Proposed Development and Land Use in the Flood Fringe Area

Jerry Fitzgerald English, Commissioner of Environmental Protection, pursuant to the authority of N.J.S.A. 13:1D-1 et seq., and the Flood Hazard Area Control Act, N.J.S.A. 58:16A-50 et seq., proposes to adopt Flood Fringe Area Standards to be cited as N.J.A.C. 7:13-3, and proposes minor amendments to N.J.A.C. 7:13-1, the "General Provisions" subchapter of the "Water Supply and Flood Plain Management" rules. This is known within the department as Docket Number DEP 046-80-08.

The proposed Flood Fringe Area Standards will provide municipalities with minimum standards for development and use of land in the flood fringe area. These standards or more stringent standards are to be incorporated into a municipal ordinance which is to be adopted within one year of the effective date of these proposed rules or the delineation of a flood hazard area within the boundaries of the municipality, whichever occurs later. If a municipality fails to adopt these or more stringent standards within the prescribed time period, the Department may adopt and enforce flood fringe rules for the municipality.

The Department has consulted with the staff of the National Flood Insurance Program to coordinate the State and Federal programs. Once the Flood Fringe Area Standards are adopted the Department will supply each municipality with a model ordinance which will satisfy the re-

quirements of both the National Flood Insurance Program and the State's Flood Fringe Area Standards.

SUBCHAPTER 1. GENERAL PROVISIONS

7:13-1.1 Purpose

To safeguard the public health, safety and general welfare, and to minimize losses and damages caused by land uses which, [at times of flood,] during flooding increase flood heights and/or velocities; to safeguard the public from the dangers and damages caused by materials being swept onto nearby or downstream lands, to protect and enhance the public's health by minimizing the degradation of stream water quality from point and non-point pollution sources, and to protect wildlife and fisheries by preserving and enhancing the environment of the [flood plain] flood hazard area; the Department of Environmental Protection, pursuant to N.J.S.A. 58:16A-50 et seq. and the powers, duties and functions vested in the Department under the provisions of N.J.S.A. 13:1D-1 et seq., has adopted the following land use regulations [shall be applicable] governing all of the State's delineated floodways listed in section 11 of this subchapter and has adopted the following minimum standards and procedures for local ordinances and Department regulations governing the development and use of land in the State's delineated flood fringe areas listed in section 11 of this subchapter.

SUBCHAPTER 3. FLOOD FRINGE AREA STANDARDS

7:13-3.1 Scope and construction of rules

(a) Unless otherwise provided by statute or rule, this subchapter, adopted pursuant to the provisions of N.J.S.A. 58:16A-50 et seq. and N.J.S.A. 13:1D-1 et seq., shall constitute the Department's minimum standards for municipal ordinances and Department regulations governing development and land use in the flood fringe area.

(b) The Commissioner may repeal, rescind, amend, or expand these rules from time to time, and such new rules shall be filed with the Secretary of State as provided by law.

(c) The Commissioner, the Director of the Division of Water Resources, or their designee shall exercise his discretion in respect to any other matters not governed by the rules.

7:13-3.2 Definitions

For the purposes of this subchapter, the definitions contained in N.J.A.C. 7:13-1.2 shall apply unless otherwise indicated herein.

"Application" means the form provided by the municipality or department as appropriate, for a flood fringe use permit.

"Designated Agency" means that unit of municipal government which has been directed by the municipality to be responsible for carrying out the functions and duties necessary to implement and enforce these regulations. Where said implementation and enforcement is not carried out by the municipality the Department may act as the Designated Agency.

"Obstruction" includes, but is not limited to, any structure, fill, or other material placed in, along, across, or projecting into any channel, watercourse, or flood fringe area which may impede, retard or change the direction of the flow of water either in itself or by catching or collecting debris carried by such water or that is placed where the flow of water might carry the same downstream to the damage of life or property.

"Regulated use" means any flood fringe use which requires a flood fringe use permit or its equivalent from the designated agency.

"Structure" means any construction or assembly of materials above or below the surface of land or water, including, but not limited to, buildings, fences, except as provided in section 5 of this subchapter, dams, fill, levees, bulkheads, dikes, jetties, embankments, wharves, piers, docks, landings, obstructions, pipelines, causeways, culverts, roads, railroads, bridges, and the facilities of any utility or governmental agency. Trees or other vegetation shall not be considered to be structures if planted in the flood fringe area.

7:13-3.3 Municipal responsibilities

(a) Each municipality shall adopt and enforce a flood fringe area ordinance complying with the minimum standards set forth in sections 4 through 10 of this subchapter and, to be in compliance with the National Flood Insurance Program, should include in that ordinance the Federal "Criteria for Land Management and Use," 44 CFR 60.3(a.) through (d.). The ordinance may be more restrictive but shall not be less restrictive than these regulations. When adopted the Flood Fringe Area Ordinance shall take precedence over any existing ordinance establishing standards less restrictive than the Flood Fringe Area

Ordinance. Any ordinances adopted subsequent to the adoption of the Flood Fringe Area Ordinance or modifications of pre-existing ordinances or sections thereof shall not diminish the effect of the Flood Fringe Area Ordinance.

(b) If a municipality fails to adopt a complaint ordinance within 12 months after promulgation of this subchapter or within 12 months after the adoption of a delineation of the flood fringe area by the Department, whichever is later, then the Department may adopt flood fringe area regulations complying with the minimum standards set forth in sections 4 through 10 of this subchapter and enforce those regulations in the noncompliant municipality.

