Map 3	Retail space authorized by municipality, year to date	23
Map 4	Estimated cost of construction authorized by municipality, year to date	28

MAY 2010 HIGHLIGHTS

- The estimated cost of construction authorized by building permits in May was \$687.6 million; 541 of New Jersey's 566 municipalities reported.
- Residential work totaled \$337.6 million, 49.1 percent of all construction for the month. Office, retail, and other nonresidential activity amounted to \$350.0 million, 50.9 percent.
- Only 757 new houses were authorized in May. Their estimated construction costs were \$120.7 million, accounting for 17.6 percent of all the activity that month.
- The City of Elizabeth had the most work, \$28.7 million in May. Nearly \$22 million was for an 8-story parking deck with 515,000 square feet of floor space.
- Trenton in Mercer County had \$19.4 million of work. Most of this was for a renovation to the Mercer County courthouse estimated at \$17.8 million.
- Montgomery Township, Somerset County and Monroe Township, Middlesex County had \$16.4 million and \$16.0 million of work, respectively. A new sewage treatment plant accounted for \$15.5 million in Montgomery. The big project in Monroe was a new senior center (\$9.9 million).

Year to Date

- Major indicators for the first five months of 2010 are about where they were last year, but times were bad last year; construction is down, but it has not gotten worse.
- The estimated cost of work authorized by permits between January and May 2010 was \$3.592 billion. This was \$424.6 million less than last year, a decline of 10.6 percent.
- The number of new houses between January and May 2010 totaled 4,319. This was 45 fewer units than January through May 2009.
- New office construction is up by 554,000 square feet (40 percent), but new retail space is down by 175,000 square feet for a decline of 21.8 percent compared to the first five months of 2009.

Major Construction Indicators, New Jersey: January – May				
Period	Estimated Cost of Construction	Authorized Housing Units	Authorized Office Space (square feet)	Authorized Retail Space (square feet)
January – May 2010	\$3,591,794,927	4,319	1,937,467	628,613
January – May 2009	\$4,016,425,275	4,364	1,383,559	803,596
January – May 2008	\$5,916,688,836	7,973	3,505,577	3,707,786
January – May 2007	\$5,984,572,328	10,158	3,437,981	1,871,638
January – May 2006	\$6,150,756,218	16,398	4,937,085	1,565,187
January – May 2005	\$5,240,237,921	13,366	3,530,402	2,426,679
January – May 2004	\$5,074,637,462	14,156	4,784,991	1,453,455
January – May 2003	\$4,265,221,462	11,939	3,347,463	2,805,420

Source: N.J. Department of Community Affairs, 7/7/10				

- Plainsboro in Middlesex County leads all municipalities with \$158.5 million of construction for the first five months of 2010. Over \$144 million of construction was authorized for the new University Medical Center of Princeton.
- Another Middlesex County municipality, New Brunswick, ranks 2nd with \$88.4 million of work. A 23-story, mixed-used development with office space and 192 dwelling units accounted for \$75 million. New Brunswick has 192 authorized dwellings through May, more than any other municipality.
- Jersey City in Hudson County had \$79.4 million of work. Most of this was for additions or alterations to existing structures. The housing boom that has occurred along the Hudson River gold cost for the past ten years has slowed.

- Franklin Township, Somerset County had \$78.8 million of work. Several large developments are underway, including a new outpatient facility (\$35.9 million) and a new data center for investment bank Morgan Stanley (\$12.2 million).
- Newark in Essex County has \$71.6 million through May. The City reported 111 authorized dwellings, ranking 7th among municipalities during the five-month period. New home construction accounted for \$12.1 million between January and May, 2010. Home renovations accounted for another \$13 million. A new school athletic complex is underway with an estimated construction cost of \$20.1 million.
- State buildings refer to permits issued for construction projects done on behalf of State government agencies or their instrumentalities. They typically include large, public improvements. Between January and May 2010, the estimated cost of work authorized for State building permits totaled \$126.9 million. Two of the bigger projects were new buildings for Rutgers University, a new science center for the study of protons (\$22.5 million) and a new dining hall (\$12.7 million).

THE NEW JERSEY CONSTRUCTION REPORTER contains statistics on construction activity in New Jersey. Information in the report comes from construction officials who administer the State Uniform Construction Code (UCC) (N.J.A.C. 5:23-1 et seq.) in New Jersey's 566 municipalities.

