STATE OF NEW JERSEY
HOUSE OF ASSEMBLY

TUESDAY, January 10, 1950.

Organization proceedings of the One Hundred and Seventy-fourth Session of the General Assembly of New Jersey, the third session under the Constitution adopted by the people in 1947, met at noon, Tuesday, January 10, 1950.

The Clerk of the House of Assembly, Philip C. Wadsworth, called the House to order and read the following call:

“This being the second Tuesday of January, the time fixed for the beginning of the legislative year, and by virtue of the authority vested in me as Clerk of one Hundred and Seventy-third Session, the General Assembly of the State of New Jersey is now called to order to effect the organization for the conduct of its business for the One Hundred and Seventy-fourth Session.”

The Clerk introduced the Rev. Roger T. Burton, pastor of the First Congregational Christian Church of Irvington, who offered the prayer.

The national anthem was sung by Miss Lois Ochner, accompanied by Miss Shirley Reisman.

Upon calling the roll, the following members appeared and answered to their names:

Messrs. Artaserse, Brixie, Casciano, Cavinato, Curtis, Dwyer, Field, Fowler, Fraser, Freeman, Friedland, Gray, Haines, C. W., Haines, M. twenty-ninth day of December, A. D. 1949.

LLOYD B. MARSH,
Secretary of State.

Mr. Fraser offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Honorable Peter P. Artaserse, who is a counsellor-at-law and a member-elect of this House, administer the oath of office to the Honorable Hugh L. Mehorter, a member-elect, by whom the oath of office shall be administered to the members-elect.

Mr. Fraser offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Honorable Hugh L. Mehorter, a member of this House, administer the oath of office to the Speaker and other officers when they are elected.

Mr. Fraser offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the House do now proceed with the election of a Speaker for the One Hundred and Seventy-fourth General Assembly of the State of New Jersey.

The Clerk announced that the nominations for Speaker were now in order. He recognized Assemblyman Elwood Russell, of Essex County, who nominated Mr. Percy A. Miller, Jr., of Essex County, which nomination was seconded by Messrs. W. H. Jones, Bergen County; Thomas J. Hillery, of Morris County; Hugh L. Mehorter, of Gloucester County, and T. James Tumulty, of Hudson County.

Mr. Fraser moved the nominations be closed.

Which motion was adopted.

On calling the roll, Mr. Miller was elected Speaker of the House by the following vote:

Messrs. Artaserse, Brixie, Casciano, Cavinato, Curtis, Dwyer, Field, Fowler, Fraser, Freeman, Friedland, Gray, Haines, C. W., Haines, M. D., Hauser, Herrmann, Hillery, Hoff, Jamieson, Jones, Joya, Krawczyk, Kurtz, Little, Litvany, Mackey, Marggraff, Mehorter, Meloni, Mills, Musto, Neutze, Pike, Pilger, Reilly, J. E., Riley, C. H., Russell, Saiber, Salsburg, Savage, Schaeffer, Schulter, Shannon, Shepard, Shershin, Simmill, Smith, N. C., Snediker, Stewart, Thomas, Thompson, Frank, Thompson, M. H., Tumulty, Wegner, Widnall, Wilson, Zangara—57.

The Clerk declared Honorable Percy A. Miller, Jr., elected Speaker of the One Hundred and Seventy-fourth Session of the General Assembly and requested Messrs. Russell, Nathaniel C. Smith, Cavinato and Simmill to escort the Speaker to the bar, where he took the oath of office. They then escorted him to the rostrum.

Mr. Mehorter presented Mr. Miller with a gavel.

Mr. Miller upon taking the chair addressed the House as follows:

Today marks the opening of the 174th Session of the Legislature of the State of New Jersey.

As members of the General Assembly you have selected me as your Speaker for this session. I am completely aware of the honor you have bestowed upon me and for this honor I am deeply grateful. I am fully conscious of the responsibilities which will be mine. It is, I assure you, with profound humility that I approach the task which lies ahead.

All of us, I am sure, are aware of the fact that this session of the Legislature is unique in the history of the State of New Jersey. Until this year, 1950, no Governor in this State has ever succeeded himself.

It is, therefore, especially significant to this Legislature that Governor Alfred E. Driscoll will succeed himself as the Chief Executive of our State and next Tuesday, January 17, will be inaugurated for a four-year term instead of the traditional three years.

We can be sure he will at that time deliver to us and to the people of the State of New Jersey an address which will contain the message he would be delivering today if he were with us. At this moment none of us can be certain about the pattern he will establish as an administrative policy or program. From the record of the last three years, however, we may be certain that his second administration will be one of accomplishment entirely in keeping with the magnificent achievements of his first term.

It is apparent to all of us that in these days there is a growing concern in our State and in our nation about what the future may bring. We can, and should, soberly ask ourselves and each other: "Where are we going? Where is western civilization going? Where is democracy, or more particularly the American way of life going?"

None of us have the answers to these questions, but we in this Legislature must accept the fact that we have a responsibility which compels us to make the decisions which will contribute to providing the answers.

We must accept the additional fact that no complete permanent formula will ever be devised which will adequately and satisfactorily meet all of the problems of government for all time.

Within the adult lives of most of us we have as a nation participated in two world conflicts. We continue to move from crisis to crisis in the conduct of not only our external affairs, but in the conduct of our internal affairs as well.

We cannot escape the conclusion that what we do here will result in an impact on the lives and the thinking of the more than 4,000,000 people in our State. To go further we must not delude ourselves into thinking that what we do here will pass unnoticed by many more millions of people in areas far beyond the borders of our State.

What our destination is may be obscure. How we are going to get there is a matter about which there is much divergent and confused thinking. This being so, we might well remember that in the early days of our nation a similar situation presented itself, and was not resolved until what is now known as the Bill of Rights was agreed to by the 13 original States.

If there is fundamental doctrine expressed or implied in the Bill of Rights, we find it in the last of these articles, the Tenth Amendment to our Federal Constitution, an amendment that consists of one single sentence. It says: "The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States, respectively, or to the people."

In our deliberations we should not forget our responsibilities nor the legislative area allotted to us in this doctrine. To do so we would be courting danger.

More importantly, however, we must never forget that last phrase "or to the people." To forget this we are promoting disaster.

The United States of America today is something more than the stronghold of democracy. It is democracy's last frontier. With all of our tremendous physical resources, our magnificently developed industrial might and our standard of living on a plane never before approached by any people in all the history of the human race, we know that our fate as well as that of every nation on the face of

the earth is delicately balanced on the edge of an abyss into which we could plunge to oblivion.

Let us, therefore, face our tomorrows firm in the resolve that under the leadership of Governor Driscoll and with a courage inspired by our belief in a just God, we here in New Jersey will dedicate ourselves in our allotted sphere to the preservation of a way of life which today we so proudly refer to as the American way.

The Speaker appointed Mr. Gerardo Del Tufo, Secretary to the Speaker.

Mr. Fraser offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the House do now proceed with the election of a Clerk of the One Hundred and Seventy-fourth General Assembly of the State of New Jersey.

The Speaker announced that nominations for Clerk were in order and recognized Mr. Robert H. Pike, of Bergen County, who nominated Mr. Philip C. Wadsworth, of Bergen County, which nomination was seconded by Messrs. Merrill H. Thompson, of Monmouth County; Peter B. Hoff, of Salem County, and Frank Thompson, Jr., of Mercer County.

Mr. Fraser moved that the nominations be closed.

Which motion was adopted.

The Speaker declared the nominations closed and Mr. Wadsworth was elected Clerk of the House of Assembly for 1950 by the following vote:

Messrs. Artaserse, Brixie, Casciano, Cavinato, Curtis, Dwyer, Field, Fowler, Fraser, Freeman, Friedland, Gray, Haines, C. W., Haines, M. D., Hauser, Herrmann, Hillery, Hoff, Jamieson, Jones, Joya, Krawczyk, Kurtz, Little, Litvany, Mackey, Marggraff, Mehorter, Meloni, Miller (Speaker), Mills, Musto, Pike, Pilger, Reilly, J. E., Riley, C. H., Russell, Saiber, Salsburg, Savage, Schaeffer, Schuler, Shannon, Shepard, Shershin, Simmill, Smith, N. C., Snediker, Stewart, Thomas, Thompson, Frank, Thompson, M. H., Tumulty, Wegner, Widnall, Wilson, Zangara—57.

The Speaker declared Mr. Wadsworth elected Clerk of the House.

The Clerk took the oath of office as administered by Mr. Mehorter.

Mr. Fraser offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Speaker appoint forthwith a committee of seven to wait upon the Governor and inform him that the House of General Assembly has organized by the election of the Honorable Percy A. Miller, of Essex County, as Speaker, and of Philip C. Wadsworth, of Bergen County, as Clerk of the One Hundred and Seventy-fourth General Assembly of New Jersey, and is now ready to proceed to business.

The Speaker appointed the following committee of seven to wait upon the Governor: Mrs. Lettie Savage, Messrs. W. H. Jones, Cyrus H. Loutrell, Merrill H. Thompson, Nathaniel Smith, Frank W. Shershin and T. James Tumulty.

A message was received from the Senate by the hands of its Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,

SENATE CHAMBER,

January 10, 1950. }

Mr. Speaker:

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following resolution:

Resolved, That the Secretary of the Senate be directed to inform the House of Assembly that the Senate has organized and elected the Honorable Samuel L. Bodine, of the County of Hunterdon, President, and Oliver F. Van Camp, of the County of Ocean, Secretary, and has proceeded to business.

OLIVER F. VAN CAMP,

Secretary of the Senate.

A message was received from the Senate by the hands of its Secretary as follows—and was read by the Clerk:

Driscoll as Governor of the State of New Jersey.

In which the concurrence of the House of Assembly is requested.

OLIVER F. VAN CAMP,
Secretary of the Senate.

The Senate message was then taken up, and

Mr. Fraser moved that the House concur in the Senate concurrent resolution.

Which motion was adopted.

The Speaker declared the Senate concurrent resolution concurred in.

A message was received from the Senate by the hands of its Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
SENATE CHAMBER,
January 10, 1950. }

Mr. Speaker:

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following concurrent resolution:

Be It Resolved by the Senate of the State of New Jersey (the House of Assembly concurring):

That the printer be directed to furnish to the State Library, as soon as printed, for the use of the Legislative

Department of said State Library and for exchange by said State Library with the State Libraries and Legislative Reference Libraries of other States, thirty copies each of all bills and joint and concurrent resolutions introduced in the Senate and House of Assembly, as well as printed committee substitutes; also twenty copies of each weekly installment of the Journal of the Senate and Minutes of the House of Assembly, and thirty copies of each official copy reprint of all bills and joint and concurrent resolutions.

In which the concurrence of the House of Assembly is requested.

OLIVER F. VAN CAMP,
Secretary of the Senate.

The Senate message was then taken up, and

Mr. Fraser moved that the House concur in the Senate concurrent resolution.

Which motion was adopted.

The Speaker declared the Senate concurrent resolution concurred in.

A message was received from the Senate by the hands of its Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,

January 10, 1950. }

Mr. Speaker:

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following concurrent resolution:

Be It Resolved by the Senate of the State of New Jersey (the House of Assembly concurring):

1. That the Legislative Index be purchased for the use of the members of the Senate and the House of Assembly, for such officers of the Senate and the House of Assembly, and for such other persons as the President of the Senate and the Speaker of the House of Assembly shall designate, one copy of each issue to be mailed to the local address of to each officer or other person designated to receive the same, and in addition thereto, one copy of each issue shall be delivered at the State House for each member of the Senate and House of Assembly and for each other person

designated to receive the same; that the publisher of the Legislative Index shall, from time to time, furnish such special proofs of the Legislative Index as may be ordered by the Chairman of the Committee on Incidental Expenses in either the Senate or the House of Assembly; that payment for the Legislative Index and special proofs shall be at the rate of twenty-five dollars (\$25.00) for each subscription for a period not to exceed ten (10) weeks, and two dollars (\$2.00) per copy furnished thereafter, bills for services received to be submitted at the end of each five weeks; and that statements of expenses for the Legislative Index and special proofs be referred to the Committee on Incidental Expenses of the Senate and House of Assembly, respectively, and when approved by said committee said approval shall be indicated by the signature of the Chairman of the Senate Committee on Incidental Expenses for an expense of the Senate and the Chairman of the House Committee on Incidental Expenses for an expense of the House of Assembly, together with the signature of the Secretary of the Senate and the Clerk of the House of Assembly, respectively, and said bills, when approved, shall be forwarded to the Department of the Treasury for payment.

2. This resolution shall take effect immediately.

In which the concurrence of the House of Assembly is requested.

OLIVER F. VAN CAMP,
Secretary of the Senate.

The Senate message was then taken up, and

Mr. Fraser moved that the House concur in the Senate concurrent resolution.

Which motion was adopted.

The Speaker declared the Senate concurrent resolution concurred in.

A message was received from the Senate by the hands of its Secretary as follows—and was read by the Clerk:

During which session the Governor addressed the members as follows:

SECOND INAUGURAL ADDRESS

Mr. President, Mr. Speaker, Members of the Legislature:

We have been given a unique opportunity to complete the tasks we have undertaken together during the past three momentous years. I propose that we proceed to do so at once.

As we review even a small portion of the record of the immediate past—a new Constitution; a strong, capable, independent judiciary, the keystone of our Republican form of government; the effective division of powers among the three branches of State government; executive reorganization; greater legislative responsibility; one first-class citizenship, based upon a constitutional guarantee that recognizes the God-given dignity of mankind—our faith in and respect for our fellow citizens should strengthen and renew our determination to serve them faithfully and constructively.

For my part, as I resume my duties, neither time nor familiarity with the great office of Governor of New Jersey has lessened my abiding sense of the responsibility that is ours.

It is appropriate that the establishment of a new precedent, the continuation of a Governor beyond a single term, should occur in a year that marks the half-way point in the Twentieth Century. In the first half of our productive, turbulent and frequently terrifying century, we have achieved greater technological, industrial and personal gains than were achieved in all previously recorded history. And yet, in this same period of time, we have come closer to losing our spiritual birthright than at any time since the Dark Ages.

Within the half-century, mass production became an American achievement—even a fetish. Early in 1901 a startled American populace received word that a billion-dollar corporation had been formed in New Jersey. The race to be the biggest and the richest was on in earnest.

Big corporations were to be followed by big unions and big government. In fact, bigness was to become a center of controversy, frequently more violent than thoughtful.

The events of the first fifty years of this century of ours stimulated the organization of the group interest mentioned in my message to the Legislature three years ago. These same events promoted centralized authority upon the theory expressed by Woodrow Wilson in his Inaugural Address as Governor, that we cannot "pit power against weakness." As our society became more complex, the individual became more dependent upon the activities of his fellows, and new methods were sought to overcome his growing feeling of insecurity. By the same token, the task of government became more complex; yet there was no planning to meet complexity. We moved into a period of government by crisis. The national government assumed to undertake new services of great social and economic significance, but was unwilling to recognize the consequences of its assumption of vast centralized power.

Our whole world has changed in the last fifty years. The big government that has grown from year to year to meet the challenge of big wars, big depressions, and to provide greater security, contains within itself the elements of insecurity.

In our search for freedom, and in our defense of it, we have come close to losing freedom. Despite our efforts to achieve security, we are not yet secure.

Our mastery of the art of government and our ability to govern ourselves and our world have lagged far behind the technological and materialistic advances that have come to us during the first half of the Twentieth Century.

We are gradually learning that while objectives are important, methods are equally important and that there are great values that transcend either in importance—the spiritual values, the great heritage of our age. The methods employed in some countries to achieve security actually prevented the people of those countries from attaining their objectives. Furthermore, freedom was lost. The methods to which I refer resulted first in a centralization of the government and finally in its ultimate destruction.

In its report to the Congress of the United States, the Hoover Commission on Organization of the Executive Branch of the Government asked two pertinent questions.

“1. How can the American type of democracy—a democracy based on individual liberty and extensive citizen participation in and control of government—be maintained and strengthened?

“2. At the same time, how shall government provide the services which people increasingly demand and which are necessary for the general welfare?”

The Hoover Commission recommended that the functions and activities of government be appraised to determine which can be most advantageously operated by the various levels of government and which require joint policy making, financing and administration. The Commission proposed that our tax systems—“National, State, and local—be generally revised and that, in this revision, every possible effort be made to leave to the localities and the States adequate resources from which to raise revenue to meet the duties and responsibilities of local and State governments.”

The Commission urged “that the grant-in-aid plan and program be clarified and systematized.” The Commission states in its report that to accomplish these recommendations in an orderly and adequate manner a continuing agency on Federal-State relations should be created.

In our efforts to secure an orderly, responsive, economical government, these recommendations are vitally important to all of us. Accordingly, it is my hope that the recommendations of the Hoover Commission will be adopted. I recommend that appropriate steps be taken by you to memorialize Congress to adopt the recommendations of the Hoover Commission as quickly as possible.

The urgency of these proposals is to be found in the fact that the President, in his Budget Message for the fiscal year 1950-51, has recommended an increase in Federal grants-in-aid of approximately a billion dollars over those found in the grants allocated in the Budget for the fiscal year ending June 30, 1949.

There is, I submit, a far more simple and effective method of accomplishing our social and economic objectives than the methods presently being employed. Current methods merely result in the speed-up of a vicious circle in which expensive grants-in-aid with unnecessary administrative costs compel the Federal Government to levy abnormally high taxes. Many of the services contemplated by these grants could be provided by the States and their municipalities with greater economy if the resources which formerly belonged to them were returned.

We must end our flight from yesterday's crises and, by a prudent appraisal of our needs, careful planning and the application of common sense, avoid tomorrow's catastrophes. During this stock-taking period we shall seek to consolidate our gains and complete our unfinished business.

Our State Government during the past three years has been engaged in the hard task of putting its house in order, so that it might more efficiently serve its citizens. In three previous messages, as well as in legislative and executive action, we have stressed the importance of keeping government as close to the people as possible. We have emphasized again and again that the continued nationalization of our government threatens to completely destroy our Federal system and home rule. One sure way to destroy our Federal system and home rule is for the States to fail to provide for the general welfare of their citizens and to lose the Federal system by default.

This then represents the heart of our philosophy: an orderly Federal system with government close to the people, prudently managed. Government free to test old values, to seek new values. Government strong enough and courageous enough to pioneer with the times, promoting the general welfare in the service of all of its people. New programs in government carried on at the State or local level do not place in jeopardy the economy of the entire Nation and need not be adopted by all until they have proved their general worth. We believe in a system in which the citizens control the destiny of government rather than one in which government controls the destiny of its people.

It is our responsibility to clarify the relationship between State government, our counties, municipalities and school districts. The recommendations of the Commission on Municipal Government, as modified by another year of careful study, should be adopted. We should strengthen the capacity of our municipalities to govern themselves and to mold their form of government to fit the needs of their citizens.

The Commission should be continued. In co-operation with representatives of our local government and the members of the Tax Policy Commission, it should be authorized to appraise the services now being rendered by government within the State in a serious effort to reduce over-lapping and conflicting services with dual responsibility and unnecessary expense as a result of too much government.

During this study period, I advise that we hold the line against any and all additional expenditures not absolutely required to meet emergency needs. New Jersey enjoys the lowest per capita State tax collection in the Nation. We shall strive to maintain that favorable position. On the other hand, there is growing awareness of the need to modernize an antiquated tax system with many inequities. At your request the Tax Policy Commission is engaged in this study. In my judgment, the study should be broadened. In co-operation with representatives of our local government every phase of the problem should be carefully analyzed so that we may take definitive action within a reasonable time.

Since our primary concern this year is to finish tasks to which we have set our hands during the past three years, it is not necessary for me to review all of the recommendations of the last three years. Nonetheless, I should like to make it abundantly clear that I have not changed my position on any of the recommendations heretofore made.

Our concern for an orderly and economical government has not prevented us from adopting programs designed to protect and promote the health, safety and welfare of our citizens. New Jersey has pioneered in the development of

these programs within the framework of a private enterprise economy.