(c) The municipality shall submit three copies of its Flood Fringe Area Ordinance to the Division and to the County Planning Board 60 days prior to the effective date of the ordinance.

(d) Each municipality shall notify the Division when it has adopted its Flood Fringe Area Ordinance and every time said ordinance is amended or modified.

7:13-3.4 Prohibited uses

The disposal of pesticides, domestic solid waste or industrial solid or liquid wastes, radioactive materials, petroleum products or other hazardous materials shall not be permitted within the flood fringe area. Wastewater and water treatment plants shall be permitted and shall comply with sections 6 and 7 of this subchapter.

7:13-3.5 Non-regulated uses

(a) For the purposes of this section, non-regulated uses are land uses within flood fringe areas which:

1. Do not require the construction of structures with an area of more than 100 square feet or major regrading; and
2. Do not require modification or relocation of any channel of a nondelineated stream.

(b) Examples of non-regulated uses include but are not limited to the following:

1. Residential: Improvements such as lawns, play areas, gardens, landscaping, fences, anchored dog houses and auxiliary utility buildings, driveways and barbecues.

2. Private and public recreation: Playing fields, picnic grounds, swimming areas, parks, wildlife and nature preserves, game farms, hunting and fishing areas, shooting preserves, hiking and horseback riding trails, tennis courts, basketball courts, driving ranges, archery ranges, target ranges, trap and skeet ranges, fish hatcheries and auxiliary utility buildings.

3. Agriculture: General cultivation, pasture, grazing, irrigation, outdoor plants, nurseries, horticulture, viticulture, truck farming, forestry, sod farming, and wild crop harvesting. Additionally, specific soil conservation practices such as terracing, construction of diversions, subsurface drainage and the construction of grassed waterways and dug ponds will be considered non-regulated uses, but only when designed and constructed under the supervision of the appropriate Soil Conservation District. Plastic covered greenhouses and other auxiliary utility buildings constructed without permanent foundations, and fences associated with these agricultural uses are non-regulated.

7:13-3.6 Regulated uses; procedure

(a) Regulated uses are all land uses within delineated flood fringe areas except the nonregulated uses specified in section 5 of this subchapter and prohibited uses under section 4 of this subchapter.

(b) No person shall engage in a regulated use within a delineated flood fringe area until he has received a Flood Fringe Use Permit from the designated agency.

(c) The municipality shall be responsible for processing

all applications and issuing all permits, enforcing all permit conditions and the procedures therefor, in accordance with the requirements of this section.

1. The municipality shall provide standard forms and procedures for all applications and a Docket Number to identify each application. This Docket Number shall be clearly marked on all correspondence and submissions related to the application.

2. The municipality shall require at least one copy of the application, including detailed drawings of the project showing the floodway line and describing it by metes and bounds where the floodway line is within the property on which the project is to be constructed, and of any additional information required to be kept on file for public review. The municipality shall also specify the number of copies of the application, and of any additional information required, necessary for the review of the project. The applicant shall submit sufficient copies to satisfy both of these requirements.

3. The municipality shall within 20 days of receipt of the application either:

i. Declare the application complete for the purpose of making a review for determination and decision; or

ii. Return the application as unacceptable for further review. The applicant shall be notified in writing of the reasons for such action; or

iii. Request in writing that the applicant submit, within a specific period of time, additional information to assist in its review.

4. When the application is deemed complete the municipality shall provide for public notice and review. One copy of the application and other submitted information and a Fact Sheet stating the following shall be made available for public review:

i. The docket number;

ii. The applicant;

iii. The date the application was declared complete by the municipality;

iv. The date by which interested parties may submit comments concerning the application. Such date shall be 30 days from the date the application is declared complete; and

v. The date by which the municipality shall approve, condition, or disapprove the application.

5. The municipality shall review the application and other submitted information and any public comments submitted concerning the application for compliance with the standards set forth in section 7 of this subchapter.

6. The municipality shall render its decision and notify the applicant in writing within 90 days after the date the application is declared complete as follows:

i. Approval — by issuance of a Flood Fringe Use Permit;

ii. Conditional approval — by issuance of a Flood Fringe Use Permit with conditions or by issuance of a letter citing the conditions to be met for approval;

iii. Disapproval — by issuance of a letter citing the reasons for disapproval.

7. If the municipality fails to render a decision within 90 days after the date the application is declared complete the application shall be deemed approved.

8. The municipality shall notify all persons, who have submitted comments concerning the application, of the decision within five working days after the decision.

9. To give persons who may object to the issuance of the permit time to appeal, the permit shall not be valid until 15 days following issuance of the permit.

(d) Applicants for Flood Fringe Use permits for land in municipalities where the Flood Fringe Area program is administered by the Department shall follow the pro-

cedures set forth in the Department's Ninety-Day Construction Permits regulation, N.J.A.C. 7:1C-1.1 et seq.

7:13-3.7 Regulated uses; standards

Applications shall be reviewed for conformance with the following standards.

(a) Structures: All structures shall be designed and anchored to prevent collapse, lateral movement and buoyancy.

