#### Case Notes

Casino Control Act does not confer private cause of action in favor of losing players. *Miller v. Zoby*, 250 N.J.Super. 568, 595 A.2d 1104 (A.D.1991), certification denied 606 A.2d 366, 127 N.J. 553.

Credit transaction may not be bifurcated with casino personnel receiving payment of counter check at off-site location and counter check then being released when funds are received at cashiers' cage. *Petition of Adamar of New Jersey, Inc.*, 222 N.J.Super. 464, 537 A.2d 704 (A.D.1988).

Commission need not accept relationship between casino applicant and parent company in licensing determination; licensing requirement of "meaningful contribution" to training program invalid as vague and as improper rulemaking. In re *Application of Playboy-Elsinore Associates*, 203 N.J.Super. 477 (App.Div.1985).

No "state action" involved in search of casino patron and drug seizure; implication of exclusionary rule. *State v. Sanders*, 185 N.J.Super. 258 (App.Div.1982).

Violations; corporate responsibility; penalties. *Div. of Gaming Enforcement v. Sterr*, 8 N.J.A.R. 449 (1986).

#### 19:45-1.11A Jobs compendium submission

(a) Each applicant for a casino license shall, pursuant to N.J.S.A. 5:12-70j and 99a(2) and (3), prepare and maintain a jobs compendium consistent with the requirements of this section detailing job descriptions and lines of authority for all personnel engaged in the operation of the hotel, casino and casino simulcasting facility. Unless otherwise directed by the Commission, a jobs compendium shall be submitted to the Commission for approval at least six months prior to the projected date of issuance of a certificate of operation. The Commission shall review each jobs compendium and shall determine whether the job descriptions and tables of organization contained therein conform to the licensing or registration and chain-of-command requirements of the Act and the Commission's regulations. If the Commission finds

any insufficiencies, it shall specify the same in writing to the casino license applicant, who shall make appropriate alterations. When the Commission determines a submission to be adequate with respect to licensing or registration and chain-of-command, it shall notify the casino license applicant accordingly. No casino licensee shall commence gaming operations unless and until its jobs compendium is approved by the Commission.

(b) A jobs compendium shall include the following sections, in the order listed:

1. An alphabetical table of contents listing the position title and job code for each job description included in (b)3 below and the page number on which the corresponding job description may be found;

Each page of a table of organization shall specify the following:

i. The date of its submission;

ii. The date of the previously submitted table of organization which it supersedes; and

iii. A unique title or other identifying designation for that table of organization.

3. A description of each employee position which accurately corresponds to the position title as listed in the table of organization and in the alphabetical table of contents. Each position description shall be contained on a separate page, organized by departments or divisions, and shall include, at a minimum, the following:

i. Position title and corresponding department;

ii. Salary range;

iii. Job duties and responsibilities;

iv. Detailed descriptions of experiential or educational requirements;

v. Projected number of employees in the position;

vi. Equal employment opportunity class or subclass;

vii. Proposed registration or license rank consistent with the requirements of the Act and the Commission's rules;

viii. The date of submission of each employee position job description and the date of any prior job description it supersedes; and

ix. The date of submission and page number of each table of organization on which the employee position title is included.

(c) Except as otherwise provided in (d) below, any amendment to a previously approved jobs compendium,

including any amendment to a table of organization, may be implemented by the casino licensee without the prior approval of the Commission, provided that:

1. The amendment is immediately recorded in the jobs compendium maintained by the licensee on its premises; and

2. The amendment is submitted to the Commission by the end of the business day on the date of implementation, including at a minimum, the following:

i. A detailed cover letter listing by department each position title to which modifications have been made, a brief summary of each change, instructions regarding any changes in page numbers and the date of implementation; and

ii. The proposed changes to the information required by (b) above, including the corresponding job descriptions and tables of organization, contained on pages which may be used to substitute for those sections of the jobs compendium previously approved by the Commission.

(d) A casino licensee shall not be required to comply with the filing requirements of (c) above for amendments to job descriptions for the following positions:

1. Positions which do not require a license or registration;

2. Positions which require a casino service employee registration, provided that the casino licensee files with the commission a notice of any addition, deletion or amendment to any position that requires casino service employee registration. Such notice shall include the title, department, job code, salary grade and table of organization on which that position is identified.

(e) Notwithstanding any other requirement of this section, each casino shall submit a complete and up-to-date jobs compendium in accordance with (a) above to the Commission 18 months after its receipt of a certificate of operation and every two years thereafter, unless otherwise directed by the Commission.

(f) Each casino licensee shall maintain on its premises a complete, updated copy of its jobs compendium which shall be made available for review upon the request of the Division or the Commission.

(g) Whenever required by this section, a casino licensee shall file three copies of a jobs compendium and three copies of an amendment to a jobs compendium with the Commission. A casino license applicant shall file four copies of a jobs compendium with the Commission and one copy with the Division. Each copy shall be in a format prescribed by the Commission, including a cover indicating the name of the casino licensee or applicant, the date of the submission and the label "Jobs Compendium Submission" or "Jobs Compendium Amendment" as appropriate.

(h) Each casino licensee shall submit to the Commission a list of employees who have received compensation of \$100,000 or more, including salary, bonuses, incentives, profit sharing or any other compensation as indicated on the employees' annual Internal Revenue Service Form W-2. Such list shall be submitted to the Commission by March 31 for the preceding tax year and shall include the following for each employee listed:

1. The name of the employee;

2. The license or casino service employee registration number, if applicable;

3. The position of the employee and the corresponding job code for such position;

4. The total amount of compensation received by the employee; and

5. Each form of compensation received, such as salary, bonuses, incentives or profit sharing, and the amount thereof.

#### 19:45-1.32 Count room; characteristics

(a) Except as provided in (d) below, each casino licensee shall have immediately adjacent to the cashier's cage a room, to be known as the "count room," specifically designated, designed and used for counting the contents of drop boxes, slot cash storage boxes, slot drop buckets and slot drop boxes.