We must face the fact that the National Government continues to be committed to deficit financing. This policy is inflationary. It means less purchasing power both for the State's tax dollars and for the individual's pension and insurance benefits. If our insurance programs, including particularly sickness benefits and unemployment compensation, are to have real meaning and accomplish their purpose, the present maximum benefit payments should be increased to levels that will permit them to accomplish their objectives. Further, we should eliminate the present discrimination between employees of firms employing four or more persons and those employing less than four. Every effort should be made to limit benefits to those entitled to them, but those who are entitled to benefits should be protected by recognition of the new wage structure of industry.

It is sound policy to place our emphasis upon these insurance programs, rather than upon direct relief. The New Jersey Unemployment Compensation trust fund in Washington contains credits of over \$400,000,000. We are fortunate in having the largest reserve ratio of any industrial State in the Union.

Last year we achieved full coverage of occupational diseases under our Workmen's Compensation Law. A number of inequities still remain to be corrected this year. Provision should be made for the prompt settlement of all compensation cases, including a board of review within the Department of Labor and Industry and a direct appeal to the Appellate Division of the Superior Court, eliminating the present costly and time-consuming appeal to the county courts.

The right to organize and bargain collectively, guaranteed in our new Constitution, should be augmented by a State Labor Relations Law applicable to intra-State employees. Our present Minimum Wage Law should be made more comprehensive.

Within the State Government we should consolidate and systematize all agencies engaged in the various categories

of welfare services. The Department of Institutions and Agencies is presently engaged in the consolidation of its activities. Nonetheless, two State departments, several Federal agencies, the counties and municipalities are all engaged in welfare services. This arrangement is neither economically sound nor administratively desirable. State welfare activities should be confined to a single State department. The number of levels of government engaged in welfare services should be reduced. A report on this subject will be submitted to you shortly for your consideration.

There will be no security, either in private or public pension programs, nor in our national old age and survivors' insurance program—in which New Jersey has a vital stake—until we have reasonable prospects that future prices will remain within reasonable limits of today's promises of future benefit payments. Deficit financing, poor planning and extravagance in government promote insecurity rather than security. We have taken the position, for example, that the National Government should not expand its direct relief activities at a time when the emphasis should rather be placed upon the strengthening of our insurance programs, particularly old-age and survivors' insurance, expanding its coverage, thus reducing the need for Federal old-age assistance, in which the State is a participant. As part of our tradition that the State should seek to do more and more for itself, while asking less and less of the National Government, I recommend that the entire subject of pensions and our insurance programs be studied in the light of our post-war experience and to the end that State policies may be established at the State level. It is one thing to promote the general welfare of our citizens; it is another thing to promote a welfare state.

On numerous occasions, I have stressed the fact that our problems are largely social and economic, not political. In common with all other States, New Jersey is facing serious fiscal problems. The demand for services by our citizens far exceeds available revenues. A most striking illustration of this fact is to be found in the field of education. Since our capacity to increase State aid for education is limited

to available revenues, I shall discuss that subject in my Budget Message.

Our teacher salary schedules and pension programs should be further strengthened. I recommend again that the members of the State Board of Education should be chosen from the State at large, with no limitation in regard to the number to be chosen from any one county, and that the terms of two members of the board shall expire each year. I recommend that legislation be adopted authorizing the Board of Education to appoint a commissioner, subject to the approval of the Governor.

The 1949 report of the President's Highway Safety Conference states "the outstanding achievement during this year was made in New Jersey. Legislation was enacted for a State-wide system of county district courts and municipal courts to replace police courts, recorders' courts, family courts, magistrate courts, justice of peace courts, city district courts, and small cause courts. The new courts are an integral part of the State judicial system, under supervision of the Chief Justice of the Supreme Court." The new system appears to be working well. It is achieving its objective. It does, however, require further strengthening, and I shall have a special message on that subject for your consideration.

Everyone, I believe, recognizes the need for greater uniformity in traffic regulations throughout the country. I recommend that we adopt a uniform vehicle code. Effective action should be taken to prevent destruction of our highways by trucks of excessive weight and size. These trucks constitute a definite menace to other users of our highways. New Jersey should seek uniform regulations with its neighboring States on this and on subjects relating to the use of our highways.

Good traffic laws and effective enforcement can do much to reduce the toll of traffic accidents; but our major need must remain improved and modernized highways throughout the State. During the past three years, we have allocated almost \$180,000,000 for the construction, maintenance and safety of highways at the State, county and

municipal levels. These new highways include freeways and parkways that are now under construction, to relieve traffic bottlenecks in and out of our large cities.

The New Jersey turnpike is a major piece of our unfinished business. The innovation of the turnpike in New Jersey which fundamentally becomes the backbone of the new State highway system has required a restudy of all of our highway planning to take full advantage of the turnpike's great potentialities. For the first time, we are in a position to anticipate meeting fully the requirements of the world's heaviest traffic load. The continued development of freeways in the metropolitan areas of North and South Jersey, such as the Trenton and Camden freeways soon to be completed, will continue a major policy of our administration.

We have yet to overtake the needs of the automotive age, which we have as yet hardly understand, but we are pledged to continue the effort. With a view toward a full solution of our State's transportation problems, I renew to you the program and recommendations which are already before you for a co-ordinated highway, rail, air and water transportation system, which will not only relieve our roads but secure high-speed transit facilities in North and South Jersey.

Water shortage is not a new problem in New Jersey. The current shortage is in part due to a deficiency in rainfall and in part to a steady increase in demands—in face of an inherently deficient water supply system. No large additional supplies of water have been made available since the Wanaque system was put into operation in 1930.

I recommend the creation of a water Authority within the Department of Conservation and Economic Development empowered to immediately complete the Delaware and Raritan Canal water supply project as authorized by the Legislature in 1948. The completion of this project will make available an additional 75 million gallons a day for the lower Raritan valley between Bound Brook and New Brunswick and can be made available north into Union county as far as Elizabeth.

This Authority would be further empowered, subject to the approval of the Legislature, to develop other sources of water. It should be understood that the purpose of the Authority is to co-operate with municipalities of the State; the New Jersey District Water Supply Commission and other State and interstate agencies.

In addition, the State should sponsor a tri-State Water Authority, including Pennsylvania and New York, to develop the water resources of the Delaware river watershed and to make those resources available to the citizens of the three States. My studies indicate that these projects may be completed on a pay-as-you-go basis. The modern industries of New Jersey, and the employment they provide, are very largely dependent upon a sure source of water.

As I have previously stated, one substitute for big government in Washington is responsive, serviceable, State Governments and interstate co-operation.

Our institutions are performing modern miracles in the treatment of persons suffering from mental illness. Seventy-four per cent of the admissions to our mental hospitals are now being returned to society in less than six months, and an additional 13 per cent are cured within six to eleven months. There are, of course, incurable cases. When the construction program, that will be undertaken this year, is completed, we may confidently expect an improved rate of cure or correction. This has many advantages—humanitarian first, financial second.

Our mental hospitals have, over a period of years, served not only as places for active treatment, but also as social and scientific laboratories for the testing of procedures and practices that have won the praise and support of the medical profession. The \$25,000,000 rehabilitation and construction program approved last November will permit us to overcome the fire hazards that presently exist within our institutions and take initial steps to eliminate serious overcrowded conditions. I know that we can count on the co-operation of the Legislature as we put this needed far-reaching plan into effect.

The need for the development of regional health services, and the strengthening of inter-municipal co-operation, is apparent. The Department of Health has been authorized to create regional health districts. We believe that through the medium of State and local co-operation, in close association with the medical profession and the encouragement of private medical and surgical plans, we can make adequate medical care available to all of our citizens. It is apparent, however, that there is a very real need for medical training facilities within our State. We are exploring every phase of this knotty problem, and expect to have a report on this subject within the year.

Last year, I urged the adoption of a broad program providing for a concerted attack upon our slum areas and for the stimulation of low-rent housing within the reach of families of limited resources. The program was adopted. As a result of the November election, we will not be able to use the State's credit in furtherance of this program.

A large amount of rental housing and home construction has been undertaken in the past year. Despite this, and after an extensive study of the problem, the Temporary Committee on Housing Joint Resolution 4, of 1948) clearly shows, in its report which has recently been filed with you, that there still exists a need for housing which can be made available at a cost of from \$50 to \$60 per month and less. Moreover, the social cost of slums and the need for slum clearance is just as great as ever. Accordingly, we shall not abandon our housing responsibilities to the Federal Government. But the initiation of the Federal program, under which many of our municipalities plan to act, makes it prudent to re-examine our previous plans in the light of present-day circumstances.

We can take encouragement from the recent and gradually increasing development of serious interest among builders in our new Limited Dividend Housing Law. We shall stimulate and foster this interest to the fullest. Legislation further to strengthen this law and to provide additional encouragement to private enterprise to engage in large-scale middle-income housing construction will be submitted to you shortly for your consideration and study.

The Department of Law and Public Safety and the Department of Health are now jointly engaged in the formulation of plans to provide, with the co-operation of our local governments, a unified and vigorous enforcement of all laws and ordinances applicable to substandard housing.

The continued shortage of housing, particularly in our urban areas, requires that we devote our attention to the need for the continuation of rent controls until such time as there is a reasonable balance between housing supply and demand. I urge you to adopt legislation establishing a State stand-by residential rent control law—one that will serve fully to protect our citizens should the Federal Government decide to withdraw from this activity.

An extensive study of the building code situation in our State was undertaken by the Temporary Committee on Housing. Its report shows that we have today 179 different building codes in municipalities of 2,500 population or over. In addition, 60 per cent of these codes range in age from 11 to 30 years and present a condition which seriously stifles the realization of low-cost homes.

The need for uniformity, simplification and standardization in this field is crystal clear. Accordingly, I urge the immediate adoption of legislation creating a State Building Code Commission with authority to formulate modern, performance-type building codes. Much of the spade work along these lines has already been gotten under way through the Division of Planning and Development. The legislation should include authorization for the formulation of up-to-date plumbing and electrical installation requirements, adequate local option provisions in the adoption of the code, and enforcement and supervision at the local as well as the State level.

On the agenda of unfinished business, I urge you to provide for a much-needed continuing revision of our general statutes; continue support of our notable civilian defense program; strengthen our veterans services in which New Jersey has pioneered; as well as to make provision for the

protection of our resort areas and the development of new parks, including particularly the Sandy Hook project.

There will be plenty of hard work for all of us. The Legislature will want to participate in the studies and hearings that must be completed prior to final consideration of a modern and equitable fiscal system. The Legislature will also have an opportunity to perfect its own techniques, including the consideration of a Legislative Council which, from the point of view of the Executive branch of the State Government, will promote a good working relationship with the Legislature during the period when the latter is not in session.

I have enjoyed our work together during the past three years. We have been engaged in large undertakings. We have been an intimate part of the forces that for ages past have been seeking a better way of life for mankind. I am looking forward to a continuation of our pleasant and constructive relationship. Despite the pessimism of some, we live in a good world. It is a world of opportunity, particularly in the field of government.

As we move ahead in the service of our fellow citizens, let us dedicate ourselves to giving a new warmth, a new dignity to the basic strength of our sacred heritage as citizens of a Republic of free people. Under Divine Guidance, our aims, our hopes, and our prayers for lasting peace, a world in which spiritual values are paramount and in which each person is free to play his part, will be achieved.

Respectfully submitted,

ALFRED E. DRISCOLL,

Governor

[SEAL]

Attest:

RANSFORD J. ABBOTT,

The Secretary to the Governor.

The House reconvened at 3:20 o'clock P. M.

Upon calling the roll, the following members appeared and answered to their names:

Messrs. Artaserse, Brixie, Casciano, Curtis, Dwyer, Fowler, Fraser, Gray, Haines, C. W., Haines, M. D., Hauser, Herrmann, Hillery, Hoff, Jamieson, Joya, Krawczyk, Kurtz, Little, Litvany, Mackey, Marggraff, Mehorter, Miller (Speaker), Mills, Musto, Pilger, Riley, C. H., Saiber, Salsburg, Schulter, Shannon, Shepard, Shershin, Simmill, Smith, A. M., Snediker, Stewart, Thomas, Thompson, Frank, Tumulty, Wegner, Wilson, Zangara—44.

Absent—

Messrs. Cavinato, Field, Freeman, Friedland, Jones, Loutrel, Meloni, Neutze, Pike, Reilly, J. E., Russell, Savage, Schaeffer, Smith, N. C., Thompson, M. H., Widnall—16.

The following bills were introduced, were read for the first time by their title, ordered to have a second reading, and were referred to committee as follows:

By Mr. Salsburg,

Assembly Bill No. 54, entitled "An act to amend 'An act relating to local county district courts and municipal courts and the jurisdiction, functions, powers and duties of such courts and of the judges and the magistrates thereof; establishing county district courts in certain counties; providing for the establishment of municipal courts in certain municipalities and for municipal courts for two or more municipalities in certain cases; providing for the transfer of certain existing courts to such municipal courts; providing for the abolition of the office and terms of justices of the peace and providing for the abolition of the small cause courts,' approved July twenty-seventh, one thousand nine hundred and forty-eight (P. L. 1948, c. 264),"

Referred to the Committee on Revision and Amendment of Laws.

By Mr. Mills,

Assembly Bill No. 59, entitled "An act to amend 'An act concerning townships,' approved April fourth, one thousand nine hundred and thirty-eight,"

Referred to the Committee on Municipalities.

By Mr. Wilson,

Assembly Bill No. 69, entitled "An act to amend 'An act to regulate the sale of certain poultry commonly known as 'baby chicks' and providing penalties for the violation thereof,' approved April fourth, one thousand nine hundred and thirty-eight (P. L. 1938, c. 82),"

Referred to the Committee on Agriculture.

By Mr. Wilson,

Assembly Bill No. 70, entitled "An act to change the terminology, and concerning the general functions, of the Department of Agriculture, revising part of the statutes, and amending sections 4:1-12, 4:1-13, 4:1-14, 4:1-17, 4:1-18, 4:1-19, 4:1-21, 4:5-69, 4:5-107, 4:5-108, 4:5-109, 4:5-110, 4:5-111 and 4:10-2, and supplementing article five of chapter one of Title 4 of the Revised Statutes,"

Referred to the Committee on Agriculture.

By Mr. Wilson,

Assembly Bill No. 71, entitled "An act to amend 'An act concerning the control of brucellosis in live stock, commonly called Bang's disease, repealing sections 4:5-76 to 4:5-93, inclusive, of the Revised Statutes, repealing 'An act concerning the spread of Bang's disease in live stock (which causes undulant fever in the human race), and amending sections 4:5-76, 4:5-77, 4:5-78, 4:5-79, 4:5-80, 4:5-81, 4:5-83, 4:5-84, 4:5-85, 4:5-87, 4:5-88, 4:5-91 and 4:5-92 of the Revised Statutes, repealing section 4:5-90 and supplementing article three, of chapter five, of Title 4 of the Revised Statutes, and making an appropriation for such purposes,' approved December sixteenth, one thousand nine hundred and forty (P. L. 1940, c. 231), supplementing chapter five of Title 4 of the Revised Statutes, and making an appropriation for such purposes,' approved May second, one thousand nine hundred and forty-six (P. L. 1946, c. 257),"

Referred to the Committee on Agriculture.

By Mr. Musto,

Assembly Joint Resolution No. 3, entitled "A joint resolution creating a commission to be known as the New Jersey Interstate Facilities Commission to study the subject of interstate tunnels, bridges and facilities, and the interstate and port authorities and commissions in which New Jersey is interested, particularly in relation to the financing and refinancing of the said facilities and their construction, maintenance and operation, and also in relation to the benefits obtained, the economies effected and the actual and potential returns from the said facilities, and also in relation to these interstate facilities as a source of revenue to the State and its political subdivisions; to provide for reports and recommendations by the said commission to the Governor and the Legislature, and making an appropriation for the expenses of the commission,"

Referred to the Committee on Judiciary.

Mr. Fraser offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Rules of the House of Assembly as printed in the official rules of the House of Assembly for the 1949 Session be adopted as the official rules for January 23, 1950.

Mr. Fraser moved that the House adjourn.

The Speaker declared the House adjourned.

FRIDAY, January 20, 1950.

At 10:00 o'clock A. M. the House met.

Upon calling the roll the following members appeared and answered to their names:

Messrs. Pike, Haines and Shershin—3.

Mr. Pike, Speaker *pro tempore*, in the Chair.

-There being no quorum present, the Speaker *pro tempore* declared the House adjourned until Monday, January 23, 1950, at 2:00 P. M.

MONDAY, January 23, 1950.

House met at 2:15 o'clock P. M.

Prayer was offered by Dr. Julius Silverfeld, Rabbi Emeritus of Temple Bnai Abraham, Newark, N. J.

Upon calling the roll, the following members appeared and answered to their names:

Messrs. Artaserse, Brixie, Cavinato, Curtis, Field, Fowler, Fraser, Freeman, Friedland, Gray, Haines, C. W., Haines, M. D., Hauser, Herrmann, Hillery, Hoff, Jones, Joya, Krawczyk, Kurtz, Little, Litvany, Loutrel, Mackey, Marggraff, Mehorter, Miller (Speaker), Mills, Musto, Neutze, Pike, Pilger, Riley, C. H., Russell, Saiber, Salsburg, Savage, Schaeffer, Schulter, Shannon, Shepard, Shershin, Simmill, Smith, A. M., Smith, N. C., Snediker, Stewart, Thomas, Thompson, Frank, Thompson, M. H., Tumulty, Wegner, Widnall, Wilson, Zangara—55.

Absent—

Messrs. Casciano, Dwyer, Jamieson, Meloni, Reilly, J. E.—5.

The Minutes of the last meeting being read by the Clerk, Mr. Fraser moved that the Minutes of January 17 be approved and the further reading of the Minutes be dispensed with.

Which motion was carried.

The following bills were introduced, were read for the first time by their title, ordered to have a second reading, and were referred to committee as follows:

By Mr. Shershin,

Assembly Bill No. 53, entitled "An act concerning unemployment compensation, amending section 43:21-3 of the Revised Statutes, and supplementing chapter twenty-one of Title 43 of the Revised Statutes,"

Referred to the Committee on Unemployment Compensation.

By Mr. Shershin,

Assembly Bill No. 64, entitled "An act relating to claims for benefits under the Unemployment Compensation Law, and to amend section 43:21-6 of the Revised Statutes,"

Referred to the Committee on Unemployment Compensation.

By Mr. Saiber,

Assembly Bill No. 65, entitled "An act to provide for the distribution of the Revised Statutes and the Revised Statutes Cumulative Supplements,"

Referred to the Committee on Revision and Amendment of Laws.

By Mr. Shepard,

Assembly Bill No. 66, entitled "An act concerning the filing of copies of ordinances or resolutions and maps relating to certain streets, highways, squares, beaches or other public places, and amending section 40:67-2 of the Revised Statutes,"

Referred to the Committee on Municipalities.

By Mr. Mehorter,

Assembly Bill No. 67, entitled "An act authorizing the reconveyance of certain lands heretofore conveyed to any municipality for educational or park purposes, without the payment of any consideration therefor, to the person or corporation by whom they were so conveyed,"

Referred to the Committee on Municipalities.

By Miss Freeman,

Assembly Bill No. 68, entitled "An act to amend 'An act to regulate and control the teaching and practice of nursing and to prescribe penalties for the violations thereof (Revision of 1947),' approved June eleventh, one thousand nine hundred and forty-seven (P. L. 1947, c. 262),"

Referred to the Committee on Public Health.

By Miss Freeman,

Assembly Bill No. 95, entitled "An act constituting the State Department of Education a principal department in the executive branch of the State Government, concerning the State Board of Education and the Commissioner of Education, amending sections 18:3-1 and 18:3-4, and supplementing Title 18 of the Revised Statutes,"

Referred to the Committee on Education.

By Miss Freeman,

Assembly Bill No. 286, entitled "An act concerning the teachers' pension and annuity fund, and amending sections 18:13-52 and 18:13-55 of the Revised Statutes,"

Referred to the Committee on Education.

