PREFACE.

WE have no desire to multiply words while introducing the Manual of the one hundred and sixth session of the Legislature of New Jersey to our patrons, but will confine ourselves to the limit of calling attention to the valuable information on affairs of State which it contains. We have endeavored to improve on preceding editions by making the work more comprehensive, and the data and details more accurate than ever. The census returns of 1880 were furnished officially, from Washington, D. C.; the last State election returns, and, in fact, all the other contents have been compiled from official documents. We are under obligations to State officials, the press and other friends, for the assistance they have rendered us; and we trust that our efforts to present a complete hand-book of State information are such as to merit the commendation of the public. Gratefully acknowledging the support heretofore received, and asking for a continuance of the same, we remain,

Respectfully,

THE COMPILERS.

HISTORY OF NEW JERSEY.

In 1606, King James of England granted a new patent for Virginia (ignoring that of Sir Walter Raleigh, dated in 1584), in which was included the territory now known as the New England States and New York, New Jersey, Pennsylvania and Maryland. The possession of New Jersey, Pennsylvania and the adjacent lands was claimed respectively by the Dutch and Swedes. The former built Fort Nassau, on the Delaware, near Gloucester; Fort Orange, on the Hudson, near Albany; and the Hirsse of Good Hope, on the Connecticut. Disputes as to the rightful possession of territory continued for years, until the early summer of 1664, when Charles II. sold to John Lord Berkeley and Sir George Carteret "all that tract of land adjacent to New England, and lying and being to the westward of Long Island; bounded on the east part by the main sea and part by the Hudson river, and hath, upon the west Delaware bay or river, and extendeth southward to the main ocean as far as Cape May, at the mouth of Delaware bay, and to the northward as far as the northermost branch of said bay or river of Delaware, which is forty-one degrees and forty minutes of latitude, and worketh over thence in a straight line to Hudson river, which said tract of land is hereafter to be called by the name, or names, of NOVA CÆSAREA or NEW JERSEY."

The name was given in honor of Carteret, on account of his gallant defence of the Island of Jersey, at the time he was Governor of the island.

This grant regarded the Dutch as intruders, and Berkeley and Carteret not only became rulers, but acquired the right to transfer the privilege to others. Measures were speedily devised for peopling and governing the country. The proprietors published a constitution, dated February 10th, 1664, by which the government of the province was to be exercised by a Governor and Council and General Assembly. The Governor was to receive his appointment from the proprietors; the Council was to be selected by the Governor, who might make

choice of six Councillors, at least (or twelve, at most), or any even number between six and twelve.

On the same day that the instrument of government was signed, Philip Carteret, a brother of one of the proprietors, received a commission as Governor of New Jersey. He landed at Elizabeth in August, 1665.

The precise date of the first settlements in New Jersey is not known, though it is believed that the Danes or Norwegians, who crossed the Atlantic with the Dutch colonists, began a settlement at Bergen about the year 1624. Ten years previous an attempt was made to form a settlement at Jersey City. In 1623, the Dutch West India Company sent out a ship under the command of Capt. Cornelius Jacobse Mey, who entered the Delaware bay and gave his name to its northern cape, and, sailing up the river to Gloucester, built Fort Nassau, which may be considered the first permanent settlement of the State.

Upon the arrival of Governor Carteret, he entered at once upon a vigorous discharge of his duties. A large number of settlers flocked thither, and at an early period the executive authority of the province was established by the appointment of a Council, composed of Captain Nicholas Varlett, Daniel Pierce, Robert Bond, Samuel Edsall, Robert Vanquellen and William Pardon. James Bollen was appointed Secretary of the province.

The first Legislative Assembly in the history of New Jersey met at Elizabethtown on the 26th of May, 1668. The session lasted four days, and was characterized by harmony and strict attention to the business for which the Burgesses and Representatives were summoned by Governor Carteret. It may be noted that this Assembly passed laws by which twelve distinct offenses were made punishable with death. The Assembly adjourned *sine die*, and seven years elapsed before another convened. The capture of New York by the Dutch, July 30th, 1673, was followed by the subjection of the surrounding country, including the province of New Jersey. The whole of the territory, however, swung back to the possession of the English crown, by the treaty of peace with Holland on the 9th of February, 1674.

The second General Assembly began its session on the 5th of November, 1675. Eight members of Council, including the Governor, were present, and fourteen Representatives appeared from the towns. Laws were enacted looking to the proper military defence of the

province, for the institution of regular courts, and for the assessment of taxes. A code of capital laws was also adopted, similar in its provisions to that passed in 1668.

On the 18th of March, 1673, Lord Berkeley, one of the original proprietors of New Jersey, disposed of his right and interest in the province to John Fenwick and Edward Byllinge, members of the Society of Quakers, or Friends, who paid the sum of one thousand pounds for the same. John Fenwick received the conveyance in trust for Edward Byllinge, and a dispute, as to the terms having arisen, William Penn was called in as arbitrator. He gave one-tenth of the province and a considerable sum of money to Fenwick and the remainder of the territory was adjudged to be the property of Byllinge. A permanent settlement was made at Salem, in June, 1675.

Owing to the continued disputations and dissensions, a division of the territory of the province was agreed upon. By this "Indenture Quintipartite," dated July 1st, 1676, the line of division was made to extend across the province, from Little Egg Harbor, to a point in the Delaware river in forty-one degrees of north latitude. These divisions were known respectively as East and West Jersey, until the charters of both were surrendered, and the two portions included together under a Royal government:

By the retercession of New Jersey to Great Britain by the treaty of 1674, the question arose whether the title returned to the proprietors or to the King. To avoid all difficulty, the King recognized the claim of Carteret, and made a new grant to the Duke of York, who also executed a fresh conveyance to Carteret, covering, however, only a part of the original territory of New Jersey. But before making this conveyance, the Duke included the province in a commission given to Sir Edmund Andros, Governor of New York, who refused to recognize the authority, as Governor, of Philip Carteret, arrested all magistrates who would not submit to his own jurisdiction, and finally, on April 30th, 1680, carried Carteret himself prisoner to New York. The Duke was finally prevailed upon to acknowledge the claims of the proprietors, and in 1681, the government of Andros came to an end.

West Jersey, in February, 1682, was purchased by William Penn and eleven other Quakers. The first Governor under the new proprietors was Robert Barclay, a Scotchman, and one of the twelve purchasers, under whom the country became an asylum for the oppressed

members of his creed, and for a time enjoyed great prosperity. But the number of proprietors, the frequent subdivisions and transfers of shares, and various other difficulties in the way of good government, soon involved the province in trouble, and in 1702, the proprietors surrendered the rights of government to the Crown.

Queen Anne appointed Lord Cornbury Governor of New York and New Jersey, but each continued to have a separate Assembly. In 1708, New Jersey petitioned for a distinct administration, and Lewis Morris was appointed Governor. The population was then about 40,000. The last Royal Governor was William Franklin, the natural son of Benjamin Franklin. A State Constitution was adopted in 1776, and some of the most important battles of the Revolution took place upon its soil. Among these were the battles of Trenton, Princeton, Red Bank and Monmouth.

The first Legislature met at Princeton, in August, 1776, and chose William Livingston, Governor. The Federal Constitution was adopted by a unanimous vote, Dec. 18th, 1787. The State Capital was established at Trenton in 1790.

New Jersey, out of 98,806 men liable to do military duty, furnished 88,305 during the civil war, being 10,057 in excess of the number called for by the general government, and within 10,501 of her entire militia at that time. Of this number 79,348 served with State organizations, and the remainder in regiments of other States. The naval and marine enlistments from New Jersey numbered 4,853. The entire expense to the State for organizing, equipping, subsisting, supplying and transporting her troops, was \$2,894,384.99.

STATE CONSTITUTION.

A CONSTITUTION agreed upon by the delegates of the people of New Jersey, in convention begun at Trenton on the fourteenth day of May, and continued to the twenty-ninth day of June, in the year of our Lord one thousand eight hundred and forty-four, ratified by the people at an election held on the thirteenth day of August, A. D. 1844, and amended at a special election held on the seventh day of September, A. D. 1875.

We, the people of the State of New Jersey, grateful to Almighty God for the civil and religious liberty which He hath so long permitted us to enjoy, and looking to Him for a blessing upon our endeavors to secure and transmit the same unimpaired to succeeding generations, do ordain and establish this CONSTITUTION:

ARTICLE I.

RIGHTS AND PRIVILEGES.

1. All men are by nature free and independent, and have certain natural and unalienable rights, among which are those of enjoying and defending life and liberty, acquiring, possessing, and protecting property, and of pursuing and obtaining safety and happiness.

2. All political power is inherent in the people. Government is instituted for the protection, security; and benefit of the people, and they have the right at all times to alter or reform the same, whenever the public good may require it.

3. No person shall be deprived of the inestimable privilege of worshipping Almighty God in a manner agreeable to the dictates of his own conscience; nor under any pretense whatever to be compelled to attend any place of worship contrary to his faith and judgment; nor shall any person be obliged to pay tithes, taxes, or other rates for building or repairing any church or

churches, place or places of worship, or for the maintenance of any minister or ministry, contrary to what he believes to be right, or has deliberately and voluntarily engaged to perform.

4. There shall be no establishment of one religious sect in preference to another; no religious test shall be required as a qualification for any office or public trust; and no person shall be denied the enjoyment of any civil right merely on account of his religious principles.

5. Every person may freely speak, write, and publish his sentiments on all subjects, being responsible for the abuse of that right. No law shall be passed to restrain or abridge the liberty of speech or of the press. In all prosecutions or indictments for libel, the truth may be given in evidence to the jury; and if it shall appear to the jury that the matter charged as libellous is true, and was published with good motives and for justifiable ends, the party shall be acquitted; and the jury shall have the right to determine the law and the fact.

6. The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated; and no warrant shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched and the papers and things to be seized.

7. The right of a trial by jury shall remain inviolate; but the legislature may authorize the trial of civil suits, when the matter in dispute does not exceed fifty dollars, by a jury of six men.

8. In all criminal prosecutions the accused shall have the right to a speedy and public trial by an impartial jury; to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel in his defense.

9. No person shall be held to answer for a criminal offense, unless on the presentment or indictment of a grand jury, except in cases of impeachment, or in cases cognizable by justices of the peace, or arising in the army or navy: or in the militia, when in actual service in time of war or public danger.

10. No person shall after acquittal, be tried for the same offense. All persons shall, before conviction, be

bailable by sufficient sureties, except for capital offenses, when the proof is evident or presumption great.

11. The privilege of the writ of *habeas corpus* shall not be suspended, unless in case of rebellion or invasion the public safety may require it.

12. The military shall be in strict subordination to the civil power.

13. No soldier shall, in time of peace, be quartered in any house without the consent of the owner; nor in time of war, except in a manner prescribed by law.

14. Treason against the State shall consist only in levying war against it, or in adhering to its enemies, giving them aid and comfort. No person shall be convicted of treason, unless on the testimony of two witnesses to the same overt act, or on confession in open court.

15. Excessive bail shall not be required, excessive fines shall not be imposed, and cruel and unusual punishments shall not be inflicted.

16. Private property shall not be taken for public use without just compensation; but land may be taken for public highways as heretofore, until the legislature shall direct compensation to be made.

17. No person shall be imprisoned for debt in any action, or on any judgment founded upon contract, unless in cases of fraud; nor shall any person be imprisoned for a militia fine in time of peace.

18. The people have the right freely to assemble together, to consult for the common good, to make known their opinions to their representatives, and to petition for redress of grievances.

19. No county, city, borough, town, township or village shall hereafter give any money or property, or loan its money or credit, to or in aid of any individual association or corporation, or become security for or be directly or indirectly the owner of any stock or bonds of any association or corporation.

20. No donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation whatever.

21. This enumeration of rights and privileges shall not be construed to impair or deny others retained by the people.

ARTICLE II.

RIGHT OF SUFFRAGE.

1. Every male citizen of the United States, of the age of twenty-one years, who shall have been a resident of this State one year, and of the county in which he claims his vote five months, next before the election, shall be entitled to vote for all officers that now are, or hereafter may be, elective by the people; *provided*, that no person in the military, naval, or marine service of the United States shall be considered a resident in this State, by being stationed in any garrison, barrack, or military or naval place or station within this State; and no pauper idiot, insane person, or person convicted of a crime which now excludes him from being a witness unless pardoned or restored by law to the right of suffrage, shall enjoy the right of an elector; *and provided further*, that in time of war no elector in the actual military service of the State, or of the United States, in the army or navy thereof, shall be deprived of his vote by reason of his absence from such election district; and the legislature shall have power to provide the manner in which, and the time and place at which, such absent electors may vote, and for the return and canvass of their votes in the election districts in which they respectively reside.

2. The legislature may pass laws to deprive persons of the right of suffrage who shall be convicted of bribery.

ARTICLE III.

DISTRIBUTION OF THE POWERS OF GOVERNMENT.

1. The powers of the government shall be divided into three distinct departments—the legislative, executive, and judicial; and no person or persons belonging to, or constituting one of these departments, shall exercise any of the powers properly belonging to either of the others, except as herein expressly provided.

ARTICLE IV.

LEGISLATIVE.

Section I.

1. The legislative power shall be vested in a senate and general assembly.

2. No person shall be a member of the senate who shall not have attained the age of thirty years, and have been a citizen and inhabitant of the State for four years, and of the county for which he shall be chosen one year, next before his election; and no person shall be a member of the general assembly who shall not have attained the age of twenty-one years, and have been a citizen and inhabitant of the State for two years, and of the county for which he shall be chosen one year next before his election; *provided*, that no person shall be eligible as a member of either house of the legislature, who shall not be entitled to the right of suffrage.

3. Members of the senate and general assembly shall be elected yearly and every year, on the first Tuesday after the first Monday in November; and the two houses shall meet separately on the second Tuesday in January next after the said day of election, at which time of meeting, the legislative year shall commence; but the time of holding such election may be altered by the legislature.

Section II.

1. The senate shall be composed of one senator from each county in the State, elected by the legal voters of the counties, respectively, for three years.

2. As soon as the senate shall meet after the first election to be held in pursuance of this constitution, they shall be divided as equally as may be into three classes. The seats of the senators of the first class shall be vacated at the expiration of the first year; of the second class at the expiration of the second year; and of the third class at the expiration of the third year, so that one class may be elected every year: and if vacancies happen, by resignation or otherwise, the persons elected to supply such vacancies shall be elected for the unexpired terms only.

Section III.

1. The general assembly shall be composed of members annually elected by the legal voters of the counties, respectively, who shall be apportioned among the said counties as nearly as may be according to the number of their inhabitants. 4. To avoid improper influences which may result from intermixing in one and the same act such things as have no proper relation to each other, every law shall embrace but one object, and that shall be expressed in the title. No law shall be revived or amended by reference to its title only, but the act revived, or the section or sections amended, shall be inserted at length. No general law shall embrace any provision of a private, special or local character. And members elect of the senate or general assembly are hereby empowered to administer to each other the said oath or affirmation.

2. Every officer of the legislature shall, before he enters upon his duties, take and subscribe the following oath or affirmation : “ I do solemnly promise and swear [or affirm] that I will faithfully, impartially and justly perform all the duties of the office of ———, to the best of my ability and understanding; that I will carefully preserve all records, papers, writings or property entrusted to me for safe keeping by virtue of my office, and make such disposition of the same as may be required by law.”

ARTICLE V.

EXECUTIVE.

1. The executive power shall be vested in a governor.

2. The governor shall be elected by the legal voters of this State. The person having the highest number of votes shall be the governor ; but if two or more shall be equal and highest in votes, one of them shall be chosen governor by the vote of a majority of the members of both houses in joint meeting. Contested elections for the office of governor shall be determined in such manner as the legislature shall direct by law. When a governor is to be elected by the people, such election shall be held at the time when and at the places where the people shall respectively vote for members of the legislature.

3. The governor shall hold his office for three years, to commence on the third Tuesday of January next ensuing the election for governor by the people, and to end on the Monday preceding the third Tuesday of January, three years thereafter; and he shall be incapable of holding that office for three years next after his term of service shall have expired; and no appointment or nomination to office shall be made by the governor during the last week of his said term.

4. The governor shall be not less than thirty years of age, and shall have been for twenty years, at least, a citizen of the United States, and a resident of this State seven years next before his election, unless he shall have been absent during that time on the public business of the United States or of this State.

5. The governor shall, at stated times, receive for his services a compensation which shall be neither increased nor diminished during the period for which he shall have been elected.

6. He shall be the commander-in-chief of all the military and naval forces of the State; he shall have power to convene the legislature, or the senate alone, whenever in his opinion public necessity requires it; he shall communicate by message to the legislature at the opening of each session, and at such other times as he may deem necessary, the condition of the State, and recommend such measures as he may deem expedient; he shall take care that the laws be faithfully executed, and grant, under the great seal of the State, commissions to all such officers as shall be required to be commissioned.

7. Every bill which shall have passed both houses shall be presented to the governor; if he approve he shall sign it, but if not, he shall return it, with his objections, to the house in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it; if, after such reconsideration, a majority of the whole number of that house shall agree to pass the bill, it shall be sent, together with the objections, to the other house, by which it shall likewise be reconsidered, and if approved of by a majority of the whole number of that house, it shall become a law; but in neither house shall the vote be taken on the same day on which the bill shall be returned to it; and in all such cases, the votes of both houses shall be determined by yeas and nays, and the names of the persons voting for and against the

bill shall be entered on the journal of each house respectively. If any bill shall not be returned by the governor, within five days (Sunday excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the legislature by their adjournment prevent its return, in which case it shall not be a law. If any bill presented to the governor contain several items of appropriations of money, he may object to one or more of such items while approving of the other portions of the bill. In such case he shall append to the bill, at the time of signing it, a statement of the items to which he objects, and the appropriation so objected to shall not take effect. If the legislature be in session he shall transmit to the house in which the bill originated a copy of such statement, and the items objected to shall be separately reconsidered. If, on reconsideration, one or more of such items be approved by a majority of the members elected to each house, the same shall be a part of the law, notwithstanding the objections of the governor. All the provisions of this section in relation to bills not approved by the governor shall apply to cases in which he shall withhold his approval from any item or items contained in a bill appropriating money.

8. No member of congress, or person holding an office under the United States, or this State, shall exercise the office of governor; and in case the governor, or person administering the government shall accept any office under the United States or this State, his office of governor shall thereupon be vacant. Nor shall he be elected by the legislature to any office under the government of this State or of the United States, during the term for which he shall have been elected governor.

9. The governor, or person administering the government, shall have power to suspend the collection of fines and forfeitures, and to grant reprieves, to extend until the expiration of a time not exceeding ninety days after conviction; but this power shall not extend to cases of impeachment.

10. The governor, or person administering the government, the chancellor, and the six judges of the court of errors and appeals, or a major part of them, of whom the governor, or person administering the government, shall be one, may remit fines and forfeitures, and grant pardons, after conviction, in all cases except impeachment.

11. The governor and all other civil officers under this State shall be liable to impeachment for misdemeanor in office during their continuance in office, and for two years thereafter.

