THE STATE CAPITOL OF NEW JERSEY.

HISTORY OF NEW JERSEY.

In 1606, King James of England granted a new patent for Virginia (ignoring that of Sir Walter Raleigh, dated in 1584), in which was included the territory now known as the New England States and New York, New Jersey, Pennsylvania and Maryland. The possession of Eastern New Jersey was claimed by the Dutch, the Swedes claiming the right to the Western portion. The former built Fort Nassau, on the Delaware, near Gloucester; Fort Orange, on the Hudson, near Albany; and the Hirsse of Good Hope, on the Connecticut; the latter found the settlements along the Delaware river, after the Dutch built Nassau, the fort not being of sufficient strength to maintain their shadowy claims. Disputes as to the rightful possession of territory continued for years, until the early spring of 1664, when Charles II, sold to his brother James, Duke of York, "all that tract of land adjacent to New England, and lying and being to the westward of Long Island; bounded on the east part by the main sea and part by the Hudson river, and hath upon the west Delaware bay or river, and extendeth southward to the main ocean as far as Cape May, at the mouth of Delaware bay, and to the northward as far as the northernmost branch of said bay or river of Delaware, which is forty-one degrees and forty minutes of latitude, and worketh over thence in a straight line to Hudson river, which said tract of land is hereafter to be called by the name or names of Nova Cæsarea or New Jersey." James soon sold this to Lord Berkeley and Sir George Carteret.

The name was given in honor of Carteret, on account of his gallant defense of the Island of Jersey, at the time he was Governor of the island.

This grant regarded the Dutch and Swedes as intruders, and Berkeley and Carteret not only became Fulers, but acquired the right to transfer the privilege to others. Measures were speedily devised for peopling and governing the country. The proprietors published a constitution, dated February 10th, 1664, by which the government of the province was to be exercised by a Governor and Council and General Assembly. The Governor was to receive his appointment from the proprietors; the Council was to be selected by the Governor, who might make choice of six Councilors, at least (or twelve, at most), or any even number between six and twelve.

On the same day that the instrument of government was signed, Philip Carteret, a brother of one of the proprietors, received a commisson as Governor of New Jersey. He landed at Elizabeth in August, 1665.

The precise date of the first settlements in New Jersey is not known, though it is believed that the Danes or Norwegians, who crossed the Atlantic with the Dutch colonists, began a settlement at Bergen about the year 1624. About ten years previous, an attempt was made to form a settlement at Jersey City. In 1623, the Dutch West India Company sent out a ship under the command of Capt. Cornelius Jacobse Mey, who entered the Delaware bay and gave his name to its northern cape, and, sailing up the river to Gloucester, built Fort Nassau, which may be considered the first permanent settlement of the State.

Upon the arrival of Governor Carteret, he entered at once upon a vigorous discharge of his duties. A large number of settlers flocked thither, and at an early period the executive authority of the province was established by the appointment of a Council, composed of Captain Nicholas Varlett, Daniel Pierce, Robert Bond, Samuel Edsall, Robert Vanquellen and William Pardon. James Bollen was appointed Secretary of the province.

⁵ The first Legislative Assembly in the history of New Jersey met at Elizabethtown, on the 26th of May, 1668. The session lasted four days, and was characterized by harmony and strict attention to the business for which the Burgesses and Representatives were summoned by Governor Carteret. It may be noted that this Assembly passed laws by which twelve distinct offenses were made punishable with death. The Assembly adjourned *sine die*, and seven years elapsed before another convened. The capture of New York by the Dutch, July 30th, 1673, was followed by the subjection of the surrounding country, including the province of New Jersey. The whole of the territory, however, swung back to the possession of the English crown, by the treaty of peace with Holland, on the 9th of February, 1674.

The second General Assembly began its session on the 5th of November, 1675. Eight members of Council, including the Governor, were present, and fourteen Representatives appeared from the towns. Laws were enacted looking to the proper military defense of the province, for the institution of regular courts, and for the assessment of taxes. A code of capital laws was also adopted, similar in its provisions to that passed in 1668.

On the 18th of March, 1673, Lord Berkeley, one of the original proprietors of New Jersey, disposed of his right and interest in the province to John Fenwick and Edward Byllinge, members of the Society of Quakers, or Friends, who paid the sum of £1,000 for the same. John Fenwick received the conveyance in trust for Edward Byllinge, and a dispute as to the terms having arisen, William Penn was called in as arbitrator. He gave one tenth of the province and a considerable sum of money to Fenwick, and the remainder of the territory was adjudged to be the property of Byllinge. A permanent settlement was made at Salem, in June, 1675, and settlements were made at Burlington, "ye falls of ye Delaware" or Trenton, and a flourishing whaling station established at Cape May.

Owing to the continued disputations and dissensions, a division of the territory of the province was agreed upon. By this "Indenture Quintipartite," dated July 1st, 1676, the line of division was made to extend across the province, from Little Egg Harbor to a point in the Delaware river in forty one degrees of north latitude. These divisions were known respectively as East and West Jersey, until the charters of both were surrendered, and the two portions included together under a royal government.

By the retrocession of New Jersey to Great Britain, by the treaty of 1674, the question arose whether the title returned to the proprietors or to the King. To avoid all difficulty, the King recognized the claim of Carteret, and made a new grant to the Duke of York, who also executed a fresh conveyance to Carteret, covering, however, only a part of the original territory of New Jersey. But, before making this conveyance, the Duke included the province in a commission given to Sir Edmund Andros, Governor of New York, who refused to recognize the authority, as Governor, of Philip Carteret, arrested all magistrates who would not submit to his own jurisdiction, and finally, on April 30th, 1680, carried Carteret himself prisoner to New York. The Duke was finally prevailed upon to acknowledge the claims of the proprietors, and in 1681 the government of Andros came to an end.

East Jersey, in February, 1682, was purchased by William Penn and eleven other Quakers for £3,400. The first Governor under the new proprietors was Robert Barclay, a Scotchman, and one of the twelve purchasers, under whom the country became an asylum for the oppressed members of his creed, and for a time enjoyed great prosperity. But the number of proprietors, the frequent sub-divisions and transfers of shares, and various other difficulties in the way of good government, soon involved the province in trouble, and in 1702 the proprietors surrendered the rights of government to the Crown. Queen Anne appointed Lord Cornbury Governor of New York and New Jersey, but each continued to have a separate Assembly. In 1738, New Jersey petitioned for a distinct administration, and Lewis Morris was appointed Governor. The population was then about 40,000. The last Royal Governor was William Franklin, the illegitimate son of Benjamin Franklin. A State Constitution was adopted July 2d, 1776, and some of the most important battles of the Revolution took place upon its soil. Among these were the battles of Trenton, Princeton, Red Bank and Monmouth.

The first Legislature met at Princeton, in August, 1776, and chose William Livingston, Governor. The Federal Constitution was adopted by a unanimous vote, December 18th, 1787. The State Capital was established at Trenton, in 1790.

New Jersey, out of 98,806 men liable to do military duty, furnished 88,305 during the civil war, being 10,057 in excess of the number called for by the general government, and within 10,501 of her entire militia at that time. Of this number 79,348 served with State organizations, and the remainder in regiments of other States. The naval and marine enlistments from New Jersey numbered 4,853. The entire expense to the State for organizing, equipping, subsisting, supplying and transporting her troops, was \$2,894,384.99.

DECLARATION OF INDEPENDENCE

OF THE

UNITED STATES.

When, in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume, among the powers of the earth, the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident: that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty and the pursuits of happiness. That, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that whenever any form of government becomes destructive of these ends, it is the right of the people to alter or abolish it, and to institute a new government, laying its foundations on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and accordingly, all experience hath shown that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But, when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security. Such has been the patient sufferance of these colonies, and such is now the necessity which constrains them to alter their former systems of government. The history of the present king of Great Britain is a history of repeated injuries and usurpations, all having, in direct object, the establishment of an absolute tyranny over these States. To prove this, let facts be submitted to a candid world:

He has refused his assent to laws the most wholesome and necessary for the public good.

He has forbidden his Governors to pass laws of immediate and pressing importance, unless suspended in their operations till his assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other laws for the accommodation of large districts of people, unless those people would relinquish the right of representation in the Legislature—a right inestimable to them, and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable and distant from the repository of their public vecords, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved representative houses repeatedly, for opposing, with manly firmness, his invasions on the rights of the people.

He has refused, for a long time after such dissolutions, to cause others to be elected; whereby the legislative powers, incapable of annihilation, have returned to the people at large for their exercise; the State remaining, in the meantime, exposed to all the dangers of invasions from without, and convulsions within.

He has endeavored to prevent the population of these States; for that purpose, obstructing the laws for the naturalization of foreigners; refusing to pass others to encourage their migration hither, and raising the conditions of new appropriations of lands.

He has obstructed the administration of justice, by refusing his assent to laws for establishing judiciary powers.

He has made judges dependent on his will alone, for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of new offices, and sent hither swarms of officers to harass our people, and eat out their substance.

He has kept among us in times of peace, standing armies, without the consent of our Legislatures.

He has affected to render the military independent of, and superior to, the civil power.

He has combined, with others, to subject us to a jurisdiction foreign to our constitutions, and unacknowledged by our laws; giving his assent to their acts of pretended legislation:

For quartering large bodies of armed troops among us;

For protecting them, by a mock trial, from punishment, for any murders which they should commit on the inhabitants of these States;

For cutting off our trade with all parts of the world; For imposing taxes on us without our consent; For depriving us, in many cases, of the benefit of trial by jury;

For transporting us beyond seas to be tried for pretended offenses;

For abolishing the free system of English laws in a neighporing province, establishing therein an arbitrary government, and enlarging its boundaries, so as to render it at once an example and fit instrument for introducing the same absolute rule into these colonies;

For taking away our charters, abolishing our most valuable laws, and altering, fundamentally, the forms of our governments;

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated government here, by declaring us out of his protection, and waging war against us.

He has plundered our seas, ravaged our coasts, burned our towns, and destroyed the lives of our people.

He is, at this time, transporting large armies of foreign mercenaries to complete the works of death, desolation and tyranny, already begun, with circumstances of cruelty and perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the head of a civilized nation.

He has constrained our fellow-citizens, taken captive on the high seas, to bear arms against their country, to become the executioners of their friends and brethren, or to fall themselves by their hands.

He has excited domestic insurrection among us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these oppressions, we have petitioned for redress, in the most humble terms; our repeated petitions have been answered only by repeated injury. A prince whose character is thus marked by every act which may define a tyrant, is unfit to be the ruler of a free people.

Nor have we been wanting in our attentions to our British brethren. We have warned them, from time to time, of ttempts by their Legislature to extend an unwarrantable urisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them, by the ties of our common kindred, to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They, too, have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our separation, and hold them, as we hold the rest of mankind, enemies in war, in peace, friends.

We, therefore, the representatives of the United States of America, in General Congress assembled, appealing to the Supreme Judge of the World for the rectitude of our intentions, do, in the name and by the authority of the good people of these colonies, solemnly publish and declare, that these United Colonies are, and of right ought to be, Free and Independent States; that they are also absolved from all allegiance to the British crown, and that all political connection between them and the State of Great Britain, is, and ought to be, totally dissolved; and that, as Free and Independent States, they have full power to levy war, conclude peace, contract alliances, establish commerce, and do all other acts and things which Independent States may of right do. And, for the support of this declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other, our lives, our fortunes and our sacred honor.

[See XIIth amendment.]

But the congress may, by law, vest the appointment of such inferior officers as they think proper in the President alone, in the courts of law, or in the heads of department.

3. No person held to service or labor in one State, under the laws thereof, escaping into another, shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up, on claim of the party to whom such service or labor may be due.

HOW NEW STATES ARE ADMITTED. Section III.

1. New States may be admitted by the congress into this Union; but no new State shall be formed or erected within the jurisdiction of any other State, nor any State be formed by the junction of two or more States or parts of States, without the consent of the legislatures of the States concerned, as well as of the congress.

THE DISPOSITION OF TERRITORIES.

2. The congress shall have power to dispose of, and make all needful rules and regulations respecting, the territory or other property belonging to the United States; and nothing in this constitution shall be so construed as to prejudice any claims of the United States, or of any particular State.

GUARANTY AND PROTECTION OF THE STATES BY THE UNION.

Section IV.

The United States shall guarantee to every State in this Union a republican form of government, and shall protect each of them against invasion; and, on application of the legislature or of the executive (when the legislature cannot be convened), against domestic violence.

ARTICLE V.

3. Each house shall choose its own officers, determine the rules of its proceedings, punish its members for disorderly behavior, and, with the concurrence of two-thirds, may expel a member.

5. He shall preserve order and decorum, and in debate shall prevent personal reflections, and confine members to the question under discussion; but he shall not engage in any debate, nor propose his opinion on any question, without first calling on some member to occupy the chair. When two or more members rise at the same time, he shall name the one entitled to the floor.

6. He shall decide questions of order, subject to an appeal to the House, when demanded by any four members, on which appeal no member shall speak more than once, unless by leave of the House.

7. All questions before the House shall be stated by the Speaker, and distinctly put in the following form, to wit: "As many as are in favor of (the question) will say aye;" and after the affirmative is expressed, "Those of a contrary opinion, no." If the Speaker doubts, or a division be called for, the House shall divide; those in the affirmative of the question shall first rise from their seats, and afterwards those in the negative; and in case of an equal division, the Speaker shall decide.

8. All Committees shall be appointed by the Speaker, unless otherwise specially directed by the House.

9. All acts, a ldresses and joint resolutions shall be signed by the Speaker; and all writs, warrants and subpœnas issued by the order of the House shall be under his hand and seal, and attested by the Clerk. If the Speaker be absent, a less number of members than a quorum may appoint a Speaker pro tempore, who may sign any warrants, or perform any act requisite to bring in absent members.

10. He shall have a general direction of the hall, and he may name a member to perform the duties of the Chair; but such substitution shall not extend beyond a second adjournment.

Of the Order of Business.

11. After the reading of the journal, the business of the first meeting of each day shall be conducted in the following manner, to wit:

I. Letters, petitions and memorials, remonstrances and accompanying documents may be presented and disposed of.

II. Reports of Committees may be read.

III. Original resolutions may be offered and considered; items of unfinished business referred; motions to reconsider and to appoint additional members of Committees made; and leave of absence, leave to withdraw documents, and leave to introduce bills asked.

Leave for Bills and to Introduce Bills.

IV. Bills and joint resolutions on a third reading may be taken up.

V. The House shall then proceed in the order of the day, preference being always given to the unfinished business of the previous sitting; after which bills and joint resolutions on a second reading shall be taken in their order; and the House, in its afternoon session, will proceed to business as though there had been no adjournment of its morning session, excepting that original resolutions, and leave to introduce bills of Committees, be the first business in the afternoon session; and shall, on demand of the majority, proceed with the order of the day.

12. The Clerk shall make a list of all public bills and joint resolutions. He shall keep a separate calendar of private bills. No bills for granting, continuing, altering, amending, or renewing a charter for any corporation, other than a municipal corporation, shall be placed on the calendar of public bills. All bills, public and private, shall be numbered according to the time of their introduction into the House. They shall be taken up and considered in the order of time in which they were reported, or ordered to a third reading, as appears by the calendar; and the calendar shall be proceeded in until all the bills thereon are called up before the commencement of the calendar anew.

13. All messages shall be sent from this House to the Senate by the Clerk.

Of Decorum and Debate.

14. When a member is about to speak in debate, or communicate any matter to the House, he shall rise from his seat and respectfully address himself to the Speaker, confining himself to the question under debate, and avoiding personality.

15. If any member in debate transgress the rules of the House, the Speaker shall, or any member may, call him to order, in which case the member so called to order shall immediately sit down, unless permitted to explain. The House shall, if appealed to, decide on the case, but without debate; if there be no appeal, the decision of the Chair shall be submitted to. If the decision be in favor of the member called to order, he shall be at hiberty to proceed; if otherwise, he shall not be permitted to proceed without leave of the House, and if the case require it, he shall be liable to censure of the House.

16. If a member be called to order for words spoken in debate, the person calling him to order shall repeat the words excepted to, and they shall be taken down in writing at the Clerk's table; and no member shall be held to answer, or be subject to the censure of the House, for words spoken in debate, if any other member has spoken, or other business has intervened after the words spoken, and before exception to them shall have been taken.

17. No member shall speak more than twice, or longer than five minutes each time, without leave of the House.

18. While the Speaker is putting any question, or addressing the House, none shall walk out of or across the hall; nor in such case, or when a member is speaking, shall anyone entertain private discourse; nor shall anyone, while a member is speaking, pass between him and the Chair.

19. No member shall vote on any question in the event of which he is particularly interested, nor in any case where he was not within the bar of the House when the question was put.

20. Every member who shall be in the House when the question is put shall give his vote, unless the House for special reasons shall excuse him. All motions to excuse a member from voting shall be made before the House divides, or before the call of the yeas and nays is commenced; any member requesting to be excused from voting may make a brief verbal statement of the reasons for such request, and the question shall then be taken without further debate.

21. Petitions, memorials and other papers addressed to the House shall be presented by the Speaker, or by a member in his place; a brief statement of the contents thereof shall be made by the introducer, and, if called upon, he shall declare that it does not, in his opinion, contain any indecent or reproachful language, or any expressions of disrespect to the House, or any committee of the same.

22. It shall be the duty of the Sergeant-at-Arms, at all times, not to allow any person to smoke in the Assembly chamber.

On Motions.

23. Every motion shall be reduced to writing, if the Speaker or any member desire it.

24. When a motion is made and seconded, it shall be stated by the Speaker, or being in writing, it shall be handed to the Chair and read aloud by the Clerk, when it shall be deemed to be in the possession of the House and open to debate; but it may be withdrawn at any time before a decision or amendment.

25. When a question is under debate no motion shall be received but—

- 1. To adjourn.
- 2. A call of the House.
- 3. To lay on the table.
- 4. For the previous question.
- 5. To postpone indefinitely.
- 6. To postpone to a day certain.
- 7. To go into a Committee of the Whole on the pending subject immediately.
- 8. To commit to a Committee of the Whole
- 9. To commit to a Standing Committee.
- 10. To commit to a Select Committee.
- 11. To amend.

Which several motions shall have precedence in the order in which they are stated, and no motion to postpone to a day certain, to commit, or to postpone indefinitely, being decided, shall be again allowed on the same day, and at the same stage of the bill or proposition.