Mr. Fraser offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Rules of the House of Assembly, as printed in the official rules of the House of Assembly for the 1949 Session, be adopted as the official rules for the Session of January 30, 1950.

Mr. Fraser offered the following resolution, which was read by the Clerk and adopted:

Resolved, That when the House adjourns it be to meet on Thursday, January 26, at 10:00 A. M., and when it then adjourn it be to meet on Saturday, January 28, at 10:00 A. M., and when it then adjourn it be to meet on Monday, January 30, at 2:00 P. M.

The Speaker announced the following calendar for the House of Assembly:

February 13—Final Session Before Recess.

March 6—Date of Return After Recess.

He requested committees expecting to hold public hearings to arrange for them, and, if possible, to complete them before March 6.

Assembly Joint Resolution No. 2, entitled "A joint resolution continuing the commission for the study of the habitual sex offender; to consider such proposals as may require legislative action and to report thereon to the Legis-

lature; and continuing the appropriation made for the expenses thereof,"

Was taken up, and, on motion of Mr. Hillery, was read a third time by its title and passed by the following vote:

In the affirmative were—

Messrs. Artaserse, Brixie, Cavinato, Curtis, Field, Fowler, Fraser, Freeman, Friedland, Gray, Haines, C. W., Haines, M. D., Hauser, Herrmann, Hillery, Hoff, Jamieson, Joya, Krawczyk, Kurtz, Little, Litvany, Loutrel, Marggraff, Meloni, Miller (Speaker), Mills, Musto, Neutze, Pike, Pilger, Riley, C. H., Russell, Saiber, Salsburg, Savage, Schaeffer, Schulter, Shannon, Shepard, Shershin, Simmill, Smith, A. M., Smith, N. C., Snediker, Stewart, Thompson, Frank, Thompson, M. Mr. Shershin offered the following resolution, which was read by the Clerk and adopted:

A resolution creating an Assembly committee to make a study of the laws concerning cemeteries and mausoleums and to report thereon to the Assembly.

Be It Resolved by the Assembly of the State of New Jersey:

1. There is created an Assembly committee, to consist of three members of the Assembly to be chosen by the Speaker thereof, whose duty it shall be to make a study of the laws concerning cemeteries and mausoleums.

2. The committee may hold hearings in any part of the State and is empowered by its subpoena to compel the attendance of and examination of all individuals, associations, co-partnerships, corporations formed under any special or general statute or act who own, operate and maintain cemeteries, burial grounds and mausoleums, and the production of books, papers and records, and may draft necessary assistants from any State departments.

3. The committee may sit during any recess of the Legislature or after any adjournment thereof, shall conclude its work as soon as practicable and shall report to the Assembly the result of its study and its recommendations.

The Speaker appointed the following committee to study the laws concerning cemeteries and mausoleums and to report thereon to the Assembly: Messrs. Shershin, Wilson and Neutze.

Mr. Artaserse offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, Augustus C. Studer, Jr., as Chairman, and Carrol M. Shanks and James Kerney, Jr., as members of the Citizens' Committee, appointed by this House to investigate the investment of funds and purchase of bonds for the State Disability Benefits Fund, have made their report; and

WHEREAS, These public-spirited citizens, who approached their task courageously, fearlessly and conscientiously, have rendered the people of New Jersey a great public service in their illuminating report and revelation of the unbusinesslike and inefficient methods heretofore used in the investment of funds by the State of New Jersey; and

WHEREAS, The Studer-Shank-Kerney Committee has made several well considered recommendations to insure greater efficiency, to promote sound investment practices and to prevent hereafter any one from making an unconscionable or exorbitant profit on the investment of funds held by the State of New Jersey; therefore,

Be It Resolved, That the General Assembly of New Jersey thank, congratulate and commend Augustus C. Studer, Jr., Carrol M. Shanks and James Kerney, Jr., the members of the Citizens' Committee, for their energetic investigation of the State Disability Benefits Fund and for the safeguards recommended by them in future investments of all funds held by the State; and

Be It Further Resolved, That a copy of this resolution, signed by the Speaker and attested to by the Clerk, be presented to each member of the committee, Augustus C. Studer, Jr., Carrol M. Shanks and James Kerney, Jr.

The Speaker presented Mr. Simmill, of Monmouth County, who delivered an address commemorating the birthday of Abraham Lincoln as follows:

Mr. Speaker, Ladies and Gentlemen of the General Assembly and Friends:

Last year, the honor was accorded me to deliver the address commemorative of the founder of our country, George Washington. This year, for some reason unknown to me, I have been selected as the member to deliver the address commemorative of Lincoln's Birthday.

I do not believe that there has ever been a greater dissimilarity in men who have risen to the highest place in our land as that which existed between Washington, the founder of our country, and Lincoln, its saviour. Washington was born to wealth, and, in my opinion, a part of his greatness he achieved by being willing to surrender all that he had in the cause of liberty. Lincoln, on the other hand, was born in squalor, and by his own ambition and initiative raised himself by his own bootstraps to a place where he stands revered in the minds of all men.

Washington's geneology was not difficult to trace in that we know that one of his forebears was a knight of William the Conqueror, whereas Lincoln's forebears go back no further than some two hundred years before his birth, and none of his ancestors seems to have possessed any qualities above the average. On the paternal side his ancestry has been traced to Samuel Lincoln, a weaver's apprentice, who emigrated from England to Massachusetts in 1637. For over a century the family line was carried on by respectable but undistinguished citizens in Massachusetts, Pennsylvania, Virginia and our own State of New Jersey. Monmouth County is proud that one of the Lincolns lived for a time near Clarksburg. Then an Abraham Lincoln crossed the mountains to Kentucky where his son Thomas grew to manhood and married Nancy Hanks in 1806. Of this union the sixteenth President of the United States was born. As far as the records show, no other Lincoln gave any sign of greatness.

The maternal ancestry of Abraham Lincoln remains obscure. His mother, Nancy Hanks, was the daughter of Lucy Hanks and was a posthumous child. The Hankses were an undistinguished family and never attained even the modest status of the Lincolns, so that we cannot find any explanation for his genius in his heredity.

On February 12, 1809, then in Hardin County, Kentucky, was born the man whom we honor today. There were three children born of the union, a sister older than Abe and a brother younger, who died in infancy. They lived in a cabin made of timber which had been cut nearby. The floor was packed down dirt. It had one door on leather hinges and one window and one room. At one end of the cabin was a chimney to supply the heat. Rarely has any genius been born in more lowly surroundings.

Abe Lincoln went to school two terms in Kentucky and then Thomas moved to Government land in southwest Indiana, there to remain through fourteen years that took a tenacious hold on Lincoln's memory. Lincoln went to school for three terms in Indiana, so that his formal schooling in all amounted to less than one year. In the Fall of 1829 the family moved to Macon County, Illinois.

During the period the family spent in Indiana, Nancy Hanks died of what the pioneers called milk sickness, and a little more than a year later Thomas Lincoln married a widow, Sally Johnston. Sally probably had more to do with Lincoln's subsequent success than any other person. She moved to Indiana with her new-found husband and a son and two daughters of her own. Her own goods furnished the cabin. She made Thomas Lincoln put down a floor and hang windows and doors. She clad Abe and his sister from the stores of clothing she had laid up for her own children. They were dirty and she washed them. They had been ill-used and she treated them with motherly tenderness. She soon discovered that young Abe was a boy of uncommon natural talents and that if rightly trained, a bright future was before him, and she did all in her power to develop those talents. When in later years Lincoln spoke of his "saintly mother" and of his "angel of a mother" he referred to this noble woman who first made him feel like a human being and whose greatness first touched his childish heart.

Lincoln worked on the farms in the neighborhood tilling the soil, splitting fence rails and doing odd jobs, and in the last years of his youth he helped operate a ferry on the Ohio River. With the migration of the family to Illinois, after helping his father get established, he began to move for the first time under his own power. He was a farm hand, he worked on a flat boat and finally settled himself at New Salem where he clerked in a store. His military career in the Black Hawk War came a year later, but before this, Lincoln had established himself among the people of New Salem as being a leader. He made quite a reputation for himself as an athlete. He was very affable and his reputation as a story teller was the greatest in town; so that when he enlisted in the Illinois militia to help repel the Indian Chief Black Hawk, he was elected captain of his company. He knew nothing about military tactics and his military career ended without his even catching a glimpse

of the enemy. On his return to New Salem his ill-fated venture into business awaited him, and all of us know that by reason of the poor business judgment of others and their absconding, Lincoln was deep in debt. He paid off every penny of it. At the time, too, he was a candidate for the Legislature of the State of Illinois, and it is significant that in his first aspiration for public office he lost. It is also significant to note that he carried his own town of New Salem 277 votes to 3, and in 1834, when he again ran for the Legislature, he was successful. He remained in the State Legislature for several years, and it was here that he learned his politics.

He then decided that he would study law and he left New Salem for Springfield. There were no formal law schools in those days and Lincoln studied borrowed books with tireless industry. In 1836 he was certified as a person of good moral character and a license for him to practice law was issued by two of the justices of the Supreme Court.

In Lincoln's life there were three women, Ann Rutledge, Mary Owens and Mary Todd. Ann Rutledge, of New Salem, died in her early twenties and thus made of her romance with Lincoln an immortal legend. Mary Owens rejected him. Mary Todd, proud and ambitious, walked to the altar with him, but whether or not they were happy in their married life is an open question.

With four terms in the State Legislature to his credit and with many staunch supporters among the Whigs of central Illinois, Lincoln decided to run for Congress. His ambition was not to be realized immediately. In 1843 the Whigs of his own county instructed their delegates to vote for a friend of Lincoln who was defeated, and it was not until 1846 that Lincoln had his chance. When the votes were counted Lincoln received the largest majority by which his district had ever been carried.

Lincoln was not a success as a congressman. He rented lodgings, took the oath of office and assumed his seat. Nobody paid any attention to him. He was not included as a guest at the social affairs. He was overshadowed by such giants as Clay, Calhoun and Webster. He took the floor in support of a resolution that the Mexican War was unnecessary and unconstitutionally commenced by the President and in so doing alienated his constituents. He was warned by his friends, but persistently he arose in the House mak-

ing impassioned speeches condemning the war. He could not be silent and was not nominated to succeed himself.

This seemed to be the end of Lincoln's political career and he returned to Springfield and became a leader of the Bar in that city. However, in January of 1854, a bill was introduced in the Senate which would repeal the Missouri Compromise and Lincoln threw himself into the campaign. He went about the entire district speaking in his own inimitable way and found himself again on the political firing line.

The Republican Party had been organized in 1854 and by 1856 many converts from the old Whig organization were attracted to its ranks. One of these was Lincoln, and although he did not campaign for it, at the first Republican National Convention in 1856, when John C. Fremont was nominated for President, Lincoln was second highest of the Vice-Presidential candidates.

In 1858 Stephen Douglas's term was to expire in the Senate. Lincoln ran against him as the Republican candidate. Then came the great debates memorable in history between Lincoln and Douglas. Douglas was elected.

He continued making speeches in the mid-western States and made a speaking tour of New England early in 1860. By that time he was an avowed candidate for the Presidency and his strength lay in the weakness of his rivals. He was not well enough known to be marked indelibly as either a radical or a conservative. He had no record that could be used against him. He had no enemies that a man in public life acquires. His humble birth would arouse enthusiasm among the masses. His residence in a doubtful State was an important asset. On the first ballot Lincoln finished second to Seward. On the second ballot he was still second but gained strength. While the third ballot was being taken Seward lost strength to Lincoln in Massachusetts and Pennsylvania and when Ohio gave him fifteen additional votes, his nomination was a certainty.

On November 6, 1860, he was elected President of the United States against a split Democratic ticket.

Immediately upon his taking office, he was faced with the problem of secession. Also it was the first time the Republican Party had elected a President and Lincoln was beset on all sides by office seekers and those who were looking

for their share of the spoils. In the meantime, only six weeks after he took office, the Confederate forces stationed at Charleston Harbor fired on Fort Sumter and the Civil War was under way.

The whole history of the Civil War is one replete with disappointments, battle after battle was lost, and in fact, even after Gettysburg, when the Confederate Army could have been demolished, the Union generals quibbling among themselves were indecisive and the war was prolonged by reason of their ineptitude, and finally, Lincoln singled out U. S. Grant and placed him in command of the armies. This he did against the advice of his counsellors. On January 1, 1863, Lincoln issued the Emancipation Proclamation freeing the slaves, and finally came the victory in the Civil War. Lincoln's humanitarianism is best displayed here when he permitted the Southern soldiers to retain their horses so that they could again beat their swords into ploughshares and try to restore the South to its former greatness. In the meantime Lincoln was again nominated for the Presidency without opposition at the Republican convention at Baltimore. He was opposed on the Democratic ticket by General McClellan. The election was close because of the frequent defeats of the Union forces, the heavy casualties of Grant's drive toward Richmond and the public discontent that existed, but Lincoln was again victorious, and on his second inauguration he spoke the words, "With malice toward none, with charity for all, with firmness in the right as God gives us to see the right, let us strive on to finish the work we are in, to bind up the Nation's wounds, to care for him who shall have borne the battle and for his widow and his orphan, to do all which may achieve and cherish a just and lasting peace among ourselves and with all nations." This creed holds good even today.

In the evening of April 14, 1865, he and his wife went to Ford's Theatre to see the play, "Our American Cousin." Lincoln entered his box late, and his assassin, having made all of the preparations, shortly thereafter opened the box door and fired the shot which was to cause Lincoln's death. It was seen at once that the President's wound was mortal. The bullet had entered the back of his head on the left side, passed through his brain and lodged just behind the left eye. He was carried to a house across the street and laid upon a bed in a small room at the rear of the hall on the

ground floor. He never regained consciousness, and on the morning of April 15, 1865, his respiration ceased. It was 22 minutes past 7.

It would seem to me that Lincoln's greatest attribute was the art of human relations. He was never free from the persistence of petty squabbles and nagging details. He had to see things in the large, to consider the broader perspective. For the sake of the destiny that was his he labored to save the Nation, to win a war he had tried to prevent and keep the Union's cause free from abuse and the Nation's wings from being clipped by exploitive motives. More than the fate of the United States was at stake, government by the people was on trial. The democratic experiment was in peril. Above the ruin of war he looked to the day when the public concern would be restoration and healthy progress.

He was considerate and tactful, particularly of his enemies, but if conduct called for reproof, he would do the reproving.

One can take the most famous things that Lincoln did, the eloquence of the Gettysburg Address, the logic of his design for peace, the complexity of official tasks, and to all this must be added a priceless element of human thoughtfulness and the fact that his understanding was close to earth and part of his everyday job. It is a tribute to freedom and equality, to man's dignity, to self-discipline, to the niceties of courtesy, to successful living with others.

If he had a theory of democracy it was contained in a note which he wrote a year or two before his Presidency: "As I would not be a slave, so I would not be a master. This expresses my idea of democracy. Whatever differs from this, to the extent of the difference, is no democracy."

The Speaker expressed appreciation for Mr. Simmill's fine address.

The following communication was sent to the desk.

BUDGET MESSAGE OF ALFRED E. DRISCOLL
GOVERNOR OF NEW JERSEY
FOR THE FISCAL YEAR ENDING JUNE 30, 1951

BUDGET MESSAGE

To the Members of the Senate and General Assembly:

A year ago in my Budget Message, I stated: "The total cost of government in this country will undoubtedly influence the course of our economy for many years to come." A year's reflection and study have confirmed my judgment.

In 1930, Federal taxes amounted to 4.3% of the national income, while State and local taxes amounted to about 8.4%. In 1948, Federal taxes totalled 17.2% of the national income, while State and local taxes required an additional 6.2%. In 1930, the total Federal tax collections of \$3,500,000,000 were approximately one-half the total taxes collected by the States and their political sub-divisions of \$6,800,000,000. By 1948, State and local taxes had risen to \$13,400,000,000 while Federal receipts were almost three times as much, totalling \$37,600,000,000.

Federal grants-in-aid to the States and their political sub-divisions have grown from an inconsequential amount in 1930 to approximately \$1,900,000,000 in 1949, with an approximate \$1,000,000,000 increase proposed by the President for the next fiscal year.

For the fiscal year 1950-51, the citizens and business activities within the State will be called upon to pay the National Government approximately \$1,400,000,000 in all forms of Federal taxes. The school districts, municipalities and counties will collect approximately \$400,000,000 in taxes, while the cost of State government, including its financial assistance to counties, muni-

cialities and school districts, if the recommendations contained herein are adopted, will be \$164,131,075.27.*

These figures are cited to show the magnitude of our problem and because it is important for us to remember that it is the total impact of taxes that hurts. With rare and limited exceptions, all taxes become a part of the cost of living. Likewise, it is the total impact of all taxes that may shape the destiny of our economy and the opportunities for private initiative for years to come.

During the first half of our Twentieth Century, there has been a gradual but ever-accelerated transformation of our economy from one of free private enterprise to an enterprise influenced by government direction. The direction has come largely from the National Government. That government is the greatest employer and the greatest purchaser of supplies in the nation. It is, by the same token, the most important money lender, as well as the biggest borrower. It has assumed authority to control the currency, to reduce the purchasing value of the dollar, thereby increasing the apparent cost of living as well as the cost of State and local governments, whose dollars are largely devoted to the purchase of food, materials and the payment of wages. It has appropriated many of the taxes that formerly were devoted exclusively to the support of State and local governments. In the competition for the tax dollar, the National Government has arrived at the taxpayer's door first, with the most pressing demands. The priority of the National Government in a time of war, or for a limited period of national emergency must, of course, be recognized.

The National Government's present insistence, however, upon a permanent right to dominate practically all taxes, except those on real estate, and to control the distribution of the same, to support a form of government that is neither consistent with sound fiscal policies nor in keeping with the traditions of our Republic, requires a re-examination of the problem and a decision upon the merits.

* Includes State cash assistance to counties, municipalities and school districts of approximately \$65,500,000.00. Does not include cost of unemployment compensation insurance or temporary disability benefits.

The unsystematic procedures presently being followed, if continued, will completely destroy important basic values in our Federal (home rule) form of government. These values are of even greater importance than the tax dollars that are currently being wasted as a result of the duplication of services, administration costs, and the conflict of policies between the various levels of government.

Thomas Jefferson was perhaps the first important public figure in this country to stress the dangers of centralization and to point out that the concentration of all authority in Washington would ultimately destroy "liberty and the rights" of our citizens.

It is imperative that the recommendations of the Hoover Commission referred to in my Annual Message on January 17, 1950, be adopted as quickly as possible.

All of these factors have made the task of State Governments more difficult.

A budget is many different things to many different people. It may be regarded as evidence of the ability of the State to meet certain service requirements of its citizens. Even a State budget of modest size, to the extent that it keeps spending within reasonable limits, protects the public welfare and provides for capital improvements, may stimulate business activities and promote employment opportunities. Tax and spending policies should (1) provide for essential services designed to promote the general welfare; (2) distribute the burden of government fairly and equitably; and (3) encourage private initiative, enterprise and employment.

The competition among the States for new industries, small ones as well as large ones, is keen. While New Jersey has been more successful than many States, it has lost some potential new industries despite the lowest per capita State tax collection in the country. The character of the competition is perhaps best illustrated by the efforts of the New England Council to obtain a steel mill for its area. In December of 1949, it reported a proposal whereby a New England State was to provide approximately 60% of the cost of construction of a \$225,000,000 mill, to

be financed by a State Steel Authority, authorized to issue tax-exempt, trustee-eligible, State-guaranteed, twenty-year bonds. Of this proposal, it may be said that Yankee ingenuity in an effort to support private enterprise, has encouraged the participation of State Government in a new activity. The equity capital, the Council reported, would be supplied jointly by an established steel mill and private financial institutions.

