Mr. Greenwald moved that the message be spread in full upon the Minutes.

Which motion was adopted.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 1229 with my recommendations for reconsideration.

This bill requires the Department of Community Affairs ("DCA") to prepare and make available on its website information concerning all county, State, and federal homeless prevention services and programs that are available to individuals who are homeless or who are at imminent risk of homelessness. This information includes, but is not limited to, grant and homeless intervention programs, homeless youth programs and other services provided to teens and young adults, and homelessness services provided to families involved in the child welfare system.

The DCA is required to update this information whenever new information about the program and services becomes available and must ensure that this information is also posted on the websites of the Department of Child and Families, Health, Human Services, and Military and Veterans Affairs. To maximize information sharing, the DCA also must notify local welfare agencies, veterans service offices, health care facilities, libraries, and community-based and nonprofit organizations focused on homelessness prevention of their requirement to post and share the information, at no cost, to individuals who are homeless or who are imminent risk of homelessness.

I commend the bill's sponsors for seeking to compile the array of homelessness resources and services available throughout the State in a single, easily accessible, location. By creating a clearinghouse of this information, individuals in need and service providers will be better able to connect with appropriate resources and programs.

While the bill will enhance public awareness of and help to facilitate access to available programs and services, it will require a considerable amount of time to prepare and maintain. I have been advised by the DCA that, not only are the available programs vast, they are frequently updated. As a result, the bill's requirements will entail near full-time monitoring of available programs in order to ensure that the information posted on the DCA's website is accurate and reflects the most up-to-date information. To best manage this significant undertaking, I am recommending amendments to allow DCA to contract out the bill's responsibilities. In order to allow for sufficient

time for the DCA to procure a contract, I am further recommending amendments to permit an additional six months to implement the bill's requirements.

Accordingly, I herewith return Assembly Bill No. 1229 with my recommendations for amendment.

Respectfully,

Philip D. Murphy

Governor

ASSEMBLY NO. 4004

(Fourth Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 4004 (Fourth Reprint) with my recommendations for reconsideration.

This bill establishes the Coronavirus Disease 2019 (COVID-19) Pandemic Task Force on Racial and Health Disparities in the Department of Health ("task force"). The task force will study the ways in which, and the reasons why, the COVID-19 pandemic has disproportionately affected the State's minority and vulnerable communities, and the short-term and long-term consequences of the pandemic on these communities. It will develop strategies to address racial and ethnic disparities in the health arena and propose ways to improve data systems, communication, resource distribution, treatment access, and partnerships so that our minority and vulnerable communities are heard and connected to the resources they need.

The COVID-19 pandemic has had a disproportionate impact on minority communities, prompting a number of studies and a presidential task force, commissioned by President Biden on January 21, 2021. The statistics surrounding this issue are indeed alarming and provide an unfortunate reminder of how far we still have to go. I stand with the sponsors of this bill in seeking to explore ways to eliminate existing disparities and commend their commitment to promoting the change necessary to reach health care equity. The recommendations suggested here are proposed with the full support of the bill's sponsors, whose willingness to work together to strengthen the bill underscores their commitment to achieving meaningful reform. These changes appropriately modify the roles of the different branches in the

appointment process and revises certain tasks to more closely align with the advisory nature of the task force. My recommended changes supplement the membership of the task force with representatives from additional State entities, including the Division on Civil Rights in the Department of Law and Public Safety, to ensure that the task force has the benefit of additional relevant Executive Branch expertise and perspectives in carrying out its mission.

Therefore, I herewith return Assembly Bill No. 4004 (Fourth Reprint) with my recommendations for amendment.

Respectfully,

Philip D. Murphy

Governor

ASSEMBLY COMMITTEE SUBSTITUTE FOR
ASSEMBLY BILL NOS. 4803 AND 4811 (First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Committee Substitute for Assembly Bill Nos. 4803 and 4811 (First Reprint) with my recommendations for reconsideration.

This bill requires the New Jersey Office of Emergency Management ("OEM") to establish a process to approve personal protective equipment ("PPE") for use during public health emergencies and allows companies that are not otherwise in the business of creating PPE to do so upon approval by the OEM. The bill also requires the State to create two PPE stockpiles of which, to the extent feasible, 50 percent would be made in New Jersey and at least 66 percent would be made in the United States. During public health emergencies, the PPE would be made available to the State, its political subdivisions, and non-profit schools, and the remainder would be made available for purchase by private entities at market price, except that non-profits would be allowed to pay 75 percent of market price or cost price. The bill creates a liability exemption for anyone using this PPE if used for approved purposes.

I applaud the sponsors' efforts toward addressing a critically important aspect of any disaster response plan. The Coronavirus pandemic has been one of the most difficult challenges faced by our State and our country in recent memory. The hardships it caused were felt across every sector of our economy and its impact extended into nearly

every facet of life. Yet, against the enormity of the disruption in our marketplace, the strain on our State resources, and the emotional, mental, and physical toll on every individual, our State demonstrated resilience in the face of adversity, and our public employees pulled together to help meet the needs of our residents. At the beginning of the pandemic, my Administration announced a partnership with the New Jersey Manufacturing Extension Program to produce face coverings and gowns. We also partnered with the Legislature to provide tax incentives to support businesses in this State, including those manufacturing PPE, and required in that legislation that preference in PPE contracts be given to bidders with a principal place of business in New Jersey. The New Jersey Economic Development Authority ("EDA") created a program to help small businesses gain access to the PPE they needed and coordinated with other State agencies to locate New Jersey-based companies that could manufacture PPE here in this State. The EDA also created an online registry through which businesses could indicate whether they produced PPE. At each turn, our public servants adapted to answer the call, and I could not be prouder to have worked alongside such extraordinary individuals.

This bill, although laudable in its aim, creates certain complexities that could serve as barriers to its effective implementation, including, for example, (1) identifying sufficient space to warehouse the appropriate level of PPE, the inventory of which would also have to be spread among several locations in order to minimize the risk of loss from unforeseen circumstances such as fire or other natural disasters; (2) hiring and training the staff required to store, inspect, rotate, and dispose of PPE; and (3) the sizable cost, including for transportation, warehousing, staffing, and disposal, among other areas, which may not be able to offset through federal reimbursement at the time of the creation of the stockpile. In circumstances where there would be a federal offset, there are additional questions surrounding our use of the PPE and whether the federal restrictions would prohibit the sale of the PPE in the ways contemplated by the bill. Moreover, the strict sourcing requirements present their own challenges, and would be potentially infeasible, especially in the midst of a public health emergency. Finally, the uncertainty surrounding whether the genesis of a future public health emergency would be an airborne virus whose spread could be contained by PPE presents questions concerning whether a large stockpile is an efficient use of our State dollars.

Given the aforementioned concerns, I am returning this bill with my suggestions for a more workable approach to ensure sufficient PPE in the event it is again in high demand in a subsequent public health emergency, which would require the Office of Homeland Security and Preparedness to execute a contract enabling any State agency to exercise a right of first refusal to purchase PPE during a public health emergency. Moreover, my recommendations align the New Jersey-based preference in this bill with the preference already required in P.L.2020, c.156, the New Jersey Economic Recovery Act of 2020, for the procurement of PPE.

Therefore, I herewith return the Assembly Committee Substitute for Assembly Bill Nos. 4803 and 4811 (First Reprint) with my recommendations for amendment.

Respectfully,
Philip D. Murphy
Governor

ASSEMBLY BILL NO. 4810

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 4810 without my approval.

This legislation would codify in the Office of the Governor a mechanism which is nearly identical to the "Red Tape Review Group" established over a decade ago by former Governor Christie in Executive Order No. 3 (2010). The Red Tape Review Group was charged with assessing the effects of State rules and regulations and Governor's Executive Orders on the State economy and whether their costs and other burdens outweigh their intended benefits, and to make recommendations to rescind, repeal, or amend any provisions that unduly burden business and workers. This bill would establish a strikingly similar "Government Efficiency and Regulatory Review Commission ("Commission") to make comparable assessments for all proposed and adopted rules and regulations and operative Executive Orders issued by the Governor.

The Commission would be comprised of the following nine members: (1) the Chief Innovation Officer, or designee, who shall serve as chair of the Commission; (2) the Executive Director of the New Jersey Business Action Center, or designee; (3) the Chief Counsel to the

Governor, or designee; (4) the Commissioner of Environmental Protection, or designee; (5) the Commissioner of Labor and Workforce Development, or designee; (6) the President of the Senate, or designee; (7) the Speaker of the General Assembly; or designee; (8) the Senate Minority Leader, or designee; and (9) the General Assembly Minority Leader, or designee.

Among its duties, the Commission would be required to review all proposed and adopted rules and regulations and operative Executive Orders issued by the Governor to assess their potential or actual effects on the State's economy and determine whether their costs and other burdens on businesses, workers, and local governments outweigh their intended benefits. The Commission would be further required to provide an annual report to the Governor and the Legislature which would contain recommendations to repeal, rescind, or amend any rules and regulations or Executive Orders that unduly burden the State's businesses, workers, and local governments.

I applaud the sponsors for seeking to eliminate unnecessary and counterproductive rules and regulations. To be clear, I share that goal, and since taking office, I have directed all State entities to remove bottlenecks and identify and use the best, most innovative, and least burdensome tools and approaches to achieve their regulatory goals. I am confident that under this Administration, the officials identified to serve on the proposed Commission would bring a thoughtful and balanced approach to regulatory issues.

However, this legislation would establish a permanent commission, enshrined in law, that would exist not only under my Administration, but also under future administrations. Under an administration ideologically opposed to regulation, this Commission could easily morph into a forum that seeks to undermine long-standing common-sense regulations that are designed to protect workplace safety, the environment, and public health. It is for that reason that more than thirty labor and environmental organizations, including the CWA, SEIU, United Steelworkers, NJEA, AFT, New Jersey Citizen Action, New Jersey Working Families, Clean Ocean Action, Environment New Jersey, and the New Jersey Sierra Club, have urged an absolute veto. The organizations are rightly concerned that the Commission could disrupt the regulatory process and impact the timely adoption of regulations.

These organizations also note that the Commission's mission is redundant as agencies already review rules for their economic impact. In fact, agencies are required by law to comply with substantial information and analytical requirements in proposing and adopting administrative rules and regulations. And should an administration overstep in proposing rules or regulations, the Legislature possesses the constitutional authority to invalidate or compel the amendment of rules and regulations proposed and adopted by State agencies.

Simply put, there is no need to revitalize a Christie administration-era commission that my predecessor set up to illustrate his commitment to slashing regulatory protections to a national audience. While I fully acknowledge that certain members of the commission, including members of the Legislature, approached these issues in a reasonable manner, some of the commission's efforts – particularly those dealing with environmental rules – drew criticism. I disbanded that commission in part because of this history of distrust, and do not want to bequeath to my successors a permanent tool that many consider inherently anti-regulatory. If future Governors want to follow Governor Christie's example and set up their own Red Tape Review Commission, they are free to do so, and the residents of New Jersey can appropriately judge their motives and priorities when they take that action.

Accordingly, I herewith return Assembly Bill No. 4810 without my approval.

