The staff of the NJ Statewide Water Supply Master Plan would like to announce the second round of Agenda Committee meetings as part of its Public Participation and Intergovernmental Coordination Program. Of course, members of the general public are invited to attend. Five meetings are planned throughout the State to discuss the content and implications of the Master Plan Interim Reports disseminated to date. Some of the areas of water supply covered by the report are: Data Base Reports which include interconnection location and water use information; a background of the State's role in water supply; the Division of Water Resources relationship to the PUC; the implications of the Safe Drinking Water Act; and the State's diversion rights to the Delaware and Hudson Waters.

Much of this information has been disseminated to date at 50 libraries throughout the State for convenient public access and comment. Should you wish to obtain some background information about our project by visiting these libraries or wish to attend any of our meetings please do not hesitate to call the project staff members at 609-292-3753.