12. In case of the death, resignation, or removal from office of the governor, the powers, duties and emoluments of the office shall devolve upon the president of the senate, and in case of his death, resignation or removal, then upon the speaker of the house of assembly, for the time being, until another governor shall be elected and qualified; but in such case another governor shall be chosen at the next election for members of the legislature, unless such death, resignation or removal shall occur within thirty days immediately preceding such next election, in which case a governor shall be chosen at the second succeeding election for members of the legislature. When a vacancy happens, during the recess of the legislature, in any office which is to be filled by the governor and senate, or by the legislature in joint meeting, the governor shall fill such vacancy and the commission shall expire at the end of the next session of the legislature, unless a successor shall be sooner appointed: when a vacancy happens in the office of clerk or surrogate of any county, the governor shall fill such vacancy, and the commission shall expire when a successor is elected and qualified.

13. In case of the impeachment of the governor, his absence from the State or inability to discharge the duties of his office, the powers, duties and emoluments of the office shall devolve upon the president of the senate; and in case of his death, resignation or removal, then upon the speaker of the house of assembly for the time being, until the governor, absent or impeached, shall return or be acquitted, or until the disqualification or inability shall cease, or until a new governor be elected and qualified.

14. In case of a vacancy in the office of governor from any other cause than those herein enumerated, or in case of the death of the governor elect before he is qualified into office, the powers, duties and emoluments of the office shall devolve upon the president of the senate or speaker of the house of assembly, as above provided for, until a new governor be elected and qualified.

STATE INSTITUTIONS.

THE STATE CAPITOL.

This edifice, a massive structure, erected at sundry times and various periods, is located on West State street, at the corner of Delaware street, running thence westerly along State street to the grounds of the late ex-Chancellor Green, and southerly to the Water Power. The location is a good one, and although the style of the building is not modern, yet it answers the purposes for which it was intended, even if it does not present a very imposing appearance.

The seat of Government was fixed at Trenton by an act of the Legislature, approved November 25th, 1790. James Cooper, Thomas Lowery, James Ewing, Maskell Ewing, George Anderson, James Mott and Moore Furman were appointed commissioners to select, purchase or accept so much land as was needed, and to erect thereon suitable buildings for the use of the Legislature. They purchased the present site, containing about three and three-quarter acres—a frontage on Second street (now West State street) of 247 feet and 6 inches, and a depth from the front to the low-water line of Delaware river of 666 feet—at a cost of £250 5s. The old State House was a plain, bare looking, rough-cast building, and was erected at a cost of £3992 3s. $\frac{1}{2}$ d. By an act of March 4th, 1795, a building was erected to serve as an office for the Secretary of State, and for the preservation of the public records, at a cost of £620 19s. 10d. Numerous improvements and repairs were made, and on March 3d, 1806, an act was passed appointing commissioners to make certain repairs to the State House, to provide and hang a suitable bell, &c. This was done, and the bell was used for informing the members of both houses, as well as the courts, of the hour of meeting. The bell was eventually discarded, and an American flag

substituted, which waves from the building unto this day, when the Legislature is in session, and upon holidays and State occasions. In 1848 the State House was altered by the removal of the rough-casting, and changing the front to the style of the Mercer County Court House, placing neat porticoes over the front and rear entrances, and erecting two additional buildings adjoining the main one, as offices for the Clerks of the Chancery and Supreme Courts. The rotunda was also erected, and the grounds fenced, graded, laid out and shade trees planted, all at a cost of \$27,000. The commissioners, under whose directions the work was completed, were Samuel R. Gummere, Samuel R. Hamilton and Stacy A. Paxson. In 1863, '64 and '65, appropriations were made and expended in building additions for the State Library, Executive Chambers, &c. In 1871, Charles S. Olden, Thomas J. Stryker and Lewis Perrine were appointed commissioners to cause a suitable addition to be built—more commodious apartments for the Senate and Assembly, &c. The sum of \$50,000 was appropriated, and the buildings for the Legislature were ready for occupancy in time for the meeting of the Legislature of 1872. In 1872, \$120,000 was appropriated for completing the building, \$3000 for fitting up the Executive Chamber, \$4000 for fitting up the Chancery and Supreme Court rooms, and \$2000 for fitting up the offices on the first floor of the east wing. In 1873, the sum of \$43,000 was appropriated for the improvement of the front of the building, completing unfinished repairs and improvements, and for fitting up the Library, &c. On March 18th, 1875, the sum of \$15,000 was appropriated for the purpose of putting a new three-story front to the building and to fit up offices on the second floor for the Clerks of the Court of Chancery and Supreme Court, and for providing a suitable museum for geological specimens and the battle-flags of New Jersey volunteer regiments, carried during the war of 1861.

The Legislative Chambers are very handsome apartments, and the only cause of complaint heretofore has been inadequate ventilation, which has of late been much improved.

THE STATE LIBRARY.

This valuable collection of books is located in a roomy apartment in a southern wing of the State Capitol. The old saying, "Great oaks from little acorns grow," most appropriately applies to this institution.

The first library of the State was a case ordered to be procured by Maskill Ewing, Clerk of the House of Assembly, for the keeping and preservation of such books as belonged to the Legislature. It was ordered by a resolution passed March 18th, 1796. This was the nucleus of the present extensive library. On February 18th, 1804, William Coxe, of Burlington, Ezra Darby, of Essex, and John A. Scudder, of Monmouth, were appointed a committee on rules, and to make a catalogue; they reported that there were 168 volumes belonging to the State, and presented a code of seven rules, which was adopted. On February 10th, 1813, an act (the first one) was passed, entitled "An act concerning the State Library." Up to 1822 it appears that the Clerk of the House had charge of the books, as Librarian, and on November 16th, 1822, an act was passed for the appointment of a State Librarian, annually, by joint meeting. In 1846, on April 10th, an act was passed making the term of office three years. The Law Library at that time belonged to the members of the Law Library Association. The only persons allowed the use of the Library were members of the association, the Chancellor, and the judges of the several courts. Stacy G. Potts was treasurer and librarian of the association. The Law Library was kept in the Supreme Court room until 1837, when the Legislature authorized the State Librarian to fit up a room adjoining the library for the care and reception of the books and papers belonging to the State Library. Thus the two Libraries were consolidated. On March 13th, 1872, \$5000 per year for three years was appropriated for the library by the Legislature, and by the act of March 15th, 1876, the sum of \$2500 was appropriated for finishing and refurnishing the library room. A new catalogue has been prepared by Capt. J. S. McDanolds, the Librarian, and many important and useful improvements have been effected under his administration.

THE STATE ARSENAL.

The building now used as the State Arsenal was formerly the old State Prison. It is situate upon Second street, in the Sixth Ward, of the city of Trenton, and has on its front the following inscription :

LABOR, SILENCE, PENITENCE.

THE PENITENIARY HOUSE,

ERECTED BY LEGISLATIVE AUTHORITY.

RICHARD HOWELL, GOVERNOR.

IN THE XXII. YEAR OF AMERICAN INDEPENDENCE,
MDCCXCVII.

THAT THOSE WHO ARE FEARED FOR THEIR CRIMES,
MAY LEARN TO FEAR THE LAWS AND BE USEFUL.

HIC LABOR, HOC OPUS.

In the messages of Governors Peter D. Vroom and Samuel L. Southard recommending the erection of the New Prison, it was proposed that the old one be converted into an Arsenal for the safe keeping of the arms and military property of the State, which, previous to that time, had been kept in the Old State Bank, corner of Warren and Bank streets, with accoutrements and camp and garrison equipage at the State House. After the removal of the State convicts from the Old Prison, permission was given to the County of Mercer to occupy it as a jail until their jail, then in course of completion, was finished, and when it was again vacated it was converted into an Arsenal.

Among the stores, &c., at the Arsenal are one bronze gun, French, of the date of 1758, two bronze guns, English, four pounders, and two iron six pounders. There is also one gun captured at the battle of Trenton, Dec. 26th, 1776, and two guns captured at Yorktown, Oct. 19th, 1781. There are also a large quantity of fire arms, ammunition, ordnance, tents, clothing, blankets, &c.

STATE LUNATIC ASYLUM,

NEAR TRENTON.

This institution is located in Ewing township, in Mercer county, two and half miles northwest of the city of Trenton, on the Belvidere Delaware Railroad, and near the Delaware river. A very fine view is had from the Asylum. The building is built of reddish sand-stone (from the Ewing quarries on the premises), laid in rubble and broken range work, and pointed, with hammer-dressed stone for base. The roof is covered with slate, except the dome, which is covered with tin.

In 1844, after many futile attempts to cause action to be taken for the building of a State Asylum for the Insane, commissioners were appointed to select a site, and an appropriation of \$35,000 was made to pay for the land and commence the erection of a building. The commissioners selected the present site. During the year 1845, commissioners were appointed to contract for and superintend the erection of the Asylum, which was done by William Phillips and Joseph Whittaker, of Trenton—the builders of the State House. It was opened for the reception of patients May 15th, 1848. Numerous additions were made to the building from time to time, and under the direction of the present Superintendent, Dr. J. W. Ward, a fine green-house has been added, and he has introduced many new plans and devices for the comfort and amusement of the patients. Handsome pictures have been hung up in the wards and dormitories of the patients; flowers and hot-house plants are a source of much pleasure to the unfortunates, who regard them with rare appreciation; and during the fall and winter months there have been regular weekly entertainments, consisting of tableaux, concerts, dancing, the performance of minor theatricals, and stereopticon exhibitions. The effect of these, besides breaking up the monotony of long evenings, seems to call the minds of the patients from their troubles, and not unfrequently tends towards the restoration of their mental health.

STATE LUNATIC ASYLUM,

MORRIS PLAINS.

Owing to the crowded condition of the Trenton Asylum, commissioners were appointed to select a site and build an additional Asylum in the northerly portion of the State. They purchased 430 acres, at a cost of \$82,672.11, in Hanover township, Morris county, and plans were drawn by Samuel Sloan, architect, of Philadelphia. The building was erected and occupied by August 17th, 1876. It is 1243 feet in length, and is 542 feet deep from the front of the main centre to the rear of the extreme wing, and will accommodate 800 patients. The total cost was \$2,250,000.

STATE NORMAL AND MODEL SCHOOLS.

These schools are located in the city of Trenton, on a piece of ground belonging to the State, at the junction of Clinton avenue and Perry street. There are two buildings—one called the Normal and the other the Model Hall.

As early as the year 1839, the Trustees of the School Fund, in their annual report, advised the erection of schools for the education of teachers. The appeal was unheeded. Normal schools, so far as this country was concerned, might then have been considered an untried experiment. There was but one in the United States, and that had just gone into operation in Massachusetts.

For upwards of fifteen years, New Jersey continued to forego the means for the education of teachers; but the Legislature of 1855, with an enlightened liberality, passed a law for the establishment of a State Normal School. The object was declared to be, the training and education of teachers in such branches of knowledge, and such

methods of instruction, as should qualify them to become teachers of our common schools.

The location of the school, and its general management, were committed to a board of ten trustees, two from each Congressional District in the State, to be appointed by the Governor, by and with the advice and consent of the Senate.

The lot was purchased of William P. Sherman, Esq., at a cost of \$3000. The architect was Chauncey Graham. The corner-stone was laid by Governor Price, October 9th, 1855. The school was opened in a temporary building—October 1st, 1855, under the direction of the chosen Principal, Prof. William F. Phelps, there being fifteen candidates for entrance examination—five gentlemen and ten ladies. The school continued under the management of Prof. Phelps till March 15th, 1865, when Prof. John S. Hart, Principal of the Model School, took charge of the two schools. The latter resigning February 7th, 1871, Lewis M. Johnson, of Newark, was elected Principal, and was succeeded by the present incumbent, Washington Hasbrouck, July 1st, 1876. The property of these schools is valued at \$160,000.

An auxiliary to the Normal School is the Farnum Preparatory School, at Beverly, Burlington county, founded by Paul Farnum, in 1856, who gave \$70,000 in money and property for its support. Dr. Hasbrouck is Principal of the school, and J. Fletcher Street, A. M., is the resident principal.

STATE REFORM SCHOOL FOR BOYS.

This institution is situate at Jamesburg, Middlesex county, and was authorized by an act of the Legislature passed April 6th, 1865. Juvenile criminals between the ages of eight and sixteen years are here cared for, and every influence tending to their reformation is brought to bear upon them. Numerous additions have been made to the original building, to which is attached a farm of 490 acres. The first pupils were received July 6th, 1867.

STATE INDUSTRIAL SCHOOL FOR GIRLS.

This institution is located on the line of the Trenton Branch of the Delaware and Bound Brook Railroad, in Ewing township, near the Trenton Lunatic Asylum, and is located on a farm of about 79 acres of land. A substantial building was erected at a cost of \$23,334, and other improvements made, which brings the value of the place, with furniture, &c., up to \$37,740. Previous to the erection of the new building the school was at "Pine Grove," in the Sixth Ward of the city of Trenton. This place had been leased so as to afford room for persons sentenced under the act of April 4th, 1871.

THE STATE PRISON.

The New Jersey State Prison situated on the block enclosed by Federal, Third, Cass and Second streets, in the city of Trenton, is one of the finest institutions of its kind in the country. Its erection was authorized by an act of the Legislature passed February 13th, 1832, and it was completed in the year 1836, having 150 cells, at a cost of \$179,657.11. It was built of red sand-stone from the Ewing quarries, and the style of its architecture is Egyptian, having four Egyptian columns in front of the main entrance on Third street. It consists of a main building, used as a residence for the Keeper and as reception rooms and offices. From time to time the prison has been enlarged, and although there is not sufficient room to afford separate confinement for each prisoner as required by law, the provisions of the act are carried out as far as possible. The present Keeper, General Gershom Mott, has brought the internal affairs of the institution as to cleanliness, discipline, victualing, &c., to a much higher standard than was ever before reached, and a visit thereto will convince the visitor that the management is as perfect as can be.

On March 4th, 1847, \$5000 was appropriated to build an additional wing to the original building. On March 25th, 1852, \$15,000 was granted for the erection of a new wing for hospital purposes. On March 22d, 1860, the sum of \$17,000 was voted for the purpose of building an

additional wing for cells, and on February 16th, 1861, a further sum of \$2243.01 was appropriated to complete the same. On April 16th, 1868, \$6000 was appropriated for the building of an additional wing to provide room for female convicts. An act passed April 2d, 1869, provided for the appointment of commissioners to extend the grounds of the prison to the wall of the State Arsenal, to build an additional wing and work shops, and made an appropriation of \$50,000 for that purpose, and in the same month \$9734 was appropriated for the purpose of completing the wing of the female department. On April 4th, 1871, the sum of \$75,000 was appropriated for the purpose of completing the new or east wing, and on April 4th, 1872, a further sum of \$28,700 was appropriated for the completion of the same. March 3d, 1874, \$12,000 was voted for the construction of gas works for the supply of illuminating gas for the prison. On March 8th, 1877, the sum of \$100,000 was appropriated for the enlargement of the prison and the purchase of a burial ground for deceased convicts. The north wing was remodeled out of this last appropriation and a burial ground purchased.

Previous to the year 1798 there was no State Prison, and prisoners were confined in the county jails. On March 1st, 1797, Jonathan Doane was appointed by an act of the Legislature as an agent to purchase a lot of land from Peter Hunt, situate at Lamberton, containing six and a half acres, and to erect suitable buildings thereon. This was done at an expense of £9852 os. 3d. and what is now the State Arsenal at Second and Cass streets is the result. Solitary confinement was not practiced previous to 1836, in which year the old prison was vacated and the present one occupied.

N. J. SOLDIERS' HOME AT NEWARK.

This institution, situated on Mount Pleasant, in the city of Newark, is desirably and eligibly located, and has the advantage of beautiful scenery and a healthy position. There are 23 acres of land connected with the buildings, and there is a good supply of pure soft water. Its organization was authorized by a joint resolution adopted and approved April 12th, 1862. The Home was opened July 4th, 1866.

BIOGRAPHIES.

GOVERNOR OF NEW JERSEY.

GEORGE C. LUDLOW.

George Craig Ludlow was born at Milford, Hunterdon county, New Jersey, on April 6th, 1830. His father was Cornelius Ludlow, and his grandfather General Benjamin Ludlow, of Long Hill, Morris county, a leading Democrat of his time. At the age of five years his parents removed to New Brunswick, where he has since resided. He entered Rutgers College and graduated therefrom in his twentieth year, in 1850, and soon afterwards commenced the study of law in the office of W. H. Leupp, in New Brunswick. He also studied in the office of Robert Van Arsdale, of Newark. In 1853 he was admitted to practice as an attorney at law, by the Supreme Court, and immediately afterwards commenced the practice of his profession in the city of New Brunswick. In due time he was called to the bar as counselor, and earned for himself the reputation of being a sound and careful lawyer. He was selected as counsel for the city of New Brunswick, and acted in the same capacity for several corporations and many of the citizens of his county. He was a member of the Board of Chosen Freeholders of Middlesex county, and for a number of years was President of the Board of Education of New Brunswick. In 1876 he was elected Senator from Middlesex county, over Hon. Levi D. Jarrard, who had previously served in that capacity, and by reason of his sound judgment and peculiar fitness, became the leader of the Democracy. In the second year of his term, 1878, he was chosen President of the Senate, which office he filled with ability and impartiality. He was nominated at the Democratic State Convention in 1880, for Governor, and after a closely contested canvass, was elected by a plurality of 651 votes.

UNITED STATES SENATORS.

JOHN RHODERIC MCPHERSON.

Senator McPherson was born at York, Livingston county, New York, on the 9th of May, 1833. He received a common school and academic education. Leaving the academy when eighteen years old, he engaged in farming and stock raising, in which, by dint of hard work, he was moderately successful, until he became a resident of Jersey City in 1858. Here he entered largely into the live stock trade, and very soon became one of the most prominent dealers. He invented, perfected and put into practice new and hitherto unknown devices and principles in the treatment of animal matter. He designed and put in operation in this country the great abattoir system in use in France, improving that system in many material ways. Senator McPherson was a member of the Board of Aldermen of Jersey City from 1864 to 1870, and for more than three years of that time he was President of the Board. He established in that city the People's Gas Light Company, and was elected its president. He was also president of several savings banks. In 1871 he was elected to the New Jersey Senate by an unusually large majority, and served for three years with great credit to his city and State. He inaugurated many reforms in local and State government, and he received the thanks of the press and the people—irrespective of party—for so doing. In 1876 he was a Presidential elector, when the State went for Tilden by a very large majority. In 1877 he was elected a United States Senator, to succeed Hon. F. T. Frelinghuysen. Removing to Jersey City when he was twenty-five years old, with nothing to assist him but his own resolution and clear understanding, he soon attracted public attention to his very progressive character. He accumulated wealth rapidly in the live stock trade; and while it was not an uncommon occurrence for him to lose fifty or sixty thousand dollars in one sweep, he did not allow the loss to interfere with his plans, which he always carried out successfully. He planned his business as a general plans a battle, and, after making all proper allowances for contingent dis-

asters, he steadily advanced to the accomplishment of the main object.