1. Hospitals, nursing homes, schools, day care centers, residences and similar noncommercial structures shall be elevated so that the lowest floor, including any basement, is at or above the flood hazard design elevation. At least one driveway to any hospital, school, nursing home, day care center or other similar noncommercial structure, shall be elevated to or above the flood hazard design elevation.

2. Commercial and industrial structures including water supply and wastewater treatment facilities shall either be elevated so that the lowest floor, including any basement, is at or above the flood hazard design elevation or shall be dry floodproofed in a manner which reflects flood velocities, durations, rates of rise, hydrostatic and hydrodynamic forces, probable evacuation time available after flood warning, and other similar factors. The applicant shall submit a plan or document certified by a licensed professional engineer that the floodproofing measures are consistent with the flood hazard design elevation and associated flood factors. All or any of the following floodproofing measures may be required so as to result in a dry floodproofed structure:

i. Installation of watertight doors, bulkheads, and shutters, or similar devices.

ii. Reinforced walls to resist water pressures.

iii. Use of paints, membranes, or mortars to reduce seepage of water through walls.

iv. Installation of pumps to lower water levels in structures.

v. Construction of water supply and wastewater treatment systems in a manner which prevents the entrance of floodwaters.

vi. Pumping facilities, or comparable measures, for the subsurface drainage systems of buildings to relieve external foundation wall and basement flood pressures.

vii. Construction that resists rupture or collapse caused by water pressure or floating debris.

viii. Installation of valves or controls on sanitary and storm drains which will permit the drains to be closed to prevent backup of sewage or storm waters into the structure. Gravity drainage of basements may be eliminated by mechanical devices.

ix. Location of all electrical equipment, in a manner which will assure they are not subject to flooding.

x. Adequate emergency electrical power supplies.

(b) Excavation: All projects involving permanent excavation within the flood fringe area except as related to the installation of underground utilities or foundation for structures shall not have cut faces at slopes steeper than two horizontal to one vertical (2:1).

(c) Individual sewage disposal systems in flood fringe areas shall be constructed in accordance with the Department's Standards for the Construction of Individual Subsurface Sewage Disposal Systems, N.J.A.C. 7:9-2.1 et seq.

(d) All fill shall be graded in a manner so as not to adversely affect overland drainage flows.

1. Fill shall be placed so that slopes are not steeper than two horizontal to one vertical (2:1).

2. The surface elevation of fill placed for the purpose of raising buildings above the flood hazard design eleva-

tion shall be no lower than the flood hazard design elevation and shall extend at such height for a distance of at least 15 feet beyond the limits of any buildings erected thereon. The 15 foot provision may be modified if approved by the municipal engineer in writing.

3. Fill shall be compacted and stabilized in accordance with the Standards for Soil Erosion and Sediment Control in New Jersey or latest amendment thereto, adopted pursuant to N.J.A.C. 2:90-1.3 et seq.

(e) Utilities: The following standards pertain to all projects involving the installation of above and below ground conduits, cables and pipes:

1. The width of trenches for installation of below ground utilities shall be limited to the minimum necessary to permit installation.

2. Poles for the support of above ground utilities shall be adequately anchored to withstand flood flow forces and erosion.

7:13-3.8 Appeals and hearings

(a) Appeals from decisions made by the Department on applications for Flood Fringe use permits shall be made in accordance with the provisions of the Appeals section of the Ninety-Day Construction Permits regulation, N.J.A.C. 7:1C-1.1 et seq.

(b) The municipality shall establish an appellate body and appeal procedures which shall provide a fair hearing for persons aggrieved by the municipality's decision concerning an applicant's Flood Fringe Use permit. Aggrieved persons may file an appeal within fifteen days after the municipality's decision.

7:13-3.9 Pre-existing structures and uses

Lawful pre-existing structures and uses of land are permitted provided that no pre-existing structure shall be expanded or enlarged, except in compliance with the minimum standards set forth in this subchapter. Any structure under construction, except structures being constructed in violation of the Flood Hazard Area Control Act, N.J.S.A. 58:16A-50 et seq., its rules or permit requirements, shall be considered a pre-existing structure and completed in accordance with the conditions of that permit.

7:13-3.10 Approved structures

Maintenance, repair or restoration of a structure shall be undertaken and completed so far as is practicable in accordance with the minimum standards set forth in these regulations.

7:13-3.11 Other statutes, rules and regulations

The powers, duties, and functions vested in the municipality under the provisions of the Act or these standards shall not be construed to limit in any manner the powers, duties, and functions vested in the Department under the Flood Hazard Area Control Act, N.J.S.A. 58:16A-50 et seq., or under any other provision of law. The permit requirements of N.J.S.A. 58:16A-55.3 for structures within the area which would be inundated by the 100 year design flood of any nondelineated stream or for a change in land use within a delineated floodway shall be complied with when the project for which the applicant is seeking a Flood Fringe Use Permit falls within these areas.

7:13-3.12 Severability

If any section, subsection, provision, clause or portion of these standards is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of these standards shall not be affected thereby.

7:13-3.13 Fees

The fee schedule for applications for State administered Flood Fringe Use Permits is set forth in the Fee Section of

the Ninety-Day Construction Permits regulations, N.J.A.C. 7:1C-1.5.

7:13-3.14 Penalties

Any person who violates any of the provisions of this subchapter shall be liable to the penalty provisions of the Flood Hazard Area Control Act, N.J.S.A. 58:16A-63.

