EXECUTIVE ORDERS

EXECUTIVE OFFICE

(a)

EXECUTIVE OFFICE

Governor Thomas H. Kean
Executive Order Number 15 (1982)

State Employee Housing Program

Issued: September 8, 1982.

Effective: January 1, 1983.

EXECUTIVE ORDER NO. 15 (1982)

WHEREAS, the State currently provides housing to over 1,300 State employees; and

WHEREAS, the administration of the employee housing program is decentralized and lacks a coordinated Statewide perspective; and

WHEREAS, the current rental rates charged do not reflect current fair market rates; and

WHEREAS, the State is losing a viable source of revenue by maintaining unreasonably low rentals as well as paying the utility and maintenance charges for all occupants.

NOW, THEREFORE, THOMAS H. KEAN, Governor of the State of New Jersey, by virtue of the authority vested in me by the Constitution and laws of the State of New Jersey, do hereby **ORDER** and **DIRECT**:

1. The Bureau of Real Property Management in the Department of Treasury (hereinafter the Bureau) shall administer, under the general supervision of the State Treasurer, all State-owned employee housing.

2. State employees shall pay the fair market value of the State-owned housing units which they occupy. Except as provided in paragraphs 5 and 6 of this order, no State employee shall be granted a reduction of a rental rate due to mandatory occupancy nor shall any State employee receive rent free housing. Accordingly, the Bureau shall calculate the fair market rental value of all occupied State-owned employee housing. No sum less than that amount shall be provided by the chief examiner and secretary of Civil Service as rent. The Bureau shall annually review rental rates and shall increase or decrease them as need be according to the current fair market rates. The Consumer Price Index or HUD's Section 8 housing rates may be utilized to develop these updates. When determining fair market value, the Bureau shall take into account whether the housing is located on institutional grounds and shall adjust the rent accordingly.

3. All utility charges directly attributable to a State-owned employee housing unit shall be charged to the occupant, either separately if it is feasible or practicable to do so, or by reflecting such charges in a fair market rental. All maintenance charges customarily paid by tenants shall be paid by occupants of State-owned housing.

4. The Bureau shall establish policies with regard to the respective landlord-tenant rights and responsibilities of the State and an occupant of State-owned employee housing and incorporate those policies into a standard form lease.

5. State housing occupied by the Commissioner of Corrections, the Chancellor of Higher Education, the Commissioner of Education, State college presidents and superintendents in State correctional facilities shall not be subject to paragraphs 2 and 3 of this executive order.

6. Upon the application of a cabinet officer, the State Treasurer may authorize reasonable exceptions or modifications from the requirements of paragraphs 2 and 3 for reasons which include but are not limited to: a) that residency in the State housing unit is a condition of employment; b) that the unit is located on institutional grounds; and c) that the fair market rental value of the housing is substantially disproportionate to the salary of the employee.

7. Departments which employ personnel occupying State-owned housing shall file with the Bureau a description of its policies with respect to eligibility standards for occupancy, selection procedures, occupancy as a condition of employment and continuation of housing use.

8. The Bureau shall identify any off premises State-owned employee housing which is not essential for State operations. With the concurrence of the interested cabinet officer, steps shall be taken to commence the sale of the property in accordance with the procedures of the law.

9. The Bureau shall continue to maintain on an ongoing basis its current inventory of State-owned employee housing units, and the

NEW JERSEY REGISTER

The official publication containing notices of proposed rules and rules adopted by State agencies pursuant to the New Jersey Constitution, Art. V, Sec. IV, Para. 6 and the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq. Issued monthly since September 1969, and twice-monthly since November 1981.

Material published in the New Jersey Register is the property of the State of New Jersey. However, it may be copied, reproduced or republished by any person for any purpose whatsoever without permission, providing that no such reproduction or republication shall bear the title "New Jersey Register" or "Official Rules Publication" without the written permission of the Director, Office of Administrative Law.

The New Jersey Register (USPS 442-950) is published the first and third Monday of each month by Administrative Publications of the Office of Administrative Law, CN 301, Trenton, New Jersey 08625. Telephone: (609) 292-6060. Subscriptions, payable in advance, are one year, \$40 (\$75 by First Class Mail); back issues when available, \$3.50 each. Make checks payable to Administrative Publications.

POSTMASTER: Send address changes to: New Jersey Register, CN 301, Trenton, New Jersey 08625. Second Class Postage paid at Trenton, New Jersey and additional mailing offices.

The NEW JERSEY ADMINISTRATIVE CODE is published on a continuing basis by Administrative Publications of the Office of Administrative Law. Subscription rates for this 31-volume, regularly updated set of all State administrative rules are available on request. The Code is sold either in the full set or in one to three volumes depending on the Department coverage desired.

RULE PROPOSALS

Bureau shall provide the Office of Management Services with quarterly progress reports on housing sales and rental revisions for the first year and semi-annually thereafter.

10. The provisions of this executive order shall not apply to armories or other military facilities governed by N.J.S.A. 38A:12-5 nor to dormitories and other student housing currently administered by the trustees of the State colleges.

COMMUNITY AFFAIRS

(a)

DIVISION OF HOUSING

Rooming and Boarding Houses Accessory Buildings

Proposed Amendments: N.J.A.C. 5:27-1.6 and 2.1

Authorized By: John P. Renna, Commissioner, Department of Community Affairs.
Authority: N.J.S.A. 55:13B-4(a).

Interested persons may submit in writing, data, views or arguments relevant to the proposal on or before November 3, 1982. These submissions, and any inquiries about submissions and responses, should be addressed to:

Michael L. Ticktin, Esq.
Administrative Practice Officer
Division of Housing
CN 804
Trenton, NJ 08625

The Department of Community Affairs thereafter may adopt this proposal without further notice (see: N.J.A.C. 1:30-3.5). The adoption becomes effective upon publication in the Register of a notice of adoption.

This proposal is known as PRN 1982-387.

The agency proposal follows:

Summary

The proposed amendment defines "accessory building" and specifies that such buildings do not require separate operators and license endorsements. The proposal further specifies when a separate endorsement and operator will be required.

Social Impact

Clarification as to when a separate operator is required will prevent confusion and eliminate conflicting interpretations.

Economic Impact

Owners will not be required to hire extra licensed operators for individual buildings in a multi-building rooming or boarding house.

Full text of the proposal follows (additions indicated in boldface **thus**; deletions indicated in brackets [thus]).

5:27-1.6 Licenses

(a)-(c) (No change.)

(d) The license shall specify whether the licensee is licensed as an operator or as an owner and shall identify the property or properties, **including accessory buildings**, operated or owned by the licensee. **A separate endorsement shall be required for each building occupied by residents which is not an accessory building.**

(e)-(f) (No change.)

(g) No owner shall employ any person not licensed as an operator to operate any rooming or boarding house. **A separate operator shall be required for every building occupied by residents other than an accessory building.**

(h)-(i) (No change.)

5:27-2.1 Definitions

The following words and terms, when used in this chapter, shall have the following meanings unless the context clearly [indicated] indicates otherwise:

"Accessory building" means a building, whether or not occupied by residents, the use of which is incidental to that of the main building of a rooming or boarding house and which is located on the same lot, or on a contiguous lot, or on a lot that would be contiguous but for the presence of a public street or other public right-of-way.

ENVIRONMENTAL PROTECTION

DIVISION OF WATER RESOURCES

Water Supply Bond Loan Regulations for the Rehabilitation of Water Supply Facilities Emergency Interim Rehabilitation Loan Procedures

Proposed New Rule: N.J.A.C. 7:1A-3

Authorized By: Robert E. Hughey, Commissioner,
Department of Environmental Protection.
Authority: Water Supply Bond Act of 1981, P.L. 1981,
c.261, section 5.
DEP Docket No.: 041-82-09

Interested persons may submit in writing, data, views or arguments relevant to the proposal on or before November 3, 1982. These submissions, and any inquiries about submissions and responses, should be addressed to:

Robert Oberthaler
Water Supply and Watershed
Management Administration
CN 029
Trenton, NJ 08625

The Department of Environmental Protection thereafter may adopt this proposal without further notice (see: N.J.A.C. 1:30-3.5). The adoption becomes effective upon publication in the Register of a notice of adoption.

This proposal is known as PRN 1982-395.

The agency proposal follows.

Summary

The recent water supply crisis in Jersey City provided a dramatic example of the imminent peril and need for rehabilitation that jeopardizes many older water supply systems which service a substantial number of New Jersey residents. The most recent critical water supply service disruption in Jersey City began on July 15, 1982 at approximately 4:00 P.M. A seemingly minor water main break on one of two water mains in the Secaucus area could not be isolated due to inoperative valves. As a consequence, the water supply originating from the Boonton Reservoir had to be shut off to allow for the necessary dewatering at the break site to provide for the required interim repairs. This action began at 9:00 P.M. on July 16, 1982 and lasted until the Boonton Reservoir flow commenced again at 3:15 P.M. on July 18, 1982. Approximately 328,000 people in Jersey City, Hoboken and Lyndhurst suffered complete shutdown of their water supply system, including ensuing water quality problems, for over a 40 hour period. Local business, industry, government services and residents were all deprived of water which remains an essential element to the health, safety, and economic welfare of the State of New Jersey.

The imminent potential exists for the same situation occurring in other major water supply systems of the State. Many water supply systems have antiquated and inadequately operating transmission systems vulnerable to emergency main breaks, valve failures and other problems that could cause a critical water supply service disruption similar to the Jersey City crisis. Water supply systems unable to interconnect with other large purveyors are even more vulnerable to imminent potential disruptions in water supply. To address the imminent peril created by this situation, the Department of Environmental Protection has filed this proposed new rule setting forth Emergency Interim Rehabilitation Loan Procedures to be cited as N.J.A.C. 7:1A-3, amending and supplementing the Water Supply Bond Loan Regulation for the Rehabilitation of Water Supply Facilities, N.J.A.C. 7:1A-1 and 2.

The proposed new rule, N.J.A.C. 7:1A-3, provides the criteria and mechanisms by which the Department may award emergency interim rehabilitation loans to emergency loan applicants who have suffered critical water supply service disruptions. A critical water supply service disruption is defined as the existing or recent loss of public potable water supply served by the emergency loan applicant to at least 25,000 residents or 50 percent of the residents within an emergency loan applicant's service area which lasts for at least a 24 hour period. Applicants for such loans must establish that certain criteria are met to the satisfaction of the Department in order to qualify for an emergency interim rehabilitation loan. A maximum loan of \$300,000 may be awarded. The award of an emergency interim rehabilitation loan shall subject the emergency loan applicant to participation in the Water Supply Bond Rehabilitation Loan Program established pursuant to N.J.A.C. 7:1A-1 and 2. Permits required pursuant to N.J.A.C. 7:10-11 or 12 for emergency rehabilitation work may be delayed for a period of up to six months. The emergency rule shall enable the Department to process and award emergency interim loans in a streamlined manner since certain time consuming provisions of N.J.A.C. 7:1A-1 and 2 have been waived or delayed. N.J.A.C. 7:1A-3 will allow the Department to respond to future critical water supply service disruptions, such as the Jersey City crisis, expeditiously and effectively.

Social Impact

A major positive social impact will result from the proposed new rule. The availability of emergency interim rehabilitation loans awarded to publicly owned water supply facilities for the purpose of interim rehabilitation and repair of critical water supply service disruptions shall benefit all citizens of the State. N.J.A.C. 7:1A-3 creates an expeditious procedure to provide necessary funds to deal with critical water supply service disruptions.

Economic Impact

The economic impact of the proposed new rule will be realized by the bond funds for emergency interim rehabilitation loans. While the expenditure of such funds will require repayment in accordance with the Water Supply Bond Act of 1981, and the regulations promulgated pursuant thereto, economic benefits will be realized by the improvement of such eligible water supply facilities. The damaging effects of critical water supply service disruptions will be more easily abated.

Full text of the proposed new rule follows.

SUBCHAPTER 3. EMERGENCY INTERIM REHABILITATION LOAN PROCEDURES

7:1A-3.1 Scope and construction of rules

(a) The following shall constitute the rules governing the issuance by the Department of Emergency Interim Rehabilitation Loans to publicly owned water supply facilities for the purpose of interim rehabilitation and repair of critical water supply service disruptions pursuant to the Water Supply Bond Act of 1981, P.L. 1981, c.261, Section 5. The following provisions of N.J.A.C. 7:1A-1 and 2 shall also apply to the emergency interim rehabilitation loan procedures set forth in this subchapter: N.J.A.C. 7:1A-1.3, 1.4, 1.5, 1.7, 2.2, 2.6, 2.10, 2.11, and 2.14 through 2.35 inclusive. The emergency loan applicant shall be exempt from all provisions of N.J.A.C. 7:1A-1 and 2 unless specifically set forth above.

(b) These rules shall be strictly construed to permit the Department to effectuate the purpose of the rehabilitation loan program set forth in N.J.A.C. 7:1A-1 and 2.

7:1A-3.2 Definition

For the purpose of this subchapter, the following definitions, in addition to those found in N.J.A.C. 7:1A-2.2, are applicable.

"Critical water supply service disruption" means the total loss of the public potable water supply served by the emergency loan applicant to at least 25,000 residents or 50 percent of the residents within the emergency loan applicant's service area which lasts for at least a 24 hour period.

"Emergency interim rehabilitation loan" means a loan issued pursuant to N.J.A.C. 7:1A-3.

"Emergency loan applicant" means any political subdivision of the State or agency thereof that applies for an emergency interim rehabilitation loan pursuant to N.J.A.C. 7:1A-3.

7:1A-3.3 Application procedures

(a) To apply for an emergency interim rehabilitation loan, an emergency loan applicant shall comply with all the pertinent requirements of this section. The application shall be submitted to the Division on forms provided for that purpose.

(b) An emergency loan applicant for an emergency interim rehabilitation loan shall submit to the Division within 60 days of the critical water supply service disruption or within 60 days of the effective date of this subchapter, documented information fulfilling all the following criteria to the satisfaction of the Department:

1. Establish that a critical water supply service disruption occurred within the previous six months, or within 60 days of the effective date of this subchapter, to the emergency loan applicant's water supply system;
2. Establish that the emergency loan applicant made good faith and diligent efforts to repair the cause of the critical water supply service disruption, especially within the initial 24 hour period;
3. Establish that no alternate source of water supply through interconnections or other devices could be utilized to replace any significant portion of the water supply rendered unavailable due to the water supply system malfunction or other incident that caused the critical water supply service disruption;
4. Establish that an imminent probability exists that another

critical water supply service disruption may occur to the emergency loan applicant's water supply system within three months after the last critical water supply service disruption or a critical water supply service disruption currently exists due to the age and antiquity of the emergency loan applicant's water supply system;

5. Establish that the emergency loan applicant needs financial assistance to terminate the critical water supply service disruption or avoid a recurrence thereof;

6. Establish that the need for the rehabilitation of one or more components of the emergency loan applicant's transmission facilities, as defined at N.J.A.C. 7:1A-2.2, caused the critical water supply service disruption;

7. Establish that the critical water supply service disruption shall not have occurred due to any intentional acts or omissions of the emergency loan applicant or any of its employees;

8. Establish the cost for the actual repair of the critical water supply service disruption, excluding administrative costs for regular personnel and costs normally funded from regular sources;

9. Establish that the emergency loan applicant has a plan to repay the loan and pay any other expenses necessary to fully complete and implement the emergency project; and establish the steps being taken to implement the plan that will guarantee that at the time of signing of the emergency interim rehabilitation loan award document the emergency loan applicant will be irrevocably committed to repay the loan and any other expenses necessary to fully complete and implement the emergency project; and

10. Provide all other information and documentation deemed necessary by the Department for the complete evaluation of the emergency loan applicant's application.

7:1A-3.4 Department approval/disapproval

(a) After a full review and evaluation of an application, the Department shall take one of the following actions:

- 1. Approve the emergency interim rehabilitation loan; or
- 2. Disapprove the application.

(b) The emergency loan applicant shall be promptly notified in writing of any approval or disapproval.

(c) Any disputes arising from the Department's decision shall be subject to the provisions of N.J.A.C. 7:1A-2.35.

7:1A-3.5 Amount and terms of emergency interim rehabilitation loan

(a) The amount of the emergency interim rehabilitation loan shall be determined by the Department based upon allowable costs as set forth in the applicable sections of N.J.A.C. 7:1A-1, 2 and 3, but shall not exceed a maximum total of \$300,000.

(b) The amount of the emergency interim rehabilitation loan shall not be included in the calculations for the maximum loan amount for any subsequent water supply rehabilitation loan awarded pursuant to N.J.A.C. 7:1A-1 and 2.

(c) The emergency interim rehabilitation loan shall be repaid within one year of the date or dates funds are disbursed, either through application of the proceeds of loan funds pursuant to N.J.A.C. 7:1A-1, 2, and 3 or from other sources, including external borrowings.

(d) Interest on the emergency interim rehabilitation loan shall accrue from the date or dates funds are disbursed and be computed at the annual rate of 80 percent of the average of the 52 week high and low of the Bond Buyer's 20-bond index as of the time the funds are disbursed and shall be payable at the end of one year from the date of disbursement or upon repayment of the emergency interim rehabilitation loan or any portion thereof.

(e) A rate schedule setting forth the amounts charged for the sale of water by the borrower shall be established. A percentage of these receipts, as stipulated by the loan award document, shall be dedicated to a specific fund for the purpose of assuring the repayment of the loan by the borrower. The Department may require additional collateral to secure the loan when deemed necessary.

(f) Any funds from repayment of the principal of emergency interim rehabilitation loans shall be repaid into the Water Supply Fund created pursuant to the Act and shall remain available for further disbursements as new loans to be awarded pursuant to N.J.A.C. 7:1A-1, 2 and 3.

(g) Any purchase, contract or agreement under an emergency interim rehabilitation loan may be made, negotiated or awarded without public advertising for bids provided that such purchase, contract or agreement qualify for an exemption pursuant to the "Emergency purchases and contracts" section of the Local Public Contracts Law, N.J.S.A. 40A:11-6.

7:1A-3.6 Required application for water supply bond rehabilitation loan

(a) All emergency interim rehabilitation loans shall be issued by the Department contingent upon the emergency loan applicant applying for a water supply bond rehabilitation loan pursuant to N.J.A.C. 7:1A-1 and 2 by the next annual application deadline date to remedy the problem which caused the critical water supply service disruption.