While a member of the State Senate, Mr. McPherson was noted for his readiness in debate, and his cogency and terseness of style. His memory is wonderful, and he recollects everything he reads. He can recite from memory page after page of the best known classic authors, either in statecraft, history, philosophy, poetry, or in the palpable and uncompounded science of our historic period—the period over which man's civilized existence extends. He is in every sense progressive, and has no inert reluctance to accept new ideas, whether clerical or secular.

His great abattoir project is now a national institution in its extent and importance, and one of the great industries of the country properly systematized. He planned the project from a poor French system, and he improved on his plan till he reached perfection, so far as that could be reached.

WILLIAM J. SEWELL.

Senator Sewell was born in Ireland in 1835. He came to this country at an early age. At the outbreak of the late war he was mustered into the United States service as Captain in the Fifth New Jersey Regiment, August 28th, 1861, and participated in all the engagements in which his regiment took part, down to the battle of Spottsylvania, in May, 1864. In the battle of Chancellorsville, General Mott was disabled by a severe wound, and Sewell assumed charge of the brigade. At a critical point in the engagement he led it forward in a resistless charge and achieved one of the most magnificent successes of the war. He captured eight colors from the Confederates, and retook the regimental standard of a New York regiment. His services were scarcely less brilliant at Gettysburg and other important points. He was wounded twice, at Gettysburg and Chancellorsville. He was made Lieutenant Colonel of the Fifth Regiment, July, 1862, and Colonel three months later. In September, 1864, after recovering from illness, he became Colonel of the Thirty-eighth Regiment, and remained with it in the field until the close of the war.

He was made Brevet Brigadier General of Volunteers, April 9th, 1866, "for gallant and meritorious conduct in the battle of Chancellorsville," and Major General at the close of the war, for meritorious services. When Joel Parker became Governor, General Sewell was appointed a member of his personal staff. During the railroad strikes of 1877 he was sent by Governor Bedle to the most critical point in New Jersey, Phillipsburg, with the Sixth Regiment, and was appointed Provisional Commander of the forces at that point. He guarded his post so well that not a ripple of trouble occurred.

He was elected to the State Senate from Camden county for three successive terms of three years each, and in the years 1876, '79 and '80 he was President of that body. His career as a legislator was one of brilliant usefulness, and his record is remarkable for strict integrity, honorable bearing and dignified deportment. When he was elected to the United States Senate by the Legislature of 1881, and on severing the ties of friendship which bound him to those on both sides of the chamber, an impressive scene occurred which never will be forgotten. Democrats as well as Republicans vied with each other in complimenting him on the high honor which had been conferred on him, and expressing regret that the State was about to lose so valuable a member of its law-making body. Appropriate resolutions were unanimously passed, and Senator Sewell took his leave a few days before the meeting of the United States Senate on the 4th of March, 1881. He was elected in joint meeting over his predecessor, Hon. Theodore F. Randolph, by a strict party vote.

UNITED STATES REPRESENTATIVES.

First District—Cape May, Cumberland, Salem,
Gloucester and Camden Counties.

GEORGE MAXWELL ROBESON.

(Rep., Camden.)

Mr. Robeson was born at Belvidere, Warren county, in the year 1829. At an early age he matriculated at Princeton College, and when under eighteen years of

age graduated with distinguished honors. Subsequently he began the study of law, at Newark, in the office of Chief Justice Hornblower, and was in due time admitted to the bar. He is a son of William P. Robeson, a native of Philadelphia, who was an associate judge of the Philadelphia County Court. His maternal uncle, J. P. Maxwell, and his grandfather, George C. Maxwell, were members of Congress from New Jersey. Mr. Robeson commenced his professional duties at Newark, but subsequently removed to Jersey City. In 1855 Governor Newell appointed Mr. Robeson Prosecutor of the Pleas for Camden county, and he became a resident of Camden, holding his office of public prosecutor until 1860. Retiring from that office he became a law partner of Alden C. Scovel, Esq., but in the year 1865, when Mr. Frederick T. Frelinghuysen, then Attorney-General of New Jersey, was elected Senator, he recommended Mr. Robeson to the vacant Attorney-Generalship, to which position Governor Ward appointed him. He was a member of the Sanitary Commission, and was from the first associated with the Union League of Philadelphia. In 1862 he was appointed by Governor Olden a Brigadier General, and commanded a camp of volunteers at Woodbury, New Jersey, for the organization of troops. He was appointed Secretary of the Navy by President Grant June 25th, 1869, and held that office until the 4th of March, 1877, when he retired with his colleagues in the Cabinet of President Grant. Mr. Robeson was re-elected to Congress in 1880.

1878—Robeson, R., 14,924; Stratton, D., 6,215; Grosscup, Gr., 9,879. Plurality, 5,045.

1880—Robeson, R., 19,807; Carter, D., 16,350; Hollis, Gr., 724; Woolman, Pro., 76.

Second District—Atlantic, Burlington, Mercer and Ocean Counties.

JOHN HART BREWER.

(Rep., Trenton.)

Mr. Brewer was born in Hunterdon county, N. J., March 29th, 1844, and is a lineal descendant on his mother's side of John Hart, the signer of the Declaration of Independence. He was given a liberal English

education, and at an early age began business on his own account at Delhi, N. Y. Two years later he bought an interest in the Etruria Pottery Works, of Trenton, and subsequently, on the retirement of a member of the firm, became equal partner with Mr. Joseph Ott, the firm now being Ott & Brewer. He suggested and successfully organized the "United States Potters' Association," an organization that has for seven years past done much to unify and strengthen and advance the interests of the pottery trade of this country. He was Secretary of the Trenton Potters' Association from its formation until a year or two ago; became Secretary of the National Association when it was organized, and three years ago was elected President of the latter body. In 1875 he was elected to the House of Assembly from the Second District of Mercer county (Trenton) by a majority of 245 over Mr. Youmans, the Democratic nominee, although the district usually went against Republicans. He was a useful and an active member of the State Legislature. He is one of the most enterprising and progressive of the Trenton potters, and the wonderful growth of the interest in that city is in a large measure due to the zeal and ability with which he has pushed its development. Thoroughly versed in the tariff question, there is every reason to believe that he will watch closely the pottery and other industrial interests of the State while in Congress.

1878—Smith, D. and Gr., 14,610; Pugh, R., 13,699; Baker, T., 568.

1880—Brewer, R., 18,580; Smith, D., 16,536; Dobbins, Gr., 342.

Third District—Middlesex, Monmouth and Union Counties.

MILES ROSS.

(Dem., New Brunswick.)

Mr. Ross was born at Raritan, N. J., in the year 1828. At an early age he removed with his father to New Brunswick, where he was educated, and subsequently engaged with his father in the vessel trade. He served as Chosen Freeholder of Middlesex county, and at one

time filled the office of Mayor of New Brunswick. He was a member of Assembly for two years. He is largely interested in the coal business. For a long time he was a leading bank director, a member of the Board of Street Commissioners, besides having held other local offices. In 1874 he was nominated for Congress, and was elected by over 2,000 majority. He has been elected to a fourth term.

1878—Ross, D., 13,509; Clark, R., 13,176; Hope, Gr., 1,843; Bradley, T., 73.

1880—Ross, D., 19,725; Robbins, R., 16,953; Hope, Gr., 334.

Fourth District—Hunterdon, Warren, Somerset and Sussex Counties.

HENRY SCHENCK HARRIS.

(Dem., Belvidere.)

Mr. Harris was born at Belvidere, Warren county, New Jersey, December 27th, 1850, and is a son of Israel Harris, cashier of Belvidere National Bank. He entered the Sophomore class at Princeton College, in June, 1867, at the age of sixteen, and graduated in 1870. Studied law with J. G. Shipman, Esq., at Belvidere, and was licensed an attorney in June, 1873, a counselor at June term, 1876, and began successful practice immediately.

In March, 1877, he was appointed Prosecutor of the Pleas for Warren county, and during his term in this office, its business has been of an important and varied character. The railroad strikers of 1877, were, to the number of twenty, indicted in Warren county. In September, 1878, a large number of indictments were presented against the members of the celebrated "Warren County Ring," all of whom were officials of influence and prominence. The trials of these persons attracted national attention, and were successfully conducted, eleven of the defendants being sentenced to the State Prison, and one to the county jail—a remarkable result in contrast with the termination of the Tweed Ring prosecutions, and others of like character.

The flight of the then Clerk of the Board of Freeholders from the Warren county jail, and his recapture

forty-eight hours afterwards, at Alexandria, Virginia, was one of the most remarkable occurrences of the prosecution.

Mr. Harris was nominated by acclamation for representative in Congress, by the Fourth Congressional District Democratic Convention, held at Belvidere, September 8th, 1880. He made a most active canvass of the district, making speeches in every town and village, and was elected over General Judson Kilpatrick, by a majority of 4,173, notwithstanding the opposition of some of the members of the broken ring.

Mr. Harris' paternal ancestors have resided in New Jersey over two hundred years. Dr. Isaac Harris, his great-great-grandfather, is buried at Pittstown, Salem county, N. J., and John Hart, one of the signers of the Declaration of Independence, was another progenitor.

John Stuart, his maternal grandfather, was a Scotchman, who came to Warren county in 1811, and was many years cashier of the Belvidere Bank, till succeeded by the father of the subject of this sketch. Dr. Henry S. Harris, grandfather, for whom H. S. H. was named, practiced medicine for fifty-five years in the counties of Somerset, Hunterdon and Warren, and is still living, at the age of 88, at Belvidere.

1878—Clark, D., 11,449; Potts, R., 9,852; Larrison, Gr., 4,111.

After filling several local offices he was chosen a member of the House of Assembly of 1861 and 1862, and was again elected in 1866. In the last named year he was chosen Speaker of the House, and made an able presiding officer. During the war Mr. Hill was active in raising troops, and was largely instrumental in giving aid and com-

fort to the New Jersey soldiers, when encamped in the South. He was elected to the Fortieth Congress, re-elected to the Forty-first, and again to the Forty-second. During the three terms of his service he was an active member of the Committee on Post Offices and Post Roads, and it was largely due to his efforts that the present postal-card system was adopted, and the franking privilege repealed. In 1874 Mr. Hill was elected to the State Senate from Morris county, for a term of three years, by a majority of 104.

AUGUSTUS A. HARDENBERGH.

(Dem., Jersey City.)

Mr. Hardenbergh was born May 18, 1830, and is the fourth son of the late Cornelius A. Hardenbergh, LL.

D., of New Brunswick, a distinguished member of the bar of New Jersey, and for many years prominently connected with Rutgers College, of which his grandfather, Rev. Jacob R. Hardenbergh, D.D., was the founder and first President. Mr. Hardenbergh entered Rutgers College in 1844, but was only enabled to continue his studies through the Freshman year, as he was called upon to act as amanuensis for his father, who had been stricken with blindness. In 1846 he entered a counting house in New York, and took up his residence in Jersey City. In 1852 he became connected with the Hudson County Bank, and was appointed in 1858 cashier of that institution, a position of trust which he still occupies. When but 23 years of age Mr. Hardenbergh was returned to the State Legislature from the strong Whig district of Jersey City, comprising the 1st, 2d and 3d wards of that city, and took a prominent part in the House for so young a member. In 1857-58 he was elected an alderman from the 2d ward of Jersey City, and was re-elected in 1859-60. In 1862 he was elected alderman from the 1st ward, and was chosen President of the Common Council. Upon his removal to the town of Bergen he was elected councilman by an almost unanimous vote. In 1868 Mr. Hardenbergh removed to Bergen county, and was the Representative of the Fourth Congressional District to the Baltimore Convention of 1872. In 1874 he was elected to Congress over Hon. I. W. Scudder, by a majority of 4,917, and in 1876 he was re-elected. 3. When a bill or resolution which shall have passed in one House is rejected in the other, notice thereof shall be sent to the House in which the same shall have passed.

4. Each House in which any bill or resolution shall have passed shall transmit therewith to the other House all papers and documents relating to the same.

15. The titles of all bills, and such parts thereof only as shall be affected by proposed amendments, shall be entered on the journal.

16. When leave is asked to bring in a bill, its title shall be read for the information of the Senate, and if objected to it shall be laid over for one day; and all public bills and joint resolutions shall, after the first reading, be printed for the use of the Senate; but no other paper or document shall be printed without special order, except private bills, as provided by Rule 17.

17. No private bill shall be read a second time, unless printed copies thereof, procured by the applicants, shall be in the possession of the Senate.

18. All bills and special reports of committees shall be numbered by the Secretary as they are severally introduced and a list made of the same, and such bills and reports shall

22. Every bill and joint resolution shall receive three readings previous to its being passed; and the President shall give notice at each reading whether it be the first, second or third; which readings shall be on three different days.

23. The final question upon the second reading of every bill or joint resolution originating in the Senate, shall be whether it shall be engrossed and read a third time; and no amendment shall be received at the third reading, unless by unanimous consent of the Senators present; but it shall be in order, before the final passage of any such bill or joint resolution, to move its recommitment; and should such recommitment take place, and any amendment be reported by the committee, the said bill or resolution shall be again read a second time and considered, and the aforesaid question again put.

24. All bills ordered to be engrossed shall be executed in a fair, round hand.

25. When a bill or joint resolution shall have been lost, and reconsidered and lost again, the same shall not again be reconsidered but by the unanimous consent of the Senate.

28. When a bill or resolution passed by the Senate shall be carried to the House of Assembly, all papers and documents relating thereto on the files of the Senate, shall be carried by the Secretary, with such bill or resolution, to the House of Assembly.

Motions and their Precedence.

29. When a motion shall be made, it shall be reduced to writing by the President or any Senator, and delivered to the Secretary at his table, and read before the same shall be debatable.

30. All motions entered on the journal of the Senate, shall be entered in the names of the Senators who make them.

31. If the question in debate contains several points, any Senator may have the same divided; but a motion to strike out and insert, or to commit with instructions, shall not be divided. (Rule 49.)

32. The rejection of a motion to strike out and insert one proposition shall not prevent a motion to strike out and insert a different proposition, nor prevent a subsequent motion simply to strike out; nor shall the rejection of a motion simply to strike out, prevent a subsequent motion to strike out and insert.

33. On filling blanks the question shall be first taken on the largest sum, the greatest number, and the most distant day.

34. When motions are made for reference of the same subject to a Select Committee and to a Standing Committee, the question of reference to a Standing Committee shall be put first.

1. To adjourn. (Rules 36, 37.)

2. To proceed to the consideration of Executive business.

Which several motions shall have precedence in the order in which they stand arranged. (Rule 39.)

a vote is being taken, or while a Senator is addressing the Senate.

37. The motion to adjourn, to proceed to the consideration of Executive business, and to lay on the table, shall be decided without debate.

38. A motion to strike out the enacting clause of a bill shall have precedence of a motion to amend, and if carried shall be equivalent to its rejection.

39. When a motion shall have been once made and carried in the affirmative or negative, it shall be in order for any Senator who voted on the prevailing side, to move a reconsideration thereof on the same or next succeeding day of actual session; but no motion for the reconsideration of any vote shall be in order after a bill, resolution, message, report, amendment or motion upon which the vote was taken, announcing their decision, shall have gone from the possession of the Senate, and they shall not pass from the possession of the Senate until the expiration of the time in which a reconsideration is permitted; and every motion for reconsideration shall be decided by a majority of votes, except a motion to reconsider the vote on the final passage of a bill or joint resolution, which shall require the same majority as is necessary for their final passage.

Members.

40. The seats within the bar shall be reserved exclusively for the Senators, the officers of the Senate, and the reporters of the press, who may have seats assigned them.

41. No Senator shall speak in any debate without rising, nor more than three times on any subject of debate, unless he shall first obtain leave of the Senate.

42. Every Senator, in speaking, shall address the President, confine himself to the question under debate, and avoid personality.

43. Any Senator may change his vote before the decision of the question shall have been announced by the Chair.

44. No Senator shall have his vote recorded on any question, when the yeas and nays are called, unless he shall be present to answer to his name.

Messages.

45. All messages shall be sent to the House of Assembly by the Secretary, under the direction of the President, as a standing order, without a vote thereon.

46. Messages may be delivered at any stage of business except when a vote is being taken.

47. When a message shall be sent from the Governor or House of Assembly to the Senate, it shall be announced at the door by the Sergeant-at-Arms.

Senate Bills in the House.

48. When an amendment made in the Senate to a bill from the House of Assembly shall be disagreed to by that House, and not adhered to by the Senate, the bill shall be considered as standing on a third reading.

49. An amendment of the House of Assembly to a Senate bill shall not be divisible.

50. In case of disagreement between the Senate and House of Assembly, the Senate may either *recede, insist and ask a conference or adhere*, and motions for such purposes shall take precedence in that order.

51. When a Senate bill shall be returned, amended by the House of Assembly, the sections of the bill so amended, together with the amendments, shall be read by the Secretary for a first reading, and be entitled to a second reading, without special motion, at which reading the proposed amendments shall be open to the action of the Senate. (Rule 50.) And if, at its third reading, upon the question being put by the President, "Will the Senate concur in the House amendment to Senate bill No. —?" a majority of the whole Senate should, by a vote of ayes and nays, to concur, the question shall then be upon ordering the bill to be re-engrossed. If so ordered, the bill shall be re-engrossed, the amendments embodied therein, and the re-engrossed bill examined and reported by the Committee on Engrossed Bills, and read in open Senate, to the end that it may be known to be correctly engrossed, and shall be then signed and certified as other bills.

Disorder.

52. In case of any disturbance in the gallery or lobby, the President shall have power to order the same to be cleared.

53. The Sergeant-at-Arms shall aid in the enforcement of order, under the direction of the President.

54. No Senator, in speaking, shall mention a Senator then present by his name.

Special Orders.

55. When the hour shall have arrived for the consideration of a special order, the same shall be taken up, and the Senate shall proceed to consider it, unless it shall be postponed by the Senate.

56. The unfinished business in which the Senate shall have been engaged at the last preceding adjournment, shall have the preference in the special orders of the day. (Rule 20.)

Secret Session.

57. On a motion made and seconded to shut the doors of the Senate on the discussion of any business which may, in the opinion of a Senator, require secrecy, the President shall direct the Chamber to be cleared, and during the discussion of such motion the doors shall remain shut.

Rules.

58. No standing rule or order of the Senate shall be suspended unless by the consent of two-thirds of the Senators elected, nor rescinded or amended but by the same number, and one day's notice shall be given of the motion for rescission or amendment.

Executive Session.

59. When nominations shall be made by the Governor to the Senate, they shall, unless otherwise ordered by the Senate, be referred to appropriate Committees; and the final question on every nomination shall be, "Will the Senate advise and consent to this nomination?" which question shall not be put on the same day on which the nomination is received, nor on the day on which it may be reported by a committee, unless by the unanimous consent of the Senate.

60. When acting on Executive business, the Senate shall be cleared of all persons except the Senators and Secretary.

61. All information or remarks concerning the character or qualifications of any person nominated by the Governor to office, shall be kept a secret.

