SUBCHAPTER 3. WARRANTY COVERAGE AND STANDARDS

5:25-3.1 Warranty applicability

(a) The warranty specified in this section shall be provided by any and all new home builders for all new homes for which title is first transferred from builder to owner, or for which possession or occupancy is first given by builder to owner, on or after July 1, 1979.

(b) A new home built for an owner shall be considered given for occupancy if the builder shall obtain and give over to the owner a certificate of occupancy issued by a local enforcing agency pursuant to the New Jersey Uniform Construction Code. A new home sold to an owner shall be considered given for occupancy when the owner is authorized to occupy pursuant to any agreement between the builder and the owner.

(c) The following rules concern applicability to condominiums and cooperatives:

1. In addition to the individual dwelling units, the common elements serving condominiums or cooperatives are covered by this warranty, subject to the exclusions as defined under N.J.A.C. 5:25-3.4. The warranty date on common elements shall be the date on which that common element is first put to use. In the event one unit in a single condominium or cooperative structure is sold all remaining units in that structure shall be warranted whether sold or used for rental purposes.

2. Where the warranty date on common elements has expired, a unit owner who has taken first occupancy after that period may file a notice of defect on a common element directly with the builder and when it is established that such defect could not have been determined prior to occupying the unit, the defect shall be made a part of the unit owner's claim.

(d) Any condominium or cooperative building containing three or more dwelling units for which more than 10 percent of the unit deeds or leases have been transferred or signed, as the case may be, or where more than 10 percent of the

units have been given for occupancy prior to July 1, 1979, shall not be subject to this Act. In the case of a project consisting of more than one building, individual buildings within such project shall not be subject to this Act by the same criteria.

(e) The warranty specified in this section shall be applicable to new owner-occupied two-family homes in the same manner and to the same extent as to one-family homes.

(f) In any case of mixed residential and nonresidential use, the warranty specified in this section shall be applicable only to that portion of a new home that is used exclusively for residential purposes, unless it can be shown that a defect in the nonresidential portion is or will be the proximate cause of a defect in the residential portion of the new home.

(g) Where an owner has contracted with someone other than the builder for either the mechanical, electrical, foundation or framing, other than piling foundation, the builder shall not be required to provide a warranty. Except where an owner has contracted with some person other than the builder for construction of the foundation and/or framing a warranty may be issued, at the builder's option, that shall contain exclusions for work done by anyone other than the builder, the builder's employees, agents or subcontractors.

(h) The warranty administrator or State Plan administrator shall require, prior to the issuance of a warranty for any model home, for any new home that has been completed but vacant for a period of at least 12 months, or for any new home for which it has been made a condition of enrollment under either an approved private plan or the State Plan, the inspection of the new home by the warranty plan prior to occupancy and the repair, replacement or correction, by the builder, of any materials or workmanship exhibiting defects and replacement of any appliances, fixtures or equipment not covered by a manufacturer's warranty for at least one year from the warranty date.

1. In the event that a builder disputes a determination by the warranty administrator or State Plan administrator that a defect exists, the builder shall have the option of submitting the certification of a licensed professional engineer that structural and/or mechanical components of the home meet industry standards and are adequate for the term of the warranty coverage.

2. In the event that there is not sufficient time to correct all defects prior of the transfer of the new home to an owner, the builder shall, with the agreement of the owner, and in lieu of repair, replacement or correction of defects, or replacement of appliances, fixtures or equipment, as provided in (h) above, have the option of posting, with an attorney at law or banking institution licensed in the State of New Jersey, an escrow in an amount not to exceed five percent of the selling price or limit of liability, the escrow to be released only upon a determination by the warranty administrator or State Plan administrator that the required work or replacement has

been satisfactorily done, or to be forfeited to the approved private warranty plan or State Plan in the event that the work is not done in a satisfactory manner, or the required replacement is not made, within such time as the agreement establishing the escrow may allow.

