Committee Reports

During these meetings, Commissioners were briefed on the resolutions being presented this morning as well as the Authority’s Employee Assistance Program, E-ZPass matters, Electric Charging Stations, the results of the annual FAA Part 139 Inspection, the upcoming Triennial Drill and TSA issues. He asked how the Authority planned to proceed. Mr. Dougherty advised on April 14th he, Mr. Frankowski, Mr. Kroll, Mr. Zappariello and Mr. Mullins from the PANYNJ, met at the Airport with representatives from Spirit Airlines’ Florida office, and TSA’s Federal Security Director, Thomas Carter. He stated the group was able to establish a few key items. TSA has made a commitment, in the near term, to evaluate keeping their screening check points open until 8:00 p.m. In cooperation, Spirit will investigate changing their flight times to space them out so to allow additional time for passengers to be screened. The organizations also agreed to hold monthly teleconferences for the purpose of collectively discussing issues and to continue an open, positive dialog. Commissioner McCullough asked if we are pursuing privatization, to which Mr. Dougherty responded “we are keeping all of our options open and will proceed with our due diligence; however, we will continue to evaluate the situation and do what is best for our Airport.” Chairman Hammer asked if there were any additional public comments. There being none, Chairman Hammer welcomed Mr. Leon Costello, Audit Partner from the firm Ford Scott & Associates. He thanked Mr. Costello and his firm for their work on the Authority’s 2015 Audit and invited him to say a few words. Mr. Costello reported he is very pleased to announce there were no findings, nor comments that were negative about the controls in place or the assistance they received by Authority staff. The Audit was one of the smoothest audits they’ve completed. He stated, as the Executive Director mentioned in his March Report, March statistic are very positive. Further, his firm audits 42 towns and the upturn seems to be across the board. Statistics seem to be positive as far as traffic, tourism and ratables. The statistics Mr. Dougherty read today seem to fit with what they are seeing within the towns they audit. He commended the Authority’s financial staff, remarking they are competent and cooperative. He mentioned one item they are waiting for from the State, a report on GASB 68, stating once this report is received, they will be able to close out the audit. Mr. Costello then introduced Mr.

Cocozza who stated this was one the best audits he has work on. He complemented staff for their quick response in providing the necessary documentation. He thanked the Board for their time and congratulated staff for a job well done.

RESOLUTION 2016-42 OF THE SOUTH JERSEY TRANSPORTATION AUTHORITY AUTHORIZING THE AWARD OF A CONTRACT TO SOUTH STATE, INC., OF BRIDGETON, NEW JERSEY FOR EMERGENCY REPAIRS TO THE DRAINAGE PIPE ON THE ATLANTIC CITY EXPRESSWAY AT MILEPOST 43.4 WESTBOUND (CONFIRMING)

Pursuant to N.J.A.C. 19:2-7.7, whenever an emergency declared by the Executive Director or his designee exists of a nature requiring immediate services, the Authority shall, by such solicitation as it considers advisable, obtain whatever is necessary to meet the emergency on the most advantageous terms possible under the circumstances. On April 1, 2016, Authority personnel discovered a sinkhole, eight inches in diameter on the paved shoulder of the Atlantic City Expressway, at Milepost 43.4 westbound. Upon inspection by the Authority's Chief Engineer and its general engineering consultant, Consulting Engineer Services, it was determined a void, several feet in depth, had developed beneath the pavement due to a failed corrugated metal storm water pipe. Due to the deteriorating condition of the paved shoulder and strong potential for a similar issue to develop beneath the westbound travel lanes, the Chief Engineer, with the concurrence of the Executive Director, requested the immediate deployment of South State, Inc. of Bridgeton, to repair said deficiencies, as South State, Inc., a qualified highway contractor was currently working on the Atlantic City Expressway under a separate contract. As excavating the pipe was necessary to determine the extent of the pipe failure, it was determined the remaining length of pipe between the median and shoulder, which travels under both westbound travel lanes, was in similar condition. South State, Inc., of Bridgeton, New Jersey completed the necessary repairs, which included the excavation and replacement of approximately 60 linear feet of 24" corrugated metal pipe with 24" HDPE pipe in order to secure the drainage system from the immediate sinkhole hazard. The restoration of the shoulder included the installation of 6" of Hot Mix Asphalt; the slip lining of approximately 120 linear feet of existing pipe with 18" HDPE pipe and the injection grouting of the void between the old and new pipe. The 120 linear feet pipe length was from the highway median north to the westbound roadside connecting an existing storm inlet in the median and headwall at the roadside. This work was completed at a cost not to \$59,382.63. Briefings on the Emergency Repair were provided to the Commissioners during the April 6, 2016 Committee Meetings with notice that a confirming resolution would be presented subsequent to the completion of the repair.

RESOLUTION 2016-44 OF THE SOUTH JERSEY TRANSPORTATION AUTHORITY AUTHORIZING 2016 ADVERTISING EXPENDITURES TO PROMOTE THE ATLANTIC CITY INTERNATIONAL AIRPORT

He then recommended the public release of the Executive Session minutes for approval. Chairman Hammer called for a motion to approve the release of the Executive Session Minutes. Whereupon, the motion was moved by Commissioner Ripa and seconded by Commissioner McCullough, approving the release of minutes.