(b) The count room shall be designed and constructed to provide maximum security for the materials housed therein and for the activities conducted therein. Each casino licensee shall design and construct a count room with, at a minimum, the following security measures:

1. A metal door installed on each entrance and exit;
2. Each entrance and exit door shall be equipped with:
  - i. Two separate locks;
  - ii. An alarm device, approved by the Commission, which audibly signals the monitoring rooms required by N.J.A.C. 19:45-1.10 and the casino security department whenever a door to the count room is opened at times other than those times for which the casino licensee has provided prior notice pursuant to N.J.A.C. 19:45-1.33(b) or 1.43(b); and

- iii. A light system, approved by the Commission, which illuminates one or more lights in the monitoring rooms required by N.J.A.C. 19:45-1.10, at each count room door, and at such other locations as the Commission may require, for purposes of maintaining constant surveillance on whether each count room door is open or closed;
3. Each lock required by (b)2i above shall be controlled by a key which is different from:
- i. The key to the other lock on that door;
  - ii. The keys to the locks securing the contents of each drop box, slot cash storage box, and slot drop box; and

- iii. The keys to the locks of each slot drop bucket compartment;
4. The key to one of the locks required by (b)2i above shall be maintained and controlled by the casino security department in a secure area within the casino security department, access to which may be gained only by a security supervisor, and the key to the other lock shall be maintained and controlled by a Commission inspector; and
5. The casino security department shall establish a sign-out procedure for all keys removed from the security department.

iii. Audio-video taping of the entire count process and any other activities in the count room.

(d) Each casino licensee may count the contents of slot drop buckets and slot drop boxes in a different room, to be known as the "hard count room," from that used for counting the contents of drop boxes and slot cash storage boxes, in which event the latter room shall be known as the "soft count room." In all other respects the hard count room shall comply with the requirements of this section, except that the hard count room need not contain the audio equipment required by (c)2i and (c)2iii above. In addition, the hard count room shall contain a fixed-door type or hand-held metal detector to inspect all persons exiting the hard count room.

(e) In addition to the light system required by (b)2iii above, each hard count room shall contain a separate light system or other device approved by the Commission which shall provide a continuous visual signal at the count room door, the Commission booth and such other locations as the Commission may require whenever any access door to the count room is open while the system is activated. The light system or device shall:

1. Maintain the visual signal until the system is reset or deactivated; and

2. Be designed so as to permit its activation, deactivation or resetting only by the Commission.

**19:45-1.33 Procedure for opening, counting and recording contents of drop boxes and slot cash storage boxes and the recording of keno revenue**

(a) The contents of the drop boxes and slot cash storage boxes shall be counted and recorded in the count room in conformity with this section.

(b) Each casino licensee shall place on file with the Commission and the Division the specific times during which the contents of drop boxes removed from gaming tables and contents of slot cash storage boxes are to be counted and recorded. Slot cash storage boxes shall be removed from bill changers in accordance with N.J.A.C. 19:45-1.42(a) and shall be counted and recorded, at a minimum, once a week. Drop boxes shall be removed from gaming tables and counted and recorded, at a minimum, once each gaming day, provided, however, a drop box need not be so removed if:

1. The drop box is from a gaming table that was never opened for gaming on that gaming day pursuant to N.J.A.C. 19:45-1.21; and

2. The casino licensee has established internal control procedures, as approved by the Commission, which ensure that the casino security department knows which drop boxes to collect and the count room supervisor knows which drop boxes should be counted.

(c) The opening, counting, and recording of the contents of drop boxes and slot cash storage boxes (the "soft count") shall be performed in the presence of a Commission inspector and a casino key employee who shall be referred to herein as a count room supervisor. The soft count shall be performed by at least three employees ("count team"), which may include the count room supervisor. To gain entrance to the count room, the Commission inspector shall present an official identification card containing his or her photograph issued by the Commission.

(d) All persons present in the count room during the counting process, except representatives of the Commission and the Division, shall wear as outer garments, only a full-length, one-piece pocketless garment with openings only for the arms, feet, and neck.

(e) No person present shall:

1. Carry a pocketbook or other container unless it is transparent; or

2. Remove his or her hands from or return them to a position on or above the count table unless the backs and palms of his or her hands are first held straight out and exposed to the view of other members of the count team and the closed circuit television camera.

(f) Immediately prior to the commencement of the count:

1. The doors to the count room shall be securely locked;

2. A count team member shall notify a person assigned to the closed circuit television monitoring station in the establishment that the count is about to begin, after which such person shall make an audio-video recording, with the time and date inserted thereon, of the entire counting process, which recording shall be retained by the surveillance department for at least five days from the date of recordation unless otherwise directed by the Commission or the Division; and

3. The count room supervisor or his or her supervisor shall notify the Commission inspector, in writing, of the name and Commission license number of each person who shall participate in the counting process and whether each such individual is scheduled to:

i. Be present in the count room during the entire counting process;

ii. Enter the count room during the counting process; or

iii. Leave the count room prior to the conclusion of the counting process.

(g) No person shall be permitted to enter or leave the count room during the counting process, except in an emergency, unless his or her name is on the written notice required by (f) above.

1. If a casino licensee permits a member of the count team to enter or leave the count room during the counting process, any employee remaining in the count room shall be required to display his or her hands in accordance with (e) above and to step away from the count table until the count team member has entered or left the count room.

2. The counting and recording process shall be discontinued whenever less than three count team members are present in the count room.

3. Once the counting process has been started, the count room supervisor shall be required to notify the closed circuit television monitoring room whenever a count room door will be opened.

(h) Procedures and requirements for conducting the count shall be as follows:

1. As each drop box or slot cash storage box is placed on the count table, one count team member shall verbalize, in a tone of voice to be heard by all persons present and to be recorded by the audio recording device, the game, table number, and shift marked thereon for drop boxes, or the asset or unique identification number marked thereon for slot cash storage boxes;

2. In full view of the closed circuit television cameras located in the count room, the contents of each drop box or slot cash storage box shall be emptied on the count table and either manually counted separately on the count table or counted on a currency or coupon counting machine which has been approved by the Commission and is located in a conspicuous location on, near or adjacent to the count table;

3. Immediately after the contents of a drop box or slot cash storage box are emptied onto the count table, the inside of the drop box or slot cash storage box shall be held up to the full view of a closed circuit television camera and shall be shown to the Commission inspector to assure all contents of the drop box or slot cash storage box have been removed, after which the drop box or slot cash storage box shall be locked and placed in the storage area for drop boxes or slot cash storage boxes;

4. The contents of each drop box or slot cash storage box shall be segregated by a count team member into separate stacks on the count table by each denomination of coin, currency and coupon, and by type of form, record or document, except that the Commission may permit the utilization of a machine to sort currency or coupons automatically by denomination;

