9. No permit shall be transferred without the prior approval of the Department.

10. A vessel possessing a permit to commercially harvest tautog by angling or hook and line or spearfishing and when operating under the permit shall be subject to the following:

i. Crew size shall be limited to no more than five persons, including the captain; and

ii. The vessel shall not carry any passengers for hire. When carrying passengers for hire, the tautog permit is not valid and the possession limits and seasonal restrictions as specified in N.J.A.C. 7:25-18.1 apply.

11. The annual tautog harvest quota for New Jersey shall be 103,000 pounds or as modified by the Commissioner pursuant to (i) below. All landings of tautog in New Jersey shall be applied to the New Jersey annual quota.

ii. The Commissioner, or his or her designee, shall close the season for the commercial tautog fishery upon four days public notice of the projected date the annual quota shall be caught. Public notice shall include letters by first class mail to all New Jersey Tautog Permit and New Jersey Non-Directed Fishery Tautog Permit holders.

iii. Once the season has been closed for the commercial tautog fishery, no vessel shall land any tautog in New Jersey and no dealer shall accept any tautog landed in New Jersey.

iv. If the Commissioner, or his or her designee, closes the season prematurely because of unanticipated environmental events resulting in the quota not being landed by the projected date and at least one month remains in the current season, then the Commissioner, or his or her designee, may reopen the season for a specified period of time upon four days public notice. Public notice shall be made as specified in (c)11ii above.

v. If the quota for any year is exceeded, the amount over harvested will be deducted from the following year's annual quota.

vi. Beginning in 1997, the Department shall notify the holders of New Jersey Tautog Permits and New Jersey Non-Directed Fishery Tautog Permits of the season allocations no later than January 31 of the year to

which the allocation applies. Notification shall be by first class mail to permit holders.

vii. All New Jersey Tautog Permit and New Jersey Non-Directed Fishery Tautog Permit holders shall be required to complete monthly reports supplied by the Department. The monthly report shall be signed by the permittee attesting to the validity of the information and be submitted so it is received by the Department no later than five working days following the end of the reported month at the following address:

Tautog Program
Nacote Creek Research Station
PO Box 418
Port Republic, NJ 08241-0418

(1) The monthly report shall include, but not be limited to, the following information: name, permit number, total amount (in pounds) of tautog taken, dates caught, time at sea, duration of fishing time, area fished, crew size, landing port, date sold, buyer. This information shall be provided for any trip in which tautog are landed.

(2) If no trips for tautog were taken and no tautog were landed during the month, a report to that effect shall be required.

12. Any person violating the provisions of this section shall be subject to the penalties prescribed in N.J.S.A. 23:2B-14 in addition to the following:

i. Failure to submit the required documentation to the application shall result in the denial of the permit.

ii. Falsification or misrepresentation of any information on the application including documentation provided to verify the amount of tautog landed as specified in (c)2ii(2) and (c)5ii(1) above shall result in the denial or revocation of the permit in addition to any civil or criminal penalties prescribed by law.

iii. Failure to comply with the provisions of (c)11iii above, landing tautog after the season has been closed, or (c)11vii above, failure to submit accurate and timely monthly reports, shall result in the suspension during open seasons for tautog or revocation of the vessel's tautog permit according to the following schedule:

(1) First Offense: 60 days suspension

(2) Second Offense: 120 days suspension

(3) Third Offense: permanent revocation

iv. In calculating the period of suspension or revocation applicable under (c)12iii above, the number of previous suspensions shall be reduced by one for each three-year period in which the permit holder does not commit any other violation subject to this subsection, provided, however, that if more than one suspension is imposed within a three-year period, only one of those suspensions may be forgiven under the subparagraph;

therefore, a permit holder who incurs more than one suspension in a three-year period shall not be considered a first offender under this subsection regardless of the length of any subsequent period without violation. The reduction in suspensions provided in this subparagraph applies only to determination of suspension periods; all prior suspensions shall be taken into account in calculating monetary penalties in accordance with N.J.S.A. 23:2B-14.

v. Prior to revocation of the permit, the permittee shall have the opportunity to request a hearing pursuant to the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq. and 52:14F-1 et seq., and the Uniform Administrative Procedure Rules, N.J.A.C. 1:1.

(d) The following provisions are applicable to the commercial harvest of sharks:

1. A person shall not possess more sharks than the number specified in the possession limit at N.J.A.C. 7:25-18.1(c) without a valid annual vessel permit for sharks issued by the National Marine Fisheries Service or a New Jersey commercial fishing license issued for the gear allowed in the commercial shark fishery. With a valid annual vessel permit or a New Jersey commercial fishing license, the maximum possession limit is 36 sharks from the Aggregate Large Coastal shark species group and the Hammerhead shark species group combined, an unlimited number of sharks from the Non-Blacknose Small Coastal shark species group, an unlimited number of sharks from the Blacknose shark species group, and an unlimited number of sharks from the Pelagic shark species group. 7:25-18.13 Striped bass bonus program

(a) Pursuant to N.J.S.A. 23:5-45.1(c), the possession of one "bonus sized" striped bass, measuring not less than 28 inches in length, will be allowed in addition to the possession limit allowed under N.J.S.A. 23:5-45.1(a), pursuant to (b) through (o) below.

