OVER-THE-COUNTER PERMITS

I. STREAM ENCROACHMENT (609) - 292 - 4869

DEP now has a one-day processing service for certain minor stream encroachment permits. This "over-the-counter" service is limited to minor projects which do not adversely change the water carrying capacity of the floodway, do not increase erosion or sedimentation in the stream, and do not require substantial channel modification or relocation. For further information contact the Bureau of Flood Plain Management, P.O. Box CN029, Trenton, NJ 08625.

II. RIPARIAN (609) - 292 - 2613

DEP has a one-day processing service for minor Riparian projects. This over-the-counter service applies to water-front construction activity in man-made lagoons and minor maintenance and/or repair or replacement of lawful existing structures. For further information contact Riparian Lands Management, P.O. Box 1889, Trenton, NJ 08625.

III. SEWER EXTENSIONS (609) - 292 - 3846

DEP has a one-day processing service for "minor" sewer extension projects. Eligible projects must meet certain criteria, such as, length of 1000 linear feet or less, cost of \$25,000 or less, sewage flow per day of 12,000 gallons or less. No projects with pump stations, force mains, siphons, gallonage transfers or holding tanks will be processed over-the-counter. Projects can not be located in areas under sewer ban, administrative orders, or litigation.

Projects must be in-house by 9:30 a.m., and all administrative documents must be in proper order. Pre-application conferences are strongly recommended. For further information contact Division of Water Resources, P.O. Box CN029, Trenton, NJ 08625.

MASTER PERMIT INFORMATION APPLICATION

DEP has developed a Master Permit Information Application which, upon completion, will indicate all the DEP permits required for the project. Forms may be obtained by contacting the Office of Business Advocacy (See inside cover for details).

PRESS RELEASE

STANDARD APPLICATION FORM (CP #1)

Effective July 1, 1979

The Department of Environmental Protection has been implementing a new "standard application form" for permits on construction related projects. The new application form replaces more than twenty different forms previously used, and should enable DEP to provide the public with more efficient and timely service.

The Standard Application Form has been designed, in the spirit of "Executive Order #57," through the efforts of the "Governor's Cabinet Committee on Permit Coordination" to simplify permit application forms and processing procedures. Eventually DEP plans to use one application form and one permit form for all of its Divisions.

In order to assist applicants through the permit maze, DEP began implementing the CP #1 application on July 1 for the Division of Water Resources and the Division of Coastal Resources.

The CP #1 form is available in a booklet which includes for specific permits the following information: legal citations, contact phone numbers, lists of requirements for "complete applications", endorsements, and general background information on permitting.

Applicants will use this one form for the general information of their projects, but some highly technical permits will require technical addenda forms.

For further information call:
