was lapsed from the program. SRAP had changed its project-based voucher funding	1
methodology from "forward funded" to "pay-as-you-go." The lapse amount was	
made available from a combination of cancelling prior year project-based	
encumbrances and shifting current year tenant-based expenditures from the SRAP	1
General Fund account to the off-budget SRAP account.	
Discounted Revolving Fund	(499)

offset the reduced aid. First, aid will be withheld in an amount equal to the extent

fund balance; capital reserves; maintenance reserves; and emergency reserves as	
adjusted for amounts budgeted for withdrawal.

A study was conducted by STV Incorporated in January 2005 to assess the entire fire	1
alarm system at the Katzenbach School for the Deaf. This funding request was for	1

could be delayed.

Funds for this program have lapsed every year except in FY 2005 and FY 2006.	
Nonpublic Transportation	(3,000)

Transportation aid formula and is included in the formula aid payment schedule. The	1

the maximum. Otherwise, the parent/guardian is paid the maximum and is	1
responsible for transporting the student.	
Parents are paid two times a year – half after the 1st semester, and the other half at	1
the end of the year. The lapse amount represents the estimated State savings from	1

needed and can lapse.	
Additional Payment Delay Savings	(20,500)

This amount represents savings due to changes in calculations, a prior year	1
adjustment, and FY 2010 deductions resembling - in amount and timing - those from	1
FY09.	
School Construction and Renovation Fund	(5,749)
Lapse is based on 8/31/09 schedule provided by the Office of Public Finance.

impact the current year need would be charged to the FY 2011 account due to the	1
timing of the adjustments.	
Repaid School District Deficit Relief	(2,040)
The School District Deficit Relief account exists to provide loans to districts in need of	1
an advance state aid payment. Districts receiving such loans are required to repay the	1
loans over a period not to exceed ten years, through automatic reductions to their	1
State Aid payments.	
State Assessment	(1,700)
Current cost estimates provided by DOE show that the appropriation will not be fully	1
expended due to lower than anticipated contract costs and the availability of federal	

resources.

the amount carrying forward into FY 2010.

William Paterson University and Rutgers University to conduct research studies on

The amount indicated for lapse represents surplus funding in FY 2010, according to a	
9/21/09 update from the Department.	
Unanticipated Revolving Fund Revenue	(430)
This money was not needed in the FY 2009 close out process and can be lapsed. The	
Department will be left with almost \$200,000 in carry forward funds.	
Bridge Loan Interest Payment Surplus	(304)
The remaining funding in this account is available for lapse. Original funds were used	,
to pay interest on local school borrowings that ended in July.	
Non Fully Expended District and School Improvement Operation Funding	(226)
Historically, these resources have not been fully expended and the Department has

balances are insufficient, the Department has potential resource funds that are in	
reserve for monitoring in another District and School Improvement account.

The amount represents a surplus carried forward from previous years that can lapse.	
Highlands Council	(88)
The Highlands Council can achieve these savings by reducing planned expenditures on	
its Regional Master Plan.	
Alternative Funding Sources for State Parks	(787)
These state funds are not needed for various construction projects because	
alternative funds are available.	
Surplus Dollars Since FY 2003 for "Carney's Point Regional Wastewater Management	(3,600)
Project"	
Given that funding has not been spent since FY 2003 and no agreement is expected to	
be in place between the parties by the end of the year, it is highly unlikely that	
funding for this purpose will be needed. The funding will lapse.	
Surplus Funding for Parks	(1,700)

This reduction will have minimal impact, and can be absorbed within the	
Commission's undesignated fund balance.	
Unanticipated Pinelands Commission Savings	(24)
Law and Public Safety (L&PS) assumes that it will only receive 85% of total DAG	
agreements. Given that the Commission assumes it will use \$24k less than the	
agreement this year, this will generate \$24k in real savings.	
Significant Hazard Dams Grants	(7)
This amount represents prior year reimbursement not needed by the Department.	
Total Environmental Protection	(9,283)

have in the past.

vehicle and traffic violations and the interest earned on such funds. Since FY01, the

uncommitted interest earnings total \$2.9 million and the uncommitted receipts total	
\$5.9 million.	
FY 2009 Surplus - Autism Research Fund	(5,000)

programs.

