NEWTON A. K. BUGBEE
Comptroller

To All Departments, Institutions, Etc.

This handbook of appropriations for the fiscal year beginning July 1, 1920, and ending June 30, 1921, is published for the benefit and information of all parties concerned.

The several items composing the act herein contained are hereby declared to be appropriations for the fiscal year above mentioned for the purposes therein expressed.

In order that some degree of flexibility in appropriations may be had, and to meet contingencies not apparent at the passage of the act, the Comptroller, by authority vested in him under section 6 of Chapter 353, Laws of 1920, will make such correction of titles or text, or both, of appropriations necessary to make them available for the purpose or purposes intended, at such time as the necessity for them may be presented to him by the various boards, institutions, commissions or officials of the State.

Attention is directed to section one of the act with reference to the availability of the appropriations for the period of three months after the close of each fiscal year. State officers are advised that by reason of the enactment of this clause all unexpended balances will arbitrarily lapse at the close of the three months' period, except it be reserved as provided therein.

Heads of institutions coming under the control of the Department of Institutions and Agencies should direct their attention to section 7.

Departments and institution heads are also directed to carefully read sections 9 and 10.

All miscellaneous receipts must be forwarded monthly in accordance with the law as heretofore, and each institution will be credited with the amount so received, but cannot use any sum in excess of the amount appropriated by the Appropriation Committee.

For the past two years or more every effort has been made by this Department to facilitate the payment of bills, and it appears that there should be no difficulty in each department and institu-

tion forwarding schedules of bills within five days after the close of each month. Schedules should not be held simply because some firm with whom the institution is doing business fails to send in their invoice at the proper time. It might be better to forward a supplemental schedule later in the month.

This Department is enabled at all times to pass bills to payment promptly, and it is sincerely hoped that bookkeepers of institutions will make every effort to forward their schedules as frequently as they desire, and that they call upon this Department whenever it is desirable for such assistance as may be needed to expedite payments.

Institutional bookkeepers are directed to pay strict attention to copies of requisitions forwarded by the Purchasing Agent, and debit same against their appropriation when received. They become debits against the appropriation notwithstanding the fact that the goods ordered under the requisition have not been received. A prompt compliance with this will make it impossible for bookkeepers to carry balances different from this Department, as has occurred frequently in the past.

Department heads are requested to familiarize themselves with the provisions of Chapter 254, P. L. 1920, for facilitating approval of bills and also Chapter 66, P. L. 1920, concerning emergency appropriations.

In submitting vouchers for reimbursement of personal expenditures hereafter, receipts will be required for hotel expenditures, Pullman car, and any miscellaneous expenditure for \$5.00 or excess thereof.

It will be noted that the order in which the various appropriation items are set up in this handbook has been radically changed from that of prior years. For the information and convenience of all who may have reference to this book a table of the various appropriation groups and the appropriations comprising each group follows:

5. In order that some degree of flexibility in appropriations may be had, any department or other State agency receiving an appropriation by any act of the Legislature may apply to the State House Commission for leave to transfer a part of any item granted to such department or agency to any other item in such appropriation. Such application shall only be made during the current year for which the appropriation was made, and if the State House Commission shall consent thereto, it shall notify the Comptroller thereof in writing, whereupon the Comptroller shall place the

amount so transferred to the credit of the item so designated; *provided, however*, that no sum appropriated for any permanent improvement shall be used for maintenance or for any temporary purpose.

6. The Comptroller of the Treasury is hereby authorized, empowered, directed, and it shall be his duty to make such correction of the title or text, or both, of an appropriation, necessary to make such appropriation available for the purpose or purposes of its intention. Such correction shall be by written ruling, reciting in appropriate detail the facts thereof and the reasons therefor, attested by the signature of said Comptroller and filed in the Department of the Comptroller of the Treasury as an official record thereof, and any action thereunder, including disbursements and the audit thereof, shall be legally binding and of full force and virtue.

7. The appropriations made to institutions operating under the provisions of chapter 147, Laws of 1918, shall be available subject to the following limitations: There shall be submitted monthly to the State Comptroller by the Department of Institutions and Agencies, a statement showing the number of inmates or patients maintained in each of the several institutions during the preceding month, the estimated number for the succeeding month together with the increase or decrease in population of such institution based on the estimate submitted by the Department of Institutions and Agencies to the Budget Commission, and the Comptroller is authorized, in the event of any institutional agency exceeding the proportion of its appropriation as based on the number of inmates so estimated, at any time during the fiscal year to refuse countersignature of requisitions and take whatever steps he shall deem necessary to reduce the expenditures of such institution to a proper proportion based on the decrease in population.

8. The Comptroller of the Treasury is hereby empowered, and it shall be his duty in the disbursement of funds available for the general uses of the State, to first provide for the maintenance of the administration of the government of the State, and of its courts, and of

its penal, correctional and charitable institutions, and to apply the remainder of such available funds in such manner and to such purpose for which appropriation may have been made as in his judgment may best conserve the interest of the State.

9. The person to whom is paid any salary or wages herein specifically appropriated as compensation for services in performing the duties of a particular office, position or employment shall not be paid from other moneys herein appropriated, any additional compensation.

10. Anything herein contained to the contrary notwithstanding, no person, now or hereafter filling an office, position or employment for which a definite compensation or salary range has been fixed by the Civil Service Commission under the provisions of chapter 24, of the Laws of 1918, shall receive for his services in said office, position or employment, a sum greater than the maximum amount provided by the schedule of compensation adopted by the Civil Service Commission in accordance with the provisions of said chapter 24, of the Laws of 1918; *provided, however*, that nothing herein contained shall be construed as altering, repealing or in any way affecting the provisions of chapter 49, of the Laws of 1916.

11. This act shall take effect on the first day of July, one thousand nine hundred and twenty.