(i) Builders may negotiate monetary settlements, as noted in N.J.A.C. 5:25-3.3(b), in the form of price concessions, which settlements shall survive closing and shall be incorporated into the terms of the warranty coverage available on the home.

1. Any defect or deficiency for which an owner accepts a monetary settlement shall be excluded from warranty coverage.

2. It shall be the responsibility of any builder entering into a monetary settlement in lieu of correcting a defect or deficiency to provide the approved private plan or the State Plan with a copy of an agreement, signed by both the builder and the owner, specifying the amount of the price concession or other monetary settlement and the defects or deficiencies for which the settlement is being made. This document shall be provided at or before the time that the new home is enrolled in the warranty plan.

Builder failure to complete construction of such portions may constitute the basis for denial, supervision, or revocation of registration pursuant to N.J.A.C. 5:25-2.5. Any item for the completion of which funds are being held in escrow shall be deemed to be an incompleteness rather than a defect. If such item exhibits a

defect after the release of the escrowed funds, then it shall be included in the warranty. In all cases, the warranty period shall be deemed to have commenced on the warranty date.

v. Failure to take timely action in emergent cases to minimize any loss or damage.

5. Any defect in, or caused by, materials or work supplied by anyone other than the builder, or his employees, agents or subcontractors. 5:25-3.5 Performance standards

(a) The following performance standards set minimum standards which prescribe the level for quality of materials and performances in workmanship for the construction of new homes.

1. To the extent that detailed minimum performance standards for construction have not been enumerated in these Performance Standards, builders shall construct homes in accordance with good industry practice which assures quality of materials and workmanship. Likewise, the validity of any home buyer's claims for defects for which a standard has not been enumerated here shall be determined on the basis of good industry practice which assures quality of materials and workmanship, and any conciliation or arbitration of such claims shall be conducted accordingly.

2. The Performance Standards list specific items with each separate area of coverage.

(b) Rules concerning site work are as follows:

1. Grading:

i. Possible Deficiency: Settling of ground around foundation, utility trenches or other areas on the property where excavation and back fill have taken place that affect drainage away from the house.

(1) Performance standard: Settling of ground around foundation walls, utility trenches or other filled areas: which exceeds a maximum of six inches from finished grade established by the Builder/Warrantor.

(2) Builder/Warrantor responsibility: If Builder/Warrantor has provided final grading, Builder shall fill settled areas affecting proper drainage, one time only, during the first year Warranty period. Builder/Warrantor is then responsible for removal and replacement of shrubs and other landscaping installed by the Builder/Warrantor affected by placement of the fill.

2. Drainage:

i. Possible Deficiency: Improper grades and swales which cause standing water and affects the drainage in the immediate area surrounding the home.

(1) Performance standard: Necessary grades and swales shall be established to provide proper drainage away from the house. Site drainage under this warranty is limited to those immediate grades and swales surrounding the home. Standing or ponding water within the immediate surrounding area of the home shall not remain for a period longer than 24 hours after a rain. Where swales are draining from adjoining properties or where a sump pump discharges, an extended period of 48 hours is to be allowed for the water to dissipate. The possibility of standing water after an unusually heavy rainfall should be anticipated and is not to be considered a deficiency. No grading determination is to be made while there is frost or snow or when the ground is saturated.

(3) **Owner responsibility:** Continued operation of drain line is homeowner maintenance item.

vi. **Possible Deficiency:** Improper mechanical operation of evaporative cooling system.

(1) **Performance standard:** Equipment that does not function properly at temperature standard set is a deficiency.

(2) **Builder/Warrantor responsibility:** The Builder/Warrantor shall correct and adjust so that blower and water system operate as designed during the first year of the warranty.

vii. **Possible Deficiency:** Ductwork noisy.

(1) **Performance standard:** Noise in ductwork may occur for a brief period when the heating or cooling begins to function and is not considered a deficiency. Continued noise in the ductwork during its normal operation is a deficiency.