62. The Legislative and Executive proceedings of the Senate shall be kept in separate and distinct books.

63. All nominations approved by the Senate, or otherwise definitely acted on, shall be transmitted by the Secretary to the Governor, with the determination of the Senate thereon, from day to day, as such proceedings may occur; but no further extract from the Executive journal shall be furnished, published, or otherwise communicated, except by special order of the Senate.

ALBERT MERRITT.

(Rep., Camden.)

Senator Merritt was born at South Scituate, Plymouth county, Mass., January 1st, 1845, and removed to Camden in 1868, where he has since resided. He was educated at Quincy, Mass., graduated from the high school at that place and passed an examination for Harvard College; but receiving an appointment as Assistant Paymaster in the Mississippi squadron, he abandoned the idea of entering college and gave his services to his country until the close of the war, when he was offered and accepted the position of Professor of Mathematics at Eastman's College, Poughkeepsie, N. Y. He remained there one year, and then went to Boston, accepting the position of bookkeeper and correspondent for Furber, Conant & Co., extensive fruit and produce dealers. On the first of January, 1868, he went to Philadelphia, and formed a copartnership with Davis & Warner, fruit and produce dealers, under the name of Davis, Warner & Co., the firm being afterwards Davis, Warner & Merritt, and upon the retirement of Mr. Davis, in 1878, the firm became Warner & Merritt. Principally through his energy and push the business of the firm has been extended and enlarged so as to be known over the entire world. They own and run a line of steamships to the West Indies and Central American ports, and a fleet of sailing vessels to Central and South America, being heavy exporters of flour,

provisions and manufactured goods, and importers of fruits, nuts, &c. Their immense store and warehouse, which was totally destroyed by fire in August last, was the largest and most complete establishment of the kind in the world, and has been rebuilt in even a more complete and extensive manner. Mr. Merritt is a thorough man of business, systematic and correct in whatever he does, and as a Senator will bring the same methods to bear where the interests of the State are concerned. While making no pretensions to oratory, he is capable of thinking correctly and presenting his views or conclusions on a matter in direct and forcible language.

Cape May County.

WATERS B. MILLER.

(Dem., Cape May City.)

Senator Miller was born in Gloucester county, in the year 1824. His father removed to Cape May in 1835. Since attaining his majority he has been actively engaged in almost every public improvement that affected his adopted county; was a member of the Assembly in the 77th Legislature, member of the Board of Chosen Freeholders for ten years, Mayor of Cape May City four years, and for a number of years he was proprietor of Congress Hall hotel, Cape May, so celebrated throughout the country. It was largely due to his exertions that the present Cape May railroad was built, as when the enterprise seemed about to fail for want of means, he came forward and mortgaged his property to a heavy amount in order to raise the funds necessary for its completion. With a single exception (Rice, 1867,) he is the only Democrat ever elected to the State Senate from Cape May county. In 1855 he was defeated by Mr. Diverty, Know-Nothing, and again in 1873 by Richard S. Leaming. He was elected in 1879 over his competitor, one of the wealthiest and most popular citizens of Cape May, by a majority of 136. His term expires in 1883.

During the session of 1881, Mr. Miller served on the Committees on Finance and Agriculture, and on the Joint Committees on State Library, Sinking Fund and Reform School for Boys.

In October, 1874, he entered into a partnership and purchased the *West Jersey Pioneer*, Bridgeton, N. J., which paper he now edits. The *Pioneer* is the leading Republican newspaper in Cumberland county. Mr. Nichols was chosen to represent the First Assembly District of Cumberland county, in the year 1876, by a majority of 246 over I. W. Richman, D. At the election of 1877 he was again returned to the Assembly by a majority of 160 over Jacob Kienzle, D.

During the Legislatures of 1877 and '78 Mr. Nichols served as a member of the Committee on Education, Revision of the Laws, Banks and Insurance, State Library, and of the special committee appointed to examine the accounts and transactions of certain State officials, against whom charges had been brought. During his term in the House of Assembly he was one of the leaders of his party, and both in debate and by his general tact and intelligence won for himself an enviable reputation. He was elected Senator in 1880 over Whittaker, D., and Tyler, Gr., by a plurality of 576 votes. His term expires in 1884.

During the Legislature of 1881 he was Chairman of the Committee on Corporations, and member of the Committee on Education, Chairman of the Joint Committee on Public Grounds and Buildings, and member of the Joint Committee on Sinking Fund.

Mercer County.

JOHN TAYLOR.

(Rep., Trenton.)

Senator Taylor was born at Hamilton Square, Mercer county, October 6th, 1836, and is engaged extensively in the pork packing and cattle trade in the city of Trenton. His father carried on the business of brick-making, and

in 1837, moved to Pennington, four years later to Princeton, and again, in 1846, he removed to Trenton, where he prosecuted his business until his demise, in 1849. The family, by the loss of its head, having been left without means of support, the subject of this sketch at once procured work with a brick-making firm in Trenton and continued in that employment until 1852, when he obtained a situation as clerk in A. R. Raine's grocery, where, after three years' service, and then being only 18 years of age, he was admitted as a partner, under the firm name of Raine, Son & Co. A year later, young Taylor withdrew from this firm and associated himself with his old co-clerk in the same store, Mr. James Ronan, under the firm name of Ronan & Taylor, without capital, for the inauguration and prosecution of the wholesale grocery business in the city. This was but an experiment which, however, soon proved a success, and has now grown to a trade of over \$5,000,000 a year. In 1860, Mr. Ronan having relinquished his interest and entered into another branch of the jobbing grocery business, Mr. Taylor associated himself with Mr. D. P. Forst, under the firm name of Forst & Taylor, which partnership continued until 1870, with marked success, when Mr. Taylor retired and at once engaged in the pork packing and cattle trade. This business he now conducts on a very large scale, giving employment to a large number of hands. Mr. Taylor's education was limited to what might have been gleaned from a quarter's schooling each winter, until he was 14 years old. During his successful business career the Senator has always manifested a creditable public spirit, and to him the city of Trenton owes a great deal for the rapid progress it has made of late years. He is the projector and principal owner of Taylor Opera House and was the originator of the private market system. He has been a member of Common Council for twelve years, and is at present serving on the Committee on Finance in that body, and besides is a Director of the First National Bank and Standard Insurance Company.

Mr. Taylor is undoubtedly a self-made man, and there is no man in the community who has a higher reputation for uprightness, progressiveness and true manhood. His election to the State Senate over one of the most popular of Democrats, by a majority of 755 in a close county, truly attests this fact.

During the session of 1881, he was Chairman of the Committee on Claims and Pensions, a member of the Committee on Fisheries, and of the Joint Committee on Printing, and Chairman of the Joint Committee on Industrial School for Girls.

1877—Marsh, D., 5,878; Bruere, R., 5,756; Howell, Pro., 137.

Left fatherless in his fourteenth year, he assumed control of the farm, and superintended its operations for his widowed mother, until 1860, when he joined his brother in the general merchandising business, in which he continued nine years. Ever an earnest advocate of free public schools, in the organization of a Township Board of Trustees, in compliance with "An act to establish a system of Public Instruction," he was chosen Secretary, and Chairman of the Committee to adopt a Uniform Series of Text-books. In 1869 he was chiefly instrumental in erecting and furnishing a neat and commodious school building in his native village, and since that date he has been engaged in teaching. Passaic County.

GARRET AUGUSTUS HOBART.

(Rep., Paterson.)

Senator Hobart is a native of Monmouth county, in this State, having first seen the light at Long Branch, June 3, 1844. His mother is one of the old Dutch families of that county, while his father is from New Hampshire, being of the same family as the late Bishop Hobart. Senator Hobart attended the district and other local schools of Monmouth county until he went to Rutgers College, where he was graduated in 1863. Immediately thereafter he went to Paterson and entered the office of Socrates Tuttle, Esq., one of the leading lawyers of that city, and devoting himself assiduously to the study of his chosen profession, he was licensed as an attorney in 1863, and as a counselor three years later. Since 1866 he has had a large and growing practice, which is now exceded by that of no lawyer in Paterson. It is principally "office business" relating to commercial law, business transactions, real estate matters, and chancery proceedings. He is counsel of numerous important financial, manufacturing and other institutions and corporations, and of many large and important trusts. In 1874 he was appointed Receiver of the New Jersey Midland Railway, managing that road for six years with such success that a hopelessly bankrupt, worn-out concern was transformed into a paying enterprise in good running order, and before relinquishing his trust he actually paid a handsome dividend to the unsecured creditors—something unprecedented in the history of bankrupt railroads. Upon the re-organization of the company he was unanimously elected President of the new corporation, but resigned in a few months on account of the pressure of more important engagements; he remains, however, in the direction. He was also Receiver for some time of the Montclair Railway, and of the Jersey City and Albany Railroad Company, managing them both with signal success, and, as with the New Jersey Midland Railway, most acceptably, not only to the traveling public, but to the creditors as well. Last Summer he was appointed Receiver of the First National Bank of Newark, and within six months collected nearly or quite half a million dollars of assets, paid the depos-

itors in full, and has something in prospect for the stockholders. It is said to be the quickest work of the kind on record, and was an excellent specimen of the rare executive ability, prompt decision and energetic action which characterize the Senator's manner of doing business.

Mr. Hobart's political career has been one continual progress. In May, 1871, he was appointed City Counsel of Paterson, his father-in-law, Mr. Tuttle, with whom he studied law, having been elected Mayor of the city the same Spring. He held the office but one year. In May, 1872, he was appointed Counsel to the Board of Chosen Freeholders, but declined a re-election the next year. In November, 1872, he was elected to the Assembly from the Third District of Passaic County by the largest majority the district had ever given. He at once took rank in the Legislature as a ready and effective debater of marked ability, his unfailing urbanity and geniality winning for him the warm friendship and esteem of all the members. Re-elected in 1873, he was immediately, without the slightest effort on his part, unanimously agreed upon by his Republican associates for Speaker of the Assembly, discharging the duties of that trying position in a manner that has rarely been equalled and never excelled. His success in driving forward the business of the House elicited the warmest encomiums from the public, while the individual members of the Legislature found no reason to complain of the treatment of their own special bills. Though strongly urged by his constituents to accept a re-election in 1875 for a third term, he declined. The following year, 1876, in obedience to the overwhelming sentiment of his party, he was nominated for State Senator, and the people ratified the selection at the polls, giving him 890 majority over a most respectable opponent, while Hayes, for President, received only 407 majority in the county. He was re-elected in 1879 by the largest majority the county has ever given any candidate, 1,899. During his term in the Senate he has served on some of the most important committees—Revision of Laws, Education, State Library, Industrial School for Girls, Printing, Fisheries, Elections, etc., etc. In 1879 and in 1880 he was Chairman of the Judiciary Committee. He has introduced the largest number of bills of any member of the Senate, most of them of a very important public nature, which

he has succeeded in getting enacted into laws. Among them may be mentioned the "Act to provide for the summary investigation of county and municipal expenditures;" also the act charging the sinking fund with the payment of all the interest and part of the principal of the State debt yearly, whereby the ordinary expenditures of the State have been reduced \$100,000 per year, which was largely the cause of the entire removal of the State tax; also the "Act to provide for the arbitration of labor disputes;" also, various acts to reduce State, county and city taxes and expenses, and to secure better administration of public affairs in all departments of government. His term expires in January, 1883.

He was President of the Senate in the session of 1881, when his dignity, impartiality and promptness as a presiding officer elicited the commendation of his political opponents as well as that of his party friends.

1879—Hobart, R., 5,546; Hopper, D., 3,647; Wan, Gr., 122.

Not a partisan, but so thoroughly imbued with the principles and purposes of the party as to act from a conscientious devotion to duty—never seeking office, but always ready to put his shoulder to the wheel to win success. In 1867 he was elected Sheriff, which office he filled with entire credit to himself and to the county. Afterwards he engaged in the lumber business in Somerville, in which he has continued to the present day. At one time he was largely interested in the lumber-cutting business in Pennsylvania. In 1850, when Somerset was a Republican county, he was elected to the House of Assembly, and re-elected the following year. He has been a stockholder of the State Bank of Elizabeth since 1843, and was a director for thirty years. HOUSE OF ASSEMBLY.

RULES ADOPTED 1878.

Of the Meeting of the House.

1. Any member or members less than a quorum may meet and adjourn the House from day to day, when necessary.

2. Every member shall attend in his place precisely at the hour to which the House was last adjourned ; and in case of neglect, he shall be subject to a reprimand from the Chair, unless excused by the House ; nor shall any member absent himself from the House for more than the space of a quarter of an hour without leave previously obtained.

3. In case a less number of members than a quorum shall be present after the arrival of the hour to which the House stood adjourned, they are hereby authorized to send their Sergeant-at-Arms, or any other person or persons by them authorized, with a warrant duly executed, for any and all absent members, as the majority of such as are present may agree, and at the expense of such absent members, respectively, unless such excuse for non-attendance shall be rendered as the House, when a quorum is convened, shall judge sufficient. Immediately after the appointment of the Standing Committees, the members shall arrange among themselves their several seats appropriated to their counties ; and in case of disagreement, the same shall be decided by lot.

Of the Duties of the Speaker.

4. He shall take the chair at the hour to which the House shall have adjourned, and immediately call the members to order ; and on the appearance of a quorum, shall cause the journal of the preceding day to be read, which may then be corrected by the House.

5. He shall preserve order and decorum, and in debate shall prevent personal reflections, and confine members to the question under discussion ; but he shall not engage in any debate, nor propose his opinion on any question, without first calling on some member to occupy the chair. When two or more members rise at the same time, he shall name the one entitled to the floor.

6. He shall decide questions of order, subject to an appeal to the House, when demanded by any four members, on which appeal no member shall speak more than once, unless by leave of the House.

7. All questions before the House shall be stated by the Speaker, and distinctly put in the following form, to wit: "As many as are in favor of (the question) will say aye;" and after the affirmative is expressed, "Those of a contrary opinion, no." If the Speaker doubts, or a division be called for, the House shall divide; those in the affirmative of the question shall first rise from their seats, and afterwards those in the negative; and in case of an equal division, the Speaker shall decide.

8. All Committees shall be appointed by the Speaker, unless otherwise specially directed by the House.

9. All acts, addresses and joint resolutions shall be signed by the Speaker; and all writs, warrants and subpœnas issued by the order of the House shall be under his hand and seal, and attested by the Clerk. If the Speaker be absent, a less number of members than a quorum may appoint a speaker *pro tempore*, who may sign any warrants, or perform any act requisite to bring in absent members.

10. He shall have a general direction of the Hall, and he may name a member to perform the duties of the Chair; but such substitution shall not extend beyond a second adjournment.

Of the Order of Business.

11. After the reading of the journal, the business of the first meeting of each day shall be conducted in the following manner, to wit:

I. Letters, petitions and memorials, remonstrances and accompanying documents may be presented and disposed of.

II. Reports of Committees may be read.

III. Original resolutions may be offered and considered; items of unfinished business referred; motions to reconsider and to appoint additional members of Committees made; and leave of absence, leave to withdraw documents, and leave to introduce bills asked.

Leave for Bills and to Introduce Bills.

IV. Bills and joint resolutions on a third reading may be taken up.

V. The House shall then proceed in the order of the day, preference being always given to the unfinished business of the previous sitting; after which bills and joint resolutions

on a second reading shall be taken in their order; and the House, in its afternoon session, will proceed to business as though there had been no adjournment of its morning session, excepting that original resolutions, and leave to introduce bills of Committees, be the first business in the afternoon session; and shall, on demand of the majority, proceed with the order of the day.

12. The Clerk shall make a list of all public bills and joint resolutions. He shall keep a separate calendar of private bills. No bills for granting, continuing, altering, amending, or renewing a charter for any corporation, other than a municipal corporation, shall be placed on the calendar of public bills. All bills, public and private, shall be numbered according to the time of their introduction into the House. They shall be taken up and considered in the order of time in which they were reported, or ordered to a third reading, as appears by the calendar; and the calendar shall be proceeded in until all the bills thereon are called up before the commencement of the calendar anew.

13. All messages shall be sent from this House to the Senate by the Clerk.

Of Decorum and Debate.

14. When a member is about to speak in debate, or communicate any matter to the House, he shall rise from his seat and respectfully address himself to the Speaker, confining himself to the question under debate, and avoiding personality.

15. If any member in debate transgress the rules of the House, the speaker shall, or any member may, call him to order, in which case the member so called to order shall immediately sit down, unless permitted to explain. The House shall, if appealed to, decide on the case, but without debate; if there be no appeal, the decision of the Chair shall be submitted to. If the decision be in favor of the member called to order, he shall be at liberty to proceed; if otherwise, he shall not be permitted to proceed without leave of the House, and if the case require it, he shall be liable to censure of the House.

16. If a member be called to order for words spoken in debate, the person calling him to order shall repeat the words excepted to, and they shall be taken down in writing at the Clerk's table; and no member shall be held to answer, or be subject to the censure of the House, for words spoken in debate, if any other member has spoken, or other business

has intervened after the words spoken, and before exception to them shall have been taken.

17. No member shall speak more than twice on the same question, without leave of the House.

18. While the Speaker is putting any question, or addressing the House, none shall walk out of or across the hall; nor in such case, or when a member is speaking, shall any one entertain private discourse; nor shall any one, while a member is speaking, pass between him and the Chair.

19. No member shall vote on any question in the event of which he is particularly interested, nor in any case where he was not within the bar of the House when the question was put.

20. Every member who shall be in the House when the question is put shall give his vote, unless the House for special reasons shall excuse him. All motions to excuse a member from voting shall be made before the House divides, or before the call of the yeas and nays is commenced; any member requesting to be excused from voting, may make a brief verbal statement of the reasons for such request, and the question shall then be taken without further debate.

21. Petitions, memorials, and other papers addressed to the House, shall be presented by the Speaker, or by a member in his place; a brief statement of the contents thereof shall be made by the introducer, and, if called upon, he shall declare that it does not, in his opinion, contain any indecent or reproachful language, or any expressions of disrespect to the House, or any committee of the same.

22. It shall be the duty of the Sergeant-at-Arms, at all times, not to allow any person to smoke in the Assembly Chamber.

On Motions.

23. Every motion shall be reduced to writing, if the Speaker or any member desire it.

24. When a motion is made and seconded, it shall be stated by the Speaker, or being in writing, it shall be handed to the Chair and read aloud by the Clerk, when it shall be deemed to be in the possession of the House and open to debate; but it may be withdrawn at any time before a decision or amendment.

25. When a question is under debate no motion shall be received, but—

1. To adjourn.
2. A call of the House.
3. To lay on the table.
4. For the previous question.

5. To postpone indefinitely.
6. To postpone to a day certain.
7. To go into a Committee of the Whole on the pending subject immediately.
8. To commit to a Committee of the Whole.
9. To commit to a Standing Committee.
10. To commit to a Select Committee.
11. To amend.

Which several motions shall have precedence in the order in which they are stated, and no motion to postpone to a day certain, to commit, or to postpone indefinitely, being decided, shall be again allowed on the same day, and at the same stage of the bill or proposition.

26. A motion to strike out the enacting clause of a bill or joint resolution shall have precedence of a motion to amend, and if carried shall be considered equivalent to its rejection.