Respectfully,
Philip D. Murphy
Governor

Mr. Greenwald offered the following resolution, which was read by the Clerk and adopted:

Resolved:

1. That printed copies of Assembly Concurrent Resolution No. 159, entitled "A Concurrent Resolution proposing to amend Article IV, Section VII, paragraph 2 of the Constitution of the State of New Jersey," be placed upon the desks of the members of the General Assembly forthwith, and that a record of such action be made in the Minutes of the General Assembly.

Conditional Veto for Assembly Bill No. 2116.

Mr. Greenwald moved that the messages be spread in full upon the Minutes.

Which motion was adopted.

ASSEMBLY BILL NO. 850

(Fourth Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 850 (Fourth Reprint) with my recommendations for reconsideration.

This bill establishes the Community Broadband Study Commission ("Commission"). The Commission will evaluate broadband access in New Jersey and assess impediments to access, including physical access, deployment, and affordability. The Commission will particularly focus of community networks and will evaluate the effectiveness of various models of organizing, financing, and setting up such networks. The Commission will present its finding to me and the Legislature no less than one year after its first meeting.

The Coronavirus disease 2019 (COVID-19) pandemic has highlighted the importance of reliable highspeed internet access, as more people than ever rely on the internet to work, attend school, obtain medical care, stay in touch with loved ones, and conduct countless other critical tasks of daily life. Ensuring that all New Jersey residents have reliable and affordable internet access is therefore a matter of equity. I stand with the sponsors in their concern for this issue, and commend them for establishing this Commission, which will play an important role in helping us better understand the barriers and possible solutions to internet access in underserved communities. In order to strengthen the Commission and enable it to effectively fulfill its role, I am placing the Commission fully within the Board of Public Utilities, whose expertise in matters related to telecommunications and public utilities will be an asset to the Commission. I am also recommending changes to appropriately modify the roles of the different branches in the appointment process. My recommended changes also supplement the membership of the Commission with representatives from additional

State entities, including the Economic Development Authority, the Department of Education, and the Department of Community Affairs, to ensure that the Commission has the benefit of additional relevant Executive Branch expertise and perspectives in carrying out its mission.

Therefore, I herewith return Assembly Bill No. 850 (Fourth Reprint) with my recommendations for amendment.

Respectfully,

Philip D. Murphy

Governor

ASSEMBLY BILL NO. 2116

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No. 2116 with my recommendations for reconsideration.

Under Assembly Bill No. 2116, every six months, the State Treasurer would submit to the Legislature a report identifying the deadlines for federal grants occurring in the six months immediately following the date of the report. In addition, the report would include information on recent and upcoming federal grant opportunities, as well as the history of the receipt of federal funds for State programs, projects, or purposes within the past 10 years.

According to a 2019 report from the Rockefeller Institute of Government, a public policy think tank, New Jersey received 82 cents for every dollar it sent to the federal government in 2017. While many factors contribute to the State's ability to bring in federal dollars, including those beyond our control, there are certainly steps that the State can take to increase the amount of federal grants and federal funds it receives from Washington.

To this end, in February 2020, I recommended, as part of my proposed budget for Fiscal Year 2021, the establishment of a Grants Management Office to identify federal funding opportunities for the State and local governments. The proposed Grants Management Office would make sure that the State agencies are able to identify all relevant funding opportunities and provide support for local governments seeking federal and other funding. Shortly after my Fiscal Year 2021 Budget Message, the first person in New Jersey was diagnosed with Coronavirus disease 2019 ("COVID-19"), and by March 31, 2020, there

were over 18,600 positive cases of COVID-19 in New Jersey with at least 267 of those cases having resulted in death. Tragically, these numbers increase exponentially in the following months. As a result, the State's resources were focused intensely on mitigating the COVID-19 pandemic and my proposal to establish a Grants Management Office was put on hold as all available resources were directed towards the pandemic response.

While the exigencies of the pandemic temporarily delayed the formation of the Grants Management Office, my commitment to developing and implementing a Statewide centralized grants management and accountability system has never wavered. I commend the sponsors of this bill for advancing our shared goal of improved grants management for our State and its residents. However, the reports that would be required under this bill, without more, would be unlikely to impact the State's ability to obtain federal dollars and would impose a significant administrative burden on the Treasurer. I am therefore recommending several revisions, including establishing the Grants Management Office that I first proposed over a year ago, which will enable the State to take a more proactive approach to identifying, securing, and managing grants. Through the Grants Management Office, State departments, local governments, nonprofits, and other interested stakeholders will have centralized access to information on available grant opportunities as well as access to training tools and guidelines on best practices for effective grants management.

Therefore, I herewith return Assembly Bill No. 2116 with my recommendations for amendment.

Respectfully,
Philip D. Murphy
Governor

ASSEMBLY BILL NO. 1533

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 1533 with my recommendations for reconsideration.

Assembly Bill No. 1533 makes several revisions to the statute governing the State Rental Assistance Program ("SRAP"). First, the bill requires the Department of Community Affairs ("DCA") to set aside a portion of SRAP vouchers for tenants displaced "due to redevelopment of affordable housing." Second, the bill requires such tenants to be granted temporary priority status for new affordable units. Finally, the bill requires an official or agent of the new affordable housing development to notify displaced tenants of their priority status when the new units become available.

I commend the bill's sponsors for their commitment to supporting tenants living in affordable housing when they are displaced from their

homes due to redevelopment projects. I agree that displaced tenants who continue to be eligible for affordable housing should be entitled to priority for new affordable units. I am concerned, however, about the unintended consequences of requiring DCA to set aside SRAP vouchers for these displaced tenants. Like the federal Housing Choice Voucher Program, SRAP provides housing vouchers primarily for very-low-income New Jersey residents. Unfortunately, SRAP cannot provide vouchers for everyone who qualifies for assistance. And, because DCA is already required to reserve vouchers for low-income senior citizens and veterans, imposing another set-aside would deprive other current or future voucher recipients of critically needed financial assistance.

In addition to these significant funding concerns, an annual set-aside would create administrative challenges, as it would be extremely difficult for DCA to calculate the number of tenants displaced in a given year and to further identify the number of those tenants who will "continue to qualify for low income housing upon completion of the project," as prescribed by the bill.

For these reasons, I recommend removing the set-aside requirement from the bill. Instead, I am recommending amendments that would require the affordable housing redevelopment project's designated municipal official or administrative agent to determine whether the redevelopment project qualifies for relocation assistance or services from the Department of Housing and Urban Development (HUD) and, if so, to notify displaced tenants of how to access such support. I also recommend making clear that a displaced tenant who receives temporary priority status should not be subject to additional screening criteria that would not be imposed upon lease renewal had the tenant not been required to temporarily relocate. And I suggest shifting the timelines for the notices required by the bill so that tenants are notified of their priority status earlier in the process, allowing tenants to claim their priority before the redevelopment project begins running lotteries for new affordable units.

Finally, I suggest delaying the bill's effective date to give affordable housing development officials and agents time to prepare to comply with the law.

Therefore, I herewith return Assembly Bill No. 1533 with my recommendations for amendment.

Respectfully,

Philip D. Murphy

ASSEMBLY BILL NO. 2455

(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 2455 (First Reprint) with my recommendations for reconsideration.

Assembly Bill No. 2455 (First Reprint) creates a three-year pilot program that provides grant funding to encourage and support school districts to establish For Inspiration and Recognition of Science and Technology ("FIRST") nonprofit organization's robotics programs and to participate in a FIRST Robotics Competition. The purpose of the pilot program is threefold: 1) to increase opportunities for students to participate in FIRST Robotics Competitions; 2) motivate students to pursue education and career opportunities in science, technology, engineering, and mathematics ("STEM"); and 3) improve students' knowledge in the fields of STEM.

I applaud the Legislature's desire to further robotics education and increase exposure to competitive robotics experiences for the students of New Jersey. However, the bill inappropriately singles out one organization, thereby foreclosing the possibility of other nonprofits participating in the program. In order to ensure that our State dollars are invested efficiently and pursuant to a fair and competitive grant process, eligibility for participation in the program should be expanded to include any nonprofit with a demonstrated ability to inspire students through mentor-based programs in STEM.

Therefore, I herewith return Assembly Bill No. 2455 (First Reprint) with my recommendations for amendment.

Respectfully,

Philip D. Murphy

ASSEMBLY BILL NO. 2722

(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 2722 (First Reprint) without my approval.

This bill requires the Commissioner of the Department of Corrections ("DOC") to institute a 30-minute shift overlap in each of the State's 12 correctional facilities for the purpose of information dissemination between correctional police officers beginning and ending their shifts. The shift overlap program would require a correctional police officer whose shift has ended to remain at his or her post for an additional 30 minutes to report what happened during that shift to the incoming officer.

While I appreciate the need to facilitate information sharing between correctional police officers beginning and ending their shifts, particularly as we phase in the use of body worn cameras across our correctional facilities, I have been advised by DOC that the bill's overtime and related costs will exceed \$30 million annually. I am further advised that the Legislature did not fund the bill in the Fiscal Year 2022 Appropriations Act even though the bill passed on the same day as the Annual Appropriations Act in the General Assembly and just a week later in the Senate.

Rather than attempting to make mid-year changes to our agreed-upon budget structure, a more appropriate approach to dealing with funding choices such as those presented by this bill is through the annual budget process. Funding decisions should not be made in a vacuum or through an ad hoc approach that fails to consider the broader processes for allocating resources to all of the competing programs, services, interests, and obligations of the State that our taxpayers ultimately fund.

Accordingly, I herewith return Assembly Bill No. 2722 (First Reprint) without my approval.

ASSEMBLY BILL NO. 3062
(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 3062 (First Reprint) with my recommendations for reconsideration.

Assembly Bill No. 3062 (First Reprint) establishes a three-year Financial Empowerment Pilot Program ("program") in the Department of Community Affairs ("DCA" or "department") to "address financial literacy and empowerment issues for economically vulnerable

individuals in the State.” The bill requires DCA to contract with non-profits in five participating municipalities to create centers to provide financial literacy education and personal financial coaching. DCA would be further required to provide support services and educational materials to the centers and to develop and implement standards for tracking the program’s results. To fund the program, the bill appropriates “[a]ll monies received from the settlement of the complaint of the Federal Trade Commission against Equifax, Inc.,” minus the Attorney General’s costs in pursuing the action.

I applaud the bill’s sponsors for proposing this initiative to support economically vulnerable individuals. As we strive to build a stronger and fairer New Jersey, it is critical to enable New Jerseyans to establish a secure financial footing, provide for their families, and set themselves up for future success. The goals of Assembly Bill No. 3062 (First Reprint) align with other actions my Administration is taking to support financial empowerment. For example, I recently created the Wealth Disparity Task Force through Executive Order No. 262 (2021) to study and consider ways to rectify systemic wealth disparities. And, in the coming months, the Department of the Treasury will launch a comprehensive online platform, accessible in multiple languages, aimed at providing free, interactive, and personalized financial literacy resources to all adult New Jersey residents. The platform will include tools and content related to budgeting, banking and credit, saving for education or home buying, reducing debt, and retirement planning, among other financial wellness topics.