(2) **Builder/Warrantor responsibility:** The Builder/Warrantor shall take necessary steps to eliminate noise in the ductwork.

viii. **Possible Deficiency:** Ductwork separates, becomes unattached.

(1) **Performance standard:** Ductwork that is not in tact or securely fastened is a deficiency.

(2) **Builder/Warrantor responsibility:** The Builder/Warrantor shall reattach and resecure all separated or unattached ductwork.

(f) Rules concerning electrical systems are as follows:

1. **Electrical conductors:**

i. **Possible Deficiency:** Failure of wiring to carry its designed circuit load to switches and receptacles.

(1) **Performance standard:** Wiring that is not capable of carrying the designed load, for normal residential use to switches and receptacles and equipment is a deficiency.

(2) **Builder/Warrantor responsibility:** The Builder/Warrantor shall check wiring and replace wiring if it fails to carry the design load.

2. **Switches and receptacles:**

i. **Possible Deficiency:** Fuses blow, or circuit breakers kick out.

(1) **Performance standard:** Fuses and circuit breakers which deactivate under normal usage, when reset or replaced is a deficiency during the first year of the warranty.

(2) **Builder/Warrantor responsibility:** The Builder/Warrantor shall check wiring and replace wiring or

breaker if it does not perform adequately or is defective.

ii. **Possible Deficiency:** Drafts from electrical outlets.

(1) **Performance standard:** The electrical junction box on exterior walls may produce a slight air flow whereby the cold air can be drawn through the outlet into a room. This problem is normal in new home construction.

(2) **Builder/Warrantor responsibility:** None.

iii. **Possible Deficiency:** Malfunction of electrical outlets, switches or fixtures.

(1) **Performance standard:** All switches, fixtures and outlets which do not operate as intended are considered deficiencies only during the first year of the warranty.

(2) **Builder/Warrantor responsibility:** The Builder/Warrantor shall repair or replace defective switches, fixtures and outlets.

3. **Service and distribution:**

i. **Possible Deficiency:** Ground fault interruptor trips frequently.

(1) **Performance standard:** Ground fault interruptors are sensitive safety devices installed into the electrical system to provide protection against electrical shock. These devices are sensitive and can be tripped very easily. Ground fault interruptors are required on outlets located in the kitchen, bath and powder rooms along with all exterior outlets. Ground fault outlets which do not operate as intended are considered deficiencies.

(2) **Builder/Warrantor responsibility:** The Builder/Warrantor shall replace the device if defective.

The structural and mechanical systems standards to be used in determining the adequacy of design, materials and workmanship for the structural components of the home and for the mechanical systems of the home including plumbing, electrical and heating and cooling systems shall be the provisions of the State Uniform Construction Code in effect on the date that the construction permit under which the new home was constructed was issued. The standards of adequacy for plumbing systems shall be as specified in N.J.A.C. 5:25-3.5(k)2; for Heating and Air Conditioning systems shall be specified in N.J.A.C. 5:25-3.5(k)4 and for the Electrical system capability shall be as specified in N.J.A.C. 5:25-3.5(l).

5:25-3.7 Major structural defects

(a) The load bearing portion of a home is defined as the framing members and structural elements that transmit both dead and live loads of the home to the supporting ground. Examples of load bearing elements are: roof rafters and trusses; ceiling and floor joists; bearing partitions, supporting beams, columns, basement and foundation walls, and footings.

(b) A structural failure shall not be considered a defect until it has been established by the Construction Code Element, under the provisions of the Uniform Construction Code in effect on the date that the Construction Permit under which the new home was constructed was issued, as an actual or pending structural failure of some part of the load bearing system as defined in (a) above. To be eligible, such defect does not have to render the home uninhabitable; however, it must be of such a serious nature that it vitally affects the use of the home for residential purposes and the Construction Official shall issue a notice to that effect under N.J.A.C. 5:23-2.32 (Unsafe Structures).

