INTRODUCTION

The 1999-00 edition of Vital Education Statistics presents the status of education in New Jersey. These data are compiled from the New Jersey State Department of Education's annual fall survey data collection of local districts and schools. This information is used to meet state and federal mandates for information pertaining to the current condition of education in New Jersey, as well as for the purposes of educational research and policy considerations. Beyond the significance of any single number reported for a particular year, the importance of these numbers are in their value as annual benchmarks that may be used to reveal trends over time.

As in prior editions, the data are reported within the following distinct sections in a single volume:

- **Section I** includes local district and school organization data, charter schools, and selected program enrollments;
- **Section II** includes student enrollments statewide, as well as charter schools;
- **Section III** includes student dropouts and dropout rates;
- **Section IV** includes high school graduate data including post-graduation plans and graduation rates;
- **Section V** includes certificated staff data, including major assignment category, full- and part time status, gender, racial/ethnic category, salary distribution, mean salary, mobility, and staff per student ratios;
- **Section VI** includes non-certificated support staff data by position; and
- **Section VII** includes school count, enrollment, and program data for identified nonpublic schools.

New to the 1999-00 edition are tables of information pertaining the New Jersey's new charter schools. The Charter School Program Act of 1995 (P.L. 1995 c. 426, N.J.S.A. 18A:36A), effective in January 1996 authorized the Commissioner of Education to establish a charter school program. Charter schools hold the promise of creating a new kind of publicly funded school – one that breaks the traditional mold in an effort to help children achieve at higher levels. The introduction of charter schools is not just part of an isolated reform effort, but it is one innovative strategy in a broader effort to bring about significant improvements in student achievement. A definition of a charter school appears in the Glossary.

**NOTES FOR
SELECTED EDUCATIONAL STATISTICS
School Years 1990-91 to 1994-95 and 1995-96 to 1999-00**

- (a)** Minority counts for enrollments, dropouts, and graduates include all categories of racial/ethnic origin with the exception of "White."
- (b)** Dropout and graduation data are for the preceding school year.
- (c)** The grade category of "Ungraded" ceased to be collected with the 1993-94 school year.
- (d)** The single-year "event" dropout rate is calculated by dividing the total number of dropouts from grades 9-12 in a particular school year by the total enrollments in those grades reported for that year.
- (e)** Includes four-year college, two-year college, and other type college. See Glossary.
- (f)** The graduation rate is calculated by dividing the number of graduates in a particular school year by the Grade 9 enrollment reported in October four-years earlier.
- (g)** Beginning with the 1992-93 school year, certificated staff job assignments were reported to the via the department's annual Fall Survey data collection in FTE (Full-Time Equivalents). Prior to that time, job assignments were prioritized based on the order or sequence in which they were reported.
- (h)** Beginning with the 1993-94 school year, non-certificated staff counts were reported in FTE (Full-Time Equivalents). Prior to that time, these counts were reported as full- or part-time.
- (i)** Beginning with the 1993-94 school year, enrollments were collected for "on-roll" students who attend public school full-time and those who attend two schools on a shared-time basis. Shared-time students are those students who attend two different schools in one day for a half school day each. For example, students who spend a half school day in an academic high school and a half school day in a county vocational school are enrolled in the high school register under the program type, Grades 9-12, and also appear in the appropriate county vocational school register. For the purposes of the department's annual Fall Survey data collection, the results of which appear in this publication, these students are reported as ".5" at each location. In previous years, shared-time vocational education students were counted in their appropriate grade (Grades 9-12, Post-Graduate, or Ungraded) by their home district and duplicated in counts of shared-time students who were sent and those who were received by each location. Subsequently, counts of students "on-roll" full- and shared-time have been combined with full-time students reported as "1" and shared-time as "0.5" at each location. Enrollment counts that include a decimal ("0.5") for demographic categories such as racial/ethnic origin and sex are due to the reporting limitations of the New Jersey School Register. For example, pupils attending a private school for the handicapped on a shared-time basis would only be reported as a "0.5" by the public school where the child is enrolled for a half school day each day. Enrollments, full- or shared-time, are not reported in a school register for private schools for the handicapped.
- (j)** College or university totals include two-year, four-year, and other college.

Section I:

DISTRICT AND SCHOOL INFORMATION

EXPLANATORY NOTES

These tables contain information relative to district and school organization and demographics. Tables in this section not referenced below are self-explanatory.

- Table 1. A non-operating school district is a district that has been legally established with a board of education but does not operate any schools.
- Table 4. New to this edition are the number of approved charter schools that were in operation as of October 15, 1999. Includes the student enrollment reported as of this date. The counts of schools appearing in this table are a subset of the number of schools reported in Table 3.
- Table 5. School openings and closings are reported by local school districts to the New Jersey State Department of Education through the county offices of education in the fall of each school year.
- Table 6. Student enrollments are reported for selected programs and purposes including: IASA Title 1 (See Glossary for a definition of this program), the number eligible for free meals and/or milk nutrition programs, and those students enrolled in full- or half-day Pre-Kindergarten or Kindergarten programs.

Section II:

STUDENT ENROLLMENT INFORMATION

EXPLANATORY NOTES

This section contains information on student enrollments. Tables in this section not referenced below are self-explanatory.