crisis diversion programs, community care grant spending can be reduced in FY 2010.	
Community-Based Substance Abuse Treatment Services Surplus Balance	(1,079)
Most of these funds carried forward into FY 2010, and the remainder is due to current

Eliminate FY 2010 Defined Benefit Pension Contributions	(100,000)
Contributions to defined pension systems will not be made. However, billions of	
dollars of structural reforms will be made instead, more than offsetting the impact of	
this reduction.	
Clean Energy Fund -State Capital Balances	(18,000)
Balances in various capital accounts will be lapsed.	
Additional PBM Savings	(12,000)
The Pharmacy Benefit Manager contract is expected to save an additional \$12 million	
beyond previous estimates.	
Elimination of Discretionary Advertising Fund	(4,613)
Discretionary funds across departments for advertising will lapse.	
MAC Account Grants Balance	(3,375)
Reflects funds set aside for progress payments on numerous capital projects including

were provided through a special block grant program that had previously been	
terminated by Governor Corzine.	
Materials Removal	(1,484)
Balances exist in various accounts that fund State property improvements.	
Capital Complex Improvements	(1,467)
Based on information provided by the Division of Property Management and	
Construction, the division identified amounts within capital construction accounts that	
are not necessary to fund the completion of scheduled work.	
Increase Health Benefit Contribution for Non-Aligned Employees	(3,065)
Represents savings from changing the health benefit contribution for non-aligned	
Executive Branch employees (about 5,100 employees) from 1.5% of base salary to	
25% of medical and prescription drug premiums (based on coverage).

NJ Build Uncommitted Balance	(1,500)
The NJ Build program has received over \$2 million in funding over the past two years,	
but has traditionally spent only \$250,000 per year, leaving a current available balance	
of \$1.9 million. Given the slow pace of spending relative to receipts, \$1.5 million of	
the current balance will be lapsed with no programmatic impact.	
PERC - Dispute Resolution Staff Reduction	(104)
This reduction would require elimination of 10% of PERC staff, all of which are	
unclassified.	
PERC – Eliminating Supplemental Mediators	(25)
Elimination of ad hoc mediators used to supplement PERC staff.	
Work First NJ Work Activities – Prior Year Surplus	(4,311)
The Department has indicated that the availability of prior year surpluses will allow	
them to handle the current year reduction with no impact to services. Federal	
requirements regarding State Maintenance of Effort (MOE) funding is not at risk from	
this reduction, as NJ TANF funding is significantly above the required minimum.	
Workplace Standards	(1)
Surplus equipment funding is available.

LAW AND PUBLIC SAFETY

Description	Amount
Victims of Crime Compensation - Reduction of Claims Funds and Administrative	(4,442)
Accounts	
This reduction can be taken due to a temporary decrease in the number of processed	
claims due to the relocation of the Victims of Crime Compensation Office (VCCO) from	
Treasury to Law and Public Safety and also due to funds dedicated to administrative	
improvements.	
Digital In-Vehicle Recording	(2,896)
State Police are starting to phase in the use of digital recorders, as opposed to the	
antiquated VHS tapes. This funding cut will postpone installation of digital recorders	
until FY 2011.	
Eliminate Operation Ceasefire	(1,185)
Funding for this program would be eliminated for the remainder of FY 2010. Balances	
remain available only for outstanding obligations.	
Discontinue Re-Entry Case Management Services	(152)
This appropriation funds a contract for 3 service advocates that provide assertive case	
management for youth with mental illness and/or developmental disabilities.	