(b) Failure to comply with (a) above shall constitute good cause for the purpose of terminating the emergency interim rehabilitation loan pursuant to N.J.A.C. 7:1A-2.33.

7:1A-3.7 Design specifications

(a) All efforts by the emergency loan applicant to repair the cause of the critical water supply service disruption shall comply with the Standards for Construction of Public Community Water Systems, N.J.A.C. 7:10-11, and the Standards for the Construction of Public Non-Community and Non-Public Community Water Systems, N.J.A.C. 7:10-12, as relevant to the repair of the cause of critical water supply service disruption.

(b) If the Department determines that a permit pursuant to the regulations set forth in (a) above is required for the work to be undertaken to repair the cause of the critical water supply service disruption, the emergency loan applicant shall obtain said permit as soon as possible, but within six months after receipt of notice of the need for said permit from the Department.

HEALTH

(a)

DRUG UTILIZATION REVIEW COUNCIL

Interchangeable Drug Products

Proposed Amendment: N.J.A.C. 8:71

Authorized By: Drug Utilization Review Council, Robert G. Kowalski, Chairman.
 Authority: N.J.S.A. 24:6E-6b.

A public hearing concerning this rule will be held on October 27, 1982 at 10:00 A.M. at:

Training Room A
1st Floor
Health-Agriculture Bldg.
John Fitch Plaza
Trenton, NJ 08625

and sulfathiazole vaginal cream Clay-Park, NMC
Sulfamethoxazole/trimethoprim tabs 400/80,
800/160 Lemmon
Triamcinolone acetonide cream 0.1%, 0.025% NMC
Triamcinolone acetonide oint. 0.1% NMC
Triamcinolone acetonide oints. 0.025, 0.1, 0.5% Clay-Park
Trimethoprim tabs 100 mg Biocraft

Interested persons may submit in writing, data, views or arguments relevant to the proposal on or before November 3, 1982. These submissions, and any inquiries about submissions and responses, should be addressed to:

Thomas T. Culkin, PharmD, MPH
Drug Utilization Review Council
Department of Health
CN 360
Trenton, NJ 08625
(609) 984-2157

The Drug Utilization Review Council thereafter may adopt this proposal without further notice (see: N.J.A.C. 1:30-3.5). The adoption becomes effective upon publication in the Register of a notice of adoption.

This proposal is known as PRN 1982-392.

The agency proposal follows:

Summary

The proposed additions will expand the List of Interchangeable (Generic) Drug Products. For example, drugs such as oxycodone with aspirin could then be substituted by pharmacists for the brand Percodan.

Social Impact

If a patient's physician approves the substitution of a different brand name or a non-brand name drug product, the pharmacist may dispense a substituted drug if it reflects a lower cost to the consumer. The substitution can only occur if the drug is placed on the List of Interchangeable Drug Products. Thus, additions to the list expand the choice of the consumer.

Economic Impact

There will be an expanded opportunity for customers to save money on prescriptions through the use of generic medicines in place of name brand medicines. The extent of the savings due to these specific proposed additions cannot be quantitated.

Full text of the proposal follows (additions indicated in boldface thus).

Ampicillin/probenecid for solution	Biocraft
Aspirin with codeine 15, 30 mg	Chelsea
Chloroquine phosphate tabs 250 mg	Biocraft

Authority: N.J.S.A. 44:7-6 and 44:10-3; 44:7-87; P.L.
97-35 and Chapter II of Title 45, Code of Federal
Regulations (FR Vol. 47, No. 25, 5648-5685).

Interested persons may submit in writing, data, views or arguments relevant to the proposal on or before November 3, 1982. These submissions, and any inquiries about submissions and responses, should be addressed to:

G. Thomas Riti, Director
Division of Public Welfare
CN 716
Trenton, NJ 08625

The Department of Human Services thereafter may adopt this proposal without further notice (see: N.J.A.C. 1:30-3.5). The adoption becomes effective upon publication in the Register of a notice of adoption.

This proposal is known as PRN 1982-389.

The agency proposal follows:

Summary

This proposal incorporates technical revisions, clarifications, and interpretations received from the United States Department of Health and Human Services subsequent to passage of P.L. 97-35 as final Federal regulations promulgated as a result of that law. The current rule permits aid to families of dependent children up to age 18 or to the age of 21 if such children attend school, college or a vocational or training course. This proposal, however, codifies the Federal and State statutory requirement that Aid to Families of Dependent Children be limited to children under the age 18 or beyond the age 18 if reasonably expected to complete secondary school prior to attaining age 19. The age group category for secondary schooling permitting AFDC payments is therefore reduced from age 21 to age 19.

Social Impact

The proposal itself is anticipated to have little or no new social impact since, in accordance with Federal and State law and Federal regulations, these program revisions have previously been effected with the exception of those revisions which are merely technical in

nature. The program revisions, when implemented, affected 19 to 21 year olds by deleting their participation in AFDC.

Economic Impact

The proposal itself is anticipated to have little or no new economic impact since, in accordance with Federal and State law and Federal regulations, these program revisions have previously been effected. Those 19 to 21 year olds who were affected by the program revisions experienced an economic loss since they no longer were eligible to receive AFDC benefits.

Full text of the proposal follows (additions indicated in boldface thus; deletions indicated in brackets [thus]).

10:81-2.6 Eligibility factors other than need

(a) (No change.)

(b) The IM worker shall explain to the applicant that children up to the age of 18 **and children up to the age of 19 if they are full-time students in a secondary school, or in the equivalent level of vocational or technical training, and reasonably expected to complete the program before reaching age 19** are eligible for AFDC [, or to the age of 21 if regularly attending school, college or a vocational or training course].

(c) (No change.)

10:81-2.17 Verification

(a)-(f) (No change.)

(g) The CWA [will] **shall** verify attendance in a school, college, training or vocational program of AFDC-C and -F children [between the ages of] **aged 16 and [18] 17** for WIN registration purposes and [between] **aged 18 [and 21]** for eligibility [in] **for the AFDC-C or -F segment.** (See [sections 130 and 214 of the ASH] **N.J.A.C. 10:82-1.9.**)

(h) The CWA [will] **shall** verify school attendance of children [between ages of] **aged 16 and [18] 17** relevant to work registration and training programs (see [section 3436 and section 130 of the ASH] **N.J.A.C. 10:81-3.20 and 10:82-1.9**) and [between] **aged 18 [and 21]** for eligibility in AFDC-N segment. (See [sections 123.1 and 130 of the ASH] **N.J.A.C. 10:82-1.5(a) and 1.9.**)

(i) (No change.)

10:81-2.18 State Employment Service registration (AFDC)

(a) The following AFDC applicants/recipients are required to register with the State Employment Service: AFDC-F principal earners exempt from WIN registration due to remoteness, including all principal earners in non-WIN counties; all AFDC-N fathers; appropriate AFDC-C applicants/recipients residing in non-WIN counties (see N.J.A.C. 10:81-3.19); and AFDC children (residing in non-WIN counties) who are 16 [to 18] **and 17** years old who are not attending school and are not employed.

1.-3. (No change.)

10:81-3.1 Program eligibility factors related to AFDC

(a) This subchapter presents in detail the program eligibility factors which must be considered in making determinations related to the AFDC-C, -F and -N segments. The following table outlines the differences between these segments.

TABLE 1
Eligibility Criteria for
AFDC-C, -F and -N Segments

	AFDC-C	AFDC-F	AFDC-N
Eligible Persons	Children, Natural or adoptive parent(s), Spouse of natural or adoptive parent (stepparent), or	Children, Natural or adoptive parents, (unless any of these persons receive[s] SSI).	Children, Natural or adoptive parents, (unless any of these

Parent person and spouse (unless any of these persons receive[s] SSI).

[Father] **Principal earner** must meet [f]Federal criteria for unemployment.

persons receive[s] SSI).

Age	Children Birth to 18, or [to 21 if in school, college, vocational, or technical training] age 18 if a full-time student in a secondary school, or equivalent level of vocational or technical training, and expected to complete educational program before age 19.	Children Birth to 18, or [to 21 if in school, college, vocational, or technical training] age 18 if a full-time student in a secondary school, or equivalent level of vocational or technical training, and expected to complete educational program before age 19.	Children Birth to 18, or [to 21 if in school, college, vocational, or technical training] age 18 if a full-time student in a secondary school, or equivalent level of vocational or technical training, and expected to complete educational program before age 19.
Parent(s) of any age.	Parent[(s)] of any age.	Parent[(s)] of any age.	Parent[(s)] of any age.
Work/ Training	WIN/work registration unless exempt.	WIN/work registration unless exempt.	Participation of father and child 16 and over if not in school required unless good cause for refusal is established.

18:81-3.5 Verification of income and resources

(a) (No change.)

(b) Earned and unearned income:

1.-2. (No change.)

[3. RSDI benefits received by an eligible child between 18 and 21 years of age, who is a full-time student, shall be totally disregarded as income or resource in determining either initial or continuing eligibility. (See Section 125.2(b), Assistance Standards Handbook.)]

[4.] **3.** (No change in text.)

[5.] **4.** (No change in text.)

10:81-3.11 Parent in AFDC-C, -F and -N segments

(a) (No change.)

(b) In AFDC-F, the term "parent" refers to the natural or adoptive parents who have at least one eligible child residing with them who is under age 18 or under age [21 if in school, college, vocational or technical training] **19 and a full-time student in a secondary school or in the equivalent level of vocational or technical training and is reasonably expected to complete the program before reaching age 19.**

(c) In AFDC-N, the term "parent" is used to refer to two adults of the opposite sex who have at least one eligible child residing with them who is under age 18 or under age [21 if in school, college,

vocational or technical training] **19 and a full-time student in a secondary school, or in the equivalent level of vocational or technical training, and is reasonably expected to complete the program before reaching age 19.** This child must be the natural child of both parents or the natural child of one and adopted by the other or a child adopted by both.

10:81-3.13 Age requirements

(a) To be considered of eligible age, a child in AFDC must be under age 18, or under age [21 and a student regularly attending school, college or university or regularly attending a course of vocational or technical training leading to a certificate, diploma or degree designed to prepare him/her for gainful employment] **19 and a full-time student in a secondary school, or in the equivalent level of vocational or technical training and is reasonably expected to complete the program before reaching age 19.** See [Assistance Standards Handbook section 130] N.J.A.C. **10:82-1.9** for definitions regarding school attendance.

1. (No change.)

(b) A child between 18 and 21 years of age residing with an AFDC[-C or -F] recipient family who, except for [the lack of school attendance or participation in vocational or technical training] **age**, would be eligible for inclusion in the grant, [continues to be eligible for "Medicaid Only" coverage unless he/she has net income exceeding his/her per capita share of the total family's adjusted allowance (including him/herself)] **may be eligible for Medicaid Special (see N.J.A.C. 10:81-8.22-8.25).**

[(c) In AFDC-N, a child aged 18 to 21 and not a student regularly attending school, college or a vocational or training course is not eligible for inclusion in the eligible unit. See Section 8543 for possible eligibility for "Medicaid Special".]

[(d)] (c) (No change in text.)

[(e)] (d) (No change in text.)

[(f)] (e) The county welfare agency shall establish and maintain appropriate administrative controls in all AFDC cases, identifying those members of the eligible unit who may be rendered ineligible because of age. Specifically, in this regard, agency controls shall provide advance identification of children attaining age 18 and/or [21] **19**, as appropriate, for possible referral for general assistance. Parents approaching age 65 should be alerted to the Supplemental Security Income Program.

10:81-3.18 Employment and training requirements

(a) (No change.)

(b) County welfare agencies, as agents of the United States Department of Labor in those geographical areas designated as WIN counties, are responsible, through the income maintenance staff, for determining who is required to register for WIN by completing Form PA-401, WIN Case Review Document (see Appendix C).

1. (No change.)

2. Those who are exempt include:

i. (No change.)

ii. Persons who are:

(1)-(3) (No change.)

(4) Remote: When commuting time from home to the project site is greater than one hour each way, **by reasonably available public or private transportation**, exclusive of the time necessary to transport children to and from a child care facility;

(5) (No change.)

(6) The parent or other caretaker relative of a child under six years of age who personally provides care for the child with only [very] brief and infrequent absences from the child. **Absence shall not be considered brief and infrequent if the parent is routinely absent for 12 or more hours per week for activities not related to normal household, child rearing and/or family duties;**

(7) (No change.)

(8) The parent of a child who is deprived of parental support or care by reason of the unemployment of a parent, if the other

parent (who is the principal earner) is not exempt under one of the other preceding clauses of this section;

(9) Applicants/recipients working not less than 30 hours per week in unsubsidized employment expected to last a minimum of 30 days. This exemption continues to apply if there is a temporary break expected to last no longer than 10 working days.

(c)-(m) (No change.)

10:81-8.23 [Individuals under age 21:] Medicaid Special

(a) An individual under age 21 **who does not qualify as a dependent child for AFDC**, whether or not he or she lives with his or her [parents] **parent(s)**, may be eligible for Medicaid Special even through he or she is not eligible for AFDC and Medicaid coverage under that program. Financial eligibility for Medicaid Special is established when in accordance with [the provisions of chapter 82] N.J.A.C. **10:82** and the provisions below, a grant would otherwise be payable (including amounts below \$10.00).

(b) When the individual lives in the same household as his or her natural or adoptive parent(s), financial eligibility will in all cases include the [parents] **parent's (s')** income and resources. If applicable, the deemed income of the stepparent shall be included. For [this] **the determination of financial eligibility of an individual under the age of 21, [the] he or she shall be considered to be in an eligible unit [includes] consisting of** the applicant, his or her [parents] **parent(s)** and their dependent children.

(c) When an individual does not live with his or her natural or adoptive [parents] **parent(s)**, eligibility shall be determined for an eligible unit of one, considering only the individual's income and resources (see [section 24 of this subchapter] N.J.A.C. **10:81-8.24(c)** regarding LRRs).

1. (No change.)

2. College students: College attendance is generally construed as a temporary absence from the home and students are considered to be living with their [parents] **parent(s)** even if away from home during the school year. Procedures for those students under age 21 who claim permanent residence elsewhere are given in [section 25 of this subchapter] N.J.A.C. **10:81-8.25**.

(d) (No change.)

(e) A pregnant woman under age 21 who is eligible for Medicaid Special in her own right as provided in [subsections] (b) and (c) [of this section] **above** is covered for medical care during pregnancy.

1. (No change.)

10:81-8.24 Determination of eligibility; Medicaid Special

(a)-(b) (No change.)

(c) [Legally responsible relatives of persons receiving medical assistance only are spouse for spouse and parent for a child under 21 years of age. For purposes of Medicaid Special, contribution of the parents are always considered available to their children under age 21 when they live in the same household. When the eligible individual does not live in the same household, however, only those contributions actually received shall be counted as income.] **Obligations of LRRs who live in the same household as the applicant/recipient are accounted for in the eligibility determination process. No further evaluation or pursuit of contributions from such LRRs in required. Actual contributions from parents outside the household shall be considered in all eligibility determinations but pursuit of non-voluntary contributions from parents outside the household shall be made only by or on behalf of applicant/recipients under the age of 18. Contributions from a spouse outside the household shall be sought in all cases.**

10:81-8.25 College students and Medicaid Special

(a)-(b) (No change.)

(c) Income from all sources shall be applied in determining eligibility of college students not living with [parents] **his or her**

parent(s), except that educational loans and grants shall be treated in accordance with [ASH section 125.3] N.J.A.C. 10:82-1.7(c). All earnings of the student shall be considered for purposes of Medicaid Special (see N.J.A.C. 10:81-8.24(b)). Resources such as bank accounts, certificates of deposit, stocks and bonds shall be counted as available income. Contributions from LRRs are treated as stated in [section 24 of this subchapter] N.J.A.C. 10:81-8.24(c).

(d) See [section 24 of this subchapter] N.J.A.C. 10:81-8.24 of this subchapter for other factors relating to eligibility.

(a)

DIVISION OF PUBLIC WELFARE

Medical Assistance for the Aged

Proposed Repeal: N.J.A.C. 10:83

Authorized By: George J. Albanese, Commissioner,
Department of Human Services.
Authority: N.J.S.A. 44:7-81 and -87.

Interested persons may submit in writing, data, views or arguments relevant to the proposal on or before November 3, 1982. These submissions, and any inquiries about submissions and responses, should be addressed to:

G. Thomas Riti, Director
Division of Public Welfare
CN 716
Trenton, NJ 08625

The Department of Human Services thereafter may adopt this proposal without further notice (see: N.J.A.C. 1:30-3.5). The adoption becomes effective upon publication in the Register of a notice of adoption.

This proposal is known as PRN 1982-396.

The agency proposal follows:

Summary

This proposal repeals N.J.A.C. 10:83. In accordance with Chapter 49, P.L. 1982 (FY 1983 State Appropriations Act), Medical Assistance for the Aged is now limited to those individuals certified as eligible on or before June 30, 1982. The existing caseload of 892 will be converted, by a companion change to N.J.A.C. 10:94, to a special category of Medical Assistance designated Medical Assistance for the Aged Continuation.

Social Impact

There will be no impact on current Medical Assistance for the Aged recipients and thus the proposal will only affect those who might have become eligible after June 30, 1982. It is estimated that in Fiscal Year 1983, beginning July 1, 1982, 996 individuals would have received assistance, an increase of 104 recipients from the previous year.

Economic Impact

Discontinuance of the program will reduce State expenditures by \$3,800,000 for the balance of FY 1983. An estimated \$2,800,000 of that will be applied to the continuation covered under a companion proposal, N.J.A.C. 10:94-9, leaving an estimated net reduction of \$1,000,000. Those individuals no longer covered by the program will experience an economic loss.

DIVISION OF PUBLIC WELFARE

**Food Stamp Program
Replacement of Lost, Stolen, Nondelivered or
Destroyed ATPs or Food Stamp Coupons**

**Proposed New Rule: N.J.A.C. 10:87-9.16
Proposed Repeal: N.J.A.C. 10:87-9.16**

Authorized By: George J. Albanese, Commissioner,
Department of Human Services.
Authority: N.J.S.A. 30:4B-2, the Food Stamp Act of
1977 (P.L. 95-113) and 7 CFR Parts 272, 273 and
274.

