

Governor Phil Murphy

Governor Murphy Recognizes 11th New Class of NJ TRANSIT Locomotive Engineers

10/21/2021

14 New Engineers Joining the Ranks as Murphy Administration Continues Rebuilding NJ TRANSIT

KEARNY – Governor Phil Murphy, NJDOT Commissioner and NJ TRANSIT Board Chair Diane Gutierrez-Scaccetti and NJ TRANSIT President & CEO Kevin S. Corbett today recognized NJ TRANSIT’s latest Locomotive Engineer training class for finalizing their formal classroom training and passing the Northeast Operating Rules of Advisory Committee (NORAC) and physical characteristics exams. The addition of this new class with 14 graduates means NJ TRANSIT has succeeded in adding 127 new locomotive engineers to its roster since Governor Murphy took office in 2018. This is the fourth graduating class of locomotive engineers in 2021. Previous graduation ceremonies were held in January, April and June.

“At the start of our Administration, we took over an NJ TRANSIT that was hobbled by years of dysfunction, underfunding, and a lack of strategic planning,” **said Governor Murphy**. “Four years later, NJ TRANSIT has 127 new locomotive engineers, completed PTC, and drastically improved metrics across the board. New Jersey commuters are benefitting every day from the reforms, revamps, and rebuilding that we have undertaken. I look forward to the future service of these dedicated engineers as part of a new era at NJ TRANSIT.”

“Since Governor Murphy took office in 2018, his administration has made it a priority to provide NJ TRANSIT with the necessary tools to ensure its customers arrive at their destinations safely and efficiently,” **said New Jersey Department of Transportation Commissioner and NJ TRANSIT Board Chair Diane Gutierrez-Scaccetti**. “We congratulate this current class for their commitment to NJ TRANSIT and its customers.”

“This class began its instruction right at the onset of the pandemic in March of 2020, and we very well could have suspended all locomotive engineer training at that time,” **said NJ TRANSIT President & CEO Kevin S. Corbett**. “Instead, we stayed the course by quickly shifting a number of the training program’s elements online. As a result, today we have a full roster of locomotive engineers, and a full pipeline of trainees, providing a more reliable commute for our customers – just what our region needs as riders are returning to the system.”

The class of 14 engineer trainees will complete their field training and begin their final check rides later this month. The trainees completed a rigorous 78-week long program and passed extensive testing, including a final exam of more than 800 questions.

This class brings the total number of new engineers that have joined NJ TRANSIT since 2018 to 127 and brings the total active roster of engineers to 404. A full roster consists of a minimum of 390 engineers. Since 2018 when Governor Murphy took office, NJ TRANSIT has graduated 11 classes of locomotive engineers – more classes than have graduated in the previous five years combined. The next locomotive engineer training class is set to graduate in April of 2022.

“Congratulations to NJT’s 11th class of locomotive engineers. This is the 4th class to graduate and enter into the workforce this year, with 14 engineers joining the ranks. This is a major accomplishment,” **said Senator Patrick Diegnan, Chair of the Senate Transportation Committee.** “This next generation of engineers will help enhance this country’s transportation systems—which is an integral part of our day to day lives—something many of us tend to forget. We are extremely thankful for the hard work that these graduates have put in towards their educations and anticipate their future contributions.”

“NJ TRANSIT’s locomotive engineers play an important role in ensuring that our public transport system remains safe and dependable. As ridership increases with statewide returns to offices, it is more important than ever that NJ TRANSIT has a full roster of highly trained engineers to keep our trains running on time,” **said Assemblyman Daniel Benson, Chair of the Assembly Transportation and Independent Authorities Committee.** “Congratulations to today’s graduates for successfully completing this rigorous training program. It is my hope that the work they do will benefit countless commuters and other riders throughout New Jersey.”

“Governor Murphy’s commitment to rebuilding NJ TRANSIT has been highly visible in all parts of the organization, including in hiring and training 11 classes of engineers,” **said Jerome Johnson, General President and Chairman of SMART-TD Local 60.** “I congratulate these newly-trained engineers on their accomplishments.”

In addition to addressing the engineer shortage, NJ TRANSIT under the leadership of the Murphy Administration, has made a host of improvements throughout the transportation system available at www.njtransit.com/progress (<https://www.njtransit.com/progress>).

