SUBCHAPTER 2. DEFINITIONS

6A:9-2.1 Definitions

The following words and terms when used in this chapter shall have the following meanings unless the context clearly indicates otherwise:

"Accreditation" means an institution that has a professional education unit and has completed successfully a review process by a national professional organization recognized by the Council on Higher Education Accreditation and approved by the Commissioner. The institution must meet State, professional and institutional standards as determined by a review of its individual programs and overall capacity to prepare education professionals. This review is substantiated through a site visit to the institution by a team of education professionals trained to assess educator preparation programs.