27. A motion to adjourn shall be always in order, except when the House is voting, or while a member is addressing the House, or immediately after the question to adjourn has been negatived; that, and the motion to lay on the table, shall be decided without debate.

28. Any member may call for a division of the question, which shall be divided if it comprehends questions so distinct that one being taken away from the rest may stand entire for the decision of the House; a motion to strike out and insert shall be deemed indivisible; but a motion to strike out being lost, shall preclude neither amendment nor a motion to strike out and insert.

29. When any motion shall be made and seconded, the same shall, at the request of any two members, be entered on the Journal of the House.

30. When a motion has been once made and carried in the affirmative or negative, it shall be in order for any member who voted with the prevailing party to move for the reconsideration thereof, on the same day or on the next day of actual session of the House thereafter; all motions may be reconsidered, by a majority of the members present; but bills, to be reconsidered, must have the same majority that would be necessary to pass them; and such vote, on motion to reconsider, shall be by taking the yeas and nays.

31. When a blank is to be filled, the question shall first be taken on the largest sum, or greatest number, and remotest day.

32. The yeas and nays shall be entered on the Journal of the House, when moved for and seconded by five members, and in taking the yeas and nays the names of the members, including the Speaker, shall be called alphabetically.

33. The previous question shall be put in this form: "Shall the main question be now put?" It shall only be admitted when demanded by a majority of the members present, and its effect shall be, if decided affirmatively, to put an end to all debate, and bring the House to a direct vote upon amendments reported by a committee, if any, then upon pending amendments, and then upon the main question; if decided in the negative, to leave the main question and amendments, if any, under debate for the residue of the sitting, unless sooner disposed of by taking the question, or in some other manner. All incidental questions of order arising after a motion is made for the previous question, and pending such motion, shall be decided, whether on appeal or otherwise, without debate.

34. After the Clerk has commenced calling the yeas and nays on any question, no motion shall be received until a decision shall have been announced by the Chair.

Of the Committee of the Whole House.

39. In forming a Committee of the Whole House, the Speaker shall leave his chair, and a chairman to preside in committee shall be appointed by the Speaker.

40. The rules of proceeding in the House shall be observed, as far as practicable, in Committee of the Whole, except that any member may speak oftener than twice on the same subject, but shall not speak a second time until every member choosing to speak shall have spoken ; nor shall a motion for the previous question be made therein.

41. All amendments made in Committee of the Whole shall be noted by the Clerk, but need not be read by the Speaker on his resuming the chair, unless required by the House.

45. All bills and joint resolutions may be made the order of a particular day, on which day they shall be taken up in preference to others on the calendar; and the calendar of private bills shall not be taken up until the calendar of public bills shall have been gone through with.

46. All bills and joint resolutions, previous to their final passage by the House, all petitions, motions and reports, may be committed at the pleasure of the House.

47. All bills and joint resolutions ordered to be engrossed shall be executed in a fair, round hand, and no amendment by way of rider shall be received to any bill or joint resolution on its third reading.

* 48. On a motion to strike out any item in the incidental bill, the question to be submitted to the House shall be, "Shall the item be retained in the bill?" and a majority of all the members of the House shall be necessary to adopt the same.

49. After the introduction of any private bill, the applicants for said bill shall, at their own expense, furnish the usual number of copies for the use of the members, unless the printing thereof be dispensed with by a special order of the House.

50. On the question of the final passage of all bills and joint resolutions, the yeas and nays shall be entered on the Journal of the House.

51. Whenever a bill or resolution that has passed the House shall be carried to the Senate, all papers and documents relating thereto, on the files of the House, shall be carried with such bill or resolution to the Senate.

53. When an Assembly bill is returned amended by the Senate, the report thereof by the Secretary of the Senate shall be taken as the first reading, and the same be entitled to a second reading, without a motion for that purpose; after its second reading, the question shall be: "Shall the Senate amendments to Assembly bill No. — have a third reading?" If ordered to a third reading, the amendments shall be read, but these readings shall be on different days; the question shall then be: "Will the House of Assembly concur in the Senate amendments to Assembly bill No. —?" upon which question the votes shall be by ayes and nays. If concurred in by a majority of the whole House, the bill shall be re-engrossed, the amendments embodied therein, and the re-engrossed bill examined and reported upon by the Committee on Engrossed Bills, and read in open Assembly, to the end that it may be known to be correctly engrossed, and then signed and certified as other bills.

He received his early education at Cowan, Pa. Having a natural desire and capacity for a business life, he took a trip through the Southern States in 1869, at the age of 23, with a view to settling permanently, but not being suited with the climate and generally unsettled state of affairs in that section, he decided to look elsewhere, and came to Vineland the same year with his brother, L. R. Baker. They at once established business in general merchandise on Landis avenue, corner Eighth street. The business soon grew to large proportions, and Baker Bros. became one of the most important firms in Vineland. They finally found the Eighth street store too small, and in 1876, in company with James M. Wells, erected the Baker House block, one of the finest buildings in South Jersey. The first floor and basements are occupied by business places, Baker Bros. reserving for themselves the largest and finest store on the west side, where they have since carried on their business. Mr. Baker, though attending strictly to business as a rule, took an active part in the Narrow Gauge Railroad and in many other projects calculated to result advantageously to Vineland and that section of the State. He has never before aspired to political honors, and he comes from a district which usually goes Republican.

1881—Baker, D., 1,253; Avis, R., 1,054; Allen, Gr., 519.

Infantry, and served with his company and regiment in garrison and field duty. He is now carrying on one of the most extensive bakeries in the State. In 1879 he was elected a member of the Common Council of Newark, and at the last charter election he was re-elected. Mr. Turkes is a genial, upright and progressive business man, and his pleasant manners have made for him numerous friends, not only in his own party, but also among his political opponents.

Eighth District.

WILLIAM H. F. FIEDLER.

(Dem., Newark.)

The Eighth Legislative District consists of the 13th ward of the city of Newark.

[Charles G. Bruemmer, Rep., was elected in this district at the regular State election in November, 1881, by a majority of 378 over Manger, Dem., the total vote being as follows: Bruemmer, 1,472; Manger, 1,094. Mr. Bruemmer died on December 12th, and Governor Ludlow at once ordered a special election to be held on January 3d, 1882, to fill the vacancy, when Mr. Fiedler was elected.]

Mr. Fiedler was born in New York City, August 25th, 1847, and he is engaged in the hat and cap business in the city of Newark. At the age of fifteen he was apprenticed to the hat-finishing trade, and on reaching his majority he became a clerk in a hat store. He filled that position for four years, when he commenced business for himself, which he has continued successfully to the present time. In October, 1876, he was elected as an Alderman of the city of Newark from the old sixth ward, a Republican stronghold, by a majority of 322. The ward then was considered to have a Republican majority of at least 500. In the following year he was elected to the House of Assembly from the then Fifth District of Essex county—comprising the second and sixth wards of the city of Newark—by a majority of 334 over Smith, Rep. Again in October, 1878, he was elected Alderman from the old sixth ward by a handsome majority. In November following he was re-elected to the House of Assembly from the then Third District of Essex—comprising parts of the sixth and thirteenth wards of Newark—by a majority of 108 over Holzworth, Rep., after one of the hardest fought contests that ever took place in the county. In October, 1879, while serving his third year in the Board of Aldermen, he was elected Mayor of the city of Newark by the unprecedented majority of nearly 3,500 votes over one of the best citizens of Newark—Theodore Macknet, Esq.

While serving in the Legislature he took an active part in watching all measures of vital interest to the State. He introduced, and had passed, a bill prohibiting the manufacture of hats in the State Prison, and came near being successful with a similar bill respecting boots and shoes, which was defeated in the Senate by only one vote.

During his two years' term as Mayor of the city of Newark he introduced a great many measures of reform in the municipal departments, and made his power for good particularly felt in the Water Board. He was instrumental in having the sessions of the various departments held with open doors, and just before his term of office expired he was the means of unearthing stupendous frauds and embezzlements in the Auditor's office of the city, and loose and culpable management in other departments.

In October, 1881, he was renominated for the Mayoralty by acclamation, but owing to over-confidence on the part of his friends he was defeated by a very popular Republican—Mayor Lang—by the small majority of 226. The city is considered Republican by at least 1,500 majority. His political career has been a success from the beginning, and his great popularity is attested by the fact that he has always captured Republican strongholds. His latest triumph has been the most decisive, he having defeated Mr. John Baier, who was three times elected to the Board of Freeholders from the thirteenth ward.

1881—Bruemmer, R., 1,472; Manger, D., 1,094.

1882 (special)—Fiedler, D., 1,578; Baier, R., 990.

Mr. Bell was born at Matawan, March 16th, 1841, and is editor and proprietor of the *Matawan Journal*. In the session of 1877, he was Private Secretary to Hon. Leon Abbett, President of the Senate, and in the following year he acted in the same capacity to Hon. George C. Ludlow, then President of the Senate and now Governor of New Jersey.

Last year he was a member of the House, when he took a leading part in all the debates and proceedings of that body. He is a very effective speaker, and an active legislator. He served on the Committee on Municipal Corporations, and on the Joint Committee on State Library.

1881—Bell, D., 3,807. No opposition.

Third District.

BENJAMIN GRIGGS.

(Rep., Port Monmouth.)

The Third Legislative District is composed of the townships of Shrewsbury, Middleton, Raritan and Eatontown.

Mr. Griggs, who, by a fortunate train of circumstances, was elected by one of the largest majorities ever given in the very close district which he represents, was born at New Monmouth, July 10th, 1842. He received his education in the common schools of Middleton, and early in life he evinced a desire for "a life on the ocean wave."

Some twelve years ago he was appointed clerk of the steamer "Orient," and after two years' service in that capacity, he purchased an interest in the vessel and became her master. Owing to the captain's good management and excellent business capacity the "Orient" out grew her capabilities, and made a larger steamer necessary; hence the building of the steamer "William V. Wilson" which went on the route last year. Captain Griggs has always taken a lively interest in public affairs, and at every election, great or small, his ruddy, weather-beaten, good-natured face has always been prominent at the polls—where its owner has done effective work for the Republicans, much to the disgust of their opponents. He has been judge of election, and road master, and filled various other places in his township. The Captain married a daughter of the Rev. William V. Wilson. His record in the Legislature will be a quiet one, for he is not a "talker," but will be none the less conscientious and in accordance with the most approved methods of the Republican party.

1881—Griggs, R., 1,926; Gordon, D., 1,714.

Morris County.
First District.

WILLIAM C. JOHNSON.

(Rep., New Providence.)

The First Legislative District comprises the townships of Chatham, Hanover, Morris and Montville.

Mr. Johnson was born in Chatham township, Morris

county, February 4th, 1829, and is a farmer. He served as a member of the Board of Chosen Freeholders for two terms of three years each, and was also a member of the Township Committee. He was a member of the House last year, when he served on the Committees on Riparian Rights and Fisheries, and on the Joint Committee on Lunatic Asylums.

1881—Johnson, R., 1,713; Vogt, D., 997; Genung, 165.

Second District.

JOHN FRANCIS POST.

(Rep., Pompton.)

The Second Legislative District comprises the townships of Boonton, Jefferson, Pequannock, Rockaway, Mount Olive and Roxbury.

Mr. Post was born at Pompton, November 6th, 1842, and is a merchant, and was formerly a book-keeper. He was a member of the Pequannock Township Committee for about nine years. Last year he was a member of the House, when he served on the Committees on Engrossed Bills and Incidental Expenses, and was Chairman of the House Joint Committee on State Prison.

1881—Post, R., 1,464; Drake, D., 803.

OSCAR LINDSLEY.

(Dem., Green Village.)

The Third Legislative District is composed of the townships of Chester, Mendham, Passaic, Randolph and Washington.

Mr. Lindsley was born in Green Village about fifty-one years ago, and is a farmer. He is now Assessor of Passaic township, and he has served in the Board of Chosen Freeholders. Last year, while a member of the House, he took an active part in legislation. He served on the Committee on Agriculture and Agricultural College, and on the Joint Committee on State Prison.

1881—Lindsley, D., 1,457; Leport, R., 1,207; Hughson, 176.

Ocean County.

CLIFFORD HORNER.

(Dem., New Egypt.)

There is but one Legislative District in the entire county.

Mr. Horner was born near New Egypt, Ocean county, March 8th, 1847, and he is a farmer and live stock dealer. He has never been an aspirant for public honors, preferring the quiet of business pursuits to the strife and excitement of political life. He was elected a member of the Township Committee of his native town in the Spring of 1874, which position he held by the almost unanimous vote of the people of the township, until the Spring of 1881, occupying the position of Chairman of the Committee the last four years of the time. Though strongly urged to accept a re-election, he positively declined the honor. When requested to allow his name to be used as a candidate for the Assembly he objected, and not until being strongly urged by his personal and political friends did he consent thereto, and then only on condition that he be the unanimous choice of the convention.

1880--Bennett, R., 1,815; Horner, D., 1,754; Bancroft, 34.

1881—Horner, D., 1,619; Bennett, R., 1,566; Hooper 17.

Passaic County.

First District.

JOSEPH A. GREAVES.

(Rep., Paterson.)

The First Legislative District comprises the townships of West Milford, Pompton, Wayne, Manchester and Little Falls.

Mr. Greaves was born in Paterson, N. J., March 18th, 1842, and has lived there ever since. After quitting the common schools of the city he was apprenticed to the carpenter's trade, serving four years, subsequently spending eleven years as a journeyman. In 1874 he was appointed Clerk of the Department of Streets and Sewers, but the routine and confinement of

official life were irksome to one of his active temperament, and, at the end of a year, he declined a re-election, and engaged in business for himself as a tobacconist, in which he has since continued, with success. Office-holding has always been contrary to his inclination, and time and time again he has resisted the importunities of his friends to accept nominations—which would have been equivalent to an election—to positions of honor and profit. Last Fall the Assembly nomination was conceded to his ward, and it was only after others had declined that he consented to accept it in behalf of his ward, when he was made the candidate by acclamation. Mr. Greaves is exceedingly social in his tastes, is well educated, has a good address, is a ready talker, is extremely popular in the various secret societies to which he belongs, and is in great requisition at their festive or anniversary occasions to make a speech, tell a story, or sing a song—either of which he does most felicitously.

1881—Greaves, R., 1,353; George, D., 721.

Second District.

PATRICK HENRY SHIELDS.

(Rep., Paterson.)

The Second Legislative District is composed of the second, third and sixth wards of the city of Paterson.

Mr. Shields was born in the north of Ireland January 12th, 1837, being the oldest of seven children. His parents came to America in 1846, settling in Paterson, New Jersey, where they remained for a year or two, when they removed to Little Falls. The times were unpropitious, and there were many mouths to feed, so that the oldest son of the large family was obliged at a very early age to contribute to the support of his brothers and sisters, which he did with the utmost cheerfulness, though this necessitated the sacrifice on his part of opportunities to acquire a much desired education. He worked in the Paterson mills, and afterwards, during his residence there, in Beattie's carpet mills at Little Falls, first in worsteds and later on in weaving carpets. The elder Mr. Shields dying in 1858, the family removed again to Paterson, and then the subject of this sketch entered a grocery store, and in the course of five years acquired such an insight into

the business that he set up for himself, in 1863, with the little capital he had been able to accumulate by the closest economy, after liberally aiding his family. By his steady industry and honesty in trade he soon acquired an enviable reputation, and although through his proverbial generosity he has at times lost heavily, his business has constantly been growing, until now he is one of the most extensive grocers in Paterson, doing a large country as well as city trade. Some years ago he took one of his brothers into partnership with him. From the foregoing sketch it will be seen that Mr. Shields is emphatically a self-made man, and he is a very creditable specimen of that sort of production. In politics he has always been a zealous Republican. Residing in a ward that was formerly Democratic, he has done as much as any one to wheel it into the Republican ranks. Many years ago he was elected one of the ward Commissioners of Appeal in cases of taxation. In 1871 he was elected to the Board of Chosen Freeholders, remaining in that body for five years, during all of which time he was one of the leading spirits in shaping its policy and controlling its measures. He was Chosen Director in 1872-3-4-5, only two persons before him having held the office so long. Largely through his influence the Board then inaugurated the policy of building permanent iron bridges, in consequence of which the county now spends very little in repairs of bridges. As a representative man of the county Mr. Shields has been frequently called upon to wait upon the Legislature, with other leading citizens and taxpayers, for or against public measures in which the interests of Passaic county have been concerned, so that he has long been familiar with the routine of legislative business. He has been more than once urged to be a candidate for various offices—such as Alderman, Sheriff and Assemblyman—but would never consent until last Fall, when he was elected to the Assembly by a majority (952) which the three wards composing his district never gave to any other man, a fact which sufficiently attests his great popularity among all classes.

1881—Shields, R., 1,733; Springstein, D., 781; Ryerson, 75.

WILLIAM F. GASTON.

(Rep., Passaic.)

He was graduated from Rutgers College in June, 1874, studied law with Dixon & Collins in Jersey City, was admitted to the bar as an attorney in June term, 1877, and as a counselor in June term, 1880. He has taken a very active part in politics since he was sixteen years of age, and attended all the State conventions of his party since that time. He was Chairman of the Passaic county delegation to the last Democratic Gubernatorial Convention. He has the reputation of being one of the shrewdest politicians in Passaic county, and will doubtless make his mark in legislative circles.

1881—Flynn, D., 972; Leddon, R., 447; Gourley, Ind. D., 946.

David Dudley Field, in New York, where he was admitted to practice, and followed the profession with Mr. Field for thirteen years, and until the death of his (Mr. S.'s) father, who was formerly a member of the Legislature, when he came home and took charge of the latter's business. He never held, nor was a candidate for, public office until 1880, when he was elected to the House of Assembly. Last year he proved himself to be a very active and conscientious legislator. He served on the Committee on Revision of Laws, and on the Joint Committee on Reform School for Boys.

WILLIAM E. ROSS.

(Dem., Sparta.)

There is but one Legislative District in the entire county.

Just previous to the breaking out of the Revolutionary war, Donald Ross came from the North of Scotland, bringing with him his wife and four children, and settled in Orange Co., N. Y. He was a direct descendant of the distinguished Crawford family from whom Sir William Wallace was descended. He died in the town

of Hardyston, Sussex Co., N. J., in the year 1799, aged seventy-two years and nine months.

William Ross, eldest of his children, born in Scotland in 1758, was fifteen years old when the family came to America. Immediately after his arrival here he enlisted in the army, but was rejected on account of his youth. After two years he again offered his services, was mustered into the ranks, and served until the close of the war. For several years he managed a farm at New Brunswick for Judge Morris, and about 1785 purchased of that gentleman a farm of two hundred acres in the township of Hardyston, Sussex Co. During his residence at New Brunswick, about the year 1800, he married Phebe Noble, of that place. The children born of this union were seven, viz.: Donald, Jacob, Isabel, Isaac, John, James and Rachel. About the year 1813 he settled on his farm in Hardyston, where he spent the remainder of his life, and died Nov. 25, 1830; his wife died in April, 1833. He was a member of the Presbyterian Church, but his wife affiliated with the Methodists. In politics he belonged to the old Federalist party, but supported Andrew Jackson for the Presidency.