Interested persons may submit in writing, data, views or arguments relevant to the proposal on or before November 3, 1982. These submissions, and any inquiries about submissions and responses, should be addressed to:

G. Thomas Riti, Director
Division of Public Welfare
CN 716
Trenton, NJ 08625

The Department of Human Services thereafter may adopt this proposal without further notice (see: N.J.A.C. 1:30-3.5). The adoption becomes effective upon publication in the Register of a notice of adoption.

This proposal is known as PRN 1982-390.

The agency proposal follows:

Summary

This proposal modifies current Food Stamp Program regulations regarding the replacement of lost or stolen authorizations to participate (ATPs) and nondelivered, stolen, or destroyed food coupons. The proposal conveys regulations which are intended to reduce losses resulting from fraudulent or erroneous ATP or coupon replacements. Limitations have been established on the issuance of replacement ATPs and/or coupons reported as lost, stolen, or destroyed before and after receipt. Also incorporated are new provisions regarding the replacement of losses because of some disaster. Replacement will occur through issuance of supplemental benefits.

Social Impact

Since the aim of the proposal is to improve the integrity of the Food Stamp Program through creation of enhanced control procedures, food stamp benefits will be replaced only for those legitimately entitled to them. Also, program participants will now be able to receive replacement of the value of food, purchased with food coupons, which is subsequently destroyed in a disaster.

Economic Impact

Since program participants will be prevented from obtaining replacement food stamp benefits improperly, this proposal is expected to result in savings of program funds. Although there may be a slight increase in administrative costs, this increase will be outweighed by savings in program benefits.

Full text of the proposal follows (additions indicated in boldface thus; deletions indicated in brackets [thus]).

10:87-9.16 [Emergency replacement] **Replacement of lost, stolen, nondelivered or destroyed ATPs or food stamp coupons**

[(a) A household may request a replacement for that portion of its coupon allotment which it had received but was subsequently destroyed in a household disaster such as a fire or flood, or was subsequently stolen.

1. **Signed statement:** To qualify for a replacement, the household must sign a statement at the food stamp office attesting to the theft or destruction.

2. **Police report:** If the coupons were stolen, the household must also report the theft to the local police and provide the CWA with a copy of the report of sufficient information to permit the CWA to verify that the theft was reported to the police.

3. **Replacement:** The CWA shall provide households qualifying for a replacement with a replacement ATP within five working days of the date the theft or destruction was reported to the CWA.

4. **Misplaced coupons:** The CWA shall not issue a replacement allotment to a household which reports that coupons were misplaced.

(b) The CWA shall provide a replacement for coupons that were received by a household but were subsequently mutilated or subsequently found to be improperly manufactured. The amount to be replaced shall be equal to the value of improperly manufactured or mutilated coupons.

1. **Unable to determine value:** If the CWA is unable to determine the value of a mutilated coupon after exhausting all available means of determining the value, the CWA shall send the mutilated coupon to the DPW.

2. **Less than three-fifths of a coupon:** The CWA shall not replace coupons which are mutilated to such a degree that less than three-fifths of the coupon is presented.

(c) **ATPs:** The CWA shall issue an emergency replacement ATP only if the original ATP was lost or stolen in the period for which it was intended.

1. **CWA action:** Prior to issuance of a replacement ATP, the CWA shall determine if:

i. The household was properly issued the ATP;

ii. Sufficient time has elapsed for the delivery to have been completed. Sufficient time shall not exceed five days from the mailing date.

iii. The lost or stolen ATP was valid for the current month, including any ATPs issued after the 25th of the previous month.

2. **Affidavit:** The participant must sign an affidavit stating that the original ATP will be returned to the CWA if recovered by the household. The affidavit shall be filed in the case record.

3. **Two consecutive losses:** After two consecutive losses, the CWA shall consider other means to deliver ATPs to the household. (See N.J.A.C. 10:87-10.5(a)1.)]

(a) **ATPs/food coupons lost or misplaced after receipt:** The CWA shall not issue a replacement ATP or coupons to a household which reports its ATP or coupons lost or misplaced after receipt.

(b) **Food coupons stolen after receipt:** The CWA shall not replace coupons which are reported stolen after receipt.

(c) **Food coupons mutilated after receipt:** The CWA shall replace coupons which are mutilated after receipt, i.e., shredded by a pet, gone through the laundry, etc. The amount of coupons to be replaced shall be equal to the value of the mutilated coupons and shall be replaced in accordance with N.J.A.C. 10:87-10.6.

1. **Unable to determine value:** If the CWA is unable to determine the value of a mutilated coupon after exhausting all available means of determining the value, the CWA shall send the mutilated coupon to DPW which will make a determination of value or ask the Food and Nutrition Service to make a determination and advise the CWA accordingly.

2. **Less than three-fifths of a coupon:** The CWA shall not replace coupons which are mutilated to such a degree that less

than three-fifths of the coupon is present for replacement.

(d) **Food coupons destroyed after receipt:** The CWA shall replace that portion of coupons, not to exceed one month's food stamp allotment, which were received and subsequently destroyed in a disaster such as fire or flood.

1. To qualify for such replacement, the household must report the destruction to the food stamp office within 10 days of the incident or within the period of intended use, whichever is earlier. The household shall sign a statement (may be mailed to the CWA if the participant is unable to come into the office because of age, handicap, or distance and cannot appoint an authorized representative) which shall be retained in the case record:

i. Attesting to the destruction of the household's food stamps;

ii. Stating that the original coupons will be returned to the CWA if recovered by the household; and

iii. Stating that the household is aware of the penalties for intentional misrepresentation of the facts.

2. Upon receipt of a request for replacement of coupons destroyed in an individual household disaster, the CWA shall:

i. Verify the disaster through either a collateral contact, documentation from a community agency, such as but not limited to, the fire department, the Red Cross, or a home visit;

ii. Examine the case record for notation of previous requests for replacement of coupons or ATPs reported destroyed subsequent to receipt. Replacement of coupons reported destroyed subsequent to receipt shall be made only once in a six month period. If, in the previous five months, replacement for either coupons or an ATP reported destroyed subsequent to receipt has been made, then replacement shall be denied;

iii. Issue replacement coupons, if warranted, within 10 days of receipt of request for replacement; and

iv. Indicate in the case record that a replacement has been provided.

(e) **ATPs stolen or destroyed after receipt:** The CWA shall issue a replacement of ATPs stolen or destroyed in a household disaster such as fire or flood.

1. To qualify for such a replacement, the household must report the theft or destruction to the food stamp office within 10 days of the incident or within the ATP's period of intended use, whichever is earlier. The household shall sign a statement (which may be mailed to the CWA for the reasons stated in (d)1 above and must be retained in the case record):

i. Attesting to the theft or destruction of the household's ATP;

ii. Stating that the original ATP will be returned to the CWA if recovered by the household; and

iii. Stating that the household is aware of the penalties for intentional misrepresentation of the facts.

2. Additionally, the CWA shall also adhere to the following procedures:

i. Verify the disaster through either a collateral contact, documentation from a community agency, such as but not limited to, the fire department, the Red Cross, or a home visit;

ii. Determine, to the maximum extent practicable, the legitimacy of the request for replacement of a destroyed or stolen ATP (through such means as determining whether the original ATP has been transacted, and, if so, whether the signature on the original ATP matches that on the request for a replacement);

iii. Determine if the ATP was valid when issued and if it has been reported destroyed or stolen in the period of its intended use (for ATPs issued after the 24th of the month, the period of intended use is the last day of the month following the issuance month);

iv. Examine the case record for notation of previous request for replacement of coupons reported destroyed or an ATP reported stolen or destroyed subsequent to receipt:

(1) Replacement of an ATP reported stolen subsequent to receipt shall be limited to once in a six month period;

(2) Replacement of an ATP or coupons reported as destroyed subsequent to receipt shall also be subject to a separate limit of once in a six month period;

(3) If, in the previous five months, a household has been issued a replacement for an ATP reported stolen subsequent to receipt, then the request for a replacement of another stolen ATP shall be denied; and

(4) If, in the previous five months, a household has been issued a replacement ATP or coupons reported destroyed subsequent to receipt, then the request for a replacement of another destroyed ATP or coupons shall be denied.

v. Issue an ATP replacement if warranted, within 10 days of receipt of request for replacement;

vi. Indicate in the case record that a replacement has been provided; and

vii. In cases in which an ATP replacement is requested and evidence exists indicating that the request for replacement is fraudulent, replacement of the ATP shall be denied or delayed. The household shall be informed of its right to a fair hearing to contest the denial or delay in issuance of the ATP. Such denial or delay shall remain in effect pending the hearing decision. The CWA may combine the fair hearing with a fraud hearing. To deny or delay a replacement, the CWA must have evidence which indicates fraud, such as a match between the signature on the original ATP that has been transacted and the signature on the replacement request or where the issuing agent has noted the recipient's correct food stamp identification number (unless the ID has been reported stolen) on an original ATP that has been transacted.

(f) Replacement of replacement ATPs: Replacement of replacement ATPs shall be treated as replacement of normal issuances and thus subject to the same limitations in accordance with the provisions of (e) above.

(g) Emergency food stamp benefits: Where the Food and Nutrition Service has issued a disaster declaration and the household is eligible for emergency food stamp benefits, the household shall not receive both the disaster allotment and a replacement allotment under these procedures.

(h) Replacement of food destroyed in a disaster:

1. In cases in which food purchased with food stamps is destroyed in a disaster affecting a participating household, that household may be eligible for replacement of the actual value of the loss, not to exceed one month's food stamp allotment, if the loss is reported within 10 days and the household disaster is verified. The CWA shall verify the disaster through a collateral contact, a community organization such as the fire department or Red Cross, or a home visit.

2. The CWA shall provide an allotment replacement within 10 days of the reported loss.

3. This provision shall apply in cases of an individual household disaster, such as fire, as well as in natural disasters affecting more than one household.

4. In cases where the Food and Nutrition Service has issued a disaster declaration and the household is otherwise eligible for emergency food stamp benefits, the household shall not receive both the disaster allotment and a replacement allotment.

(i) Replacement of an ATP lost or stolen in the mail prior to receipt:

1. The CWA shall mail the ATP to the household in a first class, nonforwarding envelope. The CWA may also use certified mail for ATP delivery and shall use an alternate method of ATP delivery for households which report two losses of ATPs through the mail within a six month period.

2. The CWA shall issue a replacement for an ATP stolen or lost in the mail prior to receipt only if the ATP is reported stolen or lost in the mail in the period of its intended use and if the household requesting replacement has not already been issued two such replacements in the previous five months. The period of intended use of an ATP is the month for which it was issued,

except that where an ATP is issued after the 24th of the month, the period of intended use shall be the last day of the month following the issuance month.

3. When a household reports the nondelivery of an ATP the CWA shall:

i. Determine if the ATP was valid when issued, actually mailed, and if sufficient time has elapsed for delivery;

ii. Determine, to the maximum extent practicable, the legitimacy of the request for replacement of the lost or stolen ATP (through such means as determining whether the original ATP was transacted, and, if so, whether the signature on the original ATP matches that on the replacement request);

iii. Prepare and have participant sign a statement that the original ATP will be returned to the CWA if recovered by the household and that the household is aware of the penalties for intentional misrepresentation of the facts. The statement may be mailed to the CWA if the participant is unable to come into the office because of age, handicap, or distance and cannot appoint an authorized representative. This statement shall be retained in the case record;

iv. Provide a replacement no more than 10 days after the report of nondelivery has been received;

v. Comply with existing regulations found in N.J.A.C. 10:87-10.5(a)1 including the reporting of all lost or stolen ATPs to the appropriate office of the Postal Inspection Service. Copies of the original and replacement ATPs are to be sent to the local Postal Inspection Service only in those cases where the signature on the original ATP and the replacement ATP do not appear to match. In cases where the signatures do appear to match, referral to the Fraud Investigations Unit is to be made for referral to the county prosecutor or for administrative fraud hearing, as appropriate;

vi. After two requests for replacement of ATPs reported as nondelivered in a six month period, the CWA shall issue benefits to that household under an alternate issuance system, i.e., certified mail, picking up the ATP at the CWA office (the two requests may be for an original or replacement ATP);

vii. CWAs shall keep such households on the alternate system as long as the CWA determines necessary. CWAs may return households to the regular issuance system if the CWA finds that the circumstances leading to the loss have changed and the risk of loss has lessened;

viii. Placement of a household on an alternate issuance system and length of time on this system is not subject to the fair hearing process; and

ix. In cases where an indication of fraud exists, the procedure in (e)2vii above shall be followed.

(j) Coupons lost in the mail prior to receipt (direct mail issuance only):

1. Coupons are "in the mail" when deposited with the Postal Service. When a household reports the nondelivery of the allotment of coupons issued through the mail, the CWA shall determine if the coupons were validly issued, actually mailed, and if sufficient time has elapsed for delivery. If delivery of a partial allotment is reported, the CWA shall determine:

i. The value of the coupons not delivered; and

ii. That the report of receipt of a partial allotment is corroborated by evidence that the coupon loss was due to damage in the mail before delivery or a discrepancy in the coupon issuer's inventory. If receipt of a partial allotment is due to an error by the coupon issuer, the remainder of the allotment shall be issued regardless of the number of times the household has received replacements in the past five months.

2. Review the mail issuance log for return of undelivered coupons.

3. Record the date of the reported nondelivery of mailed coupons in the issuance log.

4. Issue a replacement of food coupons lost in the mail prior to receipt only if the coupons are reported lost in the mail in the

period of their intended use and if the household requesting replacement has not already been issued two such replacements in the previous five months. The period of intended use of coupons is the month for which coupons are issued, except that where coupons are issued after the 24th of the month, the period of intended use shall be the last day of the month following the issuance month.

5. Provide replacement in no more than 10 days after the reporting of nondelivery has been received.

6. When a household reports the nondelivery of coupons, the CWA shall follow the procedures for ATPs lost or stolen prior to receipt, in accordance with (i)3iii through ix above.

7. Replacement coupons which are stolen after receipt shall not be replaced.

8. Replacement coupons which are destroyed after receipt shall be treated in accordance with (d) above, the procedures for food coupons destroyed after receipt.

(k) Improperly manufactured coupons: The CWA shall provide a replacement for coupons that were received by a household but were subsequently found to be improperly manufactured. The amount to be replaced shall be equal to the value of improperly manufactured coupons and shall be replaced in accordance with N.J.A.C. 10:87-10.6.

Authorized By: George J. Albanese, Commissioner,
Department of Human Services.
Authority: N.J.S.A. 44:7-81 and -87.

Interested persons may submit in writing, data, views or arguments relevant to the proposal on or before November 3, 1982. These submissions, and any inquiries about submissions and responses, should be addressed to:

G. Thomas Riti, Director
Division of Public Welfare
CN 716
Trenton, NJ 08625

The Department of Human Services thereafter may adopt this proposal without further notice (see: N.J.A.C. 1:30-3.5). The adoption becomes effective upon publication in the Register of a notice of adoption.

This proposal is known as PRN 1982-397.

The agency proposal follows:

Summary

This new subchapter incorporates into N.J.A.C. 10:94 eligibility factors and procedures for those adjustments in the Medical Assistance for the Aged (MAA) caseload as are required by chapter 49, P.L. 1982 (FY 1983 State Appropriations Act). No new applications will be accepted, no new cases opened, and no cases reopened. Those eligible at the close of business on June 30, 1982 will remain eligible until they no longer need services or until they are accepted into another program.

Social Impact

For prior recipients there will be no social impact. Those persons will be unaware of a change. For those who might have been eligible and for cases closed, the MAA program will cease to exist.

It is estimated that approximately 996 individuals would have received assistance if the program would have continued into FY 1983.

Economic Impact

Ultimately the cost to the State for the MAA caseload will decline to zero. The current caseload is approximately 892. The estimated cost of continuation for the remainder of FY 1983 is \$2,800,000. Those individuals no longer covered by the program will experience an economic loss.

Full text of the proposed new rule follows.

**SUBCHAPTER 9. MEDICAL ASSISTANCE FOR THE
AGED CONTINUATION**

10:94-9.1 General statement

The Medical Assistance for the Aged Continuation (MAAC) provides payment for the costs of medical services for certain former recipients of the program of Medical Assistance for the Aged (MAA). Eligibility is based on continued medical need and lack of eligibility for any other program through which the cost of medical care is provided. Recipients receive the full spectrum of Medicaid services.

10:94-9.2 Initial certification

(a) Certification begins for those persons and only for those persons who were in certified status in the MAA program at the close of business on June 30, 1982. The initial certification period in MAAC consists of the remainder of the current MAA certification period (see N.J.A.C. 10:94-9.4(a)).

(b) Recertification: Eligible persons will be recertified by the CWA for such additional periods, usually for three months or as specified by DPW/BMA (see N.J.A.C. 10:94-9.4).

(c) Extension of certification periods: The CWA will extend initial or subsequent certification periods in units of one month, as may be necessary, pending receipt of a medical need determination from DPW/BMA and/or, if applicable, to comply with requirements for timely notice of adverse action (see N.J.A.C. 10:94-8.3). Extensions shall not be made for any other reasons.

10:94-9.3 Termination

Once terminated for any reason, including loss of medical certifications, a case shall not be reopened under the provisions of this subchapter.

10:94-9.4 Continuation of medical need

(a) Submittal of data to DPW/BMA: Thirty days prior to the end of each certification period, the CWA will forward to DPW/BMA photocopies of all forms and reports bearing on the individual's need for continued inpatient hospital services, skilled nursing home services, or home health care services required by reason of an illness necessitating confinement at home for a prolonged period.

(b) Response by DPW/BMA: The DPW/BMA will review the submitted material and notify the CWA of its determination. The determination will specify whether continuation does or does not exist.

(c) CWA action: Upon receipt of the DPW/BMA determination the CWA will, as appropriate, move to terminate or recertify the case for such period as may be required to make the review month become the final month of the new certification period.

10:94-9.5 Eligibility for other programs

(a) Review: The CWA will review each MAAC case in accordance with (a)1 below for potential eligibility for other assistance programs through which the costs of medical care may be met. Those programs will not include General Assistance but will include such programs as SSI and Medicaid Only.

1. Review times: The CWA will conduct a review with respect to other program eligibility at time of initial certification, at the beginning of the review month, whenever any change in client income occurs and at the time of any change in standards of other appropriate programs.

