

See: 32 N.J.R. 864(a), 32 N.J.R. 3784(b).

In (h)6, substituted "approved by the Department" for "memorialized in a deed restriction meeting the Department's requirements" in the third sentence; and in (h)6 and (h)8, inserted references to conservation restrictions for references to conservation easements and substituted "recorded" for "registered" throughout.

Amended by R.2003 d.60, effective February 3, 2003.

See: 34 N.J.R. 74(a), 35 N.J.R. 632(a).

In (c)1, amended the N.J.A.C. reference; rewrote (h)3.

Case Notes

Federal court finding that land was wetland under federal definition required applicant for permit to concede that activity conflicted with state's coastal zone management program. Matter of Stoeco Development, Ltd., 262 N.J.Super. 326, 621 A.2d 29 (A.D.1993).

Project's exemption from permit requirements does not prevent state from finding proposed activity inconsistent with state's coastal zone management program. Matter of Stoeco Development, Ltd., 262 N.J.Super. 326, 621 A.2d 29 (A.D.1993).

Permit to fill wetlands granted by Army Corps of Engineers was not subject to state regulation. Matter of Waterfront Development Permit No. 87-1235-1 by Dept. of Environmental Protection to Union County Utilities Authority, 257 N.J.Super. 524, 608 A.2d 973 (A.D.1992).

Exclusive state regulation of isolated wetlands was provided by Freshwater Wetland Protection Act. Matter of Waterfront Development Permit No. 87-1235-1 by Dept. of Environmental Protection to Union County Utilities Authority, 257 N.J.Super. 524, 608 A.2d 973 (A.D.1992).

State regulation of upland development which had no direct effect on navigable waterways was not authorized by Waterfront Development Act. Matter of Waterfront Development Permit No. 87-1235-1 by Dept. of Environmental Protection to Union County Utilities Authority, 257 N.J.Super. 524, 608 A.2d 973 (A.D.1992).

Department of Environmental Protection was not required, in contested permit proceeding, to give notice that condition of mitigation might be imposed. *Baron v. New Jersey Department of Environmental Protection*, 93 N.J.A.R.2d (EPE) 75.

7:7E-3.28 Wetlands buffers

(a) Wetlands buffer or transition area means an area of land adjacent to a wetland which minimizes adverse impacts on the wetlands or serves as an integral component of the wetlands ecosystem (see Appendix, Figure 7). Wider buffers than those noted below may be required to establish conformance with other Coastal Rules, including, but not limited to, 7:7E-3.38 and 3.39.

1. A wetlands buffer or transition area of up to 150 feet in width shall be established adjacent to all wetlands defined and regulated under the Freshwater Wetlands Protection Act. (Refer to the Freshwater Wetland Protection Act Rules, N.J.A.C. 7:7A, for further guidance).

2. For all other wetlands, including wetlands regulated under the Coastal Wetlands Act of 1970, a wetlands buffer of up to 300 feet shall be established.

(b) Subject to (a) above, all wetlands buffers (that is, transition area) associated with wetlands subject to the Freshwater Wetlands Protection Act shall be regulated in accordance with the Freshwater Wetlands Protection Act Rules, N.J.A.C. 7:7A.

(c) Development is prohibited in a wetlands buffer around all other wetlands, unless it can be demonstrated that the proposed development will not have a significant adverse impact and will cause minimum feasible adverse impact, through the use of mitigation where appropriate on the wetlands, and on the natural ecotone between the wetlands and surrounding upland. The precise geographic extent of the actual wetlands buffer required on a specific site shall be determined on a case-by-case basis using these standards.

(d) In areas of the coastal zone which are within the Hackensack Meadowlands District, the appropriate buffer width shall be determined in accordance with the requirements set forth in the Hackensack Meadowlands District Zoning Regulations.

Amended by R.1985 d.715, effective February 3, 1986.

Section was "Wet Borrow Pit Margins".

7:7E-3.31 Coastal bluffs

(a) A coastal bluff is a steep slope (greater than 15 percent) of consolidated (rock) or unconsolidated (sand, gravel) sediment which is adjacent to the shoreline or which is demonstrably associated with shoreline processes.

1. The waterward limit of a coastal bluff is a point 25 feet waterward of the toe of the bluff face, or the mean high water line, whichever is nearest the toe of the bluff.

2. The landward limit of a coastal bluff is the landward limit of the area likely to be eroded within 50 years, or a point 25 feet landward of the crest of the bluff, whichever is farthest inland (see Appendix, Figures 7 and 8, incorporated herein by reference).

