the public hearing on this bill, Mr. Albert E. Blomquist and General Robert L. Copsey, have expressed the belief that the need exists now. They are confirmed in this by the authoritative view of the Federal Aviation Agency. The representative of the Agency testified at the hearing that the Agency has

"established without question that there is need for an additional jet airport serving the Greater New York Metropolitan area."

I believe objective observers must agree that the New Jersey-New York metropolitan area must have a major new airport, and that we must get to work on it soon. Considering that it would take from 6 to 8 years for legislative action, land acquisition, site preparation and construction before flights could begin, now is none too soon to start by any of the estimates.

If one sees the importance of air travel facilities and finds this need, the third problem is to determine the general area in which the airport could be situated. Here, the standards of airspace and accessibility must be applied. There must be airspace to move the planes in and out with

safety, and the area must be reasonably near the people it would serve. If either standard is not satisfied, the need will not be met.

By the nature of our location on the northeastern seaboard, our domestic air flights move predominantly to and from the west and southwest. The new terminal must serve this traffic. This requires that the facility be located west of the complex network of airways which now dominate the airspace over the eastern and southern portions of our State. This airspace is saturated. It is the most crowded in the world. It would be out of the question to locate the new domestic airport either east of these airways or under them. I am informed it is equally out of the question, both as a practical matter and on technical grounds, to move the network of airways to the east so as to create airspace for the new terminal under the present airway pattern.

These are the studied views of the experts who have considered the matter at the request of the Port of New York Authority, and, most significantly, these are the views of the Federal Aviation Agency, the organization vested with total responsibility for air traffic control under federal law. In a statement submitted on the date of the hearing on this bill, July 12, 1961, the FAA pinpointed its conclusion on the airspace factor as follows:

“[I]t has been concluded that an additional domestic long haul airport in the State of New Jersey would be compatible with the existing airspace environment only if it is located north and west of a line running roughly from the Village of Stockton on the Delaware to Summit; thence to Greenwood Lake.”

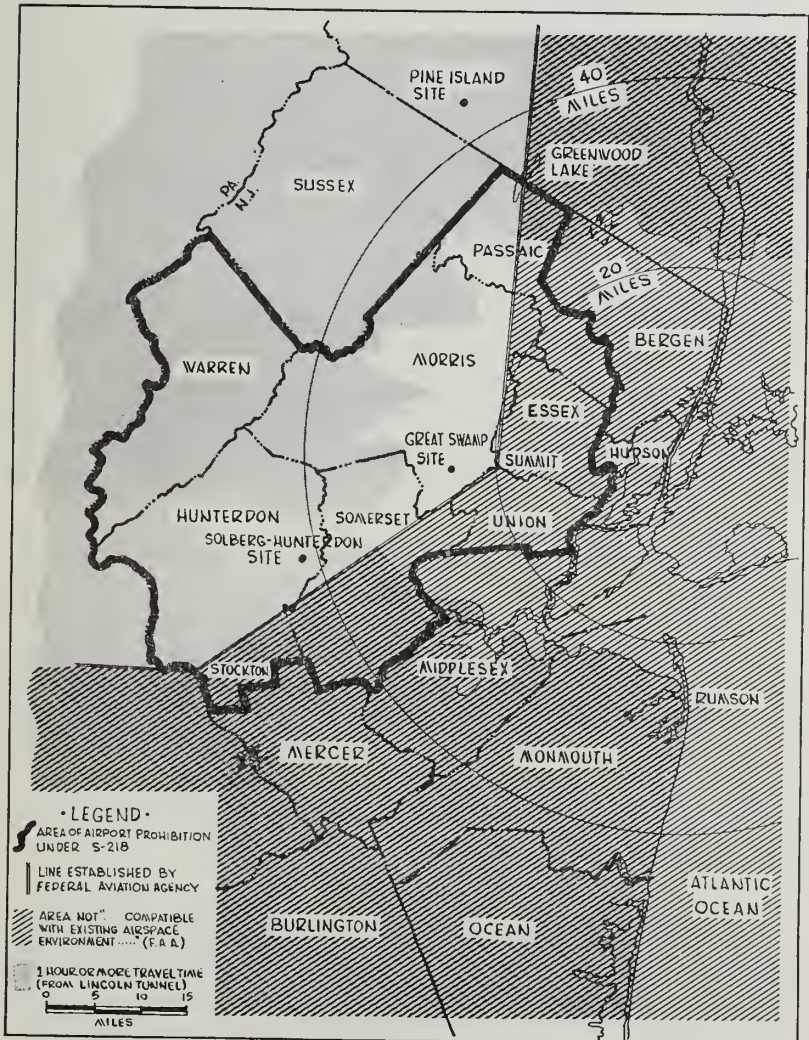

This line is traced on the map of central and northern New Jersey which appears on the following page. It represents the deliberate conclusion of the most authoritative voice on this subject. It cannot be wished away, nor even changed by legislation.

It is notable that the FAA goes on in its statement of July 12th to speak even more emphatically of the unavailability of a South Jersey site. It says:

“It should be noted also that any location south of a line due east and west between Stockton, New Jersey on the Delaware River and Rumson, New Jersey on the Atlantic Ocean will severely affect the heavily

travelled air route structure between Washington and New York and, additionally, would penalize the McGuire Air Force Base and the Philadelphia Airport complex."

Having marked off the area which is consistent with the airspace standard, that lying north and west of the Stockton-Summit-Greenwood Lake line, it remains to determine what parts of this area survive the second of the two major tests, nearness to the people to be served.

The accessibility rule is expressed by some in the admonition that it is economically risky to try to locate a commercial airport at a distance more than 45 minutes in ground-travel-time from the population center of the region to be served. More often, 60 minutes is given as the outside limit. The basis for this nearness requirement is not difficult to appreciate. People must not only be able to get to the airport; it is important that they be able to get there with reasonable dispatch. It is not enough that an airport will draw the patronage of those people or businesses who have no real alternative but to come to or remain in the area. It must be sufficiently convenient to serve those who are free to seek convenient service elsewhere. The basic reason for the popularity of air travel is its convenience and speed. Studies document the common sense conclusion that this attraction wanes at a rapid rate as convenience diminishes and time consumed increases. Because the convenience of the airport location is so important to its measure of success, it is very likely that it will also determine whether the airport will ever come into being for the practical reason that it would be built largely with capital to be attracted from private investors.

The airport facilities of major areas around the nation carefully observe this accessibility rule. I am informed of no successful commercial airport facility more than 60 minutes ground-travel-time from the center of population of the area it serves. Most are much closer.

The FAA takes the following position on accessibility:

“[I]t has been the experience of this Agency that the development of major airport facilities requiring more than 60 minutes travel time from the ‘center-of-gravity’ of the population to be served constitutes a poor investment for the reason that traffic generation decreases in geometric ratio as distances increase beyond this limit.”

I am persuaded that the 60-minute figure is reliable, though it is important that we bear in mind that it is by no means the desired distance, but only the outer limit.

This 60-minute limit is shown on the same map, above, which illustrates the airspace limitation. All the area lying more than 60 minutes from the center of the northern metropolitan area has been darkened by the pattern of dots. The times are based on automobile travel on highways

planned for completion by about 1970. Consideration has been given to monorail, levacar, helicopter and other forms of transportation which might permit a location farther to the west, but all have been found quite unrealistic for this purpose.

The map discloses that the area thus available for location of the facility is the irregular white patch running south from the upper half of Passaic through eastern Morris County and into the northeastern sector of Somerset County. All of the area to the east and northeast of this patch must be eliminated because of airspace congestion. The Jersey Meadows, for instance, although apparently suitable at first glance, have been found "completely unsuitable" because of airspace considerations. It happens that the meadows are out of the question also because of the Hackensack River and other obstructions in the area, and because of the condition of the soil. The land northwest, west and southwest of the white patch is unavailable because of its distant location from the metropolitan population centers. For example, the Pine Island site northwest of Greenwood Lake in New York State, while suitable from an airspace point of view, is nearly an hour and a half from the Hudson River crossings into New York City. Finally, the area generally to the south of the white patch is eliminated for the double reasons of airspace congestion and inaccessibility. The FAA has said, for instance, that it:

"... cannot conceive that the Burlington County area, located some 75 ground-miles away, could possibly be considered a logical or practical site for a major airport to serve metropolitan New York."

It is as remote as Pine Island, and it also fails the airspace test. As to the latter, the FAA has said that such an airport in the Burlington County area:

"... would serve only to aggravate the already highly congested air traffic between Washington and New York and, indeed, along the entire Eastern Seaboard."

It ought to be made clear that South Jersey cannot meet the need of North Jersey. If there is a need in South Jersey, which is doubtful in light of the excess capacity at Philadelphia International which now serves that region, it will have to be given independent consideration.

Once the area is found which satisfies the airspace and access standards, one must turn to the fourth question, the selection of a particular site within the area according to the additional factors of land use, topography, climate, engineering, airport design and economic impact. It happens that, of all the sites suggested by the Port of New York Authority, or, to my knowledge, by anyone else, there is only one within the available area which satisfies these other standards. That is the Great Swamp site. It appears that this is not only the best site, but the only practicable site.

It is not necessary, however, to answer this fourth question in order to reach a decision on Senate Bill No. 218, for this bill is not concerned with any particular site. It is an indiscriminating prohibition covering a seven-county area. The bold dark line on the map sets off the area covered by this bill. It reveals a striking fact: the prohibition engulfs the entire area within the white patch, the only land in the whole region found to be suitable for location of the airport site. In my judgment, the analysis need go no further for present purposes. This bill would prohibit a vital facility as a matter of law in the only area where we find it can be placed as a matter of fact. I could not sign it in good conscience. It would be a disservice to the people of New Jersey to permit such a bill to become the law of this State. We shall have to deal with the Jet Age in more realistic terms. We cannot legislate it out of existence.

