

# ROME WASN'T BUILT IN A DAY

*Over 2 Years Ago, Governor Christie Proposed Sweeping Ethics Reform Measures To Change The Culture Of Government And Demand Accountability To Better Serve The People Of New Jersey. How Much Longer Will New Jerseyans Have To Wait To See Real Reform?*

"Ethics reform in New Jersey has been a patchwork of half measures that failed to be fair and uniform, left gaping loopholes for special interests to maneuver through and fell far short of what the public demands. These measures are about good, open and honest government, where the playing field is level for everyone and the rules are unambiguous."

*-Governor Chris Christie, September 8, 2010*

*Just Because Rome Wasn't Built In A Day, Doesn't Mean The Legislature Has An Excuse.*