John, son of William, is father of our subject, and was born Sept. 5, 1812. Until the age of seventeen he spent his time at home, where he received the limited opportunities then afforded for obtaining an education in the common schools. At that time he began learning the wagon-maker's trade, and has since carried on that business in Sparta. He married, in February, 1844, Ellen, daughter of William McKinney, of Andover, N. J.

William E. Ross is their only surviving child, and was born July 18, 1845, in Sparta. He was a teacher for some two years, and in 1864 he was graduated at Bryant & Stratton's Business College, in Newark, N. J. Subsequently he was engaged for three years as book-keeper at Petroleum Centre, Venango Co., Pa., and as foreman of the machine shops in the Central Machine Works. In 1867 he went to Newton, N. J., and in 1868 he was appointed deputy sheriff of Sussex county, under Sheriff Jesse Ward. He was re-appointed by Sheriff Simonson, and served until the Spring of 1871. During the year 1870 he served as clerk of the township of Newton, and for one year was one of the coroners of Sussex county. He served as justice of the peace from the Spring of 1871 to October, 1873, when he resigned

that office; the same Fall he was elected sheriff on the Democratic ticket, and in consequence of a change in the State constitution served for five consecutive years, being the only sheriff in the State for so long a term. His wife is Clarissa E., a daughter of Delos S. Merrick, of Nunda, N. Y., whom he married Jan. 1, 1877.

1881—Ross, D., 2,491; Arvis, R., 2,341; Decker, 71.

Union County.

First District.

JOHN T. DUNN.

(Dem., Elizabeth.)

The First Legislative District is composed of the first, second, third, fourth and eighth wards of the city of Elizabeth.

Mr. Dunn was born in Tipperary, Ireland, in the year 1838, came to this country when but a child, and from that time until the present he has had to depend entirely upon his own resources. He worked on a farm, and went as cabin boy on a vessel trading between Philadelphia and the West Indies. After two years he quit the sea, and obtained work as a bobbin boy in a factory at Gloucester, N. J., where an older brother resided. At this time he had no education whatever, and seeing the necessity thereof, without going to school, but through volunteer teachers, he acquired a fair English education. When twenty-one years of age he went to Connecticut, and took an active part in the Douglas canvass. He commenced the study of law, and was sick for three years. At the commencement of the war he went to the front, and through the good offices of General Hooker and others went into business and made money, but lost it in the real estate business in Washington, at the close of the war. After several reverses at different places, he settled down at Elizabeth in the painting business. He has been an active Democrat all his life, was elected Alderman of the city of Elizabeth by 59 majority, and in 1878, notwithstanding a determined opposition, was elected over both Republican and Greenback candidates by a majority of 356 votes. He is now serving his fourth

consecutive term as a member of the House of Assembly—something nearly unprecedented in the history of New Jersey politics. During his legislative career he has been one of the leaders of his party on the floor of the House, and as an orator and a debater he has made for himself a shining record. He has served on leading committees, and last year he was a member of those on Municipal Corporations, Education and Engrossed Bills.

BIOGRAPHIES OF STATE OFFICERS.

Secretary of State.

HENRY C. KELSEY, Trenton.

Mr. Kelsey was born at Sparta, Sussex county, in the year 1837. He was educated and brought up in that town. At one time he was editor of the *Jersey Herald*; was postmaster at Newton, and Judge of the Court of Common Pleas in Sussex county for four years. He was appointed Secretary of State by Governor Randolph, to fill a vacancy caused by the resignation of Mr. H. N. Congar, and took possession of the office July 1st, 1870. This term expired in 1871, and Mr. Kelsey was re-appointed by Governor Randolph, and confirmed by a Republican Senate for a full term, which expired in 1876. Again Mr. Kelsey was re-appointed by Governor Bedle, and confirmed by a Republican Senate, for another full term, which expired April 6th, 1881. Governor Ludlow nominated him for another term of five years, and the Senate refusing to confirm the nomination, the Governor appointed Mr. Kelsey to fill the vacancy for one year.

By virtue of his office Mr. Kelsey is a member of the Board of Bank Commissioners; Clerk of the Board of State Canvassers; Clerk of the Court of Errors and Appeals; Clerk of the Court of Impeachment; Clerk of the Court of Pardons; Clerk of the Prerogative Court; Commissioner of the State Library; Scientific School Commissioner, and State Commissioner of Insurance.

Mr. Kelsey is also a member of other boards, and the duties of his office in other respects are multifarious.

MR. JOSEPH D. HALL is Assistant Secretary of State. He "shall, during the absence or inability through sickness or other cause, of the Secretary of State, have the same powers and perform all the duties which are now imposed by law on the Secretary of State."

State Treasurer.

GEORGE M. WRIGHT, Bordentown.

Mr. Wright was born at New Shoreham, Rhode Island, in the year 1817. He was educated in a select school at Milford, Otsego county, N. Y., whither he had removed in his nineteenth year. He resided there for two or three years, and removed to New York City in 1841. He took a steamboat agency, and in 1854 was one of three partners who bought a line of steamboats. In 1852, he removed to New Brunswick, and three years later to Bordentown, where he has resided ever since. In 1865 he was elected State Senator for Burlington county. For eight or nine years he was inspector and collector of the Delaware and Raritan Canal Company, during the Camden and Amboy administration. He has been a director of the Bordentown Bank for four years. In 1876 he was elected State Treasurer in Joint Meeting of the two houses of the Legislature, and in 1879 he was re-elected to the same position. His term expires on March 4th of the present year.

State Comptroller.

EDWARD J. ANDERSON, Trenton.

Edward J. Anderson, the present Comptroller of the Treasury, was born in Hunterdon county, in this State, December 15th, 1830. After receiving a common school education he engaged in mercantile pursuits in Philadelphia, Pa., until the breaking out of the civil war in 1861, when he returned to New Jersey, and accepted the position of principal assistant in the Adjutant General's Department of the State, which position he occupied until the close of the war. Resigning this, he engaged in business in New York, but retained his residence in New Jersey, and in 1871, when the control of the office of Comptroller of the Treasury passed into the hands of the Republicans, he consented, after urgent solicitation, to accept the position of first assistant in this department. This position he occupied for nine years, and when, in 1880, the office of Comptroller became vacant, the Republican Legislature chose him as head of the department.

By virtue of his office the Comptroller is a member of the following boards: Inspectors of the State Prison, Trustees of the Fund for the Support of Public Schools, State Board of Education, Commissioners of the State Library, Commissioners of Railroad Taxation, and Commissioners of Savings Banks, all of which positions involve the performance of arduous duties, and to none of which is there any compensation attached, excepting that of five hundred dollars a year for the performance of the duties of Inspector of the State Prison.

Previous to his election as Comptroller of the Treasury, Mr. Anderson has never sought any public office, nor has he held any excepting that of Commissioner of Fisheries, which he accepted in 1877, at the solicitation of Governor McClellan, and the duties of which he has since performed as a labor of love, there being no compensation nor perquisites attached to the office.

Mr. Anderson has no idea that there is any public demand for his biography, but has written this little sketch solely to oblige his friend, the publisher of this manual.

His term expires in 1883.

Attorney General.

JOHN P. STOCKTON, Trenton.

John Potter Stockton was born at Princeton, August 2d, 1826, and is a son of the late Commodore Stockton, U. S. N. He graduated from Princeton College in the class of 1843, and studied law with the late Judge R. S. Field. He was admitted to practice as an attorney at the April term, 1847, of the Supreme Court, and was called to the bar as counselor in 1850, and practiced law in New Jersey until 1857, when he was appointed U. S. Minister to Rome by President Buchanan. He held that position until 1861, when he returned to his native land, and recommenced the practice of law in Trenton. He was elected to the Senate of the United States for six years, for the term commencing March 4th, 1865, to succeed Hon. J. C. Ten Eyck, but was unseated after serving one year. He was, however, re-elected to the United States Senate for the term commencing March 4th, 1869, and served the full term, when he returned to Trenton and recommenced

the practice of law in Trenton. He was appointed Attorney General of the State, and sworn into office, for the term of five years, on April 8th, 1877.

Senator Stockton was appointed, with Judges Ryerson and Randolph, as Commissioner to revise and simplify the proceedings and practice in the courts of law, and made a report to the Legislature, which was adopted.

Adjutant General.

WILLIAM S. STRYKER, Trenton.

William S. Stryker was born at Trenton, New Jersey, June 6th, 1838. He was educated at the College of New Jersey, graduating there in the year 1858. He commenced the study of law, and had nearly completed the course when the war broke out. As stated in "New Jersey and the Rebellion," "He entered the military service of the country in response to the first call for troops. He then assisted in organizing the Fourteenth Regiment, New Jersey Volunteers, and, in February, 1863, was ordered to Hilton Head, South Carolina, and made Major and A. D. C. to Major General Gillmore, then in command of the Tenth Army Corps. He participated in the capture of Morris Island, and the bloody night attack on Fort Wagner. Subsequently he was transferred to the north on account of illness, and placed in charge of the Pay Department U. S. Army, at Parole Camp, Columbus, Ohio. He was brevetted Lieutenant Colonel for meritorious services during the war, and, resigning in June, 1866, was soon after placed upon the staff of the Executive of New Jersey." On April 12th, 1867, he was made Brigadier General and Adjutant General of New Jersey, which position he holds at the present time. He was brevetted Major General, for long and meritorious services, February 9th, 1874. He has compiled officially and published a "Roster of Jerseymen in the Revolutionary War," a "Roster of New Jersey Volunteers in the Civil War," and several works on historical subjects relating to New Jersey. He was made a counselor at law of the State of Ohio in the year 1865; is a member of historical societies, a Fellow of the American Geographical Society, and a member of the Society of the Cincinnati.

Quartermaster General.

LEWIS PERRINE, Trenton.

Lewis Perrine was born in Freehold township, Monmouth county, September 15th, 1815, and attended the Lawrenceville High School, from which he graduated and entered Princeton College in 1835, graduating with the class of 1838. He studied law with Hons. Garret D. Wall and James S. Green, at Princeton. He settled in Trenton in 1841, and was appointed and served as Military Secretary to Governor Fort. He was appointed Aid-de-Camp on the staff of Governor Price in 1854, and was commissioned Quartermaster General, *vice* Samuel R. Hamilton, deceased, September 22d, 1855. His services during the late war, which were both arduous and trying, were executed with rare ability and expedition. The State of New Jersey having more troops in the field than the regular forces of the United States, made the duties of the office very laborious, requiring much skill and endurance in their execution. For meritorious services in the discharge of the same he was made Brevet Major General by the Senate, on recommendation of Governor Parker, in 1865.

General Perrine still holds the office of Quartermaster General, and is, besides, acting Paymaster General of the State.

Commander of the National Guard.

MAJOR GENERAL GERSHOM MOTT, Trenton.

General Mott was born near Trenton, N. J., on April 7th, 1822, and was educated at the Trenton Academy. He began his business career when he was fourteen years of age, in a commercial establishment in New York, and shortly before the breaking out of the Mexican war he relinquished his position in New York and went to reside temporarily with his father in New Jersey. In 1846, when President Polk called for fifty thousand volunteers, he offered his services to the government, and was commissioned as Second Lieutenant, and assigned to the Tenth U. S. Infantry. He served with his organization during the entire war, distinguished himself for coolness in danger, and for his

exactness as a disciplinarian. At the termination of the war, he resigned his position in the army, and in recognition of his meritorious services he was appointed Collector of the Port of Lambertton—a position previously held by his father. He retained the position until the Spring of 1849, when he was removed to make room for President Taylor's appointee. He then accepted a clerical situation at Bordentown, in the office of the Delaware and Raritan Canal Company, and in 1855 was appointed Teller of the Bordentown Bank.

At the breaking out of the war, when the famous Second New Jersey Brigade—composed of Fifth, Sixth, Seventh and Eighth Regiments of Infantry—was formed, he was appointed, on August 4th, 1861, Lieutenant Colonel of the Fifth N. J. Vols. Practically—Colonel Starr being ranking officer and Acting Brigadier General—he was the commander of the Fifth, and under his supervision its men were thoroughly disciplined and drilled. In December, 1861, the regiment was attached to Hooker's "old" division, at Budd's Ferry, Maryland, and received its baptismal fire at the battle of Williamsburg. In this battle the New Jersey Brigade took a leading part, and for a time held the entire rebel army in check—the Fifth Regiment being for more than nine hours exposed to a frightfully destructive fire. For the gallant manner in which he held his ground, Lieutenant Colonel Mott was promoted (May 7th, 1862,) to the colonelcy of the Sixth Regiment, N. J. Vols. In this position his soldierly qualities became more and more conspicuous. He was severely wounded in the arm in the second battle of Bull Run, July 28th, 1862. He was promoted Brigadier General, and assigned to the command of the Second New Jersey Brigade on December 4th, (Third Brigade, Second Division, Third Army Corps.) He was again wounded at the battle of Chancellerville, May 3d, 1863, and it was only when weakened by loss of blood that he consented to go to the rear. In the Spring of 1864, when the Army of the Potomac moved to the Wilderness, General Mott was placed in command of the Fourth Division of the Second Corps, (afterwards Third Division, Second Corps,) a position he held until the end of the war. His management of the division was as able as that of his brigade and regiment, and on September 10th, 1864, he was brevetted Major General. On April 6th, 1865, he was again wounded in a skirmish

at Amelia Springs. Upon the dissolution of the army, he had command of the Provisional Corps, and when that was disbanded, he was ordered to report at Washington. In the August following, he was detailed to serve on the Wirz Commission, and on December 1st, 1865, was made a full Major General of Volunteers—being the first New Jersey soldier to receive the brevet of Major General, and the only one to retain the full rank. On February 20th, 1866, his resignation was accepted, and, returning to his home in New Jersey, he accepted the Paymastership of the Camden and Amboy Railroad Company. In 1867, he declined the colonelcy of the Thirty-third U. S. Infantry. In 1873, he was appointed Commander of the New Jersey National Guard, with the rank of Major General, which position he still occupies. He was appointed on September 1st, 1875, Treasurer of the State of New Jersey to fill a vacancy; and on March 29th, 1876, he was appointed Keeper of the State Prison—his term expiring in 1881.

Clerk of the Supreme Court.

BENJAMIN F. LEE, Trenton.

Mr. Lee was born in Port Elizabeth, Cumberland county, N. J. His father, Hon. Thomas Lee, was a prominent public man, having served several terms in Congress and the State Legislature, and been a successful merchant in Port Elizabeth, where he died in 1856. The Hon. Thomas Lee was a brother of Colonel Francis Lee, of the regular army, and a graduate of West Point, who distinguished himself in the Mexican war, and the father of Doctor Thomas Lee, a surgeon in the regular army, who died in 1838 from disease contracted in the Florida war. This branch of the Lee family are descendants of the Lees and Alexanders (Scotch and Irish) who emigrated to this county prior to the Revolution.

The subject of this sketch finished a thorough English education under the tutorship of John Gummere, at Burlington, in 1845, and immediately entered his father's store, at Port Elizabeth, as partner. In time he succeeded the firm of Thomas and Benjamin F. Lee, and finally, in 1860, retired from the business altogether. In 1863 he was elected treasurer of the Cape May and

Millville Railroad Company, and in 1866 treasurer of the West Jersey Marl and Transportation Company, which position he resigned upon entering on the duties of Clerk of the Supreme Court. He was for several years a director of the State Agricultural Society of New Jersey. Like his father, he was always an earnest and active supporter of the Democratic doctrine, and took an active part in politics. In 1856 he was a Presidential Elector, and had served a term on the State Central Committee. In 1858, his friends of the First District presented his name in convention for nomination for Congress, and he received thirty-nine of the forty-one votes necessary to a choice. He was afterwards nominated for the Legislature from this district, which was largely Republican, and after an exciting contest, was defeated by only three votes. In 1870, Mr. Lee was nominated for Congress in the First District. The district usually gave 3,700 Republican majority, and that year about 1,500 colored votes were added, making nearly 6,000 to overcome, but he was defeated by only 1,800 votes. This was the first inroad made upon the large Republican majority in the district. In the Gubernatorial Convention that nominated Hon. Joel Parker, in 1871, Mr. Lee received 118 votes—the entire strength of his district. In 1872 he was appointed, by Governor Parker, Clerk of the Supreme Court, which appointment was unanimously confirmed by the Senate. In 1877 he was re-appointed by Governor Bedle, and his appointment had the singular and unusual compliment of a confirmation by the Senate without the customary reference to a committee.

Clerk in Chancery.

GEORGE S. DURYEE, Trenton.

Mr. Duryee was born in the city of Newark, in 1850, and is a son of the late Peter S. Duryee, who was for many years a prominent manufacturer in that city, and who died in 1877. Mr. Duryee received his elementary education in New England, and was graduated at Rutgers College, New Jersey, in 1872. Previously, however, he was engaged in business in his native city for four years. He made a tour of Europe, during which

he visited all the principal countries of that continent, and upon his return home he entered the law office of Messrs. McCarter & Keen, of Newark, where he studied the profession. He was admitted to the bar as an attorney in 1875, and three years later as a counselor. In 1877 he was elected to the House of Assembly from the then fourth district of Essex county, and in the following year he was re-elected. Although the district was considered Republican, Mr. Duryee carried it over his popular opponent, Mr. Martin R. Dennis, by a majority of 142. The second time he ran his majority was largely increased. During his legislative career he always took a prominent part in the proceedings of the House, was a ready debater, a clear thinker, and an able exponent of the principles of his party. In 1878 he received the caucus nomination of his party, which was then in the minority, for the Speakership. In 1881 he was nominated by Governor Ludlow as Clerk in Chancery for a term of five years, and the Senate, although largely Republican, unhesitatingly and unanimously confirmed the nomination. Mr. Duryee, notwithstanding he is quite a young man, has rapidly risen to prominence in the councils of his party, and, from present indications, there is scarcely a doubt that before the lapse of many years he will take rank as one of its most trusted leaders. His term expires in March, 1886.

State Superintendent of Public Instruction.

ELLIS A. APGAR, Trenton.

Ellis A. Apgar was born at Peapack, Somerset county, N. J., March 20th, 1836; received his preparatory education in the public school of his native village, and graduated from the New Jersey State Normal School in 1857. He then engaged in teaching, and, in 1862, entered Rutgers College, from which he graduated in 1866. A few months previous to his graduation he was appointed Professor of Mathematics in the State Normal School. On the creation of the State Board of Education, in 1866, Mr. Apgar was appointed State Superintendent. By his efforts the supervision of the schools was transferred from the Town Superintendents to the County Superintendents, and he was instrumental in

securing the vote of the Legislature which made the schools free by the levy of an annual State tax. He has done much towards the improvement of the school buildings, furniture, apparatus, &c. The value of school property has risen during his administration from \$1,645,000 to \$6,300,398.

Commissioner of Railroad Taxation.

JAMES S. YARD, Freehold.

