ROLL CALL

WELCOMING REMARKS OF CHAIRMAN

Chairman Lavery welcomed those persons whose identities are set forth hereinabove under "Appearances".

INTRODUCE ANY COMMENTS FROM THE PUBLIC

Chairman Lavery addressed the meeting and invited any comments from the public on items pertaining to today's Agenda. No questions were presented.

EXECUTIVE DIRECTORS REPORT

Joseph Resta, Executive Director, addressed the meeting and said;

"Thank you, Mr. Chairman, and good morning. We are continuing to make progress in advancing preparations for the Scudder Falls Bridge Replacement Project while moving ahead with a series of other projects and initiatives, some of which are ready for Commission consideration today;

"On the Scudder Falls front, the removal of trees and brush from a river island in the path of the first span of the replacement bridge was recently completed. Due to recent high water conditions, some creativity was employed to carry out this time-sensitive work, including use of a crane on the existing bridge to hoist equipment down to the island below. The crane subsequently was used to hoist wood chips

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION

Meeting of April 24, 2017

and felled tree trunks off the island for disposal. Back on land, advance construction of noise- abatement walls has stepped up pace along the Pennsylvania I-95 bridge approach. That work is now about 90 percent complete and is on track to reach final completion in early June. Likewise, utility relocation work is progressing on the Pennsylvania side of the current bridge along Taylorsville, River, and Woodside roads in Lower Makefield Township. These efforts should be completed in time for the bridge replacement project contractor to start land- based construction activities in May. Although the project's long-term construction schedule still needs to be finalized, the expectation is that in-water construction activities for the new bridge will begin on or shortly after July 1 when environmental restrictions permit the work;

"While the Scudder Falls Bridge has garnered the bulk of attention in recent months, we have not lost sight of the 19 other river crossings in our system. Case in point is the Electronic Toll Collection System Replacement Project that was initiated with testing last summer and fall. The transitioning of our toll facilities to this new system began in mid-December. Now we are on the cusp of completing the installation and implementation of the replacement of our electronic and manual toll collecting infrastructure. Next week, we expect to complete the transitions at our Easton-Phillipsburg and I-78 toll plazas. This work will involve the final mixed-mode lane at the Easton-Phillipsburg Toll Plaza and the Express E- ZPass facility at the I-78 Toll Plaza. To carry out the I-78 Express E-ZPass transition, we will be closing the facility 9 p.m. to 6 a.m. each night this week. Motorists will be directed to use the adjoining toll booths during these periods. Following the successful completion of these remaining transitions, the contractor is to be engaged in fine-tuning and troubleshooting the new system. And in June, we will implement the toll clarification for recreational vehicles with trailers and cars in tow that the Commission authorized last September as part of this toll system replacement effort. The swap out of our legacy toll system and the transition to new, improved equipment comes at an optimum time because we are about to start a new project at our I-78 location;

"Today's executive agenda includes two contract resolutions for this endeavor, which will largely involve rehabilitation and improvements to 11 approach and overpass structures within our I-78 jurisdiction in Pennsylvania and New Jersey. The work will include approach slab replacements at eight bridges, cleaning and painting at six bridges or overpasses, and an assortment of other tasks, including restriping of our entire I-78 roadway. One contract for consideration today is for the award of construction and the other is for construction management/inspection services. With approval, construction work could begin in early to mid-summer and continue through the year until winter, when activity would be curtailed for the cold weather. The project would then fully ramp up in the spring and continue until completion in November 2018;

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION

Meeting of April 24, 2017

"A final executive agenda item worthy of mention today is a proposed authorization of a renewal of a direct purchase agreement involving Commission-issued series 2007B bonds. These are the outstanding variable-rate bonds the Commission sold via a direct purchase agreement with Wells Fargo three years ago. With the mandatory tender on these bonds coming due May 1, an RFP was issued for banks to consider buying the bonds. As you may recall, the Commission received eight proposals and Wells Fargo's was deemed to be in the best interest of the Commission. Accordingly, a renewal arrangement was negotiated under which the Commission will be able to reduce its interest rate by 13 basis points. In dollars and cents, this works out to a savings of more than \$400,000 for the Commission over the next three years. Our Chief Financial Officer, Jim Petrino, deserves mention here for closing out this new arrangement. Today's resolution would allow for the execution and delivery of agreements in support of this transaction is up for your consideration today;

"Mr. Chairman, this positive financial outcome marks the end of my report."