26. A motion to strike out the enacting clause of a bill or joint resolution shall have precedence of a motion to amend, and if carried shall be considered equivalent to its rejection.

27. A motion to adjourn shall be always in order, except when the House is voting, or while a member is addressing the House, or immediately after the question to adjourn has been negatived; that, and the motion to lay on the table, shall be decided without debate.

28. Any member may call for a division of the question, which shall be divided if it comprehends questions so distinct that one being taken away from the rest may stand entire for the decision of the House; a motion to strike out and insert shall be deemed indivisible; but a motion to strike out being lost, shall preclude neither amendment nor a motion to strike out and insert.

29. When any motion shall be made and seconded, the same shall, at the request of any two members, be entered on the Journal of the House.

30. When a motion has been once made and carried in the affirmative or negative, it shall be in order for any member who voted with the prevailing party to move for the reconsideration thereof, on the same day or on the next day of actual session of the House thereafter; all motions may be reconsidered, by a majority of the members present; but bills, to be reconsidered, must have the same majority that would be necessary to pass them; and such vote, on motion to reconsider, shall be by taking the yeas and nays.

31. When a blank is to be filled, the question shall first be taken on the largest sum, or greatest number, and remotest day.

32. The yeas and nays shall be entered on the Journal of the House, when moved for and seconded by five members, and in taking the yeas and nays the names of the members, including the Speaker, shall be called alphabetically.

33. The previous question shall be put in this form: "Shall the main question be now put?" It shall only be admitted when demanded by a majority of the members present, and its effect shall be, if decided affirmatively, to put an end to all debate, and bring the House to a direct vote upon amendments reported by a committee, if any, then upon pending amendments, and then upon the main question; if decided in the negative, to leave the main question and amendments if any, under debate for the residue of the sitting, unless sooner disposed of by taking the question, or in some other manner. All incidental questions of order arising after a motion is made for the previous question, and pending such motion, shall be decided, whether on appeal or otherwise, without debate.

34. After the Clerk has commenced calling the yeas and nays on any question, no motion shall be received until a decision shall have been announced by the Chair.

Of the Committee of the Whole House.

39. In forming a Committee of the Whole House, the Speaker shall leave his chair, and a chairman to preside in committee shall be appointed by the Speaker.

40. The rules of proceeding in the House shall be observed, as far as practicable, in Committee of the Whole, except that any member may speak oftener than twice on the same subject, but shall not speak a second time until every member choosing to speak shall have spoken; nor shall a motion for the previous question be made therein.

41. All amendments made in Committee of the Whole shall be noted by the Clerk, but need not be read by the Speaker on his resuming the chair, unless required by the House.

On Bills and Joint Resolutions.

42. All bills and joint resolutions shall be introduced by motion for leave, or on the report of a committee, and the member offering the same shall indorse his name on them, that the committee may confer with him should they so desire.

43. Every bill and joint resolution shall receive three separate readings in the House previous to its passage, but no bill or joint resolution shall be read twice on the same day, without special order of the House.

44. All bills and joint resolutions shall, after their first reading, be printed for the use of the members, and referred to their appropriate committees.

45. All bills and joint resolutions may be made the order of a particular day, on which day they shall be taken up in preference to others on the calendar; and the calendar of private bills shall not be taken up until the calendar of public bills shall have been gone through with. 46. All bills and joint resolutions, previous to their final passage by the House, all petitions, motions and reports, may be committed at the pleasure of the House. And the recommitment of any bill or resolution, when the same has been ordered to a third reading, shall have the effect of placing the same upon the second reading.

47. All bills and joint resolutions ordered to be engrossed shall be executed in a fair, round hand, and no amendment by way of rider shall be received to any bill or joint resolution on its third reading.

48. On a motion to strike out any item in the incidental bill, the question to be submitted to the House shall be, "Shall the item be retained in the bill?" and a majority of all the members of the House shall be necessary to adopt the same.

49. After the introduction of any private bill, the applicants for said bill shall, at their own expense, furnish the usual number of copies for the use of the members, unless the printing thereof be dispensed with by a special order of the House.

50. On the question of the final passage of all bills and joint resolutions, the yeas and nays shall be entered on the journal of the House.

51. Whenever a bill or resolution that has passed the House shall be carried to the Senate, all papers and documents relating thereto, on the files of the House, shall be carried with such bill or resolution to the Senate.

Of Rules.

52. No standing rule or order of the House shall be rescinded or changed without one day's notice being given of the motion therefor; nor shall any rule be suspended except by a vote of the majority of the whole number of members of the House.

53. When an Assembly bill is returned amended by the Senate, the report thereof by the Secretary of the Senate shall be taken as the first reading, and the same be entitled to a second reading, without a motion for that purpose; after its second reading, the question shall be, "Shall the Senate amendments to Assembly bill No. — have a third reading?" If ordered to a third reading, the amendments shall be read, but these readings shall be on different days; the question shall then be, "Will the House of Assembly concur in the Senate amendments to Assembly bill No. —?" upon which question the votes shall be by yeas and nays. If concurred in by a majority of the whole House, the bill shall be re-engrossed, the amendments embodied therein, and the re-engrossed bill examined and reported npon by the Committee on Engrossed Bills, and read in open Assembly, to the end that it may be

known to be correctly engrossed, and then signed and certified as other bills.

54. Cushing's Manual shall in all cases, when not in conflict with the rules adopted by the House, be considered and held as standard authority.

55. No person shall be allowed on the floor of the House during its sessions except State officers and members and officers of the Senate, unless by written permission of the Speaker.

58. Every bill amended in the House, after its report by the committee to which it was referred upon introduction, shall, when ordered to be engrossed and have a third reading, be delivered to the Committee on Bill Revision, whose duty it shall be to examine the same, and if it be found that such amendment agrees with the context the bill shall then be engrossed. If in the opinion of the committee such amendment is, as to form, improper, they shall report to the House with such recommendation as they think fit. Such report shall be made within two days from the receipt of the bill.

59. That hereafter any motion or resolution which will result in relieving a standing committee of a bill referred to it, shall not be entertained unless one day's notice shall be given the House of the introduction of such motion or resolution.

JOINT RULES AND ORDERS

OF THE

SENATE AND GENERAL ASSEMBLY.

In every case of an amendment of a bill agreed to in one House and dissented from in the other, if either House shall request a conference and appoint a committee for that purpose, and the other House shall also appoint a committee to confer, such committee shall, at a convenient hour to be agreed on by their respective chairmen, meet in conference, and state to each other, verbally or in writing, as either shall choose, the reasons of their respective Houses for and against the amendment, and confer freely thereon.

2. After each House shall have adhered to their disagreement, a bill or resolution shall be lost.

3. When a bill or resolution which shall have passed in one House is rejected in the other, notice thereof shall be sent to the House in which the same shall have passed.

4. Each House in which any bill or resolution shall have passed shall transmit therewith to the other House all papers and documents relating to the same.

5. When a message shall be sent from either House to the other, it shall be announced at the door of the House by the doorkeeper, and shall be respectfully communicated to the Chair by the person by whom it is sent.

6. After a bill shall have passed both Houses, it shall be delivered by the Clerk of the Assembly, or the Secretary of the Senate, as the bill may have originated in one House or the other, to a Joint Committee on Passed Bills, of two from each House, appointed as a Standing Committee for that purpose, and shall be presented by said committee to the Governor for his approbation, it being first indorsed on the back of the bill, certifying in which House the same originated, which indorsement shall be signed by the Secretary or Clerk, as the case may be, of the House in which the same did originate, and shall be entered on the journal of each House. The said committee shall report on the day of presentation to the Governor, which time shall also be carefully entered on the journal of each House.

STATE INSTITUTIONS.

THE STATE CAPITOL.

This edifice, a massive structure, erected at sundry times and various periods, is located on West State street, at the cornier of Delaware street, running thence westerly along State street to the grounds of the late ex-Chancellor Green, and southerly to the Water Power. The location is a good one, and although the style of the building is not modern, yet it answers the purposes for which it was intended, even if it does not present a very imposing appearance.

The seat of Government was fixed at Trenton by an act of the Legislature, approved November 25th, 1790. James Cooper, Thomas Lowery, James Ewing, Maskell Ewing, George Anderson, James Mott and Moore Furman were appointed commissioners to select, purchase or accept so much land as was needed, and to erect thereon suitable buildings for the use of the Legislature. Thev purchased the present site, containing about three and three-quarters acres—a frontage on Second street (now West State street) of 247 feet and 6 inches, and a depth from the front to low water line of the Delaware river of 666 feet—at a cost of £250 5s. The old State House was a plain, bare-looking, rough-cast building, and was erected at a cost of £3,992 3s. 1d. By an act of March 4th, 1795, a building was erected to serve as an office for the Secretary of State, and for the preservation of the public records, at a cost of £620 19s. 10d. Numerous improvements and repairs were made, and on March 3d, 1806, an act was passed appointing commissioners to make certain repairs to the State House, to provide and hang a suitable bell, &c. This was done, and the bell was used for informing the members of both houses, as well as the courts, of the hour of meeting. The bell was eventually discarded, and an American flag substituted, which waves from the building unto this day, when the Legislature is in session, and upon holidays and State occasions. In 1848, the State House was altered by the removal of the (116)

rough-casting, and changing the front to the style of the Mercer County Court House, placing neat porticoes over the front and rear entrances, and erecting two additional buildings adjoining the main one, as offices for the Clerks of the Chancery and Supreme Courts. The rotunda was also erected, and the grounds fenced, graded, laid out and shade trees planted, all at a cost of \$27,000. The commissioners under whose directions the work was completed, were Samuel R. Gummere, Samuel R. Hamilton and Stacy A. Paxson. In 1863, '64 and '65, appropriations were made and expended in building additions for the State Library, Executive Chambers, &c. In 1871, Uharles S. Olden, Thomas J. Stryker and Lewis Perrine were appointed commissioners to cause a suitable addition to be built-more commodious apartments for the Senate and Assembly, &c. The sum of \$50,000 was appropriated, and the buildings for the Legislature were ready for occupancy in time for the meeting of the Legislature of 1872. In 1872, \$120,000 was appropriated for completing the building, \$3,000 for fitting up the Executive Chamber, \$4,000 for fitting up the Chancery and Supreme Court rooms, and \$2,000 for fitting up the offices on the first floor of the east wing. In 1873, the sum of \$43,000 was appropriated for the improvement of the front of the building, completing unfinished repairs and improvements, and for fitting up the Library, &c. On March 18th, 1875, the sum of \$15,000 was appropriated for the purpose of putting a new three-story front to the building, and to fit up offices on the second floor for the Clerks of the Court of Chancery and Supreme Court, and for providing a suitable museum for geological specimens. and the battle-flags of New Jersey volunteer regiments, carried during the war of the Rebellion.

On March 21st, 1885, the front portion was destroyed by fire, and the Legislature appropriated \$50,000 for rebuilding, and, in 1886, an additional appropriation of \$225,000 was granted.

The new building was finished in 1889. It is of rectangular shape and of the Renaissance style of architecture, with a frontage of one hundred and sixty feet on State street, a depth of sixty-seven feet, and three and a half stories high, with a rotunda thirty-nine feet across, which connects the new section of the Capitol with the original part. The rotunda is surmounted by a dome one hundred and forty-five feet high. The building has about sixty feet more frontage than the former one, and approaches about ten feet nearer the street.

The walls are constructed of solid, fire-proof, brick masonry, faced with a light-colored stone from Indiana, known as Salem Oolitic, with foundations and trimmings of New Jersey freestone, from the Prallsville quarries, in Hunterdon county. The portico, door-head and trimmings about the door are of the same material. The portico, with balcony, is supported by massive pillars of polished granite and surmounted by the coat of arms of the State.

The apartments used for offices are very spacious, fitted throughout in the most approved modern style, and each department is supplied with one or more of the finest fire-proof vaults. The first and second stories are set aside for offices, and the entire third story is used for the State Library.

The old State Library apartments have been improved and extended, and are now used as offices for the Attorney-General, State Superintendent of Public Instruction and Commissioner of Banking and Insurance. A new story was added, which is used for the Geological Museum and State offices.

In 1891, a new Assembly Chamber was erected. The old one was too small and poorly ventilated, and besides, there was a lack of suitable committee rooms. The Legislature of 1891 passed a Joint Resolution, which was approved on March 20th, authorizing the Governor "to provide a suitable chamber and committee rooms for the use of the General Assembly of this State," &c., and also, "to make such additions and alterations as will afford the necessary accommodations for the Supreme Court and Court of Errors and Appeals, or for other State offices, and sufficient money is hereby appropriated for that purpose, to be paid by the Treasurer of this State on the warrant of the Comptroller, after approval by the Governor."

The new chamber was built by James W. Lanning, of Trenton, from plans prepared by James Moylan, of Jersey City, and under the superintendency of Bernard J. Ford, of Newark. It covers the site of the former chamber, and extends beyond it to Delaware street on the east and to the water power on the south. It has a frontage on Delaware street of 120 feet and a depth of 75 feet. The exterior finish and design of the building are similar to the adjoining portion of the Capitol. The foundation is of brown stone, from the Stockton quarries, and the trimmings of light Indiana stone. The interior is finished in Trenton tile, quartered oak and Italian statuary marble. It is a fire-proof building throughout, and is specially ventilated. The committee rooms are ample and convenient, and the interior design, arrangement and finish make it a model legislative chamber. It cost the State \$140,500. The cost of the steam heating and ventilating systems was about \$25,000.

The other new addition to the Capitol provides a consultation room for the Judges of the Supreme Court and the Court of Errors and Appeals and a private room for the Governor, a room for the Museum of the Geological Survey, and other offices, and cost \$34,500.

An electric light apparatus was also placed in the Capitol, which cost \$23,000. Every department in the building is now lighted by electricity.

A new Otis elevator has been placed in the front part of the building, which gives easy access to all the upper floors.

THE STATE LIBRARY,

This valuable collection of books is located on the third floor of the State Capitol. The old saying, "Great oaks from little acorns grow," most appropriately applies to this institution.

The first library of the State was a case ordered to be procured by Maskell Ewing, Clerk of the House of Assembly, for the keeping and preservation of such books as belonged to the Legislature. It was ordered by a resolution passed March 18th, 1796. This was the nucleus of the present extensive library. On February 18th, 1804, William Coxe, of Burlington; Ezra Darby, of Essex, and John A. Scudder, of Monmouth, were appointed a Committee on Rules, and to make a catalogue; they reported that there were 168 volumes belonging to the State, and presented a code of seven rules, which was adopted. On February 10th, 1813, an act (the first one) was passed, entitled "An act concerning the State Library." Up to 1822 it appears that the Clerk of the House had charge of the books, as Librarian, and, on November 16th, 1822, an act was passed for

the appointment of a State Librarian, annually, by joint meeting. In 1846, on April 10th, an act was passed making the term of office three years. The Law Library at that time belonged to the members of the Law Library Association. The only persons allowed the use of the Library were members of the Association, the Chancellor, and the judges of the several courts. Stacy G. Potts was Treasurer and Librarian of the Association. The Law Library was kept in the Supreme Court room until 1837, when the Legislature authorized the State Librarian to fit up a room adjoining the Library for the care and reception of the books and papers belonging to the State Library. Thus the two Libraries were consoli-dated. On March 13th, 1872, \$5,000 per year for three years was appropriated for the Library by the Legislature, and by the act of March 15th, 1876, the sum of \$2,500 was appropriated for finishing and refurnishing the Library room. In 1890, the Library was removed to the third story of the new part of the Capitol.

THE STATE ARSENAL.

The building now used as the State Arsenal was formerly the old State Prison. It is situate on Second street, in the Sixth Ward of the city of Trenton, and has on its front the following inscription:

LABOR, SILENCE, PENITENCE. THE PENITENTIARY HOUSE, ERECTED BY LEGISLATIVE AUTHORITY. RICHARD HOWELL, GOVERNOR. IN THE XXII. YEAR OF AMERICAN INDEPENDENCE, MDCCXCVII. THAT THOSE WHO ARE FEARED FOR THEIR CRIMES, MAY LEARN TO FEAR THE LAWS AND BE USEFUL. HIC LABOR, HOC OPUS.

In the messages of Governors P. D. Vroom and S. L. Southard, recommending the erection of the new prison, it

was proposed that the old one be converted into an Arsenal for the safe keeping of the arms and military property of the State, which, previous to that time, had been kept in the old State Bank, corner of Warren and Bank streets, with accoutrements and camp and garrison equipage at the State House. After the removal of the State convicts from the old prison, permission was given to the county of Mercer to occupy it as a jail until its jail, then in course of completion, was finished, and when it was again vacated it was converted into an arsenal.

Among the stores, &c., at the Arsenal are one bronze gun, French, of the date of 1758; two bronze guns, English, four-pounders, and two iron six-pounders. There is also one gun captured at the battle of Trenton, December 26th, 1776, and two guns captured at Yorktown, October 19th, 1781. There are also a large quantity of fire-arms, ammunition, ordnance, tents, clothing, blankets, &c.

NEW JERSEY STATE HOSPITAL.

TRENTON.

This institution is located in Ewing township, in Mercer county, about two miles northwest of Trenton, on the right bank of the Delaware river. The buildings are constructed of reddish sandstone, obtained from quarries near the hospital, and are located on an elevation of about seventy-five feet above the river. The front of the Main or Administration Building is ornamented by a handsome porch of Ionic architecture, designed by the celebrated Notman, from which may be obtained one of the finest landscape views in the State.

In 1844, after repeated and unsuccessful attempts to cause action to be taken by the Legislature for the building of a State instution for the special care and treatment of the insane, a commission was appointed, chiefly through the earnest efforts of Dr. Lyndon A. Smith, of Essex. and Dr. Lewis Condict, of Morris, and the eminent philanthropist, Miss D. L. Dix, to select a site. An appropriation of \$35,000 was made to purchase the land, and to commence the erection of the building. The present site was selected by the commissioners from among many that were offered in various sections of the State because of the large spring of excellent water found on the place. This spring was developed, and furnished a daily supply of about one-half millions of gallons of pure water for many years. In the severe drought of 1880 the supply was greatly diminished, falling off nearly two hundred and fifty thousand gallons, and it has never regained its full and former capacity. The spring is now supplemented by driven wells, three in number, and each one over three hundred feet deep. These with the spring, are capable of supplying daily a half million gallons of excellent water. In 1896 a standpipe for storing water and securing a fire pressure was erected, with a capacity of five hundred thousand gallons.

