Aviation Department - Traffic Statistics

JoJo Quayson
Santiago Grullon
Jean Debrosse
Brian Levine

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized."Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Aviation Department

The region's passenger traffic bounced back solidly from March's 0.02 percent dip. Our airport system handled a record 11.15 million passengers – an improvement of 578,022 passengers compared to 2016. This 5.5 percent surge was led by a 10.6 percent jump in international passengers, or 383,723 more travelers. The strong gains by the international sector seem to suggest that the adverse impact of the travel ban evident in March data has subsided. Domestic traffic increased by 2.8 percent, up 194,299 passengers. Airlines increased total seats by 3.8 percent. The region's freight traffic achieved its sixth consecutive month of solid growth as it improved by 4.8 percent in April. Growth was sustained exclusively by the international sector's 8 percent jump - up 8,681 tons, as domestic cargo activity edged down 0.8 percent, or 486 fewer tons.