Nevertheless, I have concerns about the structure and implementation of the program described by Assembly Bill No. 3062 (First Reprint). First, the program cannot be funded with the money recovered by the State from the 2019 settlement with Equifax, Inc. The \$6.36 million in civil penalties recovered by the Attorney General has already been dedicated to funding important priorities of the Division of Consumer Affairs related to consumer protection and modernizing the licensing systems for regulated businesses. And, as a matter of executive prerogative, I am reluctant to approve a bill that directs one agency to spend funds recovered by another agency in an enforcement action. However, given my strong support of financial literacy and empowerment, I am recommending that \$6.36 million be appropriated from the General Fund to support implementation of this bill.

In addition, I am recommending changes to provide DCA with more flexibility in supporting financial empowerment and literacy by directing the department to run a competitive grant program. With respect to the proposal to establish brick-and-mortar financial empowerment "centers" in five municipalities, I am concerned about singling out particular localities. Economically vulnerable individuals in all parts of the State should have the opportunity to benefit from the program. And, while I encourage DCA to prioritize applicants who propose to establish brick-and-mortar locations in high-need areas, DCA should have the flexibility to award grants to other applicants as well. My recommendations thus also include a non-exhaustive list of criteria for DCA to consider in awarding grants, all of which are designed to achieve the purposes of the bill.

Finally, I recommend allowing municipalities and institutions of higher education, including county and community colleges, to apply for the grants made available under the program. Allowing municipalities to apply preserves the intent of involving localities in the process. And higher education institutions may be particularly well-suited to providing in-person financial literacy education to economically vulnerable students, their family members, and other members of the public.

Therefore, I herewith return Assembly Bill No. 3062 (First Reprint) with my recommendations for amendment.

Respectfully,
Philip D. Murphy

ASSEMBLY BILL NO. 4002

(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No. 4002 (First Reprint) with my recommendations for reconsideration.

This bill would allow a deduction of promotional gaming credits ("PGCs") from sports wagering gross revenue that would otherwise be subject to taxation. PGCs are credits, tokens, or other items of value provided to a player for the purpose of enabling the player to place a wager. Sportsbooks can utilize PGCs to attract new players to their

wagering operation by offering promotions like deposit-matching bonuses, risk-free wagers, and other similar comps.

The PGC deduction was established in 2008 and originally allowed only PGCs wagered at slot machines physically located in a casino to be deducted from a casino's gross revenue for the purpose of determining the 8 percent tax on casino gross revenue. Through the years, the PGC deduction has been expanded to include PGCs wagered through Internet gaming systems and sports pools, which are not exclusively operated by casinos. Because racetracks are not subject to the 8 percent casino gross revenue tax, the PGC deduction applicable to sports wagering is not available to them. The purpose of this bill is to allow racetracks to take advantage of the PGC deduction by applying the deduction to the taxes on sports wagering revenue that are paid by both casinos and racetracks for retail operations.

I commend the sponsors of this bill for endeavoring to eliminate the disparity in current tax treatment between racetracks and casinos by revising the manner in which the PGC deduction is applied. New Jersey's historic racetracks are a key economic engine, supporting local economies and attracting tourists and fans from around the world. Under the bill, racetracks that operate a sportsbook would have access to the same benefits as their casino counterparts. The tax benefits afforded by this legislation would hopefully incentivize casinos and racetracks to offer promotions that will attract patrons to Atlantic City, the State's racetracks, and surrounding communities.

However, I am concerned that the bill's parallel tax break for online sports wagering undermines the bill's laudable goal of ushering in a resurgence of visitors to Atlantic City and our racetracks. While operational closures resulting from the Coronavirus disease 2019 (COVID-19) pandemic harmed the State's tourism economy generally and the brick-and-mortar casino and racing industries in particular, online casino gambling and online sports wagering operations have thrived. In fact, these operators have seen record performances during recent months, with sports pool operators taking in more than \$1 billion in bets with the State's licensed sportsbooks in September 2021 alone, over 90 percent of which was wagered through online sportsbooks. September 2021 was also a record month for online casino revenue, reaching a total gaming revenue record of over \$450 million.

The use of tax breaks to spur economic activity must always be measured against the detriment to the many worthwhile causes that the

foregone tax revenues would have supported. Revenue derived from casino operations is constitutionally dedicated to providing reductions in property taxes, rental, telephone, gas, electric, and municipal utilities charges of senior citizens and disabled residents of the State, and for additional or expanded health services or transportation services to senior citizens and disabled residents. Other taxes imposed on casino and racetrack sports pool operations are used for tourism and marketing programs for Atlantic City and, in the case of racetracks, distributed to the municipality and to the county in which the sports wagering lounge is located or to an economic development authority of that municipality and county.

Given the record performance of online sports wagering operations and the tenuous connection between online wagering and tourism and local economic growth, I am suggesting revisions to the bill to apply the PGC deduction only to the gross revenue tax on non-Internet sports pool operations with the hope that the expansion of PGCs will attract new visitors.

Moreover, I am suggesting the elimination of a provision from this bill that reverses a longstanding policy that requires PGCs to be returned to winning bettors in order to qualify for a deduction. As written, the bill provides that any free bet amounts or promotional wagering amounts qualify for a deduction regardless of any playthrough requirements. This provision provides an additional windfall for sports pool operators, as they would be permitted to deduct promotional gaming credits that the bettor had little to no chance of winning.

This legislation, though well-intended, fails to acknowledge the vastly divergent impacts the pandemic has had on the State's gaming economy. I look forward to working with my partners in the Legislature to advance initiatives with a greater focus on the revitalization of Atlantic City and the State's horseracing industry.

Therefore, I herewith return Assembly Bill No. 4002 (First Reprint) with my recommendations for amendment.

ASSEMBLY BILL NO. 4297
(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 4297 (First Reprint) without my approval.

Assembly Bill No. 4297 (First Reprint) amends current law to allow charitable organizations to conduct bingo, lotto, and raffle games remotely, directing the Legalized Games of Chance Control Commission ("LGCCC") to adopt regulations permitting the conduct of these games of chance remotely using communication technology to the extent not inconsistent with the New Jersey Constitution. The New Jersey Constitution, and current law, authorize the governing body of any municipality in which the voters have voted to allow the conduct of such games of chance to license bona fide veterans, charitable, educational, religious, or fraternal organizations, civic and service clubs, senior citizen associations or clubs, volunteer fire companies, and first-aid or rescue squads to conduct bingo, lotto, and raffle games within the borders of the municipality, subject to oversight and regulation by the LGCCC as authorized by the Legislature. The net proceeds from these games of chance are to be devoted to educational, charitable, patriotic, religious or public-spirited uses, and in the case of bona fide veterans' organizations and senior citizen associations or clubs, to the support of such organizations.

In authorizing the remote conduct of these games of chance, the bill requires that the technology be approved by the LGCCC prior to use by an eligible organization. The bill further requires licensees conducting such games remotely to verify that the physical location of each participant is within a municipality that has authorized the conduct of bingo, lotto, and raffle games. To address the constitutional restrictions, the bill deems the location of the person conducting the game to be the licensed premises.

I commend the sponsors for their recognition of the need of these charities to raise funds to support their good works, and for their advocacy of the use of remote technology to achieve this laudable purpose. The impact of the Coronavirus disease 2019 (COVID-19) pandemic has, as a practical matter, limited the fundraising capacity of these organizations, hampering their ability to generate contributions through the in-person conduct of games of chance. This bill would allow these games to reach a broader participant pool, irrespective of the impact of the pandemic or the limits of municipal borders, exponentially expanding the fundraising capacity of the charitable organizations able to pursue gaming activities through remote channels.

However, the legislation fails to address the myriad practical regulatory and resource concerns attendant to the expansion of the conduct of charitable bingo, lotto, and raffle games using remote communications technology. While it is unquestionably commendable to seek to afford charities enhanced tools to raise funds to support the worthy causes they serve, it is also important to ensure that such tools are subject to a requisite level of regulatory oversight to prevent fraud, ensure integrity, and avoid other improper or undesirable results such as security breaches, identity theft, and similar abuses. In removing the practical limitations imposed by the requirement that such fundraising be conducted live in local communities (rather than through virtual means), bingo, lotto, and raffle games theoretically will be able to be conducted at such frequency and at all times for an expansive number of organizations, and will involve a whole new type of technology that is beyond the regulatory oversight capacity and expertise of the LGCCC as currently staffed and resourced. This expansion into the virtual realms also raises the stakes with respect to the security and privacy of participants' personal information and presents expanded challenges to the regulator's ability to ensure the integrity of the gaming activities being conducted or the security of the funds being used. This expansion will likely require the LGCCC to regulate potentially thousands of these events carried out by new, independent operators and fundraisers, through communication technology on a statewide basis.

In the context of casino gaming, the Division of Gaming Enforcement is able to assess a large profit-making industry for the costs of personnel and regulation and use these funds to invest in new technology. By contrast, regulating expanded bingo, lotto, and raffle games in the charitable fundraising context – where the majority of the money generated should be earmarked for the worthy causes for which it is raised rather than substantial licensing fees – suggests that the taxpayers would need to bear the cost of enhancing and expanding the LGCCC's regulatory capacity to meet the demands of regulating this new channel of charitable fundraising.

This legislation, though well-intended, does not provide solutions to these difficult practical issues, and thus further consideration of these concerns is necessitated before we can responsibly entertain the prospect of such a significant expansion of charitable gaming activities.

Accordingly, I herewith return Assembly Bill No. 4297 (First Reprint) without my approval.

Respectfully,
Philip D. Murphy
Governor

ASSEMBLY BILL NO. 4433
(Second Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 4433 (Second Reprint) with my recommendations for reconsideration.

Assembly Bill No. 4433 (Second Reprint) creates a grant program to encourage school districts to partner with institutions of higher education in training school-based mental health services providers in order to expand the pipeline of high-quality, well-trained providers and address the shortage of mental health professionals in school districts. School districts that receive a grant under this program will use the funds to create and grow programs to train students who are attending graduate school to become school-based mental health services providers. The bill defines school-based mental health services providers as State-licensed or certified school counselors, school psychologists, school social workers, or other mental health professionals qualified under State law to provide mental health services to children and adolescents.

Prior to applying for the grant program, a school district is required to form a partnership with one or more institutions of higher education that offer graduate programs in school-based mental health fields. This partnership would allow a student enrolled in a graduate program to perform applicable fieldwork, credit hours, internships, externships, or other related training within the school buildings of the partnering district.

I applaud and support the Legislature's efforts to address student mental health. Even prior to the Coronavirus disease 2019 ("COVID-19") pandemic, student mental health was a critically important issue. Research has shown that a student's mental health and well-being are inextricably linked to success in the classroom. Moreover, we know that the mental health needs of students in New Jersey far exceed the number of licensed professionals able to provide the necessary supports. Mental health professionals in K-12 settings have been in notoriously short supply and the COVID-19 pandemic and the remote learning it necessitated have only exacerbated these shortages.

However, without a corresponding appropriation with which to fund this grant program, the bill will not achieve its intended goal. I am therefore recommending revisions to appropriate \$500,000 to the Department of Education to operate the grant program established by this bill.

