General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally, their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF RECEIPT
FEDERAL CONSISTENCY CERTIFICATION**

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION has received a request for a Federal Consistency Certification from Orsted Ocean Wind to develop a commercial-scale, offshore wind energy facility within Lease Area OCS-0498 off the coast of New Jersey.

The project includes up to 98 wind turbine generators, inter-array cables, up to three offshore substations, two onshore substations, and two transmission cables making landfall in Ocean County, NJ, and Cape May County, NJ.

The Project would contribute to New Jersey's goal of 7.5 gigawatts (GW) of offshore wind energy generation by 2035 as outlined in New Jersey's Governor's Executive Order No. 92, issued on November 19, 2019. Further, the Project is intended to fulfill the New Jersey's Board of Public Utilities (BPU) September 20, 2018, solicitation for 1,100 megawatts (MW) of offshore wind that was awarded to Ocean Wind, via the New Jersey BPU on June 21, 2019 (BPU Docket No. QO18121289).

The Federal Consistency Certification can be reviewed by appointment at the Department's Trenton Office or by requesting an electronic copy of the application by contacting <https://www.nj.gov/dep/opra/opraform.html> as part of an OPRA request submitted to the Department's Trenton Office.

Project information is available to review at: www.nj.gov/dep/offshorewind/outreach.html#comment