IMPROVING SERVICE, RELIABILITY & SAFETY

- FY2021 vs. FY2019 On-Time Performance - **Improved for Bus, Rail & Light Rail Across the Board**
 - **Rail improved** from 90.0% in FY19 to 93.3% in FY21
 - **Bus improved** from 91.3% in FY19 to 98.0% in FY21
 - **Light Rail improved** from 96.6% in FY19 to 96.9% in FY21
- Rail cancellations **decreased 15%** in FY2021 vs FY2019
- **Fully restored** depleted ranks of locomotive engineers
- Hired more than **1,000** bus operators since 2018
- Achieved **full certification** for Positive Train Control (PTC) before the December 31, 2020 deadline
- **Added and purchased** new buses, multi-level rail cars and dual-mode locomotives – including the agency’s **first eight electric buses**
- **Added, extended or provided enhanced bus service on 100 bus routes** over the past two years

ENHANCING OUR CUSTOMER EXPERIENCE

- Added numerous features to the NJ TRANSIT Mobile app, resulting in a **4.8/5 rating** with over 89,000 reviews
 - Introduced **customized push notifications** with service information
 - Added **"How Full Is My Ride?"** feature to inform customers about crowding conditions on vehicles
 - Launched **"Arrival Alerts"** to provide notifications when customers begin arriving at their destination
 - Introduced a new **"Map My Ride"** feature to allow customers to track the locations of their buses and trains in real-time
- Launched **NJT Rewards** program for riders to earn points for their NJ TRANSIT ticket purchases, redeemable for offers from businesses throughout the state.

- Introduced the popular new **FLEXPASS** discounted ticketing option for customers whose commuting patterns have changed due to COVID-19
- **Strengthened Access Link** with launch of Access Link Online, Mobile App & Social Media Accounts for service information & updates
- **Modernized fare collection systems**, including rolling out handheld mobile ticket scanners on trains, new electronic ticket validators on buses, and new ticket vending machines

ADVANCING MAJOR CAPITAL PROJECTS

- More than **\$4 billion** in capital projects underway or soon to enter procurements since 2018
- Awarded NJ TRANSIT's **largest ever** construction contract for **\$1.6 billion** to construct a new Portal North Bridge
- Awarded construction contract for new **\$600 million** Raritan River Bridge which broke ground in September 2020.
- Advancing Walter Rand Transportation Center Improvement Project with commitment of **\$250 million** investment
- Commenced **\$190 million** upgrade to renovate and reimagine Newark Penn Station
- Advanced **electric bus program** with the charging infrastructure construction at Newton Avenue Garage in Camden
- **Advancing new Northern Bus Garage** construction, which will include the necessary charging infrastructure to support an all-electric bus fleet
- Made **major capital investments** in Trenton Transit Center, Lyndhurst Station, Elizabeth Station, Perth Amboy Station and others

SETTING A VISION FOR THE FUTURE

- Released **NJT 2030**, the agency's first-ever 10-year Strategic Plan, and accompanying 5-year Capital Plan
- Unveiled roadmap to a **100% zero-emissions** bus fleet by 2040
- Collaborated with Northeast Corridor Commission to develop **CONNECT NEC 2035**, a detailed plan for infrastructure investment covering 150 projects along the corridor
- Awarded the first contract for the **Meadowlands Transitway "Innovation Challenge"** project, improving reliability, frequency and capacity between Secaucus and the Meadowlands Complex.
- Commenced the **NEWBUS Newark Bus Network Redesign Study** to optimize the bus network for the greater Newark region to best serve the needs of customers, businesses and employers.
- Embraced **Transit-Oriented Development** to better serve New Jersey communities, including advancing projects in Jersey City, Somerville, Aberdeen-Matawan, Metropark, and others

RESPONDING TO COVID

- **One of the first transit agencies in the country** to begin disinfecting vehicles and major stations daily, before the first COVID case was identified in NJ
- Published **Ride to Recovery: NJ TRANSIT's COVID-19 Response & Path Forward**, to document the actions taken by NJ TRANSIT as well as chart our path forward for the post-pandemic future
- Secured an estimated **\$4 billion** in federal relief funding to maintain full service levels throughout the pandemic.
- Collaborated with regional transit agencies on the **MASKFORCE** program to assist with encouraging proper transit customer behaviors.
- Implemented **VAXRIDE** initiative to provide sponsored rides to vaccination appointments