7:13-3.15 Delineated Flood Fringe Areas

- N.J.A.C. 7:26-6 Hazardous Waste Identification Requirements
- N.J.A.C. 7:26-8 Hazardous Waste Facility Registration Requirements

- N.J.A.C. 7:26-1 General Provisions

N.J.A.C. 7:26-4 Fees

N.J.A.C. 7:26-7 Labeling, Records and Requirements

This proposal is known within the Department as Docket No. DEP 049-80-08.

The regulations forming the body of this proposal are the result of the redrafting of an earlier version proposed for adoption in January, 1979. A first draft of the revised regulations were released for public review and comment in March of 1980.

In May of 1980, the USEPA issued final and interim final regulations (45 FR 33066, May 19, 1980) implementing Subtitle C of the federal Resource Conservation and Recovery Act (RCRA). These regulations set out minimum standards to be met by any state seeking authorization to administer a hazardous waste management program in lieu of the federal program.

In a letter to USEPA Regional Administrator Charles Warren, the Department notified USEPA of our intent to seek authorization to administer the RCRA hazardous waste management program in New Jersey. This course of action will benefit both the public at large and New Jersey industry by relieving the burdens of dual regulation by both state and federal agencies in this area.

Consequently, a second draft of the revised regulations, based in part on the federal RCRA regulations referenced above, was developed and reviewed by the Department's environmental and industrial advisory groups. The results of this redrafting and review process are the regulations formally proposed today.

Copies of the proposal and the basis document may be obtained from and written testimony relating thereto will be accepted prior to November 25, 1980 by:

PINELANDS COMMISSION

Notice of Public Hearings on Pinelands Comprehensive Management Plan

The Pinelands Commission has previously given notice of its intention to adopt the proposed comprehensive management plan for the Pinelands area pursuant to the authority of the Pinelands Protection Act, N.J.S.A. 13:18A-1 et seq. and the National Parks and Recreation Act of 1973, 16 U.S.C. § 471i. That notice, a brief description of the comprehensive management plan, and a list of places where the public may review the draft plan, were published at 12 N.J.R. 309(a) (June 5, 1980).

As originally enacted, the Pinelands Protection Act required the Pinelands Commission to adopt the comprehensive management plan for the entire Pinelands area "on or before August 8, 1980." L. 1979, ch. 111, § 7. Recently, however, the Act was amended to require that "the portion or portions of the comprehensive management plan applicable to the protection area shall be adopted on or

after November 14, 1980, but in no case later than December 15, 1980" L. 1980, ch. 65, § 2 (effective July 10, 1980).

DIVISION OF HEALTH PLANNING AND RESOURCES DEVELOPMENT

Proposed Amend Criteria: Certification Of Need and Designation of Regional Services

David A. Wagner, Deputy Commissioner of Health, pursuant to authority of N.J.S.A. 26:2H-1 et seq. and with the approval of the Health Care Administration Board proposes to amend N.J.A.C. 8:31-28 concerning criteria for the certification of need and designation of regional services.

Full text of the proposed amendments follows (additions indicated in boldface thus).

8:31-28.1(d) Further, parts of the process established in this regulation (specifically, the development of HSA and State plans for regionalized services, prior to action by the SHCC) may be deemed to constitute "Appropriateness Review" for such services, as defined in 42 CFR 122, Subpart F and 42 CFR 123, Subpart G. Integration of those two processes should substantially ease the administrative burdens on HSAs, the State, and providers; strengthen the procedural aspects of the designation process; and provide a stronger planning basis for the designation process.

8:31-28.3(c) To the extent that the plans developed by HSAs and the State in conformance with this section conform to the requirements of 42 CFR 122, Subpart F and 42 CFR 123, Subpart G, and with the Procedures Manuals for Appropriateness Review that may be adopted by HSAs and the State under those Federal regulations, they shall also be deemed to constitute "areawide findings of appropriateness" as defined in those regulations. As such, the State plan may be appealed by any HSA to the HCAB, on written record only, if the State findings are inconsistent with those of the HSA.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before September 24, 1980 to:

John C. Scioli
Coordinator, Health Planning Services
P.O. Box 1540 - Room 802

HEALTH

THE COMMISSIONER

Proposed Amend Procedural Methodological Regulations

Dr. Joanne E. Finley, Commissioner of Health, with the approval of the Health Care Administration Board, proposes to amend N.J.A.C. 8:31B-3, Procedural and Methodological Regulations. The regulations previously adopted established the process by which the Commissioner of Health determines rates to be proposed to the New Jersey Hospital Rate-Setting Commission, hospitals implement and respond to the rate, and the Commission shall make final determination.

The proposed revisions are summarized as follows.

1. Proposed schedule of rates

The 26 hospitals which received Commission approved rates in 1980 will receive an Adjusted Rate Order in 1981. That Adjusted Rate Order will consist of the 1980 Payment Rates and Other Indirect Financial Elements incremented by the 1981 Economic Factor. In other words, these hospital's 1980 rates will simply be trended forward into 1981 to account for inflation.

2. Procedures

a. Implementation

The proposed changes require all hospitals to implement the Proposed Schedule of Rates within 30 working days of receipt. Previously, only those hospitals that accepted or conditionally accepted were required to implement.

b. Notification

Hospitals must notify the Commission and Commissioner that they will Accept (formally Accept and Conditionally Accept) or Not Accept the Proposed Schedule of Rates within 60 working days. Exceptions are to be filed along with the hospital's notification of intent. (Formally, notification of intent was due within 30 working days and exceptions within 60 working days.)

c. Commission

The Commission and Commissioner's responsibilities have been clarified and consolidated in an attempt to avoid confusion regarding submission of information and initial review of certain information (e.g., revised charge schedules). The Commission retains approval of all rates.

3. Reasonable costs

a. Direct patient care costs

Changes include provisions for treatment of different types of outliers, low volume, application of the full standard and the use of Nursing RIMs if available.

b. Indirect costs

New screens have been established to evaluate the reasonableness of these costs. Limits for each cost center have been identified, as opposed to the more aggregate screen used in 1980.

c. Capital Facilities Allowance (CFA)

The Formula Allowance portion of the CFA replacement fund will be calculated using target beds, which reflect the difference between hospital and statewide optimal occupancy rates by clinical service, as opposed to using existing licensed beds. Further, the treatment of capital costs for proprietary hospitals has been changed to address the different tax status.

The proposed revisions are summarized as follows:

1. Elimination of the procedure to calculate certain financial elements (i.e., Capital Facilities Allowance) and incorporated into the Procedural and Methodological Regulation.
2. Clarification to items included as income from other sources.
3. Definitions of certain financial elements were expanded to include provisions for for-profit hospitals.
4. Changes due to the use of information reported by the Uniform Cost Reporting Regulation; rather than the Financial Elements Report, are highlighted.

Full text of the emergency amendment follows (additions indicated in boldface thus; deletions indicated in brackets [thus]).

8:65-5.4(a) Every inventory and other record required to be kept under subchapter 5 shall be kept by the registrant and be available, for at least two years from the date of such inventory or records, for inspecting and copying by authorized employees of the Administration, except that financial and shipping records (such as invoices and packing slips but not executed order forms subject to N.J.A.C. 8:65-6.13) may be kept at a central location, rather than at the registered location, if the registrant [obtains from the Administration approval of his central record keeping system and a permit to keep central records.] has notified the Administration of his intentions to keep central records. Written notification must be submitted by registered or certified mail, return receipt requested to the Regional Director of the Administration in the region in which the registrant is located. Unless the registrant is informed by the Regional Director that permission to keep central records is denied, the registrant may maintain central records commencing 14 days after receipt of his notification by the Regional Director. All central record-keeping permits previously issued by the Administration will expire on September 30, 1980. Registrants who desire to continue maintaining central record keeping will make notification to the local Regional Director as provided in this section. [The central record keeping system of any person whose system was approved by the Administration prior to May 1, 1971 shall continue to be approved under this paragraph if such person satisfies the Administration by July 1, 1971, of such approval and applies for a permit to keep central records. The permit to keep central records shall be issued by the Administration to a registrant upon his application if the Administration approves his central record keeping system and be subject to the following conditions.] All notifications shall include:

1. [The permit shall specify] The nature of the records to be kept centrally and the exact location where the records will be kept; the name, address, DEA registration number and type of DEA registration of the registrant whose records are being maintained centrally, and whether central records are being maintained in a manual, or computer readable form.

2. If the records are kept on microfilm, computer media or in any form requiring special equipment to render the records easily readable, the registrant shall provide access to such equipment with the records. If any code system is used (other than for pricing information) a key to the code shall be provided to make the records understandable.

[2.] 3. The registrant agrees to deliver all or any part of such records to the registered location within [48 hours] two business days [of] upon receipt of a written request from the administration for such records, and if the Administration chooses to do so in lieu of requiring delivery of such records to the registered location, to allow authorized employees of the Administration to inspect such records at central location upon request by such employees without a warrant of any kind; and

[3.] 4. [The failure of a registrant to perform his agreement under the permit shall revoke without further action by the Administration such permit and all other such permits held by the registrant under other registrations. In the event of a revocation of other permits under this subparagraph, the registrant shall within 30 days after such revocation comply with the requirements of this section that all records be kept at the registered location.] In the event that a registrant fails to comply with these conditions, the Regional Director may cancel such central record keeping authorization, and all other central record keeping authorizations held by the registrant without a hearing or other procedures. In the event of a cancellation of central record keeping authorizations under this subparagraph the registrant shall within the time specified by the Regional Director, comply with the requirements of this section that all records be kept at the registered location.

5. Registrants need not notify the Regional Director or obtain central record keeping approval in order to maintain records on an in-house computer system.

EDUCATIONAL OPPORTUNITY FUND BOARD

Proposed Amend Student Refunds And Repayments

The Educational Opportunity Fund Board in the Department of Higher Education, pursuant to the authority of N.J.S. 18A:71-34 proposes to delete the current text of N.J.A.C. 9:11-1.13(c) and insert new section to be cited as N.J.A.C. 9:11-1.22 concerning student refunds and repayment.

Full text of the proposal follows (additions indicated in boldface thus; deletions indicated in brackets [thus]).

9:11-1.13 [(c) Student support is to be discontinued for the semester(s) in which the action occurs for any student who withdraws or takes a leave of absence.

1. If a student(s) leaves unpaid accounts at the institution that would have been paid by the EOF grant, that bill may be paid from the EOF grant only after all other sources of financial aid available to the student have been exhausted.

