OVER-THE-COUNTER PERMITS

I. STREAM ENCROACHMENT (609) - 292 - 4869

DEP now has a one-day processing service for certain minor stream encroachment permits. This "over-the-counter" service is limited to minor projects which do not adversely change the water carrying capacity of the floodway, do not increase erosion or sedimentation in the stream, and do not require substantial channel modification or relocation. For further information contact the Bureau of Flood Plain Management, P.O. Box CN029, Trenton, NJ 08625.

II. WATERFRONT DEVELOPMENT (609) - 292 - 0060

DEP has a one-day processing service for minor waterfront development projects. This over-the-counter service applies to waterfront construction activity in man-made lagoons and minor maintenance and/or repair or replacement of lawful existing structures. For further information contact: Waterfront Development, P.O. Box 1889, Trenton, NJ 08625.

III. SEWER EXTENSIONS (609) - 292 - 3846

DEP has a one-day processing service for "minor" sewer extension projects. Eligible projects must meet certain criteria, such as, length of 1000 linear feet or less, cost of \$25,000 or less, sewage flow per day of 12,000 gallons or less. No projects with pump stations, force mains, siphons, gallonage transfers or holding tanks will be processed over-the-counter. Projects can not be located in areas under sewer ban, administrative orders, or litigation.

Projects must be in-house by 9:30 a.m., and all administrative documents must be in proper order. Pre-application conferences are strongly recommended. For further information contact Division of Water Resources, P.O. Box CN029, Trenton, NJ 08625.

MASTER PERMIT INFORMATION APPLICATION

DEP has developed a Master Permit Information Application which, upon completion, will indicate all the DEP permits required for the project. Forms may be obtained by contacting the Office of Business Advocacy (See inside cover for details).

January 7--DEP CERTIFIES TREE EXPERTS--DEP Commissioner Jerry Fitzgerald English announced that six New Jersey arborists became Certified Tree Experts after passing an examination. There are now 137 Certified Tree Experts throughout the State. Anyone interested in being notified of a future exam or anyone who wishes a list of the current New Jersey Certified Tree Experts should contact the Bureau of Tree Experts, CN-028, Trenton 08625. Phone: 609-292-2520.

January 8--AUTO EMISSION CONTROLS PROVE TWICE AS EFFECTIVE AS NATIONAL RATE--DEP Commissioner English announced that sampling has shown New Jersey automobiles' emission control systems to have been tampered with by their owners at a rate less than half that found nationally. New Jersey vehicles were found to have had their emission systems altered at a rate of only 47 percent of that found nationwide, according to the federal Environmental Protection Agency (EPA). EPA indicated that New Jersey's good showing presents a sound groundwork for the encouragement of annual auto inspection maintenance emissions testing programs throughout the country. (The other sites covered in the national sampling did not have such programs.)

January 9--MARCH 1 DEADLINE FOR HISTORIC GRANT APPLICATIONS--DEP Commissioner English reminded the public that the deadline for filing applications for certain historic grants is March 1. The 50 percent grants, provided by the U.S. Department of the Interior through its Historic Preservation Grants-in-Aid program, are for 1) acquisition/development of properties listed on the National Register of Historic Places, and 2) survey/planning to identify properties eligible for listing on the Register and plans to preserve them. The program is administered for New Jersey by DEP's Office of Historic Preservation, which is responsible for awarding the grants to eligible applicants. For information contact the above office at 109 West State Street, Trenton 08625. Phone: 609-292-2023.

January 9--TEMPORARY CLOSURE OF SPECIFIED SHELLFISH BEDS--DEP ordered the temporary closure of shellfish harvesting waters located in the vicinity of the site where the barge "Michelle S" grounded off Little Egg Harbor Inlet and subsequently leaked an undetermined amount of oil into adjacent waterways. The precautionary measure was taken to avoid any public health problems that might be associated with harvesting shellfish from the affected areas. As soon as appropriate scientific assurances are received that there is no further danger, the areas will be reopened.

January 10--ASSISTANT COMMISSIONER FOR SCIENCE NAMED--DEP Commissioner English announced the appointment of Dr. Alden McLellan as the department's new Assistant Commissioner for Science and Research. Dr. McLellan comes to DEP with an extensive background in environmental sciences with both academic and practical applications.