Therefore, I herewith return Assembly Bill No. 4433 (Second Reprint) with my recommendations for amendment.

Respectfully,

Philip D. Murphy

ASSEMBLY BILL NO. 4435

(Second Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 4435 (Second Reprint) with my recommendations for reconsideration.

Since 1988, the Department of Human Services and then the Department of Children and Families ("DCF") have contracted with school districts and non-profit organizations to provide prevention and support services for students through the School-Linked Services Program ("program"). These contracts facilitate student success by linking schools and social services to support students in need. As part of the program, DCF contracts with 90 school based youth services programs to provide a variety of critical services before, during, and after school. DCF also maintains School-Linked Services contracts with other entities such as health centers, Family Friendly Centers, and Adolescent Pregnancy Prevention Initiative Programs. Recognizing the myriad challenges facing our students in returning to school following the initial phases of the Coronavirus disease 2019 ("COVID-19") pandemic, this year's budget appropriated over \$26.5 million to the program, representing an increase of approximately \$11 million over last year's appropriation. P.L.2021, c.133.

Assembly Bill No. 4435 (Second Reprint) would require DCF to prioritize certain applicant school districts when awarding grants under the program. The bill mandates that DCF prioritize districts that propose to focus on providing "clinical health counseling services to students" and consider other specified factors in determining priority.

I commend the bill's sponsors for their passionate support of comprehensive mental health services for students and for their interest in updating the program. As the bill's sponsors recognize, although the 90 school-based youth services programs currently in operation have improved the lives of countless students, the criteria used to select and evaluate these programs has changed very little over the past 34 years.

While I wholeheartedly agree that youth mental health services should be prioritized, I am concerned that the bill overly restricts DCF's discretion in awarding School-Linked Services contracts. I am therefore recommending amendments to preserve the bill's focus on youth mental health services while also expanding DCF's discretion to consider additional types of services in conjunction with youth mental health supports. For example, mental health counseling services should remain a priority, but traditional mental health counseling services alone are simply one of many services that School-Linked Services contractors should aim to offer. Other key aspects of successful youth services programs might involve active collaboration with existing community mental and behavioral health services and family supports, as well as implementation of strategies and activities that promote student wellness more broadly.

Relatedly, to best meet the needs of students and their families, DCF should have the discretion to supplement the factors that the bill instructs DCF to consider in awarding contracts. I also recommend that the last factor be amended, as a service provider may be able to provide access to "clinical mental health professional staff who specialize in a variety of mental health areas" even if the provider cannot employ such staff onsite. This will alleviate pressure on applicants in communities where services are most needed, which is especially critical given the relative scarcity of these professionals.

I am also recommending technical changes for accuracy, including clarifying that the overarching program is called the "School-Linked Services Program," administered by DCF, and that funds are awarded through contracts to both non-profit providers and school districts, not grants to just school districts.

Finally, because the support needs of youth and their families are constantly evolving, I recommend that the bill sunset in two years to provide DCF with the flexibility to revisit its approach following a period of implementation. Because the bill's requirements relate only to prioritizing applicants, a sunset date will in no way affect DCF's

continued ability to award School-Linked Services contracts following the bill's expiration.

Therefore, I herewith return Assembly Bill No. 4435 (Second Reprint) with my recommendations for amendment.

Respectfully,

Philip D. Murphy

Governor

ASSEMBLY BILL NO. 4630

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 4630 with my recommendations for reconsideration.

Assembly Bill No. 4630 would require that any contract entered into by a public body in connection with a "covered retail or distribution project," in which the public body has a proprietary interest, include a precondition that the contractor and all subcontractors enter a labor harmony agreement with a labor organization that represents retail or distribution center employees in the State. Under the bill, covered retail or distribution projects include retail establishments which will have more than 10 employees and distribution centers which will have more than 20 employees. The labor harmony agreement would apply for at least five years after the covered project becomes fully operational.

The legislative findings and declarations accompanying this legislation indicate that the bill is intended to apply to "major development projects with large retail establishments and distribution centers." Yet, the bill would require labor harmony agreements at retail establishments with as few as 11 employees. I am concerned that the minimal employee threshold included in the bill could have a deleterious effect on small mom-and-pop shops throughout our State. These small, typically family-owned businesses are a critically important component of the State's economy and part of the rich cultural tapestry of New Jersey.

I commend the bill's sponsors for promoting goals that I share - protecting reasonable access for labor unions to organize and encouraging amicable labor-management relationships. During my Administration, and in partnership with my colleagues in the Legislature, we have realized clear and tangible benefits from

strengthening the presence of labor across all sectors, including in the industries implicated by this legislation. Appropriate compensation and labor protections attract high quality workers, and labor harmony agreements ensure that labor disruptions, such as strikes, pickets, or protests, do not disturb a public body's proprietary interest in a project. We must, however, balance these goals against the impacts this bill could have on the small businesses that drive the State's economy.

With that in mind, I am recommending revisions to increase the minimum employee threshold for retail establishments from 10 employees to 20. This would mirror the bill's minimum employee requirement for distribution centers and more readily align with the bill's stated goal of ensuring labor harmony agreements are in place whenever a public entity enters into an agreement with a contractor for a major development project that contains large retail establishments or large distribution centers.

Therefore, I herewith return Assembly Bill No. 4630 with my recommendations for amendment.

Respectfully,
Philip D. Murphy

ASSEMBLY BILL NO. 4746
(Second Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 4746 (Second Reprint) with my recommendations for reconsideration.

The Department of Human Services ("DHS") receives and administers State and federal funding to provide subsidy payments for eligible children to attend licensed child care centers and registered family child care providers (collectively, "providers"). DHS pays providers a full subsidy to cover 100% of the cost of a child's attendance for each enrolled child who is in attendance or had excused absences for at least 80% of days during a pay period. If a child's unexcused absences result in the child's attendance dipping below 80%, DHS's reimbursement is based on the child's actual attendance. In March 2020, DHS began providing full subsidy payments for all eligible children, regardless of attendance, as an immediate emergency response to the Coronavirus disease 2019 ("COVID-19") pandemic. This enabled DHS

to continue to fund providers at pre-pandemic levels in order to help them to remain open to care for children during the pandemic in spite of significantly fluctuating attendance, and to ensure the providers' long-term viability. Intended as a temporary measure, DHS has thus far been able to continue the policy as additional federal child care relief funds have become available.

Assembly Bill No. 4746 (Second Reprint) would make DHS's temporary emergency measure permanent, requiring DHS to pay subsidies based on the number of eligible children enrolled with the provider. The bill also would require DHS to study the difference between paying based on enrollment and paying based on attendance.

I commend the Legislature, and the bill sponsors in particular, for their sustained efforts to protect families and the child care industry as we emerge from the COVID-19 pandemic. Since my first day as Governor, I too have prioritized child care. Providers — very often owned, operated, and staffed by women, and in particular women of color — are the lifeblood of our economy, necessary for New Jersey's working families to thrive, and a critical source of jobs in their own right. My Administration has accordingly committed to investing well over \$1 billion into the industry thus far. In my first two years in office, DHS invested over \$100 million to significantly increase provider reimbursement rates for all age groups, which had remained flat for over a decade; reduced co-pays for families; and invested in programs to improve the quality of child care. In 2020, my Administration dedicated \$400 million in federal funding to stabilize the industry during the first phase of the pandemic. In addition to temporarily paying providers based on enrollment, as discussed above, DHS has waived co-pays for many families; expanded assistance to essential workers and families not eligible for subsidies but in need of care; and provided over \$70 million in grants to providers.

In cooperation with my legislative colleagues, my Administration also committed to investing over \$800 million in support for measures that move beyond pandemic-related stabilization and look to strengthen the State's child care system over the long term. In July, I signed Senate Bill No. 3990 (Second Reprint), dedicating \$100 million in federal dollars to a Child Care Revitalization Fund, which will go to facilities improvement grants, business technical assistance, recruitment and retention bonuses for child care workers, and workforce development efforts. And, last month, I announced plans to invest another \$700

million to help parents pay for child care; provide financial incentives to workers; and support providers through additional grants. Finally, DHS just announced an investment of another \$83 million to increase provider reimbursement rates for the State's Child Care Assistance program. In total, DHS has increased monthly infant care assistance rates by nearly 70% and by close to 50% on average for all other age groups since I took office in 2018.

In spite of my strong commitment to the child care industry and the New Jersey families who rely upon it, I am unable to support this bill in its present form. After careful consideration, I have concluded that I cannot support a policy that permanently requires DHS to provide subsidies based on enrollment. DHS's March 2020 decision was always intended as a temporary emergency measure, although unanticipated federal funding has made it possible for DHS to continue the measure longer than originally planned. However, extending it indefinitely, and after federal funding is exhausted, would necessitate identifying a permanent alternative funding source that would almost certainly require DHS to sacrifice other current or future child care policy priorities.

That being said, DHS and the Department of the Treasury have determined that federal Child Care Development Block Grant dollars will remain available to continue paying providers based on enrollment through the end of the current fiscal year. Accordingly, I am recommending that Assembly Bill No. 4746 (Second Reprint) be amended to require DHS to pay subsidies based on enrollment through June 30, 2022.

The enrollment-based payment policy has been in place during emergency circumstances, but has not yet been implemented in an environment where child care attendance has remained more steady. Without understanding the full budget implications of paying based on enrollment, DHS is not in a position to make a permanent change to its policy. Accordingly, I agree with the Legislature that DHS should analyze the long-term cost differential, as provided for in the bill. I recommend, however, that DHS complete the proposed study in 12 months instead of 24 months, so that we may sooner understand the full implications of a permanent enrollment-based subsidy. As part of its study, DHS should also consider whether other measures may be taken into account to achieve the goals contemplated by Assembly Bill No. 4746 (Second Reprint) – chief among them, the stability for providers

that comes with the advance knowledge of how much revenue they will receive each month.

Therefore, I herewith return Assembly Bill No. 4746 (Second Reprint) with my recommendations for amendment.

Respectfully,

Philip D. Murphy

ASSEMBLY BILL NO. 4834

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 4834 with my recommendations for reconsideration.

Assembly Bill No. 4834 requires the inclusion of a disclosure letter with any mailing that could reasonably be interpreted as falsely implying a State government connection, approval, or endorsement. Specifically, the bill makes it an unlawful practice under the Consumer Fraud Act for a nongovernmental entity to solicit through the mail the purchase of a product or service while falsely implying a State government connection, approval, or endorsement through the use of a seal; insignia; citation to a State statute; name of a State agency, department, commission, or program; trade or brand name; or any other term or symbol unless the mailing also includes a disclosure letter.

Under the bill, the disclosure letter must contain: the full name of the person sending the solicitation; 14 point, bold typeface language stating that the product, service, or offer has not been approved, endorsed, or made by the State of New Jersey or any of its agencies, departments, commissions, or programs; and, if the solicitation constitutes an offer to satisfy a State statutory obligation in exchange for a fee, a breakdown of the cost of the service, including the fee and the amount to be paid to the State.

