Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

**Notice of Public Comment Period Regarding Site Specific Water Quality Management Plan
Amendment Applications Pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Office of Water Resource Management Coordination, has received the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2011, C.203 (amended by P.L. 2013, c.188.) directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of site specific amendments for projects or activities having a wastewater planning flow of less than 50,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice of site specific amendment proposals for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below.

An appointment to review the file for any of the proposals may be arranged by calling the Office of Water Resource Management Coordination at (609) 777-4349. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday at 401 East State Street, Trenton, New Jersey.

Interested person may submit written comments on any of the proposals. When providing comments, specify which proposal the comments are being provided for. All comments must be submitted within 30 days of the date of this public notice to the address cited below. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request that the Department hold a non-adversarial public hearing or extend the public comment period up to 30 additional days for any of the proposals. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. The requests must be submitted within 30 days of the date of this public notice to the address cited below. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Written comments should be submitted to:

Colleen Kokas, Director
Office of Water Resource Management Coordination
Mail Code 401-02A
PO Box 420, 401 East State Street
Trenton, New Jersey 08625-0420

Notice(s) of site specific proposals that qualify for review under P.L. 2013, c. 188 are individually provided below:

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
OFFICE OF WATER RESOURCES MANAGEMENT COORDINATION**

Proposed Amendment to the Upper Raritan Water Quality Management Plan

Public Notice:

Royce Brook Center

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Upper Raritan Water Quality Management (WQM) Plan. This amendment proposal (Program Interest No.: 435434; Activity No.: AMD150006), submitted on behalf of Royce Brook Golf Course, LLC, would expand the sewer service area (SSA) of the Somerset Raritan Valley Sewerage Authority (SRVSA) Sanitary Treatment Plant (STP) (NJ0024864) to include approximately 97.5 acres within the Royce Brook Golf Club property located on Block 183, Lot 38.01 and Block 183.01, Lot 1, in the Township Hillsborough, Somerset County.

Currently, the Royce Brook Golf Club property is the site of a 36 hole golf course with a club house and maintenance support facilities. The combined acreage of the two parcels which make up the golf club (Block 183, Lot 38.01 and Block 183.01, Lot 1) is approximately 435 acres. Block 183, Lot 38.01 is approximately 338 acres and Block 183.01, Lot 38.01 is approximately 97 acres. As identified on the approved Somerset County Future Wastewater Service Areas Map, the Royce Brook Golf Club is currently served by a Department permitted on-site discharge to ground water (DGW) wastewater treatment facility (NJ0105562). At this time, only approximately 26 acres of land surrounding the club house and golf club maintenance facility on Block 183, Lot 38.01 are identified as SSA for the "Royce Brook Golf Club DGW Facility". The remaining area on this property is not designated as SSA. In addition, this location is currently zoned as commercial development zone (CDZ) and office/ research (O5). The existing the golf course is listed as a conditional use within the CDZ and is a continued existing use within the O5 zone.

The submitted application for this proposed amendment provided no specific proposed development plans for the 97.5 acre area proposed as SSA. The application did indicate that the site would be utilized for the continuous use of an 18 hole golf course and potential commercial/mix use development within the new proposed SSA consistent with the existing CDZ and O5 zoning. Therefore, the Department determined that, as part of this proposed amendment, no specific project activity has been presented for the entire area proposed for inclusion in the SSA. Furthermore, as describe below, the Department concluded that inclusion of the 97.5 acres as SSA to this site is compliant with N.J.A.C. 7:15-5.24(b), as such, this proposal qualifies as an amendment under the section 6(h) of P.L 2013, c. 188.

This proposed amendment has been reviewed in accordance with the Water Quality Management Planning rules, N.J.A.C. 7:15-1 et seq. and P.L. 2011 c.203 as amended and supplemented by P.L. 2013 c.188. Section 6(h) of P.L. 2013, c. 188 allows for the consideration of an application for a WQM Plan amendment that does not propose a specific project or activity and delineates as SSA a parcel not to

exceed 100 acres in size that complies with the regulatory criteria for the delineation of a sewer service area established at N.J.A.C. 7:15-5.24.

In accordance with N.J.A.C. 7:15-5.24 environmentally sensitive areas (ESAs) are assessed to determine what areas of the property are appropriate for inclusion in the proposed SSA. ESAs are defined based on a composite geographic information systems (GIS) analysis, as any contiguous area of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination, ESAs are required to be excluded from the SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version Landscape Project 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e)-(h). The Department determined no threatened or endangered species habitat or other priority species habitats were identified on the property.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e)-(h). A site review of the property determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.24(b)3, Category One (C1) special water resource protection areas are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e)-(h). The Department determined no classified C1 water bodies exist on or near the property.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not proposed as SSA. In accordance with N.J.A.C. 7:15-5.24(e)2, a Letter of Interpretation (LOI) file No. 1810-06-0006.1 issued on December 13, 2006 and Transition Area Waiver-Averaging Plan issued December 18, 2008 (FWW-08000) verified the presence and extent of the regulated wetlands and associated transmittal area (buffers) located within Block 183, Lot 38.01 and Block 183.01, Lot 1. No area identified as a regulated wetland or buffer is proposed as SSA on the property as part of this proposed amendment.