(c) The following are excluded as major structural defects:

1. Changes by the owner to the established grade lines affecting basement and foundation walls;
2. Movement caused by flood or earthquake;
3. Actual or resultant damage caused by lightning, tornado, unnatural high winds or hurricanes;
4. Damage caused by additions or alterations to the home;
5. Improper loading over and above the design criteria for which that portion of the house was intended;
6. Resultant structural damage due to fire;
7. Changes in the water level which is caused by new development in the immediate area or can be directly traced to an act of nature;
8. Water seepage in basement or crawlspace after the first year of coverage.

(d) In the case where a major structural defect exists and the home is rendered uninhabitable, the Builder/Warrantor shall be responsible to pay for reasonable shelter expenses of the Owner until the home is made habitable should the condition occur during the first two years of the warranty. The State Plan or private plan will assume such responsibility during the third through tenth year coverage.

5:25-3.8 Limit on liability

The liability of a builder under the new home warranty shall be limited to the purchase price of the home in the first good faith sale thereof or the fair market value of the home on its completion date if there is no good faith sale. 5:25-3.9 Warranty minimum

It is the intent of this subchapter to specify the scope, applicability and standards pertaining to the minimum war-

5:25-3.10 Remedy exclusive

Pursuant to New Home Warranty and Builders' Registration Act (P.L. 1977, c.467) the filing of a claim against the warranty specified by this subchapter shall constitute the election of a remedy and shall bar the owner from all other remedies. Nothing herein shall be deemed to limit the owner's right to elect other remedies except that such election shall bar the owner from pursuing the same claim under the warranty specified in this subchapter and in accordance with the procedures related hereto. For the purpose of this section, election of other remedies shall mean the filing of a complaint, counter-claim, cross-claim or third party complaint in any court that alleges matters covered by the warranty in particular or unworkmanlike construction in general.

Case Notes

When homeowners filed two claims against their builder under the New Jersey New Home Warranty and Builders' Registration Act, N.J.S.A. 46:3B-1 through 46:3B-20, they were unaware of many material facts related to damage to a foundation wall. Thus, their election to proceed under the Act was not knowing and voluntary, and the Act's election of remedies provisions, N.J.S.A. 46:3B-9 and N.J.A.C. 5:25-3.10, did not preclude their subsequent lawsuit against the builder. Ivashenko v. Katelyn Court Co., 401 N.J. Super. 99, 949 A.2d 279, 2008 N.J. Super. LEXIS 119 (App.Div. 2008).

Homeowners' initiation of binding arbitration procedure under New Home Warranty And Builders' Registration Act was election of remedy barring them from seeking additional relief against builder in courts; however, election of remedies procedures did not preclude homeowners' claims against inspector for damages arising from his allegedly negligent failure to inspect. Konieczny v. Micciche, 305 N.J. Super. 375, 702 A.2d 831 (A.D. 1997).

Private homeowner warranty insurance provided for conciliation, rather than arbitration. *Nolan v. Homes By Brinkerhoff, Inc.*, 230 N.J.Super. 306, 553 A.2d 392 (L.1988).

SUBCHAPTER 4. PRIVATE ALTERNATE NEW HOME WARRANTY SECURITY PLANS

5:25-4.1 Private plans permitted

Any person wishing to constitute and establish a private plan to provide for insurance coverage, the payment of claims, dispute settlement, and the like, may apply to the Department for approval as provided for in this subchapter. Participation by a builder in such private plans shall fulfill the builder's obligation to participate in a warranty program pursuant to this chapter.

5:25-4.2 Requirements

(a) In order to receive or maintain an approval a private plan shall conform to all the requirements specified in this section.

(b) The private plan shall provide financial security adequate to cover the total amount of claims that may be reasonably assessed against participating builders and adequate to cover the costs of operation of the plan.