An unlawful practice under the Consumer Fraud Act, P.L.1960, c.39, is punishable by a monetary penalty of \$10,000 or less for a first offense and \$20,000 or less for any subsequent offense. In addition, a violation can result in a cease-and-desist order issued by the Attorney General, the assessment of punitive damages, and the awarding of treble damages and costs to the injured.

While I share the sponsors' concerns about the proliferation of mailings intended to defraud New Jersey residents, particularly vulnerable populations, I am concerned that the bill could be construed

to, and in practical effect could be applied to explicitly allow, rather than deter, fraudulent mailings. The bill provides that mailings falsely implying a State government connection would be allowed so long as the mailing includes a disclosure letter.

Con artists should not be permitted to falsely imply a government connection under any circumstances. I am therefore recommending that the bill be revised to prohibit, categorically, these misleading mailings.

Therefore, I herewith return Assembly Bill No. 4834 with my recommendations for amendment.

Respectfully,
Philip D. Murphy

ASSEMBLY BILL NO. 4850

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 4850 with my recommendations for reconsideration.

Assembly Bill No. 4850 proposes to expedite construction inspections by changing the way municipalities enforce the Uniform Construction Code ("UCC"). The Department of Community Affairs ("DCA") would be required to establish rules to permit local code enforcement agencies to conduct expedited construction inspections in exchange for a fee. In municipalities that do not offer expedited inspections, project owners would be permitted to select a private entity, licensed by DCA, to conduct expedited inspections. The bill would also codify into statute an existing DCA regulation that non-expedited inspections occur within three business days of a requested inspection date, as long as the owner makes the request at least 24 hours prior to the desired date. If the local agency fails to comply with the statutory timeline, the owner would be able to retain a private entity to perform the remainder of the inspections for the project, with oversight by the local agency.

I commend the bill's sponsors for seeking to facilitate speedy construction inspections. With this same goal in mind, my Administration has ramped up efforts to make the construction permitting and inspection system more efficient. This year's budget, for example, appropriated \$5 million to DCA "to support activities to increase the production of affordable housing by streamlining the

permitting and construction review processes at the State and municipal levels.” P.L.2021, c.133, p.38. And DCA has been taking a more proactive approach to helping local agencies improve their systems and clear backlogs.

While I share with my partners in the Legislature the desire for residential and commercial real estate development to proceed without unnecessary delay, I have substantial reservations about the proposed method for achieving that goal. As we work to build a stronger and fairer New Jersey, it is paramount that we preserve the components of our construction code that make it one of the strongest in the country and continue to ensure that the system works for everyone. In this case, I am concerned that allowing expedited inspections in exchange for an additional fee could create a two-track system that moves smaller developers and homeowners to the back of the line in favor of those who can pay a premium. And, while I am certain this was not the intent of the bill’s sponsors, granting private entities broad discretion to conduct construction inspections when local agencies do not meet their deadlines creates an appearance of bias in favor of those who can afford private inspections.

While it is true that DCA and local agencies would retain substantial oversight over private entities and local agencies would continue to make the ultimate decisions regarding whether to issue a certificate of occupancy, the resources required to license, authorize, and oversee private entities would be considerable, drawing attention from DCA’s and local agencies’ core work and making it even more difficult for local agencies to meet their deadlines. On top of that, private entities would be taking from local agencies not only much-needed operating revenue, but also experienced code officials, at a time when these officials are in high demand.

Nevertheless, I agree that it is necessary for all of us in government and in the real estate industry to continue thinking creatively about how to make sure projects proceed quickly, equitably, and safely. The Department of Environmental Protection’s Licensed Site Remediation Professional (“LSRP”) program has shown how private entities can “step into the shoes” of a government agency to speed along important work related to health and safety when it comes to the remediation of contaminated sites. The program enables LSRPs to take responsibility for oversight of the environmental investigation and cleanup of contaminated sites and has led to the greatest amount of contaminated

site cleanups over the shortest period in the State's history, with thousands of known contaminated sites having been remediated since the program was established in 2007. Additionally, current law permits municipalities to contract with private inspection agencies to assist with UCC enforcement in some circumstances.

Accordingly, I am recommending revisions to Assembly Bill No. 4850 to require DCA to study whether there is a similar role for private entities to play in the construction inspection and permitting process. As part of its study, DCA should consider the degree to which inspection efficiencies can be achieved by consolidation of local agencies and through the sharing of services. DCA also should consult with the Department of Labor and Workforce Development on ideas for cultivating the next generation of code officials.

In addition, I am recommending amendments to require local agencies to notify DCA immediately upon determining that they will be unable to meet the bill's requirement to conduct inspections within three business days of an owner's requested inspection date. Failure to provide the required notification will subject local agencies to DCA's existing authority to take remedial action against agencies that do not comply with DCA's laws or regulations. This amendment will enable DCA to quickly begin working with the local agency to help it operate more efficiently.

Therefore, I herewith return Assembly Bill No. 4850 with my recommendations for amendment.

Respectfully,
Philip D. Murphy

ASSEMBLY BILL NO. 5033
(Second Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 5033 (Second Reprint) with my recommendations for reconsideration.

Assembly Bill No. 5033 (Second Reprint) seeks to modernize how we buy and sell cars in New Jersey, primarily by facilitating online transactions. First, the bill amends statutory requirements and definitions related to motor vehicle dealers, enabling licensed dealers in New Jersey to sell cars online and augmenting the regulatory oversight

capacity of the Motor Vehicle Commission (“MVC”). Second, the bill will allow buyers and licensed dealers to execute and submit powers of attorney with electronic signatures instead of “wet” signatures and eliminates the notarization requirement for those documents. Third, the bill requires MVC to begin accepting other motor vehicle transaction documents, such as titles and mileage disclosures, electronically within 24 months.

I commend the bill’s sponsors for their sustained efforts to make buying a car as simple and as painless as possible, while also ensuring that MVC has sufficient authority and resources to combat fraud and punish bad actors. Online sales, electronic signatures, and, eventually, electronic titles will make purchasing a car more convenient and less expensive, and I am proud to help make these changes a reality.

Nevertheless, because our State’s car titling system is currently paper-based, the best way of achieving the bill’s goals while complying with federal law and maintaining security against fraud is for MVC to implement a fully electronic titling system. I am therefore recommending amendments to provide MVC the flexibility to implement an electronic titling system and to ensure the bill’s consistency and accuracy in light of those changes.

To be clear, my recommended amendments do not change the structure, outcomes, or key timelines envisioned in Assembly Bill No. 5033 (Second Reprint). Immediately upon enactment, MVC will be able to accept electronically signed, non-notarized powers of attorney for motor vehicle sales conducted by licensed dealers, unless otherwise prohibited by federal law. Per both the bill’s original text and my recommended amendments, MVC will adopt rules and establish a fully electronic titling system — to enable the electronic submission and receipt of all motor vehicle transaction documents for new motor vehicles — within 24 months. This timeline does not extend to used motor vehicle transactions, as MVC may need additional time to adapt the electronic titling system to cover used motor vehicles given the additional complexities and higher potential for fraud involved in these transactions. My recommended revisions will also enable MVC to facilitate electronic instead of paper-based notification, and recording, transfer, and release of security interests and title information by motor vehicle lienholders, which will make motor vehicle financing and refinancing more efficient.

Therefore, I herewith return Assembly Bill No. 5033 (Second Reprint) with my recommendations for amendment.

Respectfully,
Philip D. Murphy

ASSEMBLY BILL NO. 5231

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 5231 without my approval.

Assembly Bill No. 5231 amends the statute generally prohibiting sales of alcohol in public buildings. Current law prohibits alcohol sales in public buildings belonging to, or under the control of, that State, a county, or a municipality, unless such sales are permitted by the Director of the Division of Alcoholic Beverage Control ("ABC") in the Department of Law and Public Safety "in specified cases and subject to rules and regulations." N.J.S.A. 33:1-42. Under ABC regulations, a person or entity who has entered into a contract with the State or a locality to sell alcohol on public property may apply to ABC for "a special concessionaire permit" that authorizes the holder to sell alcoholic beverages on the premises of the public property.

Assembly Bill No. 5231 would allow the governing body of a county or municipality to enter into a revenue-sharing agreement with a special concessionaire permit holder who has been authorized to sell alcohol on premises owned or operated by the governing body, without any supervision from ABC. In other words, the bill would authorize a contract under which a governing body would be entitled to a percentage of the permit holder's revenue from alcohol sales.

ABC has expressed serious reservations about a law that would allow a municipality or county's governing body to become an active participant in the market for alcoholic beverage sales. Unlike a lease with a fixed monthly rent at fair market value, a revenue-sharing agreement of the kind contemplated by Assembly Bill No. 5231 would give the locality a stake in the permit holder's financial success. Doing so would thereby indirectly place the locality in direct competition with any other current or potential alcoholic beverage sellers in the proximity of the permit holder. This is particularly problematic because municipalities are charged with administrative and criminal enforcement of the alcoholic beverage laws, which implicates conflict of interest

concerns when the local government has a significant financial stake in the operations and success of alcoholic beverage sellers. Such a scenario would lead to the appearance of bias at best, and the potential for abuse at worst.

I share ABC's concerns. Our laws should not, as a general precept, promote the unbridled ability of municipalities and counties to directly invest in and profit from alcoholic beverage sales conducted by a holder of a special concessionaire permit.

Accordingly, I herewith return Assembly Bill No. 5231 without my approval.

Philip D. Murphy

ASSEMBLY BILL NO. 5353
(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 5353 (First Reprint) with my recommendations for reconsideration.

Assembly Bill No. 5353 (First Reprint) allows individuals serving as temporary nurse aides to become permanently certified as nurse aides if they meet certain requirements established under the bill.

The staffing shortages created by the Coronavirus disease 2019 ("COVID-19") pandemic have been felt across many sectors of the nation's economy, including, most acutely, within nursing homes. To help mitigate these shortages, the Centers for Medicare and Medicaid Services ("CMS") enacted a temporary emergency blanket waiver allowing nursing homes to employ individuals as nurse aides even if they have not completed a state-approved Nurse Aide Training and Competency Evaluation Program ("NATCEP"). Accordingly, the New Jersey Department of Health issued a waiver of the State's regulations to allow the same flexibility, requiring successful completion of an approved eight-hour Temporary Nurse Aide Training Program.

To ensure that these temporary nurse aides are not prohibited from continuing this vital work once the federal waiver expires, Assembly Bill No. 5353 (First Reprint) allows temporary nurse aides to become certified nurse aides if they successfully complete the eight-hour training course, work a minimum of 80 hours under the supervision of a licensed professional nurse, pass a background check, and successfully complete a

State-approved nurse aide written examination. The bill specifies that these requirements must be met within 45 days after the end of the Public Health Emergency declared in response to COVID-19, which means that temporary nurse aides would have had to comply with the requirements of the bill by July of this year in order to become certified nurse aides.

I share the sponsors' goal of ameliorating the staffing shortages at nursing homes across New Jersey. However, because the pandemic's effects on employment remain with us today, I believe the safeguards provided by the bill should be extended beyond the period delineated in the bill, which has already passed. Under my recommendations, a temporary nurse aide will have until January 11, 2022 to complete the eight-hour course and work 80 hours under the supervision of a licensed professional nurse.