Mr. Yard was born in the city of Trenton, April 20th, 1826, and is a son of the late Captain Joseph A. Yard. He was educated at the Trenton Academy, and left school at the age of fourteen years to act as book-keeper for his father in the auction business. Afterwards he entered the *True American* office to learn the art of printing. He spent several years in learning the mechanical branch of the trade. He was a skillful compositor and pressman, and at one time worked the entire weekly edition of the *True American* on a hand press. In 1846 he started the *Weekly Visitor* in the city of Trenton, and, after conducting it for three months, sold it. Subsequently he started the *Village Record*, now *Gazette*, at Hightstown. In January, 1854, he purchased the *Monmouth Democrat*, and has conducted it ever since. He was a member of the Monmouth County Board of Chosen Freeholders for the term of three years. He was Major of the Third Regiment of Militia during the three months' service, at the outbreak of the late war. He was connected with all the military operations for raising troops until the close of the war, and was appointed by Governor Olden to draft the militia for Monmouth county, and was Commander of Camp Vredenburg, having raised the Twenty-eighth and Twenty-ninth Regiments of Volunteers, by virtue of appointment from Governor Olden. Was also commissioned as commander of Camp Bayard, at Trenton, which was declined. Held several commissions under Governor Parker during the war, in connection with New Jersey troops in the field. Was appointed Commissioner of Railroad Taxation by Governor Parker, in 1873, which position he still holds. In 1878, he was appointed by Governor McClellan Deputy Quartermaster.

State Prison Keeper.

PATRICK HENRY LAVERTY, Trenton.

Mr. Laverty was born in Ireland about fifty years ago, and when but six years of age he, with his father and mother, came to this country. Shortly after their arrival they located at Saugerties, on the Hudson, where they established themselves in business. Patrick, the youngest of the family, after attending the village schools for many years, was sent to a high educational institute at Sheffield Plains, Massachusetts. There he remained until the death of his father, which occurred when he was about sixteen years of age. It was the intention of Mr. Laverty's father to educate his son for some professional pursuit, but after the death of the old gentleman young Laverty determined to abandon his collegiate course and enter upon mercantile pursuits. He went to New York City, where he engaged in business. He worked hard in various positions until, in 1851, he was appointed to a most responsible place in the Adams Express Company. He acted as treasure messenger for the company in California—his route extending from San Francisco to Chagres, Isthmus of Panama. At that time the duties of that office required a man who could be relied upon under all circumstances, and who was possessed of great judgment and courage. Mr. Laverty filled the bill exactly, and when, in 1853, he resigned to come East, the severance of his connection with the company was greatly deplored by its officials. Before leaving San Francisco a banquet was tendered him, and more than one hundred of his former colleagues and prominent citizens did honor to the occasion. During his services with the company he carried millions of dollars in treasure, and although his path was constantly beset by banditti and the worst of cut-throats, he never lost a single dollar. The company honored him with testimonials of the highest order. He returned once more to the village of Saugerties, where he married Miss Annie Masterson, and for over twenty-three years she has been to him a most devoted wife and an exemplary mother to his children. He was engaged for a short time in the grocery business at Saugerties, and subsequently in New York City, in the manufacture of

clothing for the California trade. In 1860 he removed with his family to Jersey City, where he became engaged in the crockery business. Subsequently he accepted the chief clerkship of the eastern division of the Erie Railway, a position which he held with credit to himself for many years. In 1871 he was elected as Assessor in the Second District of Jersey City, and shortly afterwards he was appointed one of the Directors of the Board of Education. He filled the latter office for two terms, and declined a nomination for a third. In 1874 he was elected Sheriff of Hudson county by a majority of 2,700 votes, and held that office for four years. In 1876 he was elected as a delegate to the St. Louis Convention, and whilst there he was an ardent supporter of ex-Governor Joel Parker for the Presidential nomination. In that year he worked hard and unceasingly for the election of the Democratic ticket headed by Tilden and Hendricks. At every election since he took a leading part, and every Democratic victory won in the State owed much to his indefatigable exertions. Owing to dissensions in the ranks of his own party, he was defeated for Congress in 1878. In March, 1881, he was nominated by Governor Ludlow for the office of State Prison Keeper for a term of five years. The Senate refused to confirm the nomination, and subsequently the Governor appointed Mr. Laverty to fill the vacancy. That he will be renominated and confirmed during the present session of the Legislature his friends have not the least doubt.

Mr. Laverty made one of the best Sheriffs Hudson county ever had, and already he has proved himself to be an excellent Prison Keeper. He is remarkable for his fine social qualities and generous charity to the poor.

PREROGATIVES, &c., OF THE GOVERNOR.

The Governor is invested with the power of making numerous appointments to office, and by virtue of the Constitution holds several high positions himself. So varied are they that it is no easy task to compile a complete list. The following, however, are the most important:

He is Commander-in-Chief of all the military and naval forces of the State; is President (*ex-officio*) of the Boards of Trustees of Princeton and Rutgers Colleges, and also of Saint Mary's Institution, Burlington, and the Board of Managers of Geological Survey. He is Chairman of the State Board of Canvassers, and has power to fill any vacancy for New Jersey that may occur in the United States Senate, during a recess of the Legislature.

He is a member of the following boards. Trustees of School Fund; State Board of Education; Court of Pardons; Commissioners of Agricultural College Fund; Premium Committee of the New Jersey State Agricultural Society; Board of Control of State Industrial School for Girls and State Reform School for Boys; Commissioners of the State Library; composing a Board with the Chancellor, Chief Justice and Attorney General, for the appointment of a Supervisor for the State Prison; State Board of Savings Banks; composing, with the State Comptroller, a board to choose newspapers in which to publish the laws of the State.

With the advice and consent of the Senate, he has the power of appointing the following officers: Chancellor, Chief Justice; Judges of the Supreme Court, Inferior Courts, and Lay Judges of the Court of Errors and Appeals; Attorney General, Secretary of State, Clerk of the Court of Chancery, Clerk of the Supreme Court, Keeper of the State Prison, Superintendent and Inspector of Weights and Measures, Prosecutors of the Pleas, Riparian Commissioners, Commissioners of Pilotage, Trustees of the Normal School, Commissioners of Fisheries, Visitors to the State Board of Agriculture, Judges of the District Courts, Chief of Bureau of Labor Statistics, Major General, Quartermaster General, Adjutant General, Foreign Commissioners of Deeds.

Besides all these duties, the Governor finds it necessary to read and answer a large mass of correspondence, which comes to the

department daily. All bills and joint resolutions passed by the Legislature are compared, and then recorded in the Executive Department, before presentation to the Governor.

He receives a salary of \$5,000 a year, and is not allowed any fees or perquisites whatever.

His term of office is three years.

Adjutant General's Office.

The Adjutant General is required, by law, to carry into execution the system of military discipline established by the authority of the State. As the executive officer of the Governor and Commander-in-Chief, he is required to see that all his orders in reference to the military force are properly fulfilled. His office is an office of record and deposit of information in regard to the National Guard and of the reserve militia. All details for calling troops into the field for active service are kept in his department. It is also an office of record of the military service of men of New Jersey in all the wars of this country for the last one hundred and twenty-five years. It is asserted by the official in charge that its records are more complete than any office of the kind in the Union.

The Centennial Celebration at Yorktown, Va.

In accordance with a Joint Resolution of the last Legislature the New Jersey Battalion was formed to represent the State at this anniversary. Companies were selected from the whole body of the National Guard, and such was the splendid drill and efficiency of this command that they won the Silver Vase awarded by a committee of officers of the Regular Army of the U. S., selected by Major General Hancock, for "presenting the best military appearance at the entire encampment."

The following were the Field and Staff of this Battalion: Colonel and Bvt. Brig. Gen. E. Burd Grubb commanding; Lt. Col. Edward A. Campbell; Major Richard A. Donnelly; Adjutant Samuel D. Dickinson; Quartermaster Jacob J. DeMott; Paymaster William R. Williams; Surgeon Franklin Gauntt; Assistant Surgeon George W. Terriberry; Chaplain Joseph K. Manning; Judge Advocate Townsend B. Baldwin; Inspector Rifle Practice, Theodore W. Griffith.

Quartermaster General's Department.

The Quartermaster General is, by law, Acting Commissary General, Acting Paymaster General, and Acting Chief of Ordnance. He is charged with the duty of providing the means of transportation for troops of the National Guard when ordered upon duty by the Governor, who is Commander-in-Chief of all the State forces, and the movement of all necessary stores for parades, inspections, encampments and rifle practice on the ranges of the principal rifle associations of the State, and furnishes all material of war and ammunition in cases of riot and tumult. He provides and distributes uniforms under the law approved March 10th, 1880; furnishes tents, camp and garrison equipage, forage, fuel, lumber, and all material for camps and for shelter of troops and stores when the militia is called out for duty; provides grounds for military encampments ordered by the Commander-in-Chief; has the charge of the State Arsenal at Trenton, where all military supplies of the State are stored, and has the general supervision of all military expenses, except where otherwise provided by law.

He has the care and preservation of all ordnance stores and ammunition, issuing them as they are required, keeps books of account with regimental and company officers, receives from the United States Government, under the act of Congress of 1808, for arming the militia, furnishes subsistence to troops while in active service, and pays the per diem allowed by law for such service.

The total number of small arms, the property of the State, including those in possession of the National Guard, is 21,317. The heavy ordnance, serviceable, consists of light Napoleon guns, smooth bore; four 3½-inch Ames' guns, smooth bore; four 3½-inch James' guns, rifled; and eighteen 3-inch Griffin guns, rifled. These, with gun carriages, limbers, caissons, battery wagons, traveling forges and implements, compose six 6-gun battalions. In addition to this there are eight Gatling guns, two Billingham and Requa batteries, and two mountain howitzers, with sufficient ammunition for almost any emergency. The number of cartridges for Springfield rifles on hand is about 150,000. A large quantity of ammunition is manufactured at the Arsenal.

To the exertions of this department, in fitting out the fine body of men comprising the Battalion that participated in the Yorktown Centennial Celebration, is due much of the credit for the trophy awarded to our troops for soldierly appearance, camp, &c. The camp was laid out and erected by a detachment from the State Arsenal sent to Yorktown for the purpose, several days in advance of the Battalion. The camp was pronounced, both by the Commission and distinguished military officers, as the best camp at Yorktown.

Five Regiments and two Battalions of the National Guard now wear the State regulation uniform adopted by the military authorities, consisting of a dark-blue frock coat, with facing of light-blue, light-blue trousers and plain dark-blue McClellan cap.

The State has also adopted accoutrements similar to those in use by the U. S. Government, consisting of a plain black leather waist belt, to which the cartridge-box and steel bayonet scabbard are attached, dispensing with the old webbing waist, cartridge-box and bayonet-scabbard belts which had become so unpopular with the troops by reason of the trouble in adjusting them, shrinkage after washing, &c. These accoutrements are being issued as rapidly as received from the contractors.

DEPARTMENT OF INSURANCE AND SAVINGS BANKS.

INSURANCE.

The law creating an Insurance Department in this State was approved April 9th, A. D. 1875. By this act the Secretary of State was made *ex-officio* Commissioner of Insurance, and given full power to execute the law relating to insurance companies organized under the laws of this State, as well as those of other States and nations desiring to transact business herein. Every Insurance Company doing business in this State is required to file annually with the Secretary of State, before the first day of February of each year, a detailed statement, made under oath, setting forth the financial condition of such company, on the first day of January previous. This statement must give the kind and value of each item composing the assets and liabilities, the receipts and expenditures during the year, and such other general information as may be of interest for the insuring public to know.

These annual statements are carefully compiled and published in similar form as other public documents of the different departments of State.

"A supplement to the act concerning savings banks," approved March 8th, 1877, provides that these institutions shall file with the Secretary of State an annual statement, under oath, similar to those filed by insurance companies, and be subject to a personal examination at least once in two years. These statements are also compiled and published in a documentary form. The total number of insurance companies legally doing business in this State during the year 1879, was one hundred and forty-five, classified as follows: Companies organized under the laws of New Jersey, 51, viz., joint stock companies, 19; purely mutual companies, 32; companies of other States, 70, and companies of foreign governments, 24.

The total amount of capital stock of all stock companies doing business in the State, was \$36,996,980.00, as follows: New Jersey companies, \$4,245,970.00; companies of other States, \$32,750,010.00.

Total assets of such companies, \$124,351,863.69, viz.: New Jersey companies, \$8,331,540.78; companies of other States, \$38,665,889.08; foreign companies (United States branches), \$27,354,433.83.

Total liabilities, \$30,881,717.65, viz.: New Jersey companies, \$56,969,903.05; companies of other States, \$63,014,745.56; foreign companies (United States branches), \$12,170,069.04.

The total net surplus was \$43,552,162.92, viz.: New Jersey stock companies, \$2,707,967.20; companies of other States, \$25,659,830.93; foreign companies (United States branches), \$15,184,364.79.

New Jersey companies had an average surplus over capital of 63.72 per cent., and assets of \$1.46 for each dollar of liability. Companies of other States, 78.35 per cent. surplus over capital, and \$1.41 of assets for each dollar of liability. Foreign companies (United States branches), had \$2.23 of assets for each dollar of liability.

New Jersey mutual companies had premium notes amounting to \$5,442,533.21; cash assets, \$452,509.20; and liabilities, exclusive of unearned premiums, of \$86,329.03.

SAVINGS BANKS.

The Secretary of State is also *ex officio* Superintendent of Savings Banks. The report for the last fiscal year shows as follows:

On the 1st day of January, 1880, the total assets of all savings banks in the State amounted to \$18,361,011.47; liabilities, except

surplus, \$17,533,055.41; surplus over all liabilities, \$8,592.92; number of open accounts, 68,457.

January 1st, 1881, their total assets amounted to \$21,083,961.75; liabilities, except surplus, \$20,047,893.63: surplus over all liabilities, \$1,038,080.37; number of open accounts, 74,965.

On the 1st day of January, 1878, the number of depositors at that date was 64,775, and on the 1st day of January, 1881, the number was 74,965—an increase of 10,190, from which it is fair to infer that the public confidence in these institutions has been fully restored.

There are a number of these institutions still the wards of the Chancellor, and the proceedings in each case warrant the conclusion that they are being managed, under his direction, for the best interest of depositors.

Since the last report the Hunterdon County Savings Bank and Trust Company has gone into voluntary liquidation, and is paying its depositors in full as fast as their claims are presented.

On the 27th day of January last the managers of the Morristown Institution for savings resolved to close business and wind up its affairs. The institution is believed to be entirely solvent, but the managers were anxious to free themselves of the trust; and in order to do so and make an equitable division of all the assets among the depositors, they ask temporary relief of the Chancellor.

A recapitulation of the voluminous tables shows as follows:

STATE BOARD OF HEALTH.

Hon. Henry C. Kelsey, Secretary of State, and Hon. John P. Stock, Attorney-General, members *ex-officio*; Cyrus F. Brackett, Ph.D. Princeton; Franklin Gauntt, M.D., Burlington; Theodore R. Varick, M.D., Jersey City; Ezra M. Hunt, M.D., Trenton; E. A. Osborn C.E., Middletown; E. S. Atwater, counselor at law, Elizabeth Laba a Dennis, M.D., Newark.

President, C. F. Brackett, Ph.D.; Secretary, Ezra M. Hunt, M.D.; Recording Clerk, E. A. Osborn, C.E.

Previous to 1876, two State Commissions on Health had made reports. The State Board was formed in 1877, and since then the annual reports show the work accomplished. In addition to the duties assigned to it under the first act, it has collateral relation to the laws as to contagious diseases of animals, vital statistics and adulteration of foods. Besides its general work, it is frequently consulted by cities and townships as to health ordinances, the removal of nuisances, and plans for sanitary improvement. It thus not only shows how much of disease is preventible, but assists to prevent it.

STATE LUNATIC ASYLUMS.

Trenton Asylum.

Officers—Superintendent and Physician, John W. Ward, M. D.; First Assistant Physician, J. Kirby, M. D.; Second Assistant Physician, Charles P. Britton, M. D.; Treasurer, Austin Snyder; Steward, Edmund White; Matron, Mrs. S. J. Clark.

On October 31st, 1880, there were 550 patients in the asylum, 303 males and 247 females; received during the year 84 males, 73 females. Discharged, 78 males, 52 females, total 130. Of these discharged, 58 were recovered, 20 improved, 4 unimproved, 1 escaped, 1 not insane, 1 removed to another asylum, and 45 died. Total number treated since the opening of the institution, 5,827. Of this number, 2,065 have been discharged as recovered, 1,504 as improved, 219 as unimproved, 20 as escaped, 13 as not insane, 1,080 died, and 334 removed to other asylums.

The average of deaths is less than any of the other asylums in the country except in those of the larger institutions where a greater number of acute cases, in which the probability of recovery is greater, are committed. There is no separate accommodation, as there ought to be, for convict patients. An effort has been made, as far as the classification will admit, to keep the convicts separate, and two halls were devoted to their use. Those who have committed high crimes, however, are isolated from the innocent insane. The liability of destruction from fire is guarded against in a very effective and ingenious manner. The system adopted for the treatment of the patients is as near as can be that of non-restraint, viz., no restraint being employed except with violent patients to prevent injury to themselves or their fellows. This asylum is a model for neatness and good management.

State Asylum for the Insane.

Managers—Francis S. Lathrop, Madison, President; Hiram C. Clark, Newton, Secretary; Beach Vanderpool, Newark; Anthony Reckless, Red Bank; George A. Halsey, Newark; William G. Lathrop, Boonton; John S. Read, Camden; Joseph D. Bedle, Jersey City; Samuel S. Clark, Belvidere.

Resident Officers—Superintendent Physician, H. A. Buttolph, M. D., L. L. D.; Assistant Physician, Edwin E. Smith, M. D.; Second Assistant Physician, Thomas M. Lloyd, M. D.; Steward, M. B. Monroe; Matron, Miss Mary Tabor.

Treasurer—Eugene Vanderpool, Newark.

The number of patients at the close of the year 1881 was:

| | |
|------------|-----|
| Men..... | 310 |
| Women..... | 331 |
| Total..... | 641 |

The whole number received from the opening of the institution, August 17th, 1876, to November 1st, 1881, was:

| | |
|------------|-------|
| Men..... | 600 |
| Women..... | 586 |
| Total..... | 1,186 |

The institution is located near the line of the Delaware, Lackawanna and Western Railroad, about three and a half miles north of Morristown, and one and a half west of Morris Plains station, from which there is stage connection with the house. It is situated on a tract of land four hundred and fifty acres in extent, is a massive structure in lineal form, built of gneiss of a light gray color, much resembling granite. It is twelve hundred and fifty feet long in a direct line, consists of four principal wings for patients on each side of a central edifice, with two sections on each extremity of the fourth, two stories high, thus providing arrangements for sixteen full and twenty partial subdivisions of each sex. The building is warmed by steam, lighted by coal gas made on the premises, and supplied with water from mountain springs. The ventilation is effected by force and exhaust power, the former being supplied by two fans for delivering the fresh air to all parts of the house, while by the latter the foul air is removed through flues and trunks connected with upright shafts heated by coils of steam pipe. The building has capacity for receiving eight hundred patients with their attendants, is fire proof to a large extent, and in the quality of the material of which it is composed, its general arrangement, constitution, fittings, machinery, &c., &c., is, perhaps, equal to any of those erected in modern times. The expenditure in its construction and outfit, including lands, &c., was about two and a half million dollars; but, in view of all the characteristics mentioned, this sum, to men of practical experience in such things, will not be considered unusual or extravagantly large.