5. Each denomination of coin, currency and coupon shall be counted separately by one count team member who shall place individual bills, coins and coupons of the same denomination on the count table in full view of a closed circuit television camera, after which the coin, currency and coupons shall be counted by a second count team member who is unaware of the result of the original count and who, after completing this count, shall confirm the accuracy of the total, either verbally or in writing, with that reached by the first count team member, except that the Commission may permit a casino licensee to perform aggregate counts by denomination of all currency and coupons collected in substitution of the second count by drop box or slot cash storage box, if the Commission is satisfied that the original counts are being performed automatically by a machine that counts and automatically records the amount of currency or coupons, and that the accuracy of the machine has been suitably tested and proven. The Commission will permit the utilization of currency and coupon counting machines if prior to the start of the first use of the counting machine each gaming day, except for (h)5i and ii below, which shall be performed prior to each count, and except when a Commission inspector may direct the testing of an automatic counting machine prior to each count, in the presence of a Commission inspector, the count room supervisor shall:

i. Verify that the counting machine has a zero balance on its terminal unit display panel and has a receipt printed which denotes "-0- cash or coupons on hand" and "-0- notes or coupons in machine," or some other means to indicate that the machine has been cleared of all currency and coupons.

ii. Visually check the counting machine to be sure there are no bills or coupons remaining in the various compartments of the machine.

iii. Supervise a count team member who shall randomly select a drop box or slot cash storage box and place the entire contents of the drop box or slot cash storage box into the first counting machine, which shall count the currency or coupons by denomination and produce a print out of the total amount of currency or coupons by denomination. Any soiled or off-sorted bills or coupons shall be re-fed into the machine and manual adjustments made to the total. Coins or tokens shall also cause manual adjustments to be made to the total. The total as recorded on the counting machine and any adjustments thereto shall not be shown to anyone until completion of the final verification process.

iv. Supervise a second count team member, independent of the team member performing the initial count by machine, who shall manually count and summarize the currency and coupons of the drop box or slot cash storage box counted in (h)5iii above. The total shall be posted and maintained separately from the total posted in (h)5iii above. This total shall not be shown to anyone until completion of the final verification process.

v. Supervise the second count team member passing the currency or coupons to a count team member, who is unaware of the results of the manual count. The count team member shall count the contents of the drop box slot cash storage box counted in (h)5iii above using a second counting machine. Such machine shall produce a printout of the total amount of currency or coupons contained in the drop box or slot cash storage box. Any soiled or off-sorted bills or coupons shall be re-fed into the machine and manual adjustments made to the total. Coins or tokens shall also cause manual adjustments to be made to the total. The total as recorded on the counting machine and any adjustments thereto shall not be shown to anyone until completion of the final verification process.

vi. Following the completion of the test procedures, compare the totals from the test receipts of both counting machines, as computed in (h)5iii and (h)5v, to the manual total computed in (h)5iv. If the three totals compared above are in agreement, the count room supervisor will sign and date the test receipts and forward them to the Accounting Department at the end of the count process.

vii. If the three totals do not agree, appropriate repairs shall be made to the counting machine and the procedures in (h)5i through (h)5vi shall be repeated until all totals are in agreement. The Commission shall not permit the counting machine to be used until these totals are in agreement.

6. Any coupon deposited in a drop box or a slot cash storage box shall be counted and included in the calculation of table game win or loss in accordance with (h)8 below or on the slot win report, without regard to the validity of the coupon.

7. Any coupon which has not already been canceled upon acceptance or during the count shall be canceled prior to the conclusion of the count, in a manner approved by the Commission.

8. As the contents of each drop box are counted, a count team member shall manually record or cause a computer system to record, in a manner approved by the Commission, the following information on the Master Game Report or other supporting documentation by game and table number:

i. The amount of each denomination of currency counted;

ii. The amount of all denominations of currency counted;

iii. The amount of coin counted;

iv. The total amount of currency and coin counted;

v. The total amount of each denomination of coupons other than match play coupons;

vi. The total amount of all denominations of coupons other than match play coupons;

vii. The total amount of each denomination of match play coupons;

viii. 50 percent of the total amount of all denominations of match play coupons;

ix. The amount recorded on each document evidencing a credit card chip transaction;

x. The total of the amounts recorded on all documents evidencing credit card chip transactions;

xi. The amount recorded on each document evidencing a debit card chip transaction;

xii. The total of the amounts recorded on all documents evidencing debit card chip transactions;

xiii. The amount of the Opener;

xiv. The amount of the Closer;

xv. The serial number and amount of each Counter Check;

xvi. The amount of all Counter Checks counted;

- xvii. The serial number and amount of each Fill;
- xviii. The amount of all Fills;
- xix. The serial number and amount of each Credit;
- xx. The amount of all Credits;
- xxi. The table game win or loss or, for poker, the poker revenue; and
- xxii. The gaming date of the items being recorded and the date the Master Gaming Report is being prepared or generated.

9. After the contents of each drop box are counted and recorded, a member of the count team shall manually record or cause the computer to record on the Master Game Report, by game, the total amount of currency, coin and coupons, Table Inventory Slips, credit card chip transactions, debit card chip transactions, Counter Checks, Fills, and Credits counted, and win or loss, together with such additional information as may be required on the Master Game Report by the Commission or the casino licensee.

10. Notwithstanding the requirements of (h)8 and (h)9 above, if the casino licensee's system of internal controls provides for the recording on the Master Game Report or supporting documents of Fills, Credits, Counter Checks, documents that evidence credit card or debit card chip transactions, and Table Inventory Slips by cage cashiers prior to commencement of the count or includes a computerized system whereby all Fills, Credits, Counter Checks and Table Inventory Slips are entered into the system at the time of preparation, a count team member shall compare for agreement the totals of the amounts previously recorded or entered to the Fills, Credits, Counter Checks, the documents that evidence credit card or debit card chip transactions, and Table Inventory Slips removed from the drop boxes.

11. As the contents of each slot cash storage box are counted, a count team member shall manually record or cause a computer system to record, in a manner approved by the Commission, the following information on the Slot Cash Storage Box Report or supporting documentation:

- i. The asset number of the bill changer to which the slot cash storage box contents correspond or, if a casino licensee utilizes slot cash storage boxes with a unique identification number, the number shall be recorded along with the asset number of the slot machine;
- ii. The amount of each denomination of currency counted;
- iii. The amount of all denominations of currency counted;
- iv. The total amount of currency counted for each slot machine denomination;

v. The total dollar amount of each denomination of coupon;

vi. The total dollar amount of all denominations of coupons; and

vii. Any additional information as may be required on the Slot Cash Storage Box Report by the Commission.