(c) No private plan shall require any payment by an owner at any time subsequent to the warranty date as a condition of maintaining in effect the warranty prescribed by subchapter 3 of this chapter.

(d) A private plan may provide that either the builder or the warranty guarantor are primarily responsible for satisfying claims against the warranty at any given point during the life of the warranty, but such responsibility shall be clearly disclosed to the owner on or before the warranty date and shall not be modified or changed after the warranty term begins to run.

(e) A private plan shall provide a complaint, claims and payment procedure which:

1. Provides for an attempt at informal settlement of any claim arising out of the warranty between the builder and the owner and requires that any owner desiring to make a

claim provide written notice of the complaint to the builder.

2. Provides for conciliation and/or arbitration of any warranty claim dispute by an independent third party selected and appointed in a manner approved by the Department and disclosed to the owner on or before the warranty date.

3. Provides the owner with an opportunity to accept or reject a conciliation decision in satisfaction of the claim and notice of the opportunity to appeal that decision to a court of competent jurisdiction.

4. Provides fixed periods of time for action by either party pursuant to the arbitration or conciliation decision.

(f) Private plans shall provide for written notice to the owner concerning warranty coverage and the claims and dispute settlement procedures utilized, expressing in plain language the scope, applicability and standards for the warranty and the forms, procedures and processes involved in making a claim under the warranty. The form and content of the written notice shall be approved by the Department.

(g) Private plans shall maintain such loss and payment records as the Department may require and shall provide such reports as the Department may require including, but not limited to the following:

1. Once every 12 months a report showing the number of builders participating, the number of homes covered in each of these categories (first year, second year, third through tenth years), the total number and total amount of claims paid during the reporting period and the total amount of funds available to pay such claims.

2. Once every three months a report showing the names, addresses and builder registration numbers of any new builders admitted to coverage.

3. Within ten days, all private plans shall notify the Department in all cases where a builder's enrollment has been terminated and shall provide sufficient information on the cause of termination as it relates to N.J.A.C. 5:25-2.5 "Denial, Suspension and Revocation of Registration."

(h) A private plan shall disclose to the Department in writing each occurrence and the circumstances surrounding the decision of the program to refuse to honor a claim awarded by an arbitrator not later than the date upon which an appeal to a court of competent jurisdiction is filed.

(i) Rules concerning notification of non-payment of warranty premium by enrolled builders are:

1. The private plan shall document for the Department in writing all procedures taken to collect warranty premiums from enrolled builders negligent in such payment. Such documentation shall include the following steps:

i. The private plan must notify the enrolled builder immediately upon the discovery of any failure to pay such premium and shall give such builder not more than ten days in which to pay. The private plan shall notify the Department of the failure of any builder to remit such a premium within the ten-day period.

ii. The private plan shall also investigate all homes constructed by the enrolled builder to determine all instances of non-payment of warranty premiums. The private plan shall report its findings to the Department within ten days of the completion of its investigation.

(j) The private plan shall have a warranty guarantor which shall conform to all of the following requirements:

1. The warranty guarantor shall either possess a Certificate of Authority issued by the New Jersey Department of Insurance to write the kind of insurance specified in N.J.S.A. 17:17-1.1(g) or be designated by the Department of Insurance as an eligible surplus lines carrier under N.J.S.A. 17:22-6.45.

2. The warranty guarantor shall furnish to the Department satisfactory evidence that the form of any insurance policy to be used to provide coverage for the private plan has been approved by the New Jersey Department of Insurance with respect to its compliance with the provisions of State insurance law.

3. The warranty guarantor shall have and shall maintain an A.M. Best and Company, Inc. rating of "A" or "A+" and shall otherwise be and remain in a financial condition adequate, considering all circumstances including reinsurance arrangements, to cover the risk assumed under the private plan.

