OVER-THE-COUNTER PERMITS

I. STREAM ENCROACHMENT (609) - 292 - 4869

DEP now has a one-day processing service for certain minor stream encroachment permits. This "over-the-counter" service is limited to minor projects which do not adversely change the water carrying capacity of the floodway, do not increase erosion or sedimentation in the stream, and do not require substantial channel modification or relocation. For further information contact the Bureau of Flood Plain Management, P.O. Box CN029, Trenton, NJ 08625.

II. RIPARIAN (609) - 292 - 2613

DEP has a one-day processing service for minor Riparian projects. This over-the-counter service applies to waterfront construction activity in man-made lagoons and minor maintenance and/or repair or replacement of lawful existing structures. For further information contact Riparian Lands Management, P.O. Box 1889, Trenton, NJ 08625.

III. SEWER EXTENSIONS (609) - 292 - 0700, or (609) - 292 - 4869

DEP has a one-day processing service for "minor" sewer extension projects. Eligible projects must meet certain criteria, such as, length of 1000 linear feet or less, cost of \$25,000 or less, sewage flow per day of 12,000 gallons or less. No projects with pump stations, force mains, siphons, gallonage transfers or holding tanks will be processed over-the-counter. Projects can not be located in areas under sewer ban, administrative orders, or litigation.

Projects must be in-house by 9:30 a.m., and all administrative documents must be in proper order. Pre-application conferences are strongly recommended. For further information contact Division of Water Resources, P.O. Box CN029, Trenton, NJ 08625.

DEP RECAP

(Recent press releases in capsule form)

March 27--DEP ORDERS CLOSING OF SUSSEX LANDFILL--DEP's Solid Waste Administration has ordered the closing, within six months, of a landfill operation in Lafayette Township, Sussex County, of Hamm's Sanitation, Inc., because it has outgrown its authorized size. The design of a proposed expansion of the landfill was rejected because of danger of ground and surface water pollution. A public meeting will be held in Sussex County in the future for discussion of disposal problems the closing will create, and to explore possible solutions.

March 29--DEP WARNS OF HERBICIDE BAN--The use, sale or distribution of products containing the herbicides 2, 4, 5-T or silvex (2, 4, 5TP) is illegal due to a ban imposed by the U.S. Environmental Protection Agency (EPA). Violations of the ban in New Jersey will result in enforcement actions by DEP's Office of Pesticide Control.

March 30--NEW GOLF COURSE AT ALLAIRE STATE PARK--The Spring Meadow Gold Course, adjacent to Allaire State Park in Wall Township, Monmouth County, opened to the general public on March 31. The 18-hole, par 69 course was acquired by DEP in January and is being operated by the Division of Parks and Forestry, which also operates Allaire Park. Further information may be obtained by calling the golf course, (201) 449-0806.

March 30--DEP CHECKING FORMER RADIUM PROCESSING SITES--Investigation has begun by DEP's Bureau of Radiation Protection of sites where radium has been processed in the state. One is at High and Alden streets, Orange, where the former U.S. Radium Corporation refined and fabricated radium products from 1919 to 1930. Several small businesses, unrelated to radium processing, now occupy the site. DEP's initial survey revealed radiation levels 10 to 20 times above normal background readings in certain isolated areas at the site. At present, there is no evidence of an imminent health threat. EPA will lend DEP technical assistance. DEP is working with the company to pursue the investigation.

March 30--STATE READIES FOR POSSIBLE NUCLEAR PROBLEM--DEP and the Office of the Governor issued a series of advisories about the Three Mile Island nuclear accident in Pennsylvania and precautions being exercised by New Jersey. Assistant DEP Commissioner for Science, Dr. Glenn Paulson, reported that all New Jersey milk processors using Pennsylvania raw milk are known to DEP, and that all incoming milk supplies will be monitored as long as there is a possibility of radioactivity. Governor Byrne reported that a line of DEP radiation monitoring stations along New Jersey's western border will remain activated to detect any possible radioactivity. None had been reported entering New Jersey. Governor Byrne said New Jersey had responded to the request of Governor Thornburgh of Pennsylvania by making available assistance in field measurements, protection equipment, laboratory services and other help as it might be needed.