The origin of this bill is worth mentioning. It was introduced on May 22, 1961, the same day on which its principal sponsors introduced Senate Bill No. 219 to create a Major Air Terminal Study Commission. Under Senate No. 219, the Commission would "make a comprehensive study of possible sites for a new major commercial airport to be constructed, if feasible, in the counties of Burlington and Ocean". It would report by March 15, 1962. It appears that, although they had tried to launch the Commission with a legislative nudge away from a North Jersey site, the sponsors were apprehensive that the Commission might not get the idea. Senate Bill No. 218 would make sure the "comprehensive study" did not get out of hand.

Senate Bill No. 218 was not preceded by competent supporting study. The only prior studies, other than the preliminary one by the Port of New York Authority, had related to the general question of need for a new facility, a

subject irrelevant to the question of county location, or to a particular site in Morris County. There was no sound basis for a bill barring the facility in the seven-county area. It is interesting to note that it passed the Legislature two meetings later, on June 1, 1961, 9½ months before the comprehensive study was due. It is interesting, too, to note that the study measure is still before the Legislature.

Ironically, the bill rushed through in such panic has no meaningful legal effect. If a commercial airport were to be erected by the federal government, the bill would not stand in the way. If it were to be erected by the Port Authority or another State agency, legislation would be required in any event, and Senate No. 218 then would be voided automatically. But impotent as it is, the subject matter is too important to permit such a bill to go on the law books; too important to allow people who might depend on it to be misled. Some future Legislature will have to decide the location of the facility, if we are ever to meet the need. It should be permitted to reach a sound decision on the facts free of attempts of prior Legislatures, even though vain, to fetter it with predetermined prohibitions.

The effect of my action on this bill is not to settle the controversy in favor of the Morris County site nor even in favor of a location in the seven-county area. It is, rather, to point out that this question is and will remain open until mature men come to grips with it in adult terms; to avoid luring concerned citizens into a false sense of certainty because of a meaningless prohibition; to stimulate people to acquaint themselves with the reports on the subject so that they may judge according to the facts. The issue is too important to be decided in an atmosphere of panic and false fears.

An example of a misconception to be dispelled is the notion of many that the value of their homes would plummet if the airport were constructed nearby. This subject was studied by an expert of nationwide repute who concluded, after painstaking analysis of the experience in other areas where major airports have been located, that "airports do not affect the market value of vicinal real estate adversely." And this is not because of change from residential to lower use. The conclusion is based on the value of residential property for residential use.

Another misconception concerns the character of the development which would accompany the airport. It is true,

of course, that significant changes would occur. But it is not true, as many seem to fear, that this would be a heavy industry, "low" level type of development. Competent studies show it would attract high quality residential and commercial development and that industrial activity would be predominantly in high-income level research, processing and similar light industry.

The objectors do not seem to realize either that the airport, as proposed, would be unique in the free world in its design for safety and for the comfort of airport neighbors. In addition to 4,000 acres of land for operational area, it would include 6,000 acres of buffer zones. These buffers would extend at least 12,000 feet under the flight path from the end of each runway to the nearest neighboring property. In contrast, planes fly over privately held property within 3,400 feet at Idlewild, 1,100 feet at Newark and 1,250 feet at LaGuardia. Indeed, at most major airports planes fly over residences within 2,500 feet of the end of one or more runways.

It is also important that we understand the full economic significance of the airport. Its importance as a transportation facility for the region is, of course, immense. But beyond this, it would have great significance as a generator of economic opportunity in the area of the airport simply as an employer, a purchaser and a location for travel-serving businesses. In this respect alone estimates are it would, through multiple effect, be responsible for some 134,000 new jobs in the area and for more than \$700,000,000.00 in additional regional income each year. In the interest of the 30,000 young people who emerge hopefully from our schools and colleges each year to join our labor market, and the millions of others who depend upon the health of the metropolitan area economy, we should not underrate such an economic stimulant.

The constitutionality of this bill is seriously debatable because of its obstruction of interstate commerce and its apparently "special" character. In light of my conclusion on the merits of the bill, however, I need not consider these legal issues.

Respectfully,

ROBERT B. MEYNER,

*Governor.*

## SENATE BILL No. 138

*To the Senate:*

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 138, with my objections, for reconsideration.

This bill is designed to authorize municipalities to pay policemen and firemen for emergency overtime work. It would extend to overtime served on or after December 1, 1960. The statutes now speak only of compensatory time off for such duty.

I have no objection to the purpose of the bill. It simply would enable a municipality to make payment if it wishes. Unfortunately, however, the bill fails to take cognizance of the fact that present statutes require that compensatory time off be granted in some cases. *R. S. 40:47-47.1, L. 1948, c. 73, L. 1960, c. 120.* A municipality which provided compensatory pay under this bill might still face the literal obligation to provide compensatory time off.

The language should be corrected to carry out what I am sure is the true intent. I return the bill with the recommendation that the language be corrected as follows:

On page 1, section 2, delete lines 6, 7 and 8 in their entirety and in lieu thereof insert the following: "provide compensation for some or all of such emergency duty by any such policeman or fireman at his prevailing wage, which compensation shall be in lieu of any compensatory time off otherwise due for the emergency duty so compensated."

Respectfully,

ROBERT B. MEYNER,

*Governor.*

SENATE BILL No. 249

*To the Senate:*

Pursuant to Article V, Section I, paragraph 15 of the Constitution, I transmit herewith a copy of a statement which, pursuant to said paragraph 15, I appended to Senate Bill No. 249 at the time of signing it, in which statement I stated each item or part thereof to which I objected so that each item or part thereof so objected to should not take effect.

The bill in question is the supplemental appropriation measure for the fiscal year ending June 30, 1961. I deleted two items from this bill and reduced the amount of a third.

The first item, which I deleted, was an appropriation to John J. Winberry of Rutherford of \$1,500.00 for "special investigations in Middlesex County during 1948". Winberry had been specially appointed a deputy attorney general to conduct an investigation in Middlesex County at the request of a judge of the former Supreme Court sitting in that county. His petition to the claims committee concedes that his claims for services and expenses were not obligations of the State. It states that "under the appropriate statutes and court rules" they were the obligations of the county in which the services were rendered. Claimant attached to his petition an exhibit containing an order of the former Supreme Court directing payment of his earlier claims for like services from the treasury of Middlesex County.

On these facts, I find no foundation for this as a claim on State tax revenues.

The second item was an appropriation of \$4,968.99 to Maurice River Township for payment in lieu of taxes by reason of acquisition of lands in the township by the Division of Fish and Game. This would have constituted 100% reimbursement for tax losses. I reduced this appropriation to \$2,400.00.

If Maurice River Township were to receive the full amount, it would be a unique departure from the established

legislative policy concerning payments in lieu of taxes in cases of this kind, where the State holds substantial acreage in one municipality. The policy for many years has been to pay no more than 50% of the amount of the last taxes. It was carried forward this year in the same bill in the cases of two other municipalities falling in the same category, Sandyston Township and Lower Alloways Creek Township. In the absence of special circumstances, such as unusual municipal expenditures for services or facilities related to the land, there is no justification for special treatment of one municipality. No special circumstances were shown here. The \$2,400.00 appropriation which remains bears the same proportion to prior taxes as the payments made to other municipalities in the same category.

The third item was an appropriation of \$3,750.00 to Irene B. Sheppard of Audubon for "loss of wages and other losses resulting when claimant was not reappointed as a helping teacher" in 1947. I deleted this item.

A helping teacher serves under an appointment for a year or other fixed period. The law does not give tenure. When the appointee's term expires his services are terminated, unless the Commissioner deems it advisable, in his discretion, to reappoint him. The former Commissioner of Education did not "deem it advisable" to reappoint Miss Sheppard when her one year term expired in 1947. He was entirely within his rights, and he infringed no right of hers. She has no basis for a claim against the State.

Respectfully,

ROBERT B. MEYNER,

*Governor.*

SENATE BILL No. 84

*To the Senate:*

I herewith return Senate Bill No. 84, without my approval, for the following reasons:

This bill would permit a municipality or county to make unlimited emergency appropriations for removal of any "excessive and unusual fall of snow", and to spread the tax impact over three years. The appropriation would be met from the proceeds of special emergency notes or from surplus. The debt would be paid, or the surplus restored, from taxes imposed for the next three years.

Emergency appropriations may now be made to meet pressing, unforeseen needs, but they are generally restricted by amount and, with few exceptions, they must be paid for by taxes raised in the following year. *R. S. 40:2-31*. This is one of the means by which we implement the principle that the costs of current operation should be met currently. This principle lies at the heart of our cash basis local budget law. We would impair the strength of the law if we were to permit unnecessary deferral of the tax implications of current operations.

The extraordinary snowfalls in December, 1960 and January, 1961 necessitated emergency appropriations for snow removal in many municipalities. This bill was offered to make an exception to the cash basis rule so that the cost could be spread among the following 3 budgets. It happened, however, that the bill was not passed until March 27, 1961. Nearly all municipal budgets had been certified to the County Boards of Taxation by that time and, in conformity with law, each included the entire cost of these snow removal operations. By the time the bill passed, then, it was too late to be helpful in meeting the problem which produced it. I am not informed of any serious difficulty resulting from the inclusion of the entire costs in the 1961 budgets.

This experience indicates that the cost of removing even the heaviest snows need not be deferred beyond the following year. If this is so, then there surely is little justification for risking a rule such as this bill proposes which would permit a municipality or county to defer the cost of snow removal whenever a snowfall might be deemed "excessive" and "unusual". I believe it would be preferable not to let this go into our law books.