2. The remainder of the EOF grant must be returned to the EOF Central Office.]

9:11-1.22 Refunds and repayments of disbursements made to students

(a) If a refund is due to a student under the institution's refund policy and the student received financial aid under any State student assistance program, the institution shall multiply the institutional refund by the following fraction to determine the amount to be refunded to the Treasurer, State of New Jersey, through the Office of Student Assistance:

$$\frac{\text{amount of State assistance (minus work earnings) awarded for the payment period}}{\text{total amount of financial aid (minus work earnings) awarded for the payment period}}$$

(b) The payment period is the time between the day a student registers for an academic term and the end of that term according to the institutional calendar.

(c) The enrollment period is the time between the day a student registers for an academic term and the date the student officially or unofficially withdraws from an institution, is expelled by an institution, or reduces his academic course load such that he is no longer eligible for State assistance.

(d) The formula in subsection (a) of this section shall be applied if a student reduces his academic course load to less than full-time prior to the date full tuition liability is required by the institution. However, if the student reduces his academic course load to less than full-time after the date full tuition liability is due the institution, and the student budget for the payment period is not reduced by the institution, a refund to the State is not necessarily required.

(e) If a combination of State student funds has been packaged for the student and a refund is due the State, a prorated amount is applied to each of the State programs in the student's financial aid package.

(f) If the combination of State awards packaged for the payment period is less or equal to the tuition charged for that term, the student cannot receive State assistance greater than the tuition charged for the enrollment period. Conversely, if the combination of State awards packaged for the payment period is greater than the tuition charged for that term, the student can receive State assistance greater than the tuition charged for the enrollment period.

(g) If a cash disbursement has been made by an institution for non-institutional costs from any State assistance program, and it is determined by application of the institution's refund policy and the formula in subsection (a) that a refund should be paid to the State, the institution shall endeavor to collect the overpayment from the student and return it to the State. If this effort is unsuccessful, the institution shall notify the Office of Student Assistance of the amount owed for each State assistance program. Non-institutional costs may include but are not limited to room and board, books and supplies, transportation, and miscellaneous expenses.

(h) If a student utilizes any portion of an award, it will be treated the same as a full semester payment in calculating the number of semesters of eligibility. Thus, the

Institution shall afford the student the opportunity to decline and repay the State award for that payment period.

Ann Klein, Commissioner of Human Services, pursuant to authority of N.J.S.A. 30:4D-1 et seq., proposes to amend N.J.A.C. 10:63-1.4(e) in the Long Term Care Manual concerning prior authorization for occupational therapy services.

Full text of the proposal follows (additions indicated in boldface thus; deletions indicated in brackets [thus]).

10:63-1.4(e)3. Providers of service:

i. (No change in text.)

ii. Reimbursement for rehabilitation services is made to the LTCF and not to the therapist by this program. Prior authorization is required as outlined in paragraph 5 of this subsection.

(1) Outpatient physical therapy [and], speech therapy and occupational therapy services furnished by a Medicare Certified facility to its Medicare eligible inpatients may be billed by the facility to Medicare under Part B only when the beneficiary has exhausted his benefits under Part A or is otherwise ineligible for Part A benefits. When physical therapy [or], speech therapy or occupational therapy services are furnished under arrangements to combination Medicare/Medicaid patients, these services should be billed to the provider's Part A Intermediary using [the form] Form HCFA-1483 (Provider Billing for Medical and other Health Services) [SSA-1483] (Exhibit No. 23).

(2) Outpatient physical therapy [and special therapy], speech therapy and occupational therapy furnished only by a Medicaid LTCF to Medicaid eligible inpatients only may be billed by the facility to the Bureau of Claims and Accounts if prior authorization has been given by the LMAU. The facility must state to the LMAU that it is not a Medicare provider and, therefore, no Medicare denial letter is needed.

(3) Medicaid may reimburse Medicare certified facilities through their Part A Intermediary (Blue Cross or Prudential) for the unsatisfied deductible (Medicare Part B)

when physical therapy [or], speech therapy or occupational therapy services are performed for patients eligible for both programs.

4. Billing Medicaid following Medicare decline:

i. If the [SSA] HCFA - 1483 (Exhibit No. 23) claim for physical therapy [or], speech therapy or occupational therapy is declined by Medicare and you wish to bill Medicaid for these services, a request for authorization must be made to the LMAU. When submitting such a request for authorization to the LMAU the facility must attach a copy of the Medicare denial letter. Medicaid will not authorize payment for any [therapy claim which] claim for rehabilitation services including but not limited to physical therapy, occupational therapy, speech therapy or any other restorative services provided for the purpose of attaining maximum reduction of physical or mental disability and restoration of the patient to his best functional level, which was denied by Medicare by reason of "not medically necessary." If authorization is granted by the LMAU the facility shall bill the Bureau of Claims and Accounts in accordance with established procedures, e.g., therapy charges, Form MCNH-14 (Exhibit No. 5) plus [the form] Form FD-06 (Request for Authorization or Reauthorization for Prescribed Rehabilitation Treatment Program) [FD-06] (Exhibit No. 1).

ii. When submitting requests for prior authorization of physical therapy [or], speech therapy or occupational therapy to the LMAU on behalf of patients not covered by Medicare benefits, the facility must state that the "Patient is not a Medicare beneficiary."

Interested persons may present statements or arguments in writing relevant to the proposed action on or before September 24, 1980 to:

FOREWORD

This chapter of Title 12 of the New Jersey Administrative Code replaces N.J.A.C. 12:58 effective November 20, 1958.