12. Notwithstanding the requirements of (h)8, 9 and 11 above, if the casino licensee's system of internal controls provides for the count team functions to be comprised only of counting and recording currency, coin and coupons, accounting department employees shall perform all other counting, recording and comparing duties required by this section;

13. After preparation of the Master Game Report or Slot Cash Storage Box Report, the count team members performing the banking functions and the count room supervisor shall sign the reports attesting to the accuracy of the information recorded thereon. All other count team members shall either sign the Master Game Report or such other document as approved by the Commission as evidence of their participation in the counting of the drop boxes or slot cash storage boxes. Any person who, in accordance with (f) above, is scheduled to leave the count room prior to the completion of the entire count process, shall also record the time that he or she exited the count room. Any person who enters or leaves the count room due to an emergency shall sign, and record the time of the entry or exit on, the Master Game Report or such other document as approved by the Commission; except that, if the person exiting the count room is unable to sign the document due to the emergency, the count room supervisor shall record the person's name and time of exit and a notation describing the emergency on the document.

(i) After the contents of all drop boxes and all slot cash storage boxes have been counted:

1. All cash and coupons shall be presented in the count room by a count team member to a main bank cashier or cage supervisor who, prior to having access to the information recorded on the Master Game Report or the Slot Cash Storage Box Report and in the presence of a count team member and the Commission inspector, shall recount, either manually or mechanically, the cash and coupons presented and attest by signature on the Master Game Report and Slot Cash Storage Box Report, if applicable, the amounts of cash and coupons counted, after which the Commission inspector shall sign the report evidencing his or her presence during the count and the fact that both the cashier or cage supervisor and count team have agreed on the total amounts of cash and coupon counted. A casino licensee may, in its discretion, present the main bank cashier or cage supervisor with the cash and coupons obtained from the count of the drop boxes and the count of the slot cash storage boxes either:

i. At the same time, in which event the cash and coupons shall be presented immediately after both counts have been concluded; provided, however, that the casino licensee shall set forth in its approved system of internal controls the procedures for segregating and securing the cash and coupons from the first count that is concluded until presented to the main bank cashier or cage supervisor after the conclusion of the second count; or

ii. Separately, in which event the cash and coupons from each count shall be presented immediately after the conclusion of the count; provided, however, that if the cash and coupons from the first count that is concluded are presented while the second count is in progress:

(1) There shall be no cash or coupons on the count table from a box that has not already been counted at least once; and

(2) All count room employees shall be required to step away from the count table until the presentation is completed and the cash and coupons from the first count are removed from the count room.

2. The Master Game Report, after signing, and the Requests for Fills, the Fills, the Request for Credits, the Credits, the issuance copies of the Counter Checks, the Table Inventory Slips, the documents evidencing a credit or debit card chip transaction and the coupons removed from drop boxes shall be transported directly to the accounting department and shall not be available to any cashiers' cage personnel. All coupons shall be received and processed by the accounting department in the manner set forth in N.J.A.C. 19:45-1.46(l).

3. The Slot Cash Storage Box Report, after signing, and any coupons removed from the slot cash storage boxes shall be transported directly to the accounting department and shall not be available to any cashiers' cage personnel. The Accounting Department shall record the figures from the Slot Cash Storage Box Report on the Slot Win Report and calculate the total drop for that gaming day. All coupons shall be received and processed by the accounting department in the manner set forth in N.J.A.C. 19:45-1.46(l).

4. If the casino licensee's system of internal control does not provide for the forwarding from the cashiers' cage of the originals of the Fills, Credits, Requests for Credits, and the Requests for Fills, and the issuance copies of the Counter Checks, directly to the accounting department, the originals of all such slips recorded, or to be recorded, on the Master Game Report shall be transported from the count room directly to the accounting department.

(j) In addition to the procedures for conducting the count by the count team set forth under (h)4, 5 and 13 above, and the procedures for conducting the recount by a main bank

cashier or cage supervisor set forth under (i)1 above, in the event of a variance attributable to intermixed denominations of cash or coupons, an adjustment shall be made to the Master Game Report or Slot Cash Storage Box Report which shall reflect the amount, type (cash or coupon) and source (identified to a gaming table or slot machine) of such variance; however:

1. If the source of the variance is a gaming table and the gaming table to which the adjustment should be made can not be identified, the adjustment shall be deemed to be from the drop box of a predesignated blackjack table(s); or

2. If the source of the variance is a slot machine and the slot machine to which the adjustment should be made can not be identified, the adjustment shall be deemed to be from the slot cash storage box of a predesignated \$.25 slot machine(s) or a predesignated slot machine(s) with the lowest denomination counted that day.

(k) The originals and copies of the Master Game Report, the Slot Cash Storage Box Report, Counter Checks, the documents that evidence credit or debit card chip transactions, Requests for Fills, Fills, Request for Credits, Credits, Table Inventory Slips and the test receipts from the currency counting equipment shall, on a daily basis, in the accounting department be:

1. Compared for agreement with each other, on a test basis if the originals are received from the count room, by persons with no recording responsibilities and, if applicable, to triplicates or stored data;

2. Reviewed for the appropriate number and propriety of signatures on a tests basis;

3. Accounted for by series numbers, if applicable;

4. Tested for proper calculation, summarization, and recording;

5. Subsequently recorded; and

6. Maintained and controlled by the accounting department as a permanent accounting record.

(l) The keno computer system shall have the capability of generating a report which lists, by keno work station, the keno drop, total amount won by patrons and keno win or loss for each gaming day. This report shall be audited by a casino accounting department employee. Once the audit procedures have been completed, the casino accounting department employee shall sign the report and either attach the report to the Master Game Report for that gaming day or record the appropriate figures from the report onto the Master Game Report.

(m) If there is a difference between the keno win or loss as represented in the report referenced in (k) above and the figures reported as a result of the reconciliation of the keno drawer pursuant to N.J.A.C. 19:45-1.48(l), the casino licen-

see shall be required to pay gross revenue tax pursuant to N.J.S.A. 5:12-24 on the larger figure unless the casino licensee can adequately explain and document the reason for said difference. No adjustments to gross revenue shall be permitted without approval from the Commission.