Work was commenced on the main building in November of 1845, and the hospital was opened for the reception of patients on the 15th day of May, 1848. Numerous additions have been made from time to time to the building, increasing its capacity from fifty patients, in 1848, to eight hundred and fifty patients, in 1898.

In 1887, the Legislature passed an act appropriating \$100,000 for providing additional accommodations. The new building is a handsome structure of red sandstone, and similar to that used in the main building. This is five hundred feet long, three stories in height, and capable of accommodating three hundred patients, one hundred and fifty of each sex. The building is designed to accommodate the chronic incurable class, and was a great relief from the overcrowded state that existed in the main building prior to its completion. The building was completed within the appropriation, and opened for the reception of patients in the month of October, 1889.

Since the opening of the institution in May, 1848, there have been received and treated 9,328 patients, 4,693 men and 4,635 women. At the close of the fiscal year, October 31st, 1898, there were under care in the hospital 1,119 patients, 555 men and 564 women. Much has been done for the comfort and pleasure of the patients. A green-house has been erected for the purpose of furnishing plants and flowers for the patients' corridors, handsome pictures adorn the walls, and everything about the hospital presents a comfortable and homelike appearance.

The institution possesses a library, one of the largest, if not the largest, in this country connected with a hospital for the insane. The books are accessible to all members of the household. They have been freely used, and do much to relieve the monotony of many an hour of hospital life. The library now consists of about 4,000 volumes, and is the result of the bequest of a former nurse (Anne Robinson), who, by will, bequeathed her earnings for several years as a nurse and attendant in this hospital. She made the bequest, as she herself expressed it when making her will, for the purpose of purchasing books to be used for the pleasure and benefit of those to whom she had, for so many years, endeavored to minister.

During the year 1898, a handsome amusement room, capable of seating about four hundred, was finished; also, a large and commodious chapel, in which religious exercises are held from time to time; various clergymen, without regard to denominational preference, officiate every Sunday. The new chapel is capable of seating about five hundred patients.

NEW JERSEY STATE HOSPITAL.

MORRIS PLAINS.

In order to relieve the crowded condition of the Trenton Asylum, and make further provision for the increasing number of the insane, commissioners were appointed by the Legislature of 1871 to select a site and build an institution in the northern portion of the State. About 408 acres of land were purchased, at a cost of \$78,732.36, in Hanover township, Morris county, and a site for the institution was selected on the foot-hills of the Watnoug range of the Blue Ridge Mountains, at an elevation of 520 feet above the sea level. The location is ideal for an institution of its kind, being unsurpassed in this particular by any similar institution in this country. A magnificent view of the surrounding country is commanded. The air is cool and balmy in summer, and crisp and stimulating in winter.

The institution is a four-story building, of granite quarried on the premises, and trimmed with brown sandstone. The total length is 1,243 feet, and the depth, from the front of the main center building to the rear of the extreme wings, is 542 feet, constituting at present the largest institution for the insane under one roof in the world, and one of the finest buildings of its kind in the United States. The building was planned and constructed to accommodate 800 patients, but at present has a population of more than 1,250 insane. The total cost was about \$2,250,000. It was first occupied by patients on August 17th, 1876.

The Legislature of 1895 appropriated \$125,000 for additional buildings and improvements. The foundation of the new building was laid to accommodate 600 patients, and provide suitable laboratory facilities for the further prosecution of scientific work. An appropriation was also made for the extension of the water-supply, and an additional tract of land was purchased, bringing the total extent of the hospital's property up to about 720 acres. On a portion of this land an additional reservoir, with a capacity of 6,500,000 gallons, has since been built. The Legislature of 1898 appropriated \$150,000, enabling the management to give out contracts looking to the completion of the administration portion of the building, the north wing, associate dining-rooms, amusement hall, and pathological laboratories.

The barns and outbuildings belonging to the institution are in excellent condition, and the farm is in a high state of cultivation.

THE NEW JERSEY STATE NORMAL AND MODEL SCHOOLS.

These schools are the property of the State, and are located at the junction of Perry street and Clinton avenue, Trenton. There are two buildings, the one for the schools located on the west side of Clinton avenue, the other, containing the boarding halls and dormitories, situated on the east side of the avenue. These schools were established in 1855 by an act of the Legislature. The purpose of the Normal School was defined to be "the training and education of its pupils in such branches of knowledge, and such methods of teaching and governing, as will qualify them for teachers of our common schools." The Model School was designed to be a place where "the pupils of the Normal School shall have opportunity to observe and practice the modes of instruction and discipline inculcated in the Normal School, and in which pupils may be prepared for the Normal School."

The following figures show the original cost and present valuation of the Normal School property :

STATE REFORM SCHOOL FOR BOYS.

This institution is situate at Jamesburg, Middlesex county, and was authorized by an act of the Legislature, passed April 6th, 1865. Juvenile criminals between the ages of eight and sixteen years are here cared for, and every influence tending to their reformation is brought to bear upon them. Numerous additions have been made to the original building, to which is attached a farm of 490 acres. The first pupils were received July 6th, 1867.

STATE INDUSTRIAL SCHOOL FOR GIRLS.

This institution is located on the line of the Trenton Branch of the Delaware and Bound Brook Railroad, in Ewing township, near the Trenton Lunatic Asylum, and is located on a

THE STATE PRISON.

farm of about 79 acres of land. A substantial building was erected, at a cost of \$23,334, and other improvements made, which bring the value of the place, with furniture, &c., up to \$37,740. Previous to the erection of the new building, the school was at "Pine Grove," in the Sixth Ward of the city of Trenton. This place had been leased so as to afford room for persons sentenced under the act of April 4th, 1871.

THE STATE PRISON.

The New Jersey State Prison, situated on the block enclosed by Federal, Third, Cass and Second streets, in the city of Trenton, is one of the finest institutions of its kind in the country. Its erection was authorized by an act of the Legislature passed February 13th, 1832, and it was completed in the year 1836, having 150 cells, at a cost of \$179,657.11. It was built of red sand-stone, from the Ewing quarries, and the style of its architecture is Egyptian, having four Egyptian columns in front of the main entrance, on Third street. It consists of a main building, used as a residence for the Keeper and as reception rooms and offices. From time to time the prison has been enlarged, and although there is not sufficient room to afford separate confinement for each prisoner, as required by law, the provisions of the act are carried out as far as possible. The rules and regulations now in force have brought the internal affairs of the institution, as to cleanliness, discipline, victualing, &c., to a much higher standard than was ever before reached, and a visit thereto will convince the visitor that the management is as perfect as can be.

On March 4th, 1847, \$5,000 was appropriated to build an additional wing to the original building. On March 25th, 1852, \$15,000 was granted for the erection of a new wing for hospital purposes. On March 22d, 1860, the sum of \$17,000 was voted for the purpose of building an additional wing for cells, and on February 16th, 1861, a further sum of \$2,243.01 was appropriated to complete the same. On April 16th, 1868, \$6,000 was appropriated for the building of an additional wing to provide room for female convicts. An act passed April 2d, 1869, provided for the appointment of commissioners to extend the grounds of the prison to the wall of the State Arsenal, to build an additional wing and work shops, and made an appropriation of \$50,000 for that purpose, and in the same month \$9,734 was appropriated for the purpose of completing the wing of the female department. On April 4th, 1871, the sum of \$75,000 was appropriated for the purpose of completing the new or east wing, and on April 4th, 1872, a further sum of \$28,700 was appropriated for the completion of the same. March 3d, 1874, \$12,000 was voted for the construction of gas works for the supply of illuminating gas for the prison. On March 8th, 1877, the sum of \$100,000 was appropriated for the enlargement of the prison and the purchase of a burial ground for deceased convicts. The north wing was remodeled out of this last appropriation, and a burial ground purchased. The Legislature of 1895 appropriated \$150,000 for the enlargement and improvement of the prison.

Previous to the year 1798 there was no State Prison, and prisoners were confined in the county jails. On March 1st, 1797, Jonathan Doane was appointed by an act of the Legislature as an agent to purchase a lot of land from Peter Hunt, situate at Lamberton, containing six and a half acres, and to erect suitable buildings thereon. This was done at an expense of $\pounds 9,852$ 0s. 3d., and what is now the State Arsenal, at Second and Cass streets, is the result. Solitary confinement was not practiced previous to 1836, in which year the old prison was vacated and the present one occupied.

SOLDIERS' HOME.

This institution is located in Kearny township, Hudson county, to which place it was removed from Newark in 1888. It was organized under a joint resolution of the Legislature approved April 12th, 1862. The Home in Newark was opened July 4th, 1866. The Legislatures of 1886 and 1887 appropriated \$175,000 for the erection of a new Home, under the direction of Commissioners appointed by the Legislature. The present site, consisting of $17\frac{1}{2}$ acres, was selected, and six new and commodious buildings were erected thereon. The Home has a frontage of 600 feet on the Passaic river, and contains over three hundred inmates.

NEW JERSEY SCHOOL FOR DEAF-MUTES.

This institution, which is located at Trenton, is a part of the public school system of the State, and is open to deaf residents of the State between the ages of eight and twenty-one years. The pupils are instructed in the branches of commonschool education, and are also trained in some handicraft. Speech is taught to all who can acquire it, and with such success that in some classes it becomes the principal means of communication.

128 HOME FOR FEEBLE-MINDED WOMEN.

The industrial department is larger and better equipped than in most schools of this kind. From the printing office is issued monthly a paper, the *Silent Worker*, which, in point of mechanical execution and of quality of contents, ranks as the best issued from any institution in the country. All the work on this paper is performed by pupils of the school.

The wood-working department, under the charge of a graduate of a technical school of high rank, has a course in which theory and practice are united in an unusual degree.

A course of kindergarten work, especially adapted to the deaf child, has been worked out in the school, and has been followed by some of the best schools of the kind in this country.

A building for hospital purposes, designed in accordance with the best modern practice and ample to meet any possible need, has been partially completed during the year.

The attendance of pupils has risen from 125 in June, 1896, until at the present time it is about 150.

The school possesses a well chosen library, which at present contains about 1,500 volumes, and is rapidly growing.

THE STATE INSTITUTION FOR FEEBLE-MINDED WOMEN, VINELAND.

This institution was established under an act of March 27th, 1888, with Prof. S O. Garrison, who drafted the original law, as the first superintendent. On November 15th of the same year he was succeeded by Mary J. Dunlap, M.D. It is one of the most admirably situated public buildings in the State. Lying opposite the New Jersey Training School for Feeble-Minded Children, and facing Landis avenue, Vineland's main street of several miles in length, it enjoys facilities of the city yet surrounded by acres of fruit, vineyards and orchards. The main building is well arranged, and a large annex was erected in the winter of 1891-'92. It is a home for females, of whom there are nearly 100. Extensive additions have recently been made, giving hospital and other accommodations

NEW JERSEY TRAINING SCHOOL FOR FEEBLE-MINDED CHILDREN, VINELAND.

S. OLIN GARRISON, PRINCIPAL.

This public institution is an outgrowth of a private one, which Prof. S. Olin Garrison established in Millville, Cumberland county, on September 1st, 1887. It was opened at Vineland, on March 1st, 1888, with an enrollment of ten inmates. Adjacent properties were soon acquired and a handsome building, costing about \$18,000, was erected in 1890-'91. There are nine cottages, besides a hospital, large barn, shops and manual training-rooms, located on a farm of 120 acres. The school has a fine assembly hall, seating over 600, and also containing seven (7) school-rooms, an armory, drill-room and a gymnasium.

The plan and scope of training and education by the school, require fourteen teachers in English, Kindergarten, Military, Music, Physical Culture and Manual Trades departments, thereby indicating the special and comprehensive fields of instruction. There is also a custodial department for the idiotic, and a hospital department for epileptics.

The property is worth over \$150,000, real and personal, with a debt of only \$8,000. Besides very good property acquisitions at low cost, at least \$50,000 have been donated to the school since its organization, to aid in the current expenses, in improvements and new buildings.

There were, in 1898, over 200 boys and girls enjoying the advantages of this most excellent School.

THE NEW JERSEY STATE VILLAGE FOR EPILEPTICS.

SKILLMAN, SOMERSET COUNTY.

This Village is located on the "Maplewood Farm,' containing about 187 acres, one mile and a half from Skillman station, Somerset county, and on the line of the Philadelphia and Reading Railroad. The location is beautiful and most admirably adapted for the purposes of the institution. It was purchased for the sum of \$11,500. The Managers of the institution have secured an option on an adjacent farm of 215 acres for \$8,000. It will require 400 acres, altogether, to make the project practicable. There are three dwelling-houses on the

130 STATE VILLAGE FOR EPILEPTICS.

"Maplewood Farm." The Village was formally opened on November 1st, 1898, for the admission of 20 male epileptics. The Legislature of 1898 appropriated \$15,000 for the purchase of a site and the equipment and maintenance of the Village. As the Legislature provides the buildings, all epileptics of either sex, over five years of age, will be admitted.

The success of this meritorious undertaking is, in a large measure, due to the indefatigable efforts made by Professor S. Olin Garrison, of Vineland, in its behalf. For a number of years he agitated the subject, and at last an act was passed by the Legislature of 1898, and was signed by Acting Governor Voorhees, making the necessary provisions for the establishment of the institution. A similar act was passed by the Legislature of 1896, but it was vetoed by Governor Griggs. Senator Stokes, of Cumberland, who had charge of the legislation, showed great zeal in the task he had undertaken.

According to a report made by a legislative commission appointed in 1895 to investigate the subject of epileptics, it was then estimated that there were over 2,000 such afflicted persons in the State. The two State Hospitals for the Insane then contained 168 epileptics. Their presence in those institutions was considered alike injurious to the insane and the epileptic. The commission made an exhaustive report, and concluded by strongly recommending the establishment of a Village for those afflicted people. PRESIDENTIAL VOTE.

# PARTY PLATFORMS.

#### REPUBLICAN.

(Adopted at the State Convention held at Trenton, Thursday, September 22, 1898.)

The representatives of the Republican party of New Jersey, assembled in convention, September 22, 1898, hereby resolve and declare :

That we affirm our adhesion and devotion to the fundamental principles of the National Republican party as set forth in the platform adopted at the St. Louis convention in 1896.

That we specially declare our undying opposition to any proposition to debase the national currency, a proposition so repugnant to the honest voters of New Jersey that when it was presented to them in all its bare iniquity in 1896, they promptly buried it under an unprecedented majority of 87,000, and declared in favor of representatives of national honor and honesty, McKinley and Hobart.

We heartily approve and endorse the administration of President McKinley. His treatment of domestic questions has more than fulfilled all expectations, and the wisdom of his foreign policy and the firmness and dignity with which it has been maintained have won for him not only the confidence and approbation of our own people, but the highest respect of the civilized world. Involved without due preparation in a war in the interests of humanity, he pursued a course which commanded united support at home and effectively silenced the assaults of interested diplomacy abroad. In three months this conflict was brought to a practical end with a smaller percentage of loss from battle and disease than in any war of modern times, and with the result of freeing a suffering people from a reign of cruelty and oppression; of acquiring new and valuable territory; of opening to our people new avenues of trade and commerce; furnishing new outlets and demands for the agricultural and industrial products of our people, and, above all, providing millions of our fellow-creatures an open door to those blessings of education and of civil and religious liberty which have for a hundred years followed the advance of the American flag.

We take a special pride as Jerseymen that the eminent citizen whom this State gave to the national administration, elected in 1896, has been so singularly capable and potential in the office of Vice-President, and has invested that station with rare dignity and influence.

We approve the annexation of the Hawaiian Islands, and view this act as an important step in the advance of American civilization.

We repose entire confidence in the wisdom and patriotism of the President, and the commission appointed by him to negotiate such a treaty of peace as will meet the just expectations of our people, by insisting on an adjustment in which the interests of this Republic, and of civilization and humanity, will be secured, as far as possible, as the fruits of the valor of our soldiers and sailors in the war with Spain. Called to the Presidency in a time of national bankruptcy, caused by the administration of the Democratic party, William McKinley was commissioned by the American people to restore confidence, to re-establish a tariff system under which American labor and capital might recover from the blighting effects of the Wilson bill; to save our financial system from the dangers of Bryanism, so that American enterprise might go boldly forward to the development of our resources. Under his administration business has revived, labor has found employment, and prosperity is returning. These things have been accomplished notwithstanding the fact that in his effort to execute the people's mandate the President has been shackled with a hostile Senate. How much more can be accomplished if for the remainder of his term the President and his administration have the support and sympathy of a Congress friendly in both branches.

During the present Congress this State has enjoyed a commanding influence by having a Republican Senator and a delegation in the Lower House unanimously of the same faith. They have been most diligent and successful in their labor for the best interests of our State and nation, and we cordially indorse their work and thank them in the name of the people of New Jersey.

That we heartily indorse the conduct of our State affairs by Governor John W. Griggs during his incumbency, which illustrated the highest ideal of an executive and fully met the expectations of a purified administration which his election raised in the people of New Jersey, and we hold it to be a subject of pride to our State that he has been summoned by the President to assume as a patriotic duty the charge of one of the most important and responsible departments of the National Government. The brilliant record he has made as Attorney-General of the United States during an unexpected and most trying emergency, has given our State renewed occasion for gratification.

We heartily indorse and approve the brief but brilliant administration of Acting Governor F. M. Voorhees. Coming to the executive chair from a long experience in the legislative branch of the government, he was peculiarly fitted to discharge the civil duties thus unexpectedly thrust upon him, and it is known of all men that his diligence, fidelity, and a sincere desire for the public welfare, have characterized his every executive act. We especially commend him for his untiring devotion to the interests of our soldiers. Whether encamped in this or in other States, they never were beyond the Acting Governor's watchful eye nor outside the zone of his efficient care.

We tender our thanks to the citizens of this and other States who, inspired by a patriotic impulse, have left their homes and occupations to sustain the arms of the State and the nation. We recognize their devotion to duty, whether in camp or on the field of combat; and we pledge ourselves to the full and liberal recognition of all the proper claims of our patriotic heroes, and if by the misconduct or incompetency of any officials their health or their lives have been unnecessarily sacrificed or endangered, we feel assured that the President and his Constitutional advisers will make such investigations as will bring the offenders, regardless of past or present political affiliation, to punishment.

We recognize the special revenue law as a necessary war measure, and recommend its repeal as soon as will be justifiable by the reduced expenses of the government.