More recently, another steel company has indicated (we hope a temporary) preference for a location in a sister State, despite the fact that in the latter State business paid approximately 38% of the entire State tax collection (including a corporate income tax), amounting to about \$223,000,000 in 1949, in contrast to approximately 10% or about \$16,000,000 of State taxes levied on business in our State. In this instance, one of the factors which reportedly contributed to the decision was the threat of "tax lightning"—the possibility that personal property and inventories (latter do not represent wealth, but, on the contrary, may represent an ultimate loss) would be taxed at "full value" at a prohibitively high local tax rate.

In my Inaugural Address to the Legislature in 1947, I stressed the need for modernization of our antiquated tax and assessing systems. In subsequent messages to the Legislature I have emphasized the dangers inherent in the present method of assessing and taxing personal property in this State.

Our new Constitution has presented new opportunities for the classification of property and the development of a fair and equitable tax and assessment system. It is my hope that the forthcoming report of the State Tax Policy Commission will constitute a basis for a successful solution of these pressing problems.

Through co-ordination and clarification of governmental activities, we can secure less government, rather than more government. It is my purpose during the current year to convene in Trenton representatives of all levels of government within the State, as well as representative leaders of labor, management and agriculture, to discuss these subjects and the development of plans to meet the future requirements of our State.

I have urged the re-appraisal of the relationship between the National Government, the States and local governments, and the

study of our entire tax structure, not for the purpose of increasing the cost of government, but, on the contrary, for the purpose of decreasing the over-all burden of government and because of my conviction that we must strengthen the capacity of the home-rule levels of our government to achieve their purpose.

In a State that has achieved the lowest State budget of any comparable State in the country, with the lowest per capita State tax collection,* it is apparent that substantial additional services may not be provided in the absence of additional revenues. Pending a completion of the studies of the State Tax Policy Commission and a realignment of Federal-State-Municipal responsibilities and supporting revenues, we have adopted a "hold the line" policy.

Substantial savings have been achieved as a result of the new Constitution and the reorganization of the executive branch of our government, which is not yet complete. A completion of the reorganization will result in further economies as well as the strengthening of State services.

The various State departments submitted to the Budget Director requests for appropriations for the next fiscal year totalling \$235,446,660. These budget requests have of necessity been reduced to \$164,131,075, to keep them within the estimated resources of the State, based upon current taxes and present rates.

There are many services that the State would like to provide its citizens. Most of these services have supporters. It is certainly true that all services presently being rendered by the State have loyal advocates and that many of our citizens have voluntarily contributed to these services in a highly commendable, public spirited manner.

On the other hand, there is understandably an insistent demand for economy in government. This demand comes from taxpayers impressed with the over-all cost of government to whom taxes are taxes and hence they do not distinguish between the comparatively small cost of State Government when compared with the heavy burden of the National Government. Unfortunately, many of the citizens who cry for economy, are equally vocal in their demands for additional services.

* State Tax Collections in 1949—Department of Commerce—Bureau of the Census.

We have reached the point where it is necessary for us to re-examine all of the services of government and determine which services are most essential and require major consideration. We can no longer afford to scatter our resources. On the contrary, the exigencies of the situation call upon us to concentrate our efforts.

Accordingly, it will be necessary for us to discontinue some services that the State has offered its citizens, with the understanding that these services, while important, are perhaps less important than some others the State is required to provide. In a number of instances, to achieve economy, services presently being rendered should be restricted and consolidated with other activities of a like nature.

The present budget is not intended to commit the State to long-range programs. It is an economy budget that will serve many useful purposes, pending a final decision upon a number of very important issues mentioned in this message. As I have said before, it is certainly not a blueprint for spending. On the contrary, it is a challenge to save money.

Following the pattern established in previous budget messages, I have divided this budget in three parts, namely: (1) Current General State Operations, (2) State Aid to Counties, Municipalities, and School Districts, and (3) Capital Improvements.

The following table will, at a glance, portray the budget:

Estimated balance of July 1, 1950, before providing for deficiencies and supplementals	\$15,614,778.00
Less recommended deficiencies and supplementals for 1948-49 and 1949-50	3,701,353.00
Adjusted estimated balance on July 1, 1950	\$11,913,425.00
Revenues for 1950-51	155,023,111.00
Total resources for 1950-51	\$166,936,536.00
Budget Part I—Current General State Operations	\$79,829,791.00
Budget Part II—State Aid	65,545,724.00
Budget Part III—Capital	18,755,560.00
Total Budget for 1950-51	\$164,131,075.00
Estimated balance, June 30, 1951	\$2,805,461.00

BUDGET—PART I

CURRENT STATE OPERATIONS

The \$79,829,791 recommended for current operation of State Government represents 48.64% of the proposed budget for the fiscal year 1950-51. As shown above, the recommendations for current operations are amply covered by current revenues.

Department of Institutions and Agencies

Of the total recommended for current State operations, \$24,069,858 or 30.15% has been allocated to the Department of Institutions and Agencies. This sum will provide for the operation of our three mental hospitals, nine correctional institutions, four feeble-minded institutions, and five other specialized institutions all engaged in the task of caring for more than 24,500 patients and inmates. The department will continue to supply facilities for the assistance of more than five thousand blind persons.

The recommended appropriations also provide support for the four types of aid administered or supervised by the State Department of Institutions and Agencies, including Old Age Assistance, Aid to the Blind and Foster Home Care for Dependent Children. Each of these programs presently involves a different set of administrative and financial relationships between the counties and the State.

I am recommending the creation of a single Welfare Division within the Department of Institutions and Agencies, with jurisdiction and authority over all the State welfare programs. In my judgment, there should be a single financial relationship between the State and the counties, and as nearly as practicable the same formula with respect to State and county support should be adopted for all programs and categories with a maximum of home rule.

Our municipalities—many of them in co-operation with the Department of Conservation and Economic Development—were, as of last December, providing direct relief to 35,697 persons. For the calendar year 1949, the total cost of this direct relief to the municipalities and State was approximately \$7,800,000. It should be noted that in 1945, about 60% of all persons receiving

direct relief were classified as either permanently disabled or the chronic sick. With an increase in unemployment in 1949, the percentage dropped to about 32%. It is apparent that a program designed originally to take care of our unfortunate fellow citizens requiring "emergency relief," may not be appropriate to the care of the chronic sick or persons permanently disabled. The responsibility of the municipality and the financial burden imposed by the care of this category requires further study. Pursuant to J. R. 4 of 1949 a distinguished committee is presently engaged in this study.

The present activities of the Bureau of Municipal Aid, within the Department of Conservation and Economic Development, should be discontinued. This follows the comment in my second Inaugural Message that it was neither economical nor desirable to have two State departments and several Federal agencies, the counties and municipalities all engaged in welfare services. While our present system, ably administered, has undoubtedly contributed to the low relief rolls and smaller percentage of persons receiving various categories of aid in this State in comparison with other States, I am hopeful that a substantial reduction in the over-all cost of administration will not result in a lowering of standards. I recommend that such administrative jurisdiction as the State should retain in this field be transferred to the proposed Division of Welfare of the Department of Institutions and Agencies.

It is recommended that the functions presently exercised by the Division of Architecture in the Department of Institutions and Agencies be transferred to the Division of Purchase and Property within the Department of the Treasury. To the extent that the services are continued, and it is recommended that they be substantially reduced, they should be available to all departments equally. This may be accomplished by placing them within the division that is presently responsible for the maintenance of State property, the purchase of State supplies and the supervision of maintenance and construction. If the recommendations contained in the Budget are accepted, it is estimated that we may save \$57,000.

Department of Education

12.03% of the current State operating budget is devoted to education, including support for our State Teachers Colleges, specialized schools and the State University with total enrollments of more than 33,000 full and part-time students. This amounts to \$9,599,599. It, of course, includes the administrative expenses of the Department of Education. In our efforts to provide additional appropriations for primary, secondary and higher education, unfortunately, it has been necessary to curtail and, in some instances, eliminate services presently being provided by the Department of Education.

The complex and difficult issues confronting the State in its effort to secure adequate higher educational opportunities for its youth, requires a re-appraisal of the whole subject. The current Budget allocates \$700,000 more for the purpose of higher education at the State University than was appropriated for the current fiscal year. This is far below the requested appropriation. With the return to a predominantly civilian enrollment, tuition fees at the State University have shrunk substantially. The increased appropriation recommended is intended to offset the drop in tuition.

In addition, I have asked the State Department of Education to carefully study the advisability of consolidating the engineering activities of the State University and the Newark College of Engineering at the latter institution, for which State support in the amount of \$277,898 is recommended for the next fiscal year.

The State Department of Education has also been asked to complete, as quickly as possible, its study of our State Teachers Colleges and to report whether it is possible, through the medium of reasonable consolidation, to strengthen the services of the State Teachers Colleges while providing better facilities, at less expense, in North, Central and South Jersey.

Department of Highways

The Department of Highways has been allocated \$10,904,326 or 13.66% of the current operation budget, to maintain and repair our present extensive State Highway system. Many of

these highways are over 20 years of age and maintenance costs are mounting.

Department of Law and Public Safety

Law enforcement, it is estimated, will cost the State \$7,150,446 during the next fiscal year, or 8.96% of the operating budget. This amount is required to support the work of the Department of Law and Public Safety, including our State Police, the divisions of Alcoholic Beverage Control, Motor Vehicles, and other enforcement activities. This department is in process of internal reorganization and it is confidently anticipated that when the reorganization is completed we will achieve the highest standard of law enforcement in the country.

It is recommended that the functions heretofore exercised by the Office of the Supervisor of Hotel Fire Safety and the Bureau of Tenement House Supervision be absorbed by the Division of the State Police. This co-ordination of our law enforcement activities should make it possible to save approximately \$60,000.

Department of the Treasury

The Department of the Treasury has been allocated \$3,875,303.10 or 4.85% of the current operating budget. It is interesting to note that the reorganization of all of the fiscal, tax, budgeting and accounting activities of the State under the new Constitution and the creation of the Department of the Treasury established a pattern and was followed very closely by the Hoover Commission in its report to the Congress in 1949. The reorganization of our present Department of the Treasury is not however complete. The weaknesses inherent in the old Constitution which prevailed for over a hundred years may not be corrected overnight.

The State Treasurer, pursuant to my direction, is presently engaged in the creation of a single division within the Department of the Treasury responsible for the investment of all State funds and the administration of all the State's pension accounts. The administrative servicing of the individual accounts will be consolidated and modern banking policies followed.

Responsibility should be placed squarely upon trained, competent personnel with expert knowledge of investment policies charged with the duty of administering the new division, subject, of course, to the ultimate direction of the State Treasurer. Provision should be made for appropriate consultant committees, with adequate representation for the general public and the parties immediately interested, with full authority to inspect and audit the various accounts. The practice of placing ex-officio members on present commissions and boards or on future committees should be discontinued. It is my hope that the Legislature will support the enabling legislation that will be required to complete this phase of the reorganization program.

Department of Labor and Industry

The Department of Labor and Industry has been allocated for the next fiscal year \$2,384,147.97, or 2.99% of the current operating budget. In this department it has been necessary to curtail certain services and increase others in the interest of economy. The rising tide of unemployment and the cost incident thereto has required the reappraisal of the State's seasonal Migrant Labor Program. First consideration should be given the unemployed of this State. It is recommended that the functions of the Division of Migrant Labor be transferred in part to the Department of Health and in part to the Division of Labor within the Department of Labor and Industry. The State will continue to co-operate with farm organizations, civic groups, encouraging volunteer activities and will continue to participate directly to a limited extent in the Migrant Labor Programs. It is estimated that \$25,800 can be saved if these recommendations are accepted.

Department of Conservation and Economic Development

\$2,799,258.47 has been allocated the Department of Conservation and Economic Development or 3.51% of the current operating budget. This represents a very substantial reduction under the amount allocated last year, reflecting in part the transfer of responsibility for the administration of direct relief to the Department of Institutions and Agencies, the discontinuance of

the activities of the Bureau of Municipal Aid, the completion of the construction of the Veterans Emergency Housing Program that has been in process during the past three years.

It is anticipated, however, that the department will be called upon to undertake new responsibilities consistent with its major purposes, upon a self-liquidating basis. These projects include the development of additional sources of water supply within the State, and in co-operation with the States of Pennsylvania and New York, without the State.

It is anticipated that the State Department of Conservation and Economic Development during the balance of the present fiscal year, and during the next fiscal year, will devote a major portion of its time to the complex and difficult task of promoting slum clearance programs.

* * * * *

Without in any way minimizing the importance of the remaining departments, it is interesting to note that seven require 76.15% of the total State operating budget.

With respect to each of the remaining departments, it may be said that we are seeking, through the medium of co-ordination, to strengthen essential services.

Judiciary

The Judicial Branch of our government has been allocated in the budget \$1,605,030, somewhat less than the amount appropriated for the fiscal year ending June 30, 1949. Legislation strengthening the judicial pension system, adopted in 1948, has served a useful purpose and has made it possible for us to obtain personnel qualified to administer the finest judicial system in the country.

There are some changes that should, however, be made in the judicial pension program. Members of the Judiciary on retirement, and receiving pensions, should not be permitted to practice in the courts of this State. While I was inclined to believe that members of the Judiciary accepting pensions should not be per-

mitted to practice law under any circumstances, I am willing to accept the recommendation that judges on pension, who desire to engage in office practice, may be permitted to do so, provided their net earnings be credited against pension payments.

Judges on pension should be subject to limited and reasonable call for special service on the direction, and in the discretion of the Chief Justice.

Furthermore, members of the Judiciary returning to the Judicial service at an age when, under normal circumstances, they would not be entitled to a pension, should not be permitted to "tack" prior service for the purpose of qualifying for a pension.

Pensions

The Budget contains slightly over \$12,500,000 as the State's share of the cost of the pensions and pension systems to which it has traditionally contributed. At the last session of the Legislature, the pension rights of our State employees were strengthened by the passage of legislation, which specifically defined certain benefits which were not technically granted in the legislation prior to the amendment, but which were understood by State employees to be in force. Provision has been made in the proposed Budget for the additional State contribution required by the 1949 legislation.

Wages and Salaries

Provision has been made in the Budget for \$47,267,702 for salaries.* This sum will provide a normal increment, for each employee who has not reached the maximum of his salary range, as established by the Legislature in 1949. For those employees who have reached the maximum of their ranges, provision is made for the continuance of the bonus for an additional year.

Many of the departments have requested new employees. These have been allowed only where absolute need has been

* This does not include salaries payable to the employees of the Construction and Rights-of-Way Division of the Highway Department as part of the cost of new construction, and subject to increase, decrease, or elimination, depending upon the amount of new construction that may be authorized.

demonstrated. A good example is Skillman Village, where it was obvious that 1,500 patients required a strengthening of the staff in charge of treatment and custody.

The total number of such new employees, whose salaries total \$320,900, is 166. On the other hand, these budget recommendations provide for the elimination of 277 employees, with salaries totalling \$791,453.70.

BUDGET—PART II

STATE AID

A total of \$65,545,724 has been recommended for State Aid to our counties, municipalities and school districts. It is apparent that this sum, the largest in the history of the State, may not be increased in the absence of additional revenues or a substantial reduction in State services.

An examination of the financial position of the State should clearly demonstrate the extent of the State's efforts, at considerable cost, to help local governments during the transitional post-war period. A study of the accompanying schedules will disclose that, in the absence of additional revenues, it may not be possible to continue current grants at the present level another year.

\$33,961,439 has been allocated to education. Last year the comparable appropriation was \$33,336,814.68. It should be noted that the recommended appropriation includes an appropriation to the Teachers' Pension and Annuity Fund in the sum of \$8,961,439. The State is under an obligation to maintain the security of this fund. The trustees requested an appropriation, for the pension accumulation fund, of \$5,148,801. I am recommending an appropriation to meet this request of \$5,798,801. It is my conviction that we should strive to strengthen the Teachers' Pension program, making it more attractive and, quite frankly, making it possible for those teachers who have exhausted their enthusiasm for teaching to retire at an earlier age than is possible under the present program. The additional appropriation will make it possible for the legislation that was introduced last year to be considered this year. A more attractive pension program for teachers should prove of material assistance to our local school boards to obtain and keep the best qualified available teachers.

During the next few years, there will be a substantial growth in our school population. It is imperative that we plan now, in cooperation with the school districts, to meet the additional cost incident to this growth in school population. I should like to repeat the recommendations I made a year ago with respect to the desirability of completely revising our State Aid program for education.

There is included in the recommended appropriation for State financial assistance to the municipalities (apart from cash assistance to counties and school districts), \$10,908,000. The corresponding figure in 1950 was \$8,772,813. I propose that State Aid to municipalities should be distributed pursuant to the formula that will take into consideration all of the factors presently included in the various formulae covering grants-in-aid, with particular emphasis upon population and need. The responsibility for the administration of these funds should be placed squarely upon the municipalities, and the present open-end arrangement, whereby the State shares in a contingent liability, should be terminated. The duplication of administration and control that presently exists should be reduced. In other words, we are determined to make home-rule work.

The municipalities should be given greater freedom in their determination as to how State grants may best be used to meet their service requirements and protect their citizens.

Our municipalities, confronted with many problems—including the rising cost of direct relief—need help. We ought to recognize the obligation of government to help those in distress. We propose, however, that this help should be rendered with a minimum of repetitious administration.

Over a period of many years the State has traditionally lagged behind in the payment of its percentage of the cost of direct relief. For example, it has been necessary for me to recommend a deficiency appropriation of \$2,680,900 to meet the State's anticipated obligation for its share of direct relief to June 30, 1950. The transfer of major responsibility to the municipalities for "on-the-spot" administration of direct relief programs will permit the State to save approximately \$150,000 in administration costs.

BUDGET—PART III

CAPITAL IMPROVEMENTS

\$18,755,560 has been recommended for capital improvements. Of this amount, \$100,000 has been allocated to the Department of Law and Public Safety for the continuation of its building program, \$10,000 to the Fish and Game Council in the Department of Conservation and Economic Development for public shooting and fishing grounds, \$250,000 to the State University for the completion and equipment of buildings presently under construction, and the balance to the State Highway Department.

The State is presently engaged in the most important highway construction program in its history and, perhaps, the largest highway construction program in the country. The Turnpike project will be financed without resort to current taxes or borrowing from the Federal Government.

The sum appropriated to the State Highway Department for capital improvements will permit it to continue the major highway construction program undertaken during the past three years.

The capital improvement program for the Department of Institutions and Agencies, authorized by our citizens last November, will be discussed in a separate message. Additional capital improvement programs including the protection of one of New Jersey's most important assets, its beaches, present and potential, public parks and recreational centers are being studied.

General

The present budget is designed to keep State spending within presently available resources. It proposes that we should seriously strive to reverse the persistent growth in the size and cost of government. These objectives can be accomplished during a year of relatively high tax yields without the necessity for large new tax burdens.

The budget frankly recognizes that there are major issues which must be settled. It is in a very real sense an open invita-

tion to all levels of government to get together and work in close co-operation for the common welfare.

While it has been suggested that the best things in life are free, it is apparent that the maintenance of freedom imposes a heavy burden upon the American taxpayer.

There are, however, large-scale policies that may be adopted—including the strengthening of our insurance programs to protect our citizens against the vicissitudes of the industrial age, our Civil Liberties Program, Labor-Management Programs, as well as others that should be mentioned, which cost the government relatively little and yet promote substantially the general welfare.

I have appreciated the co-operation received from the heads of the various State agencies and regret that in many instances available funds and circumstances did not permit me to recommend the amounts requested.

Respectfully submitted,

ALFRED E. DRISCOLL,

Governor of the State of New Jersey.

Attest:

RANSFORD J. ABBOTT,

Secretary to the Governor.

Mr. Fraser moved that the communication be received and filed.

STATE OF NEW JERSEY,
SENATE CHAMBER,
February 6, 1950. }

Mr. Speaker:

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following concurrent resolution:

A Concurrent Resolution to declare the week of March 5-11 as "Save Your Vision Week," and for a proclamation thereof by the Governor.