(o) Accounting department employees with no incompatible functions shall, at least once a week on the same schedule filed pursuant to (a) above for the removal of slot drop buckets, or slot drop boxes and slot cash storage boxes, read and record on a Slot Meter Sheet the numbers on the in-meter, drop meter, jackpot meter, manual jackpot meter, cash box meter, if applicable, and coupon meters in accordance with internal controls approved by the Commission. In lieu of manual meter readings, a casino licensee may have a computer system, as approved by the Commission, record any of the required meter readings. The computer shall store in machine readable form all information required by this section and such stored data shall not be susceptible to change or removal by any personnel. If a bill changer does not contain a cash box meter pursuant to N.J.A.C. 19:45-1.37(e)1, a casino licensee shall be required to read and record or have a computer system record the bill meter readings each time the slot cash storage box is removed. Accounting department employees shall periodically read and record on a Slot Meter Sheet the numbers on the bill meters in accordance with a schedule established by the casino licensee and approved by the Commission, but in no event shall the casino licensee be required to read and record the bill meters more than once a week. These procedures shall be performed in conjunction with the removal and replacement of the slot drop box buckets, slot drop boxes or slot cash storage boxes prior to opening the slot machines for patron play. If a casino licensee is granted an extension to remove slot drop buckets or slot drop boxes pursuant to (a)1 above, the required meter readings for slot machines housing affected slot drop buckets or slot drop boxes shall be similarly extended. Upon expiration of the extension, the casino licensee shall resume its regular schedule for required meter readings.

(p) After preparation of the Slot Meter Sheet each employee involved with its preparation shall sign the Slot Meter Sheet attesting to the accuracy of the information contained thereon after which the sheet shall be forwarded directly to the accounting department for comparison to the Slot Win Sheet and calculation of slot machine statistics.

(q) Whenever there is a variance of more than two percent and more than \$25.00 between the total amount of cash and coupons removed from a bill changer's slot cash storage box and either the cash box meter reading and, if applicable, the value coupon meter reading that is recorded on the Slot Meter Sheet pursuant to (o) above or a reading from a computer system approved pursuant to N.J.A.C. 19:45-1.37(e)1 and, if applicable, (o) above, the casino licensee's casino accounting department shall be required to initiate an incident report and comply with the following procedures.

1. If the casino licensee uses casino accounting department employees to read and record meter readings manually and, pursuant to (o) above, the bill meters were not read when the slot cash storage box was removed for counting, a representative of the casino accounting de-

partment shall, either prior to or during the next scheduled removal of the slot cash storage box, read and record on the Slot Meter Sheet each of the bill meters and value coupon meter, and shall remove the slot cash storage box and count the contents in accordance with N.J.A.C. 19:45-1.33. The meter readings from the bill meters and value coupon meter shall be compared to the total amount of cash and coupons removed from the slot cash storage boxes for the period from the last date the meters were read.

2. If a variance exists, the casino licensee shall be required to have its slot department investigate the cause of the variance, if appropriate, and prepare and file an incident report documenting the variance with the casino controller, the director of surveillance, Commission and Division. The incident report shall be a report of all bill changers with reportable variances and shall be filed within three weeks from the completion of the weekly slot cash storage box pickup, provided, however, that the Commission may direct a shorter time frame for the filing of the report, if an expedited filing is considered necessary to protect the integrity of casino operations. The incident report shall include, at a minimum, the following for each bill changer with a reportable variance as well as the specified cumulative data:

- i. The date of the meter reading;
- ii. The date the report was filed;
- iii. The amount of the variance, by denomination;
- iv. The asset number of the bill changer involved;
- v. An indication as to the cause of the variance with any documentation attached to support the given explanation (for example, Unsecured Currency/Coupon Report);
- vi. An indication as to whether the bill meters or numerical coupon meter confirmed the variance, if applicable;
- vii. The manufacturer and model number of the slot machine to which the bill changer is attached or embedded;
- viii. The manufacturer of the bill changer involved;
- ix. The total number of reported variances by manufacturer and model number of the slot machine;
- x. The total number of reported variances by manufacturer of the bill changer;
- xi. The total number of reported variances compared to the total number of slot cash storage boxes counted; and
- xii. The signature and license number of the preparer.

(r) Unless otherwise authorized by the Commission, a casino licensee which has approval to read and record a bill

changer's meter readings with an approved computer system shall be required to read the bill changer's meter and coupon meters manually if 10 percent or more of the bill changers counted during the week have reported variances pursuant to (q) above for a period of three consecutive weeks. The manual meter readings shall continue until the Commission is satisfied that the computer system can accurately read and record the bill changer's meter readings.

#### 19:45-1.43 Procedure for counting and recording contents of slot drop buckets and slot drop boxes

(a) The opening, counting and recording of the contents of slot drop buckets and slot drop boxes (the "hard count") shall be performed in the count room required pursuant to N.J.A.C. 19:45-1.32 in the presence of a casino key employee who shall be referred to herein as a count room supervisor. The hard count shall be performed by at least three employees (the "count team"), which may include the count room supervisor. Except as otherwise provided in (i) below, the hard count shall be performed in the presence of a Commission inspector. To gain entrance to the count room, a Commission inspector shall present an official identification card issued by the Commission which contains his or her photograph.

(b) Except as otherwise provided in N.J.A.C. 19:45-1.42(c)3, the contents of slot drop buckets and slot drop boxes shall be counted and recorded immediately after removal from their slot machine compartments. If a casino licensee uses the phased collection and transfer procedures authorized by N.J.A.C. 19:45-1.42(c)3, the counting process set forth in (i) below may begin as soon as the slot drop buckets and slot drop boxes from any portion of the casino floor have been secured in the count room. Each casino licensee shall file with the Commission and the Division the specific times during which the contents of slot drop buckets and slot drop boxes shall be counted and recorded.

(c) All members of the count team present in the count room during the counting process shall be required to wear a full-length, one-piece, pocketless outer garment with no openings other than for the hands, feet and neck.

(d) No person shall carry a pocketbook or other container into the count room at any time unless it is transparent.

(e) All persons exiting the count room shall be inspected with a metal detector by a casino security department employee in the presence of a Commission inspector. The counting and recording process shall be discontinued and all coin and slot tokens shall be secured during any work break or emergency where the minimum number of count room personnel required by (a) above are not present or are not capable of performing their responsibilities.

