## INTRODUCTION

The New Jersey State Library annually compiles statewide library statistics to help libraries analyze and improve programs and services. Trustees and library directors use the statistics to develop and justify budgets and for comparative evaluation of programs, staffing practices and collection development. School and college library staffs use the statistics to identify interlibrary loan resources and to establish cooperative service programs.

Public library services in New Jersey are provided primarily by three types of libraries:

- 1) **Municipal** - library established by law following a referendum in which the majority of voters decided to establish such a library. It is supported by taxes and is governed by a board, appointed by the mayor, which must include the mayor and the superintendent of schools. There are 229 municipal libraries identified in the tables by an M.
- 2) **County** - library established by law following a county-wide referendum approved by a majority of voters. It is supported by taxes and generally governed by a board known as the county library commission, composed of five members appointed by the freeholders. There are 14 county libraries identified in the tables by a C.
- 3) **Association** - library established, governed and supported by an association of citizens. Such an association is incorporated, forms its own constitution, appoints or elects its own board and is responsible for operation of the library. It may receive tax support from the local governing body. Only those association libraries whose services are free to the public are included in this publication. Some libraries formerly listed as association libraries are now branches or stations of their county libraries. Association libraries, numbering 64, are identified in the tables by an A.

In addition, there are six joint libraries in New Jersey which are identified in the tables by a J. A joint library is established by law following a referendum in two or more municipalities which was approved by the majority of voters. It is governed by a board appointed by the mayors of the participating municipalities.

Summary tables show the number and percentage of population served by public libraries (Tables 1 and 2), libraries according to size of population served (Table 3), libraries according to total expenditures (Table 4), libraries according to type and total expenditures (Table 5), and by the Regions of New Jersey (see page 41).

Tables showing individual library statistics by county and a state summary constitute the body of this publication. These data include the 1990 New Jersey population figures for population served and

equalized valuation. Where a public library is supported by more than one municipality, the figures shown represent combined municipalities. Explanation of the column headings follow. Where data has been taken from annual public library statistical reports for 1990 the line number of the report used is given in parentheses at the end of the explanation of each column heading below.

#### **POPULATION SERVED 1990**

The total population of New Jersey as of April 1, 1990, was 7,730,188 as stated in the **1990 Census of Population and Housing-Summary Population and Housing Characteristics-New Jersey**, issued in August 1991 by the U.S. Department of Labor, Bureau of the Census. An estimated 7,659,289 of this population were served by a public library, defined as accessibility to a public library within a municipal boundary or to service provided by a county library. As indicated in the tables, two municipalities contract for library service. Their populations total 13,902. The remainder of the population, 56,997, is unserved, residing in municipalities not served by a county library or any local library.

The population served by a county library is the total of all municipalities which provide tax support, including the populations of the member-libraries listed below the county-library entry.

#### **EQUALIZED VALUATION**

Equalized valuation of municipalities is supplied by the Division of Taxation, New Jersey Department of Treasury, 1990. Amounts are shown to the nearest thousand dollars and exclude municipalities which do not officially support library services. For county libraries, the equalized valuation reported is the total of all municipalities which provide tax support.

#### **INCOME: LOCAL TAX**

Local tax support is shown as reported by individual libraries as the sum of appropriated and additional tax support. (Line 14)

NOTE: Calculation of State Library Per Capita Aid is based on amounts expended from municipal or county budgets for library purposes.

#### **INCOME:**

##### **PER CAPITA STATE AID**

Amounts shown as **per capita state aid** were reported as paid in 1990 to municipalities and counties with libraries. State Aid to network contract libraries and emergency aid/incentive grants are not shown in this column. (Line 16)

##### **INCOME: TOTAL**

Amounts shown are library operating income from all sources (Line 24), but excluding the balance brought forward from the prior year (Line 11). State aid to network contract libraries and emergency aid/incentive grants are included. (Line 24 - Line 11)

**EXPENDITURES: SALARIES, WAGES AND BENEFITS**

Amounts reported here include salaries, wages and fringe benefits paid in 1990 to all library employees, including maintenance personnel, whether paid from the library budget or from the municipal or county budget. Retirement benefits paid are excluded. (Line 28)

**EXPENDITURES: LIBRARY MATERIALS**

Included are the amounts expended for books, periodicals, newspapers, microforms, all other non-print materials and binding. (Line 33)

**EXPENDITURES: TOTAL**

Total expenditures for 1990 as reported by libraries, represent current operations and exclude amounts spent for capital improvements, repayment of loans, etc. The difference of total expenditures, less those for salaries, wages and benefits and for library materials, represents all other operating expenditures. (Line 37)

NOTE: Total expenditures may exceed Total Income, since the balance carried forward from 1989 (Line 11) has been deducted to yield current-year income.

**PER CAPITA: LOCAL EXPENDITURES**

These amounts are derived by dividing total expenditures by population served. This column excludes amounts paid by municipalities in support of county libraries.

**PER CAPITA: EXPENDITURES INCLUDING COUNTY TAX**

For county libraries and county-library members, these amounts are derived from the sum of total local expenditures and county-library tax support paid, divided by population served. (While amounts paid by municipalities in support of a county library are not printed in these tables, they are included in these computations and were taken from county abstracts of ratables.)

**STAFF: PROFESSIONAL CERTIFIED**

Numbers appearing in this column represent full-time and part-time librarians who hold New Jersey Professional Librarian Certifications. (Line 42a)

**STAFF: FULL TIME**

In this column, the number of individuals working full-time for a minimum of 30 hours per week as of December 1990 is reported. (Line 39b)

**STAFF: FULL TIME EQUIVALENTS (FTE)**

This column represents the total of part-time and full-time employees equated to a number of full-time positions. The minimum work week is assumed to be 30 hours. (Line 42b)

With the 13,902 population counted as "served", the "not served" population amounts change to	56,997	.74
---	--------	-----

X The following tables are based on the "population served" of 7,659,289, which excludes the two municipalities contracting for library services.

**Notes on Table 5: "Libraries According to Type and Total Expenditures"**

1. **Population served totals in this library type exclude the population of the three (3) non-respondent exempt libraries having a total population of 9,683.**
2. **Expenditures per capita in this library type exclude the populations of the three (3) non-respondent municipal and exempt libraries, whereas the statewide summary sheet for the 1990 public library statistics includes these people. Hence, the variance in per-capita expenditures: \$25.37 with the additional 9,683 population included; \$25.40 with them excluded.**
3. **Population served totals in this library type exclude the population of the ten (10) non-respondent association libraries having a total population of 80,058.**
4. **Expenditures per capita in this library type exclude the population of the ten (10) non-respondent association libraries.**
5. **In computing statewide totals for this table, add together "Library Types".**

**Total Expendis = 1+2+3**

**Population = 1+2 (since 2 includes population of 3, 3 is excluded here)**

**Number of Libraries = 1+2+3 (note that 13 non-respondents are excluded)**

**Percent of State Population = 1+2, but note exclusion of 9,683 non-respondent library population.**

**Expenditures Per Capita =  $\frac{\text{Total Expendis}}{\text{Population}}$**
