General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. It contains a list of construction permit applications recently filed with or acted upon by DEP. Interested persons will thus be able to determine the status of applications dealing with Coastal Area Facility Review Act (CAFRA) permits, Coastal Tidal Wetlands permits, Federal Consistency Activity permits, Freshwater Wetlands, Individual permits, Freshwater Wetlands, Statewide General permits, Open Water Fill permits, Stream Encroachment (SE) permits, Waterfront Development (WD) permits, and Treatment Work Approvals (TWA) permits. In addition, the circular provides a calendar of Events of Interest and a Schedule of Public Hearings. The public hearings, however, are not official notices. Environmental Impact Statements acted upon during the period are also shown. Any additional information concerning the permits may be obtained by contacting the appropriate person listed on the back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.