SENATE BILL NO. 168

*To the Senate:*

I herewith return Senate Bill No. 168, without my approval, for the following reasons:

This bill arises from a case where a railroad company, having abandoned certain operations, attempted to sell a portion of its road and then found that the State had an option to purchase the road under a reservation in one or more of the special acts incorporating the company or its predecessors. The bill provides that the State House Commission may waive any such option if it finds the road is not required for State purposes. Notably, the bill provides not only for waiver of options to purchase at an appraised value, but also for waiver of options to purchase "at a price equal to the amount of the cost" of the road. The "cost" of any road would reflect its dollar value many years ago. Special acts conferring corporate powers were prohibited after 1875.

I do not know whether waiver is in order in the particular case in question. This can only be told after due inquiry. But even if it were proper in this case, surely that should not determine our decision on a general bill of this sort. I am informed there are nearly 1,000 railroad incorporation acts on file in the Secretary of State's office. Who knows

how many times budget-minded legislators of the last century inserted options which may now have ripened into valuable rights? Whatever the number, we ought not be guilty in twentieth century haste of failing to harvest crops so thoughtfully planted for the people of New Jersey by prudent legislators of an earlier century.

It is true the bill would reserve the right to the State House Commission to look over each case. But I fear that the enactment of a general bill such as this would suggest a legislative policy favoring waiver. It would be better, I believe, for the Legislature itself to give individual attention to each of these options as they come into question, just as the Legislature a century ago gave individual attention to the reservation of the options.

Accordingly, I will not sign this bill.

Respectfully,

ROBERT B. MEYNER,

SENATE BILL No. 156

*To the Senate:*

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 156, with my objections, for reconsideration.

This bill would make several changes in the law governing trucks on the highways.

The first has to do with the law which prohibits use of the highways by a truck at a weight in excess of its registered weight. As presently interpreted, this law applies to trucks registered in other States as well as those registered in this State. This bill restricts its application to trucks registered in New Jersey. In the case of tractor and trailer or semi-trailer combinations where one unit is registered locally and the other is not, the bill requires that the New Jersey registered unit be registered for one-half of the total weight of the combination.

The purpose of the rule limiting trucks to their registered weight is to require truck owners to purchase registration sufficient for the weight they put on our highways. The application of the rule to foreign registry trucks bears no direct relation to this purpose. Moreover, the variation in registration requirements from State to State has resulted in considerable confusion and some inequity in the enforcement of this phase of the law. For these reasons, I will not disapprove the change proposed. In order to make it effective, however, it will be necessary to add a separate penalty clause in the form recommended hereafter.

The second amendment provides that gross weight limitations are not applicable to a vehicle which complies with the axle weight limitations of the law. This is a roundabout way of saying that, for practical purposes, gross weight restrictions are abrogated in favor of axle weight limitations. The amendment adds, however, that no vehicle may travel the highways with a gross weight, or for that matter an axle weight or a dimension, which is in excess of the maximum permitted under the Federal Aid Highway Act of 1956. The present federal maximum on gross weight is 73,280 pounds. This is an essential restriction, of course, if we are to continue to qualify for federal highway aid.

If the Legislature wishes to make this change I will not stand in the way. Axle weight limitations are the most important considerations. If these are properly enforced there is no particular need for intermediate gross weight limitations. The Legislature has made its determination on the over-all gross weight limitation by adopting the maximum fixed by Congress, and I am not prepared to say it is unreasonable.

I cannot accept the change, however, unless the form is altered to simplify the language and clarify the true intent. I recommend that the language set forth at the end of this message be substituted for the present language.

The third amendment would delete the provision now in *R. S. 39:3-84* which requires that a red light or flag be displayed on any load which projects beyond the limits of the vehicle. The deletion was proposed, I am informed, in the belief that this language was an unnecessary duplication of *R. S. 39:4-70*. That is not so. The later section is narrower in scope. The deleted provision should be restored.

The fourth amendment would restrict the general penalty imposed under *L. 1950, c. 142, §5*, to violations of dimensional restrictions, abolish the distinction between the first and subsequent offenders and establish a penalty of \$50.00 to \$100.00 for all offenses. The penalty now is \$200.00 to \$500.00 for first offenses.

I can accept the narrowing of the scope of this special penalty clause to dimensional violations. I think it is reasonable that other violations now covered by this penalty clause, such as failure to carry a red flag or red light, be handled under the general penalty provision. I can also accept abolition of the subsequent offender category. This is an inequitable rule when applied to owners of varying numbers of trucks, and enforcement is difficult at best. But I will not accept a reduction of the fine to the \$50.00 - \$100.00 range. I believe the \$200.00 - \$500.00 range should be retained for all dimensional violations. There will no doubt be cases where it will appear high, but we cannot hope for effective deterrence in this highly competitive field unless a stiff fine is a certainty.

The fifth amendment would make a technical change in *R. S. 39:4-26* to facilitate interstate reciprocity in the movement of oversize loads under special permit. I have no objection to this change.

Finally, in setting forth the present text of *R. S. 39:3-84* in attempted compliance with the constitutional requirement that a section amended be set forth at length, the bill fails to include a paragraph added to the section by *L. 1961, c. 71*, having to do with the dimensions of farm vehicles. To avoid any question whether that language remains in the law, I recommend that it be inserted here by amendment.

In all, then, I recommend the following:

On page 3, section 1, following line 67, insert the following: "If it does not, the owner, lessee and bailee shall be fined an amount equal to \$0.02 for each pound by which  $\frac{1}{2}$  of said combined gross weight exceeds the gross weight registration of the unit registered under this act, if the excess is not greater than 10,000 pounds, and \$0.03 for each pound of the excess if it is greater than 10,000 pounds, but in no event less than \$50.00."

On page 4, section 2, following line 23, insert the following paragraph:

“In the case of farm tractors and traction equipment and farm machinery and implements, the maximum width and length shall be such as the Director of the Division of Motor Vehicles shall prescribe by uniform rules and regulations but the operation of such vehicles shall be subject to the provisions of section 39:3-24 of this Title and any such vehicle shall not be operated on any highway which is part of the National System of Interstate and Defense Highways or on any highway which has been designated a freeway or parkway as provided by law.”

On page 5, section 2, delete lines 37 through 50A in their entirety.

On page 5, section 2, following line 61, insert two paragraphs as follows:

“Every commercial motor vehicle or motor-drawn vehicle used on the public highways carrying loads extending beyond the outside dimensions of the vehicle shall have displayed at the outside extremity of the load a red flag by day which shall not be less than 18 inches square and a red light by night and they shall be so hung as to present a full view to the drivers of approaching vehicles. This red light shall be in addition to the red light provided for in section 39:3-61 of this Title.

“In addition to the other requirements of this section and notwithstanding any other provision of this title, no commercial motor vehicle, tractor, trailer or semi-trailer shall be operated on any highway in this State with a combined weight of vehicle and load, an axle weight or a vehicle dimension the allowance of which would disqualify the State of New Jersey or any department, agency or governmental subdivision thereof for the purpose of receiving federal highway funds.”

On page 7, section 3, line 46, delete “this act” and insert in lieu thereof “R. S. 39:3-84”.

On page 7, section 3, line 47, delete “\$50.00 nor more than \$100.00” and insert in lieu thereof “\$200.00 nor more than \$500.00”.

On page 7, section 3, line 51, delete “axle weight or”.

On page 7, section 3, line 51, delete “act” and insert in lieu thereof “title”.

On page 7, section 3, line 52, after "load" insert "or an axle weight in excess of the axle weight limitations imposed by this Title".

On page 8, section 5, delete "upon approval" and insert in lieu thereof "on the tenth day following the day of its enactment".

SENATE BILL No. 161

*To the Senate:*

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 161, with my objections, for reconsideration.

This bill would supplement the In Rem Tax Foreclosure Act (1948) to permit a municipality to conduct a foreclosure proceeding under the provisions of that act where a previous foreclosure proceeding was prosecuted to judgment under the provisions of "any law applicable to the foreclosure of municipal tax sales certificates" and there were irregularities in the proceeding. The bill further provides that the "procedure" under it shall be the same "as in the case of proceedings under chapter 278 of the Laws of 1955".

Senate Bill No. 161 is essentially parallel to section 1 of the 1955 law except that that section permits a municipality to reforeclose under the provisions of the In Rem Act only where the original, defective proceeding had also been brought under the In Rem Act. This bill would broaden the remedy to include reforeclosures where the original foreclosure was not conducted under the In Rem Act. This would be an acceptable extension of the remedy if it were limited to cases where the facts underlying the original proceedings would have been sufficient to satisfy the protective standards of the In Rem Act. The present bill, however, does not state clearly that it is subject to this limitation. I believe it should.

In addition, it would be preferable to amend the 1955 statute rather than supplement the In Rem Act again.

With these objects in mind, I recommend that Senate Bill No. 161 be amended as follows:

On page 1, Title, line 1, insert before the words "A Supplement" the words "An Act to amend".

On page 1, Title, line 1, delete the double quotation mark before "In Rem" and insert in lieu thereof a single quotation mark.

On page 1, Title, line 1, delete the double quotation mark before "approved" and insert in lieu thereof a single quotation mark.

On page 1, Title, line 2, following "(P. L. 1948, c. 96)" insert ", 'approved March 1, 1956 (P. L. 1955, c. 278)'".

On page 1, section 1, lines 1 through 11, delete section 1 in its entirety and insert in lieu thereof the following:

"1. Section 1 of the act of which this act is amendatory is amended to read as follows:

1. Where

(a) any proceeding pursuant to the provisions of the act to which this act is a supplement, *or*

(b) *any other proceeding for the foreclosure of a right of redemption where the right could then have been, but was not, foreclosed in the manner provided by said act if said act had then been in effect,*

has been heretofore or shall be hereafter instituted and judgment obtained, and after the entry of such judgment it is discovered that there were irregularities, or that there may have been irregularities, in the conduct of the proceedings, the municipality which instituted the proceedings, may [again] conduct a proceeding under the said act, in the same manner and with the same effect as the first proceeding would have had if it had been regularly prosecuted to judgment *under the said act.*"

ROBERT B. MEYNER,

SENATE BILL No. 227

*To the Senate:*

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 227, with my objections, for reconsideration.