WHEREAS, The New Jersey Optometric Association, in its effort to protect and improve the vision of the citizens of New Jersey, is carrying out a co-ordinated program of research, service and education in the prevention and correction of visual difficulties; and

WHEREAS, Visual efficiency in industry, in schools and on the highways is being improved through this program; and

WHEREAS, Visual problems, usually unaccompanied by pain, often go unnoticed until some misfortune involving inefficient vision occurs; and

WHEREAS, It is urgent that the estimated 2,000,000 persons in this State who need visual care be made aware of the importance of good vision to their general health and well-being; and

WHEREAS, The New Jersey Optometric Association, in co-operation with the American Optometric Association, is conducting an intensive education program during the week of March 5-11 through newspapers, radio and magazines; therefore,

Be It Resolved by the Senate of the State of New Jersey (the House of Assembly concurring):

1. The week of March 5-11 is declared to be "Save Your Vision Week" in the State of New Jersey, and the citizens thereof are urged to give their attention to visual care for their own welfare.

2. That the Governor by an appropriate proclamation so proclaim the said week of March 5-11 as "Save Your Vision Week" in this State.

3. This concurrent resolution shall take effect immediately.

In which the concurrence of the House of Assembly is requested.

OLIVER F. VAN CAMP,
Secretary of the Senate.

Which motion was adopted.

The following communication was sent to the desk and read by the Clerk:

STATE OF NEW JERSEY
OFFICE OF THE GOVERNOR
SPECIAL MESSAGE

March 20, 1950.

Mr. President, Mr. Speaker, Members of the Senate and General Assembly:

The tradition of local self-government goes to the very roots of public affairs in New Jersey. We may well ask ourselves how much have we done to nourish and sustain that tradition? Over thirty years ago, in 1917, New Jersey adopted the so-called Home Rule Act. Then the Pierson local finance laws were adopted. The Walsh Act brought the commission form of government to us in 1911 and the municipal manager law which was enacted in 1923. During the depression years we installed model municipal finance, bond and budget acts. We have adopted school codes, health and housing acts, and other local government laws, which rank among the best in the nation. We are devoting one-third of the State budget to help local governments financially. But we have only now come to the point of a comprehensive and complete review of all forms of local government in light of the vast fund of learning and experience regarding their form and structure which has accumulated.

There are those who will tell you that New Jersey has learned nothing new about the art of local government in thirty years, that the old ways are still the best ways, that new charters are just another way of the "outs" trying to replace the "ins." Thoughtful municipal officials know that this is a short-sighted view. The outs have their chance at every election—they do not need a charter referendum—and in the long run the people have a way of picking the best driver for their vehicle of government, whatever the model.

In face of the pressure of growing population, new service needs, and rising costs, however, the average person frequently cannot understand what appears to him to be uncertain responsibility, weak management or complicated administration. In both large and small communities, it

goes to the core of sound local government to maintain the faith and confidence of the citizen in his form of local government as well as in the conscientious men and women he selects to serve him. You now have bills before you, under the most favorable auspices, through which we can in cooperation do our part to give local government a way to sustain that faith and confidence, with better tools to do an even better job.

Pursuant to Joint Resolution No. 1 of 1948, introduced by Senators David Van Alstyne and Edward J. O'Mara and adopted unanimously, the Commission on Municipal Government was established. It was composed of able representative citizens, including members of the Legislature, a past president of the New Jersey State League of Municipalities, and leaders of civic organizations. It is worth remembering that the sponsors of Joint Resolution No. 1 (1948) had themselves been constructive members of the Constitutional Convention of 1947.

The Commission on Municipal Government filed its first report on February 14, 1949. Bills incorporating the recommendations of that report were introduced for study purposes during the 173rd legislative session. On February 20, 1950, the commission filed its second report. The legislative proposals contained in its first report have been strengthened and improved. The essential features of the program offered by the commission this year have been available for public scrutiny, study and debate for more than a year.

The importance of Assembly Bills Nos. 10, 11 and 12, introduced by the Speaker of the House of Assembly this year, incorporating the recommendations of the commission as modified by a year's study, compels me to reaffirm the recommendations contained in my Annual Messages of January 11, 1949, and January 17, 1950. It is my earnest hope that these bills which offer to our municipalities a "charter of self-government" will be adopted by the Legislature this year. These bills provide new vistas of opportunity for constructive self-government to our municipalities. They are designed to strengthen the democratic process at its roots, namely, in our home towns and cities.

In its letter of transmittal, the commission accurately states: "This legislation opens doors that have hitherto been closed to the citizens and officials of New Jersey

municipalities and closes none that have been open. While it imposes no new burdens or restrictions, it makes it possible for municipalities to free themselves from outmoded requirements and procedures under which both citizens and officials have been restive for many years."

Assembly Bill No. 10, sections 2-5, implements the new and far-sighted provisions of the Constitution of 1947. Article IV of the Constitution of 1947 reversed judicial precedents that had existed for more than 100 years. We now have an opportunity to take advantage of this reversal and to secure a greater degree of home rule for our municipalities than has previously existed in the modern history of our State.

Our municipalities are presently compelled to look to the Legislature for specific delegation of authority to meet new and pressing problems of considerable local significance. The resultant delay is frequently expensive, and the "buck passing" incident to such an arrangement does not promote public confidence in government. Government by remote control is seldom satisfactory.

As the American Municipal Association, the National Federation of State Leagues of Municipalities, stated in a thoughtful report published in 1949, "Legislative control of cities is fully as bad for the Legislature as it is for the municipalities themselves. A system that requires special legislation to meet special situations," the association pointed out, "opens the door to special privileges which legislators find it hard to refuse." The volume of these demands tends to divert the attention of our legislators from major issues of State policy requiring thoughtful deliberation.

It should be the objective of "home rule" to permit our municipalities to adopt the kind of government their citizens desire and believe to be most likely to meet their immediate requirements. All of our municipalities are confronted with demands for additional services. These modern services require a greater degree of flexibility in the structure of government than heretofore was necessary.

In 1948 when the various State Leagues of Municipalities were asked by their national association what issues would face them in 1949, they put home rule high on their list. Any municipality adopting a charter under the Optional

Municipal Charter Law (Assembly 10) would be free from many of the restrictive mandatory laws now on the statute books controlling departmental organization as well as the duties of the officers engaged in the performance of the tasks referred to such departments.

If we are to keep the total cost of government within reasonable limits current service demands compel us to seek more efficient methods. In 1939 approximately \$255,000,000 in taxes was available for the support of local government. In that year the financial assistance rendered by the State to its political subdivisions was comparatively small. In 1949 the grand total of all taxes, exclusive of State aid, available for our municipalities was over \$386,000,000. Over one-third of the State budget is devoted to cash assistance to our municipalities, school districts and counties. The magnitude of the financial problem, entirely apart from the pressing need to strengthen the capacity of local government to meet its immediate requirements, supports any recommendation designed to improve the structure of municipal government and to increase the opportunity for greater efficiency.

In an editorial appearing in the *National Municipal Review* for March, 1949, published by the National Municipal League, it is stated:

“The Faulkner Commission would also go as far as possible without constitutional amendment to meet another requirement of home rule defined by the American Municipal Association as the right of the people ‘to decide for themselves what services they require, without asking State permission for each new undertaking.’

“The Faulkner plan is to reward municipalities for modernizing their structure by relieving them of many mandatory requirements and giving them broad powers of local self-government rather than a strict list of powers. Under the new State Constitution it would be the duty of the courts to construe these broad powers liberally and resolve all doubts in favor of the municipality.

“Recognizing that citizen interest and participation are the basis of good government, the Faulkner report would encourage citizen study of existing governments and the possibility of improving them. In any municipality that has not, prior to 1955, adopted a new form or voted on the

question of having a charter commission to advise on needed improvements, the question of electing a charter commission would be put on the ballot automatically.

“The Faulkner report has been joyfully welcomed by an impressive cross-section of civic organizations, including the State Chamber of Commerce, the New Jersey Taxpayers Association, the Federation of Women’s Clubs, the League of Women Voters and the C. I. O. . . .”

In the year that has elapsed since the 1949 report, the New Jersey State League of Municipalities has worked hard toward perfecting the proposed legislation and, indeed, the commission in its second report acknowledges the many constructive suggestions offered by the municipal officials for the improvement and expansion of the proposals contained in the commission’s first report. I wish, at this time, to acknowledge the co-operative attitude of the officers and members of the executive board of the League.

These bills (A. 10, 11 and 12) will help local government to help itself, which is the essence of home rule. No municipality is compelled to change its present form of government. No municipality need adopt any part of the optional charter law, or retain an optional charter after it has adopted one. But every municipality would be given the option of selecting from among fourteen stock charters, which incorporate the best experience of the past fifty years—if and when the people of the community should decide by and for themselves that it is time for a change in their form of government. The bills would afford the machinery for self-understanding as well as self-expression in local government. It seems to me that the charter commission idea is the heart of the program—the touchstone of a new appreciation of what it takes to keep local democracy healthy.

A State that is developing a strong and efficient State government should be especially interested in the development of equally strong, efficient, self-reliant local governments. There should be no conflict between the various levels of government. Our municipalities, our school districts, our counties, States and the Federal Government, are all part of what should be a co-operative undertaking. Through the medium of co-operation and clarification of the respective duties of each level of government, we may look forward hopefully to a reduction in the extent, as well as the cost, of government.

I respectfully urge your favorable consideration of Assembly Bills Nos. 10, 11 and 12. They are an integral and important part of the program begun in 1947.

Mr. Fraser moved that the communication be received and spread in full upon the Minutes.

Which motion was adopted.

Mrs. Savage offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the privileges of the floor be extended to Eleanor Todd, President, New Jersey State Women's Republican Club.

Mr. Friedland offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, August C. Studer, Jr., as Chairman, and Carrol M. Shanks and James Kerney, Jr., as members of the Citizen's Committee, appointed by this House to investigate the purchase and sale of bonds for the State Benefit Fund, have made their report; and,

WHEREAS, The Studer-Shanks-Kerney Committee has made several well-considered recommendations to insure greater efficiency, to promote sound investment practices and to prevent fraud and corruption from investments of State funds; and

WHEREAS, Said committee report charges negligence and incompetence by State officials with respect to the purchase and sale of bonds and recommends investigation of such charges by law enforcement agencies of Federal, State and county governments; therefor

Be It Resolved by the General Assembly of the State of New Jersey:

I. That copies of the Studer-Shanks-Kerney report be transmitted to the following:

- (a) New York State Income Tax Bureau and the U. S. Department of Internal Revenue.
- (b) U. S. District Attorney for the District of New Jersey.
- (c) Prosecutor of Mercer County.
- (d) Governor of the State of New Jersey.

Be It Further Resolved, That the record of proceedings of said committee and a transcript of testimony adduced before the committee, be made available to all of the above agencies and offices.

The Clerk was directed by the Speaker to refer Mr. Friedland's resolution to the Committee on Judiciary.

Mr. A. Smith offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the privileges of the floor be extended to Mattie Doremus, former Assemblywoman; Betty Van Dine Smith, former Assemblywoman, and Mrs. Walter Margetts, wife of the State Treasurer of Passaic county.

The Speaker invited Miss Doremus to address the House.

Miss Doremus addressed the House briefly.

Mr. Fraser, Chairman of the Committee on Printed Bills, reports that consent has been given to introduce

Assembly Concurrent Resolution No. 14.

As introduced by Messrs. Herrmann and Tumulty.

Assembly Concurrent Resolution No. 14, entitled "A concurrent resolution extending the felicitations of the Legislature to the American Federation of Labor and the New Jersey State Federation of Labor on the occasion of the Gompers' Centennial,"

Was read and given no reference.

Messrs. Herrmann and Tumulty moved that the House concur in the resolution.

Upon a *viva voce* vote being taken, the Speaker declared the resolution concurred in.

A message was received from the Senate by the hands of its Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,

Mr. Field, Chairman of the Committee on Municipalities, reported

Assembly Bill No. 154,

With committee amendments.

Assembly committee amendments proposed to Assembly Bill No. 154:

Amend page 2, after section 4, add a new section as follows:

“5. In any such city wherein this act shall become operative, any mayor elected by the voters, thereafter may be removed by means of a recall after he has been in office one year. The procedure to effect the recall of said mayor shall be as follows:

A petition signed by qualified voters of the city, equal in number to at least fifteen per centum (15%) of the number of persons who voted in the city at the last preceding general election, demanding the recall of the mayor shall be filed with the city clerk. The petition shall contain a general statement of the grounds upon which the recall is sought. The signatures to the petition need not all be on one paper. Each signer shall add to his signature his place of residence, giving the street and number, if there be such. One of the signers to each such paper shall take and sign an oath that the statement therein made is true, as he believes, and that each signature to the paper is bona fide. Within ten days from the date of filing the petition, the city clerk shall complete the examination and ascertain the sufficiency of the petition and signatures. Said clerk shall attach to the petition his certificate showing the result of his examination. If, by that certificate, the petition is shown to be insufficient, it may be amended within ten days from the date of said certificate. The city clerk shall, within five days after such amendment, make a similar examination, determination and certificate. If the amended certificate be insufficient, as shown by the certificate, said petition shall be returned to the person filing it, without prejudice to the filing of a new certificate to the same effect.

If the petition shall be sufficient, the city clerk shall, within two days, notify the mayor whose recall is sought. Any such notification shall be in writing and shall be served personally upon the mayor or sent to his last known address by registered mail. If within five days of the service of said notice the mayor does not resign, the city clerk shall order and fix a date for holding a recall election. The election shall not be less than forty nor more than fifty days from the filing of the petition. Notice of the filing of the petition and of the election, as fixed, shall be posted in the office of the city clerk and the city clerk shall also cause the said notice to be published in a newspaper published or having a general circulation in such city.

The procedure relative to the submission and determination of the said question of the mayor's recall shall be in substantially the same manner as herein provided for the approval of this act by the voters of the city.

The official ballot shall contain the proposition in substantially the following form:

	Yes	Shall
		(insert name of mayor)
		be removed from the office of
	No	mayor by recall?

If the majority of the legal voters voting upon such proposition at such election shall vote "Yes," the mayor shall cease to hold his office as such, and the office of mayor in said city shall become vacant as in the case of a vacancy occurring by any cause, but if the result of the recall election shall be against the recall, the mayor shall continue in office as if no recall election had been held."

Amend page 2, section 5, line 1, change "5" to "6".

April 3, 1950.

To the Honorable the Speaker and the Members of the General Assembly of the State of New Jersey:

GENTLEMEN—We, the former members of the Citizens' Committee which investigated the State Disability Benefits Fund at your direction, have considered and discussed the proposed bill tentatively known as A-15. Also we have attended the several meetings called by the State Treasurer to discuss the proposed legislation generally.

It is our belief that the draft of legislation which was delivered to you this morning by one of us represents the ideas of those who have been considering this matter as well as our own.

In our opinion, if you pass this legislation as now suggested, it will be in the best interests of all concerned, that is, the beneficiaries of the respective funds involved and the public generally.

With the right personnel, which, of course, is assumed, we have no doubt but that this legislation should correct the irregularities disclosed by our investigation, that it will be a credit to the State of New Jersey and that it may well serve as a model for other States to follow.

Respectfully yours,

JAMES KERNEY, JR. (Signed)

CARROL M. SHANKS (Signed)

AUGUSTUS C. STUDER, JR. (Signed)

Mr. Neutze presented the Minority Report of the Appropriations Committee and requested that it be spread in full upon the Minutes.

MINORITY REPORT

Submitted by GEORGE F. NEUTZE, Democratic Member of the Assembly Appropriations Committee.

Mr. Speaker and Ladies and Gentlemen of the House:

We of the Minority Party have joined with our fellow members of the House in voting for all good, decent and constructive legislation. We have co-operated in helping to pass legislation that will benefit the greatest number of people. However, one of the principles upon which our Democracy was founded is the right to differ with the Majority Party and at this time I wish to record my views and enter my protest so that the members of the Legislature, and the public at large in this State, will better understand my position on the Appropriations Bill.

As a minority member I received, as did those of the majority, hundreds of letters from people in all walks of life requesting my attention to certain phases of the Governor's Budget. Wherever and whenever possible I sin-

cerely attempted to read every one that came to my desk, and while serving upon the committee proper attention and diligence was afforded to each departmental head. It was interesting to note that the several departmental heads had requested over a quarter of a million dollars, but almost without exception as each one appeared before the full committee I soon became cognizant of the fact that he was fully satisfied with the Governor's recommendation and did not strenuously seek further funds.

During the course of the last gubernatorial campaign I took the liberty of reading some of the promises made by my neighbor from Haddonfield and among others he promised further appropriation for the aid of school teachers; that he favored increased State aid for education, and I think we should do well to mind that he favored any and all increases that would promote the public welfare, and it is no exaggeration to say that the heads of the many State departments, as well as the voting public, believed in his generous statements and were led into a sense of false security.

I should like to refer you to two events that brought a general protest from every county in the State; the first was a cut in the library appropriation and the second was the elimination of the State Museum. The Governor suggested that the museum be closed and the floor space it occupies in the State House be converted to offices. The museum had served the people of New Jersey since 1890, but when many of those persons rose up in protest they were able to have the Appropriations Committee restore the cut and deletion and so keep New Jersey from becoming one of the so-called "backward" States. If it were not for these intelligent persons who made their voices heard the reduction of services and the closing of the State Museum would have been not only drastic but destructive.

Representing Camden County I must be somewhat provincial in my thoughts when I see the South Jersey Port Commission tightening its grip on the throat of the city of Camden. This bill, in accordance with the Governor's recommendations, has slashed over \$51,000 from the appropriation which the Port Commission had asked, the principal cut being a \$50,000 item for dredging silt or mud from the river at the Camden Marine Terminal. Instead of the \$83,000 which the commission received from the State

this year, it now stands to receive only \$31,000 for the coming fiscal year.

At the time of the public hearing afforded to the members of the Port Commission, I inquired of Mr. DeValliere why the Governor had made this cut. His answer must be admired for its frankness. He has quoted the Governor as saying: "First things must come first, so he decided he may as well start with Camden." Whether the Governor's attitude toward Camden can be in any way related to the 22,000 majority against him in the last election I do not know, but if he continues to treat us as shabbily in the future then I can predict that if he ever runs for public office in this State or on a national level, that majority against him would be twice that figure.

From the city of Camden's point of view this cut is anything but economy. The Port Commission asserts the dredging must be done regardless, in order that ships can continue to dock at Camden terminals. The dredging must be now done as an operating expense. This means that \$50,000 will be taken from surplus funds which otherwise are supposed to be accumulated and periodically paid back to the city in return for the \$190,000 which the city must annually appropriate to the Port Commission under its one-sided contract with that agency. This cut by the Governor is difficult to comprehend, especially when the silt and mud is taken to the lower South Jersey counties bordering on the Delaware river and used to build up the river banks along other counties.

Governor Driscoll was careful during his last campaign for re-election to the high executive office of this State to avoid making a flat pledge against any new taxes. Before the campaign got under way he was instrumental in balking a proposal that the platform of the Republican Party contain an outright pledge against new taxes.

Despite the great political risk the Governor took in refusing to make this popular promise during the campaign, the Republicans in this Legislature are attempting to make good the promise he consistently refused to make.

Your party, Mr. Speaker, is attempting to keep a promise your candidate refused to make. The Majority Party is trying to avoid new taxes by the easy method of borrowing from the so-called road fund.

To balance last year's \$159,000,000 budget the State "borrowed" \$19,500,000 of highway departmental funds, but due to decreased requirements, plus greater tax collections in the General State Fund, it is anticipated that this amount will decrease to approximately \$9,000,000.

When budget difficulties loomed even larger this year than last, the Governor decided to transfer more than \$22,000,000 from highway funds.

Use of the word "borrowing" instead of diversion in dipping into the highway funds is merely an expedient by which the State tries to avoid Federal penalties attached to such practices.

When my neighbor in his budget message announced plans to tap the State Highway Fund for \$22,000,00 he argued that it was not "diversion" of revenues obtained from motorists. The Governor's contention was that the \$22,000,000 would be paid out to local governments in the form of State aid which will run to about \$65,000,000 for 1950. Since the counties and municipalities spend approximately \$50,000,000 a year to maintain their highways, he said the \$22,000,000 actually would be spent by them for that purpose and so the fund was not being "diverted" to nonhighway use.