Three years ago we appealed to the voters of New Jersey to unite in rescuing the State from the grasp of a political oligarchy which had brought every department and institution of the State, the internal affairs of our cities and towns, and even the morals of this Commonwealth, into subserviency to their ends

They squandered the State revenue by the creation of useless offices and by falsifying bills of supply, and sought to prostitute every branch of the State government to partisan and personal purposes. With splendid majorities the people of almost every county in the State responded to our appeal and committed the legislative and executive branches of the government to the care of the Republican party. We promised them a clean honest and economical administration of State government, in the interest and for the welfare of the whole people. This promise has been faithfully kept. Having blotted from the statute-books the laws under which the most infamous form of race-track gambling had brought ignominy and disgrace upon the State, we have embodied in the Constitution an amendment forever prohibiting a re-enactment of such laws; we have banished partisanship from statutes and delivered the several State institutions, boards and commissions from political control. In offices of the State, and the larger counties, we have substituted reasonable salaries for the fee system, and thus covered into the public treasury, for the benefit of the people, large sums which were formerly used for political purposes.

We have doubled the annual appropriation for the support of our free school system. We have relieved the taxpayers of the several counties by distributing amongst them annually more than \$200,000 of the tax received by the State from railroad corporations.

We have increased the appropriation for good roads. We have made liberal appropriations for the support and proper care of the insane, the feeble-minded and other unfortunate defectives of the State. We have paid off over half a million of the public debt. We have expended in the necessary construction and extension of State institutions over \$1,000,000, and, notwithstanding these disbursements for the public benefit, we are able, through a rigid and judicious economy, to show an increase in the balance in the State Treasury of \$200,000, as compared with 1893, the year in which the voters of New Jersey set the seal of condemnation upon Democratic misrule.

We have codified and condensed many of the cumbersome and complex State statutes, and this important and necessary work will be continued to completion.

The full list of the beneficent legislative acts since the State passed under Republican control is too long to be recited here, but the statute-books and public records of the State are filled with evidences of the faithfulness with which we have redeemed the pledges made three years ago.

We here and now renew these pledges. We promise a continuance of the policy of rigid economy in every department of the State government, liberal appropriations for purposes of public necessity and welfare, continued opposition to extravagant and wasteful use of the public money, legislation for the benefit and elevation of the laboring people, for the promotion of the agricultural and industrial interests of the State and the general good and well being of all.

The time has again come for the people of the State to rally around the standard of good government, and we appeal to all the patriotic voters of New Jersey to give their voices and votes to avert dire calamity, which would result from relegating the State again to the hands of the political jobbers and unscrupulous ringsters who are seeking to regain their lost control.

#### DEMOCRATIC.

(Adopted at the State Convention held at Trenton, Wednesday, September 28, 1898.)

We, the representatives of the Democratic party in State Convention assembled, re-affirming our devotion to all the great and vital principles of the Democratic party on National issues and believing, however, that the coming State campaign should be fought out on State issues, and for the redemption of the State from Republican extravagance, corruption and misrule, declare the paramount issues in the coming campaign to be :

Equal taxation, home rule, honest State and municipal government, the abolition of useless and expensive State commissions, the reduction of the large present expenses of the State government to the economical standard maintained for years under Democratic rule, the reduction of official salaries, the abolishment of the fee system and the placing of all officials on a salary basis, the enactment of laws in the interest of organized labor and for the protection of the wage-workers of the State, the repeal of all laws that abridge the right of juries to fix the amount of damages in cases where the death of a person is caused by wrongful act, and the release of the administration of State affairs from the control of corporations and their restoration to the authority of the people.

We demand that the tax laws of this State be amended to provide for the equal taxation of all property, real and personal, not used for religious, charitable or educational purposes, in accordance with the mandates of the Constitution, which says:

"Property shall be assessed for taxes under general laws, and by uniform rules, according to its true value."

We charge the Republican party, which has had complete control of all branches of the State government during the past three years, with having violated the pledges it made to the people before being entrusted with power.

We charge the Republican party with having created useless and needless State commissions at the expense of thousands of dollars to the people of this State, and pledge the Democratic party to the enactment of laws that will secure their abolishment

We charge that the Republican party has been guilty of gross extravagance in the administration of State affairs, and that the expenses of the State government under Republican rule have been increased nearly half a million dollars annually and are now largely in excess of what they should be for an honest and economical administration of the government, and beyond the annual revenues of the State by thousands of dollars. We pledge the Democratic party to a reduction of expenses and an economical and business-like administration of the affairs of the State.

We charge that the salaries of public officials are far in excess of what they should be, and pledge the Democratic party to the enactment of laws that will secure the reduction of the same.

We pledge the Democratic party to the enactment of laws that will abolish the fee system in all State and county offices and place all such officials on a salary basis, thereby saving to the people of this State thousands of dollars, which will revert to the public treasury instead of the pocket of the office-holder.

We condemn the action of the recent Republican Legislatures which refused almost every request made for legislation in the interest of organized labor and repealed acts passed by Democratic Legislatures for the protection of the wage-workers of New Jersey; and we pledge our party to give proper consideration to the views adopted by the councils of organized labor.

We charge Foster M Voorhees, the Republican candidate for Governor, with being an enemy of organized labor, and that he has proved his hostility by his official acts while acting as Governor of the State

We favor the repeal of all laws abridging the right of juries to fix the amount of damages in cases where the death of a person is caused by wrongful act, and condemn the brutal opinions filed by Republican judges in construing such laws

We favor an amendment to the laws of the State providing severe penalties for discrimination in the fixing of rates for the transportation of freight in anywise injurious to the farmers or other people of this State.

We charge that the Republican party is under the domination and control of the corporations and trusts of this State, and refer the voters to the numerous acts passed by recent Republican Legislatures for the benefit of corporations, foreign and domestic, at the expense of the people; and to the railroad acts, passed ostensibly in the interests of the boroughs and villages, but really in the interests of the corporations; and also call attention to the silence of the platform adopted by the recent Republican conveution upon all questions in anywise affecting the interests of trusts and corporations.

We declare that the State of New Jersey owes every child within its borders an education unsurpassed by any other State. We demand for our school children ample and suitable accommodation in every city, town and village, so that every child may attend school the whole of every school day; the establishment of a thorough kindergarten system for the younger children, and a compulsory education law which will require attendance by every healthy child of school age.

We advocate the passage of a State law which will require the State Treasurer to become the custodian of the Teachers' Retirement Fund, without expense to that fund. We congratulate the teachers upon their successful effort to care for the members of their profession in old age or sickness out of their own fund.

We favor the construction of good roads and of proper State aid therefor.

We declare that the thanks of the people of the State and nation are due to the soldiers and sailors of the army and navy of the United States, who have imperiled their lives in defense of their country and in vindication of the honor of its flag in the recent Spanish war; that the nation owes to them permanent recognition of their patriotism and their valor, and ample and permanent provision for those of their survivors who have received disabling and honorable wounds in the service of the country, and that the memories of those who have fallen in its defense shall be held in grateful and everlasting remembrance; that the State should make suitable provision for additional pay to our New Jersey Volunteers. While we rejoice and feel thankful to them for their great victories on land and sea, we denounce the gross, open, criminal incompetency of those placed and defiantly kept in charge of the affairs of the War Department of the present administration of the government of the United States, resulting in the needless loss of thousands of American soldiers' lives, and the infliction of horrible suffering and tortures upon thousands of the brave defenders of the country's honor; and we charge the present administration of the government of the United States with being solely responsible for the horrible results of this incompetency of government officials, continued even after the appalling results were repeatedly brought to the attention of the President of the United States and his official advisers; and we call the attention of the people of the State to the fact that up to this time not a single example has been made of a government official responsible for these monstrous wrongs.

We deplore the spectacle of an ex-Governor of this State, now a member of that Cabinet, appearing at a public convention of his party as the apologist and defender of Algerism and its results.

We invite and cordially welcome the co-operation and support of the honest and patriotic citizens of all parties, and the independent press of the State, however differing from us in other respects, in support of the principles herein declared, and pledge our hearty support to the candidate nominated by this convention, and affirm that he will not resign if elected until the pledges herein made are fulfilled.

## BIOGRAPHIES.

## **GOVERNOR OF NEW JERSEY.**

## FOSTER M. VOORHEES.

Governor Voorhees was born at Clinton, Hunterdon county, New Jersey, November 5th 1856, his father being the cashier of the bank there established and who comes of Dutch-English ancestors. The Governor was graduated from Rutgers College in 1876 and studied law at Elizabeth with the Honorable William J. Magie, now Chief Justice of the Supreme Court. He was licensed as an attorney-at-law in 1880 and as a counselor in 1884. His success in his profession was instantaneous and his high standing at the bar is evidenced by the fact that although of different political faith from the appointing power, he was nominated by Governor Werts in 1894 to the office of Circuit Court Judge. He declined the honor on the ground that he owed his first allegiance to his constituents who had elected him to the office of Senator. This was during the exciting and memorable session of 1894, and the sacrifice he made in this instance saved the State Senate to the Republican party and made possible the enactment of reform measures of which the Governor himself was the foremost champion.

Governor Voorhees has always been an ardent sincere and conscientious Republican. At the same time, his fairness and conservatism have won for him the admiration of the Independents and Democrats as well as the members of his own party. He has never been an offensive partisan, and his whole career has been an exemplification of the truth of President Hayes' famous declaration, "He serves his party best who serves his country best."

Mr. Voorhees was a School Commissioner of Elizabeth for four years, from 1834 to 1888 and during that time was instrumental in inaugurating a number of educational reforms. He was a member of the House of Assembly during the years '88, '89 and '90, and was the leader of the Republican minority in the two latter years, receiving the Republican vote for speaker in both of these sessions. His ability as a parliamentarian and a debator won for him a State reputation. The year 1889 was one of partisan legislation on the part of the Democratic majority, and notwithstanding the tactics it employed to carry through its measures Mr. Voorhees so skillfully led the minority that the opposition were even in danger of defeat, and on one occasion the Democrats were compelled to leave their seats in the Assembly and break a quorum in order to save themselves from parliamentary rout. In these trying emergencies he achieved a reputation for wisdom, courage and readiness in action which commanded the respect of his friends and foes alike, and which at once ranked him among the Republican leaders of the State. Indeed, in the year following, the Republican State Convention commended by resolution the course of the Republican minority under his leadership.

In 1890 Governor Voorhees served as a member of the special committee of the House and Senate to prepare a ballot reform law. This law to-day bears evidence of his judgment and wisdom. His popularity with the voters was evinced in 1890, when he ran in a district which had given Governor Abbett a plurality of 613, but which he carried by 163; and again in 1893, when he was elected to the Senate from Union county by a plurality of 1144. In 1894 the Senate was Republican by a majority of one, and the Democrats attempted to control the organization of that body and to prevent a number of the Republican Senators from taking their seats. The forcible seizure of the Senate Chamber and the barring of its doors on that occasion are matters of recent history. this crisis Senator Voorhees, by his counsel and action, averted what might have been a scene of conflict and riot and placed his party in such a position that the Supreme Court eventually decided the controversy in favor of the Republicans. In the work of reform, which was a conspicuous feature of that session of the Legislature, Senator Voorhees was always courageous, always progressive and always statesmanlike. Notwithstanding the fact that the partisan feeling had been stimulated by the unlawful tactics of the minority. no extreme or retaliatory measures were enacted by the Republican Legislature. This was in marked contrast to the partisan legislation of the previous years under Democratic control, and was due largely to the influence of Senator Voorhees. The year 1895, however, was destined to bring him more conspicuously into the public favor. Prior to the organization of the Legislature in 1895 rumors of official corruption and malfeasance were current throughout the State. When the Legislature met, a select committee was appointed from the Senate, consisting of Senators Voorhees Ketcham, Skirm, Herbert and Daly, of which Senator Voorhees was chairman, to investigate the charges of extravagance on the part of certain public officials. This committee disclosed a degree of official extravagance and corruption which startled the citizens of the State, and which was perhaps the most instrumental factor in determining the gubernatorial contest in the fall of that year. The work of this committee was so skillfully done, so free from prejudice and partisan bias and so convincing in its disclosures, that its verdict was accepted without question by the members of both political parties. In the special session of 1895 Senator Voorhees followed up the work of the investigating committee by introducing a large number of reform measures, calculated to remedy the then existing ills and to prevent the recurrence of such evils in the future. Conspicuous among these was the preparation of an annual appropriation bill. Heretofore appropriations had been made by separate bills and the total appropriation was known only to a few. Senator Voorhees provided for an annual budget, itemizing the several appropriations, and yet collecting them in one act, so that the aggregate could be comprehended at a glance, not only by the legislators but by the public at large. In the fall of the same year his friends urged his name as a candidate for the Republican nomination for Governor. A gallant fight was made for the young leader from Union, but was unsuccessful, Hon. John W. Griggs receiving the nomination. Senator Voorhees loyally supported his successful competitor during the campaign, and he was then proclaimed by the prophets as the successor of Governor Griggs. In 1896 Governor Griggs offered him the position of Clerk in Chancery, which he generously declined in order that some of his friends might receive appointments rather than himself In 1898 he was elected President of the Senate without opposition, and upon the appointment of Governor Griggs as Attorney-General of the United States he became Acting Governor of the State. In that capacity he fulfilled the expectations of his friends. He displayed a courage of conviction and an executive capacity and a devotion to duty that added to his already brilliant reputation as a public man. His administration fell upon troublous times. War was declared with Spain

and he became the War Governor of New Jersey. In this capacity he won new laurels.

Following the precedent established by those noble war Governors, Olden and Parker, Governor Voorhees entered enthusiastically into the active work of preparing New Jersey's quota for the war with Spain. Realizing the difficulties that arise in an emergency of this nature, he sought to restrain, by wise and prudent counsel, all whose absence would entail privation and suffering upon those depending upon them for support, and urged others, whose interests were not likely to suffer, to offer their services. He watched with careful scrutiny each detail of the equipment of the force and endeavored to make efficient organizations of New Jersey's contingent in the service of the United States. His success in this mobilization was quick and pronounced.

His care for and interest in the soldiers, however, continued even after they were mustered into service, and he gave his time and influence to the promotion of their welfare and comfort, even after they had left the borders of the State.

His long public service and his record as Acting Governor of the State, at once brought him to the front as a prominent candidate for the Republican nomination for Governor, and when the Republican State Convention assembled in September, at Trenton, he was selected as the standard-bearer by acclamation, an honor that has fallen on no other man, in recent years, in the State of New Jersey. He was elected by a plurality of 5,499 over Elvin W. Crane, the Democratic candidate, after an exciting campaign.

Voorhees, Rep., 164,051; Crane, Dem., 158,552; Landon, Pro., 6,893; Maguire, Soc. Lab., 5,458; Schrayshuen, Peop., 491.

## UNITED STATES SENATORS.

#### WILLIAM J. SEWELL, Camden.

Senator Sewell was born in Ireland in 1835. He came to this country at an early age. At the outbreak of the civil war he was mustered into the United States service as Captain in the Fifth New Jersey Regiment, August 28th, 1861, and participated in all the engagements in which his regiment took part, down to the battle of Spottsylvania, in May, 1864. In the battle of Chancellorsville, General Mott was disabled by a severe wound, and Sewell assumed charge of the brigade. At a critical point in the engagement he led it forward in a resistless charge and achieved one of the most brilliant successes of the war. He captured eight colors from the Confederates, and retook the regimental standard of a New York regiment. His services were scarcely less brilliant at Gettysburg and other important points He was wounded twice, at Gettysburg and Chancellorsville. He was made Lieutenant-Colonel of the Fifth Regiment, July, 1862, and Colonel three months later. In September, 1864, after recovering from illness, he became Colonel of the Thirtyeighth Regiment, and remained with it in the field until the close of the war.

He was made Brevet Brigadier-General of Volunteers April 9th, 1866, for "gallant and meritorious conduct in the battle of Chancellorsville," and Major-General at the close of the war, for meritorious services. When Joel Parker became Governor, General Sewell was appointed a member of his personal staff. During the railroad strikes of 1877, he was sent by Governor Bedle to the most critical point in New Jersey (Phillipsburg) with the Sixth and Seventh Regiments, and was appointed Provisional Commander of the forces at that point. He guarded his post so well that not a ripple of trouble occurred. He has been for several years, commander of the Second Brigade, National Guard of New Jersey, and is now Division Commander.

He was elected to the State Senate from Camden county for three successive terms of three years each, and in the years 1876, '79 and '80 he was President of that body. His career as a legislator was one of brilliant usefulness, and his record is remarkable for strict integrity, honorable bearing and dignified deportment. When he was elected to the United States Senate by the Legislature of 1881, and on severing the ties of friendship which bound him to those on both sides of the Chamber, an impressive scene occurred, when Democrats as well as Republicans vied with each other in complimenting him upon the high honor which had been conferred on him, and expressing regret that the State was about to lose so valuable a member of its law-making body. Appropriate resolutions were unanimously passed, and Senator Sewell took his leave a few days before the meeting of the United States Senate, on the 4th of March, 1881. He was elected in joint meeting over his predecessor, Hon Theodore F.

Randolph, by a strict party vote. He was a delegate to the Republican National Conventions of 1876 and 1880. He was chairman of the New Jersey delegation to the Republican National Convention at Chicago, in 1884, and was a staunch supporter of Blaine for the Presidency. In 1888 he was also chairman of the New Jersey delegation to the Republican National Convention, when he supported General Harrison for the Presidency; and again in 1892, when he took a similar position. In 1896 he also served as chairman of the New Jersey delegation to the National Republican Convention held at St. Louis. He was succeeded by Rufus Blodgett as United States Senator in 1887. In 1895, being the choice of the Republican caucus, he was elected to succeed John R. McPherson in the United States Senate. His term will expire on March 3d, 1901.

On May 4th, 1898, Senator Sewell was appointed by President McKinley a Major-General of U S. Volunteers, but at the earnest request of his Republican colleagues to retain his seat in the Senate, where his services to his country were much needed, he declined the honor on May 18th. He was nominated by Governor Voorhees on February 15th, 1899, as Major-General of the National Guard of New Jersey, and without the usual reference to a committee, he was promptly confirmed by a unanimous vote. The nomination was made to fill the vacancy caused by the resignation of Major-General Plume.