This bill would amend the law governing property tax exemptions for persons 65 years of age or more to require that the income of a husband and wife be combined in determining whether either is within the \$5,000.00 maximum and to require that an applicant have held title to the home on which he claims an exemption for the 3 years next preceding the assessment date.

Under the present exemption law, *L. 1961, c. 9*, an individual must establish that his income was not more than \$5,000.00. This follows the standard set in the 1960 constitutional amendment which authorized the exemption statute. An inequity has developed, however, because the law focuses only on the income of the applicant and does not take account of the income of the family unit. As a result, for instance, a wife may secure an exemption on property held by herself and her husband, or held by herself alone, if she can show a personal income of not more than \$5,000.00 even though, together, she and her husband are in comfortable financial circumstances.

The present bill seeks to avert this problem, in the husband and wife situation, by an "income-combining" provision which says, in effect, that the wife's income shall be increased by the amount of her husband's income and the husband's income shall be increased by the amount of the wife's.

This change will not solve the entire problem. Inequity could develop where the applicant is supported by someone other than a spouse. But experience with the law has shown that the husband and wife situation is the only significant problem. Ideally, the law should be drawn so that the financial test gives a true picture of need for everyone, but we are dealing with a law separately administered in each municipality by men who, in most cases, are not in a position

to handle the additional work which would be generated by further refinements in the law. Bearing this in mind, the Legislature is justified in limiting the amendment as it has. I believe, however, that we must recognize an exception where the husband has deserted the wife or they are otherwise separated. I will suggest language to provide for this exception.

I cannot agree to the other change embodied in this bill, the one concerning length of ownership. I imagine the Legislature added this provision to forestall efforts to secure exemptions through bare transfers of title from ineligible home owners to parents or others 65 or over. The effect of the language, however, is much too broad. It would deny the exemption to hundreds, perhaps thousands of deserving older people who rightly received it this year and should receive it in 1962 and years to come. It would mean, for example, that a man and woman who sell their home in favor of a smaller place to cut expenses after retirement would lose the exemption for the next 3 years. They might even have had an exemption on the home they sold. The same unfairness would result where elderly people move for any reason, whether involuntarily because of urban renewal programs, highway construction or the like, or simply through personal preference. I find no basis for denying the exemption for 3 years in any of these cases. This is particularly true in light of the provision, now in the law, that an applicant must have been a permanent resident of this State for 3 years in order to qualify.

Experience with the law, I am informed, has not shown that transfers to parents simply to qualify for the exemption present a serious problem. If it should prove enough of a problem in future years to warrant complicating the law further in an effort to cope with it, we can then search for a less drastic solution.

Applications for 1962 exemptions have already been filed. They were due not later than November 1, 1961. In anticipation of the enactment of this bill, however, the form of application was designed to elicit the information necessary to apply the provisions of this measure in determining eligibility for the exemption in 1962. It is possible, therefore, and I think desirable too, to gain the benefit of the income combining rule forthwith. With this in mind, I recommend language to make it clear that the new provision will apply for 1962.

In all, therefore, I recommend the following changes :

On pages 1 and 2, section 1, delete the entire paragraph appearing at lines 10 through 17 and insert in lieu thereof a new paragraph as follows :

“For the purposes of this act the income of a married person shall be deemed to include an amount equal to the income of the spouse during the applicable income year, except for such portion of that year as the two were living apart in a state of separation, whether under judicial decree or otherwise.”

On page 2, section 2, line 1, after “immediately”, insert “and shall be applicable beginning with the tax year 1962”.

Mr. Ozzard moved that Senate Bill No. 161, entitled “A supplement to the ‘In Rem Tax Foreclosure Act (1948),’ approved May 28, 1948 (P. L. 1948, c. 96)” be given first reading for the purpose of re-enactment.

Which was agreed to.

Mr. Ozzard offered the following amendments to Senate Bill No. 161, pursuant to the recommendations of the Governor, which amendments were adopted :

Amend page 1, Title, line 1, insert before the words “A Supplement” the words “An Act to amend”.

Amend page 1, Title, line 1, delete the double quotation mark before “In Rem” and insert in lieu thereof a single quotation mark.

Amend page 1, Title, line 1, delete the double quotation mark before “approved” and insert in lieu thereof a single quotation mark.

Amend page 1, Title, line 2, following “(P. L. 1948, c. 96)” insert “, ‘approved March 1, 1956 (P. L. 1955, c. 278)’ ”.

Amend page 1, section 1, lines 1 through 11, delete section 1 in its entirety and insert in lieu thereof the following:

“1. Section 1 of the act of which this act is amendatory is amended to read as follows:

1. Where

(a) any proceeding pursuant to the provisions of the act to which this act is a supplement, or

(b) any other proceeding for the foreclosure of a right of redemption where the right could then have been, but was not, foreclosed in the manner provided by said act if said act had then been in effect,

has been heretofore or shall be hereafter instituted and judgment obtained, and after the entry of such judgment it is discovered that there were irregularities, or that there may have been irregularities, in the conduct of the proceedings, the municipality which instituted the proceedings, may [again] conduct a proceeding under the said act, in the same manner and with the same effect as the first proceeding would have had if it had been regularly prosecuted to judgment *under the said act.*”

Mr. Ozzard moved that Senate Bill No. 161, as amended, be advanced to second reading without reference for the purpose of re-enactment, which motion was adopted.

Senate Bill No. 161, as amended, was taken up, read a second time, considered by sections, agreed to, ordered to be reprinted and to have a third reading.

Mr. Ozzard offered the following resolution which was read and adopted by the following vote:

Which was agreed to.

Mr. Dumont offered the following amendments to Senate Bill No. 156, pursuant to the recommendations of the Governor, which amendments were adopted:

Senate amendments to Senate Bill No. 156.

On page 3, section 1, following line 67, insert the following: "If it does not, the owner, lessee and bailee shall be fined an amount equal to \$0.02 for each pound by which  $\frac{1}{2}$  of said combined gross weight exceeds the gross weight registration of the unit registered under this act, if the excess is not greater than 10,000 pounds, and \$0.03 for each pound of the excess if it is greater than 10,000 pounds, but in no event less than \$50.00."

On page 4, section 2, following line 23, insert the following paragraph:

“In the case of farm tractors and traction equipment and farm machinery and implements, the maximum width and length shall be such as the Director of the Division of Motor Vehicles shall prescribe by uniform rules and regulations but the operation of such vehicles shall be subject to the provisions of section 39:3-24 of this Title and any such vehicle shall not be operated on any highway which is part of the National System of Interstate and Defense Highways or on any highway which has been designated a freeway or parkway as provided by law.”

On page 5, section 2, delete lines 37 through 50A in their entirety.

On page 5, section 2, following line 61, insert two paragraphs as follows:

“Every commercial motor vehicle or motor-drawn vehicle used on the public highways carrying loads extending beyond the outside dimensions of the vehicle shall have displayed at the outside extremity of the load a red flag by day which shall not be less than 18 inches square and a red light by night and they shall be so hung as to present a full view to the drivers of approaching vehicles. This red light shall be in addition to the red light provided for in section 39:3-61 of this Title.

“In addition to the other requirements of this section and notwithstanding any other provision of this Title, no commercial motor vehicle, tractor, trailer or semitrailer shall be operated on any highway in this State with a combined weight of vehicle and load, an axle weight or a vehicle dimension the allowance of which would disqualify the State of New Jersey or any department, agency or governmental subdivision thereof for the purpose of receiving Federal highway funds.”

On page 7, section 3, line 46, delete “this act” and insert in lieu thereof “R. S. 39:3-84”.

On page 7, section 3, line 47, delete “\$50.00 nor more than \$100.00” and insert in lieu thereof “\$200.00 nor more than \$500.00”.

On page 7, section 3, line 51, delete “axle weight or”.

On page 7, section 3, line 51, delete “act” and insert in lieu thereof “Title”.

On page 7, section 3, line 52, after "load" insert "or an axle weight in excess of the axle weight limitations imposed by this Title".

On page 8, section 5, delete "upon approval" and insert in lieu thereof "on the tenth day following the day of its enactment".

Mr. Dumont moved that Senate Bill No. 156, as amended, be advanced to second reading without reference for the purpose of re-enactment, which motion was adopted.

Senate Bill No. 156, entitled "An act concerning motor vehicles and traffic regulations, and amending sections 39:3-20, 39:3-84 and 39:4-26 of the Revised Statutes and section 5 of chapter 142 of the laws of 1950,"

Messrs. Dumont and Mathis offered the following resolution, which was read and adopted:

WHEREAS, Former Assemblywoman Mrs. Lettie E. Savage died on September 16, 1961; and

WHEREAS, Mrs. Savage represented her county of Ocean in the General Assembly from 1941 to 1959; and

WHEREAS, By reason of her long and impressive service, Mrs. Savage became the dean of the Assembly in 1954 and during her incumbency served on many important committees and either sponsored or co-sponsored bills for her own county and for State-wide purposes particularly in the field of education; and

WHEREAS, Mrs. Savage was an outstanding citizen of her county and was active in fraternal circles and in the Business and Professional Women’s Club of Toms River and the National and New Jersey Orders of Women Legislators; now, therefore,

*Be It Resolved by the Senate of the State of New Jersey,* That public expression is hereby given to the memory of Mrs. Lettie E. Savage for her services to the State, her county of Ocean and to her community of Lakewood; and

*Be It Further Resolved,* That sincere condolences and sympathy are hereby extended to the family of the late Mrs. Lettie E. Savage; and

1. The Senate Investigating Commission created by Senate Resolution No. 7 of the 1960 Session to investigate the Port of New York Authority and thereafter reconstituted and continued by Senate resolution adopted by the Senate of the State of New Jersey on January 10, 1961, shall continue in existence until June 30, 1962, for the purpose of permitting the investigation which is now pending to be completed, so that a report may be filed with the Senate of the State of New Jersey within 30 days of the date of the adoption of the herein resolution.