(b) Referral: If eligibility is found for regular Medicaid Only the CWA will convert the case accordingly. If potential eligibility is found for a program administered by another agency, the CWA will make referral promptly and will institute procedures for follow-up of the referral. Upon acceptance of the individual into any other program through which medical costs are met, the CWA will terminate the MAAC case.

LAW AND PUBLIC SAFETY

(a)

DIVISION OF CONSUMER AFFAIRS BOARD OF OPHTHALMIC DISPENSERS AND OPHTHALMIC TECHNICIANS

General Administrative Regulations Minimum Standards and Tolerances

Proposed Amendment: N.J.A.C. 13:33-1.38

Authorized By: State Board of Ophthalmic Dispensers
and Ophthalmic Technicians, Robert C. Troast,
President.

Authority: N.J.S.A. 52:17B-41.13.

Interested persons may submit in writing, data, views or arguments relevant to the proposal on or before November 3, 1982. These submissions, and any inquiries about submissions and responses, should be addressed to:

Robert C. Troast, President
Board of Ophthalmic Dispensers
and Ophthalmic Technicians
1100 Raymond Boulevard, Room 503
Newark, NJ 07102

The Board of Ophthalmic Dispensers and Ophthalmic Technicians thereafter may adopt this proposal without further notice (see: N.J.A.C. 1:30-3.5). The adoption becomes effective upon publication in the Register of a notice of adoption.

This proposal is known as PRN 1982-393.

The agency proposal follows:

Summary

This proposal details the minimum acceptable standards regarding frame selection and the fit of eyeglasses which must be followed by eyeglass dispensers. Additionally, the information required to be obtained and checked in order to properly fabricate and verify lenses and eyeglasses is now covered by the rule.

Social Impact

The proposed revisions to this rule will provide to licensees a better understanding of their functions and responsibilities, and will also enable the agency to more adequately protect the consumer-purchasers of lenses and frames.

Economic Impact

Since this proposal does no more than put into the form of a regulation, the usual and acceptable standards which are already recognized in the field, there is no discernable economic impact.

Full text of the proposal follows (additions indicated in boldface thus).

13:33-1.38 Minimum standards and tolerances

(a) Every prepared pair of lenses, spectacles, eyeglasses or appurtenances thereto dispensed to the intended wearers thereof on written prescriptions from physicians or optometrists duly licensed to practice their profession, or duplication, replacement, reproduction or repetitions, must conform to the following minimum standards and tolerances:

PHYSICAL QUALITY AND APPEARANCE

TOLERANCE

1.-12. (No change.)

13. Frame selection and fit

Frame shall be selected for the requirements of the prescription and facial contour. Bridge size should fit the nose within 2mm of its width with flair, and temple length must fit within 5mm.

(b) In order to insure the proper fabrication of lenses and eyewear, the following information must be obtained from the refractionist:

1. Complete prescription, including sphere, cylinder, axis, prism, base and add;
2. The ophthalmic dispenser must measure and/or specify the following:

i. Eye size, bridge size, temple length, frame shape and style, patient pupillary distance, optical centers and, if applicable, bifocal type, segment height and base curve;

3. Upon completion of the fabrication of such corrective lenses and prior to dispensing within the State of New Jersey, the lenses or finished eyeglasses shall be verified to insure the accuracy of the prescription, the sphere, cylinder, axis prism, base, add, patient pupillary distance, segment height, frame size, eye size, bridge size and temple length. In addition, the eyewear must be adjusted for fit and verified for compliance with the standards set forth in (a) above.

TREASURY-GENERAL

(b)

DIVISION OF PURCHASE AND PROPERTY

Cooperative Purchasing Subscription Fees

Proposed New Rule: N.J.A.C. 17:12-5.1

Authorized By: Kenneth R. Biederman, State Treasurer,
Department of the Treasury.

Authority: N.J.S.A. 52:18A-30(d) and 52:25-16.1 et seq.

Interested persons may submit in writing, data, views or arguments relevant to the proposal on or before November 3, 1982. These submissions, and any inquiries about submissions and responses, should be addressed to:

Patrick D. Kennedy, Esq.
 Assistant to the Director
 Division of Purchase and Property
 135 West Hanover Street
 Trenton, NJ 08625

The Department of the Treasury thereafter may adopt this proposal without further notice (see: N.J.A.C. 1:30-3.5). The adoption becomes effective upon publication in the Register of a notice of adoption.

This proposal is known as PRN 1982-391.

The agency proposal follows:

Summary

This rule will allow the Division of Purchase and Property to establish a subscription fee to be charged to local governments and school districts who wish to receive information regarding State contracts, specifications, and other State purchasing information. The fee will be based on actual State costs. The Director, Division of Purchase and Property will certify to these costs at the end of each fiscal year, and adjust the subscription rate accordingly. The statutory authority for promulgation of this rule is embodied in N.J.S.A. 52:12-16.4.

Social Impact

This rule should neither encourage nor discourage competition, nor the use of State contracts by local governments and school districts. This bill merely allocates the administrative burden of defraying the costs of the benefits of the Cooperative Purchasing Program to those who receive its benefits. This rule does not change the status of State and local contracts or the ability of vendors to sell goods and services under properly executed cooperative contracts.

Economic Impact

There should be no additional cost resulting from this rule. Costs will simply shift from the State budget to the local governments, who are receiving the benefit of the program. The Department, in fact, expects that in the aggregate, this rule will result in a more efficient and economical use of the cooperative purchasing system. Under this plan, only those local governments who intend to utilize the system will seek it. Presently, all local governments receive the information, although many may not use it.

Full text of the proposal follows.

SUBCHAPTER 5. COOPERATIVE PURCHASING

17:12-5.1 Subscription fees

(a) The Director, Division of Purchase and Property may establish a subscription fee for the dissemination of State contract and specification information to the local governments and school districts of this State. That fee shall be chargeable on an annual basis, and shall be structured to include direct State costs of personnel, printing and mailing of notices of contract award and other procurement information to the local governments and school districts.

(b) At the end of each fiscal year the Director, Division of Purchase and Property will review expenditures under the program, certify as to their accuracy, and adjust subscription rates accordingly.

TREASURY-TAXATION

(a)

DIVISION OF TAXATION

Sales and Use Tax Services subject to tax; Certificate issuance and acceptance procedures

Proposed Amendments: N.J.A.C. 18:24-4.6 and -5.16

Authorized By: Sidney Glaser, Director, Division of Taxation.

Authority: N.J.S.A. 5:32B-24.

Interested persons may submit in writing, data, views or arguments relevant to the proposal on or before November 3, 1982. These submissions, and any inquiries about submissions and responses, should be addressed to:

Jack Silverstein
 Chief Tax Counselor
 Division of Taxation
 West State and Willow Streets
 Trenton, NJ 08646

The Division of Taxation thereafter may adopt this proposal without further notice (see: N.J.A.C. 1:30-3.5). The adoption becomes effective upon publication in the Register of a notice of adoption.

This proposal is known as PRN 1982-386.

The agency proposal follows:

Summary

This proposed amendment will clarify the application of the Sales and Use Tax Act (N.J.S.A. 54:32B-1 et seq.) with regard to the classification of tangible personal property which when installed results in a capital improvement. The proposed amendment is consistent with a recent change in N.J.A.C. 18:24-5.7 which in effect allows the installation of tangible personal property to result in a capital improvement even though the property itself may have been exempt from sales tax. Thus, the proposed amendment will exempt from sales tax the installation charges for exempt machinery, apparatus or equipment which, when installed, results in a capital improvement.

Social Impact

The proposed amendment clarifies sales and use tax responsibilities regarding installation charges for installing machinery, apparatus and equipment. The exemption from tax for qualified installation services will inure to the benefit of all affected persons in this State.

Economic Impact

Since the proposed amendment indicates that specified installation charges are exempt from the sales tax, the impact will be to eliminate the tax liability of those persons installing tangible personal property exempted from the tax. It is not possible at this time to make a determination of the precise amount of tax liability involved.

Full text of the proposal follows (additions indicated in boldface thus; deletions indicated in brackets [thus]).

18:24-4.6 Services subject to tax

(a) The following enumerated services, purchased or sold by any person engaged in manufacturing, processing, assembling or refining, as defined in [section 2 of this subchapter] N.J.A.C. 18:24-4.2, not purchased for resale, that is, not performed on property offered for sale by the purchaser, are subject to sales and use taxes, as well as services otherwise taxable:

- 1. (No change.)
- 2. Installing tangible personal property, except where such installation results in a capital improvement to real property. In determining whether an installation of tangible personal property results in a capital improvement to real property, the following factors should be considered:
 - i.-iii. (No change.)
 - iv. The fact that an installation of tangible personal property is deemed not to be a capital improvement to real property where exemption has or will be claimed on the property installed under any provisions of section 8 of the Sales and Use Tax Act; except that where the property installed is exempt from tax under the provisions of subsection (a) of section 8 of the Sales and Use Tax Act, no tax on installation charges shall be due, whether or not such installation results in a capital improvement to real property.]
- 3. (No change.)

18:24-5.16 Certificate issuance and acceptance procedures

Procedures to be followed by contractors and fabricator/contractors with respect to the issuance and acceptance of certificate forms are as follows:

- (a)-(e) (No change.)
- (f) Certificates of Capital Improvement (Form ST-8) should be obtained by a contractor, subcontractor or fabricator/contractor from his customer in any instance where the performance of his work results in a capital improvement to real property. [The installation of property purchased exempt from tax under any provision of Section 8 of the Sales and Use Tax Act is deemed not to be a capital improvement to real property upon installation.] A contractor or a fabricator/contractor may accept certificates of capital improvement as a basis for exemption from tax on his services only where his work has, in fact, resulted in a capital improvement to real property. The nature of the work performed is the determining factor in deciding whether to collect tax on a contractor's services. The possession of a certificate of capital improvement, in and of itself, is not sufficient to eliminate liability for taxes which should have been collected. The contractor must accept such certificate in "good faith" to be relieved of liability.
 - 1.-6. (No change.)
 - (g) (No change.)

OTHER AGENCIES

(a)

NEW JERSEY TURNPIKE AUTHORITY

Traffic Control
Limitation on Use of Turnpike

Proposed Amendment: N.J.A.C. 19:9-1.9

Authorized By: New Jersey Turnpike Authority, William J. Flanagan, Executive Director.
Authority: N.J.S.A. 27:23-29.

Interested persons may submit in writing, data, views or arguments relevant to the proposal on or before November 3, 1982. These submissions, and any inquiries about submissions and responses, should be addressed to:

William J. Flanagan, Executive Director
New Jersey Turnpike Authority
New Brunswick, NJ 08903

The New Jersey Turnpike Authority thereafter may adopt this proposal without further notice (see: N.J.A.C. 1:30-3.5). The adoption becomes effective upon publication in the Register of a notice of adoption.

This proposal is known as PRN 1982-388.

The agency proposal follows:

Summary

The proposed amendment will permit use of the New Jersey Turnpike by buses 61 feet in length.

Social Impact

The proposed amendment will increase the use of mass transportation by providing modern energy efficient buses carrying more passengers at appreciable cost and energy savings.

Economic Impact

The autobus will be able to carry passengers at appreciable cost savings, since the buses are potentially 20 percent more economic per passenger mile and, thus, will provide improved service at less cost to the riding public.

Full text of the proposal follows (additions indicated in boldface thus).

19:9-1.9 Limitations on use of Turnpike

(a) Use of the New Jersey Turnpike and any entry thereon by the following is prohibited:

- 1.-25. (No change.)
- 26. [(Reserved)] **Autobuses exceeding 61 feet and zero inches in length, excluding bumpers. Notwithstanding any other provision contained herein, an autobus, for the purpose of this regulation, is defined as an articulated motor vehicle used for the transportation of passengers for hire, not including school buses, which has a length in excess of 40 feet, but less than 61 feet and one inch, excluding bumpers.**
- (b) (No change.)

(b)

CASINO CONTROL COMMISSION

Accounting and Internal Controls
Casino Licensee's Organization

Proposed Amendment: N.J.A.C. 19:45-1.11

Authorized By: Casino Control Commission, Theron G. Schmidt, Executive Secretary.
Authority: N.J.S.A. 5:12-63(c).

Interested persons may submit in writing, data, views or arguments relevant to the proposal on or before November 3, 1982. These submissions, and any inquiries about submissions and responses, should be addressed to:

Michael A. Santaniello
Deputy Director – Operations
Casino Control Commission
Division of Financial Evaluation
and Control
Princeton Pike Office Park–Bldg. No. 5
CN 208
Trenton, NJ 08625

The Casino Control Commission thereafter may adopt this proposal without further notice (see: N.J.A.C. 1:30-3.5). The adoption becomes effective upon publication in the Register of a notice of adoption.

This proposal is known as PRN 1982-394.

The agency proposal follows:

Summary

The proposed regulation is an addition to N.J.A.C. 19:45-1.11, Casino licensee’s organization. The proposed regulation would permit the director of security to report directly to the Chief Executive Officer or indirectly to the Chief Executive Officer and directly to a Senior Corporate Officer or their equivalents. The proposed regulation would also require casinos, through their Security Departments, to promptly notify Division personnel of all violations or suspected violations of the criminal law of this State or the Federal government, the Casino Control Act, or the regulations, relating to the operation of the casino-hotel or involving agents and/or employees of the casino-hotel.

Social Impact

The proposed regulation would clarify the line of authority between the director of security and the Chief Executive Officer and would aid the Division in the performance of its statutory responsibilities under the Casino Control Act. The security department would be responsible for reporting violations of the Criminal Code, etc. to the Division of Gaming Enforcement.

Economic Impact

There may be a slight economic impact due to the clarification of the line of authority and the resultant amendments to casino organization submissions. The increased reporting requirements may also have some economic impact on the casinos.

Full text of the proposal follows (additions indicated in boldface thus; deletions indicated in brackets [thus]).

- 19:45-1.11 Casino licensee’s organization
 - (a)–(b) (No change.)
 - (c) Each casino licensee shall, at a minimum, establish the following departments with respect to the casino operation:
 - 1.–6. (No change.)
 - 7. A security department supervised by a director of security who shall cooperate with, yet perform independently of, all other departments and shall report directly to the Chief Executive Officer or [his equivalent.] **indirectly to the Chief Executive Officer and directly to a Senior Corporate Officer or their equivalents.** The director of security shall be responsible for the overall security of the establishment including, but not limited to the following:
 - i.–viii. (No change.)
 - ix. The prompt notification to Division personnel of all violations or suspected violations of the criminal law of this State or the Federal government, the Casino Control Act, or these regulations relating to the operations of the casino-hotel or involving agents and/or employees of the casino-hotel provided, however, that the Division may, through written notification to the casinos, except from this requirement any class or category of violation for which notice is not deemed necessary.**
 - 8.–9. (No change.)
 - (d)–(g) (No change.)

No comments received.

COMMUNITY AFFAIRS

(c)

DIVISION OF HOUSING

Hotels and Multiple Dwellings Inspection Fees

Readopted New Rule: N.J.A.C. 5:10-1.17

Proposed: August 16, 1982 at 14 N.J.R. 909(b).
 Adopted: September 20, 1982 by John P. Renna,
 Commissioner, Department of Community Affairs.
 Filed: September 20, 1982 as R.1982 d.334, **without
 change.**

Authority: P.L. 1982, c.49.

Effective Date: September 20, 1982.

Summary of Public Comments and Agency Responses:

A comment was received from the organization representing the hotel industry protesting the size of the increase in the inspection fees and further protesting as unfair the imposition of the increased fees only upon those owners whose properties are inspected during this fiscal year.

The Department's response is that the sharp increase at this time is necessary as a result of the Legislature's decision to fully fund the inspection program only if earnings from inspections are sufficient to cover costs. The fee schedule was established by law in 1970 for the express purpose of making the inspection program self-supporting. The Department is supporting legislation to make the fee increases permanent, thereby reaffirming the original intention and eliminating the source of unfairness of which the hotel industry justly complains.

ENVIRONMENTAL PROTECTION

(d)

DIVISION OF WASTE MANAGEMENT

Hazardous Waste Management

Adopted Amendments: N.J.A.C. 7:26-1.4, 7.4, 9.1, 9.2, 9.4, 11.2, 11.3, 11.5, 11.7, 12.1 and 12.2

Adopted New Rule: N.J.A.C. 7:26-10

Proposed: September 10, 1981 at 13 N.J.R. 567(a).
 Adopted: September 8, 1982 by Robert E. Hughey,
 Commissioner, Department of Environmental
 Protection.

Filed: September 10, 1982 as R.1982 d.324, with **substantive and technical changes** not requiring additional public notice and comment (see N.J.A.C. 1:30-3.5).

Authority: N.J.S.A. 13:1E-6a2.

DEP Docket No. 036-81-08.

Effective Date: October 4, 1982.

Summary of Public Comments and Agency Responses:

Technical and substantive changes were made in the adopted rules to reflect public comments received on the proposed rules. Important changes concerning hazardous waste incinerators include a revision of the conditions for exemptions, the application of particulate emission standards only to new hazardous waste incinerators, a change in the boiler exemption to include more specific criteria, and the addition of a variance provision for hazardous waste incinerators which comply with certain performance requirements. The surface impoundment section, proposed to parallel EPA regulations, was not adopted pending departmental review of EPA's newly adopted regulations. Other changes in the proposed rules include increased operational requirements for containers and tanks.

SUBCHAPTER 10. ADDITIONAL OPERATIONAL AND DESIGN STANDARDS FOR HAZARDOUS WASTE FACILITIES

7:26-10.1 Applicability

(a) This subchapter applies to owners and operators of all facilities which treat, store or dispose of hazardous waste except:

1. As specifically provided otherwise in this subchapter; or
2. To owners or operators exempted by the provisions of N.J.A.C. 7:26-8; or
3. To owners and operators exempted from the provisions of N.J.A.C. 7:26-9.

7:26-10.2 Relationship to existing facilities

(a) An owner or operator who has fully complied with the requirements for existing facilities as defined in N.J.A.C. 7:26-1.4 and 7:26-12 must comply with the regulations specified in N.J.A.C. 7:26-11 in lieu of the standards and requirements of this subchapter, until final disposition of the permit application is made.

7:26-10.3 Location standards for new hazardous waste facilities

***[(a) Seismic considerations for the siting of new hazardous waste facilities include the following:**

1. Portions of new facilities where treatment, storage, or disposal of hazardous waste will be conducted must not be located within

61 meters (200 feet) of a fault which has had displacement in Holocene time.