#### JOHN KEAN, Elizabeth.

Senator Kean was born at Ursino, Union county, New Jersey, in the house where he now resides, on December 4th, 1852. The house is historic, being known as "Liberty Hall," and was erected by Governor Livingston in 1772. Washington held many conferences with his Generals within its walls, and Alexander Hamilton studied law there. And in the same house John Jay was married to one of the daughters of the Governor. Another home, at 3 East Fifty-sixth street, New York city, also belongs to Mr. Kean, where he spends much of his time during the winter.

When a young boy the Senator was sent to a boardingschool in Stockbridge, Mass., and was transferred from there to a private academy at Sing Sing on the Hudson, where he received a much higher education than was necessary for him to enter Yale College, which he did in 1872. He afterward took a course in the Columbia College Law School, and was admitted to the bar of New Jersey in 1877. Mr. Kean was elected to Congress in 1882, and again in 1886. In 1892 he was defeated for Governor by his Democratic opponent, George T. Werts.

The Senator is a prominent business man, and is engaged in numerous manufacturing, mercantile, railroad and financial enterprises, which furnish employment to a large number of mechanics and artisans, especially in the city of Elizabeth, where he is so well and favorably known. He has helped materially in promoting the growth of that city, and to him, more than to any other person, is due its present prosperity. He fills many positions of honor and trust in the banking and commercial communities. He is President of the National State Bank, of Elizabeth, and a director in the Elizabeth Banking Company. He is also President of the Elizabeth Water Company and the Gas Light Company of the same city. He holds the largest interest in the Elizabeth Street Railway Company, and his latest undertaking was the construction of a trolley line from Elizabeth to Plainfield, for the franchise of which he paid a large sum of money.

The Senator has always been an active Republican, and for several years he served as the Treasurer of the State Committee of his party. He was the unanimous choice of the Republican caucus for United States Senator in January, 1899, and received the full vote of his party when he was elected to that office in a joint meeting of the Legislature, held soon afterward, his Democratic opponent being the then incumbent, James Smith. Senator Kean was elected for a term of six years, which will not expire until March 4th, 1905.

#### (Dem., Boonton)

Mr. Salmon was born near Mount Olive, Morris county, N. J., February 2d, 1846, and is a lawyer by profession. He is of Scotch origin, while his ancestry in this country dates back to 1640 He was educated in the seminaries of Charlotteville, N. Y., and Schooley's Mountain, N. J., and studied law with the late Charles E. Schofield, of Jersey City. Later he matriculated in the Albany Law School, where he was graduated in 1873 with the degree of LL.B. In March of that year he was admitted as an attorney and counselor to the bar of New York, and in November, 1875, he was admitted as an attorney in New Jersey. He afterwards became a counselor, and on December 21st, 1894, he was admitted as an attorney and counselor of the Supreme Court of the United States. Since his admission to the bar he has practiced his profession at Boonton. He takes high rank both as a civil and criminal lawyer. He has been counsel in many notable cases and enjoys an extensive and lucrative practice.

In March, 1893, he was appointed by Governor Werts as Prosecutor of the Pleas for Morris county, and served a full term of five years. On April 1st, 1897, he opened an office in Morristown, and he now divides his time between that and the Boonton office, having a son in each office reading law and assisting in legal work. As a citizen Mr. Salmon has always been active and influential in the welfare and advancement of the place of his residence, substantially supporting its leading institutions and liberally encouraging its worthy enterprises. He has been one of the directors of the Boonton National Bank since its organization in 1890. #### WILLIAM D. DALY.

## (Dem., Hoboken.)

Mr. Daly was born in 1851, in Jersey City, and he has always resided within the limits of Hudson county. His early education was acquired in Public School No. 1, in Jersey City, and among his schoolmates were some who have since become prominent, as, for instance, ex-Mayor Wanser, Samuel D. Dickinson, City Treasurer of Jersey City, and the late City Clerk John E. Scott. At the age of fourteen he went to work in Cory's iron foundry as an apprentice, and later he was employed in the foundry of the Erie Railroad Company and at Blackmore's. Among his shopmates in Blackmore's was Mayor Fagan, of Hoboken. But the legal profession had always offered an attractive field to Mr. Paly, and in 1870 he entered the office of Blair & Ransom, in Jersey City. Four years later he was admitted to the bar as an attorney, and later he was made counselor.

Mr Daly entered upon the practice of law with the tact and energy peculiar to self-made men. He has practiced law in all the courts of the State and has represented the defense in more capital cases than any lawyer in the State, and now stands in the front rank of criminal lawyers in the State of New Jersey.

In the great Erie Railroad strike of 1878 Mr. Daly appeared as counsel for the arrested freight handlers and secured their acquittal In 1887 he conducted the defense of the Cigarmakers' Union in Jersey City, whose leaders were charged with conspiracy. In this case also he succeeded in obtaining a verdict of acquittal. His early associations have made Mr. Daly entertain a very kindly feeling toward laboring men and labor organizations.

In appreciation of his legal ability, President Cleveland, during his first term, appointed Mr. Daly Assistant United States District Attorney, and this office he held for three years, handing in his resignation to an incoming administration. In 1888 he was made alternate delegate to the National Democratic Convention at St. Louis, and again, in 1892, to the Chicago Convention. In 1896 he was a district delegate to the National Democratic Convention at Chicago. In 1891 he was urged to accept the nomination for member of the House of Assembly from the Eighth District of Hudson county. Elected by a rousing majority, he took his place on the floor of the House as the practical leader of his party. The same courtesy which had characterized his work as a practitioner won for him hosts of friends as a legislator even from the opposition, and at the close of the session he was appointed Judge of the Hoboken District Court. This office he resigned upon his election to the Senate in 1892.

The election which resulted in the choice of Judge Daly to the Senate was won after a most exciting campaign. J. Herbert Potts, a man of great strength and popularity, was nominated on the Republican ticket, but Mr. Daly had such a hold on the popular heart that he was triumphantly elected by 5,645 plurality. He was reelected in 1895 by a plurality of 4,559 over ex-Assemblyman Max Salinger, the Republican nominee.

During his six years' service in the Senate he gained a high reputation as a legislator, and for more than half that period he was the leader of his party on the floor. He made a brilliant record in 1895, when the riparian rights question was before the Senate, during his opposition to the Creamery Trust, and while serving as a member of the Special Investigating Committee of the Senate. During the Presidential campaign of 1896 he rendered his party valuable service on the stump and also as a member of its State Committee. He was a prominent candidate for the Democratic Gubernatorial nomination in 1898, and would have received a majority of the votes of the convention had not a stampede been engineered just in the nick of time in favor of the opposition candidate. Still, despite his disappointment, Mr. Daly worked hard for the election of Mr. Elvin W Crane, the nominee. Mr. Daly was elected to Congress by a plurality of 10 108, the largest ever given to a candidate for Congress in the district.

1896—McEwan, Rep., 30,557; Young, Dem., 26,080; McCracken, Pro., 175; Wortendyke, Nat. Dem., 875; Campbell, Soc.-Lab., 1,073; Ginner, Silver, 235. Mc-Ewan's plurality, 4,477.

1898-Daly, Dem., 30,270; Pangborn, Rep., 20,162; Brown, Pro., 258; Herrschaft, Soc.-Lab., 1,723. Daly's plurality, 10,108.

Two years later he entered Yale College, from which he was graduated in 1876. He read law in the office of Williams & Thompson, in Chicago, and attended the Chicago Law School, and was graduated in 1878. #### ALLAN LANGDON MCDERMOTT.

#### (Dem., Jersey City)

Senator McDermott was born in South Boston, Mass, on the 30th of March, 1854. His father was Hugh Farrer McDermott, who, to use the language of the memorial resolutions adopted by the New York Press Club, on his decease, in 1890, "in the wide scope of his literary labors, as journalist, dramatist, author and poet, made a conspicuous place and earned enduring fame for himself." His mother's maiden name was Annie J. Langdon, and she was of one of the oldest families in New England In 1870 the subject of this sketch determined to follow journalism, and, as a preliminary step, learned to set type and run a press A few verses published in a Boston paper, and reprinted in the New York Telegram, in 1870, show that Mr. McDermott had a very narrow escape from a literary tomb. In 1876 he entered the law school of the University of the City of New York, and was graduated the following year, delivering an essay on "The Sanction of the Law," at the commencement exercises, held at the Academy of Music, in June, 1877. The same year he was admitted to the bar of New Jersey, becoming a counselor in 1880. While he was a student in the office of the late Leon Abbett there was formed a friendship between preceptor and pupil which had grown with the years, and had on more than one occasion evidenced a steadfastness which is rarely found in the harsh lines of political association. In 1878 Mr. McDermott was defeated as a candidate for Assembly from the Fourth District of Hudson county, but was elected in 1879 and 1880, and in 1881 was the Democratic candidate for Speaker of that body. From 1878, to 1883 he was Corporation Attorney of Jersey

City, resigning that position when appointed Judge of the Second District Court by Governor Ludlow. In 1884 Governor Abbett appointed Mr. McDermott a member of the State Board of Assessors. In that position he formulated the rules which have ever since been followed in the taxation of railroad property and corporate franchises in New Jersey. In 1886 Governor Abbett nominated him as Clerk in Chancery, and he was confirmed by the Senate. In communicating the fact to the Legislature, the late ex-United States Senator Cattell, also a member of the State Board, wrote: "The Hon. Allan L. McDermott, one of the original members of the Board, was during the last session of the Legislature appointed and confirmed as Clerk in the Court of Chancery, and on the 1st of April resigned as a member of this Board to enter upon his new position. Much of the success of the early work of this Board is due to the intelligent and faithful service of Mr. McDermott, largely supplemented by his legal knowledge, which was invaluable. The Board parted with him most regretfully, and we are free to say that in our judgment it will be difficult to find one who will in all respects fill his place." In 1884, '85 and '86 Mr. McDermott was President of the Board of Finance and Taxation of Jersey City. Upon his retirement from that position the Argus said : "The withdrawal of Allan L. McDermott from the management of our municipal finances is a public calamity. His clear head, his honesty of purpose and untiring energy have rendered him of inestimable value to our city. He has introduced and enforced rigid principles of economy in our local expenditures, and has, with the aid of his colleagues, established an admirable financial system, which has placed our credit above cavil or suspicion." He was renominated for Clerk in Chancery, in 1891, by Governor Abbett, and he was again confirmed by the Senate. In 1892 Mr. McDermott was, because of dissatisfaction with the existing local government, defeated in a canvass for the Mayoralty of Jersey City. In 1894 he was nominated by Governor Werts as a member of the commission appointed to revise the State Constitution. He was chairman of the State Democratic Committee from 1886 until 1896, and drafted every platform, with one exception, adopted by a State Democratic Convention during that time.

Mr. McDermott was chairman of the New Jersey delegation at the National Convention held in Chicago in 1896. He refused to accept the platform adopted by that convention, and being nominated for Congress, declined to run. In 1898 he was appointed by Mayor Hoos Corporation Council of Jersey City. In that year he was elected to the Senate by a plurality of 9,528.

Mr. Van Cleef completed his preparatory studies in 1867, in June of which year he was admitted to the bar. Immediately on the expiration of the term fixed by law he took his second examinations and was licensed as a counselor. He began the practice of his profession in New Brunswick, where he has continued it to the present time, having built up a large and lucrative business.

He was counsel for the Middlesex county Board of Chosen Freeholders in 1873 and 1874. In 1875 he was made Assemblyman by over 400 majority, although his opponent received the year before 700 majority. The Board of Aldermen elected him City Attorney in 1877. In 1880 he was again elected to the Legislature by 655 majority. The year previous the Republican candidate had 959 majority. Mr. Van Cleef was elected to the Assembly in 1881 for the third time and without any opposition. While a member of the Legislature Mr. Van Cleef drafted and had passed some of the most important laws of that period. In 1889 he was elected Mayor of the city of New Brunswick, and so honestly and efficiently did he conduct the duties of Executive that in 1891 he was unanimously re-elected to that office-the Democrats having renominated him and the Republicans having placed his name on their ticket. He was again renominated by the Democrats and indorsed by the Republicans, and served a third term. The Senator holds the degree of A. M., which was conferred upon him by his Alma Mater in 1872. He comes of good, sturdy Dutch stock on his father's side, and when recently made a member of the Holland Society, traced his ancestry back to 1641. A few months later he was admitted to practice as attorney at the New Jersey bar, and three years subsequently he became a counselor. The election returns gave Mr. Haver 114 votes, Mr. O'Brien 260 votes and Allan Benny 259 votes, and "Benny" 1 vote. Mr. Benny claimed the vote cast for "Benny" should be counted for him, and contested the election before Judge Lippincott, in the Hudson County Circuit Court, who decided that he should have the "Benny" vote, but it appearing it the case that his father was a Scotchman, and not naturalized here at the time of his son's birth, Judge Lippincott decided that therefore he was not a citizen of the United States, and declared O'Brien elected. Upon an appeal to the Supreme Court, Judge Lippincott's decision was reversed. Mr. Benny was declared to be a citizen by virtue of his birth in this country, and the election was declared a tie. His masterly conduct of the impeachment proceedings in the case of Prison Keeper Patrick H. Laverty, in 1886, when he acted as counsel for the House of Assembly, brought about conviction by the State Senate sitting as a High Court of Impeachment, and which was presided over by John W. Griggs, since Governor of New Jersey, and now Attorney-General of the United States His argument before the Supreme Court in 1888, in support of the constitutionality of the Local Option law, won for him a favorable decision, and the statute was not disturbed. With other eminent lawyers as his associates, he distinguished himself in the famous controversy over the organization of the State Senate in 1894, when a full bench of the Supreme Court sustained his interpretation of the constitutional law bearing on the case. Chief Justice Beasley delivered the opinion of the Court, which declared that Maurice A. Rogers, Republican, was the duly elected President of the Senate.

Twice has the Attorney-General been a Presidential Elector for New Jersey in 1872, when the vote of the State was cast for Grant and Wilson, and in 1896, when it was recorded for McKinley and Hobart. He served as a member of the Constitutional Commission of 1873, and was President of the Constitutional Commission of 1894.

In 1866 Mr. Grey was appointed Prosecutor of the Pleas for the county of Cape May, and served seven years. He served as a member of the Republican State Executive Committee from 1868 to 1871. Several times he has refused judicial and political honors. He could have gone to Congress in 1874, when he declined a nomination in the First Congressional District. Governor Griggs offered him the office of Chief Justice of the Supreme Court in 1897, which he declined. On March 1st of the same year he was nominated for Attorney-General, to succeed John P. Stockton, and he was unanimously confirmed by the Senate on the 8th of that month. The Attorney-General

has been a Director of the Camden Safe Deposit and Trust Company since its organization, in 1873, and he is President of the West Jersey Title and Guaranty Company, a position he has occupied since its formation.

#### STATE BOARD OF ASSESSORS.

#### FOR THE ASSESSMENT AND TAXATION OF RAILROAD AND OTHER CORPORATE PROPERTY.

Bird W. Spencer, President; Robert S. Green, Stephen J. Meeker, Amos Gibbs. Irvine E Maguire, Secretary; George William Barnard, Assistant Secretary.

This department of the State Government was created under an act of the Legislature entitled "An act for the taxation of railroad and canal property," approved April 10th, 1884. The work of the Board was increased during the same year by the passage of another act, entitled 'An act to provide for the imposition of State taxes upon certain corporations, and for the collection thereof,' approved April 18th, 1884.

The report of the Board for the year 1899 shows that 116 railroad and canal companies within the State are subject to taxation. These companies represent about 2,300 miles of railroads and 173 miles of canals.

The following table is a summary of the valuation and assessment of railroad and canal property for the year 1899, subject to review by the Board, which review is now in progress:

#### STATE BOARD OF HEALTH.

The State Board of Health was created by the Legislature in 1877, and the annual reports show the work which has been accomplished during the past twenty years. Professor C. F. Brackett, M.D., LL.D., is President of the Board, and Henry Mitchell, M.D., is Secretary. The Secretary of State, the Attorney-General and the State Geologist are members *ex officio*. The other members are John A. Githens, Esq., Asbury Park; Edward R. O'Reilly, M.D., Elizabeth; Laban Dennis, M D., Newark; Franklin Gauntt, M.D., Burlington; Henry Mitchell, M.D., Asbury Park; Henry B. Rue, M.D., Hoboken.

In addition to the duties assigned to the Board by the act under which it is constituted, it has charge of the execution of the laws for the prevention of the spread of contagious diseases of animals, for regulating the sale of petroleum, for preventing the sale of contaminated milk, for regulating maritime quarantine, for conducting the State laboratory of hygiene and for preventing the sale of diseased meat and other unwholesome foods.

Besides its special work the Board is constantly consulted by local health authorities concerning methods for restricting the spread of preventable diseases, the abatement of nuisances, the prevention of the pollution of streams and for the improvement of sanitary administration.

As a Bureau of Vital Statistics the Board receives and records all marriages, births and deaths which occur in the State, and tabulates these records for use in proving descent; in the relations of guardians and wards; in the disabilities of minors; in the administration of estates; the settlement of insurance and pensions; the requirements of foreign countries concerning residence, marriages and legacies; for proving marriages in our own country; in voting and in the jury and militia service; in the right to admission and practice in the professions and in public office; in the enforcement of the laws relating to education and to child labor; the determination of the "age of consent," &c.

The following table shows the number of marriages, births, still-births and deaths registered each year since the establishment of the Bureau of Vital Statistics, and also the number of recorded marriages which occurred among non-residents:

#### STATE BOARD OF AGRICULTURE.

President, Hon. D. D. Denise, Freehold; Vice-President, Professor E. B. Voorhees, New Brunswick; Treasurer, William R. Lippincott, Fellowship; Secretary, Franklin Dye, Trenton; Executive Committee, H. F. Bodine, Locktown: Dr. Joseph B. Ward, Lyons Farms; Walter Heritage, Mickleton; also the President, Vice-President, Secretary and Treasurer. Chemist of State Board, Prof. E. B. Voorhees, New Brunswick; State Entomologist, Prof. John B. Smith, New Brunswick.

There are nineteen County Boards now organized; also a State Horticultural Society and a State Dairyman's Association. All these societies, except the last named, receive financial aid from the State Board appropriation. In addition to its ordinary work the Board holds annually about thirty Farmers' Institutes in the several counties of the State during the winter.

The market value of lands now devoted to farming purposes varies in different parts of the State, running from \$30 to \$60, \$80 and \$100 per acre, being cheaper in New Jersey, considering all the advantages, than any other State in the Union. The number of farms in the State is 30,828, having an average size of 86 acres. Total acreage, 2,662,009, of which 75 per cent. is improved. (Census of 1889.)