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION
Meeting of April 24, 2017
TOLL TRAFFIC AND REVENUE STATISTICS (March, 2017)

Summary: The Commission experienced a decrease in both total toll traffic and revenue for March 2017 in comparison to the March 2016 traffic and revenue statistics. Increases in commercial traffic through-out the Commission, and passenger traffic in District I, have been directly related to the closure of the Delaware River Turnpike Connector Bridge on January 21, 2017. It should also be noted that 2016 was a leap year. Year-to-Date totals for 2017 reflect one less day. Additionally, a significant snow storm in March over the entire Commission resulted in several days of lost or reduced traffic during the month.

Analysis of March 2017 / March 2016 toll revenue data comparison:

- An overall toll revenue decrease of 0.93 percent was recorded at the Commission's seven toll bridges for the month.
- Commercial-vehicle toll revenue reflected a 0.23 percent decrease.
- Passenger-vehicle toll revenue generated a 2.97 percent decrease.

Analysis of March 2017 / March 2016 traffic data comparison:

- Total toll traffic decreased by 92,519 vehicles, or 2.78 percent for the month.
- Commercial-vehicle traffic increased by 12,616 vehicles, or 2.65 percent.
- Passenger-vehicle toll traffic decreased by 105,135 vehicles, or 3.68 percent.
- Average daily toll traffic for the Commission's seven toll bridges for March 2017 was 104,498 total vehicles as compared to 107,483 total vehicles in March 2016.
- Total recorded westbound traffic volume at the eleven vehicular toll supported bridges for March 2017 decreased by 2,953 vehicles, or 0.11 percent when compared to March 2016. Average daily westbound traffic at these bridges for March 2017 was 84,572 vehicles as compared to 84,668 for March 2016.

Traffic analysis for 2017 YTD:

- Total YTD toll traffic for the seven toll bridges is reflecting a 3.60 percent increase for the first three months of 2017 as compared to the same period in 2016.

- Westbound traffic on the eleven toll supported bridges is reflecting a 1.91 percent increase for the first quarter of 2017 as compared to last year.
- Much of these increases are the result of the PA/NJ Turnpike Connector Bridge closing, offset somewhat by the lost calendar day due to the 2016 leap year.

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION

Meeting of April 24, 2017

STATISTICAL SUMMARY OF EXPENDITURES

This includes reports entitled “**Budget vs Actual**” covering the month of March 2017 and the three month year-to-date (“YTD”) operations of fiscal year 2017 relative to Toll Bridges, Toll Supported Bridges and Administration departments.

Total expense plus encumbrance totaled \$6,492,676 for the month of March. For the 2017 fiscal period, total expense plus encumbrances amounted to \$15,321,099 or 88.8% of the YTD operating budget.

Most of the expense line categories are within their normal line item budgets. Overtime wages are currently exceeding budget by \$71,153 or 46.3%, mainly due to a number of full-time position vacancies and the recent snow storm. This line item is expected to come back into budget during the operating year.

There were three payrolls expensed during the month. This resulted in higher than usual monthly expense. The additional payroll was accounted for in the Commission’s monthly operating budget.

ELECTRONIC TOLL COLLECTION PROGRAM
MONTH OF MARCH 2017

The following items were recently initiated, accomplished or performed during the above noted month:

Activities for the In-Lane Toll System

1. Revisions to the Disaster Recovery Plan and the Maintenance Plan to address review comments is on-going. TransCore facilitated weekly meeting to discuss the transition of the toll lanes. All lanes at the Trenton-Morrisville Toll Bridge are complete. Transitioning of the I-78 Toll Bridge conventional toll lanes is on-going and planning for the open road tolling lanes is underway. Transitioning of the Easton-Phillipsburg Toll Bridge lanes is also underway. Weekly project status meetings will continue during the installation phase of the project.
2. A vehicle classification issue was discovered at the Delaware Water Gap Toll Bridge open road tolling lane. This prompted the installation of a filter to hold these transactions at the toll host for a week until the issue was resolved. The filter was then lifted and the transactions were then able to be transmitted to the customer service center for processing.
3. The preliminary work for the toll plaza canopy dynamic message signs (DMS) for the New Hope-Lambertville, Easton-Phillipsburg, Portland-Columbia and Milford-Montague Toll Bridges is underway. During the preliminary work, it was determined that the existing conduit from the monotube to the administration building/tunnel at the Easton-Phillipsburg Toll Bridge is damaged and cannot be used for the signs electrical and communication cables. We received a proposal from TransCore to repair the conduit and it is being evaluated.

Activities for the E-ZPass Customer Service Center/Violation Processing Center

1. The design of the new NJ Customer Service Center (CSC) is on-going. The New Jersey Turnpike Authority (NJTA), as the lead agency, is facilitating all meetings with the other agencies and Xerox. The new CSC is expected to go live in June 2017.

General Electronic Toll Collection Program Activities

1. Mr. Stracciolini participated in the IAG E-ZPass Executive Management Committee meeting and Policy Committee meetings.
2. Mr. Stracciolini served on the Non-toll Opportunities subgroup for the IAG. This subgroup is preparing a policy and procedure document that provides a method for

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION
Meeting of April 24, 2017

the IAG to follow for non-toll opportunities, such as use of the E-ZPass transponder system at parking garages or drive-thru services.

COMMUNICATIONS REPORT

March 2017

- **COMMISSION AWARENESS EFFORTS:**

Scudder Falls Bridge Replacement Project Website – Overhauled contents and organization of the home page for the Scudder Falls Bridge Replacement Project's website. The changes were done in anticipation of increased public interest at the project approaches construction in the months to come. The new home page gives visitors a quick bullet-by-bullet summary of the project work elements as well as a quick high-level schedule. The changes also give prominent access to videos about the project and the new bridge's planned all-electronic toll collection system. The Latest updates item on the homepage also is more prominent and the project schedule entry on the website has been thoroughly updated to include the start of land-based construction this spring and the start of in-water construction on or after July 1. The website's project milestones section was updated to include items during the second half of 2015. Additional from 2016 are being identified for listing/coding by consultants Stokes Creative Group.

Annual Report – All work on the 2015 annual report was completed and the completed report with the final changes and corrections has been posted to the website. We are awaiting billing from the subconsultants who helped to design/layout the report along with media consultants Bellevue Communications.

Scudder Falls Bridge Replacement Project Public Involvement – Recognizing the approaching start of project construction, a planning/coordination meeting was held during March to outline upcoming public outreach activities. This included immediate short-term improvement to the project website, development of a new project logo, continuation of focus group activities and preparation/editing of a Facilitation Guide for customer interview sessions.

Meeting of April 24, 2017

Community Affairs Report

March 2017

The following Community Affairs activity took place during the month of March:

Scudder Falls Public Involvement

Attended kick-off meetings for construction and construction management contracts.

Attended Public Involvement status meeting, discussing redesign of website and upcoming focus groups.

Assisted in review and response to messages received via the Commission and Scudder Falls project websites, as appropriate. Questions and concerns included the sound wall design, construction schedule, and property acquisition.

Reviewed correspondence from Lower Makefield Township, concerned about the future plans for the historic Henry Paff House. Referred to Kevin Skeels.

Columbia/Knowlton Salt issue:

Reviewed Knowlton Township's proposal for funding of reverse osmosis systems and discussed with Commission officials and New Jersey Counsel Reginald Jenkins. Provided Mr. Jenkins with background info. Arranged meeting with Knowlton officials to address some questions about the proposal. Meeting with the Mayor will be April 4, after which Counsel will have a recommendation to the Commissioners for the April 19 Committee meeting.