2. As used in paragraph 10.3(a)1 of this section:

- i. "Fault" means a fracture along which rocks on one side have been displaced with respect to those on the other side;
- ii. "Displacement" means the relative movement of any two sides of a fault measured in any direction; and
- iii. "Holocene" means the most recent epoch of the Quaternary period, extending from the end of the Pleistocene to the present.]*

***[(b)]* *(a)* Floodplains consideration for the siting of new hazardous waste facilities include the following:**

1. A facility located in a 100-year floodplain must be designed, constructed, operated and maintained to prevent washout of any hazardous waste by a 100-year flood unless the owner or operator can demonstrate to the Department that procedures are in effect which will cause the waste to be removed safely, before flood waters can reach the facility, to a location where the wastes will not be vulnerable to floodwaters.

2. As used ***[paragraph 10.3(b)1 of this section:]* *in (a)1 above*:**

- i. "100-year floodplain" means any land area which is subject to a one percent or greater chance of flooding in any given year from any source;
- ii. "Washout" means the movement of hazardous waste from the active portion of the facility as a result of flooding; and
- iii. "100-year flood" means a flood that has a one percent chance of being equalled or exceeded in any given year.

(b) Additional regulations concerning the siting of all hazardous waste facilities, including those covered by N.J.S.A. 13:1E-49, the Major Hazardous Waste Facilities Siting Act, will be published in the New Jersey Administrative Code in 1983.

7:26-10.4 Use and management of containers

(a) This section applies to owners and operators of all hazardous waste facilities that store containers of hazardous waste, unless:

1. N.J.A.C. 7:26-10.1 or 10.2 provide otherwise; or
2. The container is "empty" pursuant to N.J.A.C. 7:26-8.4.

(b) Rules on containment in container storage areas include the following:

1. Container storage areas must have a containment system that is capable of collecting and holding spills, leaks, and precipitation. The containment system shall:

- i. Have a base underlying the containers which is free of cracks or gaps and is sufficiently impervious to contain leaks, spills, and accumulated rainfall until the collected material ***[are]* *is*** detected and removed. The base shall have a permeability rating no greater than 10^{-7} centimeters per second (cm/sec)***[;]* ***, **in addition to adequate structural integrity to withstand the maximum anticipated stress applied to the base due to activities or structures placed in the containment area. The thickness of the base shall be specified in the permit;***

ii. ***[Be designed for efficient drainage to remove liquid within one hour after a leakage or precipitation event. Containers shall be protected from contact with accumulated liquids; and]* *** ***Consist of material compatible with the wastes being stored;***

iii. Be sloped, or the containment system must be otherwise designed and operated to efficiently drain and remove liquids resulting from leaks, spills or precipitation. Containers shall be protected from contact with accumulated liquids; and

[iii.]* *iv.* Have sufficient capacity to contain 10 percent of the volume of all of the containers; or the volume of the largest container whichever is greater; *additional capacity shall be provided to compensate for any anticipated normal accumulation of rainwater;

2. Run-on into the containment system shall be prevented ***[; and]* ***, **unless the Department waives this requirement in the permit after determining that the collection system has sufficient excess capacity in addition to that required in (b)1iv above to accommodate any run-on which might enter the system;***

3. ***[Spilled or leaked waste and accumulated]* *Accumulated*** precipitation shall be removed from the sump or collection area ***[daily]* *in as timely a manner as is necessary to prevent blockage or overflow of the collection system; and**

4. **Spilled or leaked waste shall be removed from the sump or collection area daily.***

i. If the collected material is a hazardous waste under N.J.A.C. 7:26-8.1 it shall be managed as a hazardous waste in accordance with all applicable requirements of N.J.A.C. 7:26 (Rules of the Bureau of Solid Waste Management).

ii. If the collected material is discharged through a point source to water of the State, it is subject to the requirements of NJPDES in N.J.A.C. 7:26 and 7:14A (Regulations concerning the New Jersey Pollutant Discharge Elimination System).

(c) An owner or operator shall comply with the closure requirements of this subsection.

1. All hazardous waste and hazardous waste residues shall be removed from the containment system at closure. Remaining containers, liners, bases, and soil containing or contaminated with hazardous waste or hazardous waste residues shall be decontaminated or removed.

2. As throughout the operating period, unless the owner or operator can demonstrate in accordance with N.J.A.C. 7:26-8 that the solid waste removed from the containment system at closure is not a hazardous waste, the owner or operator becomes a generator of hazardous waste and shall manage it in accordance with all applicable requirements of N.J.A.C. 7:26.

7:26-10.5 Tanks

(a) This section applies to owners and operators of facilities that use tanks to treat or store hazardous waste except as N.J.A.C. 7:26-10.1 and N.J.A.C. 7:26-10.2 provide otherwise.

(b) An owner or operator shall comply with the design requirements of this subsection.

1. Tanks shall have sufficient shell strength and, for closed tanks, pressure controls (for example, vents) to assure that they do not collapse or rupture.

2. The Department will review the design of the tanks, including the foundation, structural support, seams and pressure controls. The Department shall require that a minimum shell thickness be maintained at all times to ensure sufficient shell strength. Shell thickness reports shall be kept at the facility for the whole life of the tank. Factors to be considered in establishing minimum thickness include the width, height, and materials of construction of the tank, and the specific gravity of the waste which will be placed in the tank. In reviewing the design of the tank and establishing a minimum thickness, the Department shall rely upon appropriate industrial design standards and other available information.

(c) General operating requirements for tanks include the following:

1. Wastes and other materials which are incompatible with the material of construction of the tank shall not be placed in the tank;

2. The owner or operator shall use appropriate controls and practices to prevent overfilling including, but not limited to:

i. Controls to prevent overfilling (for example, waste feed cutoff system or bypass system to a standby tank); and

ii. For uncovered tanks, maintenance of sufficient freeboard to prevent overtopping by wave or wind action or by precipitation; sufficient freeboard shall be defined as: at least 60 centimeters (two feet); or an amount of freeboard other than 60 centimeters based on documentation, acceptable to the Department, that the specified amount of freeboard will prevent overtopping.

(d) (Reserved)

(e) An owner or operator shall comply with the inspection requirements of this subsection.

1. The owner or operator shall inspect:

i. Overfilling control equipment (for example, waste feed cutoff systems and bypass systems) at least once each operating day to

ensure that it is in good working order; continuous monitoring shall be mandatory*, **unless automatic alarm systems are used,*** during times when tanks are being filled/used for processing; ***for the purposes of this subchapter, and N.J.A.C. 7:26-9.4(d), inspection each "operating day" means once every calendar day unless no operations are occurring on-site during this period;***

ii. Data gathered from monitoring equipment (for example, pressure and temperature gauges) where present, at least once each operating day to ensure that the tank is being operated according to its design;

iii. Monitoring equipment (for example, pressure and temperature gauges) shall be monitored continuously during use*[*]*, **where no operable automatic alarm system for such equipment exists;***

iv. For uncovered tanks, the level of waste in the tank, at least once each ***[operation]* *operating*** day to ensure compliance with (c)2ii above;

v. The construction materials of the above-ground portions of the tank, at least ***[daily]* *each operating day, unless it is determined, and documented by the Department, that conditions warrant more frequent inspection,*** to detect corrosion or erosion and leaking of fixtures, pipes and seams; and

vi. The area immediately surrounding the tank, ***[daily]* *at least each operating day, unless it is determined, and documented by the Department that conditions warrant more frequent inspection,*** to detect obvious signs of leakage (for example, wet spots or dead vegetation).

2. As part of the inspection schedule required in N.J.A.C. 7:26-9.4(f) and in addition to the specific requirements of (e)1 above, the owner or operator shall develop and implement a schedule and procedure for assessing the condition of the tank. The schedule and procedure shall be adequate to detect cracks, leaks, corrosion or erosion which may lead to cracks or leaks, or wall thinning to less than the thickness required under (b) above. Procedures for emptying a tank to allow entry and inspection of the interior shall be established when necessary to detect corrosion or erosion of the tank sides and bottom. The frequency of these assessments shall be based on the material of construction of the tank, the type of corrosion or erosion protection used, the rate of corrosion or erosion observed during previous inspections, and the characteristics of the waste being treated or stored;

3. As part of the contingency plan required under N.J.A.C. 7:26-9.7 the owner or operator shall specify the procedures to be used to respond to tank spills or leakage, including procedures and timing for expeditious removal of leaked or spilled waste and repair of the tank;

4. As required in N.J.A.C. 7:26-9.4(f) the owner or operator shall remedy any leak, crack, or wall thinning in violation of (b) above or equipment or process malfunction in violation of (c) above which is discovered during inspection.

5. Above ground tanks shall be subjected to periodic integrity testing on a schedule which shall take into consideration the construction materials of the tank, substances stored in the tank, soil conditions and other circumstances that affect the life of the tank. Acceptable testing methods include hydrostatic or liquid pressure testing, visual inspection, or a system of non-destructive shell ***[thickers]* *thickness*** testing; and

6. Underground tanks shall be subjected to periodic integrity testing. Acceptable methods are hydrostatic or product pressure testing ***[using any device sensible to detect losses as small as 0.05 gallons/hour]***, or any alternative method acceptable to the Department which reflects the best practical technology standards. ***Acceptable integrity test accuracy will be specified in the permit.***

(f) (Reserved)

(g) (Reserved)

(h) Rules for closure of tanks include the following:

1. At closure, all hazardous waste and hazardous waste residues shall be removed from tanks, discharge control equipment, and

discharge confinement structures; and

2. At closure, as throughout the operating period, unless the owner or operator can demonstrate in accordance with N.J.A.C. 7:26-8 that the solid waste removed from a tank is not a hazardous waste, the owner or operator becomes a generator of hazardous waste and shall manage it in accordance with all applicable requirements of N.J.A.C. 7:26 (Rules of the Bureau of Solid Waste Management).

(i) Special requirements for ignitable or reactive wastes include the following:

1. Ignitable or reactive waste shall not be placed in a tank unless:

i. The waste is treated, rendered, or mixed before or immediately after placement in the tank so that:

(1) The resulting waste, mixture, or dissolution of material no longer meets the definition of ignitable or reactive waste under N.J.A.C. 7:26-8.9 or 8.11, respectively; and

(2) There is compliance with N.J.A.C. 7:26-9.4(e); or

ii. The waste is stored or treated in such a way that it is protected from any material or conditions which may cause the waste to ignite or react; or

iii. The tank is used solely for emergencies.

2. The owner or operator of a facility which treats or stores ignitable or reactive waste in covered tanks shall comply with the National Fire Protection Association's (NFPA's) buffer zone requirements for tanks, contained in Tables 2-1 through 2-6 of the "Flammable and Combustible *[Code-1977].* ***Liquids Code* (1977 or 1981).***

3. As required by N.J.A.C. 7:26-9.4(b) the waste analysis plan shall include analyses needed to comply with (i) of this section. * [N.J.A.C. 7:26-9.4(e) requires waste analysis, trial tests, or other documentation to ensure compliance.]*

4.As required by N.J.A.C. 7:26-9.4(i), the owner or operator shall place the results of each waste analysis and trial test, and any documented information, in the operating record of the facility.

(j) An owner or operator shall comply with the special requirements for incompatible wastes in this subsection.

1. Incompatible wastes, or incompatible wastes and materials shall not be placed in the same tank*, **unless N.J.A.C. 7:26-9.4(e)2 is complied with*.**

2. Hazardous waste shall not be placed in an unwashed tank which previously held an incompatible waste or material*, **unless N.J.A.C. 7:26-9.4(e)2 is complied with*.**

3. As required by N.J.A.C. 7:26-9.4(b) the waste analysis plan shall include analyses needed to comply with (j) of this section. * [N.J.A.C. 7:26-9.4(e) requires waste analyses, trial tests, or other documentation. In addition,]*

4. As required by N.J.A.C. 7:26-9.4(i), the owner or operator must place the results of each waste analysis and trial test, and any documented information, in the operating record of the facility.

7:26-10.6 *[Surface Impoundments]* ***(Reserved)***

***[(a)** This section applies to owners and operators of facilities that use surface impoundments for storage or treatment of hazardous waste and are designed and operated to prevent discharge into the land and ground water, and the surface water, except discharges authorized by an NJPDES permit issued pursuant to N.J.A.C. 7:14A-1 et seq. except as N.J.A.C. 7:26-10.1 and N.J.A.C. 7:26-10.2 provide otherwise.

(b) General design requirements for surface impoundments include the following:

1. A surface impoundment shall be designed to provide:

i. At least 60 centimeters (two feet) of freeboard; or

ii. An amount of freeboard other than 60 centimeters (two feet) based on documentation, acceptable to the Department, that the specified amount of freeboard will prevent overtopping.

2. A surface impoundment shall be designed so that any flow of waste into the impoundment can be immediately shut off in the event of overtopping or liner failure;

3. A surface impoundment shall be designed to prevent discharge into the land and ground water, and to surface water except

discharges authorized by an NJPDES permit during the life of the impoundment by use of a containment system which complies with N.J.A.C. 7:26-10.5(d);

4. Dikes shall be designed with sufficient structural integrity to prevent massive failure without dependence on any liner system included in the surface impoundment design;

5. A leachate detection, collection, and removal system shall be designed so that liquid will flow freely from the collection system to prevent the creation of pressure head within the collection system in excess of that necessary to cause the liquid to flow freely.

(c) An owner or operator shall comply with the general operating requirements for surface impoundments in this subsection.

1. A surface impoundment shall be operated to prevent any overtopping due to wind and wave action, overflowing precipitation, or any combination thereof.

2. A surface impoundment shall be operated to maintain at least the amount of freeboard specified by the Department in the permit. The amount of freeboard shall be at least 60 centimeters (two feet), or an amount other than 60 centimeters (two feet) based on documentation acceptable to the Department that the specified amount of freeboard will prevent overtopping.

3. A leachate detection, collection, and removal system installed to comply with N.J.A.C. 7:26-10.5(d)2 shall be operated so that leachate flows freely from the collection system and is removed as it accumulates or with sufficient frequency to prevent backwater within the collection system.

4. Earthen dikes shall be kept free of:

i. Perennial woody plants with root systems which could displace the earthen materials upon which the structural integrity of the dike is dependent; and

ii. Burrowing mammals which could remove earthen materials upon which the structural integrity of the dike is dependent or create leaks through burrows in the dike.

5. Run-on shall be diverted away from a surface impoundment.

(d) Containment system requirements for surface impoundments are as follows:

1. Earthen dikes shall have a protective cover, such as grass, shale, or rock to minimize wind and water erosion and to preserve the structural integrity of the dike;

2. A liner system, including any protective cover over the liner when the liner system is in contact with the waste, designed to prevent discharge into the land during the life of the surface impoundment shall:

i. Be constructed with a liner system, with a permeability no greater than 10^{-7} centimeters per second, in contact with the waste which will prevent discharge of the waste or leachate through the liner(s) during the life of the surface impoundment;

ii. A leachate detection, collection, and removal system including a sufficiently impermeable liner that is not incompatible with the waste, beneath the drainage layer, beneath the liner(s) in contact with the waste to detect, contain, collect, and remove any discharge from the liner system in contact with the waste; and

iii. Be constructed five feet above the annual high groundwater table to ensure the detection of any discharge of waste or leachate through the liner system in contact with the waste; prevent the discharge of groundwater to the leachate detection, collection, and removal system; and to protect the structural integrity of the liner(s).

3. A containment system shall have a containment life equal to or greater than the life of the surface impoundment.

4. Liner systems shall be constructed:

i. Of materials having appropriate chemical properties and strength and of sufficient thickness to prevent failure due to pressure head, physical contact with the waste or leachate to which they are exposed, climatic conditions, and the stress of installation; and

ii. On a foundation capable of providing support to the liner(s) and resistance to pressure head above the liner(s) to prevent failure of the liner(s) due to settlement or compression.

(e) (Reserved)

ADOPTIONS

(f) (Reserved)

(g) Inspection and testing requirements for surface impoundments include the following:

1. During construction or installation, liner systems shall be inspected for uniformity, damage, and imperfections (for example, holes, cracks, thin spots, and foreign materials);

i. Earth material liner systems shall be tested for compaction density, moisture content, and permeability after placement; and

2. The owner or operator shall inspect:

i. A surface impoundment which contains free liquids at least once each operating day to ensure compliance with N.J.A.C. 7:26-10.6(c)1 through 3 above and to detect any leaks or other failures of the impoundment.

ii. Each surface impoundment, including dikes, berms, and vegetation surrounding the dike, at least daily to detect any evidence of, or potential for, leaks from the impoundment, erosion of dikes, and to ensure compliance with N.J.A.C. 7:26-10.6(c)4.

iii. As required by N.J.A.C. 7:26-9.4(f) the owner or operator shall remedy any deterioration or malfunction found.

3. The structural integrity of any dike, including that portion of any dike which provides freeboard, shall be certified against massive failure by a registered professional engineer prior to the issuance or reissuance of a permit; or if the impoundment is not in service, prior to being placed in service and after construction or prior to being returned to service. In certifying the structural integrity of the dike it shall be established that the dike will withstand:

i. The stress of the pressure head of liquids placed into the impoundment;

ii. The weakening effect of earth materials being scoured due to leakage from the impoundment through and under the dike without relying on any liner system; and

iii. The weakening effect of earth materials being scoured due to leakage from the impoundment through and under the dike assuming leaks develop in the liner system.

(h) An owner or operator shall comply with the containment system repairs and contingency plans requirements for surface impoundments in this subsection.

1. Whenever there is any indication of a possible failure of the containment system, that system shall be inspected in accordance with the provisions of the containment system evaluation and repair plan required by N.J.A.C. 7:26-10.6(h)4. Indications of possible failure of the containment system include at least an unplanned and non-sudden drop in liquid level in the impoundment, liquid detected in the leachate detection system, evidence of leakage or the potential for leakage in the dike, erosion of the dike, apparent or potential deterioration of the liner(s) based on observation or test samples of the liner materials, any mishandling of wastes placed in the impoundment and foreign objects in the impoundment.

2. Whenever there is a positive indication of a failure of the containment system, the impoundment shall be removed from service. Indications of positive failure of the containment system include an unplanned sudden drop in liquid level in the impoundment, waste detected in the leachate detection system, active leakage through the dike, or a breach (for example, a hole, tear, crack, or separation) in the liner system.

