(b) For purposes of the Gross Income Tax Act, a sole proprietorship, which shall include self-employed individuals and independent contractors, is a form of business in which one taxpayer owns all the assets of a business and which is not a partnership or corporation. A single member limited liability company whose member is an individual, estate, or trust shall be treated as a sole proprietorship, unless classified otherwise for Federal tax purposes. Sole proprietors shall report their income or loss as net profits from business.

(c) A taxpayer's net profits from business shall be determined by taking into account all income of the taxpayer derived from the conduct of a business, profession or any other activity intended to produce income, provided such activity qualifies for and reports as a trade or business for Federal income tax purposes. All income attributable to the taxpayer's conduct of a trade or business, reduced by costs and expenses as provided in (d) below, shall be taken into account in determining the taxpayer's net profits from business. All other income of the taxpayer subject to gross income tax that is not attributable to the conduct of a trade or business shall be included in one or more of the other categories of gross income specified in N.J.S.A. 54A:5-1 according to its character and shall not be includable in the category of income "net profits from business." The determination of whether income is derived from the conduct of a trade, business or profession shall be based upon an examination of facts and circumstances of the taxpayer's activities.

The taxpayer shall annex to the taxpayer's return a statement demonstrating that the interest or dividends were realized in the conduct of the trade or business. Interest and dividends from investment activities or other income-producing activities which do not constitute the conduct of a trade or business shall be separately stated on the taxpayer's return and taxed either as interest described in N.J.S.A. 54A:5-1e or dividends described in N.J.S.A. 54A:5-1f.

3. Rental income derived by a taxpayer in the conduct of a trade or business shall be taken into account in determining a taxpayer's net profits from business. Rental income of a taxpayer which is not received in the conduct of a trade or business shall be taken into account in determining the taxpayer's net gains or net income from rents, royalties, patents and copyrights described in N.J.S.A. 54A:5-1d.