This argument brought forth challenges from several sources, on the ground that it was specious, misleading and constituted a fraud upon the motoring public and that it was diversion regardless of the words used to describe it.

It summons my imagination to believe that this so-called borrowing is anything but "road diversion." It is deficit spending in its most flagrant form.

It has been said by Senator Bodine that the real purpose of road diversion (and he used that term in his talk when the appropriation bill was being debated) was to avoid new taxes. Then I must enter my protest and ask why should the motorist be penalized. He now pays the highest tax for the privilege of operating a motor vehicle in fact, to my knowledge, there is no other State charging a fee higher. He pays \$3.00 for a license and \$1.00 for inspection service. The New Jersey motorist is becoming the fall guy for State budget purposes.

The Governor recommends that the Tenement House Commission be taken over by the New Jersey State Police and the budget reduced from \$181,000 to \$100,000. What we need is the Tenement House Bureau left as it is to function as it has for 45 years—efficiently and economically.

New Jersey has the largest number of tenement houses percentagewise of any State in the Union, and according to State board statistics there are over 50,000 legal apartments in which are housed 313,000 families, or a quarter of the State's population. I earnestly maintain that these people are entitled to receive the protection they have been accustomed to during the past 45 years.

The budget request made by the Tenement House Commission is virtually the same as the amount of money granted the board of the 1949-50 fiscal year. Cost for the department based on the current budget approximates four cents per apartment. Nothing could be further from the truth than to term this item an imposition upon the taxpayer.

The State police furthermore are not qualified to do the highly technical work which is required of a tenement house inspector. When Attorney-General Parsons appeared before the Appropriation Committee the best information that he could afford the committee was to the effect the Department of State Police has one deaf trooper whom he had considered assigning to the job. It is highly probable that the Attorney-General is not aware of the volume of work handled by this important department. The board's statistics reveal that during 1949 it approved plans and supervised half a billion dollars worth of new construction throughout the State. Certainly this work cannot be done by amateurs or, for that matter, by semi-invalids.

If this transfer, together with the reduction in the Governor's Budget Message, is accomplished, municipalities with apartment houses will suffer immeasurably.

The teachers of the State have been forgotten. Proof of that statement can be found wherein an item of \$650,000 as provided in Assembly Bill No. 286, which, by the way, passed this House without a dissenting vote, was not only emasculated but the actual sum of \$650,000 was diverted to other purposes. I dare say that Camden City would appreciate, had the committee seen fit, to take only a portion

of the \$300,000 it appropriated for beach erosion transferred to dredging purposes at Camden Marine Terminal. Beach erosion is a serious problem, but I for one feel that it can be postponed, especially when we are told that we must operate under an economy budget. The desirability to attract high type people into the teaching profession is much more important to the State generally than the building of a jetty along the coast.

It is necessary to a complete understanding of the bill to debate the Appropriation Bill item for item, which time does not allow. I sincerely wish it was within my power to change some of the items in this Appropriation Bill, but since it is not I can only enter my protest in this brief review and, therefore, must enter my protest and I cannot vote for the bill.

	STATE OF NEW JERSEY, TRENTON, NEW JERSEY, EXECUTIVE DEPARTMENT,	}
<i>To the General Assembly:</i>	May 10, 1950.	

I am returning herewith, without my approval, Assembly Bill No. 228, for the following reasons:

This bill was originally suggested by the State Department of Health. It proposes to amend certain provisions of law relating to the reporting of stillbirths. There are, however, serious questions in my mind with respect to the conformance of these provisions with other statutes, and with those relating to the requirements for filing of certificates and for burial or removal permits in such cases. A further review of the subject before the completion of legislative action is apparently desirable.

For these reasons I am constrained to return this bill without my approval.

Respectfully submitted,

Attest:	ALFRED E. DRISCOLL.	
R. J. ABBOTT,		<i>Governor.</i>
<i>Secretary to the Governor.</i>		

Received from the office of the Governor on May 10th at 2:45 P. M. the return of the following bill, together with message attached thereto:

In the negative—None.

Mr. Salsburg offered the following resolution, which was read by the Clerk and adopted:

Resolved, That Senate Bill No. 228, entitled "An act to amend and supplement the 'Housing Co-operation Law,' being chapter twenty of the laws of one thousand nine hundred and thirty-eight, approved March eighth, one thousand nine hundred and thirty-eight (P. L. 1938, c. 20)," be returned to second reading for the purpose of amendment.

Mr. Salsburg offered the following amendments to Senate Bill No. 228, which were read.

Assembly amendments proposed to Senate Bill No. 228:

Amend page 6, by striking out section 5, lines 1 to 19, and page 7, lines 20 to 41, and inserting in lieu thereof the following:

"5. Bonds and notes of municipalities to aid projects. (a) Any city, town, borough, village or township is hereby authorized and empowered to incur indebtedness, borrow, appropriate and expend money and to issue its bonds for the purpose of aiding any housing authority or redevelopment agency in the undertaking of any housing or redevelopment project as to which the Federal Government shall have contracted to furnish financial assistance.

(b) Any bonds of any city, town, borough, village or township issued under this act shall be authorized by ordinance adopted by the governing body of said municipality in the manner or mode of procedure prescribed by the local bond law, constituting sections 40:1-1 to 40:1-88 of the Revised Statutes, and said bonds shall be issued in the manner or mode of procedure prescribed by said law, except that (1) said bonds may be authorized and issued notwithstanding any debt or other limit prescribed by said law, (2) no down payment shall be required, (3) said bonds shall mature in annual installments, commencing not more than two years from the date of said bonds and ending not later than the end of the period of usefulness determined in said ordinance as hereinafter provided, and (4) the ordinance authorizing such bonds need set forth only a brief and general description of the said project, the amount of the appropriation made thereby and amount of bonds to be issued pursuant thereto, a determination of the period of usefulness of such project within the limitations fixed by said local bond law for such project if the same had been

undertaken by such municipality, the rate or maximum rate of interest the bonds shall bear and the date and maturities of the bonds. Such bonds may be made subject to redemption prior to maturity with or without premium at such times and on such terms and conditions as may be provided by resolution of the governing body adopted prior to their issuance, and all matters relating to such bonds not hereinabove required to be stated in such ordinance may be performed or determined by resolution or resolutions of the governing body adopted prior to their issuance.

(c) No such ordinance authorizing bonds to aid in the financing of any such project shall take effect unless and until there shall be endorsed upon a certified copy thereof as adopted, the approval of the Local Government Board of the Division of Local Government in the Department of the Treasury. A certified copy of such ordinance shall upon adoption be filed with said board together with such statements and information with respect thereto or regarding the financial condition of said municipality as said board may prescribe. Said board shall cause its approval to be endorsed upon such certified copy if it shall be satisfied and shall record by order its estimates that (a) the amounts to be expended for such project are not unreasonable or exorbitant, (b) issuance of said bonds will not materially impair the credit of said municipality or substantially reduce its ability during the ensuing ten years to pay punctually the principal and interest of its debts and supply essential public improvements and services, and (c) taking into consideration trends in population and in values and uses of property and in needs for essential public improvements, the percentage of net debt of said municipality, computed as provided in said local bond law, will at some date within ten years be either less than seven per centum (7%) or less than the amount thereof computed at the time of taking effect of said ordinance. If said board shall not within sixty days after filing of said certified copy with it be satisfied as to the matters described above, it shall cause its disapproval to be endorsed on such certified copy and shall deliver to said municipality a statement of its reasons for such endorsement of disapproval.

(d) Any city, town, borough, village or township may issue its negotiable notes, at public or private sale, in anticipation of the issuance of bonds authorized by any such ordinance after such ordinance has taken effect and

may, from time to time, renew any such notes. All such notes (including renewals thereof) shall mature and be paid not more than two years from the date of the adoption of the ordinance authorizing the bonds in anticipation of which the notes are issued. All such notes may be authorized by resolution adopted by the governing body of said municipality.

(e) All bonds and notes issued hereunder shall be direct and general obligations of the city, town, borough, village or township issuing them and, unless payment is otherwise made or provided for, a tax sufficient in an amount to pay the principal and interest on such bonds and notes shall be levied and collected by said municipality in the year in which the same shall become due and payable. Such bonds or notes may contain a recital that they are issued pursuant to this act in the manner or mode of procedure prescribed by said local bond law and such recitals shall be conclusive evidence of their validity and of the regularity of their issuance."

Delete section 6, page 8, line 1, and insert the following:

"The provisions of chapter two of Title 40 of the Revised Statutes shall not apply to any public body in the exercise of the powers conferred upon it by this act toward the fulfillment of the purposes of this act.

7. This act shall take effect immediately."

Senate Concurrent Resolution No. 9, entitled "A concurrent resolution to commemorate the Two Hundredth Anniversary of Indian King Tavern."

WHEREAS, The Indian King Tavern constructed in 1750 at Haddonfield is rich in historic associations; and

WHEREAS, It was there that the State Assembly met in the year 1777, during the Revolutionary War, when the fighting in and about Trenton and Princeton necessitated a change in the place of its meeting; and

WHEREAS, It was there, on September 20, 1777, that the State Assembly enacted the legislation requiring the substitution of the word "State" for "Colony" in all public documents of New Jersey; and

WHEREAS, During the sessions held at Indian King Tavern other very important legislation was enacted, such as the creation of the Council of Safety, that militant organization composed of the new Governor Livingston and twelve other prominent citizens, who directed the work of local defense. Also it was at this time that the first Great Seal of the State of New Jersey was accepted; and

WHEREAS, Indian King Tavern has been purchased by the State and preserved as an historic memorial; and

WHEREAS, It is fitting and proper that this building, so rich in historic and patriotic tradition, be commemorated; therefore,

Be It Resolved by the Senate of the State of New Jersey (the House of Assembly concurring):

1. June sixth through June tenth, 1950, are hereby designated as Indian King Tavern Days in commemoration of this historic landmark.

2. The Governor is requested by appropriate proclamation to so proclaim said days as "Indian King Tavern Days" in this State.

In which the concurrence of the House of Assembly is requested.

OLIVER F. VAN CAMP,
Secretary of the Senate.

A message was received from the Senate by the hands of its Secretary—and was read by the Clerk:

STATE OF NEW JERSEY,
SENATE CHAMBER,

Mr. Speaker:

May 17, 1950. }

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following concurrent resolution:

Senate Concurrent Resolution No. 10, entitled "A concurrent resolution concerning the creation and maintenance of a Legislative Reference Agency for the Legislature and providing for a budget recommendation in respect thereto."

WHEREAS, The Senate and General Assembly have never had available to them any Legislative Reference Agency through which the services of research experts can be made available to them and to their respective committees and

members for the making of studies and reports in connection with factual matters relating to the subject matter of prospective and pending legislation; and

WHEREAS, The need for such a Legislative Reference Agency has been felt by the members of the Legislature for a period of years and it seems desirable that measures should be taken to provide for the same in the near future; therefore,

Be It Resolved by the Senate of the State of New Jersey (the House of Assembly concurring):

1. The Law Revision and Bill Drafting Commission hereby is requested to make a study of, and devise a plan for, the creation and maintenance of an appropriate Legislative Reference Agency, of the character hereinbefore referred to, to consult with the Attorney-General and the State Librarian in connection therewith, and to report thereon to the next Session of the Legislature.

2. The Governor of the State and the Director of the Division of Budget and Accounting in the Department of the Treasury, and the Joint Appropriation Committee of the One Hundred and Seventy-fifth Legislature, hereby are requested to recommend the appropriation of a sufficient sum of money to provide for the creation and maintenance of such a Legislative Reference Agency for the use of the Legislature, to be of such form and character as said Legislature shall determine.

3. This concurrent resolution shall take effect immediately.

In which the concurrence of the House of Assembly is requested.

OLIVER F. VAN CAMP,

ASSEMBLY BILL No. 273

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 273.

The proposed legislation would restrict the liability of a decedent's real estate for the payment of legacies to ten years after such legacies are payable, unless action to recover a legacy has been commenced within that period or the decedent shall have provided otherwise in his will.

Situations may arise where an executor cannot, or in view of compelling circumstances does not deem it wise to sell real estate. The executor and the legatees—in fact all parties in interest—might recognize the realities of the situation, and yet under Assembly Bill No. 273 the decedent's real estate would, after ten years, not be liable for the payment of any legacies except under the circumstances noted. The legislation would thus override the will and frustrate the intention of the testator.

Accordingly, I am returning the bill herewith without my approval.

Respectfully,

ALFRED E. DRISCOLL,
Governor.

ASSEMBLY BILL No. 244

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 244.

The Local Bond Law, since its enactment in 1916, has provided that in any limit for the issuance of bonds, both the bonds issued and outstanding and any bonds authorized but not issued, must be taken into consideration.

One of the amendments proposed in Section 10 of Assembly Bill No. 244, concerning certain county park commissions, would place a limit on county park “bonds or

other obligations, outstanding at any one time" rather than on "such bonds both authorized and outstanding". The provision of Section 10 in this respect is a departure from a long established and sound principle of limitations on the incurring of debt.

Accordingly, I am returning Assembly Bill No. 244 for reconsideration and with the recommendation that amendment be made to the bill (Official Copy Reprint) as follows:

On page 2, section 2, line 12, after the word "obligations," insert the words "both authorized and".

ASSEMBLY BILL No. 237

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 237.

This amendment to R. S. 5:2-12, which now imposes a 10% tax on the total gross receipts from the sale of tickets to any boxing, wrestling or sparring exhibition or performance would, in addition, impose a 5% tax on any moneys received from the sale or lease of television, moving picture or radio rights in connection with such exhibition or performance.

Revenue from the sale of television, radio and motion picture rights is as much a part of the receipts of such exhibitions or performances as are moneys derived from the sale of tickets. Television has in many cases drastically reduced gate receipts. In fact, many athletic clubs have been forced to discontinue the staging of exhibitions and performances. At the present time the State is being asked

to bear the expense of supervising "shows" put on largely for the television audience with little or no income from its tax on the sale of tickets. The 5% levy will only partially compensate the State for the loss on revenues from gate receipts. New York has a similar tax applicable to radio, motion pictures and television.

As originally introduced and passed by the Assembly, this bill fixed the new tax at 10%. In reducing this tax to 5% by amendment introduced and adopted on the closing day of the session, the Senate inadvertently also reduced the existing 10% tax on gate receipts to 5%. This is evident from the fact that the 10% figure is retained in the proviso of the present act permitting the Athletic Commissioner to reduce the tax on gate receipts from 10% to 5% in the case of championship bouts.

Accordingly, I am returning herewith Assembly Bill No. 237 for reconsideration and with the recommendation that amendment be made to the bill (Second Official Copy Reprint) as follows:

On page 1, section 1, line 10, after the words "tax of" delete "five per centum (5%)" and in lieu thereof insert "ten per centum (10%)".

Respectfully,

ALFRED E. DRISCOLL,

Governor.

ASSEMBLY BILL No. 189

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 189, for the following reasons:

The amendment to R. S. 54:5-87 proposed by this bill would bar any attack upon a decree or judgment heretofore entered, in a tax foreclosure proceeding (other than an in

rem proceeding), because of insufficient inquiry as to the name and address of any defendant, his heirs, assigns or personal representatives, where such attack is made after five years from the effective date of the bill. Similarly, it would bar any attack, on like grounds, upon a judgment hereafter entered in such proceedings, made after five years from the date of its entry. This amendment is of doubtful constitutional validity.

Inquiry is basic to proper proceedings under the Tax Foreclosure Act. A bona fide, complete and thorough-going inquiry for all parties in interest is an essential and jurisdictional element, whether required by law or rule of court. If the inquiry is defective there is a fatal weakness in the proceedings. There being no notice, either actual or constructive, to parties in interest, there is lack of due process. The result is a judgment void as to such parties. They should not be barred from attacking it.

Accordingly, I am constrained to return this bill without my approval.

ASSEMBLY BILL No. 171

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 171, for the following reasons:

Under present law Saturdays during July and August are considered "as public holidays", with respect to the transaction of business in public offices. The purpose of this bill, as introduced, was to establish Saturdays throughout the year as such public holidays. As amended before adoption, the bill would extend the period during which Saturdays are such public holidays from June 15th to September

15th, and would continue to apply in all public offices of the State, the counties and municipalities.

The public business is a business of service for the convenience, welfare and safety of the people. To this end it is our obligation to keep public offices open at all reasonable hours. In this respect government cannot and should not hope to emulate some private businesses which have seen fit to close on Saturdays. Many State and local services, including hospitals and police, must operate around the clock without interruption. Many offices, accordingly, may neither conveniently nor properly be closed, so-called public holidays to the contrary notwithstanding. Any increase in public holidays is bound to increase the cost of government.

As employers, we can well appreciate the advantages of a five-day week for employee morale. But a five-day week for employees does not necessarily require a five-day week for the public business or an increase in the number of public holidays. Through careful administration, the management of public offices may in many instances arrange for a five-day week where this arrangement is proper and in the public interest. There is presently sufficient authority for the operation of public offices on Saturdays, other than those during July and August, with a skeleton force.

While I sincerely hope that public employees can enjoy the greatest possible leisure consistent with their public trust, the conditions of work and paramount requirements of service to the public differ so widely in different departments and agencies, let alone in the different counties and municipalities, that the subject of Saturday closing cannot properly be regulated with any more uniformity than is already provided by law.

Accordingly, I am constrained to return Assembly Bill No. 171 without my approval.

Respectfully,

ALFRED E. DRISCOLL,

Governor.

ASSEMBLY BILL No. 161

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 161.

This measure would, among other things, require the filing of notices of reimbursement agreements relating to grants of old age assistance with the county court clerk rather than, as at present, with either such clerk or the register of deeds and mortgages, in counties which have such offices. Upon the filing of any such notice the real property in which the recipient of the grant has an interest becomes charged with a lien for the grant.

Accordingly, there appears to be no sound reason for deleting the authorization to file notices of these agreements in the office of the county register of deeds and mortgages. I am, therefore, returning the bill without my approval.

Respectfully,

ALFRED E. DRISCOLL,

Governor.

ASSEMBLY BILL No. 160

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 160.

This bill would amend in two respects the statute governing the State Employees' Retirement System. One of the amendments would provide that as used in Section 43:14-34

of the Revised Statutes (retirement for accident disability) the term "final compensation" shall mean the actual annual compensation rate being earned by the employee at the time of the occurrence of the accidental disability. This appears to be an eminently fair and desirable change in the law.

The second amendment proposed by this bill would authorize an applicant for retirement, at his option, to select, prior to the date of retirement, any five consecutive years of his membership for the purpose of determining the average annual compensation upon which his pension would be based. At the present time, in lieu of a pension based on the average annual compensation "earnable" by him for the five years immediately preceding his retirement, a member may at his option have his pension based upon any five consecutive years *within which period of five consecutive years he was entitled to retirement for service*. It would appear that the proposed amendment, permitting selection of any five years, should be held in abeyance until such time as its effect upon the provisions of Chapter 28 of the Laws of 1949 can be determined. If study indicates that R. S. 43:14-1 (e) should be further amended along the lines now proposed by Assembly Bill No. 160, consideration should be given to having the amendment operative when the member, at his option, chooses to have his contributions established on the basis of the compensation earned in the five years selected.

Accordingly, I am returning herewith Assembly Bill No. 160 with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

On page 2, section 1, lines 27 and 28, after the word "membership," insert the words "within which period of five consecutive years he was entitled to retirement for service,".

On page 3, immediately following section 1, insert the following new section: "2. This act shall take effect immediately."

Governor.

ASSEMBLY BILL No. 148

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 148, for the following reasons:

Combining the offices of municipal assessor and collector of taxes is a practice of doubtful merits which should not be encouraged. The person charged with the duty of collecting taxes should not also be the one who makes the assessments which determine the amount of taxes to be paid by individual taxpayers.