Please note the following changes that have occurred in the methodology for reporting student enrollment. In previous years, shared-time vocational education students (i.e., those students appearing in the New Jersey School Registers of an academic high school and a county vocational school for a half school day each) were counted in their appropriate grade (Grades 9-12, Post-Graduate, or Ungraded) by their home district and duplicated in counts of shared-time students who were sent and those who were received by each location. Subsequently counts of students "on-roll" full-time and shared-time have been combined with full-time students reported as "1" and shared-time as ".5" at each location.

Enrollment counts that include a decimal (.5) for demographic categories such as racial/ethnic origin and sex are due to the reporting limitations of the New Jersey School Register. For example, pupils attending a private school for the handicapped on a shared-time basis would only be reported as a ".5" by the public school where the child is enrolled for a half school day each day. Enrollments, full- or shared-time, are not reported in a school register for private schools for the handicapped.

- Table 7. Students counted in the "Special Education" category are pupils enrolled in self-contained classrooms. Mainstreamed special education students are reported in their grade level. Additionally, full-time and shared-time students attending vocational school districts are reported separately under the heading "Vocational" Education. The table appears on two pages.
- Student counts for Grades 7 and 8 appearing in Tables 8 and 9 are mutually exclusive based on the grade span of each school and the reported school type (elementary or secondary).
- Table 10. New to the 1999-00 edition are the student enrollments by county and grade for those charter schools that were in operation as of October 15, 1999. Students counted in the "Special Education" category are pupils enrolled in self-contained classrooms. Mainstreamed special education students are reported in their grade level. These enrollments are a subset of the enrollment figures that appear in Tables 7, 8, and 9. The table appears on two pages.

- The racial/ethnic categories appearing in Table 11 and 12 are in accordance with prescribed federal reporting requirements.

Section IV:

HIGH SCHOOL GRADUATE INFORMATION

EXPLANATORY NOTES

This section contains information on high school graduates. Tables in this section not referenced below are self-explanatory. Please note that high school graduates are reported for the preceding school year.

- Table 19. Plans of graduates continuing their education at a college or university or other educational institution and those students not continuing their education, but seeking employment or other.
- The racial/ethnic categories appearing in Tables 20 and 21 are in accordance with prescribed federal reporting requirements.
- Table 21. Table includes the total number of graduates, number planning to attend schools in-state, and number planning to attend school out-of-state.
- Table 22. Table includes the calculated rate as a percent of high school graduates to the Grade 9 enrollment four years earlier. This rate was calculated by dividing the total number of graduates for each county per school year by the total Grade 9 enrollment reported four years previously. The resulting percent is the graduation rate. Also included are the calculated statewide rates for these school years.

Section V:

CERTIFICATED STAFF INFORMATION

EXPLANATORY NOTES

These tables contain information pertaining to the certificated staff employed full and part-time. Tables in this section not referenced below are self-explanatory.

For the purposes of this publication, certificated staff are classified into three categories that define the major work assignments in the educational profession. These categories are: administrators and supervisors; classroom teachers; and educational support services personnel.

Certificated staff counts are reported in Full-Time Equivalency (FTE). In order to comply with federal reporting requirements and resolve discrepancies as to identification of major work assignments and associated category classification, the "Report of Certificated Staff Status," distributed as part of the department's annual Fall Survey, was revised to include FTE for each reported assignment. For the purposes of this publication, certificated staff counts appearing in tables related to major assignments (Tables 23-26), as well as those related to demographic information (e.g. sex, race/ethnicity, age, experience, salary, mobility, etc.) are prepared as a sum of each individual occurrence (Tables 27-44, 49, 52-54). Certificated staff counts appearing in Tables 45-48 and 50-51 are based on the reported FTE. A detailed definition of FTE appears in the Glossary.

Please note that total staff counts based on FTE and those calculated as the sum of individual occurrences may differ.

- Table 24. The "system-wide" category refers to those individuals employed in the district's central office and/or are itinerant having assignments that cover two or more schools.
- Table 49. Summarizes the mobility of full-time certificated staff in and out of school districts. "Entering" status consists of those individuals who were not reported on October 15, 1998, but held a position in that district one year later. "Leaving" status consists of those individuals who were reported in a position on October 15, 1998, but were not in that district one year later. Table includes counts by county and major work assignment categories, as well as entering and leaving totals by county and statewide totals.

- Table 53. Table includes the calculated ratio of students to full-time administrators and supervisors, comprised of district administrators and school principals, supervisors, non-supervisory coordinators, and directors by county for school years 1997-98, 1998-99 and 1999-00. The ratio was calculated by dividing the number of students enrolled by the counts of these staff members.
- Table 54. Table includes the calculated ratio of students to full-time classroom teachers by county for school years 1997-98, 1998-99, and 1999-00. The ratio was calculated by dividing the number of students enrolled by the counts of classroom teachers.

NONPUBLIC SCHOOL INFORMATION

EXPLANATORY NOTES

These tables contain information pertaining to nonpublic schools. Tables in this section not referenced below are self-explanatory. The data appearing in the tables below reflect the universe of nonpublic schools identified as a result of their participation in the department's annual "Nonpublic School Enrollment Report" data collection.

- Table 57. Includes the number of New Jersey resident students enrolled in nonpublic schools. Also includes the number of non-resident or out-of-state students who are enrolled. Additionally, the count of students participating in IASA Title I and those eligible for free meals and/or free milk.
