## OVER-THE-COUNTER PERMITS

### I. STREAM ENCROACHMENT (609) - 292 - 4869

DEP now has a one-day processing service for certain minor stream encroachment permits. This "over-the-counter" service is limited to minor projects which do not adversely change the water carrying capacity of the floodway, do not increase erosion or sedimentation in the stream, and do not require substantial channel modification or relocation. For further information contact the Bureau of Flood Plain Management, CN 029, Trenton, NJ. 08625.

### II. WATERFRONT DEVELOPMENT (609) - 292 - 0060

DEP has a one-day processing service for minor waterfront development projects. This over-the-counter service applies to waterfront construction activity in man-made lagoons and minor maintenance and/or repair or replacement of lawful existing structures. For further information contact: Waterfront Development, CN 401, Trenton, NJ. 08625.

### III. SEWER EXTENSIONS (609) - 292 - 3846

DEP has a one-day processing service for "minor" sewer extension projects. Eligible projects must meet certain criteria, such as, length of 1000 linear feet or less, cost of \$25,000 or less, sewage flow per day of 12,000 gallons or less. No projects with pump stations, force mains, siphons, gallonage transfers or holding tanks will be processed over-the-counter. Projects can not be located in areas under sewer ban, administrative orders, or litigation.

Projects must be in-house by 9:30 a.m., and all administrative documents must be in proper order. Pre-application conferences are strongly recommended. For further information contact Division of Water Resources, CN 029, Trenton, N.J. 08625.

## MASTER PERMIT INFORMATION APPLICATION

June 8--CONDITIONAL CAFRA APPROVAL FOR CONDOMINIUM--DEP's Division of Coastal Resources announced conditional approval of a Coastal Area Facility Review Act (CAFRA) permit for construction of a condominium in Little Egg Harbor Township, Ocean County. The project, Bay Harbor Estates, to be located at the southern extent of Radio Road, was conditionally approved for construction of 207 condominium units on 40.5 acres considered to be the "buildable area" of the site -- this is 45 units less than the 252 originally proposed.

June 8--FIRM CITED FOR ILLEGAL WASTEWATER DISCHARGES--DEP's Division of Water Resources announced the issuance of an Administrative Order against Denzer and Schafer X-Ray Company, a film processing company in Berkeley Township, Ocean County, for the discharge of untreated acid wastewaters into the groundwaters of the state.

\* \* \*

June 9--COMMISSIONER TESTIFIES IN WASHINGTON, D.C.--DEP Commissioner English testified before the House Subcommittee on Oversight and Investigations re the need for increased federal assistance, not cutbacks, for solid and hazardous waste management. She noted that DEP had identified more than 300 hazardous waste locations and 195 operating landfills and has closed 17 hazardous waste facilities and 25 dumps in the last year. \$31 million was spent for cleanups in a little over one year, while the first benefits from the federal Superfund have yet to be realized. The combined FY 1982 budgets for solid and hazardous wastes amount to a proposed \$5.4 million. The majority of this money must come solely from state sources. The current federal administration has cut all budget support for solid waste management.

\* \* \*

June 9--DEP CLEARS BT SPRAYING IN ORANGE RESERVOIR FISH KILL--DEP announced that the fish kill observed in the Orange Reservoir, Essex County, from June 2-5, was due to a parasitic infection and not as a result of the county's bacteriological spraying for gypsy moths. On May 22, and June 1, spraying for gypsy moth control was carried out by Essex County officials using *Bacillus thuringiensis* (BT), a bacterium that specifically attacks and destroys only the caterpillar stage of the gypsy moth. When fish began dying in the South Mountain Reservation area, samples were returned to the hatchery at Lebanon where a state pathologist observed on the gills heavy infestations of three protozoan parasites, in particular, *Costia*. Senior Fisheries Biologist Bob Stewart said, "The major contributing factor in the fatality is the parasitic *Costia* infection." The presence of healthy, actively breeding fish in the lake, not infected with *Costia*, supports the statement of Stewart, and that of DEP Division of Water Resources Director Arnold Schiffman that, "There has been no BT fish kill to my knowledge reported in the last three or four years."

\* \* \*

June 9--DEP AN OBSERVER AT MEETING FOR INCINERATION PROPOSAL--DEP will be represented at a meeting to be held on June 10 in Newark by a Connecticut firm on its proposal to incinerate hazardous wastes at sea. The meeting between At-Sea Incineration, Inc. or Greenwich, Conn. and various community groups, is entirely independent of any of DEP's administrative or permit procedures, according to Richard Gimello of DEP's Office of Public Participation. The Department will be at the meeting solely as an observer and to advise on its public participation requirements.

June 12--PERMITS NOW GRANTED FOR OPEN BURNING TO CLEAR FARMLAND--DEP Commissioner English announced that under revised open burning regulations which became effective on June 8, DEP may authorize open burning to clear 25 acres or less of land if the site will be commercially farmed for at least five years after clearing. To apply for an open burning permit for most uses, New Jersey residents should call DEP's Bureau of Forest Fire Management at 609-984-3584. June 15--ADOPT AMENDMENTS TO COASTAL POLICIES--Commissioner English announced adoption of amendments to the Rules on Coastal Resource and Development Policies to make them more clear and consistent with the Pinelands Comprehensive Master Plan. "The amendments are technical in nature and represent fine-tuning of the rules rather than a shift in policy. They will not expand DEP's jurisdiction under the three coastal permit laws," explained David N. Kinsey, Director of DEP's Division of Coastal Resources.