(f) Immediately prior to opening and counting the contents of any slot drop bucket or slot drop box, the doors to the count room shall be securely locked. In addition, prior to opening and counting the first slot drop bucket or slot drop box of a hard count;

1. A count team member shall notify a surveillance department employee assigned to the closed circuit television monitoring room required by N.J.A.C. 19:45-1.10 that the count is about to begin; and

2. The count room supervisor or his or her supervisor shall notify the Commission inspector, in writing, of the name and Commission licensee number of each person who shall participate in the counting process and whether each such individual is scheduled to:
  - i. Be present in the count room during the entire counting process;
  - ii. Enter the count room during the counting process; or
  - iii. Leave the count room prior to the conclusion of the counting process.

(g) No person shall be permitted to enter or leave the count room during the counting process, except in an emergency, unless his or her name is on the written notice required by (f) above and a Commission inspector is present. Notwithstanding the foregoing, if a casino licensee uses the phased collection and transfer procedures authorized by N.J.A.C. 19:45-1.42(c)3, the names of the personnel required by N.J.A.C. 19:45-1.42(c)2 to transport and secure the collected slot drop buckets and slot drop boxes in the count room (the "collection team") shall not have to be included on the written notice required by (f) above if they enter the count room during the counting process solely for that purpose.

1. If, during the counting process, a casino licensee permits a member of the count team to enter or leave the count room or members of the collection team enter the count room pursuant to the phased collection and transfer procedure authorized by N.J.A.C. 19:45-1.42(c)3, any employee remaining in the count room shall be required to display his or her hands and move to a location away from any coin or slot token until the count team member has entered or left the count room or the transfer of the slot

drop boxes and slot drop buckets to the count room has been completed and the collection team has left the count room. All activity in the count room shall be discontinued during any period when a count team member is entering or exiting the count room or a transfer of slot drop boxes and slot drop buckets is taking place.

2. Once the counting process has been started, the count room supervisor shall be required to notify the closed circuit television monitoring room whenever a count room door will be opened, and if a casino licensee uses the phased collection and transfer procedures authorized by N.J.A.C. 19:45-1.42(c)3, when all slot drop buckets and slot drop boxes have been secured inside the count room.

3. The surveillance department shall monitor and make a video recording, with the time and date inserted thereon, of the entire hard count, including any entrance to or exit from the count room by any person during the hard count, any transfer of slot drop buckets or slot drop boxes to the count room conducted pursuant to N.J.A.C. 19:45-1.42(c)3, any storage of slot drop buckets or slot drop boxes in the staging area permitted by N.J.A.C. 19:45-1.42(c)3, and all metal detector inspections performed by casino security. The video recording shall be retained by the surveillance department for at least five days from the date of recordation unless otherwise directed by the Commission or the Division.

(h) No prize tokens, coins or slot tokens shall be removed from the count room after the commencement of the hard count until the hard count has been completed and the prize tokens, coins or slot tokens have been recounted and accepted by a main bank cashier or master coin bank cashier in accordance with (j)4 below.

(i) Procedures and requirements for conducting the hard count shall be as follows:

1. Prior to the first slot drop bucket or slot drop box being emptied and counted, employees of the casino licensee shall:
  - i. Check, in the presence of the Commission inspector, the accuracy of all weighing and counting equipment, with the exception of coin or slot token wrapping machines, to insure proper calibration for each denomination of coin and slot token;
  - ii. Complete and sign a calibration report; and
  - iii. Initiate the preparation of a Slot Win Sheet, on which shall be recorded the results of the hard count. The Slot Win Sheet shall be, at a minimum, a two-part form consisting of an original and a duplicate copy unless the casino licensee chooses, pursuant to (j)6 below, to make photocopies of the original Slot Win Sheet, in which case only an original shall be required. Each additional copy of a multi-part Slot Win Sheet shall be clearly labeled as a copy.

2. All slot tokens in denominations of \$25.00 or more shall be counted or weighed at the beginning of the hard count, in the presence of the Commission inspector. The casino licensee may count or weigh other denominations of coins or slot tokens at the same time, provided that the high denomination slot token count proceeds to completion without interruption, except as otherwise provided herein. The Commission inspector shall, independently of the casino licensee, record on a countdown sheet the total amount of each slot token in a denomination of \$25.00 or more which is counted or weighed. The inspector shall compare the totals on his or her countdown sheet with the amounts of those slot tokens recorded by the hard count team on the Slot Win Sheet, and verify that the amounts are in agreement and are correct, and if not, shall either satisfactorily account for any discrepancies, if possible, or document the incident and promptly report it to the Division. At the conclusion of the hard count, the inspector shall recompare the totals on the countdown sheet with the final totals determined by the casino licensee.

3. Before each slot drop bucket or slot drop box is emptied, one count team member shall hold it up in full view of the closed circuit television camera and the count team member recording the count so as to permit proper recording of the number contained thereon.

4. The contents of each slot drop bucket or slot drop box shall be emptied, counted and recorded separately and such procedures shall at all times be conducted in full view of the closed circuit television cameras located in the count room.

5. The contents of each slot drop bucket or slot drop box shall be emptied separately into either a machine that automatically counts the coins or slot tokens or a scale that automatically weighs the coin or slot tokens; provided, however, that any prize tokens or foreign slot tokens shall be manually counted and separately recorded on the Slot Win Sheet.

6. Immediately after the contents of each slot drop bucket or slot drop box are emptied into either the counting machine or scale, the inside of the slot drop bucket or slot drop box shall be held up to the full view of the closed circuit television camera and shall be shown to at least one other count team member and the Commission inspector, if present, to assure that all contents of the slot drop bucket or slot drop box have been removed.

7. As the contents of each slot drop bucket or slot drop box are counted by the counting machine or weighed by the scale, one member of the count team shall manually record or cause a computer system to record, in a manner approved by the Commission, the following information on the Slot Win Sheet or a supporting document:

i. The asset number of the slot machine to which the slot drop bucket or slot drop box contents corresponds, if not preprinted thereon;

ii. The number of coins or slot tokens, or the weight of the coins or slot tokens contained in the slot drop bucket or slot drop box; provided, however, that if the value of the coins or slot tokens is not converted into dollars and cents until after the counting process is completed, the conversion shall be calculated and the dollar value of the drop shall be entered by denomination on the Slot Win Sheet;

iii. The number and dollar value of each denomination of prize token issued by any casino licensee, and the total dollar value of all prize tokens issued by any casino licensee; and

iv. The number and dollar value of each denomination of foreign slot token and the total dollar value of all foreign slot tokens.

