LaGuardia

Stewart International

Atlantic City International

Teterboro &

regional satellite airport summaries

Aviation Department - Traffic Statistics

Jojo Quayson

Juan Clar

Daniel Gafurson

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized."Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

The region's YTD September passenger traffic grew 3.1%. Benefiting from a quiet hurricane season and relatively stronger economy, growth was higher than both our forecast [2.3%] and the nation's 2.6% rate. Following a first-quarter environment distorted by weather, we have seen seat capacity increase 3.3% and have enjoyed a record-setting summer that spilled over into September, putting us on track to break the all-time record of 113.6 million passengers set last year. International sector continues to drive the region's growth with YTD passenger gains of 6.1%. YTD domestic traffic grew only 1.4%. The region's air cargo outlook is finally showing signs of improvement.. YTD cargo is up 0.6% and we are anticipating that year-end growth will reach 1%.