During the past year farm crops in the State were varied as to yield. The wheat yield per acre, average as made up from county reports, is 18 bushels; rye, 16 bushels; oats. 25 bushels; hay, .83 ton; white potatoes, 85 bushels; sweets, 140 bushels. Apples were ten per cent above a good average yield, and peaches were a short crop.

Number and value of farm animals in the State in 1897 : Horses, 79,980 ; value, \$5,137,961. Mules, 7,342 ; value, \$592,786 Milch cows, 208,421 ; value, \$7,523,998 (milch cows are much higher in price than they were last year and the total value would be greatly increased at this time). Other cattle, 42,406 ; value, \$1,066,254. Sheep, 41,067 ; value, \$155,193. Swine, 150,368 ; value, \$1,090,545. Total valuation, \$15,566,737. Fruit, market garden and poultry products, if correct returns could be procured, would largely increase this amount. The Annual Report of the Board comprises an edition of 5,000 copies. These are quickly demanded by farmers and others interested in such matters.

The Board holds its annual meeting at the State House. The twenty-seventh annual meeting will be held January 17th 18th, 19th, 1900. The members of the Legislature are cordially invited to attend its sessions.

#### PUBLIC ROADS UNDER STATE AID LAW.

There is no subject that is agitating the public mind to a greater extent than the improvement of the wagouways of the United States. The greatest monuments of this State are the long lines of improved highways it is yearly instrumental in creating. There is no form of public expenditure that the people are so generally well satisfied with as the bounty the State is giving to the different counties to aid them in making hard and permanent highways. The zeal for hard roads is becoming each year more and more intense throughout the State During the year of '99 State aid has been spread over about 114 miles of roads. The construction in '95 was forty-six miles; in '96, fifty miles; in '97, about seventy miles; in '98, eighty-five miles, and in '99, one hundred and fourteen miles. This increased mileage is owing to the increase of the annual. State appropriation from \$100,000 to \$150,000. The cost per mile was somewhat increased the present year on account of the advance in the prices of labor, stone and transportation. The difficulty of obtaining the latter has retarded con-struction very materially. The cost per square yard this year has ranged from fifteen to seventy-three cents. The counties that have been building are continually injecting new roads, thus keeping about the same number of miles petitioned for ahead of the appropriation. The increased donation by the State of \$50,000 has enabled some of the most enterprising counties to build as many miles as the limit of the law (one-fourth of one per cent tax on their ratables) will allow; while other counties having petitioned for many miles of roads, their governing bodies confine their construction to a fixed number of miles each year, and for all of the above we have approved either to the limit of the law or to the desire of the Freeholders A few counties having a large amount of ratables, build all the mileage your Commissioner will approve of. There are some counties with governing bodies who will not accept any of the petitions presented to them. For these the mandamus clause would be particularly applicable, for the experience has been that when only one State road is built in a county, others quickly follow.

#### TOWNSHIP STATE AID LAW.

To correct this condition by allowing portions of the county to obtain hard roads where their Freeholders would not accept petitions for same, the Legislature last March passed what is called the Township State Aid Act, which allows the property holders to petition the governing bodies of townships in the same manner as they now do the county officials. This law is similar to the county law except that the State pays one-third less, the ten per cent. the property holders pay. By this process the improvement remains a township road and the township is required to forever keep it in repair. Under this law there have been specifications approved of for five separate lines in three different counties, Mercer, Warren and Sussex, but only a few hundred feet have as yet been built By another year, when this Act is fully understood, there will probably be more applications for roads The small piece built in Belvidere, Warren county, this year, has so impressed the citizens with their desirability that they are preparing to build two miles more under it next year.

#### GRAVEL ROADS.

As the State by the State Aid Law is more or less committed to the construction of gravel highways, it has already been instrumental in creating about seventy miles of these. We are much troubled in finding the proper material to make permanent roads of gravel, but where great care is exercised in properly sifting and mixing the different elements that enter into the average gravelbed, we have succeeded in making very desirable roads. In our pine and sandy districts, where the traffic is not very heavy, they seem to fulfil all the necessary conditions; but in thickly-settled farming districts their comparative cheapness of construction should not tempt petitioners to enter heartily into their construction, as the proper material in farming communities is scarce; and as they require more attention to keep them in order they will in the end find that they are more expensive than those built of stone. We have constructed a few gravel roads that are almost as hard as stone, but they are principally those where natural conditions have unwittingly entered to produce the proper combinations. The majority of these roads, however, present no such conditions : therefore, extreme care must be continually exercised in their construction in order that perfect roadbeds will result.

#### AUTOMOBILES.

The general introduction of the automobile will, no doubt, cause an unprecedented development of good

#### STATE DEPARTMENTS.

roads, in order that the vehicle of the future can have easy propulsion through all sections of our beautiful State, thus showing desirable resident sites to homeseekers. Ninety establishments are now actually engaged in building carriages coaches, tricycles and delivery wagons representing several hundred types of vehicles and nearly half as many methods of propulsion. Organization and consolidation of vehicle companies are going on, until one scheme, at least, has a capital of two hundred millions of dollars. All manufacturers are overwhelmed with business, and one company is working day and night on an order of five thousand vehicles. The best modern motor vehicle is practically noiseless, odorless and nearly free from vibrations. Manufacturers are receiving the greatest number of inquiries from localities where the pavements are good. Already bicycling has had a profound influence in spurring the road-makers, and the introduction of the motor vehicle will be still more effective. Its universal adoption is inevitable, and probably very near. The frequency of steam cars, electric cars, bicycles and other vehicles of odd form or huge bulk, are all so startling as to make extremely dangerous and destroy all pleasure in the use of the horse, so that many persons will, as a matter of safety, be constrained to adopt the new horeless vehicle.

#### CONTINUOUS LINES.

In the furtherance of the idea of continuous lines throughout the State we are making very good progress. A road seven miles in length has been built in Morris county, running northwest and southeast, connecting with another piece built in Essex county, which makes a continuous line from Newark to Lake Hopatcong. We have also completed a link from Afton to Hanover, which connects Chatham and Madison and several points in the Morris county system with several roads in the Essex county system, making several continuous lines from Morris county to the Oranges.

A road has been approved of in Middlesex county, seven miles in length, between New Brunswick and Old Bridge, which, with other improved roads makes a continuous line from New Brunswick to Long Branch and the more southern portions of the seashore. Another road is also in the course of construction, from New Brunswick through Dayton and Cranbury to the Mercer county line, fifteen miles long. This connects with a road which has been approved of leading from the Mer-

cer county line south through Hightstown and Windsor to Edinburgh, giving an improved highway all the way from New Brunswick to Trenton, thence to Jersey City.

Three small pieces of roads have also been approved of from Hightstown through the counties of Mercer, Middlesex and Monmouth, which give improved roads all the way from Trenton, through Freehold, to Long Branch. The last link in the system between Camden and Trenton has been this year completed, from near Bordentown to the Crosswicks creek at Mercer county line. We are also extending several lines from large centres towards other business centres by adding a link each year to their respective ends. Of this class is the road from Morristown, through Bernardsville, towards Somerville, six miles of which has been completed this year to Bedminster. A link of seven miles in the chain from Trenton, through Pennington and Hopewell to Somerville, has been constructed this year. We have now four lines, pointing northward from the city of Trenton, to which additions will probably be added each year, connecting Trent n with the improved towns that lie northeast, north and northwest from this great manufacturing and merchandising centre.

The roads leading out of Camden are being gradually added to until they now resemble a wheel with many spokes, the rim of which is continually expanding. In the southern part of the State the important towns of Bordentown, Columbus, Burlington, Beverly, Mt. Holly, Moorestown, Gloucester, Woodbury, Paulsboro and Egg Harbor City have now several roads improved by State Aid and leading different directions, long distances into the surrounding country. In the northern portion of the State, Trenton, New Brunswick, Metuchen, Perth Amboy, Rahway, Plainfield, Bound Brook, Newark, Paterson and Morristown have similar hard roads radiating in all directions. Essex county, still ambitious for all State aid it can get, has almost a perfect net-work of improved roads running in every direction over its surface. Although several side-lines not so important have been 'forced through local influence into the improved list yet we can rest well satisfied with our progress in the direction of continuous lines. If the same idea continues to materialize for a few years, automobiles will be able to travel on smooth surfaces over all the desirable portions of this State.

#### STATE MUSEUM.

The State Museum was established by act of the Legislature, approved March 20th, 1895. A Commission, consisting of the President of the Senate, the Speaker of the House of Assembly, the State Geologist, the Superintendent of Public Instruction and the President of the State Board of Agriculture, was created, the members to serve without compensation. This Commission appointed Professor Silas R. Morse, of Atlantic City, Curator of the Museum.

The Museum had its origin in the collections made by the State for the World's Columbia Exposition in Chicago, in 1893, and the geological exhibits that were already on exhibition in the State House.

New exhibits are constantly being added, and all the available room on the third floor of the State House has been filled The exhibits are designed to keep the general public in touch with the State's life, to illustrate its natural resources and capabilities, and constitute an important part of its educational auxiliaries.

## Gentlemen of the Senate and General Assembly:

As required by the constitution, I desire herewith to submit to you this, my first annual message. In it reference will be made to the condition of the State and your attention invited to such measures as seem to me worthy of your consideration and action.

The annual reports of the various officials of the State furnish detailed information concerning their respective departments and the character and results of the work done therein They are full of instruction and interest and are worthy of your careful study, in order that the duties awaiting you may be discharged with intelligence and satisfaction to yourselves and the people whom you represent. It is believed that these reports will disclose in the conduct of our State affairs a large measure of honesty, competency and conscientious zeal. This desirable result is chiefly due to the non-partisan control of our institutions and their conduct upon a non-partisan basis.

For the needs of the various departments, to which a particular reference may not herein be made, sufficient information will be found for your enlightenment and guidance in the statements which have been submitted.

As affording evidence of the general prosperous conditions which characterized the last fiscal year, and the careful and prudent conduct of this important branch of our government, I desire to lay before you the financial transactions of the State for the year ending October 31, 1899.

### FINANCES.

It is with justifiable pride that your attention is called to these transactions. A clear and comprehensive statement thereof is to be found in the reports of the Treasurer and the Comptroller. Some idea of the varied and important duties of these officers may be formed when it is recalled that during the last fiscal year they had charge of the collection and disbursement of about six millions of dollars.

#### INCOME OF STATE FUND.

### EXTRAORDINARY DISBURSEMENTS.

During the preceding year they amounted to	191,170	34
Showing an excess over the year of 1898 of	\$587 536	57

A very large part of this increase is due to expenditures made on account of the war with Spain, the most of which (except additional compensation paid to volunteers) will be refunded by the National Government. It will also be noticed that many of these expenditures were made for improvements of a permanent character.

Notwithstanding the unusual extraordinary disbursements, the cash balance on hand at the close of the fiscal year was greater than at any time in the history of the State.

Against this sum there will be charged the amount of appropriations made in the "Supplemental" bill. The school tax, which is the only direct tax levied upon the people of the State, amounted to the sum of \$2,284,310. This, together with the additional sum of \$670,060.53. representing various other funds, was also received and disbursed as directed by law.

According to the provisions of Chapter 69 of the Laws of 1897, there was allotted to various taxing districts out

of the taxes on railroads the sum of \$201,631.13. This sum was, until recently, collected and retained by the State for State purposes. Its distribution serves to relieve the burden of local taxes to that amount.

### STATE DEBT.

The last of the bonds of the State, amounting to \$71,-000, issued for war purposes, fall due January 1, 1902. One of the bonds of the denomination of \$1,000, payable in 1896, has not yet been presented for cancellation, and there is due about \$1,500, for coupons outstanding; \$48,-000, represented by certificates issued to the Commissioners of the Agricultural College are also due, but for all indebtedness there is an ample fund.

## SPANISH WAR CLAIMS.

Five installments of war claims, aggregating in amount \$346,155.92, have been filed with the auditors for the War Department at Washington for examination and settlement. Items amounting to \$15,371.77 have already been allowed, for which drafts have been received and turned over to the Comptroller. Against the above claims the Government has charged \$62,640, representing the value of ordnance stores loaned by it to the State. The net amount of unsettled claims is therefore \$268,144.15. The various installments presented are now undergoing examination by the National authorities, and as items are

allowed from time to time payments of the amounts thereof will be made to the State. The amounts charged for clothing, subsistence and transportation will, when allowed, be paid in cash, but a very considerable portion of the claims against the Government are for ordnance and ordnance stores, camp and garrison equipage, etc, taken from the National Guard supplies and used in equipping the State's quota of volunteers under the several calls of the President. The cost of these stores will not be repaid in cash, but will probably be placed to the credit of the State on account of the annual quota allowed for arming and equipping the militia, and will be replaced by issues in kind upon requisition by the Governor It is impossible to state with exactness the amount which will be realized by the State upon its claims, or when they will be paid, but every effort is being made by the authorities to secure a speedy and satisfactory settlement.

## STATE OYSTER COMMISSION.

The wisdom of the law authorizing a change in the policy of the State with reference to some of its oyster beds and the appointment of a Commission to take charge of the same, has been fully demonstrated in its practical operation during the first year since its enactment. All the oyster grounds, lands and beds under the tidal waters of the Delaware Bay and Maurice River Cove. south of an established line, were placed under the exclusive regulation and control of the Commission. Its members were invested with authority to lease the lands, license boats, and take all steps necessary for the preservation and improvement of the beds and grounds and the protection of those engaged in the cultivation and gathering of oysters. Their jurisdiction is limited by the act to a territory which embraces an area of about two hundred and twenty square miles, being about twenty-one miles long and ten miles wide-a very small portion of the entire lands of the State adapted to that purpose. Of this there is now actually devoted to the industry a tract about fourteen miles in length and seven and one-half m les wide. Under the laws and practices heretofore in vogue, titles were insecure and ownership precarious. The boundaries of the beds were indefinite and no record of deeds was kept. The possessor's claim, being in most instances only that of a squatter's right, was respected by none. Trespassing became easy, thieving was of frequent occurrence, and the business was insecure Bitter feuds were engendered, and at times blood has been shed in controversies arising from conflicting claims and disputed rights. These evils followed as a natural consequence of the looseness and defects of the old system (if such it can be properly called) and discouraged that development of the industry of which it was capable under wise and definite laws. The unsatisfactory condition of affairs has long been recognized, but prior to the close of last year it was impossible to devise a scheme which would be favored by a substantial unanimity of sentiment among those most interested. Although public ownership and management has long been bitterly opposed, it is believed that the assumption of control of these lands by the State—to be extended eventually over all - will furnish a wise solution of the perplexing problem, and thereby secure to the owners ample protection in their rights and the State a constantly increasing source of revenue.

The importance of a proper settlement of the question has been little understood by the people of the State at large. It is not generally known that the annual value of the oyster crop is nearly two millions of dollars, a sum equal to the value of the yearly wheat production of the State. The number of vessels and men engaged in the industry within the limited area of territory affected varies at times, but in recent years from five hundred to six hundred vessels, with crews from three to ten men each, have found employment therein Under the policy just inaugurated, assuring as it does to those coming under its provisions security in their property and a cer-tain reward for their toil, even in its present narrow limits, we may fairly assume that the industry will thrive more vigorously than it has in the past. Within the district to which the law is confined there are large areas of unoccupied lands which without doubt, under the new conditions, will be utilized for the growth of seed oysters. Thousands of acres, now barren, can be made productive, and from them the needed supply be transplanted to other beds within the State. The amount now annually spent elsewhere for seed oysters, some three hundred thousand dollars, can gradually be reduced as these beds are occupied, until the entire sum, with the benefits attendant thereon, will be expended among the people of our State.

The Commissioners are authorized by the act under which they are appointed to cause the lands which they lease to be measured and mapped in such manner that the same may be accurately fixed and easily located. I

would respectfully urge that your Honorable Bodies comply with their recommendation and authorize an apropriation for the purpose, fully believing as I do that the best interests of the State will be served thereby.

### RIPARIAN COMMISSION.

The Commission, during a large part of the year, suspended the making of grants and other conveyances while it had under consideration a change in the method of dealing with the State riparian lands. Its receipts, therefore, have been less than they would have been had the old policy been pursued. They report having received :

From	grants in fee	\$11.884 1	7
6 <b>6</b>	leases	1,726 0	0
	licenses		0
66	conversions	41 813 5	0
	rental from leases		5
		\$102,743 55	2

The leases and grants which were pending during the consideration of the proposed change, represented in value about fifty thousand dollars more than the amount actually received and were afterwards made by the Board They were in reality a part of its annual work and the increase in the amount of business over the preceding year is nearly twenty thousand dollars

The work of the Commission has been more arduous and exacting than in previous years, so far as regards matters of detail, and it has been called upon to solve many difficult and perplexing problems These have, I confidently believe, been settled satisfactorily to the applicants and with due regard to the interests of the State. Repeated examinations of the water-front of the State have been made. Wherever encroachments have been discovered the trespassers have been made to apply and pay for leases or grants.

Reference has been made to the fact that the Commissioners have had under consideration a change in the policy heretofore followed.

The State has realized in all from the sale of its lands under waters about four millions of dollars, and from rentals therefor about one million of dollars. There yet remain undisposed of many lands which, in comparison with those already sold or leased, seem to be far less valuable. They are located on waters where there is no likelihood of an early demand for them Naturally the demand has been for those situated near the centers of population and on the highways of commerce, where the rapid development of material interests and commercial enterprises make necessary the occupation and improvement of lands of this character.

And yet the value of those still unsold is estimated by reliable authorities to be worth at least twenty millions of dollars The manner in which they should be disposed of with the greatest benefit to the State is a subject worthy of thoughtful consideration.

The nature of the proposed change which the Board had in view, and the reasons for its temporary abandonment, are set forth in the resolutions adopted by them on the second day of November last, and are as follows:

WHEREAS, This Board had had under consideration a change in its policy, whereby the practice hitherto followed of giving absolute grants, and perpetual leases convertible into grants, should be discontinued and in the place thereof a plan should be adopted of giving leases for a long or perpetual term, with no provision for conversion into grants, but upon such an annual rental as should be fixed from time to time by arbitration between the State and the lessee; and

WHEREAS, This Board had been advised by the Attorney-General and by its counsel that the Board has no power under the law to adopt and carry out such proposed plans;

Be it Resolved, That the further consideration of the said proposed change in the policy of the Board be postponed until the power of the Board shall be enlarged by act of the Legislature, and that the Board proceed with the applications and business before it in accordance with the practice hitherto followed.