8. A Commission inspector may, at any time, require the accuracy of any weighing, wrapping or counting equipment, or the amount of any previously weighed, wrapped or counted coin or slot tokens, to be checked or rechecked.

9. After all slot tokens in denominations of \$25.00 or more have been counted, wrapped or placed in racks, and then secured in a manner approved by the Commission, the Commission inspector may leave the count room to perform other functions as required by the Commission. Upon leaving the count room, the inspector shall:

i. Notify the surveillance department of his or her departure; and

ii. Test and activate the light system or other approved device at the count room door required by N.J.A.C. 19:45-1.32(d).

10. No person shall enter or leave the count room during the hard count when a Commission inspector is not present except in an emergency.

11. After the contents of all the slot drop buckets and slot drop boxes are counted or weighed and recorded, each count team member shall sign the Slot Win Sheet or other document as approved by the Commission attesting to their involvement in the hard count. Any person who, in accordance with (f) above, is scheduled to leave the count room prior to the completion of the entire count process, shall also record the time that he or she exited the count room. Any person who enters or leaves the count room due to an emergency shall sign, and record the time of the entry or exit on, the Slot Win Sheet or such other document as approved by the Commission; except that, if the person exiting the count room is unable to sign the document due to the emergency, the count room supervisor shall record the person's name and time of exit and a notation describing the emergency on the document.

12. At the conclusion of the hard count, any slugs that have been found shall be presented to a main bank cashier or master coin bank cashier together with the duplicate Slug Report. The Slug Report shall be a three-part form, at a minimum, which shall include the date, the total number of slugs received, the signature of the preparer and the signature of the main bank cashier or master coin bank cashier who accepted receipt of the slugs from the hard count representative. The original Slug Report shall be delivered to the Commission and the triplicate shall be delivered to the Division's in-house office by the end of the gaming day. The duplicate Slug Report shall remain with the slugs until their destruction.

13. Each prize token issued by any casino licensee that is removed from a slot drop bucket or a slot drop box and counted pursuant to this section shall be counted, for purposes of calculating gross revenue pursuant to N.J.S.A. 5:12-24, as cash received by the casino licensee from gaming operations for the face amount of the prize token, and, notwithstanding the prohibition on prize tokens activating slot machine play, no adjustment to the amount recorded on the Slot Win Sheet in accordance with (i)7iii above shall be allowed.

(j) Procedures and requirements at the conclusion of the hard count shall be as follows:

1. Approximately 15 minutes prior to the end of the hard count, if a Commission inspector is not present, an inspector shall be notified that the hard count is about to be completed.

2. Upon reentering the count room, the Commission inspector shall:

i. Examine the light system or other approved device to ascertain whether any person has entered or exited the count room during the period of his or her absence, and if so, either satisfactorily account for those events, if possible, or document the incident and promptly report it to the Division; and

ii. Compare the original list of count team members with the persons present at the conclusion of the hard count, ascertain whether the identities of the persons in the count room remained unchanged during the hard count, and if not, either satisfactorily account for any changes in personnel, if possible, or document the incident and promptly report it to the Division.

3. At least one count team member shall sign the Slot Win Sheet attesting to the accuracy of the information recorded thereon.

4. Any prize tokens, foreign slot tokens, wrapped coins, wrapped slot tokens, bagged coins or bagged slot tokens removed from the slot drop buckets and slot drop boxes shall be recounted in the count room by a main bank cashier or master coin bank cashier, in the presence of a count team member and the Commission inspector, prior to the cashier having access to the information

recorded on the Slot Win Sheet. Any bagged coins or bagged slot tokens shall be recounted on a random sample basis as follows:

i. The main bank cashier or master coin bank cashier shall randomly select, at a minimum, 10 percent of all bagged coins and bagged slot tokens. The sample bags selected shall then be weighed by the cashier in the presence of a Commission inspector.

ii. If a discrepancy greater than plus or minus \$1.00 for any denomination of bagged coins or greater than plus or minus one token for bagged slot token denominations of \$25.00 and below is found during the weighing of a sample bag, then the sample bag shall be opened and recounted by a counting machine in the presence of the Commission inspector provided, however, for slot token denominations greater than \$25.00, any discrepancy shall require a recount. If more than one sample bag has a discrepancy and the problem cannot be resolved, then the Commission inspector may require that the scales be recalibrated and that all bagged coins and bagged slot tokens be recounted.

5. The inspector shall then compare the amounts of the slot tokens, foreign slot tokens and prize tokens listed on his or her countdown sheet with the amounts of each of those tokens shown on the Slot Win Sheet, and verify that the amounts are in agreement and are correct, and if not, either satisfactorily account for any discrepancies, if possible, or document the incident and promptly report it to the Division.

6. The cage cashier or master coin bank cashier shall then attest by signature on the Slot Win Sheet to the accuracy of the amount of coin, prize tokens, foreign slot tokens and slot tokens received from the slot machines. The inspector shall then sign the Slot Win Sheet evidencing the inspector's presence and the fact that the inspector, the cashier and count team have agreed on the total amount of coin, prize tokens, foreign slot tokens and slot tokens counted. Once the signatures required by (i)11 and (j)3 above and this paragraph have been recorded on the Slot Win Sheet, the duplicate copy or a photocopy of the original Slot Win Sheet shall be given to the inspector. A casino licensee's internal controls may, in the licensee's discretion, require that an additional copy of a multi-part Slot Win Sheet or another photocopy of the original Slot Win Sheet be given to the cage cashier or master coin bank cashier. Each photocopy of the original Slot Win Sheet shall be stamped with the word "copy" by the inspector prior to its distribution. The coins, prize tokens, foreign slot tokens and slot tokens thereafter shall remain in the custody of cage cashiers or master coin bank cashiers.

7. A casino security department employee, in the presence of the Commission inspector, shall:

i. Inspect all persons with a metal detector upon their exiting the count room; and

ii. Conduct a thorough inspection of the entire count room and all equipment located therein, for unsecured coins, foreign slot tokens, prize tokens and slot tokens.

8. The original Slot Win Sheet and any supporting documents shall be transported directly to the accounting department and shall not be available, except for signing, to any cashier's cage or slot personnel.

