# New Jersey State Industrial Safety Committee (NJSISC)

In accordance with N.J.S.A. 34:6A-15, the New Jersey State Industrial Safety Committee is established within the New Jersey Department of Labor and Workforce Development. The Committee membership is appointed by the Commissioner of Labor and Workforce Development and is comprised of persons who have taken a prominent part in the field of accident prevention, or are responsible for

accident prevention matters in the organization in which they are employed. The membership is a cross section of the various geographical areas of the State and various businesses and public sectors within the State.