In the plan contemplated the State was to retain its title and at all times receive a full and fair rental upon the real value of the lands. At the same time protection was to be afforded to the lessees of the State in the enjoyment of the premises which they had leased and improved, and they were to be safely guarded against future oppression or unfairness in valuation. The determination of this value was not left to the State alone or its agents. In the absence of mutual agreement between the parties to the lease as to value, resort was to be had to arbitration. Each was to be represented by arbitrators of their own selection, by whom, at the end of stated intervals during the continuance of the lease, the value should be fixed upon which the rental was to be based. In the event of failure to agree, a third arbitrator was to be appointed by the court, and by the three, or a majority of them, a fair value could be determined whereon to base the annual rental. After the expiration of the first period provided for in the lease, the terms of which would be the subject of mutual agreement, the rent was to be the legal rate of interest then prevailing, calculated upon the value of the premises as determined by the arbitrators. Valuation of the demised lands was to be made irrespective of the cost of the improvements placed thereon by the one in possession.

Such a scheme has much to commend it. In the light of experience had with similar leases, far less fair and liberal in their provisions which had been made and are now in force in other places without serious objection or inconvenience, it is not to be hastily condemned as contrary to the bests interests of the State. Against it there can not be urged the fact that the State has uniformly parted with its title to valuable lands under water. Wide differences of opinion exist as to the wisdom of the policy heretofore followed Many, whose views are entitled to great weight, believe that in pursuing it the State has suffered loss and under it has not realized the full value of the lands sold. In each case of sale or lease it has been merely a matter of bargaining the State securing the highest price a reluctant purchaser would pay, determined wholly by the urgency of his needs, and he in turn striving to secure the lands at the lowest price which the State would accept rather than suffer the loss of a sale. Under the method of disposal now prevailing each Commissioner finds his laudable desire to foster the commercial and industrial development of the State in direct conflict with his equally binding obligation to secure the greatest sum for the fund established for the benefit of the public schools. If, in your judgment, the interests of the State would be promoted by the change which has been under consideration, you should adopt such measures as will clothe the Commissioners with the necessary power.

## NATIONAL GUARD.

The present strength of the National Guard is two hundred and thirty-eight officers and three thousand four hundred and fifty-five enlisted men. No companies or troops have been organized during the year. A Commission, consisting of Major-General William J. Sewell,

Brigadier-General Bird W. Spencer (Inspector-General of Rifle Practice), and Brigadier-General P. Farmer Wanser, commanding the First Brigade, was appointed for the purpose of examining into the practicability of consolidating and improving the present organization of the National Guard. The scheme of reorganization recommended by them was approved, and, under general orders No. 6, dated May 2, 1899, was ordered to be carried into effect. Pursuant thereto there were created four regiments of twelve companies each, two field batteries, two troops of cavalry and two battalions of the Naval Reserve, consisting of two divisions each. In order that the recommendations of the Commission might be carried out, twelve companies were disbanded, two new regiments were organized, and three regiments consolidated with existing regiments. It is confidently believed that by such reorganization the efficiency of the Guard will be enhanced, and the necessary annual expenditures on its account reduced. The entire force of the State has practically been uniformed, armed and equipped during the year, and the Guard is now in good condition for any need that may arise requiring its services within the borders of the State.

There was no encampment at Sea Girt during the summer, the active work of the Guard at the camp grounds being devoted to rifle practice by the various organizations The annual appropriation for this purpose fell short of the requirements by about \$1,500. The deficiency is due to the fact that the State was obliged to bear the transportation expenses, usually paid by one of the two brigades. Under the circumstances it would seem to be proper to make an appropriation to meet the deficiency.

The First Brigade, by the soldierly appearance of its officers and men, and its excellence of marching, evoked favorable criticism and reflected credit on the State in the parade in which it took part at the Dewey ceremonies in the city of New York.

I have also appointed a Commission to simplify and amend the present incongruous and cumbersome laws relating to the National Guard. It consists of Major-General Sewell, Brigadier-Generals Spencer and Wanser, Commander Irving and Captain Hutchinson. These gentlemen have entered upon their labors, and hope to be able to report the results of their work in time to have the same submitted to you for your consideration and action. The Adjutant-General has been busily engaged in preparing a revised compilation of the officers and men of the State in all the wars in which New Jersey has been engaged, excepting the Civil war, record of which has already been printed He has gathered together much valuable historical material, and is rapidly preparing the same for publication. The printing of the compilation has been ordered and is proceeding as rapidly as a careful supervision will allow The Commission to whom the matter was entrusted decided that the records of the soldiers of the Spanish-American War should also be included, and the volumes, when completed, will contain the military history of the State complete from 1740 until the present time.

The Quartermaster-General has, in addition to the usual duties of his office, paid to the regularly accredited volunteers in the Spanish-American war the additional compensation allowed to them by the act of the last Legislature The amount so paid is \$157,106.85. Some payments are yet to be made to those who have thus far failed to present their claims. Such failure is due to the fact that many re-enlisted in the volunteer army and navy, and are now serving with their commands in the Philippines, Cuba, Puerto Rico, Hawaii and elsewhere. He has also superintended the distribution of the Spanish War medals, provided by the State for the officers and men who served with the New Jersey organizations during that war. The officers of the various regiments and of the naval reserve are entitled to praise for the aid which they cheerfully extended to the State authorities in the work of distribution

Your favorable action upon the recommendations of the Quartermaster-General, relative to needed and desirable improvements and additions to the State Camp grounds, is respectfully urged.

### THE PALISADES.

Pursuant to a joint resolution of the Legislature, passed at the last session and approved March 21, 1899. I appointed Miss Elizabeth B. Vermilye, Mrs. Cecilia Gaines Holland, Franklin W. Hopkins, William A. Linn and S. Wood McClave as a Commission to report upon the present condition of the Palisades, and to suggest some remedy or remedies to preserve them from defacement and depredation. The preservation of these cliffs, world-famous for their beauty and grandeur, has especially appealed to the citizens of this State, and for several years has formed the subject of earnest consideration. Several attempts have been made to devise some plan whereby they might be maintained in their natural beauty without imposing upon the people at large an excessive burden, or one which would be unequally distributed. After much agitation in regard to the subject, the first definite step was taken when the Legislature in 1895 authorized the appointment of a Commission to confer with a like Commission from the State of New York, and secure, if possible, action by the Government of the United States in acquiring and setting them apart as a reservation, or for the purpose of fortification, in order that they might be preserved in their natural beauty. The Commissions so appointed exhausted every reasonable effort in their endeavor to secure favorable action on the part of the National authorities, but without avail, and hope for aid from that source has been abandoned by all best qualified to judge of its probability. It is now generally conceded that the perservation of this grand and unequaled natural wonder must come through the agencies of the States within whose confines the cliffs are located. The interest of the people of New York has been deeply aroused, and, in response to a demand therefor, a Commission has been appointed by the Governor of that State to co-operate with the one appointed on behalf of New Jersey. The members of the respective Commissions have met repeatedly in joint session, and given to the matter entrusted to their care earnest and careful consideration. In everything that may be done for the accomplishment of the desired object, the authorities of this State are assured of the practical and efficient cooperation of New York.

As a result of their deliberations and investigations, the Commissioners appointed for New Jersey recommend as the first step to be taken, the enactment of a law creating a permanent Palisade Commission for the State, the members whereof shall serve without compensation. Such a Commission should be invested with power to acquire by gift, devise, purchase, condemnation or otherwise, the land necessary to prevent further defacement. It should be authorized to receive and expend for that purpose any sums of money that might be given to it or appropriated for its use. Power should be given to it to acquire lands for park purposes and boulevards or driveways in the immediate vicinity. It is represented that such a Commission, permanent in its character and invested with these powers, might be able in time to secure not only all of the land between the edge of the cliffs and low water, or at least so much thereof as would be necessary for these purposes; but, in addition thereto it might acquire title to portions of the upper plateau whereon to establish parks and driveways, whereby the public could gain access to the cliffs and be enabled to enjoy therefrom the scenic beauties for which this locality is famous Against the plan thus recommended, fewer objections can be urged than against those heretofore proposed, and it does not necessarily involve the State in a large appropriation of money at this time. A measure embodying the recommendations of the Commission will be laid before you during the session.

## STATE LIBRARY.

The number of books, pamphlets, magazines and newspapers in the Library in 1898 was 51,270. To these there have been added during the year, 1,688, making the total number on the first day of November, 1899, 52,958, from which should be deducted 787 duplicate books and pamphlets returned to the Superintendent of Documents at Washington, pursuant to the direction of the Library Commission. The actual number on hand is, therefore, 52,171, and these at a low estimate are valued at \$125,000. The volumes so returned will be replaced free of cost to the State by such as are needed to complete the State's sets of government publications.

The Library is only insured for \$12,000, and attention is called to the recommendation of the Librarian that the amount should be promptly increased, to the end that the State's interest may be better protected against loss by fire.

This large and valuable collection of books has no catalogue worthy of the name. There is a list in manuscript, but it is in a wretched state, intelligible only to the Librarian and his assistants. The suggestion that some new catalogue system should be adopted is to be commended. The cost is estimated to be between four thousand and five thousand dollars, and although the first outlay may seem to be considerable, yet the system, after it has been inaugurated, can be continued with the annual outlay of a small sum of money.

Three thousand dollars were appropriated last year for additions to the Library, and of this sum \$1,800 was spent for law books, and \$895 for miscellaneous books. magazines and newspapers. The balance was expended for binding and repairing. The Commissioners hope to increase the value of the Library by making it one especially suited for uses of reference, more particularly as relating to matters pertaining to the State and the history of its people. They therefore earnestly solicit from the public aid in procuring books, pamphlets and other publications which treat of local, family and historical matters.

The Commissioners, in discharge of the duty imposed on them, have formulated rules and regulations for the purchase and distribution of the traveling libraries, for which an appropriation of \$1,500 was made by the Legislature of last year. Twenty libraries, each containing one hundred volumes, carefully selected, were procured and in readiness for circulation shortly after the appropriation for that purpose was available. Many applications for use of the libraries have been received, and with these the Librarian has complied so far as he has been able to do so with the limited number at his disposal. At present the demand is not so great as to require an additional appropriation for new libraries, those on hand being sufficient in number to meet with reasonable promptness the requests that have thus far come from various parts of the State.

## NEW JERSEY VILLAGE FOR EPILEPTICS.

The report of the managers and the resident officers of the village sets forth very clearly, and in detail, the history of the movement for the establishment of the village and the progress thus far made. For further information your attention is referred to the report Last year application was made to the Legislature for the appropriation of \$25,000 for the immediate erection of two brick cottages, which, in the judgment of the man-agers, were absolutely necessary, \$8,000 for the purchase of a farm adjoining the one already owned by the State, \$6,500 for the running expenses, including salaries and necessary repairs, and \$2,000 for a water-supply and sewerage. After careful consideration of the matter the Legislature decided that the amount which had been asked should be allowed, and attempted to make the appropriation in the Supplemental Bill. Unfortunately the Comptroller felt that under the language employed, he was unauthorized to pay over the money, and was so advised. The amount was to be paid, provided such sums should be specially authorized by the Legislature, but, through inadvertence, no special acts were passed. Manifestly it was the intention to set aside the sums named for the specific objects mentioned. As a result of their failure to receive the money, the work of the managers has been very much hampered, and they would have been obliged to close the institution had they not received the sum of \$6,500 appropriated for maintenance.

A very large humber of applications for admission have been declined. Some patients, however, have been admitted, and the property has been maintained in good condition, and some few of the most necessary improvements have been made. The managers believe the cottages would have been completed if they had received the amount intended to be appropriated, and at least fifty patients would have been received. In view of the circumstances attending the failure of the appropriation I have no hesitation in recommending that a like amount be provided for in the Supplemental Bill, so that it may become immediately available for the uses of the school

The two cottages for which the appropriation was asked contemplated only those for the use of males. They were required in order to admit of the necessary separation of the less from the more troublesome. The same distinction will have to be made for the housing of females, if such are to be admitted, and, in the judgment of the management, there is also need of an administration building. To provide for these buildings and for other objects connected with the village mentioned in this report, they estimate that they will meet, in addition to the amount above mentioned, the sum of \$91,000. In addition thereto \$18,000 will be required for maintenance, salaries and repairs for the fiscal year beginning next November.

The managers represent that they have good cause to believe that after it is well established the village will be to a considerable degree self-supporting. This result, however, cannot be accomplished until accommodations are provided for patients, and an economical classification of labor made possible.

### THE HOSPITALS FOR INSANE.

During the year there were admitted to the Hospital at Morris Plains two hundred and seventy-two patients, and two hundred and six were discharged. Two hundred and sixty-seven were sent to the Hospital at Trenton, and two hundred and sixteen discharged therefrom. The total number under treatment during the year was fifteen hundred and eight in the former, and thirteen hundred and eighty-six in the latter. At the close of the Hospital year there were thirteen hundred and two inmates at Morris Plains and eleven hundred and seventy at Trenton, an increase of sixty-six in the former over the previous year and of fifty one in the latter. There are accommodations for about one thousand only at Morris Plains, and at Trenton there are two hundred and seventy-two more than the buildings are designed to accommodate.

To meet the crowded condition in the first-mentioned Hospital the Legislature has already made liberal appropriations, and work on the new buildings has progressed as rapidly as possible. Some delay has resulted from the impossibility of obtaining the necessary building materials, but early completion of the new structures is assured.

A personal examination of the institution at Trenton has impressed me with the great necessity for making additional provision for the care of the increasing number of members there confined.

Your attention is called to what is said by the managers with reference to the county asylums Indigent. patients are supported in the State Hospitals at the expense of the county from which they are committed. The maximum price paid for such support is fixed at the sum of three dollars weekly for each patient. In addition thereto there is paid out of the State Treasury on their account the sum of one dollar each week for each patient. But under existing laws the sum of two dollars weekly is given to each county for the care of each insane patient supported in its own asylum. This is manifestly unfair to the taxpayers of those counties where there are no asylums, and tends to encourage the erection of local asylums where sufficient facilities for the proper care and treatment of the insane cannot in the nature of things be furnished. The burden imposed upon the State is no inconsiderable one, for the reports submitted show that 1,548 patients were in the various county hospitals on the thirty-first day of October last.

Another element of injustice is found in the fact that in some cases the cost of maintenance is less than the sum received by the counties.

Some of the asylums, as at present conducted, certainly are not such as were contemplated by the State when it authorized such payments. They are in no sense asylums. In some counties, it is true, separate buildings are provided with the usual accessories for the care and comfort of the insane. These have resident physicians and a full corps of attendants and nurses. In others patients have frequent medical visitations and are under the care

of attendants and nurses, but there are no resident physicians. Even this much cannot be said in favor of some counties, where there are no separate buildings adapted to the requirements of the insane. There the almshouse affords these unfortunates their only shelter and resident inmates furnish the attendance. As the managers say, they are without organization; they have no adequate medical supervision, and the nurses and attendants are wholly unqualified.

All, however, are designated as asylums and receive State aid.

The attention of different Legislatures has been called to this matter in the past and the wish expressed that the practice should be changed. In the hope that something may be done to reduce the large annual expenditure for the support of the insane—about 16 per cent. of the ordinary expenses of the State—your attention is once more invited to the subject.

• Either State aid should be withdrawn altogether or the weekly payments reduced to one dollar per week, the sum now contributed by the State toward support in the State Hospitals.

### STATE SEWERAGE COMMISSION.

The public agitation which resulted in the enactment of the law of the last session, authorizing the appointment of a State Sewerage Commission, is of too recent occurrence to require more than passing reference. Considerations for the health and safety of districts of the State already thickly settled, the future welfare of a population constantly and rapidly increasing, differing methods arising from want of uniformity of laws and the lack of some central authority, alike demanded the immediate creation of a body invested with powers of general supervision over our sewerage systems. The proper disposal of the waste of crowded municipalities is a problem the wise solution of which is most intimately connected with their welfare and prosperity. There was needed some properly constituted commission with large general powers. The Legislature accordingly created such a body, and the following named gentlemen were appointed commissioners : William T. Hunt President ; John Hinchcliffe, Treasurer ; Charles A Fuller, Charles T. Harrington and David L. Wallace. From motives of caution the Legislature clothed these gentlemen with only a veto power upon new sewerage systems which they might deem injurious to the public.

They report among other things that they have, during the first year of their labors, been able to exercise this power, limited as it is in its operation, with benefit to the interests of all. They have sought to ensure a reasonable protection to the public from ill effects, without making their requirements so severe as to discourage all plans of sewerage. The Commission suggests that its powers be enlarged in certain directions. If it is to accomplish all that is to be desired, its functions ought to embrace more than the mere power of negation It should be clothed with authority to require from the localities which now have sewerage systems such measures as will prevent further injury to the streams of the State and the owners of property on their banks. It is true, as they say in this report, remedies for such injuries may be had from the courts, but these involve large cost, and follow rather than precede the injury. They ask to be invested with power to regulate existing sewerage so far as to prevent nuisances which will, sooner or later, involve communities in costly litigation.

The necessity of prompt action in the matter is so urgent, and the demands for relief (which under existing law is either impossible or extremely slow of accomplishment) so pressing, as to require from you your immediate attention. The report very fully and convincingly sets forth the reasons for which the Commissioners make this request.

The pollution of the Passaic river has also engaged their attention, and their conclusions with repect thereto are summarized by them as follows :

The pollution of the Passaic river should be stopped.

The first step is to make it obligatory for those polluting the river to make some other disposal of their crude sewerage than putting it into the river.

A reasonable time should be given for building suitable disposal works.

No limit of time should be given beyond five years from the date of the approval of the act.

Discretionary power should be given the State Sewerage Commission to fix the time when pollution shall cease within the five years limit.

The method of sewage disposal is one which belongs to the municipality or drainage district, subject to the approval of the State Sewerage Commission.

The Sewerage Commission should investigate the different plans and the approximate cost under either. The Commission should be provided with funds to pay the cost of making surveys estimates of costs and the conducting of such experiments as will enable them to make recommendations and give advice that will be of value.

It is needless to assure those of you who have a personal knowledge of existing conditions and surroundings that the subject is one of paramount importance and speedy and effective action is required.

Upon its proper solution depends not only the present comfort and health of the inhabitants of a large and populous district of the State, but the future growth and prosperity of a region destined within a few years under wise laws to furnish the home and field of labor for millions of people.