Lumberville-Raven Rock Pedestrian Bridge:

Commission officials saw an article in the newspaper about an EPA Support rally held at Bulls Island State Park and the Lumberville-Raven Rock Pedestrian Bridge. A Use of Facilities permit was not requested. Contacted Bulls Island Superintendent Patricia Kalleser. The group also did not request permit to hold the event in the park. She was at the park that day and spoke to the organizer, who claimed he was not aware of permit requirements. She felt it would not have been prudent to stop the

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION
Meeting of April 24, 2017

rally at that time. Superintendent Kalleser is aware of the Commission's use of facilities permit policy and will continue to share that information with individuals who request use of the park.

Town of Phillipsburg

Attended Chamber of Commerce breakfast with District 2 Maintenance Foreman Mark Dilts, featuring the "State of the City" presentation by Phillipsburg Mayor Stephen Ellis. Spoke to the chamber staff member who assists with town events, including the Old Towne Festival and the proposed Pork Roll Festival, both of which are planned to be held in the riverside area. Offered the Commission officials' assistance in the event planning, to ensure the activities do not encroach on commission property.

Easton shoreline debris

Reviewed correspondence received by District 2 Superintendent James Shelly from the Easton City Department of Public Works regarding debris left by individuals camping along the river in the area of the Easton-Phillipsburg Toll Bridge. Visited the site with District 2 Maintenance Foreman Mark Dilts. River level is too high to address the issue right now. When the water recedes, maintenance staff will remove the debris. Safety, Security and Training will continue to monitor the area, to keep individuals from camping in the area and refer them to available city services.

Trenton STEM program

The City of Trenton Recreation Department is hosting an upcoming STEM (Science, Technology, Engineering and Mathematics) program. They would like to have the students re-create a replica of the Lower Trenton Toll Supported Bridge and requested photos or plans to use. Referred request to the Engineering Department.

Portland PA request

Reviewed request from Portland PA officials for the Commission to perform street-sweeping in the Borough. As per policy, the Commission is not able to grant the request. Prepared response for review.

Workplace Safety

Attended the March Workplace Safety Committee meeting at New Hope-Lambertville Administration Building.

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION

April 24, 2017 PROJECT STATUS REPORT

A vehicle classification issue was discovered at the Delaware Water Gap Toll Bridge open road tolling lane. This prompted the installation of a filter to hold these transactions at the toll host for a week until the issue was resolved. The filter was then lifted and the transactions were then able to be transmitted to the customer service center for processing.

The preliminary work for the toll plaza canopy dynamic message signs (DMS) for the New Hope-Lambertville, Easton-Phillipsburg, Portland-Columbia and Milford-Montague Toll Bridges is underway. During the preliminary work, it was determined that the existing conduit from the monotube to the administration building/tunnel at the Easton-Phillipsburg Toll Bridge is damaged and cannot be used for the signs electrical and communication cables. We received a proposal from TransCore to repair the conduit and it is being evaluated.

Task Order Assignment C-628B-6**

Under this Task Order Assignment (TOA) the Consultant, the Louis Berger Group, Inc. (Berger), is providing professional services for the design of the installation of overweight / oversized vehicle detection linked to alarms, signage and camera to discourage the passage of these vehicles over selected bridges. Notice to proceed was given on December 15, 2015; kick off meeting was held on January 15, 2016. Existing plans were transmitted to Consultant in order to start construction plan preparation. Consultant conducted field visits to all five bridge sites February 18 & 19, 2016. A Meeting was held with IT and ESS on March 7, 2016 to discuss possible location of over height sensors and connectivity to existing communication systems. Plans showing proposed location of over height sensors, cameras and new weight restriction signing have been submitted and reviewed.

Based on review comments, locations will be adjusted and a field meeting with ESS will be scheduled to verify and finalize camera locations. Due to the departure of personnel, Berger submitted the name and qualifications of a new project manager which has been accepted by the Commission. Meeting is being scheduled to revise scope and discuss utilization of new communication infrastructure. As a result of the recent critical fracture of a truss member resulting in the closing of a PA Turnpike bridge, the scope of this contract was expanded. It has been decided to install sensors on all five bridges in the task order and to add the Milford Montague Bridge to the assignment. A revised scoping meeting was held on February 28th and a revised cost will be submitted. Cost for revised scope was submitted March 22 and was deemed excessive. Revised cost estimate was submitted on March 28 and is under review.