This Chapter 58, Child Labor of Title 12, N.J.A.C. is based upon research conducted by the staff of the Division of Workplace Standards.

This chapter was promulgated in accordance with section 4 of the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq.

HACKENSACK MEADOWLANDS DEVELOPMENT COMMISSION

Proposed Amend Variances

The Hackensack Meadowlands Development Commission, pursuant to authority of N.J.S.A. 13:17-1 et seq., proposes to amend various sections of Title 19, Chapter 4, New Jersey Administrative Code concerning variances.

Full text of the proposed amendments follows (additions indicated in boldface thus; deletions indicated in brackets [thus]).

19:4-4.142 Variances

(a) The Executive Director may authorize such variances from the terms of these regulations as will not be contrary to the public interest in accordance with the

standards set forth in subsection [(e)] (i) herein, upon a determination that owing to special conditions a literal enforcement of the provisions of these regulations will, in an individual case, result in unnecessary hardship for the applicant.

(b) - (c) (No change.)

(d) The office of the Chief Engineer shall select a reasonable time and place at which to hold a public [hearing] informational hearing [in accordance with Subchapter 6 of this Chapter.] to consider any application for a variance from the terms of these regulations. Notwithstanding the provisions of [this] the [Section] section, in cases of variances from the area and bulk requirements of these regulations, the office of the [chief] Chief [engineer] Engineer shall give notice, as required by law, but a public hearing on the matter shall not be required; provided, however, that comments in writing, relative to an application may be submitted to the office of the Chief Engineer within [ten] 10 days of the receipt of notice. [The Office of the Chief Engineer may, in its discretion, call a public hearing on any matter it deems of sufficient importance and shall call a public hearing on any matter on which there has been any adverse comment filed relative thereto which requests a public hearing.]

(e) The Executive Director shall review the findings, conclusions, and recommendations, of the Chief Engineer to determine whether it complies with the standards enumerated herein. In the event that the Chief Engineer has recommended a denial of the variance application or recommended approval with conditions on its approval, the Executive Director prior to making any final decision on the application shall forward a copy of the recommendations of the Chief Engineer to the applicant.

(f) A hearing may be held on an application for which the Chief Engineer has recommended disapproval or has recommended approval with conditions on the approval of the variance application. No such hearing shall be held unless the applicant requests a hearing in writing and the request is received by the Executive Director within 15 days of the applicant's receipt of notice of the recommendations of the Chief Engineer. In instances where the Chief Engineer has recommended approval with conditions, the scope of the hearing shall be limited to those conditions which the applicant objects to in the written request for a hearing. In his request for a hearing, the applicant shall state the nature of his objections to the recommendations of the Chief Engineer.

(g) Hearings to consider objections to the recommendations of the Chief Engineer shall be conducted by an administrative law judge under the rules and regulations and procedures of the Office of Administrative Law. The applicant shall have the burden of demonstrating that his application meets the standards and criterias enumerated in the section for the approval of a variance, and shall present his direct evidence first.

(h) The Executive Director shall render a written decision on all variance applications within 45 days of the close of the public informational hearing unless a hearing before an administrative law judge is requested as provided by subsection (d) herein. In the event that the applicant has requested a hearing as provided by subsection (f) herein, the Executive Director shall render a final decision on the variance application within 4 weeks of the receipt of the report and decision of the hearing officer. In cases where a hearing is not required, the Executive Director shall render a written decision in not less than two nor more than ten weeks from the date of receipt of notice.

[(e)] (i) (No change in text.)

[(f)] (j) In determining whether the evidence supports the conclusions required by subsection [(e)] (i), the Executive Director shall consider the extent to which the evidence demonstrates that:

1. - 4. (No change in text.)

[(h)] (Repealed)

[(i)] (k) (No change in text.)

[(g)] (l) In the granting of a variance, such conditions, safeguards and restrictions may be imposed upon the premises benefited by the variance as may be necessary to comply with the standards set out in subsection [(e)] (i) to reduce or minimize any potentially injurious effect of such variance upon other property in the neighborhood, and to carry out the general purpose and intent of these regulations. Failure to comply with any of the conditions or restrictions placed on a variance shall constitute a violation of these regulations.

(m) The decision of the Executive Director shall become final unless the applicant or other party adversely affected by the decision application appeals to the Commission as provided by N.J.A.C. 19:4-6.25.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before September 24, 1980 to:

ELECTION LAW ENFORCEMENT COMMISSION

Proposed Interim Public Financing Of Gubernatorial Primary Elections

The New Jersey Election Law Enforcement Commission, pursuant to authority of N.J.S.A. 19:44A-6, proposes to adopt new rules to be cited as N.J.A.C. 19:25-19 concerning interim rules on public financing of gubernatorial primary elections.

Full text of the proposed rule follows.

SUBCHAPTER 19. PUBLIC FINANCING OF THE GUBERNATORIAL PRIMARY ELECTION (INTERIM)

19:25-19.1 Scope

This subchapter is enacted pursuant to Chapter 74 of the Laws of 1980 and the authority of the Commission to promulgate regulations contained in Chapter 83 of the Laws of 1973 as amended and supplemented (N.J.S.A. 19:44A-6b). The proposed interim regulations are intended to provide candidates with rules relating to some of the more important transition questions. The proposed regulations are intended to be supplemented by more comprehensive regulations relating to the public financing of

the primary election for the office of Governor, as soon as those regulations can be prepared and properly promulgated.