4. The terms and conditions of any insurance agreement insuring the private plan shall be subject to approval by the Department as providing the coverage with respect to the warranties required to be provided under said plan. Such terms and conditions shall not be modified or altered without the prior consent of the Department.

5. The warranty guarantor shall agree to provide to the Department such information concerning the settlement of claims and its financial condition as may reasonably be required to demonstrate its initial qualifications to act as a warranty guarantor, the performance of its obligations under the terms of its insurance agreement and its continued satisfaction of the requirements as to financial condition expressed herein.

iv. The decision of the arbitrator shall fix responsibility and describe the nature and extent of the defect. The decision shall include a summary of testimony and evidence, a statement of factual findings, such technical analysis as may be necessary to support the decision and a statement of the rationale for the decision.

v. In all cases where an arbitration decision has been rendered, there shall be no recourse to subsequent arbitration. In the event the decision of the arbitrator requires clarification, either the claimant or the Division may request the arbitrator's jurisdiction be reinstated for the sole purpose of clarification of the award.

vi. A claimant who does not agree to binding arbitration may subsequently request an administrative hearing to review the decision of the arbitrator on the grounds that evidence was improperly excluded by the arbitrator or that the decision was unreasonable. Any such hearing request shall include the specific factual and/or legal basis for any claim of improper exclusion of evidence or unreasonableness of the decision, as the case may be.

vii. The Division shall, upon a finding by the Director that there exists a contested case, provide an administrative hearing in accordance with the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq. and the Uniform Administrative Procedure Rules, N.J.A.C. 1:1, when a party who applied for arbitration but did not agree that it would be binding submits a hearing request including all required information within 15 days of the date of service of the arbitrator's decision. The record of the hearing shall be limited to the record of the arbitration proceeding, except to the extent it is determined that the arbitrator incorrectly excluded any evidence that should have been admitted. The arbitrator may not be called as a witness by either party. The standard of review shall be the reasonableness of the arbitrator's decision.

4. Notwithstanding the provisions of (g)1 above, if the builder was notified of a major structural defect during the first two years of warranty coverage and is currently registered, the Division shall process a claim for remediation of such defect in accordance with subsection (c) above.

Case Notes

Bureau of Homeowner Protection's regulations, requiring that a claimant under the Home Warranty Program submit to the Bureau two or more bona fide estimates acceptable to the Division of Codes and Standards of the Department of Community Affairs for the work intended to be covered, pursuant to N.J.A.C. 5:25-5.5(e)2, as a condition precedent to certification for payment from the Home Warranty Security Fund, are neither arbitrary, nor capricious, nor unreasonable. *Aqua Beach Condo. Ass'n v. Department of Community Affairs*, 186 N.J. 5, 890 A.2d 922, 2006 N.J. LEXIS 9 (2006).

Final decision of the Commissioner of the Department of Community Affairs barring a condominium association's claims for reimbursement from the Home Warranty Security Fund for repairs under N.J.S.A. 46:3B-1 to 46:3B-20 was upheld on appeal since the association never followed up with the two required estimates it had to submit pursuant to N.J.A.C. 5:25-5.5(e)1 despite the Bureau of Homeowner Protection's repeated requests. In addition, there was no legally competent evidence to support the association's equitable estoppel claim that a Bureau engineer orally authorized the emergency repairs made by the association. *Aqua Beach Condo. Ass'n v. Department of Community Affairs*, 186 N.J. 5, 890 A.2d 922, 2006 N.J. LEXIS 9 (2006).

Even if regulations required homeowners filing claim under New Home Warranty and Builders' Registration Act to submit two bid estimates by design professional for design work needed on structural repairs to their home, and homeowners were provided adequate notice of this requirement, homeowner's failure to provide those estimates did not justify the Bureau of Homeowner Protection's summary rejection of their claim; claims supervisor informed homeowners they would be allowed forty-five days to submit additional bids, but rejected homeowners' claim for unrelated reasons only nineteen days later. *Lakhani v.
