Aviation Department - Traffic Statistics

JoJo Quayson
Jean Debrosse
Tushar Japi
Daniel Gafurson

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized."Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Aviation Department

The year has begun on a solid note as first quarter passenger traffic grew 5%, much stronger than the nation's 3.5% growth. The performance was somewhat distorted by an exaggerated 8.8% growth in February that was the result of relatively milder weather compared to February 2014, when severe weather caused thousands of flight cancellations, especially in the domestic sector. Domestic traffic experienced robust growth with a first quarter gain of 5.7%. International traffic also grew a healthy 3.5%. The region's cargo recovery momentum that took hold in the middle of last year following the massive drop in oil and jet fuel prices carried into 2015 as first quarter cargo grew 3.5%.