3. Steep slopes (N.J.A.C. 7:7E-3.34) are isolated inland areas with slopes greater than 15 percent. All steep slopes associated with shoreline processes or adjacent to the shoreline and associated wetlands, or contributing sediment to the system, will be considered coastal bluffs.

(b) Development is prohibited on coastal bluffs, except for linear development which meets the rule on the Location of Linear Development (N.J.A.C. 7:7E-6.1), shore protection activities which meet the appropriate Coastal Engineering Use rules (N.J.A.C. 7:7E-7.11), and single family homes and duplexes which are not located along the shorelines of the Atlantic Ocean, Delaware Bay, Raritan Bay or Sandy Hook Bay and comply with N.J.A.C. 7:7E-7.2(e) or (f).

(c) The stabilization of coastal bluffs with vegetation is encouraged.

(d) Rationale: See the OAL Note at the beginning of this subchapter.

Amended by R.1985 d.715, effective February 3, 1986.
See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

(b) and (b)2 deleted; section recodified to reflect deletions.

Amended by R.1990 d.413, effective August 20, 1990.

See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Text on farmland conservation areas recodified to 3.33 and amended to reflect and support the State and local Farmlands Preservation and Agricultural Development and Retention Programs; text on coastal bluffs recodified from 3.29.

Amended by R.1994 d.380, effective July 18, 1994 (operative July 19, 1994).

Amended by R.2000 d.428, effective October 16, 2000.

See: 32 N.J.R. 864(a), 32 N.J.R. 3784(b).

Rewrote (b).

7:7E-3.32 Intermittent stream corridors

(a) Intermittent stream corridors are areas including and surrounding surface water drainage channels in which there is not a permanent flow of water and which contain an area or areas with a seasonal high water table equal to or less than one foot. The inland extent of these corridors is either the inland limit of soils with a seasonal high water table depth equal to, or less than one foot, or a disturbance of 25 feet measured from the top of the channel banks, whichever is greater (see Appendix, Figures 7 and 9, incorporated herein by reference).

1. Where an intermittent stream corridor is also a wetland, the Wetlands rule (N.J.A.C. 7:7E-3.27) shall apply.

(b) Uses that promote undisturbed growth of native vegetation and wildlife habitat value are encouraged.

(c) Cutting, filling, damming, detention basins for runoff recharge, paving, structures or any other activities that would directly degrade the function of intermittent stream corridors, except for linear infrastructure for which there is no feasible alternate route, is prohibited.

(d) Intermittent streams not subject to the ebb and flow of the tide shall also comply with the Freshwater Wetlands Protection Act Rules (N.J.A.C. 7:7A).

(e) Rationale: See the OAL Note at the beginning of this subchapter.

(Agency note: N.J.A.C. 7:7E-3.33 through 3.35 are Special Land Areas)

Amended by R.1985 d.715, effective February 3, 1986.

See: 17 N.J.R. 1466(a), 17 N.J.R. 1797(b), 17 N.J.R. 1797(c), 18 N.J.R. 314(a).

(b) deleted; section recodified.

Amended by R.1990 d.413, effective August 20, 1990.

See: 22 N.J.R. 1188(a), 22 N.J.R. 2542(b).

Text on steep slopes recodified to 3.34; text on intermittent stream corridors recodified from 3.30; intermittent stream corridors are considered State open waters.

Amended by R.1994 d.380, effective July 18, 1994 (operative July 19, 1994).

See: 26 N.J.R. 943(a), 26 N.J.R. 1561(a), 26 N.J.R. 2990(a).

7:7E-3.33 Farmland conservation areas

(a) Farmland conservation areas are defined as any contiguous area of 20 acres or more (in single or multiple tracts of single or multiple ownership) with soils in the Capability Classes I, II and III or special soils for blueberries and cranberries as mapped by the United States Department of Agriculture, Soil Conservation Service, in National Cooperative Soil Surveys, which are actively farmed, or suitable for farming, unless it can be demonstrated by the applicant that new or continued use of the site for farming or farm dependent purposes is not economically feasible. Farming or farm-dependent purposes include nurseries, orchards, vegetable and fruit farming, raising grains and seed crops, silviculture (such as Christmas tree farming), floriculture (including greenhouses), dairying, grazing, livestock raising, and wholesale and retail marketing of crops, plants, animals and other related commodities.

(b) Farmland conservation areas shall be maintained and protected for open space or farming purposes. Farming or farm-dependent uses are permitted uses in farmland conservation areas. Housing is permitted only if it is an accessory use to farming. Mining is permitted only in accordance with a reclamation plan which meets the requirements of the Mining Use rule (N.J.A.C. 7:7E-7.8).