Curriculum Updates Previously Completed	(150)
Formally called Project Phoenix, funds were intended to provide gang awareness	
training to the community. This appropriation was used only once for the above	
purpose, which included the purchase of curriculum. Updates to the curriculum were	
included in the purchased licenses; therefore additional funds were not needed.	
One-time Reduction Capital and Improvement funds	(144)
Juvenile Justice Commission will postpone equipment purchases, allowing these funds	
to be lapsed.	
Electric Service Repairs	(136)
Electrical work at the NJ Training School for Boys can be deferred, allowing for a lapse.	
Reduction to Purchase of Services for Juveniles Offenders	(62)
The fee-for-service medical contract is projected to come in \$62k less than expected,	
allowing for funds to be lapsed. The Juvenile Justice Commission states that this	
reduction will neither limit medical services nor affect the funding used for suicide	
prevention training.	
Bureau of Securities - Anticipated Settlements	(5,716)
This lapse is based on projected settlements in the Securities Enforcement Fund (BOS)	
from ongoing cases and not from carry forward funds. Although carry forward	
balances in this account are used to fund operating costs, a sufficient balance exists to	
lapse this amount immediately in anticipation of future settlements. The Department	
projects these settlements will come from ongoing auction rate securities and similar	
cases.	
Bureau of Securities - Prior Year Balances	(4,000)
Based on higher than anticipated carry forward and the current uncommitted balance	
in this account, a portion of the Bureau of Securities fund can be lapsed to the General	
Fund.	
Division of Alcoholic Beverage Control - Excess Receipts	(2,500)
This reduction is for a one-time lapse of excess prior year receipts.	
State Police Operations Prior Year Balance	(590)
Available salary balances will lapse.	
Bureau of Securities Unspent Building Authority Funds	(539)
Due to the New Jersey Building Authority (NJBA) bringing this project under budget,	
\$639k in unspent funds were returned to the Department of Law and Public Safety	
(LPS). \$539k of this was originally funded from Securities Enforcement Funds and is	
available to lapse. The remaining portion was returned to the State Police Non-	
Criminal records account.	
Emergency Operations Center Consolidation	(500)
A reduction from this account was taken in the FY 2010 budget due to a consolidation	
effort of the contract. An additional reduction is possible due to further contract	
efficiencies.	
Legalized Games of Chance	(500)

Although this program was initially self-sustaining, anticipated receipts were lowered	
in FY04 to address lower than expected returns. In FY 2007, Consumer Affairs	
increased registration fees to address this same issue which resulted in a steady	
increase in carry forward funds (\$910k carried forward into FY 2010). Due to the	1
timing of the collection of registration fees, some funds are necessary for program	1
operations. This lapse represents the excess portion of the FY 2010 carry forward.	
Alternatives to Juvenile Incarceration Contracts	(408)
New substance abuse service contracts have not yet been awarded. A resulting	1
surplus will be lapsed.	
Criminal Justice State Match	(250)
Since FY 2007, \$1 million has been budgeted in this account to support the state	
match for various federal grants in the Division of Criminal Justice. Currently, only	
\$636k of these funds are needed in FY 2010 for this purpose. This lapse allows a	1
minimal balance to remain for the Department to accept any future or unanticipated	
federal grants.	
Noncriminal Records Uncommitted Balance	(193)
\$3.2 million in funds were carried forward from FY 2009. These anticipated	
uncommitted balances can be lapsed to the General Fund.	
Highway Traffic Safety - State Match Funds in Reserve	(185)
This reduction is a one-time lapse from prior fiscal year funding in reserve.	
Election Law Enforcement Commission (ELEC) Lobbying Annual Fees Surplus	(184)
ELEC anticipates a surplus that can be lapsed.	
ELEC Excess Receipts to Lobbying Account	(162)
These funds are used to offset necessary salary expenditures as well as additional	1
operational costs. This amount will not be needed in FY 2010 to offset any accounts.	
State Police Equipment	(126)
Surplus funds in the equipment account will lapse.	
Homeland Security Operating Reduction	(84)
Surplus funds in non-salary operating accounts will lapse.	
Department-Wide Vehicle Recall Savings	(75)
Treasury recalled agency vehicles and adjusted the agency budget targets accordingly.	1
Because the vehicles are no longer with the agency, the savings is also available in the	
current year to lapse. This is a one-time lapse because the amount was already taken	
out of the FY 2011 base appropriation.	
ELEC Salary Surplus	(70)
ELEC will have a surplus in its salary account that can lapse.	
Presidential Primary	(70)
It is believed that all counties have been paid in full for expenses related to the	
Presidential Primary. These funds are no longer needed.	
State Ethics Commission Surplus	(39)
There is a salary surplus and there are operational efficiencies that will allow for a	

lapse.	
Public Area Furniture Contingency	(31)
A surplus from the Public Area Furniture Contingency dedicated account will allow for	
a lapse.	
Surplus State Matching Funds	(18)
A grant program that required matching state funds has been completed and funds	
set aside for the match are no longer needed and will lapse.	
ELEC - Equipment Funds	(13)
The equipment fund has a surplus that will lapse.	
ELEC - Professional Campaign Fund Raiser Register	(11)
The balances in this account carried forward in past budget years. In FY09, OMB	
reverted \$33,000 from this account. ELEC does not plan to use these funds in FY 2010,	
therefore they are available to lapse.	
Ethics - Equipment Funds	(7)
Equipment funds have a surplus that will lapse.	
Operation Ceasefire Uncommitted Fund	(6)
Uncommitted funds in this account will lapse.	
Consumer Affairs Equipment	(3)
Equipment funds have a surplus that will lapse.