19:25-19.2 Non-participation

(a) Any candidate may decline to participate in public funding of his or her candidacy in the primary election for the office of Governor.

(b) Every candidate, whether or not he or she receives public funding, will be subject to the \$800.00 limitation on contributions. No person or organization may contribute more than \$800.00 in the aggregate to the candidacy of any candidate in the primary election. Loans to candidates, including guarantees by individuals or organizations of loans by the candidate or his committee, are subject to the \$800.00 limitation and all such loans or guarantees will be considered part of the aggregated amount of contributions of such individuals.

(c) A candidate who declines to participate in public funding is not subject to the overall campaign expenditure limit contained in the statute.

(d) A candidate who declines to participate in public funding is not subject to the limit on the use of a candidate's own funds.

(e) A candidate who declines to participate in public funding is not subject to the \$50,000 limit on bank loans contained in section 44 of the Act, (N.J.S.A. 19:44A-44) and is not subject to any limits on the amount of bank loans to be guaranteed by the candidate personally. The candidate and prospective contributors are subject to the \$800.00 limit applicable to guarantors other than the candidate on such bank loans.

19:25-19.3 Past contributions

(a) The \$800.00 contribution limit is applicable to contributions received by the candidate prior to or subsequent to the effective date of the Act. The amount of any contribution in excess of \$800.00 received by the candidate prior to the effective date of the Act must be returned to the contributor immediately.

(b) On or before October 15, 1980, each candidate on whose behalf campaign activity has been undertaken by that date shall certify to the Commission in writing that:

1. No contribution in excess of \$800.00 has been received on behalf of his candidacy; or

2. That contributions in excess of \$800.00 have been received, and the amount of each contribution in excess of \$800.00 has been returned to the contributor. The certification shall include:

i. Written evidence, such as photocopy of check, showing that such excess amounts have been returned to the contributor; and

ii. A list of names and addresses of all contributors who contributed more than \$800.00 and the dates and amounts of all such contributions.

(c) A candidate failing to make the foregoing certification with respect to excess contributions will not be eligible to receive matching funds.

(d) All expenditures made or incurred by the candidate either prior to or subsequent to the effective date of the Act will count against the overall expenditure limit, except for certain excluded expenditures such as expenses incurred to comply with the regulations of the Commission.

19:25-19.4 Matching funds

(a) Campaign contributions of not more than \$800.00 in the aggregate from a single contributor will be eligible for matching with public funds in accordance with the Act,

upon submission of the required information to the Commission in accordance with the regulations of the Commission relating to public financing to be promulgated.

(b) An amount not in excess of \$800.00 of any contribution received prior to the effective date of the Act, in cases in which repayment of the excess has been made to the contributor in accordance with the foregoing rules, will be eligible for match with public funds.

19:25-19.5 Bank accounts and deposit of funds

(a) At the time a candidate notifies the Commission of his intent to seek public funding he shall also certify to the Commission that he has opened a campaign bank account with the Commission's approval pursuant to N.J.S.A. 19:44A-32 and deposited all eligible contributions raised prior to that time in said account. Except as otherwise provided in subparagraph (b) of this section, contributions not so deposited will not be eligible for match. Subsequently, each candidate shall deposit additional contributions he wishes to submit for match in such bank account within 10 days after receipt.

(b) Contributions spent prior to October 15, 1980 will be eligible to be matched with public funds if the candidates submit the information required by the Commission regulations for eligibility for matching by October 15, 1980 and, at the same time, in lieu of evidence of deposit of such contributions in a bank account pursuant to N.J.S.A. 19:44A-32, submit evidence, in the form of invoices, paid bills, cancelled checks and similar written form, of the disbursement of such contributions for the candidacy.

19:25-19.6 Principal campaign committee

(a) On or before October 15, 1980, each candidate, whether publicly declared or not, on whose behalf campaign activity has been undertaken prior to that date shall designate to the Commission the name and address of his principal campaign committee for the primary election, the name and address of his campaign treasurer and the name, address and number of his campaign depositories. A candidate may designate as his principal campaign committee a committee which has engaged in campaign activity on his behalf prior to October 15, 1980.

(b) No political committee (other than such principal campaign committee) which engaged in campaign activity prior to October 15, 1980, may contribute to the candidate or expend on behalf of the candidacy more than \$800.00.

(c) A candidate who begins his campaign activity subsequent to October 15, 1980, shall designate his principal campaign committee, treasurer and depository to the Commission at the time he notifies the Commission of his intention to seek to qualify for public funding.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before September 24, 1980 to:

The New Jersey Administrative Code

**OFFICIAL COMPILATION OF
ALL RULES AND REGULATIONS
OF THE STATE OF NEW JERSEY**

PUBLICATION of the first five volumes of the New Jersey Administrative Code was in 1972, to bring together for the first time all rules and regulations of the State of New Jersey.

BY mid-1973 the full Code had been issued—in 22 volumes. Since then it has grown to its present 30 volumes covering all State administrative rules.

The NEW JERSEY REGISTER, the State's monthly publication of all new rules and proposed rules, is available at \$15 ANNUALLY to supplement the Administrative Code prior to publication of current rules in the Code. Like the Code, it is published by the Division of Administrative Procedure.