3. If the surface impoundment is removed from service as required by N.J.A.C. 7:26-10.6(h)2, the owner or operator shall:

i. Immediately shut off the flow or the addition of wastes into the impoundment;

ii. Immediately contain any leakage which has occurred or is occurring;

iii. Immediately cause the leak to be stopped; and

iv. If the leak cannot be stopped by any other means, empty the impoundment.

4. As part of the contingency plan required in N.J.A.C. 7:26-9.7 the owner or operator shall specify:

i. A procedure for complying with the requirements of paragraph N.J.A.C. 7:26-10.6(h)3; and

ENVIRONMENTAL PROTECTION

ii. A containment system evaluation and repair plan describing testing and monitoring techniques; procedures to be followed to evaluate the integrity of the containment system in the event of a possible failure; a schedule of actions to be taken in the event of a possible failure; and a description of the repair techniques to be used in the event of leakage due to a containment system failure or deterioration which does not require the impoundment to be removed from service.

5. No surface impoundment that has been removed from service in accordance with N.J.A.C. 7:26-10.6(h)2 may be restored to service unless:

i. The containment system has been repaired; and

ii. The containment system has been certified by a qualified engineer as meeting the design specifications approved in the permit.

6. A surface impoundment that has been removed from service in accordance with N.J.A.C. 7:26-10.6(h)2 and that is not being repaired shall be closed in accordance with N.J.A.C. 7:26-10.6(i).

7. All wastes removed from the impoundment shall be managed as a hazardous waste in compliance with all applicable requirements of Title 7, Chapter 26, of the New Jersey Administrative Code (Bureau of Solid Waste Management). Any point source discharge to waters of the State is subject to the requirements of N.J.A.C. 7:14A-1.1 et seq. (Regulations Concerning the New Jersey Pollutant Discharge Elimination System).

(i) An owner or operator shall comply with the closure requirements for surface impoundments in this subsection.

1. At closure, all hazardous waste and hazardous waste residues shall be removed from the impoundment. Any component of the containment system or any appurtenant structures or equipment (for example, discharge platforms and pipes, and baffles, skimmers, aerators, or other equipment) containing or contaminated with hazardous waste or hazardous waste residues shall be decontaminated or removed; and

2. At closure, as throughout the operating period, unless the owner or operator can demonstrate in accordance with N.J.A.C. 7:26-8.1 et seq. that the solid waste removed from the surface impoundment is not a hazardous waste, the owner or operator becomes a generator of hazardous waste and shall manage it in accordance with all applicable requirements of Title 7, Chapter 26, of the New Jersey Administrative Code (Bureau of Solid Waste Management).

(j) Ignitable or reactive waste shall not be placed in a surface impoundment, unless:

1. The waste is treated, rendered, or mixed before or immediately after placement in the impoundment so that:

i. The resulting waste, mixture, or dissolution of material no longer meets the definition of ignitable or reactive waste under N.J.A.C. 7:26-8.9 and N.J.A.C. 7:26-8.11, respectively; and

ii. There is compliance with N.J.A.C. 7:26-9.4(e); or

2. The waste is managed in such a way that it is protected from any material or conditions which may cause it to ignite or react; or

3. The surface impoundment is used solely for emergencies.

(k) Incompatible wastes, or incompatible wastes and materials (see 40 CFR Part 264 Appendix V for examples) shall not be placed in the same surface impoundment.

(l) Special requirements for ignitable, reactive and incompatible wastes include the following:

1. As required by N.J.A.C. 7:26-9.4(e), the waste analysis plan shall include analyses needed to comply with N.J.A.C. 7:26-10.6(j) and (k).

2. The owner or operator shall place the results of each waste analysis and trial test, and any documented information in the operating record of the facility.*

7:26-10.7 Hazardous waste incinerators

(a) This section applies to owners and operators of facilities that incinerate hazardous waste, except as N.J.A.C. 7:26-1.4, 10.1 and 10.2 provide otherwise.

1. If the Department finds, upon an examination of the waste

analysis included with Part B of the applicant's permit application, that the analysis of the waste to be burned includes none of the hazardous constituents listed in N.J.A.C. 7:26-8.16 then the Department may, in establishing the permit conditions, exempt the applicant from all requirements of this section except (b) and (1) below.

2. The owner or operator of a hazardous waste incinerator may conduct trial burns, subject ***[only]*** to the requirements of the short term permit (trial burn permits), as provided in N.J.A.C. 7:26-12.9 ***and N.J.A.C. 7:27-8***.

(b) An owner or operator shall comply with the waste analysis requirements for hazardous waste incinerators in this subsection.

1. The owner or operator shall include an analysis of the waste feed which is sufficient to provide all information as required by the short term permits (trial burn permits), as provided in N.J.A.C. 7:26-12.9.

2. Throughout normal operation the owner or operator must conduct sufficient waste analyses ***by methods acceptable to the Department*** to verify that waste feed to the incinerator is within the physical and chemical composition limits specified in the permit (under (f)2 below). The frequency ***and method*** of analyses will be determined on a case by case basis and will be specified in the permit.

(c) Designation of principal organic hazardous constituents and hazardous combustion by-products is as follows:

1. Principal organic hazardous constituents (POHC's) and hazardous combustion by-products shall be treated to the extent required by the performance standards specified in (d) below;

2. For each waste feed to be burned, one or more POHC's and hazardous combustion by-products will be specified ***by the applicant and approved by the Department*** from among those constituents listed in N.J.A.C. 7:26-8.16.

i. This specification will be based on the degree of difficulty of incineration of the organic constituents of the waste feed and its combustion by-products, and their concentration or mass ***in the waste feed and emissions***, considering the results of waste analyses and trial burns or alternative data submitted with Part B of the facility's permit application. Organic constituents or by-products which represent the greatest degree of difficulty of incineration will be those most likely to be designated as POHC's or hazardous combustion by-products. Constituents are more likely to be designated as POHC's or hazardous combustion by-products if they are present in large quantities or concentrations.

ii. Trial POHC's will be designated for performance of trial burns in accordance with the procedure specified in N.J.A.C. 7:26-12.9 for obtaining trial burn permits. Trial hazardous combustion by-products may be designated under the same procedures.

(d) Performance standards for hazardous waste incinerators include the following:

1. Any person responsible for an incinerator burning hazardous waste shall ensure that it is designed, constructed, and maintained so that, when operated in accordance with operating requirements specified under ***[N.J.A.C. 7:26-10.7(f)]* *(f) and (g) below*** it will meet the following performance standards:

i. An incinerator burning hazardous waste must achieve a destruction and removal efficiency (DRE) of 99.99 percent for each principal organic hazardous constituent (POHC) designated (under (e) below) in its permit for each waste feed. DRE is determined for each POHC from the following equation:

$$DRE = \frac{(W_{in} - W_{out}) \times 100\%}{W_{in}}$$

Where:

W_{in} = Mass feed rate of one principal organic hazardous constituent (POHC) in the waste stream feeding the incinerator, and

W_{out} = Mass emission rate of the same POHC present in exhaust emissions prior to release to the atmosphere.

ii. An incinerator burning hazardous waste containing more than 0.5 percent ***[halogens]* *chlorine by weight*** must remove at least 99 percent of the ***total*** hydrogen ***[halides]* *chloride*** from the exhaust gas; and

iii. The stack emissions of ***total*** hydrogen halides from any hazardous waste incinerator shall not exceed 50 parts per million (ppm) by volume adjusted to 7 percent oxygen by volume ***[.]* *in the wet flue gas using the formula:**

$$PPM_7 = PPM_s \times (14/(21 - \%O_2))$$

Where:

PPM_7 is the parts per million adjusted to 7% Oxygen

PPM_s is the ppm by volume determined to be in the flue gas, and

$\%O_2$ is the percentage of oxygen determined to be in the wet flue gas.*

iv. ***[An incinerator burning hazardous waste]* *New hazardous waste incinerators*** shall not emit particulate matter exceeding 0.03 grains per dry standard cubic foot when corrected to 7 percent oxygen using the procedures presented in the Clean Air Act regulations, "Standards of Performance for Incinerators", 40 CFR 60.50, Subpart E except the percent oxygen obtained from stack gas analysis is to be used to correct particulate matter emissions to 7 percent oxygen (O_2) using the following formula:

$$*[\frac{C_7 = \%O_2 \times C}{7}] * C_7 = C \times 14 / (21 - \%O_2) *$$

Where:

C_7 is the concentration of particulate matter corrected to 7 percent oxygen (O_2),

C is the concentration of particulate matter as measured by EPA Method 5, and

$\%O_2$ is the percentage of oxygen (O_2) ***in the dry flue gas*** as measured by EPA Method 3.

v. If auxiliary oxygen, other than that in air, is added to the incinerator, the correction factor shall be established by the Department during review of the Part B application.

2. For purposes of permit enforcement, compliance with the operating requirements specified in the permit (under (f) below) will be regarded as compliance with this section. However, evidence that compliance with those permit conditions is insufficient to ensure compliance with the performance requirements of this section may be "information" justifying modification, revocation, or reissuance of a permit under N.J.A.C. 7:26-12.

(e) An owner or operator shall comply with the trial burns or permit modifications requirements for ***[new]* wastes *not already included in an effective State of New Jersey hazardous waste facility permit.* *in this subsection.]***

ADOPTIONS

1. The owner or operator of a hazardous waste incinerator may burn only wastes specified in an **[approval]** **approved** permit and only under operating conditions specified for those wastes under (f) below, except in approved trial burns under N.J.A.C. 7:26-12.9. In order to conduct a trial burn for a new **type of** waste and/or operating condition, a new air pollution "Permit to Construct, Install, **[and other]** **or Alter** Control Apparatus or Equipment and Certificate to Operate Control Apparatus or Equipment" pursuant to N.J.A.C. 7:27-8 shall be obtained prior to the trial burn.

2. Wastes, other than hazardous wastes specified in the permit, may be burned only after operating conditions have been specified in a new permit or a permit modification as applicable. Operating requirements for **a** new **type of** waste^[s] may be based on either trial burn results or alternative data included with Part B of a permit application made under N.J.A.C. 7:26-12.

(f) Any person responsible for operating a hazardous waste incinerator^[s] shall comply with the following:

1. A hazardous waste incinerator shall be operated in accordance with operating requirements specified in the permit. **[These]** **Operating requirements** will be specified **by the department** on a case-by-case basis as those demonstrated (in a trial burn or in alternative data as specified in (e) above and included with Part B of a facility's permit application) to be sufficient to comply with the performance standards of (d) above;

2. Each set of operating requirements will specify the composition of the waste feed (including acceptable variations in the physical or chemical properties of the waste feed which will not affect compliance with the performance requirement of (d) above) to which the operating requirements apply. For each such waste feed, the permit application shall specify acceptable operating limits including the following conditions:

i. Carbon monoxide (CO) **[level]** **concentration by volume** in the stack exhaust gas;

ii. Waste feed rate;

iii. Combustion temperature;

iv. Air feed rate to the combustion system;

v. Allowable variations in incinerator system **[design]** **operating parameters**; **[or]** **and**

vi. Such other operating requirements as are necessary to ensure that the performance standards of (d) above are met.

[vii.] For new hazardous waste incinerators the minimum temperature of combustion gases in a defined high temperature zone shall be at least 1800°F. Temperature shall be continuously monitored at point(s) designated by the Department, including the exit of the high temperature zone.

viii. For new hazardous waste incinerators the minimum residence time of the combustion gases in the defined high temperature zone shall be at least two seconds, calculated by dividing the high temperature zone volume by the combustion gas volume flow rate at 1800°F.

ix. For new hazardous waste incinerators burning waste with a total halogen content exceeding 0.5 percent by weight, the minimum temperature of combustion gases in a defined high temperature zone shall be at least 2000°F, and the minimum residence time of the combustion gases in the defined high temperature zone must be at least two seconds, calculated by dividing the high temperature zone volume by the combustion gas volume flow rate at 2000°F; and

x. Hazardous waste incinerator design shall provide for adequate turbulence in the high temperature zone.*

3. During start-up and shut-down of an incinerator, hazardous waste shall not be fed into the incinerator unless the incinerator is operating within the conditions of operation (such as temperature, air feed rate) specified in the permit **[;]** **.*.***

4. Fugitive emissions from the combustion zone must be controlled by:

i. Keeping the combustion zone totally sealed against fugitive emissions; or

ENVIRONMENTAL PROTECTION

ii. Maintaining a combustion zone pressure lower than atmospheric pressure; or

iii. An alternative means of control demonstrated (with Part B of the permit application) to provide fugitive emissions control equivalent to maintenance of combustion zone pressure lower than atmospheric pressure.

5. A hazardous waste incinerator shall be operated with a functioning system **[to]** **that will** automatically cut off **all** waste feed to the incinerator when **critical** operating conditions **such as, but not limited to, combustion temperature and scrubber liquor pressure drop** deviate from limits established under (f) **above**; **.*.*** **Critical operating conditions requiring automatic waste feed cut-off systems shall be designated by the Department as part of the permit review process.***

6. A hazardous waste incinerator shall cease operation if changes in waste feed, or operating conditions exceed limits designated in its permit **[;]** **.*.***

7. In addition to the requirements of this subchapter, no person shall use or cause to be used any equipment or control apparatus unless:

i. All conditions and provisions of the "Permit to Construct, Install or Alter Control Apparatus or Equipment and Certificate to Operate Control Apparatus or Equipment" as required by N.J.A.C. 7:27-8 (Rules of the Bureau of Air Pollution Control) are fulfilled; and

ii. All components connected or attached to, or serving the equipment and/or control apparatus are functioning properly and are in use in accordance with the "Permit to Construct, Install or Alter Control Apparatus or Equipment and Certificate to Operate Control Apparatus or Equipment" as required by N.J.A.C. 7:27-8 **[; and]** **.*.***

8. Specific standards for metals in the waste feed, and stack emissions of metals and acid gases will be specified **by the applicant and approved** by the Department and will be included as permit conditions.

(g) **[Reserved]** **Any person responsible for operating a new hazardous waste incinerator shall insure that the incinerator complies with the following design requirements:**

1. The minimum temperature of combustion gases in a defined high temperature zone shall be at least 1800°F. Temperature shall be continuously monitored at point(s) designated by the Department, including the exit of the high temperature zone.

2. The minimum residence time of the combustion gases in the defined high temperature zone shall be at least two seconds, calculated by dividing the high temperature zone volume by the combustion gas volume flow rate at 1800°F.

3. If waste with a total halogen content exceeding 0.5 percent by weight is to be burned, the minimum temperature of combustion gases in a defined high temperature zone shall be at least 2000°F.

4. If waste with a total halogen content exceeding 0.5 percent by weight is to be burned, the minimum residence time of the combustion gases in the defined high temperature zone must be at least two seconds, calculated by dividing the high temperature zone volume by the combustion gas volume flow rate at 2000°F.

5. The design shall address the need for adequate turbulence in the high temperature zone.

6. The Department may grant a variance from the provisions of this subsection if the applicant demonstrates to the satisfaction of the Department that alternative design specifications will achieve the performance specifications of (d) **1i** above. Any variances issued pursuant to the provisions of this subsection shall be conditional on compliance with any requirements which the Department deems to be necessary.*

(h) Monitoring and inspections requirements for hazardous waste incinerators include the following:

1. The owner or operator shall conduct, as a minimum, the following monitoring while incinerating hazardous waste:

i. Combustion temperature, waste feed rate, auxilliary fuel feed rate, and air feed rate shall be monitored on a continuous basis.

ii. Carbon monoxide (CO) **and oxygen (O₂)** shall be monitored on a continuous basis at a point in the incinerator downstream of the combustion zone and prior to release to the atmosphere.

iii. Upon request by the Department, sampling and analysis of the waste and exhaust emissions shall be conducted to verify that the operating requirements established in the permit achieve the performance standards of (d) above *[]**.*

iv. Upon request by the Department, monitoring on a continuous basis at a point in the incinerator downstream of the combustion zone and prior to release to the atmosphere shall be conducted for sulfur dioxide, total organics, opacity, or any other contaminant or parameter specified by the Department.

2. The incinerator and associated equipment (such as pumps, valves, conveyors, pipes) shall be completely inspected at least daily for leaks, spills, and fugitive emissions. All emergency waste feed cut-off controls and system alarms must be checked daily to verify proper operation *[]**.*

3. This monitoring and inspection data shall be recorded and the records shall be placed in the operating log required by N.J.A.C. 7:26-9.4.

(i) (Reserved)

(j) (Reserved)

(k) (Reserved)

(l) Closure requirements for hazardous waste incinerators include the following:

1. The owner or operator shall remove all hazardous waste and hazardous waste residues (including but not limited to ash, scrubber waters, and scrubber sludges) from the incinerator site.

2. The scrubber water shall be tested and approval received from the Department before discharge to publicly owned treatment works (POTW) or to a navigable water.

3. Unless the owner or operator demonstrates to the Department that the residue removed from the incinerator is not a hazardous waste, ***[than]* *then*** the owner or operator becomes a generator of hazardous waste and shall manage it in accordance with applicable requirements of N.J.A.C. 7:26 (Rules of the Bureau of Solid Waste Management).

(m) The Department intends to propose modifications to this rule concerning hazardous waste incinerators, after evaluation of EPA's interim final amendments published in the Federal Register (Vol. 47, No. 122, pg. 27520).

