

CHAPTER 52

LIQUEFIED PETROLEUM GASES

Authority

Unless otherwise expressly noted, all provisions of this Chapter 52 were adopted by the Superintendent of State Police, Department of Law and Public Safety, pursuant to authority delegated at N.J.S.A. 21:1B-2(a), filed and effective prior to September 1, 1969.

CHAPTER TABLE OF CONTENTS

SUBCHAPTER 1. SCOPE AND PURPOSE

- 13:52-1.1 Applicability of Chapter
- 13:52-1.2 New and existing installations

SUBCHAPTER 2. DEFINITIONS

- 13:52-2.1 Words and phrases defined

SUBCHAPTER 3. GENERAL PROVISIONS

- 13:52-3.1 Safe operation
- 13:52-3.2 Unauthorized use
- 13:52-3.3 Conflicting regulations
- 13:52-3.4 Variations
- 13:52-3.5 Control of product in vessels
- 13:52-3.6 Charging vessels
- 13:52-3.7 Safe gas system design
- 13:52-3.8 State Police notified

SUBCHAPTER 4. APPROVAL OF PLANS

- 13:52-4.1 Approval of plans; submission of documents

SUBCHAPTER 5. PERMIT TO OPERATE

- 13:52-5.1 Permit required
- 13:52-5.2 Application for permit
- 13:52-5.3 Authorization
- 13:52-5.4 Inspection
- 13:52-5.5 Duration of permit
- 13:52-5.6 Exchange permitted
- 13:52-5.7 Permit exceptions

SUBCHAPTER 6. GENERAL RULES

- 13:52-6.1 Applicability
- 13:52-6.2 Odorizing liquefied petroleum gas
- 13:52-6.3 Minimum odorization
- 13:52-6.4 Approval of equipment and systems
- 13:52-6.5 Requirements for construction and original test of containers
- 13:52-6.6 Markings on containers
- 13:52-6.7 Location of containers and regulating equipment
- 13:52-6.8 Container valves and accessories
- 13:52-6.9 Piping, including pipe, tubing and fittings
- 13:52-6.10 Hose specifications
- 13:52-6.11 Safety devices
- 13:52-6.12 Minimum required rate of discharge for safety relief valves on containers
- 13:52-6.13 Vaporizer and housing
- 13:52-6.14 Filling densities
- 13:52-6.15 Pressures inside buildings
- 13:52-6.16 Transfer of liquids
- 13:52-6.17 Tank car or transport truck unloading points and operations
- 13:52-6.18 Instructions
- 13:52-6.19 Release of LP-gas into atmosphere
- 13:52-6.20 LP-gas as propellant
- 13:52-6.21 Electrical equipment and other sources of ignition
- 13:52-6.22 Fixed electrical equipment in classified areas

- 13:52-6.23 Liquid level gauging device
- 13:52-6.24 Requirements for appliances

SUBCHAPTER 7. TYPE "A" SYSTEMS

- 13:52-7.1 Applicability
- 13:52-7.2 Marking of containers
- 13:52-7.3 Containers and regulating equipment installed outside buildings or structures
- 13:52-7.4 Containers and equipment used inside buildings or structures
- 13:52-7.5 Container valves and accessories
- 13:52-7.6 Safety devices
- 13:52-7.7 Reinstallation of containers
- 13:52-7.8 Permissible product

SUBCHAPTER 8. TYPE "B" SYSTEMS

- 13:52-8.1 Applicability
- 13:52-8.2 Design pressure and classification of storage containers
- 13:52-8.3 Container valves and accessories, filler pipes and discharge pipes
- 13:52-8.4 Safety devices
- 13:52-8.5 Reinstallation of containers
- 13:52-8.6 Capacity of containers
- 13:52-8.7 Installation of storage containers
- 13:52-8.8 Dikes and embankments
- 13:52-8.9 Protection of container accessories
- 13:52-8.10 Drips for condensed gas
- 13:52-8.11 Damage from vehicles
- 13:52-8.12 Pits and drains
- 13:52-8.13 General provisions applicable to systems
- 13:52-8.14 Container charging plants
- 13:52-8.15 Fire protection
- 13:52-8.16 Painting of containers
- 13:52-8.17 Lighting of installations
- 13:52-8.18 Vaporizers for internal combustion engines
- 13:52-8.19 Gas regulating and mixing equipment for internal combustion engines

SUBCHAPTER 9. TYPE "C" SYSTEMS

- 13:52-9.1 Purpose and applicability of provisions for type "C" systems
- 13:52-9.2 General provisions for type "C" systems
- 13:52-9.3 Design pressure and classification of fuel supply containers
- 13:52-9.4 Installation of fuel containers
- 13:52-9.5 Valves and accessories
- 13:52-9.6 Piping, including pipe, tubing and fittings
- 13:52-9.7 Safety devices
- 13:52-9.8 Vaporizers
- 13:52-9.9 Gas regulating and mixing equipment
- 13:52-9.10 Capacity of containers
- 13:52-9.11 Stationary engines in buildings
- 13:52-9.12 Portable engines in buildings
- 13:52-9.13 Industrial trucks inside buildings
- 13:52-9.14 Garaging LP-gas fueled vehicles

