General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

SOLID AND HAZARDOUS WASTE MANAGEMENT PROGRAM**

**NOTICE OF PUBLIC COMMENT PERIOD
FOR THE RENEWAL OF A HAZARDOUS WASTE FACILITY PERMIT AND A SOLID WASTE
FACILITY PERMIT**

The New Jersey Department of Environmental Protection, Solid and Hazardous Waste Management Program, hereby gives notice that it has tentatively approved a Hazardous Waste Facility Permit renewal application and a Solid Waste Facility Permit renewal with modification application submitted by Clean Earth of North Jersey, Inc., Kearny Town, Hudson County for the continued operations of a hazardous waste facility and a solid waste transfer station. These permits cover ongoing hazardous waste and solid waste activities conducted at 105 Jacobus Avenue, Kearny Town that are regulated by the Resource Conservation and Recovery Act (RCRA) on the federal level and the Solid Waste Management Act (N.J.S.A. 13:1E-1 et seq.) on the State level.

Clean Earth of North Jersey, Inc owns and operates a commercial hazardous waste treatment, storage and transfer facility. The facility receives waste streams of various hazardous waste codes from off-site generators via highway and rail. The hazardous wastes are stored on-site in containers and tanks or are treated on-site in containers, tanks, and within cells in various approved areas. Hazardous waste may be blended/bulked, solidified/stabilized, consolidated, repackaged, and transferred. The facility has a permitted maximum capacity of 249,500 gallons or its equivalent volume of hazardous waste at any one time.

Clean Earth of North Jersey, Inc. also owns and operates a commercial solid waste transfer station/materials recovery facility on-site. The facility accepts waste types 10 (Municipal waste – household hazardous waste only), 13 (Bulky waste) and 13C (Construction & Demolition waste) 27 (Dry Industrial waste), 27A (Dry Industrial Waste Asbestos), and 72 (Non-hazardous Liquid Waste) with an approved capacity of 2,810 tons per day, consisting of 2,660 tons per day of ID 10, 13, 13C, 27 and 72 and 150 tons per day of ID 27A. The draft Solid Waste Facility Permit also authorizes the construction of a new solid waste transfer station building. The facility also conducts large quantity universal waste handler activities involving the collection and transfer of batteries, pesticides, mercury-containing devices, consumer electronics, lamps, and oil-based finishes. The solid waste activity will be regulated by the Solid Waste Facility permit, while the large quantity universal waste handler activities require no permit.

The public comment period on these tentative approvals begins on November 1, 2011 and will close December 15, 2011. During this period, any interested person may submit written comments concerning the tentatively approved permits to:

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to enter into a Settlement Agreement that would authorize the relocation of three secondary dunes between the 21st Street and 23rd Street rights-of-way in North Wildwood, Cape May County. The beach renourishment work is shown on 14 sheets of plans entitled “North Wildwood Beach Replenishment Project, City of North Wildwood, Cape May County, New Jersey,” prepared by Remington, Vernick & Walberg Engineers, dated July 11, 2007, last revised October 23, 2008. The proposed dune relocation would be performed by WB Resorts, Inc. as part of potential re-development of the Seaport Pier. Any dune relocation must be approved in advance by the Department following a demonstration by WB that the dune relocation meets certain criteria, including that it will not cause significant adverse long-term impacts on the natural functioning of the beach and dune system. In addition, any approved dune relocation will be incorporated into North Wildwood’s beach and dune management plan

These sites are similar with respect to the following factors: they are all school facilities; the flow fluctuates on a seasonal basis; the flow quantities are small (generally less than 0.05 MGD); and there is no off-site contribution. The NJDEP has determined that these types of point sources require the same effluent limitations or monitoring conditions, and are more appropriately controlled under a general permit.