7:26-10.8 Hazardous Waste Landfills (Reserved)

7:26-10.9 Thermal Treatment (Reserved)

7:26-10.10 Chemical, Physical and Biological Treatment (Reserved)

7:26-1.4 Definitions

“Authorized facility” means a hazardous waste treatment, storage or disposal facility which has received a ***[USEPA]*** permit ***to operate from the USEPA or New Jersey DEP*** (or a facility ***[with “interim status”]* *determined by the New Jersey DEP to be in full compliance with all requirements set forth in N.J.A.C. 7:26-12.3 governing the operations of existing hazardous waste facilities until final disposition of the permit application is made***) in accordance with the requirements of 40 CFR Parts 122 and 124, ***N.J.A.C. 7:26-1,*** or a permit or other permission to operate from a state authorized in accordance with 40 CFR 123. *** Those facilities exempt from the New Jersey hazardous waste facility permitting requirements, as designated at N.J.A.C. 7:26-12.1(b)7, are considered “authorized facilities” for the purpose of the regulations found in N.J.A.C. 7:26-7 and 8.***

“Hazardous waste incinerator” means a device using

combustion to ***[thermally]*** decompose hazardous waste. A ***[boiler]* *device*** burning hazardous waste is not a hazardous waste incinerator if:

***[1. The Department has granted a “Permit to Construct, Install or Alter Control Apparatus of Equipment and Certificate to Operate Control Apparatus or Equipment”, in accordance with the provisions of N.J.A.C. 7:27-8; and**

2. The Department finds that the hazardous waste is to be burned for the primary purpose of recovering useful heat; and

3. The amount of hazardous waste does not exceed 10 percent by weight of the total material burned; and

4. The gross heat input of the boiler is greater than 50 million British Thermal Units (BTU) per hour.]*

***1. The wastes to be burned in the device are to be beneficially used or reused as a fuel for the purpose of recovering useable energy, and are limited to on-site wastes or specific wastes between intra-company and intra-state facilities under the control of the same person. Said wastes to be burned pursuant to this authorization shall be fully classified in accordance with the requirements of N.J.A.C. 7:26-8, and shipped using New Jersey DEP manifests in accordance with the requirements of N.J.A.C. 7:26-7.**

2. A “Permit to Construct, Install or Alter Control Apparatus or Equipment and Certificate to Operate Control Apparatus or Equipment” has been issued in accordance with the provisions of N.J.A.C. 7:27-8. Such permit description must include a listing of each specific waste, the composition of each waste, and the process from which each waste was generated.

3. The rated gross heat input of the device is greater than 20 million British Thermal Units (BTU) per hour.

4. The device has a minimum combustion efficiency of at least 99.9 percent, as determined by the following formula where carbon dioxide (CO₂) and carbon monoxide (CO) are measured in concentration by volume:

$$\text{Combustion efficiency} = \text{CO}_2 / (\text{CO}_2 + \text{CO}) \times 100\%$$

5. The device is continuously monitored for O₂ and either CO or total hydrocarbons and the levels are continuously recorded.

6. A full-time operator is present when the waste is burned. If the device is a boiler, the engineer-in-charge must possess a current, 1-C “blue-seal” third class engineers license.

7. The device is located in an area zoned for industrial use, and shall not be located in a residential building.*

“Incinerator” means a thermal device in which solid waste is burned for the purposes of volume reduction (an incinerator used to obtain*[ed]* energy shall be classified as a resource recovery facility).

“New hazardous waste incinerator” means a hazardous waste incinerator which began operation, or for which construction commenced, after January 1, 1982. Construction ***[had]*** commenced if the owner or operator has obtained all necessary Federal permits as well as any permit by the Solid Waste Administration and either:

1. A continuous physical, on-site construction program has begun; or

2. The owner or operator has entered into contractual obligations—which cannot be cancelled or modified without substantial loss—for the construction of the facility to be completed within a reasonable time.

*7:26-7.4 Hazardous waste generator responsibilities

(a)–(d) (No change.)

(e) It shall be considered a violation of N.J.A.C. 7:26-7 for a hazardous waste generator to:

1.–2. (No change.)

3. Designate on the manifest form a hazardous waste facility which is not an authorized facility [. “Authorized facility” or

ADOPTIONS

“authorized hazardous waste facility” means a hazardous waste treatment, storage or disposal facility which has received a USEPA permit (or a facility with “interim status”) in accordance with the requirements of 40 CFR Parts 122 and 124, or a permit or other permission to operate from a state authorized in accordance with 40 CFR 123] (see N.J.A.C. 7:26-1.4); or

4. (No change.)*

*7:26-9.1 Scope and applicability

(a)–(b) (No change.)

(c) The standards and requirements of N.J.A.C. 7:26-9 do not apply to:

1.–8. (No change.)

9. The owner or operator of a [boiler] device burning a hazardous waste, provided the following conditions are met:

[i. The Department has granted a “Permit to Construct, Install or Alter Control Apparatus or Equipment and Certificate to Operate Control Apparatus or Equipment”, in accordance with the provisions of N.J.A.C. 7:27-8.1 which reflects the use of the hazardous waste in the unit.

ii. The Department finds that the hazardous waste is to be burned for the primary purpose of recovering useful heat; and

iii. The amount of hazardous waste does not exceed 10 percent by weight of the total material burned; and

iv. The gross heat input of the boiler is greater than 50 million British Thermal Units (BTU) per hour.]

i. **The wastes to be burned in the device are limited to on-site wastes or specific wastes between intra-company and intra-state facilities under the control of the same person. Said wastes to be burned pursuant to this authorization shall be fully classified in accordance with the requirements of N.J.A.C. 7:26-8, and shipped using New Jersey DEP manifests in accordance with the requirements of N.J.A.C. 7:26-7.**

ii. **A “Permit to Construct, Install or Alter Control Apparatus or Equipment and Certificate to Operate Control Apparatus or Equipment” has been issued in accordance with the provisions of N.J.A.C. 7:27-8. Such permit description must include a listing of each specific waste, the composition of each waste, and the process from which each waste was generated.**

iii. **The rated gross heat input of the device is greater than 20 million British Thermal Units (BTU) per hour.**

iv. **The device has a minimum combustion efficiency of at least 99.9%, as determined by the following formula where carbon dioxide (CO₂) and carbon monoxide (CO) are measured in concentration by volume:**

$$\text{Combustion efficiency} = \text{CO}_2 / (\text{CO}_2 + \text{CO}) \times 100\%$$

v. **The device is continuously monitored for O₂ and either CO or total hydrocarbons and the levels are continuously recorded.**

vi. **A full-time operator is present when the waste is burned. If the device is a boiler, the engineer-in-charge must possess a current, 1-C “blue-seal” third class engineers license.**

vii. **The device is located in an area zoned for industrial use, and shall not be located in a residential building.***

7:26-9.2 General prohibitions

(a) (No change.)

(b) No person shall cause, suffer, allow or permit:

1.–2. (No change.)

3. The use of any existing underground hazardous waste storage tank unless:

i. Monitoring pursuant to N.J.A.C. 7:14A-6 is performed; [and]

ii. Such use is limited to the specified lifetime of the tank[.]; and

iii. **It is managed pursuant to N.J.A.C. *[10.5(e)5]* *7:26-10.5(e)6*;** and

4. (No change.)

(c) (No change.)

ENVIRONMENTAL PROTECTION

7:26-9.4 General facility standards

(a) (No change.)

(b) The owner or operator of a facility shall comply with the waste analysis requirements of this subsection.

1. (No change.)

2. The owner or operator must develop and follow a written waste analysis plan which describes the procedures which the owner or operator will perform to comply with (b)1 above. The owner or operator must keep this plan at the facility. At a minimum the plan must specify:

i.–v. (No change.)

vi. Where applicable, the methods which will be used to meet the additional waste analysis requirements for specific waste management methods as specified in N.J.A.C. 7:26-10 and N.J.A.C. 7:26-11.

3.–4. (No change.)

(c) (No change.)

(d) The owner or operator of a facility shall comply with the requirements for the use and management of containers in this subsection.

1.–6. (No change.)

7. Special requirements for incompatible wastes include the following:

i. Incompatible wastes, or incompatible wastes and materials, shall not be placed in the same container[, except in compliance with N.J.A.C. 7:26-9.4(e)2]*, **except in compliance with (e)2 below*;**

ii. Hazardous waste shall not be placed in an unwashed container that previously held an incompatible waste or material[, except in compliance with N.J.A.C. 7:26-9.4(e)2]*, **except in compliance with (e)2 below*;**

iii. (No change.)

(e) General requirements for ignitable, reactive, or incompatible wastes include the following:

1. (No change.)

2. The treatment, storage, or disposal of ignitable or reactive waste, [and the mixture of incompatible wastes, or incompatible wastes and materials,] ***and the mixture of incompatible wastes, or incompatible wastes and materials,*** shall be conducted so that it does not:

i.–v. (No change.)

(f)–(o) (No change.)

7:26-11.2 Tanks

(a)–(e) (No change.)

(f) Special requirements for incompatible wastes include the following:

1. Incompatible wastes, or incompatible wastes and materials, shall not be placed in the same tank[, except in compliance with N.J.A.C. 7:26-9.4(e)2]*, **except in compliance with N.J.A.C. 7:26-9.4(e)2*;** and

2. Hazardous waste shall not be placed in an unwashed tank which previously held an incompatible waste or material[, except in compliance with N.J.A.C. 7:26-9.4(e)2]*, **except in compliance with N.J.A.C. 7:26-9.4(e)2*.**

7:26-11.3 Surface impoundments

(a)–(f) (No change.)

(g) Incompatible wastes, or incompatible wastes and materials, shall not be placed in the same surface impoundment[, unless N.J.A.C. 7:26-9.4(e)2 is complied with] ***;unless N.J.A.C. 7:26-9.4(e)2 is complied with*.**

7:26-11.5 Hazardous waste incinerators

(a) **An owner or operator shall comply with the general operating requirements of this subsection.**

1.–3. (No change from proposal.)

4. The stack emissions of sulfur dioxide shall not exceed 310 parts per million by volume adjusted to *[7 percent oxygen]* *12 percent carbon dioxide* by volume *in the wet flue gas*.

5. The stack emissions of hydrogen halides shall not exceed 50 parts per million by volume adjusted to 7 percent oxygen by volume *in the wet flue gas*. An incinerator burning hazardous waste containing more than 0.5 percent chlorine *by weight* shall *be controlled to* remove at least 99 percent of the hydrogen chloride from the exhaust gas.

6.If auxiliary oxygen, other than that in air, is added to the incinerator, the adjustment factor for adjusting concentration to 7 percent oxygen by volume shall be established by the Department during review of the Part B application. When auxiliary oxygen is not added to the incinerator, the adjustment factor shall be $14/(21-\%O_2)$, where % O is the percentage oxygen in the wet flue gas.

(b) (No change.)

(c) (No change.)

1. (No change.)

2. The stack plume (emissions) shall be observed *[visually]* at least hourly for normal color and opacity *,unless darkness or weather conditions prohibit*. The operator shall immediately make any indicated operating corrections necessary to return visible emissions to their normal appearance. *Based on the appearance of the plume during the trial burn, the Department may specify a maximum opacity standard as a condition of the operating permit.*

3. (No change.)

*[(d) Sulfur dioxide (SO₂) emissions from hazardous waste incinerators shall in no case exceed 300 parts per million by volume adjusted to seven percent oxygen by volume.

(e) An incinerator burning hazardous waste containing more than 0.5 percent halogens shall:

i. Remove at least 90 percent of the hydrogen halides from the exhaust gas; and

ii. The stack emissions of hydrogen halides shall not exceed 50 parts per million by volume adjusted to seven percent oxygen by volume.]*

[d] *[(f)]* *(d)* At closure, the owner or operator shall remove all hazardous waste and hazardous waste residues from the incinerator, including but not limited to ash, scrubber waters, and scrubber sludges.

[(e) The Department intends to propose modifications to this rule concerning hazardous waste incinerators, after evaluation of EPA's interim final amendments published in the Federal Register (Vol. 47, No. 122, pg. 27520).

7:26-11.7 Chemical, physical, and biological treatment

(a)-(c) (No change.)

(f) Special requirements for incompatible wastes include the following:

1. Incompatible wastes, or incompatible wastes and materials, shall not be placed in the same treatment process or equipment [, except in compliance N.J.A.C. 7:26-9.4(e)] *, **except in compliance with N.J.A.C. 7:26-9.4(e)***; and

2. Hazardous waste shall not be placed in unwashed treatment equipment which previously held an incompatible waste or material [, except in compliance with N.J.A.C. 7:26-9.4(c)] *, **except in compliance with N.J.A.C. 7:26-9.4(e)***.

*7:26-12.1 Scope and applicability

(a) (No change.)

(b) The following persons are not required to obtain a permit pursuant to this subchapter to conduct the following activities or construct or operate the following hazardous waste facilities:

1.-6. (No change.)

7. The owner or operator of a [boiler] device burning a hazardous waste provided the following conditions are met (see N.J.A.C. 7:26-9.1(c)9):

i. The Department has granted a "Permit to Construct, Install or Alter Control Apparatus or Equipment and Certificate to Operate Control Apparatus or Equipment", in accordance with the

provisions of N.J.A.C. 7:27-8.1 et seq. which reflects the use of the hazardous waste in the unit.

ii. The Department finds that the hazardous waste is to be burned for the primary purpose of recovering useful heat; and

iii. The amount of hazardous waste does not exceed 10 percent by weight of the total material burned; and

iv. The gross heat input of the boiler is greater than 50 million British Thermal Units (BTU) per hour.]

i. The waste to be burned in the device are limited to on-site wastes or specific wastes between intra-company and intra-site facilities under the control of the same person. Said wastes to be burned pursuant to this authorization shall be fully classified in accordance with the requirements of N.J.A.C. 7:26-8, and shipped using New Jersey DEP manifests in accordance with the requirements of N.J.A.C. 7:26-7.

ii. A "Permit to Construct, Install or Alter Control Apparatus or Equipment" has been issued in accordance with the provisions of N.J.A.C. 7:27-8. Such permit description must include a listing of each specific waste, the composition of each waste, and the process from which each waste was generated.

iii. The rate gross heat input of the device is greater than 20 million British Thermal Units (BTU) per hour.

iv. The device has a minimum combustion efficiency of at least 99.9% as determined by the following formula where carbon dioxide (CO₂) and carbon monoxide (CO) are measured in concentration by volume:

$$\text{Combustion efficiency} = \text{CO}_2 / (\text{CO}_2 + \text{CO}) \times 100\%$$

v. The device is continuously monitored for O₂ and either CO or total hydrocarbons, and the levels are continuously recorded.

vi. A full-time operator is present when the waste is burned. If the device is a boiler, the engineer-in-charge must possess a current 1-C "blue-seal" third class engineers license.

vii. The device is located in an area zoned for industrial use, and shall not be located in a residential building.

8. (No change.)

*7:26-12.2 Permit application

(a)-(d) (No change.)

(c) All applicants shall provide the following information in Part B of the permit application:

1.-13. (No Change.)

14. (Reserved) [Seismic activity information as follows:

i. In order to determine the applicability of the seismic standard as set forth at N.J.A.C. 7:26-10.3 the owner or operator of a new facility shall identify the political jurisdiction (for example, county, township, or election district) in which the facility is proposed to be located.

ii. If the facility is proposed to be located in an area listed in Appendix VI of 40 CFR 264, the owner or operator shall demonstrate compliance with the seismic standard. This demonstration may be made using either published geologic data or data obtained from field investigations carried out by the applicant. The information provided shall be of such quality to be acceptable to geologists experienced in identifying and evaluating seismic activity. The information submitted shall show that either:

(1) No faults which have had displacement in Holocene time are present, or no lineations which suggest the presence of a fault (which have displacement in Holocene time) within 3,000 feet of a facility are present, based on data from: published geologic studies; aerial reconnaissance of the area within a five-mile radius from the facility; an analysis of aerial photographs covering a 3,000 foot radius of the facility, and if needed to clarify the above data, a reconnaissance based on walking portions of the area within 3,000 feet of the facility; or

(2) If faults (including lineations) which have had displacement in Holocene time are present within 3,000 feet of a facility, no faults

pass within 200 feet of the portions of the facility where treatment, storage, or disposal of hazardous waste will be conducted, based on data from a comprehensive geologic analysis of the site. Unless a site analysis is otherwise conclusive concerning the absence of faults within 200 feet of such portions of the facility, data shall be obtained from a subsurface exploration (trenching) of the area within a distance of less than 200 feet from portions of the facility where treatment, storage, or disposal of hazardous waste will be conducted. Such trenching shall be performed in a direction that is perpendicular to known faults (which have had displacement in Holocene time) passing within 3,000 feet of the portions of the facility where treatment, storage, or disposal of hazardous waste will be conducted. Such investigation shall document with supporting maps and other analyses, the location of any faults found.]

15. Identification of whether a facility is located within a 100-year flood plain.

i.-ii. (No change.)
iii. Owners and operators of facilities located in the 100-year flood plain shall provide the following information:

(1)-(3)(D) (No change.)
(E) Existing facilities not in compliance with N.J.A.C. 7:26-10.3[(b)] (a) shall provide a plan showing how the facility will be brought into compliance and a schedule for compliance.

16.-21. (No change.)
(f) The following additional information is required from an owner or operator of specific types of hazardous waste management facilities that are used or to be used for storage or treatment:

1.-3i. (No change.)
ii. Detailed drawings of the structure which is or will be provided to immediately stop flow into the impoundment to comply with N.J.A.C. 7:26-10.6[(b)] (h) or, if no structure is needed to comply with N.J.A.C. 7:26-10.6(h), a description of the means by which waste additions will be stopped.
iii.-xii. (No change.)
4.-5. (No change.)
(g)-(j) (No change.)*

HIGHER EDUCATION

(a)

BOARD OF HIGHER EDUCATION

County Colleges Chargeback Regulations

Adopted Amendment: N.J.A.C. 9:4-1.5

Proposed: July 6, 1982 at 14 N.J.R. 690(b).
Adopted: September 17, 1982 by Board of Higher Education, T. Edward Hollander, Chancellor and Secretary.
Filed: September 20, 1982 as R.1982 d.335, **without change**.
Authority: N.J.S.A. 18A:6A-7(b).
Effective Date: October 4, 1982.

Summary of Public Comments and Agency Responses:
No comments received.

INSURANCE

(b)

DIVISION OF ADMINISTRATION

Insurance Licensees Notification of Change of Address; Service of Process

Adopted New Rule: N.J.A.C. 11:1-14

Proposed: July 19, 1982 at 14 N.J.R. 748(a).
Adopted: September 20, 1982 by W. Morgan Shumake, Acting Commissioner, Department of Insurance.
Filed: September 21, 1982 as R.1982 d.336, **with substantive changes** not requiring additional public notice and comment (see N.J.A.C. 1:30-3.5).

Authority: N.J.S.A. 17:1-8.1, 17:1C-6(e), 17:1-8.6, 17:22-6.16 and 17B:22-27.

Effective Date: October 4, 1982.

Operative Date: November 19, 1982.

Summary of Public Comments and Agency Responses:

The Department has received written commentary regarding this proposal from three interested persons and organizations. These comments largely concerned requirements contained in 11:1-14.2 (Notification of change of address). A summary of the comments and the Department's response to the criticisms and suggestions contained therein follows.