PUBLIC ADVOCATE

Description	Amount
Suspend Operations of the Department of the Public Advocate	(200)
Savings are anticipated due to the abolishment of the Department effective April 1,	
2010. It is assumed that 18 unclassified employees' layoffs would be effective that	
date; of these 18 individuals, one has underlying civil service status. Savings assumes	
fringe benefits savings, but also assumes the cost of the impact of potential bumping	
and UI benefits. There are six classified employees who could be laid off effective	
January 1, 2011.	
DPA would be abolished, eliminating positions in the newly created Division of Public	
Interest Advocacy, Division of Advocacy for the Developmentally Disabled, and	
Management and Administrative Services (including the Office of the Public	
Advocate), as well as modest FY 2010 savings for non-salary appropriations (materials	
and supplies, maintenance and fixed charges, services other than personal, etc.).	
The remaining Divisions of Mental Health Advocacy, Elder Advocacy, and Rate	

Counsel, as well as the Offices of Child Advocate, Corrections Ombudsman, and	
Dispute Settlement, would be consolidated into the departments/agencies where	
they were located prior to DPA's re-establishment in 2006.	
Carry Forward of Appropriated Receipts in the Office of Dispute Settlement	(345)
This lapse represents carryforward balances, derived from appropriated receipts not	` ,
needed by the agency to fund ongoing operations.	
Carry Forward for the Division of Rate Counsel Advocacy	(219)
This lapse represents carryforward balances not needed by the agency to fund	` ,
ongoing operations. Rate Counsel funds are industry-assessed; therefore, if this lapse	
is taken, the FY 2011 industry assessment will have to be reduced by this amount,	
which affects FY 2011 revenue.	
Carry-Forward Funding in the Office of Child Advocate	(51)
Lapse represents carryforward balances not needed by the agency to fund ongoing	
operations.	
Mental Health Advocacy Lapse of Uncommitted Balance	(2)

Modified Tourism Campaign	(2,000)
The Division of Travel and Tourism will cancel the Spring/Summer 2010 tourism

Library Network Aid	(373)
This funding, which is approximately 9% of the total appropriation, will lapse.	
Virtual Library (Knowledge Initiative)	(231)
The Library pays the fees for the four databases in installments throughout the year.	
The State Library will end the contract for one of the four databases early; therefore,	
these funds are available to lapse.	
Diagnostic Assessments and Training Activities – Uncommitted Balance	(130)

The Commission on Higher Education has allocated \$915K in FY 2010 as support for seven regional centers. In addition, \$55K from the Special Needs appropriation is authorized by language for support of program administrative costs; the balance of the account is not committed at this time. TRANSPORTATION

Description	Amount
Withhold 1½ Months of New Jersey Transit Subsidy	(32,700)
In order to makeup this difference NJT would need to implement a combination of	
additional managerial efficiencies, spend down of any operating/cash reserves/fund	
balance, service reductions, and a fare increase/elimination of ticket discounts.	
Title Consolidation Plan - Delay Promotions	(798)
This represents additional savings generated from delaying the title consolidation plan	
to the start of FY 2011.	
Driver and Road Test Scoring System - Offset by Federal Funds	(400)
Federal grant revision allowing for a higher threshold of costs pertaining to the MVC	
driver testing program to be offset by federal dollars.	
MVC Equipment Maintenance Reduction	(245)
Savings achieved through a delay in rolling out vehicle inspection equipment for the	
Enhanced Inspection and Maintenance Program.	
Commercial Vehicle Enforcement Fund Surplus	(8,000)
A surplus can be lapsed.	
ARRA - Contract Savings For Operating	(2,000)
NJT has reallocated \$8 million in federal ARRA funding to the FY 2010 operating	
budget. The funding became available due to lower-than-expected project costs.	
Force Account Work	(1,955)
The Department will increase its time sheet charges to the TTF in order to meet the	
\$1.955 million assessment.	
MVC Imaging - Utilize Division of Revenue Hosting Services	(669)
This savings is attributable to MVC utilizing an existing DOR FileNet software licensing	
agreement in lieu of purchasing its own licensing agreement.	
Motor Vehicle Agency Hiring Freeze	(607)
Attrition at motor vehicle agencies will allow for a lapse.	
Enhanced Digital Drivers License Contract Reduction	(600)
A lower cost is attainable through the negotiations process with respect to the	
Enhanced Digital Drivers License contract. This would allow MVC to come in under	
the amount originally budgeted for this initiative, allowing for a lapse.	
Motor Vehicle Commission Savings	(300)
MVC will identify internal savings to accommodate this lapse.	
MVC Materials and Supplies Reduction	(296)
Surplus will be available in materials and supplies accounts and the surplus can be	