All other ESA as defined at N.J.A.C. 7:15-5.24(c) 1-3; lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not applicable to this proposed amendment location nor are any ESA as defined at N.J.A.C. 7:15-5.24(d) 1-4; beaches, coastal high hazards area or dunes as defined under N.J.A.C.7:7E or areas with Federal 201 grant limitations which provide for restriction of sewer service in defined environmentally sensitive areas.

As part of this proposed amendment no specific project activity has been presented for the area proposed for inclusion in the SSA. Furthermore, as described above, the Department determined that the inclusion of the 97.5 acres within Block 183, Lot 38.01 and Block 183.01, Lot 1 as proposed as new SSA to the SRVSA STP is compliant with N.J.A.C. 7:15-5.24(b), and qualifies as an amendment under the section 6(h) of P.L 2013, c. 188.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

This notice is being given to inform the public that a plan amendment has been proposed for the Tri-County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Department's, Office of Water Resources Management Coordination, P.O. Box 420, Mail Code 401-02A, 401 East State Street, Trenton, N.J. 08625-0420. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Office of Water Resources Management (WRM) Coordination at (609) 777-4349.

Interested persons may submit written comments on the amendment to WQM Program Docket, at the Department address cited above with a copy sent to Jennifer Gorini, Paulus Sokolowski and Sartor, 67B Mountain Boulevard Extension, Warren Township, NJ 07059. All written comments should reference Program Interest No.: 435434; Activity No.: AMD150006 and must be submitted within 30 days of the date of this public notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. Any written requests should reference Program Interest No.: 435434; Activity No.: AMD150006 and must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this public notice to WQM Program Docket at the Department address cited above. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

**NOTICE OF PUBLIC COMMENT PERIOD
REGARDING A SOLID WASTE FACILITY PERMIT FOR A
SOLID WASTE TRANSFER STATION**

The New Jersey Department of Environmental Protection, Division of Solid and Hazardous Waste, hereby gives notice that it has tentatively approved a Solid Waste Facility Permit renewal application regarding the operation of the existing **LEMCOR, INC.** solid waste transfer station located at 170 Frelinghuysen Avenue, Newark.

The application for a Solid Waste Facility Permit renewal was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. The facility is currently permitted to accept waste types ID 10 (Municipal Waste - Household, Commercial and Institutional), ID 13 (Vegetative Waste), ID 13C (Construction and Demolition Waste) ID 27 (Dry Industrial Waste) and ID 72 (Non-Hazardous Liquid and Semi-Liquid - restricted solely to dilute wastewater resulting from cleaning municipal stormwater management systems) with an approved capacity of capacity of 630 tons per day, seven (7) days per week, but not to exceed 3150 tons of waste in a given week.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close within thirty (30) days of this publication. During this period, any interested person may submit written comments concerning the draft permit action to:

Anthony Fontana, Chief
New Jersey Department of Environmental Protection
Division of Solid and Hazardous Waste (Mail Code 401-02C)
401 E. State Street, P.O. Box 420
Trenton, New Jersey 08625-0420
(609) 292-9880

Upon written request of any interested party, which raises the issues of fact relevant to the proposed agency action within thirty (30) days of this publication, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet are available for inspection at the above noted office of the Department's Division of Solid and Hazardous Waste, the office of Newark City Clerk and the office the Essex County Clerk.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should notify Richard Campbell at the above address or contact him at (609) 984-4567.

Public notice of proposed permit actions

<i>Facility name / NJPDES Permit No ./ SRP Case ID</i>	<i>Facility location / address / County</i>	<i>NJDEP case manager / Bureau / phone number</i>	<i>Permit Type / Formation / Ground Water Classification</i>	<i>Executive Summary</i>

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATER QUALITY
PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

The facility discharges a permitted flow of 0.75 MGD of treated, disinfected, domestic wastewater without any industrial contribution into the Delaware River Zone 5 water. Treatment units consist of comminutor, primary settling tank, aeration tank, final settling tank, chlorine contact tank, and dechlorination unit.</p>

WEST DEPTFORD ENERGY STATION NJ0171905 DSW Major	3 Paradise Rd West Deptford Twp, NJ 08066 Gloucester County	Robert Hall Bureau of Surface Water Permitting (609)292-4860	Delaware River Mainstem Delaware-Zone 4 Woodbury / Big Timber / Newton Creeks	Surface Water Renewal Permit Action This renewal action continues to authorize the intake of Reclaimed Water for Beneficial Reuse from the adjacent Gloucester County Utilities Authority and the discharge of approximately 3.1 MGD of wastewater to Zone 4 of the Delaware River through DSN 002. The majority of the intake water is used in the non-contact cooling water tower in the permittee's operations whereas a small portion of the intake water is used for miscellaneous purposes, such as bolier make-up water.