2. The members of the commission as now constituted shall continue in office until June 30, 1962.

The following message was received from the General Assembly by the hands of its Clerk:

STATE OF NEW JERSEY,  
 GENERAL ASSEMBLY CHAMBER, }  
 January 9, 1962. }

*Mr. President:*

I am directed by the General Assembly to inform the Senate that the General Assembly has passed the following bill:

Senate Bill No. 229, entitled "An act concerning exemptions from taxation, and amending section 54:4-3.6 of the Revised Statutes,"

ERNEST T. SCHEIDEMANN,  
*Clerk of the General Assembly.*

Mr. Lance offered the following resolution, which was read and adopted:

WHEREAS, Former Senator Colonel Arthur F. Foran of Hunterdon County died on Friday, December 15, 1961; and

WHEREAS, Colonel Foran was a noted figure in public life in this State for many years, having been the Senator from Hunterdon County and President of the Senate in 1940, and then State Director of Milk Control; and

WHEREAS, Colonel Foran was also noted for his great interest in the conservation of wildlife and, particularly, game birds; and

WHEREAS, Colonel Foran's distinguished military career included service with the National Guard of the States of New York and New Jersey, becoming Inspector General of the 44th Division, New Jersey National Guard, with the rank of Lieutenant-Colonel, later attaining the rank of Colonel; and

WHEREAS, In private life Colonel Foran was a well-known figure in the business world in banking, steamship and manufacturing circles; now, therefore,

*Be It Resolved by the Senate of the State of New Jersey:*

That public expression is hereby given to the esteem in which Colonel Arthur F. Foran has been held and appreciation is expressed for his splendid services to the State and to the county of Hunterdon; and

*Be It Further Resolved,* That sincere condolences and sympathy are hereby extended to the family of the late Colonel Arthur F. Foran; and

*Be It Further Resolved.* That this resolution be spread upon the Journal of the Senate and that a copy signed by the President of the Senate and attested by the Secretary of the Senate be sent to the family of Colonel Arthur F. Foran.

Mr. Farley offered the following resolution, which was read and adopted:

WHEREAS, Mrs. Harriet Cowgill of Merchantville, mother of Senator Joseph W. Cowgill, died December 2, 1961; and

WHEREAS, The members of the Senate desire to extend their sincere sympathy and condolences to Senator Cowgill and the members of the family, knowing full well that words are inadequate to lessen the bereavement such as this, but realizing that the poignancy of the bereavement is mitigated by religious belief and the confidence of immortality so well expressed in Tennyson's lines,

“Sunset and evening star and  
one clear call for me \* \* \*”

and

WHEREAS, It is but fitting that public recognition be given to the passing of this noble mother, grandmother and great-grandmother; now, therefore,

*Be It Resolved by the Senate of the State of New Jersey:*

1. That public tribute is hereby given to the memory of Mrs. Harriet Cowgill, mother of Senator Joseph W. Cowgill; and

*Be It Further Resolved.* That sincere sympathy and condolences are hereby extended to Senator Cowgill and to the members of the family of Mrs. Harriet Cowgill; and

*Be It Further Resolved.* That this resolution be spread upon the Journal of the Senate and that a copy signed by the President of the Senate and attested by the Secretary of the Senate be forwarded to the family of Mrs. Harriet Cowgill.

Mr. Jones, on leave, introduced

Senate Concurrent Resolution No. 18, entitled “Concurrent resolution pertaining to New Jersey’s participation in the World’s Fair to be held in the New York metropolitan area in 1964,”

WHEREAS, The Legislature of the State of New Jersey has already designated the Tercentenary Commission to handle the participation by the State of New Jersey in the World's Fair to be held in the New York metropolitan area in 1964; and

WHEREAS, New Jersey's participation in the World's Fair will give the State an opportunity to tell visitors from throughout the nation and the world of our people, purpose and progress; and

WHEREAS, The Tercentenary Commission has estimated the cost of the New Jersey Pavilion at \$1,000,000.00; and

WHEREAS, It is anticipated that \$500,000.00 will be furnished by private donors toward the New Jersey Pavilion, and the other \$500,000.00 will have to be furnished by the State of New Jersey; and

WHEREAS, New Jersey has been allocated a prime 2-acre site immediately adjacent to the Unisphere at the World's Fair; and

WHEREAS, It is now essential to New Jersey's participation that the agreement of participation be signed in order to reserve our site at the fair; now therefore,

*Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):*

1. That it is the sentiment of the Legislature of the State of New Jersey that the State should participate in the World's Fair to be held in the New York metropolitan area and furnish \$500,000.00 towards the construction of the New Jersey Pavilion at the fair, the other part of the estimated cost of \$1,000,000.00 to be raised by private donations.

2. That the Governor is authorized to sign an agreement of participation with the World's Fair Corporation which agreement shall be contingent upon the appropriation of funds therefor by the Legislature and the receipt of necessary additional funds from private donations.

Upon the question, "Shall this resolution pass?" it was decided as follows:

In the affirmative were—

Messrs. Connery, Cowgill, Dumont, Farley, Fox, Grossi, Haines, Hillery (President), Jones, Lance, Lynch, Mathis, Ozzard, Ridolfi, Sandman, Stout, Waddington, Weber—18.

Senate Concurrent Resolution No. 18, entitled "A concurrent resolution pertaining to New Jersey's Participation in the World's Fair to be held in the New York Metropolitan area in 1964,"

ERNEST T. SCHEIDEMANN,  
*Clerk of the General Assembly.*

Upon the return of Messrs. Farley, Cowgill and Stout they reported that the Governor had been notified that the 185th Session of the Legislature of the State of New Jersey was about to adjourn sine die.

The following communications were received from the Governor and, after being read by the Secretary, were ordered to be entered at large on the Senate Journal.

SENATE BILL No. 11

*To the Senate:*

I herewith return Senate Bill No. 11, without my approval, for the following reasons:

This bill would amend an act approved in 1959, *L. 1959, c. 175*, concerning the continuation of salaries of school dis-

trict employees during absences occasioned by work-connected injury. The 1959 law provides that the full salary of a school district employee who is absent because of injury on the job may be continued by the employing board of education for as much as a year. This is in addition to current and accumulated sick leave. If the employee receives a workmen's compensation award for temporary disability, the salary payments must be reduced by the amount of the award. The present bill would amend the 1959 act to remove the local board's discretionary authority and, instead, require that the board continue the employee's salary for a year of absence.

This bill would single out school district employees for special treatment. Under present law no public employee is entitled to this salary continuation as a matter of right. The law leaves the matter to the discretion of the employer both as to county and municipal employees, *R. S. 40:11-8, L. 1939, c. 232, §4*, and as to persons in State service, *L. 1939, c. 233, §2, Civil Service Rule 55c*. I am not aware of difficulty in the administration of these laws. While requests ordinarily are granted, the employing authority retains the right to refuse the request where, in its considered judgment, the work relationship is too tenuous, the injury too dubious or the merit of the claim otherwise too questionable to warrant fully paid leave. The employer can also have due regard to permanent workmen's compensation benefits, accumulated sick leave rights, and the availability of disability benefits under retirement laws in determining whether equity requires some continuation of salary, and if so, how much and for how long.

If due consideration of these and other factors should indicate, however, that the public interest will be better served by foregoing the benefits of this discretionary authority in favor of mandatory salary continuation, then the change should be made with an even hand for all employees in similar circumstances. There is no justification for singling out one group of employees for favorable treatment as this bill proposes, and denying equal treatment to others similarly situated.

Respectfully,

ROBERT B. MEYNER,

Governor.

SENATE BILL No. 20

*To the Senate:*

I herewith return Senate Bill No. 20, without my approval, for the following reasons.

Senate Bill No. 20 would supplement the "Teachers' Pension and Annuity Fund—Social Security Integration Act" to provide that certain individuals upon retirement could receive their full retirement allowance without being subject to an offset for any amount payable to them as old age insurance benefits under the Social Security Act. The bill specifically provides that:

1. The amount of the social security old age insurance benefits payable to retirants shall not be deducted from their retirement allowances in the cases of men born after January 1, 1892 and before July 2, 1893, or after July 1, 1898, and in the cases of women born after January 1, 1892 and before July 2, 1896, or after July 1, 1901, provided such individuals have retired or shall retire within six months after the effective date of the bill and do not thereafter earn additional quarters of social security coverage from public employment in New Jersey before reaching age 65;

2. The amounts heretofore offset from the retirement allowances of such individuals shall be paid to them;

3. The liability for these increased benefits shall be funded over a period of 20 years; and

4. Eligibility for old age insurance benefits for all members of the Teachers' Pension and Annuity Fund shall, until December 31, 1964, be computed in accordance with the provisions of the Social Security Act in effect on December 31, 1959.

The question whether persons who would be affected by this bill, unlike the vast majority of teachers, should receive both their full retirement allowance and old age insurance benefits under the Social Security Act, is not a new one. It has been thoroughly discussed on several

occasions since the adoption of amendments to the Social Security Act by Congress in 1956. For this reason, I need not review here the operation of the offset provisions of the pension acts or the reasons why some persons have qualified for double benefits. These matters have been discussed fully in my earlier messages.