In addition, my recommendations require temporary nurse aides to pass a State-approved clinical skills competency examination in addition to the written examination required in the bill. Skills testing will ensure that these individuals meet the federal requirements for certified nursing aides that will exist once the federal waiver expires. Recognizing that the addition of the skills exam may add time to the certification process, my recommendations grant temporary nurse aides until February 16, 2022 to pass both the written examination and the clinical skills competency examination. Finally, because the time it takes to complete a background check is often not within the control of an applicant, my recommendations further extend the deadline by which applicants must pass a background check until June 4, 2022.

Therefore, I herewith return Assembly Bill No. 5353 (First Reprint) with my recommendations for amendment.

ASSEMBLY BILL NO. 5599

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 5599 with my recommendations for reconsideration.

The bill establishes a procedure for petitioning the Superior Court for injunctive relief when there is a report of a crime committed against a current or former judge and there is a nexus to the judge's performance

of their public duties. I am advised that the bill was not drafted in response to last year's terrible and shocking tragedy when a disgruntled attorney who was upset with United States District Judge Esther Salas showed up at Judge Salas's home, murdering Judge Salas's son Daniel Anderl and critically wounding Judge Salas's husband Mark Anderl. Instead, this bill is the product of a long-term working group project initiated in 2015 by members of the *New Jersey* Judiciary Security Management Response Team ("*NJ JS MART*"). The bill nonetheless seeks to address the same concern that gave rise to "Daniel's Law," which I proudly signed last year, namely, the need to ensure the safety and security of judges and their families, who may be targeted by disgruntled litigants and others simply because they performed their public duties as part of our judicial system. We must do all we can to safeguard these accomplished and vital public servants, both to protect them and their loved ones on a personal level and ensure that our system of justice is appropriately insulated from violence.

I commend the sponsors, and the members of the working group who developed this proposal, for having the foresight to bolster the protections that exist for judges. However, I am recommending a number of amendments to clarify the procedures and strengthen the protections that this bill will afford to judicial officers. For example, the bill is unclear as to whether the protections apply only to judges in the State judicial branch, or whether it also applies to federal judges like Judge Salas or executive branch judges, such as Administrative Law Judges and Workers' Compensation Judges. Obviously, these judges rule on matters that affect the lives and interests of litigants and attorneys in the same way that Superior Court judges do, and the bill should make clear that its protections apply to the broader class of judicial officers. Fortunately, this is readily accomplished by incorporating the definition of "judicial officer" which was established as part of "Daniel's Law."

Another area in which the bill could be made stronger is in authorizing the victims themselves – active, formerly active, and retired judges – to pursue restraining orders. While it is appropriate to authorize law enforcement officers to petition the court to seek these protections on behalf of judicial officers, excluding the victims from seeking injunctive relief would be inconsistent with the process established in comparable injunctive protections laws such as Extreme Risk Protection Orders, restraining orders for victims of sexual assault, and domestic violence restraining orders. Additionally, family and

household members of judicial officers could also be at risk due to the judicial officers' performance of their public duties, and should be able to avail themselves of the protections provided under this bill. To accommodate this victim-centered approach evident in parallel contexts, I am proposing amendments that would authorize formerly active and retired judicial officers and family and household members of such officers to petition the court for injunctive relief.

The bill could be further strengthened by incorporating provisions that will help avoid constitutional challenges to the bill, and bolster its defensibility in court. One change would be to predicate the availability of injunctive relief on the charging or conviction of a defendant for a crime against a judicial officer where there is a nexus between the crime and the performance of the judicial officer's public duties. Other recommended amendments would more clearly delineate the findings that a court must make in order to issue the injunctive relief authorized by the bill.

Therefore, I herewith return Assembly Bill No. 5599 with my recommendations for amendment.

Philip D. Murphy

ASSEMBLY BILL NO. 5864
(Second Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 5864 (Second Reprint) with my recommendations for reconsideration.

Assembly Bill No. 5864 (Second Reprint) amends the current law governing the use of Body Worn Cameras ("BWCs") and addresses the ability for law enforcement officers to review BWC footage prior to making a required initial report, statement, or interview. Under current law, there is a blanket prohibition restricting law enforcement officers from reviewing or receiving an accounting of certain BWC recordings prior to creating any required initial reports, statements, and interviews regarding a recorded event. Assembly Bill No. 5864 (Second Reprint) would remove this limitation in the case of a "routine police stop or house call," and would continue the restriction in five enumerated instances: an encounter about which a complaint has been verbally expressed or formally registered; the use of any police force; the

discharge of a firearm by a law enforcement officer; the death of a person while in police custody; and an incident that is the subject of an internal affairs complaint relating to the use of force, bias, or dishonesty. The bill also would allow “a person who is the subject of a police report created by a law enforcement officer, for which a relevant body worn camera recording exists. . . to review and receive an accounting of the recording if the law enforcement officer who created the report also was permitted to review and receive an accounting of the recording.”

I commend the bill’s sponsors for recognizing the value of BWCs in assisting law enforcement officers in the performance of their duties and agree that we should revise the law to permit officers to view BWC footage in certain instances. BWC recordings are objective accountings of an incident or encounter and can serve as tools to enhance trust between law enforcement and the communities that they serve. Last November, when I signed legislation establishing uniform ground rules for the use of BWCs by law enforcement officers, I noted the importance of BWCs in promoting transparency and accountability in policing in our communities, as well as the tremendous value these recordings have as a potential source of crucial evidence for use in investigations and court proceedings.

To maximize the benefits of BWCs, it is important to have a process that appropriately balances the utility of BWCs in facilitating law enforcement’s performance of their duties and their utility in ensuring the law enforcement function is performed properly. Although the bill takes an approach that sensibly recognizes the importance of this balance, I am recommending amendments to refine the circumstances delineated in the bill as exceptions to the general rule of initial access. My recommendations modify the bill’s enumerated circumstances under which initial access to BWC recordings is restricted to include: (1) the use of force by an officer; (2) the discharge of a firearm or any other use of deadly force by a law enforcement officer; (3) the death of a person while in law enforcement custody or during an encounter with a law enforcement officer; or (4) incidents that the officer knows will be the subject of a citizen complaint or an internal affairs complaint relating to the officer’s use of force, bias, or dishonesty. I believe that these changes strike the proper balance, providing appropriate exceptions to the general rule of affording law enforcement officers immediate access to BWC recordings.

I am also recommending the inclusion of a provision requiring that an officer who exercises the authority afforded in this general rule to acknowledge, either verbally or in writing within each report, statement, or interview, that the officer had prior access to the BWC recording. This requirement makes any subsequent reader or viewer aware of this information to consider when reading or reviewing that officer's investigation documents.

Finally, I suggest removing provisions that are either ambiguous or untenable. First, I suggest the deletion of the term "routine police stop or house call." Rather than propose a definition of this term, I would simply delete it, as the concept is not necessary to identify those situations where an officer should be afforded or denied initial access to a BWC recording.

I also suggest amending the bill to remove the provision authorizing the subject of a BWC recording to review or receive an accounting of the recording if the law enforcement officer has accessed it prior to providing any required initial report, statement, or interview. I share the concerns of my partners in law enforcement, who have noted that this provision would result in a prolonged and cumbersome change to the investigation process, with little to no justification or logic for such an outcome.

Therefore, I herewith return Assembly Bill No. 5864 (Second Reprint) with my recommendations for amendment.

ASSEMBLY BILL NO. 862
(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am herewith returning Assembly Bill No. 862 (First Reprint) with my recommendations for reconsideration.

Assembly Bill No. 862 (First Reprint) revises the law governing successful appeals of municipal property tax assessments. Under current law, a municipality must refund to a property taxpayer who successfully appeals their tax assessment the amount owed, plus interest, within 60 days of the final judgment in the case of a residential property taxpayer and a commercial property taxpayer owing up to \$100,000. For all other commercial property taxpayers, a municipality must provide a full refund in substantially equal installments within three years of the final judgment. This bill would permit a municipality to refund the amount owed, plus interest, in the form of a property tax credit against new property taxes that become due following the final judgment within three years of the final judgement for residential property taxpayers in all cases and for nonresidential property taxpayers when the amount owed exceeds the total amount of any outstanding delinquency. Any balance that is not refunded as a credit after three years would be refunded to the taxpayer at that point.

I commend the bill's sponsors for aiming to provide municipalities with more flexibility in how they distribute property tax refunds following a taxpayer's successful appeal of an assessment. The refunding mechanism created in the bill can serve as a useful tool to assist local governments in managing their annual budgets.

I am concerned, however, that allowing municipalities to repay residential property tax refunds as credits spread out over three years could harm residents who are expecting - and perhaps counting on - money to be returned quickly, after having endured a potentially lengthy appeal process. Put simply, residents who have incorrectly been assessed too much in property taxes deserve to have the overcharge refunded to them promptly, rather than having to wait up to three years

to receive the money that is rightfully theirs. Even in the case of multifamily residential properties, the owner may pass the costs of not receiving an immediate refund on to rent-paying residents.

For these reasons, I am recommending revisions to Assembly Bill No. 862 (First Reprint) to give municipalities the option of providing tax credits in lieu of a refund, with immediate repayment of any remaining balance after three years, only to nonresidential property taxpayers. Reflecting the fact that tax refunds for nonresidential properties may often be substantially larger than tax refunds for residential properties, current law already provides municipalities with more flexibility for paying tax refunds owed to nonresidential property owners than to residential property owners. Allowing municipalities to provide tax refunds over three years for nonresidential properties as property tax credits, is thus a natural extension of current law that will accomplish the sponsors' principal goal of affording financial flexibility to municipalities, while avoiding the more significant disruption that could result from revising the current process for residential property taxpayers.

Therefore, I herewith return Assembly Bill No. 862 (First Reprint) with my recommendations for amendment.

Respectfully,
Philip D. Murphy
Governor

ASSEMBLY BILL NO. 1219
(Second Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am herewith returning Assembly Bill No. 1219 (Second Reprint) with my recommendations for reconsideration.

Assembly Bill No. 1219 (Second Reprint) would prohibit any rabies testing from being performed on a dead domestic companion animal until the health official requiring the rabies testing, or the veterinarian preparing and submitting the specimen for rabies testing, has complied with the requirements set forth in the bill. Such requirements include providing the owner of the animal with both written and verbal notice of the following: 1) the necessity of the rabies testing; 2) the rabies testing protocol to be followed; 3) the protocol to be followed with regard to the handling of the animal's body; 4) the protocol to be

followed with regard to the disposal of the animal's body or its return to the owner; and 5) the protocol for decapitation of the animal. The bill also requires the health official or veterinarian to obtain written acknowledgment from the owner that the necessary notification of protocols and procedures was received prior to conducting any rabies testing on the animal in question.

The bill would also increase penalties for persons who violate provisions of the law regarding the treatment of rabid animals, including the provisions of this bill, from a minimum of \$5.00 and maximum of \$50.00, to a minimum of \$50.00 and a maximum of \$250.00.

I commend the bill's sponsors for recognizing the trauma that pet owners can experience when their companions are subject to rabies testing and the pet owners have not been fully informed of the procedure. This bill will ensure that pet owners are properly informed of the protocols associated with the process in order to minimize this trauma.