9. A casino accounting department employee shall complete the original Slot Win Sheet by recording the following information on the Slot Win Sheet or supporting documentation:

i. The total amount of coin, slot tokens, prize tokens, foreign slot tokens, currency and coupon drop for each slot machine;

ii. The total amount of coin, slot tokens, prize tokens, foreign slot tokens, currency and coupon drop, by denomination of slot machine and in total for all slot machines;

iii. The total amount of Hopper Fills to each slot machine and its corresponding hopper storage area;

iv. The total of all Hopper Fills, by denomination of slot machine and the total for all Hopper Fills;

v. The total amount of Jackpot Payouts for each slot machine;

vi. The total of all Jackpot Payouts, by denomination of slot machine and the total for all slot machines;

vii. The calculated win or loss and statistics for each slot machine; and

viii. The total calculated win or loss for each denomination of slot machine and for all slot machines.

10. The Jackpot Payouts and Hopper Fills shall be:

i. Compared for agreement with each other and, if applicable, to triplicates or stored data on a test basis;

ii. Reviewed for the appropriate number and propriety of signatures on a test basis;

iii. Accounted for by series numbers;

iv. Tested for proper calculation, summarization, and recording;

v. Subsequently recorded; and

vi. Maintained and controlled by accounting department employees.

11. The Slot Win Sheet shall be compared to the Slot Meter Sheet by a casino accounting department employee who shall:

i. Compare for agreement, for each slot machine, the number of coins or slot tokens counted and recorded by the count team to the drop meter reading recorded on the Slot Meter Sheet; provided, however, that the casino accounting department, in making the comparison, shall account for any prize tokens and foreign slot tokens that were counted pursuant to this section after being improperly accepted by the coin acceptor and diverted to the slot drop bucket or slot drop box;

ii. Compare for agreement, for each slot machine, Jackpot Payouts to the manual jackpot meter reading recorded on the Slot Meter Sheet; and

iii. Report all significant differences between meter readings and amounts recorded to the slot department for appropriate action.

#### 19:45-1.46 Procedure for control of coupon redemption and other complimentary distribution programs

(a) For the purposes of this chapter, a complimentary distribution program is a contest or promotion pursuant to which complimentary services or items are provided directly or indirectly by a casino licensee to the public without regard to the identity or level of gaming activity of the individual recipients. The procedures contained in (c) through (t) below shall apply to casino licensees offering coupon redemption complimentary distribution programs which entitle patrons to use match play coupons, or to redeem coupons for complimentary cash, gaming chips, slot tokens or simulcast wagers issued in connection with bus and other complimentary distribution programs. No match play coupons, complimentary cash, gaming chips or slot tokens may be distributed, or complimentary simulcast wagers accepted, by a casino licensee under any coupon redemption complimentary distribution program that does not comply with the requirements of this section. Detailed procedures controlling complimentary distribution programs regulated by (c) through (t) below shall be prepared prior to

implementation and maintained by the casino accounting department.

(b) Detailed procedures controlling all complimentary distribution programs entitling patrons to complimentary cash or slot tokens not regulated by (a) above shall be prepared prior to implementation of the programs and shall be maintained by the casino accounting department. Complimentary items or services, including cash, slot tokens or simulcast wagers, distributed through programs regulated by this subsection shall be reported in accordance with the procedures contained in (m) and (o) below.

(c) Each coupon or part thereof issued by a casino licensee directly or through an authorized vendor shall only be redeemable for a specific amount of cash, gaming chips, slot tokens or simulcast wagers.

(d) All coupons issued pursuant to this section shall contain a serial number and each series of coupons shall be issued in sequential order. Each coupon shall be printed with a description of what is being offered, the location where which it may be redeemed, and either a statement specifying the date on which the coupon becomes invalid or some other means to indicate the date when a coupon becomes invalid. If a coupon is of a type that is devisable into sections or is multipart, each such separate part or copy shall contain the information required by this subsection.

(e) The provisions of this subsection and (f) through (h) and (k) below shall only apply to coupons that will be distributed directly to patrons by a casino licensee. Coupons received by a casino licensee from a manufacturer or distributor or produced internally by the casino licensee pursuant to (t) below shall be opened and examined by at least one member of the accounting department. Any deviations between the invoice or control listing accompanying the coupons, the purchase or requisition order, and the actual coupons received shall be reported promptly to the supervisor of the casino accounting department or to a higher authority in a direct reporting line and the Internal Audit Department.

1. Upon examination of the coupons received, the casino licensee shall cause to be recorded in a Coupon Control Ledger the type and quantity of coupons received, the date of such receipt, the beginning serial number, the ending serial number, the new quantity of unissued coupons on hand, the purchase order or requisition number, any deviations between the number of coupons ordered and received and the signature of any individual who examined such coupons.

2. All unissued coupons shall be stored in a secured and locked area, controlled by an accounting department supervisor.

3. A representative from the accounting department shall prepare a monthly inventory of unissued coupons. Any deviations between the coupon inventory and the Coupon Control Ledger shall be reported to the Casino Controller or to a higher in a direct reporting line.

4. For purposes of this section, "accounting department" shall be deemed to refer to any accounting personnel employed by the casino licensee who report in a direct line to the supervisor of the casino accounting department.

(f) A representative of the casino licensee shall estimate the number of coupons needed by shift each day. An accounting department representative shall obtain the quantity of coupons to be issued. If a date indicating when the coupon becomes invalid is not preprinted thereon, the accounting department representative shall affix a stamp indicating the date the coupon becomes invalid or shall issue color coded coupons indicating the date that the coupons become invalid. The following, at a minimum, shall be recorded in the Coupon Control Ledger:

1. The date the coupons were issued;
2. The type of coupons issued;
3. The beginning serial number of the coupons issued;
4. The ending serial number of the coupons issued;
5. The quantity issued and the quantity remaining; and
6. The signatures of the accounting department representative issuing the coupons and such other department's representative receiving the coupons.

(g) The casino licensee shall require unused coupons obtained from the accounting department representative to be stored in a locked cabinet until they are distributed to patrons. Any coupons remaining unused at the end of a shift shall either be returned to the accounting department for receipt and redistribution or kept for use by the following shift provided accountability between shifts is maintained. All expired coupons must be returned to the accounting department on a daily basis. Any coupons that are not used by the date indicated on the coupons when they become invalid shall be voided when returned to the accounting department.

(h) Documentation, as required by the casino licensee, shall be prepared by a representative of the casino licensee for the distribution of coupons to patrons. The documentation shall have the following information, at a minimum, recorded on it:

1. The date and time or shift of preparation;
2. The type of coupons used;
3. The beginning serial number of the coupons used;
4. The ending serial number of the coupons used;