### STATE PRISON.

The report of the officers of the State Prison affords satisfactory evidence of the successful conduct of its affairs. The number of prisoners on the thirty-first day of October, 1899, was 1,119, instead of 1,228 at the end of the preceding year. It is gratifying to note that the number of commitments from the State Courts decreased from 487 to 466. The revenues of the prison have exceeded those of any year in its history. In 1896 they were \$45,016.83, and for the year just ended \$105,833 72. This amount included a small balance on hand at the beginning of the year. The net increase over the preceding year was \$16,553.27, and for the three years last past the increase amounts to the sum of \$60,616.19. In one sense this sum represents the contribution of the prison toward the revenues of the State, while in a specific sense it represents the reduction in the cost of the maintenance of the prison.

In the direction of the affairs of the prison, the question of revenue alone is secondary in importance to the question of the improvement of the mental, moral and physical well-being of the inmates. A due regard for this feature of administration, however, is not inconsistent with efforts to procure from the prisoners a fair contribution toward the expenses incurred in their support. Universal experience teaches that those undergoing enforced confinement are better off from every point of view if employed to a reasonable extent. The reports indicate that the prisoners have been so engaged as to bring about the greatest good to themselves and to the State. The average number employed during the year on contract work was 656, and the number employed in ordinary work for prison purposes was 241. The estimated daily value of the labor of the latter, for which no remuneration is received by the State, was 45 cents, and the value of the labor of prisoners employed on mechanical work in and about the prison, under like conditions, was 75 cents. The worth of their labor as a whole is estimated at \$40,325.25. In this sum is not included the work done by those employed upon the contracts, whose average daily earnings was .4253 cents each.

The cost of maintenance of the prison for the year, exclusive of salaries and gratuities to the discharged prisoners, was \$86,756 23. This is \$3,234.46 less than that of the previous year Owing to the increased revenue and the reduced cost of prison maintenance for each prisoner the net cost was \$77.23, instead of \$88.30, as in the preceding year, and the daily cost was reduced from .2419 cents to .2116 cents

The Parole Law, so called, has been in operation about nine years The wisdom exercised by the Board of Pardons in its consideration of petitions for release under this law may be inferred from the statement of the keeper of the prison relative to its operation. He has found upon examination that only sixteen of the three hundred and nine prisoners so far released have, by their conduct, forfeited their licenses to be at large.

The request of the keeper that he be authorized to make a larger allowance to prisoners upon their release has everything to commend it. Humane and selfish reasons alike urge a more liberal treatment of the discharged convict than that which the State has heretofore accorded him.

## THE REFORM SCHOOL FOR BOYS.

To this school any boy between the ages of five and sixteen years, arrested or convicted of any offense (except murder or manslaughter), may be committed The purpose of the school is to cause the boys there committed "to be instructed in piety and morality and in such branches of useful knowledge as are adapted to their age and capacity, and in some regular course of labor, either mechanical, manufacturing, agricultural, or a combination of these as is best suited to their age, strength, disposition and capacity, and in such other arts or trades as may seem best adapted to secure the reformation, amendment and benefit of the boys." The work of the school is of very great importance, not only in its effect upon the boys there gathered, but in the results which come to the community at large. It is such as to entitle those to whom its management has been entrusted to the active support and encouragement of the citizens of the State. The trustees of the school have been diligent and conscientious in the discharge of their duties, and have constantly endeavored to promote the interests of both school and State. They freely invite criticism and would welcome friendly suggestion.

At the close of the school year the number of boys was four hundred and five, an increase of one over the preceding year. Five hundred and sixty-nine boys were cared for, the average number being about three hundred and ninety-four. One hundred and sixty-four boys were disposed of, and one hundred and sixty-five were received. Of that number one hundred and nineteen were new admissions, being twenty-nine less than the year previous, two returned voluntarily, thirty-two were returned for cause and twelve upon expiration of their indenture. Since its inauguration in 1867, three thousand two hundred and eighty-six boys have been committed to the school and been subjected to the training which it has afforded.

The total expenditures for the year were \$80,742.89, but in this is included about \$12,000, which was spent in the erection of a much-needed chapel

The inmates of the school have been regularly employed in farming, gardening, shoemaking, sewing, laundry, brush and brick making, and to some, though to a very limited extent, in mechanical trades. All are obliged to labor at least six hours per day, except a class of small boys who are deficient in schooling. Bodily health and strength are thus secured, and at the same time mental training is afforded and habits of usefulness are formed.

The mental, physical and moral training which the boys here received is productive of excellent results. But the school has long felt the need of a room or buildings wherein instruction may be given in some of the simpler mechanical trades, such as carpentering, blacksmithing, bricklaying, plastering and plumbing. The Trustees again urge the making of an appropriation for that purpose by your Honorable Bodies, which recommendation and request is submitted for your careful consideration. The efficiency of the school would certainly be greatly increased by providing it with buildings of the character named.

### INDUSTRIAL SCHOOL FOR GIRLS.

This School has, during the past year, gained an unpleasant and unfortunate notoriety. Exaggerated and sensational accounts, spread broadcast over the country, have created a deeply erroneous impression as to the purposes of the School, the methods of its management and the results there attained. Officious intermeddlers, seeking a cheap notoriety and influenced by no honest purpose, or pretending to speak officially for some wellmeaning but wholly irresponsible and self-constituted organizations, with a prejudice born of ignorance and the assumption of an authority which the Legislature has wisely withheld from them, voluntarily and without any special demand for their views or an investigation of facts from reliable sources, have rushed into print with their ill-considered criticisms and suggestions.

The public, not informed of the true character of their utterances, which are neither sacred nor infallible, has attached to them an undue weight. From this mistaken zeal and unwarranted conduct there has come incalculable harm to an institution which is doing great good, and to the State an undeserved dishonor.

Some self-appointed censors have never visited the school. Others have not been there for a number of years and others still have barely an idea of its actual location Of the nature and character of its inmates and of the work actually done there they seem to have had no correct idea. Some of the regulations recommended by them for adoption have been in force for a number of years, and inquiry from the proper authority would have disclosed the fact. Evils which excited their indignation, and against which they bitterly complained, had been removed by the old Board of Trustees. Some of the reforms demanded were already instituted and others were impossible. Naturally those in authority hesitated to adopt many of the recommendations until the wisdom thereof had been demonstrated by the test of actual experience. Their reluctance has since been justified by happenings in schools where the methods advised were tried under the personal supervision of those favoring their adoption, with unfortunate results, it must be sadly confessed. There has been no occasion to quell riots among the inmates of this school with the aid of policemen's clubs and pistols, and there have been no riots.

All right-minded persons agree that in a school of this character discipline is indispensable. Obedience to wise

rules must be enforced. Vicious and uncontrollable tempers, which will brook no correction or interference, can not be allowed to set up the standard of conduct. Mistaken kindness and pampering indulgence cannot fail to work grievous wrong to the inmate. Love and obedience, rather than hate and wilful disobedience, must be the prevailing rule.

3

The records of the school afford the strongest proof that a wise care and faithful attention has marked the conduct of the officers and Board of Trustees and Managers. It is to be regretted that the members of the old Board felt obliged to resign rather than submit to the unfair imputations and unjust criticism which characterized the attack made on their official conduct. They are men of eminent respectability and high standing in the community and had served the State for many years with faithfulness and zeal. Their sole aim was the advancement of the interests of the institution, which had become to them an object of love and pride. If attacks of the character under consideration from persons or associations irresponsible for what they say or do are to go unrebuked, it will soon be impossible to secure the services of citizens competent to act as trustees or managers of our institutions.

At no time has the claim been made that the school has reached the full measure of perfection but under the management of the Trustees, aided by the intelligent and suggestive help of the Board of Women Visitors and of the officers, decided and, under the circumstances, astonishing reforms and advances have been made Their nature and extent are fully discussed in the report of the Principal, a careful reading of which will do much to remove existing prejudices and give a correct view of the purpose and scope of this very important school.

The new Board of Trustees has devoted much time and labor to the study of its affairs. They have conscientiously endeavored to discharge their duties in a manner to promote the well-being and reformation of the inmates, and at the same time protect the honor of the State. Their efforts are entitled to the encouragement of fair-minded people, and they especially invite your personal inspection of the school at any time.

They recommend an appropriation for an additional building, which seems to be necessary, in view of the crowded condition of the school. It is impossible to receive new inmates, and the various judges have been requested to withhold further commitments until new

accommodations are provided, or the present number is reduced. The appropriation of last year for this purpose was not used, and fell back into the treasury, executive approval of the plans being withheld because the cost of the proposed building exceeded the amount set aside.

### REVISION OF SCHOOL LAW.

The wise policy, inaugurated by my predecessor, in revising and codifying different subjects dealt with in our statutes has been continued with great advantage. The work has been done gratuitously by public-spirited commissioners, appointed for that purpose by the Governor. The result of their labors is found in the revisions of the Borough laws, District Court acts, Mechanics' Lien laws, Crimes act, Township laws, Conveyances and Orphans' Court act.

No laws, however, are in greater need of revision than those relating to the public school system of the State.

The last revision of these laws was made in 1874. Since then numerous amendments have been enacted, many of them local and special in character. The administrative system of the schools has changed, and separate enactments have been passed to provide for such changes. General laws upon other subjects, and the provisions of different municipal charters, have still further affected and modified the body of the school law, until it has become so confused and complex that it is impossible to give a safe opinion as to the exact provisions of the laws

For the purpose of remedying this confusion I appointed in the summer of 1898, under the authority of the Legislature, Hon. E. C. Stokes, S. St. J. McCutchen and J. B. Betts, a Commission to revise and codify the school laws. The Commission presented to the Legislature of last year a report in the form of a bill, upon which they thought wise, in view of the importance of the subject, to defer action until the present session

In the meantime this matter has been given the widest publicity and discussion The Commission have invited the fullest criticism and the co-operation of the school interests of the State. They have labored earnestly to secure such information as would enable them to accomplish the best possible results, and I am informed that in the near future they will make a report in the form of a new bill. The importance of this great subject of education leads me to ask for the work of this commission your careful consideration, in the hope that some effective revision may be enacted.

### STATE BOARD OF TAXATION.

The Board cannot be too highly commended for its usefulness. It commands at present the confidence and cheerful aid of the local authorities and has greatly increased its efficiency. The results of its labors fully justify the expenditure of the amount annually appropriated in its behalf. Since its creation, and as its field of operation has been enlarged, the demands made upon it have increased to such an extent that the compensation allowed for its services now seems hardly commensurate with their value.

From the report which the Board has presented it appears that the total assessed value of real and personal property, taxable locally for all purposes in the State for the year 1899, was as follows :

Real estate, \$758,461,054; personal property, \$141,456,-749, making the total value thereof, less the deductions for debts, \$866,030,061.

The increase of assessments of 1899 over those of 1898 shows a net gain of \$21,664,863, that in personal property being \$2,042,016, and in real estate \$17,803,683. The total valuation of property in the State, including real and personal property taxable locally, railroad and canal property. exempt property and deductions for debt under the act of April 11, 1856, was \$1,223,815,062.

The counties which reported an increase in valuation were Hudson, Camden, Essex, Mercer, Monmouth, Morris, Ocean, Passaic, Somerset, Sussex and Union, while in the agricultural counties of Bergen, Burlington, Cumberland, Gloucester, Hunterdon Middlesex, Salem and Warren and the seaside properties of Cape May, there is a decrease.

The value of the real estate represents 84.2 per centum, and the personal estate 15.8 per centum, of the total assessed valuation of the property in the State. It is a suggestive fact that the proportion of personalty assessed in the agricultural counties is greatly in excess of its proportion in counties containing large cities

The most important branch of the work of the Board, and the one to which it has given much of its time and attention, is the equalization of the assessments in the various taxing districts throughout the State. On behalf of some Townships allegations were made that lands therein situated were assessed at their value, while in other taxing districts located in the same county they were assessed at less than their value, thus compelling the complainants to pay an undue proportion of the County and State School tax. So glaring were these irregularities in some cases that the courts took judicial notice of them, and called the attention of the Grand Juries to the failure of assessors to make proper assessments. In one case at least a presentment was made. The Board also investigated complaints that were made. As a result of this action, the assessments complained of have been equalized, and an increase of several millions of dollars in taxable values has resulted. In many cases former methods have been changed, and valuations are now made in accordance with the standard required by law. The assessors of various other taxing districts throughout the State have had their attention called to the action of the Board and of the courts, and there will no doubt follow a stricter compliance with the express mandate of the constitution.

#### TAXATION OF FRANCHISES.

The Board, in its report, discusses at considerable length a problem of grave importance, namely, the taxation of franchises enjoyed by certain classes of corporations. The members suggest no special remedies by way of legislation, contenting themselves with calling your attention to the following facts :

Four elements of taxable property value are found in corporations: first, franchises; second, corporate property; third, bonds and shares of the capital stock in the hands of the individual stockholders; and fourth, capital stock in the hands of the corporations.

Upon each and all of these the State may impose taxes, unless forbidden by constitutional prohibition.

The law now provides for the taxation of corporate property. As a matter of fact it is taxed the same as that of the individual, certain designated corporations being excepted (P. L. 1896, page 110; G. S. 935, Sec. 133).

The courts have decided that the present law provides for the assessment against the corporation itself, and therefore the bonds and stock in the hands of individual shareholders and capital stock owned by corporations are not taxable. In other words, the property of the corporation is now taxable in the hands of the company itself, and should not again be taxed in the hands of its stock-holders.

Certain franchises are now taxable by authority of express legislative enactment. Under the act of 1884 all steam railroad companies pay one-half of one per cent. upon the value of their franchises as determined by the State Board of Assessors, such taxes being paid to the State and affording no inconsiderable portion of its revenues. The legality of this method of taxation has been upheld by the highest court of the State and by the U. S. Supreme Court (92 U. S. 575).

The State requires from all corporations when they are organized the payment of a certain fee, and annually thereafter a moderate tax is payable, except by such companies as are engaged in manufacturing in the State. This cannot, however, they rightly say, be considered a property tax. It is merely a license fee exacted by the State for the right granted by it to the corporation to exist and to do business as such. All citizens may avail themselves of the provisions of the law. Compliance with the established requirements is all that is necessary to incorporate. Property acquired is assessed in the same manner as property of the individual. Corporations so organized do not acquire special or exclusive rights. They cannot use any of the public property, such as streets or highways, in furtherance of the objects of their incorporation. They have no more rights than the individual in this regard.

But corporations organized for certain purposes have the right to such use. Street railway companies, telephone and telegraph companies, and gas, water and electric light companies, under the law, have and exercise such rights. Their use of the public property may not, in a strict sense, be deemed a monopoly, but practically it is such. In so far as they use the public property to the exclusion of others they may be regarded as having a special and peculiar franchise. Upon its exclusive character depends in large measure their successful and profitable operation

Such is a brief summary of the fair and instructive discussion of the subject to be found in the report of the Board.

The question pressing upon your attention and demanding answer is: Do the franchises of corporations of a *quasi* public nature, enjoying special privileges in the use of public property, possess a value which should be the subject of taxation, and, if so, are the laws defective in not subjecting them to such taxation?

This special privilege or exclusive right is as much an element of value as the rest of the property of such corporations, and is so regarded by those interested therein and by the public. Ample proof of this fact is found in the vast increase of the amount of their interest bearing securities and stocks, a large part whereof have been issued upon the basis of the value of the franchises referred to, and find their security in the possession thereof by the companies issuing them. The rapid growth of our cities, thus affording greater patronage and income, the diminished cost of constructing and extending *quasi* public works, inventions that facilitate and decrease the expense of operation, have each contributed to the enhancement of the relative value of the franchise. Shall that element of value be subject to taxation?

I fully realize the importance of dealing with this matter in a conservative spirit. The prosperity of a State depends largely upon the security which it affords to invested capital. It ought not to be forgotten that when many of the corporations now exercising these franchises established their business, the success was by no means certain. Those who have been, and who still are, willing to take the risks involved in such enterprises, hazardous and uncertain in the beginning, are entitled to encouragement and considerate treatment. It should be remembered that in addition to the tax on their property payable locally, there has been for many years exacted from them an annual State tax, determined by the amount of their capital stock. Besides, it is no doubt true that the people have derived much benefit from the growth and operation of these corporations in the way of better service and cheaper rates than in former years. It would be manifestly unjust to impose on them an undue burden or discourage all enterprises by excessive taxation. At the same time this great element in the value of the property of these companies, in so far as it does not already bear its share of public burdens, should be subject to a fair and reasonable imposition.

In my judgment, the fairest and most practical way to deal with the problem is to classify by legislative enactment these special franchises for the purpose of taxation by one of the State Boards This, I think, is particularly necessary, in view of the fact that many of the corporations referred to are exercising franchises in more than one municipality. It is obviously impracticable for the local assessors of a municipality in which part of a plant of such a corporation is located to estimate the value of the fraction of the franchise therein exercised The proceeds of the taxes levied should be distributed among the municipalities in which the property of the corporation is situate, and in which it exercises its franchises, on the basis of earnings in each municipality, if practicable, or according to some other method that would secure a substantially equitable distribution of the money.

Some corporations exercising special franchises now pay part of their receipts to municipalities under agreements made when the franchises were granted. In order that such taxation should be proportionate, and not open to the objection of being double, the amount paid in pursuance of such agreements should be deducted from the taxes assessed on the franchises of the corporations so paying

This subject is probably the most important that will engage your attention during the present session, and I suggest that it be taken up for consideration as early as practicable, to the end that something definite and satisfactory may be accomplished before adjournment. In the justice and fairness of your action I have all confidence.

Your attention is directed to the reports of those departments in which the general public have an especial interest—notably, the departments of Agriculture, Banking and Insurance, Education, Geology, Health, Labor and Industries, and Public Roads. In each there will be found evidences of very gratifying advancement in the amount of efficient work and results accomplished. This much may also be said of those who have had in charge the educational interests of the State and the care and custody of the delinquents and defectives.

All legislative measures of the last session received executive consideration and were disposed of on or before the day of adjournment. This departure from the old practice met, I believe, with very general approval and should be adhered to. Your Honorable Bodies can (and I have no doubt will) make this much easier of accomplishment by the prompt consideration and early passage of such measures as shall receive your approval. The harmonious relations which marked our intercourse last year are recalled with pleasure and it will be my constant aim to promote their continuance during the session upon which you now enter.