While I support the laudable goals of this legislation, I am concerned that requiring a written acknowledgement could jeopardize public health if a health official or veterinarian is unable to conduct a necessary and time-sensitive procedure due to the inability to obtain the written acknowledgment. In order to properly balance the goals of this bill with the health and safety of our communities, I am recommending modest revisions to allow a health official or veterinarian to proceed with rabies testing in the absence of written acknowledgment from the owner if reasonable and documented attempts to contact the owner and obtain a signature are unsuccessful.

Therefore, I herewith return Assembly Bill No. 1219 (Second Reprint) with my recommendations for amendment.

Respectfully,

Philip D. Murphy

Governor

ASSEMBLY BILL NO. 2300

(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No. 2300 (First Reprint) without my approval.

This bill concerns the membership of a board of education of a regional school district ("regional district") in which a reapportionment of costs among the constituent municipalities of the regional district has been determined by the Commissioner of the Department of Education ("Commissioner") rather than the voters. Under these circumstances, the bill would require the regional district to apportion the membership of its board of education based on how the costs of the regional district are apportioned among the constituent municipalities, except that each constituent municipality would have at least one member on the board of education.

Current law apportions membership on regional boards of education based on the population of each constituent municipality. A regional district's apportionment of board of education membership will only change in one of the two following circumstances: (1) when the Federal census is completed; or (2) when the regional district membership either expands to include additional municipalities or contracts when a constituent municipality leaves the regional district. This bill proposes to add a third instance triggering reapportionment of board of education seats in an impacted regional district: whenever the Commissioner modifies the apportionment of costs among the constituent districts.

This bill represents a significant diversion from current practice and I am concerned that redistributing board of education seats in a manner that takes into account wealth, as measured by equalized property valuation, rather than apportioning seats based purely on population could have the effect of diluting the vote of relatively poorer districts at the expense of wealthier ones.

I am also concerned that linking apportionment of board of education membership to the Commissioner's modification of the apportionment of costs will lead to instability and unpredictability for the regional board of education. The Commissioner reevaluates the apportionment of costs on an annual basis, which, under this bill, would have the potential to result in a change in board of education membership each year. Given that individuals are elected to boards of education to serve three-year terms, the potential for yearly adjustments in board of education membership is problematic.

I commend the sponsors for their advocacy on behalf of their constituents and for seeking to maintain equity in school board representation. However, following discussions with the bill's sponsors,

my legislative colleagues and I have determined that there is additional work to be done on this bill to ensure that it achieves its intended goals.

Accordingly, I herewith return Assembly Bill No. 2300 (First Reprint) without my approval.

ASSEMBLY BILL NO. 2685

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am herewith returning Assembly Bill No. 2685 with my recommendations for reconsideration.

Assembly Bill No. 2685 amends a provision of the New Jersey Consumer Fraud Act (the "Act") that shields licensed real estate brokers, broker-salespersons, and salespersons ("real estate licensees") from possible civil liability under the Act for communicating false, misleading, or deceptive information that was provided by or on behalf of a property seller. See N.J.S. 56:8-19.1. For this immunity provision to apply, the real estate licensee must, among other things, have obtained a property condition disclosure statement from the seller and communicated the information in the statement to the buyer. N.J.S. 56:8-19.1(b)(3). Assembly Bill No. 2685 supplements this provision by adding language directing the Director of the Division of Consumer Affairs ("Director" and "Division") in the Department of Law and Public Safety to require real estate licensees to refer buyers to the "Mold Guidelines for New Jersey Residents" published by the Department of Health ("DOH") - or other guidelines deemed appropriate by the Director - when a property condition disclosure statement indicates a seller is aware of "water leakage, accumulation or dampness, the presence of mold or other similar natural substance, or repairs or other attempts to control any water or dampness problem on the real property."

I commend the sponsors of Assembly Bill No. 2685 for their efforts to ensure that buyers of property with known water-related issues are provided with the opportunity to learn about the dangers of mold and the steps that should be taken to identify and address them. But the approach taken in the bill - mandating the Director to require real estate licensees to refer buyers to the appropriate informative materials - is

unlikely to be an optimal means to ensure compliance. Significantly, the Division does not have regulatory authority over real estate licensees, and this legislation does not confer such authority. The protection from civil liability under the Act, however, does provide substantial incentive. Accordingly, this bill would be more effective if it were amended to condition the immunity provided to real estate licensees under N.J.S. 56:8-19.1 upon their compliance with the mold information referral requirement established under the bill, instead of imposing an affirmative requirement upon the Director that the Division lacks the authority to enforce. This alternate approach will meet the sponsors' goal of more effectively educating vulnerable property buyers about the dangers of mold by providing a robust, meaningful incentive to protect compliant real estate licensees from financial exposure where they might otherwise be held culpable under the Act.

The suggested amendments also incorporate recent changes made to the statute pursuant to laws that were enacted late last year.

Therefore, I herewith return Assembly Bill No. 2685 with my recommendations for amendment.

Respectfully,
Philip D. Murphy
Governor

ASSEMBLY BILL NO. 3950

(Third Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am herewith returning Assembly Bill No. 3950 (Third Reprint) with my recommendations for reconsideration.

This bill would impose criminal and civil penalties for an employer's use of a tracking device or an electronic communications device in a vehicle operated by an employee. Under the bill, it would be a fourth degree crime for an employer to knowingly use either device in a vehicle used by an employee that is not provided by the employer, if written notice has not been provided to the employee. A crime of the fourth degree is punishable by a term of imprisonment of up to 18 months, a fine of up to \$10,000, or both. If the vehicle is provided by an employer, an employer knowingly using either device without providing written notice to the employee would be a disorderly persons offense if it is the employer's first or second violation and a fourth

degree crime for each subsequent violation. A disorderly persons offense is punishable by a term of imprisonment of up to six months, a fine of up to \$1,000, or both. If an employer unknowingly violates the provisions of the bill, the employer would be subject to a civil penalty of up to \$1,000 for the first violation and \$2,500 for each subsequent violation.

While I am in complete agreement that employers should provide notice to an employee whenever a business decision is made to track the employee's movement, I do not believe that criminal penalties are an appropriate means of enforcing this requirement. Instead, I am recommending changes to impose civil penalties on employers who violate the bill. I am also recommending revisions to clarify some of the bill's vague provisions that threaten to punish otherwise lawful behavior. For example, the bill makes it a crime for an employer to "make use of" an electronic communications device in a vehicle without ever requiring that the electronic communications device actually be used for tracking an employee. As a result, an employer calling an employee on a cell phone furnished by the employer could be inadvertently covered by the bill. My recommendations protect against such an outcome by clarifying that the bill's provisions apply only to devices that are specifically designed or intended to be used for the purpose of tracking employees.

Finally, I am recommending an amendment to the definition of "employer" in the bill to exclude State and local government entities. The State has legitimate interests in protecting State property and resources, paid for by taxpayers, and has a duty to ensure those resources are used properly. To further those interests, the State may frequently take measures to ensure that State employees who use State vehicles are using those vehicles to perform State business. The purpose of this recommendation is to protect taxpayers by providing governmental agencies with the tools they need to effectively monitor the public resources with which they and their employees are entrusted.

Therefore, I herewith return Assembly Bill No. 3950 (Third Reprint) with my recommendations for amendment.

Respectfully,

Philip D. Murphy

ASSEMBLY BILL NO. 4434

(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am herewith returning Assembly Bill No. 4434 (First Reprint) with my recommendations for reconsideration.

Assembly Bill No. 4434 (First Reprint) directs the Commissioner of the Department of Education ("DOE"), in full consultation with the Commissioner of the Department of Children and Families ("DCF") (collectively, "Commissioners"), to establish the Student Wellness Grant Program ("grant program"). The grant program will provide grants to school districts to support school-based programs and practices that promote mental wellness, social and emotional learning, and student resilience.

The bill directs the Commissioners to develop criteria for the evaluation of school district applications with special consideration given to applicants that can demonstrate strong ties to relevant community resources or have secured external funding for their student wellness program from community partners. Applications will be reviewed by a team of qualified professionals assembled by both DOE and DCF.

Additionally, each school district that receives a Student Wellness Grant must prepare and submit to the Commissioner of the DOE a report on its experience with, and the effects of, the grant program. The Commissioners must submit an annual report to the Governor and the Legislature on the implementation of the grant program, which will include relevant information from the reports submitted by the participating school districts.

The bill proposes to fund the grant program by requiring the DOE to use "any available federal funds which may become available" and further requiring that any available federal funds be used prior to any State funds to effectuate its purposes.

I applaud and support the Legislature's continued efforts to respond to the mental health needs of the State's youth and empower districts to directly promote student wellness. However, the mandatory funding scheme established by the bill will hinder both current and future DOE operations and initiatives. My recommendations revise the bill's funding language to provide the DOE with necessary flexibility to fund the grant program alongside other priorities. In addition, my

recommendations would allow for a pause of the grant program in the face of insufficient available funding.

Therefore, I herewith return Assembly Bill No. 4434 (First Reprint) with my recommendations for amendment.

Respectfully,

Philip D. Murphy

ASSEMBLY BILL NO. 4851

(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 4851 (First Reprint) without my approval.

This bill would allow use of steel slag as an aggregate in commercial or industrial development or site remediation for any of twelve enumerated purposes without any further review or regulation by the Department of Environmental Protection ("DEP"), as long as the use does not cause an exceedance of a drinking water or ground water quality standard. The bill also would allow steel slag to be used as fill in site remediation without prior approval from DEP.

The Solid Waste Management Act and DEP's technical regulations for the remediation of contaminated sites are designed to ensure that New Jersey's environment and public health and safety are not jeopardized by the disposal, dumping, burying, or use of contaminated materials. Importantly, these statutes and regulations include exceptions where such concerns are not implicated. For example, DEP's rules regarding solid waste transportation, storage, processing, and disposal do not apply to materials that are reincorporated into a manufacturing process or that DEP has determined, either on a case-by-case basis or categorically, can be reused in a beneficial manner without resulting in the exceedance of applicable contaminant levels. Similarly, materials that do not meet the definition of clean fill may be used in the remediation of contaminated sites in amounts no greater than those needed to restore the site if this does not lead to increased contamination at the site (or with DEP's prior written approval).

Compliance with these regulations ensures not only the protection of drinking water, but also protection against the harmful effects of ingestion, inhalation, or contact with contaminants present in soil.

Because DEP's regulations already allow for industrial waste products to be put to productive reuse when it can be done in a safe and environmentally-sound manner, and because this bill would exempt one specific waste product without regard to whether these important safeguards have been satisfied, I herewith return Assembly Bill No. 4851 (First Reprint) without my approval.

ASSEMBLY COMMITTEE SUBSTITUTE FOR
ASSEMBLY BILL NO. 5075
(Second Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am herewith returning Assembly Committee Substitute for Assembly Bill No. 5075 (Second Reprint) with my recommendations for reconsideration.

This bill removes the Fire Engine and Equipment Museum from the auspices of the Department of Environmental Protection ("DEP") and establishes and reorganizes it as the Fire Museum and Fallen Firefighters Memorial ("Fire Museum") overseen by an independent, non-profit organization and governed by a Board of Directors (the "Board").