BUREAU OF STATISTICS OF LABOR AND INDUSTRIES.

James Bishop, Chief of Bureau.

As the pottery, brick, glass and silk industries of New Jersey are the most important in the United States, the following brief statement concerning them, condensed from the forthcoming report of the Bureau of Statistics of Labor and Industries, will be of interest:

There were engaged during the year 1881, in the manufacture of

glass, brick and drain-pipe, 72 firms, whose establishments, on an invested capital of \$2,694,900, turned out a product valued at \$3,349,500. The average number of hands employed was 4,569, and the total paid for labor, \$1,242,890, or 37 per cent. of the product.

The capital invested in the pottery interest is \$3,254,500. The product for 1881 was \$3,663,300. Average number of workmen, 3,682. Total wages paid, \$1,555,300, or 42.4 per cent. of the product.

The following will show the condition of our silk industry for the past two years :

| | 1880. | 1881. |
|-----------------------------------|-------------|-------------|
| Firms..... | 106 | 105 |
| Capital... .. | | \$7,524,200 |
| Average number of operatives..... | 12,680 | 14,122 |
| Wages paid..... | \$4,168,335 | \$4,787,500 |
| Value of product..... | 15,808,424 | 18,053,210 |

More than one-half of the silk manufacture of the United States is done in New Jersey.

In 1880, the Chief of the Bureau certified 64 vouchers for 92 tons of flax straw grown in this State. On these the bounty paid amounted to \$644. In 1881 the number of vouchers certified was 169, for 360 tons, for which \$2,520 bounty was paid. There was also paid a bounty of \$273.58 on 11 vouchers for 7,811 pounds of flax fibre grown. Under the bounty law for sorghum, &c., 48 vouchers have been certified for 1,319 tons of sorghum and sugar cane; bounty, \$1,319.

BUREAU OF VITAL STATISTICS.

The work of this Bureau is to collect the returns of marriages, births and deaths occurring in the State, and so to classify and index them as to make them available as records, and at the same time to so tabulate them as to show the vital movements and conditions of the population. Our people are a part of our material resources, and as such must be studied as to those causes which deteriorate their health or shorten their lives.

The former law was changed in 1878, and since then the returns have gained each year in completeness. It is now recognized that the study of these statistics is the basis of sanitary administration. It is gratifying to know that, in order to test and compare the vital returns of the last census, the States of Massachusetts and New Jersey were chosen as having the most accurate systems.

An examination of the death returns shows very accurately the course and localities of disease, the principal cause of death, and the variations in the death rate of the various cities and townships. Birth rates and the number of marriages have to be studied as well as deaths, since the ages of the population and the increase or decrease of marriages has much to do with general progress.

An examination of the books of record will show how accurately and systematically they are arranged, so as to be available for legal reference and for the study of diseases.

The Bureau is under the Department of the Secretary of State. E. M. Hunt, M.D., as Medical Superintendent of Vital Statistics, has oversight and direction so far as the returns are to be studied and classified in the interests of health and for the welfare of the population.

The indexing and transcription of records is in charge of Dallas Reeve, as Register.

The returns for the year from July 1st, 1880, to July 1st, 1881, are hereto appended.

NEW JERSEY AGRICULTURAL EXPERIMENT STATION.

Established by the Legislature of 1880, and located on the grounds of Rutgers College, New Brunswick.

Board of Managers—Governor George C. Ludlow, Trenton; President, W. H. Campbell, D.D., New Brunswick; Thomas H. Dudley, Camden, (President); I. M. Smalley, Roadstown; William Parry, Cinnaminson; William S. Taylor, Burlington; Collin B. Meirs, Cream Ridge; James Neilson, New Brunswick, Secretary and Treasurer; Caleb Wyckoff, Belvidere; John DeMott, Middlebush; Rev. John F. Robinson, Paterson; Cornelius A. Wortendyke, Wortendyke; William M. Force, Newark; P. T. Quinn, Newark; Abm. W. Duryee, New Durham; James Stevens, Jersey City; George H. Cook, Director; Arthur T. Neale, Chemist.

It is established to promote agricultural improvement by scientific investigation and experiment. It has a chemist, laboratory, and apparatus for analyzing fertilizers, soils, food and agricultural products, and is intended to supply information respecting seeds, insects and objects which require the apparatus and work of men devoted to special branches of science. During the last year it has analyzed one hundred and sixty samples of fertilizers, forty-five samples of fodders, &c.; it has carried on numerous feeding experiments, and field experiments of fertilizers on Indian corn and sorghum. The results of work are circulated in the form of printed bulletins to every newspaper in the State, and to about fifteen hundred farmers, and to all farmers in the State applying for them. It has already proved itself of much value to the farming community, and is constantly increasing its facilities for rendering useful assistance to this branch of industry.

GEOLOGICAL SURVEY OF NEW JERSEY.

This work was authorized by the Legislature of 1864 (See *Revision of Laws*, page 1137,) and has been continued since by various supplements. It is intended to continue the surveys begun by Prof. H. D. Rodgers, 1836-40, and those of Dr. Wm. Kittell, 1854-56.

Its Board of Managers are: His Excellency George C. Ludlow, Governor, *ex-officio* President of Board, Chas. E. Elmer, Esq., Bridgeton; Hon. Wm. Parry, Cinnaminson; Hon. H. S. Little, Trenton; Henry Aitken, Esq., Elizabeth; John Vought, M.D., Freehold; Selden T. Scranton, Esq., Oxford; Hon. Thomas Lawrence, Hamburg; Hon. Aug. W. Cutler, Morristown; Col. Benjamin Ayerigg, Passaic; Wm. M. Force, Esq., Newark; Thos. T. Kinney, Esq., Newark; Benj. G. Clarke, Esq., Jersey City; Wm. W. Shippen, Esq., Hoboken.

State Geologist, George H. Cook, New Brunswick; Assistant Geologist, John C. Smock, New Brunswick.

The Survey has published "Geology of New Jersey," pp. xxiv, and 899, 8vo, 1868, with portfolio of maps; Report on the Clay Deposits, pp. viii, and 381, 8vo, 1878, with map, and Annual Reports from 1869 to 1881, together with various geological and geographical maps, and a topographical map of Northeastern New Jersey, the first of a series which is designed to cover the whole State.

The Survey has also published "A Preliminary Catalogue of the Flora of New Jersey." Compiled by N. L. Britton, Ph.D.

Its objects are to develop and make known the natural products, resources and advantages of the State. It has prepared maps to show its geography, its internal improvements, its water-power, drainage, and distribution of its agricultural lands. It has published descriptions of its iron mines, zinc mines, lime stones, building stones, marls, clays, glass sands, &c., with maps showing their locations. It has published, in report for 1881, surveys for water supply and accounts of wells. It has collated and published all the meteorological observations made in the State. It has joined to its scientific geology whatever of economic importance may attach to it.

The Museum of the Survey occupies the entire front of the third-story of the State House, at Trenton. It is designed to be an exhibition of some of the results of the work of the Survey. There are in it collections of representative specimens from the mines of iron, zinc, and copper ores; from the fire-clay banks; from the glass-sand pits; from the green-sand marl diggings; from the quarries of limestone, slate, flagging stone and building stone; and soils from the different agricultural districts of the State. Suites of rocks and fossils, characteristic of the geological formations, illustrate the geology of the State. There is a small collection of the more common minerals, and a few choice specimens of rarer species. The woods of the State are represented by about one hundred varieties. In addition to these natural products, there are fire-brick, pottery and glass wares, zinc oxide, spelter and irons from works in the State.

AGRICULTURAL COLLEGE OF NEW JERSEY.

This institution is located at New Brunswick, and is part of Rutgers Scientific School. It is in charge of the Trustees of Rutgers College and of a Board of Visitors appointed by the Governor and Senate. The U. S. Congress of 1862 appropriated scrip for public lands, to the endowment and support of "colleges where the leading object shall be, without excluding other scientific and classical studies, and including military tactics, to teach such branches of learning as are related to agriculture and the mechanic arts, in such manner as the Legislatures of the States may respectively prescribe, in order to promote the liberal and practical education of the industrial classes in the several pursuits and professions in life." The scrip appropriated was sold by the State, and the fund accruing, \$116,000, is held by the State, and the annual interest, amounting to \$6,960, is appropriated exclusively to the payment of professors' salaries in the Agricultural College. The Trustees of Rutgers College provided from their own resources buildings, laboratories, apparatus, an experimental farm of one hundred acres, and all necessary appliances.

The State receives forty scholarships in the institution free of tuition. These scholarships are open to all the counties in proportion to their population, and students are appointed to them on recommendation of a County Superintendent of Schools. Twenty-seven of these scholarships are now filled, and there are thirteen vacancies.

Rev. Wm. H. Campbell, D.D., LL.D., President.

Prof. Isaac E. Hasbrouck, Secretary of the Faculty.

Synopsis of the Public School System.

1st. The State Board of Education consists of the Trustees of the School Fund and the Trustees of the State Normal School, and the Treasurer thereof. It has power to prescribe rules for enforcing the school law; to appoint State and County Superintendents, and to decide appeals from decisions of State Superintendent. 2d. State Superintendent is elected for three years. He decides all disputes under school law, subject to appeal; apportions school funds, and has general oversight of the schools. He is *ex-officio* Secretary of the Board of Education. 3d. County Superintendents hold office for three years; apportion school money to the districts; license teachers, and decide disputes under school law, subject to appeal. 4th. School Trustees are elected for three years. Each Board consists of three Trustees, one of whom is District Clerk. They employ teachers, janitors, &c., and fix their salaries. The District Clerk takes the school census. 5th. The Trustees of the School Fund are the Governor, President of Senate, Speaker of House of Assembly, Attorney-General, Secretary of State, and Comptroller. All receipts from lands under water and from tax on banking and insurance companies are invested by them, and form a permanent fund. From the income of this fund \$100,000 annually is appropriated for the schools. 6th. The interest from the surplus revenue is appropriated to the support of the schools. 7th. In addition to the State school tax, the townships and districts are authorized to raise special school tax. All moneys derived from State, county and township sources, except twenty dollars for incidentals, must be used for teachers' salaries and fuel. 8th. Teachers must hold a State or county certificate to entitle them to teach. 9th. The school census includes all children between five and eighteen years of age. 10th. Each district must maintain school for at least nine months;

to entitle it to a share of school money. 11th. State certificates are granted by the State Superintendent and Principal of the Normal School. They are of three grades—first, good for life; second, for ten years; third, for seven years. County certificates are granted by the county examiners, consisting of the County Superintendent and three others appointed by him. Quarterly examinations are held, and three grades of certificates granted—first, good for five years; second, for three years; third, for one year. 12th. Institutes are held annually in each county. By a rule of the State Board of Education, all teachers are required to attend. 13th. Any district raising twenty dollars by subscription or entertainment is entitled to a like sum from the State for establishing a school library, or for the purchase of apparatus, and ten dollars annually thereafter on the same condition. 14th. No teacher is allowed to inflict corporal punishment.

All children must attend school for twelve weeks consecutively, in each year, or be taught at home for the same period.

By an act of the Legislature passed last Winter, the State school tax was changed from a rate tax to a per capita tax. Under the old law, the rate (two mills) was fixed, and the receipts varied; under the new, the revenue (\$4.00 per child) is fixed, and the rate will vary. Heretofore the apportionment has been made on the basis of the school census. Owing to the lack of uniformity in the rating of property in the several counties, some counties paid more than was equitable and just, and others received a larger sum in excess of the amount raised than they were justly entitled to. The new law provides that each county shall receive ninety per cent. of the amount it raises, so that no county can pay more than ten per cent. for the benefit of other counties. Ten per cent. of the total school tax is called the Reserve Fund, and is apportioned among the several counties by the State Board of Education as they deem equitable and just. This provision renders it possible to correct, to a certain extent, whatever injustice may arise from unequal rating of property, without crippling the schools in the poorer counties. By the same law it is provided that no district having forty-five children or over shall receive less than \$350.00, and that districts having less than forty-five children shall receive \$200.00 each.

STATE NORMAL AND MODEL SCHOOLS.

The officers and teachers of these institutions remain the same as last year.

Two hundred and thirty-six pupils attended the Normal School last year, with an average attendance of one hundred and eighty-four.

In the Model School there were in attendance during the year three hundred and fifty-three, with an average attendance of two hundred and eighty-three.

The attendance in all the schools this year is much larger than last.

There are at present about two hundred and seventy-five boarders in the boarding halls connected with these schools.

New Jersey may well be proud of one of the foremost institutions of learning, not only in the State, but in the whole country.

The State deals generously with these schools, and they are endeavoring to prove themselves worthy of their position.

FINANCIAL CONDITION.

By an act of the Legislature, these institutions are entirely free from debt.

STATE LIBRARY.

JAMES S. McDANOLDS, Librarian.

The Library apartment is situate on the second floor of the State Capitol, at the southerly end of the building, and is 90 feet long by 45 feet in breadth. It has a gallery running round the apartment, on which, in cases arranged in alcoves, are the miscellaneous and government publications. The main floor is devoted to legal text books, reports, digests, &c.

The report of the State Librarian presents the following facts and recommendations :

The total additions during the year were 931 volumes, and the number of books at last report 26,742. There were 289 volumes of novels, &c., sent to the State Prison, which makes the total number of volumes now in library 27,384.

The librarian says: "The appropriation made for the library by the last Legislature was for one year only. I would suggest the necessity of an annual appropriation sufficient to purchase all needed books. There are still many books needed to make the law library what it should be, while the miscellaneous library is very deficient, particularly in reference works and in the county and town history of this State. People often come from a distance to consult some local or family history, expecting to find here everything published in regard to the history or genealogy of our State. There are a number of county and town histories that are now out of print and becoming scarce, but could be obtained yet with but little trouble, while others are being constantly published. I would respectfully suggest that one volume of every book published relating to the history of the State, if it could be purchased, should be placed in the State Library."

Capt. McDanolds was appointed Librarian January 21st, 1872, and at the expiration of that term, no joint meeting being held, he held over for one year, when, on January 26th, 1876, he was re-appointed for another term of three years. In 1878, the law was changed, so that the Commissioners of the State Library had the appointing power, and in November of that year he was re-appointed for a term of five years, which commenced January 21st, 1879.

STATE FISH COMMISSION.

New Jersey was among the first States in the Union to appreciate the advantages of scientific fish culture, and while many of the States were hesitating as to the adoption of the methods of increasing the supply of food fishes, which has proved so eminently successful under the fostering care of European nations, our State established a Board of Commissioners, and made appropriations with a view to utilizing the many natural advantages which she possessed.

The first Commissioners were appointed in 1870; Dr. John H. Slack, an eminent naturalist and fish culturist being placed at the head of the commission. Since that time the work of propagating food fishes and stocking the depleted waters of the State has been prosecuted with vigor and energy. Especial attention has been given to the effort to increase the shad supply in the Delaware river, and the operations of the commission have been followed by the most marked and gratifying success. Much attention has also

been given to the effort to make the Delaware a salmon-producing stream, and in this the State Commissioners have received the hearty co-operation of the United States Fish Commissioner, who is a profound believer in the ultimate success of the experiments.

But the work of the State Fish Commission, in which our citizens are most deeply interested, is the propagation of food fishes in the inland waters of the State, and to this the energies of the Commissioners have been largely devoted. During the past year there have been distributed in the waters of the State more than half a million salmon fry, a quarter of a million young trout, over one hundred thousand white fish, and (to the lakes and ponds of the State) sixteen thousand black bass. All of these are fish practically new to the waters of the State, and as they have been placed in waters particularly adapted to the several species, their influence must be felt in a few years in the increase of the food supply.

The power of the Commissioners to continue the work depends wholly upon legislative action, as there is no permanent appropriation for these purposes, and the operations of the Commission may be brought to a stand-still at any time by the failure of the Legislature to provide the necessary means to carry it on.

The present Commissioners are Dr. Benj. P. Howell, Woodbury; Major E. J. Anderson, Trenton, and Theodore Morford, Esq., Newton. A list of the Fish Wardens of the several counties is given below.

FISH WARDENS—(Term of office, three years.)

Atlantic, Andrew J. Rider; Bergen, George Ricardo, Wheeler W. Phillips; Burlington, Levi French; Camden, Joseph W. Ore; Cape May, Edwin F. Westcott; Cumberland, James P. Logue; Essex, Lambert Speer; Hunterdon, Andrew J. Scarborough; Mercer, Joseph Ashmore; Middlesex, Cornelius W. Castner; Monmouth, William I. Conover; Morris, M. S. Gregory; Ocean, George W. Irons, John Russell; Passaic, Elias Sindle; Salem, James S. Hannah, William Lawrence; Somerset, John S. Bishop; Sussex, Obadiah Bevins; Warren, John C. Kitchen.

STATE PRISON.

The report of this institution for the year ending October 31st, 1881, shows the following: Convicts remaining on November 1st, 1880, 836; received during the year, 438; discharged by reason of expiration of terms of sentence, pardon, died, etc., 461; remaining on October 31st, 1881, 803. The maximum number of convicts was 844 on Nov. 17th, 1880. The minimum number was, on Sept. 29th, 1881, 763. The daily average in 1880 was 830, and in 1881 it was 794—an average decrease of 36.

The cost for maintenance of the convicts per capita was 9.01 cents per day; per annum, \$33.25; including clothing, &c., per day, it was 17.07 cents; per annum, \$64.69. The total cost for each convict per capita per day was 41.03 cents, or \$150.62 per annum. This includes officers' salaries, necessary repairs and moneys paid to convicts when discharged. There has been an increase of three mills per day for the maintenance of each convict, caused by the higher price of sustenance, &c. The earnings of each convict is shown to

have been \$63.86 against \$82.62 last year. This was caused by the enforced idleness of the prisoners, owing to the act of last Winter limiting the number of men who could be engaged at any one branch of industry at one time to 100, and the expiration of the contracts of the contractors. On October 31st, 1881, there were 775 male and 28 female convicts in the Prison. The male convicts were engaged as follows: Laundry contract, 100; shirts contract, 100; shoe contract, 100; collar contract, 100; paper box contract, 50, and whip contract, 45. Total, 495. The balance are old and infirm, in hospital, employed about the prison, and idle confined in their cells. Total balance, 280. The female convicts are employed in making and repairing clothing for the prisoners.

During the past year the discipline of the prison has been fully maintained, and the shops have been altered to accommodate the new industries. Keeper Laverty calls the attention of the Governor to the fact that in a short time more shop facilities will be urgently needed, and says that if there were more facilities convicts who are now incapacitated from work could be employed.

There have been no escapes from the institution during the past year, and the punishments, according to the Inspectors' report, have been modified, and are less frequent than heretofore.