I am advised by the Division of Local Government, Walter Darby, Director, in the Department of the Treasury, that the division holds "the two offices are incompatible and should not be combined". I agree with this conclusion. Our experience in New Jersey has demonstrated that the beneficial "controls" that exist when the two offices are held by different persons should be maintained.

The fact that Assembly Bill No. 148 applies only to boroughs of less than 2,000 population, and provides for a referendum on the question of abolishing the office of assessor and combining his duties with that of the tax collector, does not make the proposed legislation any the less a questionable precedent.

Accordingly, I am returning the bill herewith without my approval.

Respectfully,

ALFRED E. DRISCOLL,

Governor.

ASSEMBLY BILL No. 132

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 132, for the following reasons:

Section 18:14-8 of the Revised Statutes presently authorizes school districts to provide transportation for children "living remote from any schoolhouse". Assembly Bill No. 132 would broaden the authorization to include transportation supported by State aid for all such children who "encounter extraordinary traffic hazards in reaching the schoolhouse".

Heretofore State aided transportation has been based on distance. The protection of children against traffic hazards has been considered a local responsibility. Some municipalities have met this responsibility by furnishing police protection, building sidewalks, or installing traffic lights; and some school districts have met the problem by providing transportation at local expense.

The present State Administration, including our State Department of Education, yields to none in its constant concern for the safety and well-being of our school children. Our record to date on this subject is clear. Greater strides have been made in the field of State aid for education in the past four years than ever before in the history of our State. It is our earnest desire that this progressive spirit shall not be diminished in the years ahead.

Under P. L. 1946, c. 63, sec. 6, school districts are entitled to State aid in the amount of 75% of the cost of transportation when the necessity, cost and method thereof have been approved by the county superintendent of schools. Were Assembly Bill No. 132 to become law, the State would undoubtedly be asked to assume 75% of the cost of additional transportation provided. I am advised by representatives of the Department of Education that transportation costs and State aid therefor would soar under the proposed extended transportation program. No provision has been made by the Legislature for the payment of these additional costs.

If it is determined that the time has arrived to relieve municipalities of the responsibility to provide means to protect school children against traffic hazards and to require instead that school districts furnish transportation, and if it is further determined that the State should pay a share of this cost, legislation so providing should be written only after a careful study of all aspects of the problem, including provision for payment by the State of the additional financial obligation.

It should be noted that the bill fails to establish a standard or guide for the determination as to what constitutes an "extraordinary traffic hazard", and so invites as many interpretations as there are school districts. Again, the twenty-one county school superintendents who presently approve applications for State aid under P. L. 1946, c. 63, may vary widely in determining what applications for the additional transportation service permitted by this bill, should be approved.

Before the State requires transportation at public expense in order to avoid traffic hazards and provides State aid therefor, it is prudent that the question of the extent of State aid to be provided be carefully considered and standards established to define the extent of the protection to be afforded.

I intend, therefore, to refer this important subject to the State School Aid Commission, established pursuant to Senate Joint Resolution No. 2, now Joint Resolution No. 9 of 1950, with a request for a detailed study and report as to: (a) recommended standards for determining extraordinary traffic hazards requiring extended transportation; and (b) the extent to which the State should share in the additional cost involved.

Accordingly, I am returning Assembly Bill No. 132 herewith with the recommendation that the legislation on this important subject be deferred until after the report of the State School Aid Commission has been filed.

In the meantime, all levels of government under the leadership of the State Board of Education should seek and put into effective operation the best possible protective measures for the safety of our school children.

Respectfully,

ALFRED E. DRISCOLL,

Governor.

ASSEMBLY BILL No. 106

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 106, for the following reasons:

Subject to the provisions of Chapter 357 of the Laws of 1941, every person of full age who has or shall have legal settlement in this State shall have municipal settlement for the purposes of that act in that municipality in which he has last resided for one continuous year. Assembly Bill No. 106 would qualify this provision by providing that "any time during which a person was, or shall have been, employed and domiciled in any public institution situated in any municipality, shall not be counted as residence within the municipality in determining his municipal settlement therein".

This bill would, among other things, confuse the status of many individuals whose residence has been established on the basis of existing laws.

Accordingly, I am returning the measure herewith without my approval.

Respectfully,

ALFRED E. DRISCOLL,

ASSEMBLY BILL No. 104

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 104, for the following reasons:

Assembly Bill No. 104 amends P. L. 1927, c. 190 (R. S. 43:13-2 to 22), which sets up a pension fund covering

permanent employees of cities of the first class, except for members of the police and fire departments and certain employees eligible for membership in the pension funds established under R. S. 43:18-1 *et seq.* and 43:19-1 *et seq.*, respectively.

The legislation would weaken, rather than strengthen, the actuarial soundness of the pension fund. Accordingly, we may be hurting the very people we are trying to help. Although the employee contribution rate to such fund is being raised from 3% to 4%, the maximum pension to dependents is increased from \$1,000.00 to \$2,000.00.

I am advised that on the basis of contribution rates which have been found necessary under other plans with similar benefits, neither the present 3% nor the proposed 4% contribution rate can support the benefits now payable out of the pension fund. Further, the cost of the additional benefits provided by this amendment exceeds the increase in the contributions payable by members. The result will be that the pension fund will be even less solvent than it is now, so that the municipality which, under the provisions of R. S. 43:13-9, must make up any deficit by including in the tax rate a sum sufficient to meet the requirements of the fund, will be faced with a continuing and increasing annual fiscal burden. In some sections of the country this precise situation has led the municipality to terminate its pension program.

My action on this bill, as on similar bills which I have returned without my approval, is designed to protect present and prospective members of these pension systems. Only if these systems are made and kept actuarially sound will they be in a position to accomplish the objectives for which they were established.

Accordingly, I am constrained to return the bill without my approval.

Respectfully,

ALFRED E. DRISCOLL,

Governor.

ASSEMBLY BILL No. 98

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 98, for the following reason:

This bill would validate any sale, conveyance, lease or modification of lease of lands and premises made by any municipality or county, whether at public or private sale or by agreement, as well as all proceedings held in connection therewith.

The only conditions attached to such validation are that the sale, conveyance or lease shall have been made at least one year prior to the passage of the act, and the municipal governing body or county board of chosen freeholders shall have authorized or confirmed, or shall confirm, the transaction.

Although sound reasons may exist in particular instances for the validation of conveyances made despite certain technical defects, I cannot affix my approval to a bill which excuses the failure to comply with any and all safeguards imposed by law.

Accordingly, I am constrained to return this bill without my approval.

ASSEMBLY BILL No. 87

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 87, for the following reasons:

The provisions of this bill give a party aggrieved by a judgment rendered in a local court of limited criminal jurisdiction in a municipal ordinance violation case the option to appeal directly to the Appellate Division of the Superior Court if a certified transcript of the proceedings exists. This proposal runs counter to the Supreme Court Rules and the policy underlying them. Involved is the orderly internal administration of court business.

In a recent case, the Supreme Court held that "review of judgments of conviction in the local criminal courts may be had only by way of appeal to the County Court, except in extraordinary cases 'where it is manifest that the interests of justice require otherwise,' when—and only when—review may be had directly by the Appellate Division of the Superior Court at its discretion."

Assembly Bill No. 87 is contrary to the proper purpose of Rule 2:11 of the Rules of the Supreme Court which seems to me to provide an appropriate procedure. If there is need for a change in the procedure, it should be provided by the Judicial Branch of our government in the form of an amended rule.

Accordingly, I am returning the bill herewith without my approval.

This bill would except from the provisions of law requiring the filing of a *lis pendens* in certain actions or proceedings, any proceeding to enforce a lien under the In Rem Tax Foreclosure Act (1948), P. L. 1948, c. 96.

In such proceedings, in rem and summary in nature, it would appear eminently sound to require the filing of a *lis pendens*. There should be no distinction, in this respect, between tax and mortgage foreclosure proceedings.

ASSEMBLY BILL No. 300

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 300 for the following reasons:

Although loosely drawn, section 1 would appear to make it unlawful for any person to solicit by telephone, advertising or funds, whether in payment of advertising or otherwise, for publications and year books, without first obtaining a license from the Division of State Police. Section 2 sets out the information which the solicitor must furnish the

Division before a license may issue. Section 5 exempts solicitors for publications and year books "any issue of which was published at least one year prior to the solicitation," or for established and recognized charitable, religious, fraternal or veteran organizations and agencies. The exception is so broad that it probably precludes the bill from accomplishing its alleged objective.

The announced purpose of the bill is to curb and, if possible, eliminate high-pressure telephone solicitations for publications and year books of transient and questionable value. Such solicitations are often annoying; they are sometimes illegal because the publication never comes off the press. But in seeking to effect a reform, the bill oversteps the bounds of reason and constitutionality.

Only one example need be cited. A newspaper or monthly magazine is launched by an organization or individuals of highest integrity and financial rating. The publication venture is bona fide and conducted according to the best standards. It has appeared regularly for six months and seems launched on a promising career. Obligations have been entered into—a lease, contract for printing, syndicated features agreements. Advertising accounts are outstanding and should be collected. Since the legislation is immediately effective, employees soliciting new advertising or trying to collect advertising accounts by phone could not do so without first applying to the Division of State Police for a license. The applicant would, under section 2, have to prove his own, rather than his employer's financial responsibility. He, and not the employer, would have to post a \$2,000.00 bond.

The bill in its present form might be held to discriminate between competitors in the publication field. The constitutional guarantee of freedom of the press is involved, as is the question whether the police power has not been exceeded.

Accordingly, I am returning the bill herewith without my approval.

ASSEMBLY BILL No. 462

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 462, for the following reasons:

It should be observed that Assembly Bill No. 462 is, in effect, an attempt to set up a further sub-classification under R. S. 40:46-26, although it does not refer to that section either by way of amendment or supplement. If the Legislature adopts the amendments I have recommended for Assembly Bill No. 317, a reasonably general plan of dealing with the salary problems of municipalities of 20,000 population or more will be available to municipalities not excepted from the operation of R. S. 40:46-26.

It is well to add that the bill passed both Houses as an emergency measure. It is my hope that the emergency legislation provision of the State Constitution (Art. IV, Sec. IV, Par. 6) will be reserved for unquestionable legislative emergencies.

Accordingly, I am returning Assembly Bill No. 462 without my approval.

ASSEMBLY BILL No. 449

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 449, for the following reasons:

Assembly Bill No. 449 authorizes counties of the sixth class to provide, by resolution, for the regulation, registra-

tion and licensing of persons engaged in the installation or repair of electric wiring, conductors and appliances, for the purpose of utilizing electrical energy for heat, light or power when introduced or placed in any building, in any municipality which has no local ordinance on the subject.

The apparent purpose of the bill is to regulate the so-called itinerant mechanic, particularly in communities enjoying seasonal periods of economic activity. The bill is limited to counties of the sixth class. Communities with seasonal peaks of activity and population, particularly seashore communities and resorts, are located not only in counties of the sixth class, but also in counties of the fifth class. And if the legislative purpose is, additionally, to insure that electrical workers be qualified and experienced mechanics, the provisions of the bill might well be framed to include all counties.

The language of section 1 is broad enough to permit the possible construction that among those subject to its provisions are regular employees of electric public utilities, such as linemen and line crews. The technical standards of construction and maintenance work engaged in by electric public utilities of this State, are prescribed by rules and regulations adopted by the State Board of Public Utility Commissioners. These requirements, in turn, are based on the National Electric Code. In so far as this specific type of work is concerned, the public interest would appear to be adequately protected by the standards prescribed by the Board of Public Utility Commissioners. Local requirements, differing in each municipality, would not serve better to insure the public safety.

Accordingly, I am returning the bill herewith without my approval.

ASSEMBLY BILL No. 463

To the General Assembly:

A bill numbered Assembly Bill No. 463, has been delivered to me. It looks like an enactment, and under the rule of *Pangborn vs. Young*, 32 N. J. L. 29, were I to sign the bill it would be assumed that it was a valid enactment.

Upon examination of the Minutes of the General Assembly, however, I find, on page 404, that amendments were made to the bill prior to final enactment in that House. These amendments were not fully incorporated in the bill when it was before the Senate for third reading and final passage. The result is that the bill before me, while it purports to be an enactment does not in fact carry out the intention of the Legislature as set forth in its Minutes.

The bill has merit. It would further recognize that veterans employed under the various on-the-job training programs receive their compensation partly in wages and partly in veterans' subsistence payments made by the Federal Government, and that when they suffer occupational injury their loss should be measured by both sources of income.

This was the general purpose of Chapter 364 of the Laws of 1947, with respect to permanent disability. The intention of the present bill is to apply the same principle to temporary disability, where both temporary and permanent disability has been incurred, with the One Per Cent Fund to be charged for compensation based upon subsistence payments as in Chapter 364 of the Laws of 1947.

To carry out the purpose of the bill I am returning herewith Assembly Bill No. 463 for reconsideration and with the recommendation that amendment to the bill (Second Official Copy Reprint) be made as follows:

On page 1, section 1, strike out lines 1 to 13, inclusive, and on page 2, in the same section, strike out lines 14 to 21, inclusive.

ASSEMBLY BILL No. 479

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 479, for the following reasons:

This bill would permit the board of freeholders of any county by resolution to provide for the retirement of any stenographic reporter on a noncontributing annual pension of \$2,500.00, who "has served in the county and State court systems" for at least 20 years, reached age 60, and is physically incapacitated.

It is desirable that any legislation providing for the retirement of court stenographers on pension should be prepared on a comprehensive basis, after careful study.

Assembly Bill No. 479 is loosely drawn. Its ambiguities present difficult problems of construction and would undoubtedly result in arbitrary and conflicting interpretations, and perhaps costly litigation. One of the qualifications for retirement is service in the "county and State court systems". Every court in the State, at whatever level, is a component of the "State court system". Although court stenographers are used only occasionally in municipal and district courts, yet service in such courts might, under the language of the bill, be included in rounding out the required 20 years' service.

As to the service requirement, the question arises whether this means continuous service for 20 years, as is required under R. S. 43:6-9 *et seq.*, or would it permit the tacking of non-consecutive years. Also, the bill is not clear as to whether it applies only to full-time stenographers, or would also apply to part-time stenographers or those compensated on a per diem basis.

Another consideration is the unusual provision found in section 2, that after the board of freeholders has voted the resolution for retirement, the applicant then makes written application to the county treasurer for pension payment, "setting forth the facts necessary to qualify him for retirement under this act, and accompanied by the certificates of two reputable physicians" certifying his physical incapacity. Since the board of freeholders is the deciding body, why should the applicant be required to file this information with anyone other than it? Further, as a matter of sound policy, the examining physicians should be selected by the board, and not by the applicant himself.

Accordingly, I am returning the bill herewith without my approval.

Respectfully,

ALFRED E. DRISCOLL,

Governor.

SENATE BILL No. 275, ASSEMBLY BILL No. 367, ASSEMBLY
BILL No. 369 AND ASSEMBLY BILL No. 480

To the Senate and to the General Assembly:

I am returning herewith, without my approval, four bills proposing to give life tenure of office to a wide variety of municipal officers and employees, *i.e.*, Senate Bill No. 275, Assembly Bill No. 367, Assembly Bill No. 369 and Assembly Bill No. 480.

Senate Bill No. 275 would provide mandatory tenure during good behavior for any municipal treasurer, including those now in office, who has held his office continuously for twenty-five years. The title is defective in that it refers to "tenure in office" whereas the body would cover tenure during good behavior. "Tenure" as such, has little meaning unless coupled with a description of its character, that is, for a term of years, for life, during good behavior, etc.

Assembly Bill No. 369 is a bill of one sentence containing some three hundred words, which purports to provide for tenure during good behavior to certain building inspectors, etc., who have held office for ten years. The title to this bill is likewise defective.

Assembly Bill No. 367 would authorize tenure during good behavior to anyone in full-time employment of any municipality for twenty years, "and who does not enjoy tenure of office under any other act." Almost every municipal officer or employee has some tenure of office, either for a term of years, indefinite or at will, if not during good behavior, and it is therefore difficult to anticipate what this bill would accomplish. The title of the bill is also defective.

Assembly Bill No. 480 would authorize tenure during good behavior for county road supervisors in certain counties of the second class.

These bills undoubtedly have the laudable, even humanitarian, purpose of protecting some faithful and competent municipal official after long service. But this is only one

side of their sweeping effect. The protection of the public interest is the other side.

To my mind, there are four questions which should be answered before any tenure of office during good behavior, mandatory or otherwise, should be conferred:

(1) Is it in accord with the character of the form of government? If the form of government calls for periodic, popular election of a variety of officials, life tenure to one or more of these officials would appear to be inconsistent.

(2) Did the individual enter the service on the basis of merit? Security of tenure and proved competence should go hand in hand.

(3) Does the law provide a reasonable retirement date for the services of a person with life tenure? If persons who have passed an age of productive work are to be held in office, would the bill look so desirable? Yet few voluntarily retire.

(4) Does the proposal conform to the home rule principle? In other words, do the officials elected by the citizens of the community have an opportunity to determine the issue of tenure.

Long service is laudable. But the public interest in efficient service must be paramount. The job must be suitable for protected tenure of office, the incumbent must be competent, the time of retirement must be controlled. It is admittedly difficult to square these requirements with the occasional hard realities of political affairs, but the solution does not lie in excesses on the side of personal security.

I sincerely regret, for the sake of the worthy individuals who may be affected, that I must return these bills without my approval.

Respectfully,

ALFRED E. DRISCOLL,

Governor.

ASSEMBLY BILL NO. 481

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 481.

This bill would amend and supplement Chapter 310 of the Laws of 1948, relating to the county employees' pension funds in counties with a population of from 300,000 to 325,000. While several of the amendments proposed by this bill appear desirable, the additional benefits which are proposed to be extended are not supported by sufficient additional payments into the fund. It would be a cruel jest to promise increased benefits from a fund that has never been secure because it was established on an inadequate basis, and then have these increases "break" the fund depriving present and future participants of their expectant security.

It is extremely important that our pension systems and funds be made and kept actuarially sound. These pension programs will fail to accomplish their objectives if we increase benefits beyond the capacity of the funds to meet their obligations. While my action may and probably will prove disappointing to some, it is designed to protect present and prospective members of the system.

Accordingly, I am returning this bill without my approval.

ASSEMBLY BILL No. 482

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 482, for the following reasons:

This bill proposes to amend the Attachment Act of 1948 (c. 358) by, among other things, adding new language to section three which would permit a writ of attachment to issue where the affidavit states that the defendant owes a debt and is either an absconder or a nonresident of the State, and where the affidavit uses simply the language of subsection (b) or of subsections (c), (d) or (e) of section 3, without further amplification. Supreme Court Rule 3:72 requires that the fact that the defendant absconds or is a nonresident be established to the satisfaction of the Court. This is a salutary provision.

Assembly Bill No. 482 would revert to the old practice; the writ would issue and the defendant would then be faced with the burden of attacking it by presenting proof, on motion, of the untruthfulness of the statements made in the supporting affidavit. There appears to be no sound reason for authorizing the use of the short affidavit contemplated by the proposed legislation.

Accordingly, I am returning Assembly Bill No. 482, herewith, without my approval.

ALFRED E. DRISCOLL,

ASSEMBLY BILL No. 486

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 486.

The easiest course would be to approve this bill. To do so would appear on its face to be granting a favor to those who man our police and fire departments. Over the years, however, the approval of this bill would do a disservice to the very people whom the legislation purports to help.

As I said in my Veto Message of a similar bill a year ago: "Even more important than the extent of a pension program is the knowledge that it is secure. It is a known fact that prior to 1944 our municipal police and fire pension systems were insecure, actuarially unsound and confronted with bankruptcy. At least half of them were actually insolvent. It was evident that the municipalities would soon reach a point where they could or would no longer meet the mounting deficits which even today are substantial, as, for example, almost a half million dollars [in 1949] in Newark and nearly \$200,000 in Atlantic City, to cite but two cities.