While I support the Fire Museum's reorganization, I am concerned that the bill may be overly prescriptive in detailing the responsibilities and duties of the Board of a private entity. I am therefore recommending, with the support of the bill's sponsors, the removal of various provisions regarding the Board that are more appropriately established by the Board through its foundational documents, bylaws, collection policies, and similar policy documents.

Therefore, I herewith return Assembly Committee Substitute for Assembly Bill No. 5075 (Second Reprint) with my recommendations for amendment.

Respectfully,
Philip D. Murphy

ASSEMBLY BILL NO. 5218
(Second Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 5218 (Second Reprint) without my approval.

The bill would allow the owner of a small restaurant, wedding venue, banquet hall, or an alcoholic beverage manufacturer to use a bonus depreciation allowance of up to \$150,000 for eligible property expenditures incurred within New Jersey to comply with the health and safety requirements of the Governor's executive orders regarding the Coronavirus disease 2019 ("COVID-19") pandemic. Bonus depreciation is a tax incentive that allows a business to immediately deduct the purchase price of eligible assets, such as machinery, rather than write them off over the "useful life" of that asset. Property expenditures eligible for a bonus depreciation allowance under the bill would include the purchase of heaters and overhangs, and upgrades to heating, ventilation, and air conditioning systems.

I commend the bill's sponsors for their efforts in advocating for small business relief during this extraordinarily challenging time. On a business level, the impacts of the COVID-19 pandemic have reached every industry in the world, but the pandemic's impacts on the restaurants, wedding venues, banquet halls, breweries, wineries, meaderies, and distilleries that drive the State's hospitality industry have been particularly acute. In recognition of this, my Administration, together with our partners in the Legislature, have provided hundreds of millions of dollars in grants, loans, guarantees of loans, and technical assistance to help these crucial businesses emerge from the COVID-19 pandemic stronger and more resilient.

While I am committed to finding innovative ways to assist New Jersey's small businesses during this critical time, I am concerned about revising tax policy midway through the Fiscal Year. According to the Legislative Fiscal Estimate accompanying this legislation, the bill's State fiscal impact would be "indeterminate." In this regard, the Office of Legislative Services ("OLS") observes that it "does not have data on the total amount of tax obligations that may be reduced due to the application of the bonus depreciation allowance and the total value of eligible property expenditures for which a deduction may be claimed" to opine on the bill's likely costs. The OLS further indicates that the bill will result in a "higher revenue loss in the near-term."

Rather than attempting to make mid-year changes to our agreed upon budget structure, a more appropriate approach to dealing with

funding choices such as those presented by this bill is through the overall annual budget negotiation process. An "indeterminate" cost that cannot be quantified, particularly one with a higher near-term impact, undermines our agreed-upon budget for the current Fiscal Year. I look forward to working collaboratively with legislative leadership on the budget for the upcoming State Fiscal Year to ensure that the State's overall tax and expenditure policy is established and maintained in a coordinated manner so that we can continue to meet our obligations to the State of New Jersey and its residents now and in the future.

Accordingly, I herewith return Assembly Bill No. 5218 (Second Reprint) without my approval.

Respectfully,
Philip D. Murphy
Governor

ASSEMBLY BILL NO. 5336

(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 5336 (First Reprint) with my recommendations for reconsideration.

This bill requires the Commissioner of the Department of Human Services ("Department") to develop a program establishing travel budgets for persons with autism spectrum disorder and persons with intellectual and developmental disabilities, and to develop regulations that encourage the use of county transportation agency services for travel to day programs and employment sites.

I applaud the sponsors' efforts to expand access to transportation services among those with intellectual and developmental disabilities. Indeed, we know that across the country, millions of individuals with disabilities experience delays in critical health care and habilitative services because of issues related to transportation. Accessible transportation is critical not only to supporting personal autonomy and independent living, but also to improving health outcomes.

While I share the sponsors' commitment to removing transportation barriers to accessing care or services, the program established in this bill presents certain operational and legal concerns, particularly regarding compliance with federal law. The vast array of options to the State, as well as the interplay between federal and State law, make this topic appropriate for a comprehensive study. My

recommendations would require the Department to examine available public and private transportation options for individuals, federal and State laws and regulations governing transportation services, and best practices for enhancing and expanding transportation services, among other issues. In order to ensure that this study is conducted expeditiously, my recommendations would further require the Department to commence the study or commence the process of obtaining a vendor to perform the study on the Department's behalf, within 60 days of the bill's enactment. I am confident that the insight gained from this study will enable us to identify the model that best suits the needs of our residents.

Therefore, I herewith return Assembly Bill No. 5336 (First Reprint) with my recommendations for amendment.

ASSEMBLY BILL NO. 6108
(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 6108 (First Reprint) with my recommendations for reconsideration.

Assembly Bill No. 6108 (First Reprint) would amend the Electrical Contractors Licensing Act of 1962, P.L.1962, c.162, (the "Act") which, as amended by P.L.1972, c.108, and P.L.2001, c.21, regulates licensing and registration of electrical contractors and journeymen electricians. The bill would move the Board of Examiners of Electrical Contractors ("Board") from the Division of Consumer Affairs ("Division") in the Department of Law and Public Safety to the Department of Labor and Workforce Development. The bill would also make several changes to the licensing requirements for electrical workers, including 1) requiring licensing of journeymen electrician, electrical apprentice, and wireman positions, 2) increasing continuing education requirements for journeymen electricians and wiremen, and 3) establishing temporary three-month licenses for out-of-state electrical workers. The bill additionally provides penalties for violations of P.L.2001, c.21, which enumerates registration requirements for journeymen electricians.

I commend the sponsors of this legislation for their efforts to ensure that all persons who perform electrical work are properly trained and supervised, and to enable the Board to take effective enforcement action against those who work without a license. However, I am concerned that some of the changes in the bill would weaken protections for New Jersey consumers. In addition, some provisions of the bill require further clarification or unnecessarily supplant more nuanced Board regulations. Consequently, I am returning Assembly Bill No. 6108 (First Reprint) with recommendations to better protect consumers and ensure the statutes operate as intended.

With regard to consumer protection, I am concerned that moving the Board out of the Division, which has as its core mission the protection of New Jersey consumers, could undermine important consumer safeguards and endanger the public. I am therefore recommending that the Board remain in the Division. In addition, while I commend the sponsors' desire to ensure that the Board can assess meaningful penalties for violations of licensure requirements, the penalty provisions included in the bill set lower limits than those that are already applicable under the Uniform Enforcement Act at N.J.S.A. 45:1-25. I am therefore recommending that the penalty provisions of the bill be deleted in their entirety.

Instead, my recommendations appropriate \$400,000 to the Division for the purpose of hiring staff to supplement the investigative and administrative support that the Division provides to the Board. This additional staff will enhance the Board's ability to fulfill its responsibilities under this bill and under the Act. And, recognizing stakeholders' interest in further exploring which Executive branch department can best support the Board, I am recommending a new provision that would allow me to transfer the Board to another Executive branch department without following the formal process required by the Executive Reorganization Act, P.L.1969, c.203, at any point in the next two years if I determine such a move to be in the public interest.

I am also concerned that the provisions of the bill related to temporary and out-of-state licenses fail to adequately ensure that persons conducting electrical work, and particularly those who supervise less experienced workers, have adequate knowledge of New Jersey laws, regulations, and codes. I am therefore recommending that temporary licenses only be available for individuals seeking to work in journeyman,

apprentice, and wireman positions, and that individuals in journeyman positions only be permitted to work under a licensed electrical contractor in a non-supervisory capacity.

In addition to these changes to protect consumers, I am also recommending several revisions to provide greater clarity and avoid unnecessary preemption of Board regulation. For example, I am expanding the bill's language authorizing journeymen electricians to exchange their registration to also include individuals currently registered as apprentices. My recommendations also clarify that an apprentice or wireman may be supervised by either a licensed contractor or a journeyman, require the Board to promulgate regulations regarding the supervision and scope of the work performed by apprentices and wiremen, and make other revisions to language concerning the role of journeymen in order to be consistent with other provisions of current law which the bill does not amend.

Therefore, I herewith return Assembly Bill No. 6108 (First Reprint) with my recommendations for amendment.

Respectfully,

Philip D. Murphy

Governor

ASSEMBLY BILL NO. 6206

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am herewith returning Assembly Bill No. 6206 with my recommendations for reconsideration.

This bill provides that, in the case of a written agreement defining a broker-salesperson or salesperson of a broker as an independent contractor, the broker-salesperson or salesperson is deemed to be an independent contractor during the period that the written agreement is or was effective. Under the bill, a broker-salesperson or salesperson of a broker is not to be considered an employee for any purpose during that period if the broker-salesperson or salesperson is exempt from the coverage under the unemployment compensation law ("UCL").

In 2018, I signed P.L.2018, c.71 ("the Brokers Act"), providing that the business affiliation between a broker and a broker-salesperson or salesperson may be that of an employment relationship or independent contractor relationship. Courts have interpreted the Brokers Act as prospective in effect, applying to contracts for the period beginning

August 10, 2018, the date of enactment of the Broker's Act. The intent of Assembly Bill No. 6206, according to the sponsors' statement accompanying the bill, is to reaffirm the intent of the Legislature as stated in the Brokers Act, regarding the employment relationship or independent contractor relationship of real estate brokers, and to retroactively enforce past written agreements regarding same.

While I do not object to the general intent of Assembly Bill No. 6206 to give certain provisions of the Brokers Act retroactive effect, I am concerned that several of the bill's provisions, as drafted, could be used as a basis for other employers in the State to misclassify workers. One provision of the bill would impose independent contractor-status upon an individual on the basis that the individual is exempt from coverage under the UCL. The UCL excludes from its coverage 25 categories of services under N.J.S.A. 43:21-19(i)(7)(A)-(Z), including certain types of agricultural work, brokerage services, domestic work, sales work, theatrical work, and transportation services, among several other categories. The categorical exemptions within the UCL are not indicative of an individual's status as an employee or independent contractor, as my Administration has argued in court filings that the UCL's categorical exemptions are specifically tailored to the context of unemployment benefits.

The effect of imparting independent contractor status upon employees in the way contemplated by this legislation could seriously erode the basic protections afforded to employees by allowing employers to use a categorical UCL exemption as a basis to deem an employee an independent contractor notwithstanding the particulars of that employee's relationship with his or her employer. Although this bill is limited in scope to the treatment of broker-salespersons or salespersons of a broker, the legal theories upon which the bill relies could be used by other employers across the State to misclassify their employees as independent contractors. The actual relationship and circumstances surrounding an individual's employment should govern, not the existence of an unrelated exemption contained in the UCL law.

In order to ensure that this bill does not inadvertently undermine the well-established legal standards that clearly differentiate between an employee and an independent contractor, I am recommending changes to the legislation that will more directly satisfy its intent. My recommendations would amend the effective date of the Brokers Act to clarify that the Brokers Act should be given retroactive effect.

Therefore, I herewith return Assembly Bill No. 6206 with my recommendations for amendment.

Respectfully,
Philip D. Murphy