To place the matter in proper perspective, it is desirable to review the legislative history of bills on this subject.

I approved legislation passed during the 1956 legislative session which permitted those retired members of the Teachers' Pension and Annuity Fund and the Public Employees' Retirement System who had been eligible to receive these double benefits when they had retired, to continue to receive them notwithstanding the changes made by the Federal law. *L. 1956, c. 218, 219*. I took this action because these persons had irrevocably committed themselves by retiring, in some cases prematurely, and could not readjust their plans after Congress had changed the law. Fairness required that such persons be permitted to continue to receive the retirement benefit they expected when they retired.

In 1957, I disapproved Senate Bills Nos. 33 and 34. Those bills would have given the extra benefit to persons who had not retired at the time that the social security changes were enacted, but who had been hopeful of qualifying for double benefits. Those people, unlike the first group, had not committed themselves before the change in the Federal law. They were still employed and had the right to continue working. The essential factor of equity was missing. At this point, these people were no different from their thousands of co-workers. If we had granted them double benefits, we would soon have had insistent demands for double benefits for other groups.

At the time that I took that action in 1957, I referred to a statement issued by the New Jersey Education Association in September, 1956, commenting on the changes brought about by the Social Security Act amendments. The Association statement said:

“There will be some disappointed women teachers in the 60-65 age group who can no longer look forward to timing their retirement so as to get both social security and their full State retirement allowances.

We sympathize with them sincerely—it is never a happy experience to get less than you expected. However, teachers in this group should recognize (a) that the possibility of ‘double benefits’ always was a special advantage available to only a limited group of teachers rather than the mass; and (b) that it was not a major consideration in the decision to accept or reject the new plan. Without it, the new plan is far better than the old for virtually every New Jersey teacher; it is especially advantageous to the very group which had looked forward to the double benefits.”

This makes interesting reading when one considers the current protests made to the Legislature on this subject.

A situation similar to that of 1956 arose after the Social Security Act amendments of 1960. During the 1960 session, three bills were passed by the Legislature on the subject. Senate Bills Nos. 69 and 126 were comparable to Senate Bills Nos. 33 and 34 of 1957. I disapproved them for the same reasons I disapproved the 1957 measures. The third bill, Assembly Bill No. 332, accomplished much the same thing as the legislation approved in 1956. It gave protection to those persons who had retired expecting to receive both a full retirement allowance and old age insurance benefits. The bill went further, however. It would have given the same favorable treatment to many others who had not so retired. I therefore returned the bill to the Legislature with a recommendation that it be limited to the first group. It was re-enacted as recommended and became *L. 1960, c. 123*.

This history brings the matter down to date. We have established a firm policy limiting the double benefit exception to the group that retired counting on its receipt. We have refused to open the exception to those who merely hoped to receive the windfall without reliance upon it. I have explained the reasons for this policy in great detail in my earlier messages, to which I make reference here. Suffice it to repeat here that I am satisfied beyond question that our policy is equitable and fair.

There are two other reasons why this bill must be vetoed. The first arises from the administrative problem. There are over 3,000 members of our two systems who could retire within the six-month period provided in such a bill as this. This would be in addition to the 1,500 retirement cases the

Division of Pensions normally handles in such a period. The Division has informed me that it would be impossible to process these retirement applications in the time allotted. In order to avoid needless hardship on the part of the retiree, any legislation of this type should provide for staggering the retirement dates. Only by this means could administrative chaos be avoided.

Far more important, however, is the cost of this measure. It is enormous. Its implications must not be overlooked in any further consideration of this type measure. This bill, together with its inseparable counterpart for the Public Employees' Retirement System, would cost the taxpayers from \$90,000,000.00 to \$120,000,000.00.

Past discussions about the cost of these bills have produced a wide variety of estimates. For example, Senate Bill No. 69 of 1960 carried a statement which estimated the annual cost of the bill at \$1,226,000.00 a year for 20 years. Senate Bill No. 20, which provides broader benefits, carries a statement which fixes the annual cost at \$930,000.00 for 20 years. To resolve the issue once and for all, the Division of Pensions recently requested the actuary of the Teachers' Pension and Annuity Fund to calculate the cost with precision. The startling results are as follows:

—There are 939\* persons now retired who could avoid the offset and receive payments of amounts previously deducted. The annual cost of this benefit—\$1,009,000.00. The cost of this benefit alone, therefore, exceeds the proponents' estimated cost of the entire bill.

—There are 2,265 persons now employed who could avoid the offset by retiring within six months of the bill's approval. The annual cost of this benefit, if all did retire—\$2,719,000.00.

—There are 591 persons now employed who could avoid the offset by timing their retirement date if their eligibility is determined under the provisions of the Social Security Act in effect December 31, 1959. The annual cost of this benefit, if all so retire—\$366,000.00.

This totals \$4,094,000.00 annually, if everyone affected were to take advantage of the bill. In addition, it is estimated that the cost of providing comparable benefits to members of the Public Employees' Retirement System would be at least \$2,000,000.00 annually. In a 20 year

period, therefore, the State would have to pay from \$90,000,000.00 to \$120,000,000.00, depending upon the actual number who take advantage of the bill.

The cost of this bill therefore, will be more than four times the amount estimated in the bill's statement. The magnitude of this financial liability alone compels a searching reassessment of this measure.

I would also call attention to the fact that any extension of the double benefits exception will invite all other teachers and public employees to seek "equal treatment". If that step were taken—and I emphasize that it would be the next one urged—the ultimate cost to the State could exceed \$700,000,000.00. The time to consider these ultimate implications is now, when the present bill is under consideration, for if a bill such as this were permitted to become law the erosion would be well under way, and the next step would be the final one.

SENATE BILL No. 26

*To the Senate:*

I herewith return Senate Bill No. 26, without my approval, for the following reasons:

This bill seeks to validate land titles derived from in rem tax foreclosure proceedings instituted by any municipality between June 23, 1947, and May 28, 1948, if the judgments obtained have been of record for at least 10 years. The act would not apply where the validity of the foreclosure is contested in an action pending on the date of enactment or instituted within 60 days after enactment.

This bill is directed to titles based upon the 1947 In Rem Tax Foreclosure Act, *L. 1947, c. 333*. That act was replaced

by the In Rem Tax Foreclosure Act (1948), *L. 1948, c. 96*. The constitutionality of the 1948 act was established in *City of Newark v. Yeskel*, 5 N. J. 313 (1950), but there has not been a direct test of the 1947 legislation, and its constitutionality has remained uncertain.

The intention of the proponents of this measure, as I understand it, is to validate foreclosures which were conducted in compliance with the 1947 act. This would be a validation of possible constitutional, not statutory, failings. In recognition of this, the bill is not drawn strictly as a validating act, for the Legislature has no more power as to the past than it has as to the future. The bill is, instead, a quieting device, a type of limitation on actions. It would "validate" a title only where the foreclosure judgment has been on record for 10 years and is not the subject of a court contest at the time of the bill's enactment or at any time in the 60 days following enactment.

If the bill were limited to those situations where the foreclosure complied with the 1947 law, the limitation device might be an acceptable solution. Even then, however, the limitation ought to be more carefully expressed. No consideration is given, for instance, to the possibility that a land title in question may have been successfully attacked on other grounds before the enactment of the bill.

The bill, however, is not so limited. It would validate the judgment and title without regard to the manner in which the foreclosure proceeding was conducted. It is sufficient that it 'purported to be' an in rem foreclosure proceeding. Omission of even the most fundamental steps would be no bar to validation. Clearly, this goes too far.

In an area of the law where certainty is especially important there is little to be said for reliance on a bill as questionable as this one. On the other hand, if the proponents can agree to narrow the scope of the bill to exclude the grossly defective cases, there should be no difficulty in drawing a measure to achieve the reasonable objectives with certainty.

SENATE BILL No. 56

*To the Senate:*

I herewith return Senate Bill No. 56, without my approval, for the following reasons:

This bill would increase survivors' benefits under the Consolidated Police and Firemen's Pension Fund. With a minor exception, the benefits in question are those payable to survivors of persons whose death did not occur in line of duty.

The increases would cost \$750,000.00 each year for 20 years, or a total over the years of \$15 million. Although the members of this Fund are now contributing a smaller portion of their salaries for pension purposes than most public employees, this bill would not increase those contributions. The entire cost would be borne by the public.

This is the third time during my administration that a bill to make these increases has come before me. On each occasion I have given the question painstaking attention. In each case I have reached the conclusion that the bill could not be permitted to become law. It is not that I doubt that the survivors could put the additional money to good use. I know they could. It is, rather, that I find no basis for taxing State resources for the purpose when the employment was purely local, and secondly, I cannot in fairness justify singling out this group when there are others in equal or greater need.

The three bills have differed in one material respect. The first, Senate Bill No. 161 of 1956, would have charged the entire cost of the increase to the State. The second, Senate Bill No. 67 of 1959, would have divided the cost  $\frac{2}{3}$  State,  $\frac{1}{3}$  municipalities. The present bill would reverse the allocation, charging  $\frac{1}{3}$  to the State and  $\frac{2}{3}$  to the municipalities.

In my message on the 1956 measure I examined the history of this pension fund at length. It goes back to 1885 when authorization was first given for municipalities to provide pensions for policemen. This was followed in 1888 by a similar authorization concerning firemen. In the following years many municipalities created their own

pension funds for police or firemen under these and subsequent laws. As pension plans will, they got by for a time. Little attention was given to the ultimate cost of the benefits promised, however, and the funds ran behind at an accelerating pace. The State came to the aid of the municipalities in 1927, but the deficits continued to mount. In 1944 the Legislature prohibited the creation of any additional local pension funds of this kind, closed the existing funds to new members and committed the State to an additional appropriation of \$1 million to help meet the existing deficits. A State-wide pension system funded according to sound actuarial principles was created for all policemen and firemen joining the forces thereafter.