"In 1944 we began the hard task of restoring these programs to solvency for the purpose of guaranteeing that those who expected to be dependent upon them would in fact receive pensions. In 1947, after a careful study, I supported a fair liberalization of the pension program. We now have one of the most liberal policemen's and firemen's pension systems of any State. At the same time the State, out of its limited resources, is paying \$1,000,000 a year to establish the security of these funds.

"I cannot at this time, as a matter of good faith and mindful of my responsibility to our policemen and firemen, support further benefits without adequate provision for their cost. In the absence of proof that the extension requested will not destroy the very objectives for which we have all been working, namely, security, to the pension program, I am compelled to withhold approval at this time."

We have recognized the importance of the men and women engaged in law enforcement and fire protection. At this session of the Legislature bills of considerable importance to those in real need of assistance, namely, those injured or taken sick in line of duty, have been approved.

As I have pointed out in other messages considering pension programs, it would be a cruel jest for us to promise more than the fund can pay. To do so places in real jeopardy the promised security.

The facts presently available clearly disclose that any liberalization of the present pension program without substantial increases in payments into the fund, substantially increases the likelihood that the program may fail to meet its objective.

At the present time the State is engaged in a study and appraisal of a number of pension programs, including the one considered by this bill. No changes are justified in the absence of clear proof that the changes will not further decrease the actuarial soundness of the fund.

In the absence of such proof, as well as for the reasons stated in my Veto Message a year ago, I am constrained to return the bill without my approval.

Respectfully,

ALFRED E. DRISCOLL,

ASSEMBLY BILL No. 491

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 491.

Real property owned by railroads used for railroad purposes is assessable by the State. Such property, when not used for railroad purposes, is locally assessable. This bill would provide for administrative settlement of differences in rulings between the Division of Taxation in the State Department of the Treasury and local municipal assessors, on the question of whether certain railroad property is or is not used for railroad purposes.

The use of the Division of Tax Appeals to determine this issue in the administration of railroad taxes is entirely proper. An appeal from the Division of Tax Appeals may, under the new court system, be taken to the Appellate Division. The new procedure which would be enacted by this bill would make the old procedure of judicial review in the first instance obsolete.

In addition, the Title to the bill is defective. It purports to supplement the "Railroad Tax Law of one thousand nine hundred and forty-one". By the Laws of 1948, Chapter 40, Section 1, this short title was amended to read "railroad tax law of 1948".

Accordingly, I am returning herewith Assembly Bill No. 491 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

On page 1, delete the Title and insert in lieu thereof the following: "An Act concerning the taxation of railroads, supplementing the 'railroad tax law of 1948' (P. L. 1941, c. 291, as amended and supplemented) and repealing sections 41, 42 and 43 thereof."

On page 1, section 1, line 3, after the words "Division of Taxation of the" insert the words "State Department of the".

On page 2, strike out section 6 in its entirety and insert in lieu thereof the following:

“6. Sections 41, 42 and 43 of the ‘railroad tax law of 1948’ (P. L. 1941, c. 291, as amended and supplemented) are hereby repealed.”

ASSEMBLY BILL No. 492

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 492, for the following reasons:

This bill should be considered together with Assembly Bill No. 491, which I am returning with recommended amendments.

Assembly Bill No. 491 would establish an administrative procedure covering the same class of case as is covered in the sections amended by this bill. Under the new court system, where there is a difference in rulings between State and local assessors in a given case, it is preferable to have the difference resolved in the first instance by the Division of Tax Appeals. The decision of the division would then be subject to judicial review in the Appellate Division of the Superior Court. This makes obsolete the old provision for a determination of the administrative question by the old Supreme Court or any three justices thereof assigned by the Chief Justice.

I have, accordingly, recommended in my message concerning Assembly Bill No. 491, that the three sections which the present bill was to amend be repealed.

I am, therefore, returning the bill herewith without my approval.

ASSEMBLY BILL No. 379

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 379, for the following reason:

This bill would amend the act adopted last year, establishing the annual salaries of county district court judges (P. L. 1949, c. 302). It would increase from \$4,000.00 to \$6,000.00 the annual salaries of such judges in counties of the fifth class having more than 150,000 population and having two judges.

This is special mandatory legislation similar to that previously disapproved by me. It comes within one year after the Legislature carefully considered the entire range of county district court judges' salaries, and would provide precedent for a piecemeal adjustment of such salaries.

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 256, for the following reasons:

The bill would permit a County Court, without a jury, to appoint a guardian where an incompetent, committed to a State or county institution, has been confined in such institution for six consecutive months and is possessed of personal property not exceeding five thousand dollars in value although no complaint to determine mental incompetency has been filed with the Superior Court.

Assembly Bill No. 256 clearly has to do with practice and procedure within the judicial branch of the government. It is contrary to the principles underlying Rule 3:91 of the Rules of the Supreme Court.

The purpose of Rule 3:91 was to bring all jurisdiction relating to incompetency into the Superior Court, both as regards determination of the question of competency and the appointment of guardians. Its purpose was the "modernization of incompetency actions, serving substantially to reduce the very considerable expense formerly entailed therein." (Tentative Draft of Rules, p. 311, Comment on Rule 3:91-1.)

I am informed that the Court is aware of the problems involved and is continuing its efforts to develop a simple, expeditious and inexpensive practice. Accordingly, I am returning the bill herewith without my approval.

Respectfully,

ALFRED E. DRISCOLL,
Governor.

ASSEMBLY BILL No. 317

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 317.

This bill once again amends Section 40:46-26 of the Revised Statutes, concerning the fixing of the salaries of municipal officials under the so-called Home Rule Act. The section appeared in Article 13 of that act and assumed substantially its present form by virtue of Chapter 134 of the Laws of 1928. The section was amended in 1942, in 1944, twice in 1947, in 1948, and in 1949. At the current session of the Legislature the section was amended twice; once by Senate Bill No. 219, and once by this bill, but in different respects. It is my hope that we shall soon be able to achieve a complete revision of the many municipal salary laws that now confuse the statute books with classifications, exceptions and sub-exceptions. There is an urgent need for an orderly and systematic plan of compensation.

The virtue of this bill, at least, is that it retains the principle of general legislation in dealing with municipal salaries. It would classify those municipalities of over 20,000 population to which the section is applicable, for the purpose of fixing the salaries of the members of the governing body.

The first section of the bill broadly permits the governing body to override, by ordinance, any salary ordinance previously adopted by referendum, regardless of the officers or employees affected by the referendum ordinance. This is a procedure that I find objectionable and hence this provision of the bill should be deleted. Unless proper provision is made for a review by referendum, the provisions of the bill extend its effect far beyond its apparent purpose, and in my opinion, beyond the requirements of sound local government.

The second section, on the other hand, is limited to members of governing bodies—which is to invite another piecemeal amendment next year to cover mayors.

The second section also conflicts with the other bill amending the same section—Senate Bill No. 219—so that I cannot approve them both. In order to carry out the apparent legislative intention, however, I am suggesting further amendments to Assembly Bill No. 317. Pending a more systematic and uniform plan, this would carry out the policy of reasonable adjustments of compensation in the light of current conditions, to the end of attracting able men to serve municipal government who might not otherwise be able to afford to do so.

Accordingly, I am returning herewith Assembly Bill No. 317 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

Amend the title by striking out the words "sections 40:46-23 and" and inserting in lieu thereof the word "section".

Amend pages 1 and 2 by striking out all of section 1 of the bill.

Amend page 2, section 2, line 12, by inserting after the word "thousand" the words ", notwithstanding the provisions of any other law,".

Amend page 2, section 2, line 14, by inserting after "governing body" and before the comma the words "and the mayor or other chief executive".

Amend page 2 by renumbering section "2" to read section "1".

Amend page 3, section 2, line 32, by inserting after the word "per annum" the words "for each member of the governing body, and three thousand five hundred dollars (\$3,500.00) per annum for the mayor,".

Amend page 4 by renumbering section "3" to read section "2".

Respectfully,

ALFRED E. DRISCOLL,

ASSEMBLY BILL No. 323

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 323, for the following reasons:

The many men and women who give freely and nobly of their time and energies in the performance of governmental services have established enviable records of achievement in this field. Our State has a fine tradition for maintaining such volunteer services. As I have heretofore stated, attaching any semblance of compensation for these services might very well destroy this tradition.

Accordingly, I am returning this bill without my approval.

ASSEMBLY BILL No. 381

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 381, for the following reasons:

This bill would except municipalities of 5,000 population or less from a fiscal requirement of the commission form of government law. That law requires the board of commissioners to publish monthly a detailed statement of receipts and expenses and a summary of its proceedings. The publication may be in the form of newspaper notice or in printed pamphlet form. The bill implies that there is either less need for this information or less interest in it in municipalities of less than 5,000 population than in larger municipalities.

In view of the requirements of the local budget law and of the local financial acts which were adopted long after the Walsh Act, it may be questioned whether this type of publication serves a completely useful purpose. Under the later legislation, every municipality must file a sworn annual statement of financial condition with the Division of Local Government in connection with the adoption of its annual budget, and every municipality must have regular audits by licensed, registered municipal accountants. Neither document presents a fully detailed statement of the transactions of the municipality. An interested citizen or taxpayer would undoubtedly still have to go to the journals and other books of account of a municipality to obtain fully detailed information.

If the present provision of the Walsh Act requiring publication of detailed information is unnecessary or ineffective in small municipalities, it must be equally so in large municipalities. If it is useful and of continuing importance in large municipalities, it must be equally important and even more informative in small municipalities.

It has been the unfortunate experience of our State for many years that far too many problems of local government have been moved out of a municipal building and into the State House by one form or another of special

legislation. There is a real place for special treatment of municipal problems, and the law and the Constitution now provide opportunity for such treatment where there is genuine need. The best opportunity is in effective home rule. The least opportunity is in a mass of special legislation which either requires or permits local action on the basis of special privilege or exemption.

This bill would be another law to distinguish between the indistinguishable—a municipality of 5,000 or more and one of less population. Either both classes require the publication of financial information or they do not. If they do not, we should have legislation to abolish the requirement entirely; if they do, we should retain the benefits of it for municipalities of all sizes.

I am, accordingly, constrained to return Assembly Bill No. 381 without my approval.

Respectfully,

ALFRED E. DRISCOLL,

Governor.

ASSEMBLY BILL No. 400

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 (b) of the State Constitution, I am returning herewith for reconsideration and with my objections, Assembly Bill No. 400.

I approve the object of this bill, which is to secure the expansion and development of recreational programs on a State-wide and local basis. The additional governmental functions proposed by the measure should, however, be administered through the existing Division of Planning and Development in the Department of Conservation and Economic Development, by which many related functions are currently being administered. This would avoid the overlapping and duplication of effort which might very well be the case if a separate division were to be established.

Accordingly, I am returning herewith Assembly Bill No. 400 for reconsideration with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

On page 1, title, line 1, delete the word "Division" and insert in lieu thereof the word "Bureau".

On page 1, title, line 2, delete the word "amending".

On pages 1 and 2, delete sections 1 to 5, inclusive, in their entirety.

On page 3, section 6, delete lines 1 to 3, inclusive, and insert in lieu thereof the following:

"1. There shall be within the Division of Planning and Development of the Department of Conservation and Economic Development, a Bureau of Recreation. The Planning and Development Council of the Division of Planning and Development shall, subject to the approval of the Commissioner of Conservation and Economic Development, formulate comprehensive policies for the development of a broad recreational program through governmental and other agencies. The Bureau of Recreation shall, under the supervision of the Director of the Division of Planning and Development and subject to the approval of the Commissioner of Conservation and Economic Development:"

On page 3, section 6, line 4, change the subsection letter "b" to subsection letter "a".

On page 3, section 6, line 6, change the subsection letter "c" to subsection letter "b".

On page 3, section 7, line 1, change the section number "7" to section number "2".

ASSEMBLY BILL No. 418

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objection, Assembly Bill No. 418.

This bill represents an effort to strengthen the pension system set up for school district employees in first-class counties by R. S. 18:5-68 to 82. R. S. 18:5-79, as extensively amended by Assembly Bill No. 418, reveals a serious deficiency, in that no provision is made for a waiting period in connection with the options set up for the first time by new subsection (d). The State Employees' Retirement System provides for options similar to those set up by this bill, but in doing so provides for a waiting period (R. S. 43:14-38). The need for such a restriction was brought out in the last report on the examination of the Teachers' Pension and Annuity Fund made by the Department of Banking and Insurance.

Accordingly, I am returning herewith Assembly Bill No. 418 for reconsideration and with the recommendation that amendment be made to the bill (Official Copy Reprint) as follows:

On page 6, section 4, insert a new paragraph immediately after line 96 and before line 97, to read as follows: "No optional selection shall be effective in case a member dies within thirty days after the retirement and such a member shall be considered an active member at the time of death until the first payment on account of any benefit becomes normally due."

ASSEMBLY BILL No. 439

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 439.

Tax delinquent lands acquired by a municipality, by reason of a sale to enforce municipal taxes or other municipal liens, are demonstrably an economic liability to it. County, school and municipal taxes continue to be assessable even though the property itself is not producing any tax revenue. The use of such property for county park purposes may in fact be the best ultimate use. But this bill, in my opinion, would not adequately protect either the public interest or the interest of the owner of the equity of redemption.

Section 2 of the bill would exempt the property from taxation immediately upon transfer of title to the county, despite the fact that the property could be redeemed from the tax sale within two years from the date of the sale, or at any time thereafter until foreclosure of the equity of redemption. This is a form of tax benefit, which may be at the expense of taxpayers generally, to which the owner of the equity of redemption is not properly entitled. Exemption of lands from taxation should not apply until the public title becomes absolute.

Section 3 of the bill would continue the right to redeem the lands from the tax sale upon payment to the municipal tax collector of the sums required by law, and reimbursement of "the county for all such expenses incurred or expenditures made by it on account of the acquisition of such lands." This provision is broad enough to require the owner of the equity of redemption to pay the cost of capital improvements made by the county in possession, and hence imposes an additional burden, depriving the owner of a valuable property right without compensation, in violation of the Constitution.

It should be noted that there is no longer any need to delay foreclosure of the equity of redemption in the case of vacant land suitable for park purposes since the enactment of the In Rem Tax Foreclosure Act (1948) (P. L. 1948, c. 96).

Accordingly, I am returning herewith Assembly Bill No. 439 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

On page 1, section 2, strike out all of said section.

On page 2, section 3, renumber the section to read section "2".

On page 2, section 3, lines 7, 8 and 9, strike out the words "such expenses incurred or expenditures made by it on account of the acquisition of such lands" and insert in lieu thereof the words "expenses incurred or paid by it for filing, recording and search fees, court costs and foreclosure fees".

On page 2, renumber sections 4 and 5 to read sections 3 and 4, respectively.

ASSEMBLY BILL No. 452

To the General Assembly:

I am returning, without my approval, Assembly Bill No. 452, for the following reasons:

This legislation goes far beyond the purpose for which it apparently was designed. It is equitable and desirable to protect the seniority rights of civil service employees in the event the bureau or division in which they are employed is transferred from one municipal department to another. In its present form, however, the bill would apply to all civil service employees of the municipality, regardless of whether or not such a transfer had occurred.

Assembly Bill No. 452 does not lend itself to an effective administration of the merit system. For example, an employee with 15 years of efficient and valuable service in one department of the municipality could be displaced by another employee holding an identical title in some other department, who has a slightly longer record of service—as little as one day, in fact—and who was laid off for economy reasons. Time and expense would be involved in training the latter employee to do the work of the displaced one. This would be an unfair infringement of the tenure rights of the employee displaced and would not be conducive to the efficient conduct of municipal affairs.

Furthermore, this bill would establish a distinctive civil service rule for one class of municipal government. If the proposal has merit, it should apply generally to all municipalities wherein civil service is applicable.

Accordingly, I am herewith returning the bill without my approval.

ALFRED E. DRISCOLL,

ASSEMBLY BILL No. 153

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 153, for the following reasons:

Under R. S. 39:3-31, the Commissioner of Motor Vehicles (now the Director of the Division of Motor Vehicles, Department of Law and Public Safety), upon presentation of a sworn statement that the original registration certificate has been destroyed, lost or stolen, can, if he is satisfied that the facts set forth are substantially true, issue a duplicate certificate to the original holder thereof upon payment of a fee of one dollar.

Assembly Bill No. 153 makes it mandatory upon the Director of Motor Vehicles to issue such a duplicate upon payment of the fee. He no longer has the right to pass judgment upon the truth of the representations made. In fact, the applicant for the duplicate need no longer certify that the original has been destroyed, lost or stolen; all that the sworn statement must set forth is that the holder of the original registration certificate requires a duplicate.

This departure from the existing requirements is not desirable. If there is to be any change, the Director should at least be given the power to promulgate regulations setting forth how an application for a duplicate is to be made, and under what circumstances it will issue.

Under Assembly Bill No. 153 a motor vehicle owner could obtain any number of duplicate registration certificates, thereby complicating the administration of the Motor Vehicle Act.

Accordingly, I am returning the bill herewith without my approval.

ASSEMBLY BILL No. 424

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 (b) of the State Constitution, I am returning herewith for reconsideration, and with my objections, Assembly Bill No. 424.

Prior to 1940, a plenary winery license entitled the holder for a \$500.00 annual fee to manufacture fermented wines, to blend, fortify and treat wines, and to sell and distribute such products to wholesale and retail licensees, as well as to churches for religious purposes (R. S. 33:1-10 (2a)). In 1939, legislation was introduced, but not adopted, which would have given to the plenary winery licensees certain retail privileges. In 1940, an act was adopted (P. L. 1940, ch. 83), giving these licensees certain retail privileges.

The granting of retail privileges to manufacturers and wholesalers is, in my judgment, neither desirable nor in conformity with a proper licensing pattern. The granting of such privileges to manufacturers and wholesalers appears also to be inconsistent with the much sought-for and wholly desirable State Limitation Law adopted in 1947.

Upon reflection, it is apparent that the legislation adopted in 1949 (P. L. 1949, ch. 276) may be improved. There are a very limited number of licensees in the class under consideration who, over a period of years, have owned or operated wineries who, perhaps, are entitled, because of the practice and procedures that have been adopted in this State since 1940, to some consideration. This may be accomplished if the following recommended amendments are adopted.

The present bill is entirely too broad. It reopens the whole question and would, in effect, permit the opening of a "wine store" immediately next to a package store class of license that is permitted by statute.

Accordingly, I am returning Assembly Bill No. 424 for reconsideration, with the recommendation that amendment be made to the bill (Official Copy Reprint) as follows:

Amend page 2, line 45, by inserting after the word "State" the following sentences: "The combined total number of plenary winery licenses having retail privileges, shall not exceed three per each million of population in the State as shown by the last preceding Federal census. In the granting of such plenary winery licenses, the Director of the Division of Alcoholic Beverage Control may, in the exercise of his discretion and pursuant to such rules and regulations as he may adopt, give prior consideration to applicants engaged in growing and cultivating grapes upon land owned by the applicant, having an area not less than three acres."

ASSEMBLY BILL No. 306

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 306, for the following reasons:

The pension system established under P. L. 1915, c. 324 (R. S. 43:19-1 to 18), which Assembly Bill No. 306 would amend, covers employees of boards of street and water commissioners in cities of the first class.

Like Assembly Bill No. 104, which I have also returned, this bill would weaken rather than strengthen the actuarial soundness of the affected pension system. Although the contribution rate of members to the pension fund is proposed to be increased from 4% to 5%, the maximum pension benefits to dependents at the same time are increased from \$1,000.00 to \$2,000.00 annually.

I am advised that on the basis of contribution rates which have been found necessary under other plans with similar

benefits, neither the present 4% nor the proposed 5% contribution rate can support the benefits now payable out of the pension fund. I am also advised that the additional benefits provided by the proposed amendment exceed the increase in contributions payable by members of the fund. The result will be that the pension fund will be even less solvent than it is under the present act.

While my action in returning this bill will probably prove disappointing to some, it is designed to protect both present and prospective members of the system. Only if these pension systems are made and kept actuarially sound will they be in a position to accomplish the objectives for which they were established.

Accordingly, I am constrained to return this bill without my approval.