Each month, construction officials send to the New Jersey Department of Community Affairs (DCA) reports on the permits and certificates they issue. Permits authorize the start of construction and cover four types of activity: (1) New construction permits authorize the start of a new structure. (2) Permits for additions refer to work that will add space (volume and square feet) to an existing building. (3) Alterations also involve existing structures, but the work authorized will not add space. Typically, construction officials issue permits for alterations when the work is subject to one or more of the UCC's major subcodes (building, electrical, plumbing, fire protection). (4) Demolition permits authorize the removal of a building or some other structure. The *CONSTRUCTION REPORTER* identifies only those demolitions that will result in the loss of housing.

In addition to permits, the *CONSTRUCTION REPORTER* has information on the certificates issued by construction officials. While permits authorize the start of construction, certificates are issued for work completed and ready for occupancy. Each month, the *CONSTRUCTION REPORTER* will report on the number of housing units and the amount of office and retail space authorized for construction, along with the number of housing units and the amount of office and retail space completed.

Data Comparability

The *CONSTRUCTION REPORTER* contains information on authorized housing units that is tabulated two different ways. The DCA tabulates Tables 1 through 3 and Tables 8 through 13 based on the use of buildings, defined in "groups" by New Jersey's UCC. Exhibit B on page 3 summarizes these groups.

Tables 4, 5, and 6 show authorized housing units as defined and tabulated by the United States Census Bureau. The New Jersey Department of Labor and Workforce Development prepares these tables for publication in the *CONSTRUCTION REPORTER*. Exhibit C on page 4 describes the housing definitions used by the Census Bureau.

The DCA series and the Census Bureau series on authorized housing units differ two important ways. First, the DCA series includes housing units created as a result of permits issued to alter or make additions to existing structures. The Census Bureau counts only those housing units authorized from permits issued for new construction.

Second, the Census Bureau imputes data for localities that fail to submit monthly reports on time. An asterisk in the Census column of data appearing in the Municipal Summary Data table at the back of the *CONSTRUCTION REPORTER* indicates those towns with imputed data. The Census Bureau bases these imputations on historic trends. The DCA series shows information for only those towns that submitted monthly reports. If a municipality failed to submit a monthly report on time, "No report" appears in the appropriate columns in the Municipal Summary Data table.

Additional Terms

A number of other terms appear in the tables throughout the *CONSTRUCTION REPORTER*. Exhibit A on page 2 defines additional construction permit and certificate terms.

Exhibit A

Summary of Building Permit and Certificate Terms	
Addition	Permit type issued for construction work that adds space (volume and square feet) to an existing structure.
Alteration	Permit type involving one or more subcodes (building, electrical, fire protection, and plumbing). The work is authorized for an existing structure and does not add new space.
Certificate	A document issued by a construction official indicating completion of work for which a permit was issued.
Dollar Amount of Construction	Estimated cost of work, as reported by the permit applicant to the construction official.
Demolition	Permit type authorizing the demolition of an existing structure.
Housing Units Certified	A rental or for-sale unit completed and certified by the construction official for conforming to the standards in the New Jersey UCC.
Housing Units Authorized by Building Permits	A rental or for-sale dwelling unit authorized by a construction permit. See Exhibits B and C for explanations of the different definitions of housing structures. The Table 1 series and Tables 2 and 3 show housing units as classified by the residential use groups defined in Exhibit B. Tables 4, 5, and 6 identify authorized housing as defined by the U.S. Census Bureau. (See Exhibit C.)
Housing Unit Demolitions	Rental or for-sale housing to be demolished, as reported to the construction official by permit applicants.
New Construction	Permit type authorizing the start of a new structure.
Permit	A document issued by construction officials that authorizes the construction of a new structure or an addition, alteration, or demolition of an existing structure.
Square Feet	Estimated building area, as reported on permits for new construction and additions.
State Buildings	Buildings or structures constructed or owned by the State or any of its instrumentalities. Construction activity reported in this category includes State offices, colleges, hospitals, prisons, facilities operated by New Jersey Transit and the New Jersey Sports and Exposition Authority, and other State authorities.

Exhibit B

Buildings (Grouped by Use)	
Residential	Buildings where members of households live. Examples of residential groups include: one- and two-family houses (R-3 and R-5); apartments, townhouses, and other multifamily houses (R-2); and mixed-use housing, where the house is a relatively smaller part of a building that has another use (e.g., an apartment over a store). Therapeutic residences (R-4) for 6 to 16 occupants are also included in this category. The Table 1 series and Tables 2 and 3 show authorized housing units by group definition.
The following groups refer to industrial, commercial, and other nonresidential structures.	
Assembly	Structures where people gather for civic, social, or religious purposes. Examples include: theaters (group A-1); night clubs, dance halls, casino gaming areas, etc. (A-2); libraries, restaurants, lecture halls, art galleries (A-3); houses of worship (A-4); and grandstands, coliseums, stadiums, and amusement park structures (A-5).
Business	Office buildings (group B) for business transactions of all kinds including banks, corporate offices, professional offices, government buildings, beauty shops, motor vehicle showrooms, and out-patient clinics.
Educational	Buildings for educational purposes through the 12th grade (group E).
Hazardous Use	Buildings used to manufacture, process, or store materials that constitute a high fire, explosion, or health hazard (group H).
Hotels, Motels, Guest Houses	Buildings for shelter and sleeping where the primary occupants use the facility on a temporary basis, staying less than 30 days (group R-1).
Industrial	Factory buildings where the occupants make, process, or assemble products that are not highly combustible, flammable, or explosive. Includes automotive, appliance, and furniture manufacturers; electric power plants; food processing plants; foundries; and water pumping, solid waste disposal, and incineration plants (group F).
Institutional	Buildings for people who suffer from physical limitations because of age or health; buildings for people detained for penal or correction purposes. Includes: supervised residential homes for six or more people (group I-1); medical and nursing-care facilities (I-2); jails, reformatories, and asylums (I-3); and day care for six or more occupants (I-4).
Mercantile	Buildings for display and sale purposes. Includes retail stores, automotive service stations, shops, salesrooms, and markets (group M).
Storage	Buildings used to store goods that are not highly combustible or explosive. Includes warehouses, open parking structures, lumberyards, livestock shelters, and mausoleums (group S).
Signs, Fences, Miscellaneous	Accessory buildings and miscellaneous structures including fences over six feet in height, signs, private garages, sheds, agricultural buildings, carports, retaining walls, tanks, and swimming pools (group U).

Exhibit C

Residential Structures (U.S. Census Bureau Definitions)	
<p>Tables 4, 5, and 6 show authorized housing units based on the structure types defined below by the U.S. Census Bureau. The number of units shown in these tables refers to those authorized by building permits issued for new construction only.</p>	
Single-Family Houses	Include all detached one-family houses and all attached one-family houses separated by a wall that extends from ground to roof with no common heating system or inter-structural public utilities. Include prefabricated, sectionalized, panelized, and modular homes that are manufactured partially off site, but are transported and assembled at the construction site.
Two-Family Buildings	Include all buildings with two housing units that may be above one another or side by side. If built side by side, the structures (1) do not have a wall that extends from ground to roof; or (2) share a heating system; or (3) have inter-structural public utilities, such as water supply and sewage disposal.
Three- and Four-Family Buildings	Include all buildings with three or four housing units. If built side by side, the structures (1) do not have a wall that extends from ground to roof; or (2) share a heating system; or (3) have inter-structural public utilities, such as water supply and sewage disposal.
Five-or-More-Family Buildings	Include all buildings with five or more housing units. If built side by side, the structures (1) do not have a wall that extends from ground to roof; or (2) share a heating system; or (3) have inter-structural public utilities, such as water supply and sewage disposal.
Private Housing Units	Housing owned by a private company or individual during the period of construction. This includes all housing built by nonprofit organizations and "turnkey" housing; for example, housing that will be sold to a local public housing authority when completed.
Public Housing Units	Housing owned by a governmental body during the period of construction.

NOTE:

Users of the monthly *CONSTRUCTION REPORTER* may notice that year-to-date figures in a particular issue may not be obtained by merely summing the monthly totals that appear in previous issues. This is because the construction data compiled by the New Jersey Department of Community Affairs are continuously updated. Monthly construction reports submitted too late to make the January issue of the *CONSTRUCTION REPORTER*, for example, are included in the year-to-date totals that appear in the February issue.