lapsed.

TREASURY

Description	Amount
Retail Margin Fund (REALLY IN BPU, A RELATED ENTITY)	(128,000)
The Retail Margin Fund was created as a dedicated fund for the purpose of providing	
grants to encourage alternative energy sources, including combined heat and power,	
among the State's largest industrial and commercial firms. At this point, BPU has not	
initiated any spending from this fund.	
Business Employment Incentive Program – (REALLY IN EDA, A RELATED ENTITY)	(25,000)
EDA anticipates processing only \$175 million in applications allowing for a lapse of \$25	
million from the appropriated amount.	
InvestNJ – Salary subsidies program (REALLY IN EDA, A RELATED ENTITY)	(25,000)
Invest NJ was a program initiated by the previous administration and was intended to	
provide businesses up to \$3,000 in subsidies for jobs created in 2010. The program	
has not been ineffective in creating jobs and will be discontinued. Funds that would	
otherwise be awarded as grants will not be expended.	
Taxation Settlement Revenue	(20,000)
This represents extra revenue that will result from accelerating the dispute resolution	
process related to taxation settlements.	
Public Records Preservation - PARIS Grants	(14,000)
Public Records Preservation Fees are paid when documents, such as real estate deeds,	
are filed. The fees are set in statute, and are usually charged on a per-page basis	
depending upon the type of document filed. Up to 40% of the revenue is paid over to	
the Division of Archives and Records Management to support a grant program for	
local governments to improve public records preservation (PARIS grants). This lapse	
would mean that no fiscal year 2010 PARIS grants will be offered.	
Life Safety Capital Improvements Surplus	(12,510)
Excess funds were generated through the cancellation of encumbrances associated	
with life safety capital improvement projects.	
InvestNJ (REALLY IN EDA, A RELATED ENTITY) Capital Subsidies	(32,900)
Invest NJ was a program initiated by the previous administration and was intended to	
provide businesses up to \$3,000 in subsidies for jobs created in 2010. The program	
has not been ineffective in creating jobs and will be discontinued. Funds that would	
otherwise be awarded as grants will not be expended.	
SJPC Property Tax Reserve Fund - Camden PILOT	(8,000)

The PILOT agreement required Camden to make payments upon receipt of funds from	
the State unless their revenues exceed all other costs. Since Camden has not done	
this since 1988, the remaining balance will be lapse.	
Property Assessment Management System (PAMS)	(4,700)
The system was supposed to be implemented in the 4th calendar quarter of 2007 and	
has yet to be enacted. Funding can be lapsed while the program is reconsidered.	
Science and Technology Grants - Eliminate Balance of Funding	(3,042)
This reduction would eliminate the remaining funding for Science and Technology	
Grants.	
Lapse of Independent College and University Operating Aid	(1,100)
This 6.3% reduction of independent colleges and universities grants-in-aid	
appropriations is proportional to proposed reductions for public (2- and 4-year)	
colleges and universities.	
Eliminate Public Defender's Use of Clerical Employment Services	(909)
The State will no longer allow the Office of the Public Defender to use temporary	
employees and will instead transfer excess clerical employees into the Department to	
reduce overall State employee costs.	
Commission on Science and Technology - University Intellectual Property Grants	(397)
The Commission has not awarded grants to this program since FY 2007, has not	
actively marketed it during the past year, and has earmarked it for termination in FY	
2011.	
Marine Sciences Consortium - Uncommitted Balance	(350)
The New Jersey Marine Sciences Consortium (NJMSC) will be able to demonstrate the	
ability to compete for federal funds without requiring matching State grant dollars.
