The agreement must be consummated on the appropriate approved form which will be provided for this purpose by the retirement system. 17:1-4.36 Peacetime military service; service credit

(a) A member or former member, or a person required to be a member, of a State-administered retirement system who leaves employment covered by a State-administered retirement system to enter military service of the United States and returns to covered employment within the time period and under the circumstances required for entitlement to reemployment rights under federal law (38 U.S.C. sec. 2021 et seq.), may obtain service credit in the State-administered retirement system covering the employment after military service as provided in this section. The types of service or situations eligible for reemployment rights include regular active duty, initial active duty for training, active and inactive training for members of reserve components and National Guard units, and situations where an employee leaves employment for military service or for examination of fitness for military service and is not taken into military service.

1. The person must be a member or be required to be a member of a State-administered retirement system prior to leaving employment to enter military service and must leave the covered employment to enter military service.

2. The person must return to employment covered by a State-administered retirement system within the time periods prescribed by federal law. A person may serve only four years, plus an additional year, or other additional, limited time periods in the case members of the National Guard or military reserve units called to active duty, to be eligible for reemployment rights. The person must seek reemployment within the time period prescribed by federal law which is generally 90 days following release from military service. A reservist or guardsman returning from initial active duty for training must seek reemployment within 31 days after release from duty. A person returning from other training duty or who leaves employment for military service or for examination of fitness for military service and is not taken into military service must report to work at the next regularly scheduled work period after release from duty. In all cases, the time limit for return to employment is tolled for up to one year for any injury or illness related to military service requiring hospitalization which continues after release from military service.

3. The person's military service must have been honorable or satisfactory. This requirement is not applicable to military training other than initial active duty for training.

4. The person may be denied reemployment rights if the person is not qualified to perform the duties of the position for which reemployment is sought or if the employer's circumstances have so changed as to make it impossible or unreasonable to reemploy the person. The person will not be entitled to service credit in a State-administered retirement system if reemployment is validly denied.

5. To receive service credit in a State-administered retirement system for military service, the person must apply within one year following the date of return to employment or the date initial pension contributions are certified to begin in the retirement system if the person's former membership was terminated or was in a different retirement system.

6. To obtain service credit for the military service, the person must make contributions to the retirement system for all of the period of military service based upon the person's current salary and full percentage contribution rate. The contributions must be authorized by the person within one year following the date of return to employment or the date initial pension contributions are certified to begin, or the expiration date indicated on the quotation letter, whichever is later.

7. A person who returned to employment covered by a State-administered retirement system after December 3, 1974 and on or before January 24, 1986, and was eligible for reemployment rights under federal law with respect to the employment, may obtain service credit for the military service by applying, on or before January 24, 1987, to:

i. The retirement system of which the person is a member, or was a member in the case of a retired person; or

ii. The Division of Pensions in the case of a former member of a State-administered retirement system who is not retired or is not a current member.

8. The contributions required to obtain the service credit shall be based upon the person's salary and full percentage contribution rate at the time of return to employment.

9. The contributions required to obtain the service credit may be paid by any method authorized for purchases of service credit under the retirement system.

10. If a person retires prior to paying the total amount of contributions required to obtain service credit for the military service, the total amount of service credit shall be in direct proportion as the amount paid bears to the total amount of contribution obligation.

(a) Applicants for ordinary disability retirement shall submit with their applications all the medical information they can supply relative to their disability, including reports of their personal physicians and consulting physicians, hospital records, diagnostic test results, and any other medical information which would assist the Medical Review Board and the board or commission of the retirement system in determining eligibility of the applicants for disability retirement. The Disability Review Section shall forward the applications and the accompanying medical information to the Medical Review Board.

(b) If the medical information supplied by the applicant is sufficient for the Medical Review Board to make a medical recommendation, it shall return the case to the Disability Review Section with its recommendation. If the Medical Review Board deems that the medical information supplied by the applicant is not sufficient for it to make a medical recommendation, it shall advise the Disability Review Section to arrange to have the applicant examined by a physician or physicians under contract with the Division of Pensions to perform disability examinations, or to obtain additional information needed to make its medical recommendation.

(c) The board or commission which governs the pension fund or retirement system may request that an applicant be examined or reexamined by a physician or physicians under contract with the Division of Pensions, or that additional information be obtained, if it deems that the medical information available is insufficient to make a decision on the eligibility of the applicant for ordinary disability retirement.