With all that State assistance, the more than 200 local funds were still hopelessly insolvent. In 1952, their combined deficit stood at \$209 million. In that year the State stepped in again, this time to draw all the local funds together under State control, set up a 30 year schedule of payments to meet the deficiency and agree to aid the municipalities still further by meeting  $\frac{1}{3}$  the amount of these payments from State appropriations. This is now costing the State more than \$4 million each year.

The point of all this State participation, of course, is solely to prevent municipalities from defaulting on pension payments which had been promised. The members of the pension funds were all local, not State, employees.

It is in this light that we must see the implications of the present bill. Having come into the picture to help salvage the local funds from insolvency, the State now is asked to take part in providing increases in benefits. The reasons which induced State participation to redeem the promises of others do not support State participation in the making of bigger promises.

The particular benefits in question are those promised to the survivors of a policeman or fireman whose death occurs, whether before or after retirement, for reasons unrelated to his work. Under the present law the widow in such a case receives an annual pension equal to  $\frac{1}{2}$  the average salary formerly received by her deceased husband, with a maximum of \$1,000.00 per year. This bill would raise every widow's pension to \$1,200.00 per year without regard to average salary. There would be a comparable increase in the amounts payable to children under 18 where no widow

survives. The bill does not deal with the pensions of widows where death occurred on duty, except to establish a \$1,200.00 minimum in cases of deaths occurring prior to June 1, 1948.

While I am concerned with the taxing of State resources to meet new municipal obligations, I am more concerned with the fairness of the proposal. The amount of these yearly survivors benefits admittedly is not great, but one must realize that there is no yearly benefit at all for the widows and children of many public employees, and this includes great numbers of former State employees. Take the case, for instance, of a widow of a member of the Teachers' Fund who died 10 or 15 years ago before reaching retirement age. She received back the money which her husband contributed to the pension fund, and nothing more. Her counterpart widow in the consolidated system gets \$1,000.00 every year for the rest of her life, or until she remarries. The latter benefit is far superior. Take the case of a teacher who died after retirement, in 1954 or earlier, as a member of our Teachers' Fund. His widow would receive nothing after his death unless he provided it himself by taking a reduction in the amount of his own pension. There are undoubtedly many hundreds of cases in the files where pensioners have taken sharply reduced pensions to provide their widows with amounts measurably less than \$1,000.00 per year. The widow under the consolidated system gets up to \$1,000.00 even though her husband took his full benefit.

What is true of such cases under the Teachers' Fund is also true under the State Employees' Retirement System which governed until 1955. Indeed, the comparison persists in some degree under our present systems. When a member of the 1944 Police and Firemen's Retirement System dies after retirement his widow may receive the proceeds of his death benefit coverage equal to  $\frac{3}{16}$ ths of his salary plus another  $\frac{3}{16}$ ths if her husband purchased it. There is provision for optional settlement, but, again, this is only provided at the expense of her husband's pension benefits. There is no "pension" for the widow. Where a member of the 1944 system dies before retirement, his wife may get the proceeds of death benefit coverage equal to  $1\frac{1}{2}$  times her husband's salary and a return of her husband's pension contributions. An additional amount equal to  $1\frac{1}{2}$  times salary is provided if purchased by her husband through

additional contributions. That exhausts her benefits. While these may be substantial, there is no guaranteed annual income for the survivor, nor any certainty that the lump sum benefit will be as valuable as the \$1,000.00 per year now provided under the Consolidated Fund.

Neither of the two major pension systems administered by the State provides a fixed annual pension for survivors. These systems, the Teachers' Pension and Annuity Fund and the Public Employees' Retirement System, cover more than 100,000 employees. Through social security survivors benefits, the non-contributory and contributory life insurance and the opportunity for optional settlements, both systems hold the potential of substantial survivors benefits, but even these fall short in some cases of the equivalent of a life annuity of \$1,000.00.

The fact we must appreciate, then, is that approval of this bill would commit \$15 million of public money,  $\frac{1}{3}$  of it from the State, to the increase of benefits for survivors of certain local employees, despite the fact that survivors of many other public employees, including many State employees, are in distinctly greater need.

We cannot fairly single out limited groups of people for such preferential treatment. We are obliged to provide equally for others similarly situated, and more than that, to provide first for those whose need is greatest. I am proud that we committed ourselves to this principle as to former employees with the Inadequate Pension Law of 1958. I believe we must apply the same principles with regard to the families of former employees. Only by that means can we satisfy ourselves that we are using the funds entrusted to us in fairness to all.

SENATE BILL No. 95

*To the Senate:*

I herewith return Senate Bill No. 95, without my approval, for the following reasons:

This bill would broaden the coverage of a 1939 statute which confers tenure on certain deputy county clerks and deputy surrogates. *L. 1939, c. 223.*

The 1939 act reads as follows:

“Any deputy county clerk or deputy surrogate in any county of the second class who has attained the age of 51 years, and who has been continuously in the employ of the office of county clerk or surrogate for a period of at least 16 years, shall enjoy tenure of office, and shall not be removed therefrom except after due hearing, upon notice, for just and sufficient cause.”

The County Clerk and Surrogate are elected officers. Each is permitted to appoint a deputy to serve at his pleasure. The appointment is not subject to civil service and the deputy does not have civil service job protection. These are the normal and reasonable incidents of the right of such an elected officer to have someone of his own choosing as his first assistant in carrying out the duties of his office.

The 1939 law contradicts this pattern by conferring tenure on some deputies in certain circumstances. It does not change the manner of appointment; the appointee still is not required to meet civil service standards. It does not expressly change the duration of the term; it is still at pleasure. It does not purport to change the nature of the office. It simply superimposes tenure on a position never designed to have tenure. It gives the equivalent of civil service job security without the safeguards of a competitive process. It effectively provides that some elected clerks and surrogates will have to abide first assistants who are instinctively unsympathetic to their programs.

On top of this, the 1939 law does the following things:

—It blankets in all incumbents. No waiting period or reappointment is required.

—It requires 16 years prior service. Where tenure is warranted, a man surely should not have to risk 16 years to achieve it.

—Having set a prior service requirement, it credits service in any capacity in the office, no matter how unrelated to the deputy's work. Indeed, it credits service in a wholly different office. One could get tenure as second-in-charge in the Surrogate's office on the basis of 16 years service in the lowliest job in the County Clerk's office. One day as Deputy Surrogate would be enough.

—It establishes a minimum age requirement, 51, on top of the 16 year requirement. If 16 years service is required for tenure, it is difficult to understand why the incumbent should also have to attain 51 years of age.

—Finally, to make the 1939 statute incredibly discriminatory, it applies only in second class counties.

This bill would broaden the 1939 act to grant tenure where the deputy clerk or surrogate, if 51 and in a second class county, has 16 years service when he combines his prior service as deputy registrar of deeds with his service as deputy clerk or surrogate. Here, the prior service would have to have been earned at a comparable level, but, with this exception, the amendment has all the faults of the 1939 act. It is, like the basic statute, an unjustifiable wrenching of the law to cover a special case. Meritorious as the special case might be, I cannot approve this bill.

## SENATE BILL No. 133

*To the Senate:*

I herewith return Senate Bill No. 133, without my approval, for the following reasons:

This bill would authorize the Board of Governors of Rutgers, with the approval of the State House Commission, to sell a tract of land in Millville, Cumberland County, to the Wheaton Glass Company for \$25,000.00. The tract, some 17.55 acres, has been used by the Agricultural Experiment Station as a turkey-pigeon research center. The proceeds of the sale would be applied to the acquisition of new facilities in New Brunswick for the research center. The bill was published and passed as special legislation.

I would have no difficulty with this legislation if the price were fair. The parties are willing to make the transfer, and there is reason to believe it would be mutually beneficial. In order to determine whether the price is fair I allowed as much time as possible for supporting data to be submitted, examined four appraisals of the property and sought out the proponents for direct discussion of the matter.

The purchaser insists that \$25,000.00 is reasonable, but the facts before me cannot be construed to support its position. One appraisal, submitted by the purchaser, values the land and buildings at \$26,500.00. Two independent appraisals, however, put the value at \$40,500.00 and \$65,000.00 respectively, and a State Highway Department appraiser reports the property is worth \$59,000.00. Thus, even the appraisal submitted by the purchaser does not justify \$25,000.00, and that appraisal is so far below the others, substantially less than half of two of them, as to bring its basis into serious question. In these circumstances, I cannot possibly approve a sale of this property at the price named in the bill.

I have always urged in cases such as this, as I did in this case, that the price be left to determination by the State House Commission or other agency, according to appraisals to be obtained by that agency. Otherwise, as in this case,

the fixing of a particular price may cause the entire bill to fail. I would urge the Legislature to follow the other course in any future bill pertaining to this land, and in similar cases in the future.

SENATE COMMITTEE SUBSTITUTE FOR  
SENATE BILL NO. 151

*To the Senate:*

I herewith return Senate Committee Substitute for Senate Bill No. 151, without my approval, for the following reasons:

Chapter 5 of Title 44 of the Revised Statutes includes several sections which authorize county appropriations to private hospitals. Two of these authorize appropriations to help provide for the maintenance of charity patients. *R. S. 44:5-11; R. S. 44:5-16B.* A third authorizes appropriations of not more than \$10,000.00 to meet the medical expenses of indigent persons hospitalized for psychiatric treatment. *L. 1952, c. 119, §1.* Other sections in the chapter authorize appropriations for hospital construction, building maintenance and the like.