(b) Any person intending to take one "bonus sized" striped bass, as defined in (a) above, in addition to his or her striped bass possession limit as specified at N.J.S.A. 23:5-45.1 shall apply to the Division to participate in the striped bass bonus program. Applications may be obtained from the following:

1. Division of Fish and Wildlife

Striped Bass Bonus Fish Program

Nacote Creek Research Station

PO Box 418

Port Republic, NJ 08241-0418

2. Fish checking stations, as authorized by the Division and identified pursuant to (i) below.

3. On the Division of Fish and Wildlife's website at www.njfishandwildlife.com.

(c) The application form shall be completed to include the name, address and telephone number of the applicant.

(d) Applications to participate in the striped bass bonus program shall be processed in order of receipt by the Division.

(e) Successful applicants will receive non-transferable fish possession cards, the number to be determined by the Commissioner or his or her designee based on the available quota and the number of applicants. One card shall be filled out completely and the month and day numbers perforated immediately upon retention of a bonus striped bass. A finite number of cards shall be available to participating party and charter boat captains in the name of the vessel and owner. Fish possession cards issued to party and charter boats are for the use of patrons on that vessel and shall not be sold, offered for sale or used for barter.

(f) Fish possession cards shall be valid in the calendar year for which they were issued except during those periods in

which the Department has closed the State's waters to harvesting as provided at (l) below.

(g) Successful applicants may keep and submit annual records of their striped bass fishing activity as requested on forms furnished by the Division. Such records shall include the name, address, and card number(s) of the fishermen, the days and hours fished, the lengths of striped bass caught, the location of fishing activity and the type of fishing. Party and charter boat captains shall be required to maintain and submit logbooks developed by the Division.

(h) A person shall not have in his or her possession at any time more than the number of striped bass provided for in N.J.S.A. 23:5-45.1, nor shall such striped bass be less than the size provided for in N.J.S.A. 23:5-45.1. One additional striped bass may be possessed and shall not be less than the size defined in (a) above. Said person shall have a properly completed and legal fish possession card, as provided for at (e) above.

(i) Any striped bass taken under this section may be transported to an authorized fish check station by the person who caught the fish on the day so taken. A list of authorized fish check stations shall be provided to all participants in the striped bass bonus program by the Division via first class mail along with the fish possession cards. Fish check stations shall also be listed on the Division's website at www.njfishandwildlife.com. A person shall not present for registration or permit to be registered in his or her name a striped bass which he or she did not catch. Any person who legally takes a striped bass under this section and who cannot arrive at a fish check station shall immediately mail his or her fish possession card to the address presented at (b) above.

(j) A person shall not possess any striped bass taken or tagged under the provisions of this section which is damaged or mutilated to the extent that its length cannot be determined, other than immediately prior to preparation or being served as food.

(k) An additional fish possession card may be provided to the angler as determined by the Commissioner or his or her designee based upon the available remaining quota and the number of applicants upon recording of his or her prior legally harvested bonus striped bass at an authorized fish check station or via mail as presented at (i) above, provided the season has not been closed pursuant to (l) below.

(l) When, at any time during the calendar year, the Division has projected that the quota established by the Atlantic States Marine Fisheries Commission for striped bass will have been harvested, the Division will close the State's waters to any further harvesting upon two days public notice by distribution of a news release to individuals on the Division outdoor writers mailing list and via the Division's website at www.njfishandwildlife.com. A notice shall also be published in the New Jersey Register.

(m) The quota described in (l) above shall be 321,650 pounds until such time as another quota is duly promulgated by the Atlantic States Marine Fisheries Commission. A portion of this quota will be allotted to party and charter boats.

(n) The Division will provide public notice via a news release to individuals on the Division outdoors writers mailing list and to all participants in the striped bass bonus program as to the number of fish possession cards that will be issued to each participant pursuant to (e) above, the availability of additional fish possession cards pursuant to (k) above, and changes to the quota described in (l) above. A notice shall also be published in the New Jersey Register.

(o) Any person violating the striped bass size and possession limits as provided for in N.J.S.A. 23:5-45.1, or this section shall be liable for penalty of \$100.00 per fish for each offense. In addition, any person violating any provision of this section shall be subject to revocation, applicable to both the vessel and the owner, from the Striped Bass Bonus Program. Revocation would render the vessel and the owner ineligible for participation in the program regardless of vessel ownership. Any fish possession cards in such person's possession shall be invalid and shall be returned to the Division upon such person's receipt of notification of such revocation. Failure to return the cards upon notification shall subject the violator to penalties prescribed pursuant to N.J.S.A. 23:2B-14.

(p) The Commissioner, with the approval of the New Jersey Marine Fisheries Council, may modify the size limit, bag limit, season and/or quota specified in this section, by notice in order to maintain and/or to come into compliance with any fishery management plan approved by the Atlantic States Marine Fisheries Commission pursuant to 16 U.S.C. §5104(b). The Commissioner, with the approval of the New Jersey Marine Fisheries Council, may modify the size limit, bag limit or season specified in this section by notice in order to provide for the optimal utilization of any quota specified in this section. The Commissioner will review the catch rate in relation to the season quota and, if harvest data indicate that upward adjustments in harvest control measures are warranted to maximize utilization of the available quota within a specific season for a specific fishery, the Commissioner may adjust the above specified control measures to achieve optimal utilization of the total allowable catch. The Department shall publish notice of any such notice in the Division's Fish and Wildlife Digest publication and the New Jersey Register.
