Deyssi Mesa
Sukhrob Khalilov

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized."Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Aviation Department

The region's passenger traffic grew 2% in the first half of 2014 and reflected two separate stories. While first quarter growth was stunted by weather and fell 0.4%, a record second quarter paced by a 4.1% gain and 30.5 million passengers handled helped deliver a record first half, with 55.7 million passengers. The second quarter's record growth was due to the release of pent-up demand in April, continuing residual demand in June, and stronger second quarter economic growth. Most of the growth was centered in the international sector as YTD June traffic grew 5.7%. Domestic traffic was up only 0.1%. Following positive growth in March, April and May, the region's cargo returned to its negative ways as June cargo fell 0.5%, pushing YTD down 1%.