SUBCHAPTER 10. TYPE "D" SYSTEMS

- 13:52-10.1 Applicability
- 13:52-10.2 Construction of containers
- 13:52-10.3 Marking of containers
- 13:52-10.4 Description of Subchapter 10 system
- 13:52-10.5 Location of containers and regulating equipment
- 13:52-10.6 Container valves and accessories
- 13:52-10.7 Safety devices
- 13:52-10.8 System design and service lines pressure
- 13:52-10.9 System enclosure and mounting
- 13:52-10.10 Piping, including pipe, tubing and fittings
- 13:52-10.11 Appliances
- 13:52-10.12 General precautions
- 13:52-10.13 Charging of containers

SUBCHAPTER 11. TYPE "E" SYSTEMS

- 13:52-11.1 Applicability
- 13:52-11.2 Construction and marking of containers
- 13:52-11.3 Capacity of a Subchapter 11 system
- 13:52-11.4 Location of containers and systems
- 13:52-11.5 Container valves and accessories
- 13:52-11.6 Safety relief devices
- 13:52-11.7 System design and line pressure
- 13:52-11.8 System enclosure and mounting
- 13:52-11.9 Piping, including pipe, tubing and fittings
- 13:52-11.10 Appliances
- 13:52-11.11 General precautions
- 13:52-11.12 Charging of containers
- 13:52-11.13 Fire extinguishers

SUBCHAPTER 12. TRANSPORTATION

- 13:52-12.1 Applicability
- 13:52-12.2 General requirements
- 13:52-12.3 Design and construction of vehicles
- 13:52-12.4 Design and construction of containers, pertinent equipment
- 13:52-12.5 Marking cargo vehicles
- 13:52-12.6 Loading and unloading of vehicles
- 13:52-12.7 Painting cargo tanks on vehicles
- 13:52-12.8 Transportation of Subchapter 8 Type "B" systems
- 13:52-12.9 Movable fuel storage tenders or farm carts
- 13:52-12.10 Parking and garaging LP-gas tank vehicles

SUBCHAPTER 13. STORAGE OF CONTAINERS AWAITING USE OR RESALE

- 13:52-13.1 Applicability
- 13:52-13.2 General
- 13:52-13.3 Storage within buildings frequented by the public
- 13:52-13.4 Storage within buildings not frequented by the public (such as industrial buildings)
- 13:52-13.5 Storage within special buildings or rooms
- 13:52-13.6 Storage outside of buildings
- 13:52-13.7 Fire protection

SUBCHAPTER 14. LIQUEFIED PETROLEUM GAS SERVICE STATIONS

- 13:52-14.1 Applicability
- 13:52-14.2 Design pressure and classification of storage containers
- 13:52-14.3 Container valves and accessories
- 13:52-14.4 Safety relief valves
- 13:52-14.5 Capacity of liquid containers
- 13:52-14.6 Installation of storage containers
- 13:52-14.7 Protection of container fittings
- 13:52-14.8 Transport truck unloading point
- 13:52-14.9 Piping, valves and fittings
- 13:52-14.10 Pumps and accessories
- 13:52-14.11 Dispensing devices
- 13:52-14.12 Safety rules
- 13:52-14.13 Electrical
- 13:52-14.14 Fire protection

SUBCHAPTER 1. SCOPE AND PURPOSE

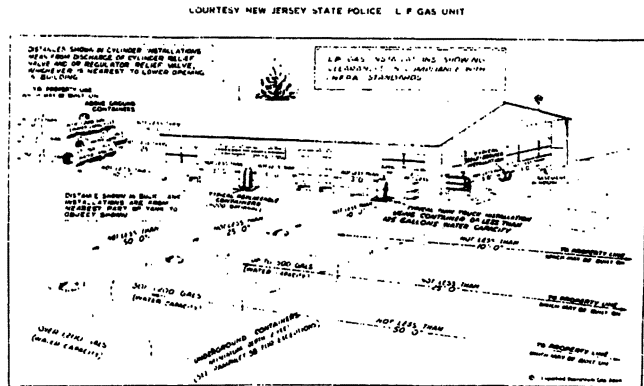

13:52-1.1 Applicability of Chapter

(a) The provisions of this Chapter cover the design, construction, location, installation and operation of equipment for storing, handling, transporting by motor vehicle, tank truck, tank trailer, and utilizing liquefied petroleum gas.

(b) These provisions represent minimum standards and are considered to be reasonably necessary for the protection of the health, welfare and safety of the public and persons using liquefied petroleum gas as well as the prevention of destruction of property by fire.

13:52-1.2 New and existing installations

The provisions of this Chapter apply to all new liquefied petroleum gas equipment, systems and installations. Existing installations may be required to comply with these regulations if satisfactory evidence is reported that any existing liquefied petroleum gas equipment, system or installation is unsafe; provided, however, that all existing equipment shall be maintained in conformity with these regulations.

SUBCHAPTER 2. DEFINITIONS

13:52-2.1 Words and phrases defined

The following words and terms, when used in this Chapter, shall have the following meanings, unless the context clearly indicates otherwise.

“Alterations” means any changes in construction or design which affect the strength or safety of the equipment or installation.

“API” means American Petroleum Institute.

“Approved” means approved by the Superintendent, or his authorized representative, except as otherwise specified.

“ASA” means American Standards Association.