The present bill describes itself as a supplement to chapter 5 of Title 44, and says that “[i]n addition to the appropriation authorized by the chapter to which this act is supplemental,” a fifth class county having a population over 200,000 may appropriate \$400,000.00 more each year. Passing the selective treatment thus to be given to Monmouth County, to which of the appropriation authorizations of chapter 5 does this bill refer?

The body of the bill gives no clue. The intention of the proponents, I understand, was to add \$400,000.00 to the \$600,000.00 now authorized to be appropriated under

*R. S. 44:5-11* for the maintenance of charitable patients. There is nothing in the body of the bill, however, to suggest this intention. The title of the bill speaks of appropriations by counties "which maintain patients in charitable hospitals". This would tend to preclude application of the bill to sections on aid for capital construction or building maintenance, but it does not narrow the bill to *R. S. 44:5-11*. The bill could equally well supplement *R. S. 44:5-16B* which now authorizes an appropriation equal to  $\frac{1}{2}$  of 1% of total assessed property valuations in the county, and perhaps also supplement the 1952 law mentioned above which authorizes \$10,000.00 for aid to psychiatric patients.

I would like to approve this bill. The object is worthy. But I cannot bring myself to clutter up the law books with legislation in this selective, ill-conceived form. It breeds confusion, and brings disrespect for the law and for the legislative process.

I would urge that a new measure, properly drawn, be considered at the coming session. It should be broadened to include any other counties which may face the same problem as Monmouth. There is no point in raising the constitutional doubts which the evidently arbitrary classification of this bill undoubtedly would create, and likewise no point in denying the new authority to other counties similarly situated.

SENATE BILL No. 221

*To the Senate:*

I herewith return Senate Bill No. 221, without my approval, for the following reasons:

This bill would appropriate \$15,000.00 to the State Department of Education "to be paid to a local board of education for the purpose of providing education for a

special experimental group of multiple handicapped blind children at a hospital, convalescent home or other institution when such program has been approved by the Commissioner of Education.”

When this bill was before the Legislature, it was believed that the money was needed to assist in paying for such an experimental program at a particular private institution. Since the passage of the bill, however, the State Department of Education and the Commission for the Blind have reported that the program at the private institution did not prove feasible, and the project has been shifted to the Johnstone Training and Research Center. It is being paid for there with funds already appropriated to the Department of Institutions and Agencies. The additional appropriation proposed in this measure, therefore, is no longer required.

Respectfully,

SENATE BILL No. 226

*To the Senate:*

I herewith return Senate Bill No. 226, without my approval, for the following reasons:

Senate Bill No. 226 authorizes New Jersey counties and municipalities to enter into regional or area agreements with counties and municipalities of other States for the establishment of advisory boards which would “recommend programs and policies for co-operative or uniform action in any fields of activity permitted or authorized for each party to such agreement.”

The bill is very loosely drawn. It seems not to have been thought through very carefully. For instance, section 6(c) implies that participating units of government would somehow engage in furnishing “services, personnel, facilities, equipment, other property or resources” to other partici-

pating local units. Section 3 implies the same thing. Yet the title of the bill restricts these interlocal bodies to "advisory" functions, and the description of their purposes in Section 2, quoted above, reiterates this limitation. The answer seems to be that parts of this bill were taken from a New York law on interlocal bodies. The draftsman neglected to note, however, that the New York law is quite different from the type here proposed.

The bill provides for the establishment of a paid staff for the advisory board. The board itself would consist of representatives of the participating units. These representatives could be compensated by the units they represent. Notably, the bill places no maximum on the compensation of staff or members.

It is intended, I suppose, that a municipality of this State be authorized to join with other municipalities of this State, or with counties of this State, together with comparable bodies in a neighboring State or States, to form a regional board. As the bill is drawn, however, a New Jersey unit is authorized only to join with out-of-State units. The bill fails to provide authority for agreements involving two or more units of this State.

The bill makes no provision for participation or review by the State. Participating members of such a board are required only to furnish to the Division of Local Government copies of the ordinances or resolutions by which they agree to become members of the agency.

New Jersey has moved strongly ahead in planning. We have promoted our old Bureau of Planning to its present status as the Division of State and Regional Planning. From a national standpoint, we are recognized as the leader in local planning, with a \$2,000,000.00 program serving more than 170 municipalities. The State has joined in extensive interstate planning. Agencies such as the Interstate Sanitation Commission and the Bi-state Transportation Agency have been given broad planning responsibilities. We have encouraged interlocal agreements in selected areas. A prime example of this is the Meadowlands Regional Agency. I do not, therefore, approach this subject as one hostile to planning. Nevertheless, I fail to find any justification for this legislation.

I can see no basis for a law which would authorize the establishment of a multiplicity of unsupervised semi-

TUESDAY, JANUARY 9, 1962

governmental advisory boards. This is especially so where such boards would operate free from State participation or supervision. The laws of the States of New York and Connecticut on inter-local bodies, to which reference often is made by the proponents of this measure, both provide for State supervision. With the continuing growth of our State, there is a need for continuing study of interstate problems. We must recognize, however, that the primary responsibility for resolving these problems rests with the State rather than its subdivisions. Where inter-local bodies can serve a useful function in a particular area, they should be used, but precautions must be taken to assure that the interests of the State as a whole, and as the representative of its people in dealings with other States, are carefully protected.

Although the bill does not so state, one of its prime purposes is to provide a means by which the Metropolitan Regional Council can attain "legal status". The Metropolitan Regional Council was formed in 1956 as a voluntary association of elected officials of political subdivisions in the New York-New Jersey metropolitan area. It has functioned these past five years without express statutory authorization. According to the latest figures available, it has 36 members.

The Council originally sought outright legal recognition from the Legislature in Senate Bill No. 60 of this session. This approach faltered, however, and was abandoned in favor of the present bill.

Unquestionably, agencies such as the Metropolitan Regional Council can serve a useful function. The Council has often co-operated with State officials on problems of common interest. Assigning to the Council "legal status", however, while it might enhance the Council's stature, would not necessarily increase its usefulness. The proponents of the measure indicate they believe approval of this bill would augment the Council's power as an advocate before the Legislature. They may be correct, but I am not persuaded that this increase in power would necessarily add to the usefulness of the Council. It would not be any more representative of the desires of the people of northern New Jersey with this legislation than it is without it. It might look as though it were, but this is no virtue.

This legislation is of serious import, more serious than appears on its face and more serious than the import

ascribed to it in legislative consideration and in arguments advanced to me. We should never object to voluntary associations of people, including public officials, designed to aid exchanges of view among themselves or to bring their common views to the attention of others. Indeed, groups of that type should be encouraged at every turn. This helps build the base of a strong democratic society.

It is a vast step, however, to move from the concept of a citizen association such as that, to an official agency having governmental status. The step should never be taken in the absence of a compelling showing of need.

This bill requires no such showing of need. It would permit the formation of such a semi-governmental agency whenever two or more units wished to take the step, on whatever subjects they happened to select. They could form as many agencies as they wished. This is the antithesis of orderly, co-ordinated planning. It is the stuff of haphazard, unnecessary, wasteful bureaucracy.

I strongly urge that the Legislature give extremely careful consideration to this matter before enacting any law which would confer the blanket authority proposed by this bill.

Respectfully,

ROBERT B. MEYNER,

SENATE BILL No. 224

*To the Senate:*

I herewith return Senate Bill No. 224, without my approval, for the following reasons:

Senate Bill No. 224 would establish in the State Highway Department a new agency to be known as the "New Jersey Expressway Authority". The Authority would be empowered to construct, maintain and operate such express highways as were authorized by law and to fix and collect such tolls and charges as might be necessary to pay for such projects.

The bill would further authorize the construction of a project to be known as the "Atlantic City Expressway" which would begin at a westerly terminus in the Township of Gloucester in Camden County and would proceed eastwardly to an easterly terminus in the City of Atlantic City.

The members of the Authority would be appointed by the Governor with the advice and consent of the Senate. The bill would establish a formula for determining how many members would be on the Authority and from which counties they would be chosen. The formula is based upon the physical location of the projects. Since the only authorized project would be the Atlantic City Expressway, the original membership of the Authority would consist of two members from Atlantic County and one from Camden County. Senate Bill No. 230, which was also approved by the Legislature, would amend the New Jersey Expressway Authority Act, the one embodied in Senate Bill No. 224, to change the formula for membership on the Authority. It would provide for one member each from the Counties of Camden, Cape May and Gloucester and two members from the County of Atlantic. As to the two possible methods of determining the membership of the Authority, I prefer that proposed by Senate Bill No. 230.

The proposal for the construction of an Atlantic City Expressway has been examined very carefully by the State Highway Department. It is the Department's conclusion that such a project is financially feasible, but that it would be marginal. In this case it becomes more important than ever that I hold to the policy of having highly qualified people appointed. To those who serve in the initial terms of office would fall the responsibility of planning and executing this project. Its success or failure would depend principally on their abilities.

Since the act in either form would require the approval of the Senate before any member could be appointed, I have sought for the last six months to reach agreement on qualified appointees. I am sorry that it is necessary to report that I have not been able to reach agreement. In these circumstances I cannot approve the bill. I do not wish to take responsibility for this legislation unless I have the counterpart power to determine who will govern it in its formative years. Accordingly, I return Senate Bill No.

224 without approval. I am taking similar action in regard to Senate Bill No. 230.

SENATE BILL NO. 230

*To the Senate:*

I herewith return Senate Bill No. 230, without my approval, for the following reasons:

This bill would amend an act proposed for enactment by Senate Bill No. 224. Since I am returning Senate Bill No. 224 today without approval, I also return Senate Bill No. 230 without approval.

*Resolved*, By the Senate (the General Assembly concurring): That the One Hundred and Eighty-fifth Legislature of the State of New Jersey adjourn sine die at 11:59 A.M., January 9, 1962.

On motion of Mr. Jones the Senate then adjourned sine die.