One commenter questioned the fairness of the proposal arguing that the licensees most likely to be penalized by it are those who have inadvertently failed to notify the Department of an address change rather than those who have preconceived plans for committing offenses and who may, therefore, seek to avoid the Department. Individuals seeking to avoid the Department need only mail an empty envelope certified mail, return receipt requested, to the License Division and later claim proper compliance with the regulation.

Maintaining correct address information on licensees is essential to the investigative functions of the Department and to more routine functions such as handling consumer complaints, issuing renewal licenses and the like. In addition to permitting the Department to readily locate a licensee, the address information may, in and of itself, be relevant to issues relating to the licensee's ability to properly function in that capacity. Accordingly, it would not appear to be unreasonable or unfair to expect those who are licensed by the Department to provide up-to-date address information.

Placing this affirmative obligation on licensees may serve to reduce the incidence of inadvertent failure to furnish this information. The regulation's provisions will certainly enhance the Department's ability to handle situations wherein deliberate noncompliance may accompany other irregular activity.

Regarding a licensee who feigns compliance by mailing an empty envelope to the License Division, the records of that Division must simply reflect that the envelope was received, without contents, and presumably bore either an incorrect or no return address. If the return receipt is attached to the envelope, return address information contained on the card would also be noted.

Concerning the certified mail requirement, another commenter, while acknowledging that its use provides the licensee with some

measure of protection, nevertheless felt that first class mail would be sufficient. However, because the address information furnished by licensees may be used for purposes such as effecting service of process, the Department believes that the certified mail requirement is appropriate; it is, therefore, retained in the adopted rule.

The adopted rule has been amended to permit address change notifications to be submitted to the License Division by personal delivery in addition to certified mail (see N.J.A.C. 11:1-14.2(b)). The Division will provide receipts and maintain records for all address change notifications submitted in this fashion.

Commenters also suggested that the rule be amended to exempt those individuals who are licensed by the Department but are full-time company employees, such as individuals who are licensed to provide a countersignature function. For reasons noted earlier, the Department believes that its records should reflect accurate address information for all licensees.

Finally, a commenter suggested that the rule be amended to permit companies to notify the Department of address changes on behalf of licensees in those instances where entire agencies or large segments thereof are moved. This would serve to reduce administrative costs and facilitate compliance.

Aside from requiring written notification and submission of same by certified mail or personal delivery, the adopted rule does not address the mechanical aspects of how the licensee provides current address information. Presumably, a licensee might assign mechanical functions, such as preparation of the notice, to an agency employee or, as suggested, to his or her company. Accordingly, the Department has not amended the rule to specifically allow companies to notify the Department on behalf of licensees. We would note, however, that the rule places the responsibility for providing this information in the form and manner specified therein squarely upon the licensee. Responsibility for compliance cannot be shifted or avoided by permitting or allowing another party to perform any mechanical function associated with the provision or required information.

Full text of the changes between proposal and adoption follows (additions to proposal shown in boldface with asterisks ***thus***).

11:1-14.2 Notification of change of address

(a) All licensees of the Department of Insurance must provide the Commissioner of Insurance with written notification of any change of residence or business address within 20 calendar days of the address change.

(b) All address change notifications shall be sent by certified mail, with return receipt requested, to the License Division, New Jersey Department of Insurance, 201 East State Street, CN 325, Trenton, New Jersey 08625 ***or shall be delivered by personal delivery to that Division***.

(c) Non-compliance with this section constitutes violation of N.J.S.A. 17:22-6.16(a) and (h) and 17B:22-27(a)(1) and 12.

LAW AND PUBLIC SAFETY

(a)

BOARD OF MORTUARY SCIENCE

License and Registration Generally License Renewals

Adopted Amendment: N.J.A.C. 13:36-4.1

Proposed: July 19, 1982 at 14 N.J.R. 751(a).
Adopted: September 20, 1982 by J. Patrick Growney,
President, New Jersey State Board of Mortuary
Science.

Filed: September 20, 1982 as R.1982 d.333, **without change**.

Authority: N.J.S.A. 45:7-37 and 45:7-38.
Effective Date: October 4, 1982.

MISCELLANEOUS NOTICES

ENVIRONMENTAL PROTECTION

(a)

DIVISION OF WASTE MANAGEMENT

Petition for Rulemaking Hazardous Waste Management

Proposed Amendment: N.J.A.C. 7:26

Petitioner: Chemical Industry Council of New Jersey.
Authority: N.J.S.A. 52:14B-4(f) and N.J.A.C. 1:30-3.6.
DEP Docket No.: 042-82-09.

This is a notice of petition for a rule filed pursuant to N.J.S.A. 52:14B-4(f) as implemented by N.J.A.C. 1:30-3.6.

Take notice that the Chemical Industry Council of New Jersey has petitioned the Department of Environmental Protection to initiate a process whereby all changes that have been made since May, 1980 to the Federal regulations promulgated pursuant to the Resource Conservation and Recovery Act of 1976 ("RCRA"), and the future Federal RCRA rule revisions, would be formally reviewed by the Department of Environmental Protection and, where acceptable, adopted into the New Jersey Hazardous Waste Management Regulations, N.J.A.C. 7:26.

Take further notice that the Department of Environmental Protection, in accordance with N.J.S.A. 52:14B-4(f), has determined to act on the Chemical Industry Council of New Jersey's petition through an internal Departmental review of all Federal RCRA rule amendments since May, 1980, after which informal meetings may be held or the Department may propose amendments to the New Jersey Hazardous Waste Management Regulations, N.J.A.C. 7:26, through normal rulemaking procedures. Notice of any such informal meetings shall be published in a future edition of the New Jersey Register.

For further information concerning this petition for rulemaking contact:

Joseph N. Schmidt, Jr., Esq.

ENVIRONMENTAL PROTECTION

Pinelands Commission

Public Notice

After consultation with the Pinelands Commission and after receiving appropriate documentation from the Commission, including advice from the Attorney General to the Commission, the Director of the Office of Administrative Law has determined that the Pinelands Comprehensive Management Plan is exempt from the

expiration date requirement of Executive Order No. 66 (1978) (Sunset Provision). The mandatory five-year expiration date, therefore, does not apply to the Plan. This conclusion is based on the fact that the Plan includes its own periodic three-year review, was adopted pursuant to specific Federal requirements and with specific Federal approval, and requires specific Federal approval prior to any modification. The purpose of an expiration date is defeated, since the Commission does not have final authority either as to what should be in the Plan or as to whether the Plan should continue, and any unilateral modification of the Plan is precluded by a preemptive agreement made pursuant to Federal law. At the same time, the purpose of the Executive Order appears to be substantially fulfilled by the mandatory review contained in the Plan. Therefore, the Plan is covered by the exemptions contained in Executive Order No. 66. Since the Sunset Provision does not apply to the Plan, the expiration date which was previously recorded for the Plan, and which is found at N.J.A.C. 7:50, will be deleted.

ENVIRONMENTAL PROTECTION

Clean Air Council

Notice of Public Hearing on Toxic Air Pollutants

The Clean Air Council, an advisory body to the Commissioner of the Department of Environmental Protection, will hold its annual public hearing in the auditorium of the Labor Education Center, Rutgers University, Ryders Lane, New Brunswick, New Jersey. The hearing will be held on October 18, 1982 from 9:00 A.M. to the close of testimony. The topic for discussion is: "What Should New Jersey Do About Toxic Air Pollutants".

Anyone wishing to testify should contact Mr. Patrick Zigrand at (609) 984-0395 or write to him at the Division of Environmental Quality, CN 027, Trenton, NJ 08625.

(d)

THE COMMISSIONER

State Certifications of Draft NPDES Permits

Public Notice

Robert E. Hughey, Commissioner of the Department of Environmental Protection, pursuant to the "New Jersey Water Pollution Control Act," N.J.S.A. 58:10A-1 et seq., is authorized to assess compliance of a surface water discharge with State law pertaining to discharges to the waters of the State. The Department is requested by the United States Environmental Protection Agency, as required by section 401 of the Federal Clean Water Act, 33 U.S.C. 1251 et seq., to certify that a discharge, as described in a draft National Pollutant Discharge Elimination System permit, will not violate the requirements of State law.

The Department publishes public notice of certifications in the DEP Bulletin. Copies of the Bulletin may be obtained by calling (609) 292-3178 or writing to the Documents Distribution Center, P.O. Box 1390, Trenton, New Jersey 08625.

HEALTH

(a)

HEALTH ECONOMICS SERVICES

**Procedural and Methodological Regulations
New Comment Period**

Proposed Amendments: N.J.A.C. 8:31B-3.

The comment period for the RIM Methodology, as published in the New Jersey Register on July 19, 1982, at 14 N.J.R. 737(a) was scheduled to end on September 17, 1982.

Computer priorities have delayed the printing of the generic Nursing Management Report, which was to be available for perusal during the comment period. The Department believes that this document is necessary to allow a knowledgeable evaluation by the industry and nursing community.

The comment period for the RIM Methodology has therefore been extended to 30 days following the issuance of the Nursing Management Report. When the report is available we will publish a notice in the New Jersey Register indicating how to obtain a copy, and at that time we will give notice of a new comment period.

HUMAN SERVICES

(b)

DIVISION OF PUBLIC WELFARE

**General Assistance Manual
Eligibility For Assistance**

Notice of Correction: N.J.A.C. 10:85-3.1

An error appears in the New Jersey Administrative Code at N.J.A.C. 10:85-3.1, Persons eligible for general assistance. The text should read as follows (replace bracketed text with boldfaced text):

10:85-3.1 Persons eligible for general assistance

(a) General assistance shall be provided to all needy persons who, while in the State, are entitled to receive such assistance. Entitlement does not extend to persons who have been found eligible for or are recipients of public assistance programs administered by the county welfare agency, or who have been found ineligible for such programs due to voluntary refusal to comply with program requirements. (See also subsections (c) and (d) of this section.)

1. Exceptions relevant to medical care:

[i. Individuals and families who are ineligible for public assistance (general assistance, AFDC, Cuban or Indochinese refugee assistance) or for SSI payments because their income exceeds the standards established for the applicable program may apply to the MWD on a monthly basis for assistance in paying excessive medical costs. The provisions of this section are not applicable to

the payment of bills for inpatient hospitalization or for medical services rendered to an inpatient;]

i. Individuals or families whose level of income renders them ineligible for other public assistance programs, including SSI, may nevertheless apply to the MWD for assistance in meeting certain excessive medical care costs (see N.J.A.C. 10:85-3.3(g)1.)

DIVISION OF MOTOR VEHICLES

Bulk Commodities Application

Public Notice

Take notice that Clifford W. Snedeker, Director, Division of Motor Vehicles, pursuant to the authority of N.J.S.A. 39:5E-11, hereby lists the names and addresses of applicants who have filed an application for a common carrier's certificate of public convenience and necessity and/or a contract carrier permit to engage in the business of transporting bulk commodities in intrastate commerce.

CONTRACT CARRIER (NON-GRANDFATHER)

R. Weir Trucking, Inc.
RD 2 Box 582 E.
Lake Hopatcong, NJ 07849

Any or all the above application may be inspected in full by interested parties at the office of the Division of Motor Vehicles, Bureau of Motor Carriers, 25 S. Montgomery Street, Trenton, NJ 08666, on business days between 9:00 A.M. and 4:00 P.M.

Protests in writing and verified under oath may be presented by interested parties to the Director of Motor Vehicles within 20 days following the publication date of an application.

OTHER AGENCIES

(d)

CASINO CONTROL COMMISSION

**Petition for Rulemaking
Repeal or Modification of the 50% Rule**

Petitioner: Bally Manufacturing Corporation
Authority: N.J.S.A. 52:14B-4(f) and N.J.A.C. 1:30-3.6.

Take notice that on September 3, 1982, the Casino Control Commission received a petition for rulemaking pursuant to N.J.S.A. 52:14B-4(f) from Bally Manufacturing Corporation.

OTHER AGENCIES

MISCELLANEOUS NOTICES

Pursuant to N.J.A.C. 1:30-3.6, the Casino Control Commission has filed a notice of petition for rulemaking with regard to petitioner's request.

Bally Manufacturing Corporation has requested the repeal or substantial modification of what is commonly known in the casino industry as the "50% Rule". Bally seeks to eliminate the 50% restriction on the number of slot machines which a casino can buy from any one manufacturer. The petitioner contends the present restriction prevents the casino operators from purchasing machines which they feel will be most appealing to the public and most profitable. The petitioner further contends that these restrictions result in lost profits, diminished State revenue and impair the growth of the gaming industry in New Jersey. Petitioner, therefore, has petitioned the Casino Control Commission to repeal N.J.A.C. 19:46-1.32 or to modify the rule removing the 50% restriction in order to free market competition.

This is a notice of petition for a rule (N.J.A.C. 1:30-3.6). Any rule concerning the subject of this notice of petition for a rule must comply with the rulemaking requirements of the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq.

INDEX OF ADOPTED RULES

The *Index of Adopted Rules* contains rules which have been promulgated subsequent to the most recent update of the New Jersey Administrative Code. Rules which are being promulgated in this Register, and which appear in the *Table of Rules* in this issue, do not appear in this index.

The rules in this index are listed in order of their N.J.A.C. citations. Accompanying the N.J.A.C. citation for each rule is a brief description of the rule's content, the Register citation for its proposal notice, its Office of Administrative Law (OAL) document citation (which should be used if ordering a copy of the rule from OAL), and the Register citation for its adoption.

An N.J.A.C. citation which includes a **section** number, such as 1:30-1.1, means that only that section has been modified. An N.J.A.C. citation which includes a **subchapter** number, such as 5:23-3, *but no section designation*, or which includes only title and **chapter**, such as 1:30, means that there have been extensive changes involving all or most sections of that subchapter or chapter.

At the bottom of the listing for each Title is the date of the most recent Code update for that Title.

The *Index of Adopted Rules* appears in the first Register of each month, complementing the *Index of Proposed Rules* which appears in the second Register of each month. Together, these indices make available to a Code and Register subscriber all legally effective rules, and enable the subscriber to keep track of all State agency rulemaking activities from the initial proposal through final promulgation.

For any rule not yet published in a Code update, the full text of the proposal notice as published in the Register, plus the full text of any changes published with the adoption notice in the Register, constitute an official copy of the promulgated rule. If the full text of either the proposed rule or any changes does not appear in the Register, it is available for a fee from:

Administrative Filings
CN 301
Trenton, New Jersey 08625

To be certain that you have a copy of each proposed rule which may have been adopted but which does not yet appear in the most recent Code update, you should retain each Register beginning with July 5, 1979.

(Title 5, Transmittal 16 dated March 19, 1981)

EDUCATION-TITLE 6

6:2-1.1, 1.2, 1.7-1.19	Filing appeals before State Board	14 N.J.R. 261(a)	R. 1982 d.268	14 N.J.R. 913(a)
6:11-3.3	Teacher certification fees	13 N.J.R. 8(b)	R. 1981 d.82	13 N.J.R. 191(a)
6:11-3.7	Revocation of teaching certificate	14 N.J.R. 73(a)	R. 1982 d.122	14 N.J.R. 383(d)
6:11-3.18	Teacher education and academic credentials	12 N.J.R. 452(e)	R. 1981 d.22	13 N.J.R. 123(b)
6:11-7	Repealed existing subchapter	14 N.J.R. 456(b)	R. 1982 d.269	14 N.J.R. 914(a)
6:11-7.1	State Approval of Teacher Education	14 N.J.R. 456(b)	R. 1982 d.269	14 N.J.R. 914(a)
6:20-2.3	Budget and cost distribution records	13 N.J.R. 333(e)	R. 1981 d.353	13 N.J.R. 563(b)
6:20-2.3	Program-oriented budgeting format	14 N.J.R. 309(a)	R. 1982 d.194	14 N.J.R. 654(b)
6:20-3.1	Building use charge by receiving districts	14 N.J.R. 499(b)	R. 1982 d.270	14 N.J.R. 914(b)
6:20-3.1	Correction: Operative date of building use charge	14 N.J.R. 499(b)	R. 1982 d.270	14 N.J.R. 978(b)
6:21-10.4	Private auto use for pupil transportation	13 N.J.R. 914(a)	R. 1982 d.121	14 N.J.R. 384(a)
6:22-1.14, 1.19	Inspection fees for school facilities	14 N.J.R. 74(a)	R. 1982 d.119	14 N.J.R. 384(b)
6:24-1.3	Format of petition for controversies and disputes	13 N.J.R. 190(a)	R. 1981 d.265	13 N.J.R. 397(b)
6:24-1.3	Correction: Petition format	13 N.J.R. 190(a)	R. 1981 d.265	13 N.J.R. 481(a)
6:28-5.10, 5.11, 6.10, 6.11	Approval of auxiliary services for private school students	14 N.J.R. 617(a)	R. 1982 d.316	14 N.J.R. 1054(a)
6:29-4.2	Tuberculosis testing	13 N.J.R. 914(b)	R. 1982 d.120	14 N.J.R. 385(a)
6:29-8.1, 8.2	Hearing screening of pupils	14 N.J.R. 108(a)	R. 1982 d.195	14 N.J.R. 654(c)
6:30	Adult diploma requirements	13 N.J.R. 721(a)	R. 1982 d.39	14 N.J.R. 205(c)
6:44-6,-7	Recodified as 6:30	13 N.J.R. 721(a)	R. 1982 d.39	14 N.J.R. 205(c)
6:46-1.1	"Technical education" in local area districts	14 N.J.R. 9(b)	R. 1982 d.118	14 N.J.R. 385(b)
6:46-1.1-1.5	Local area vocational school districts	13 N.J.R. 635(b)	R. 1981 d.495	14 N.J.R. 41(c)
6:66	Archives and history records management	13 N.J.R. 190(b)	R. 1981 d.202	13 N.J.R. 397(c)

(Title 6, Transmittal 17 dated November 10, 1980)

ENVIRONMENTAL PROTECTION-TITLE 7

7:1-3	Repeal of various rules	12 N.J.R. 454(b)	R. 1980 d.433	12 N.J.R. 643(a)
7:1-4	Repeal of various rules	12 N.J.R. 454(b)	R. 1980 d.433	12 N.J.R. 643(a)
7:1A	Repeal of various rules	12 N.J.R. 454(b)	R. 1980 d.433	12 N.J.R. 643(a)
7:1A	Water Supply Bond Act loans	14 N.J.R. 10(a)	R. 1982 d.167	14 N.J.R. 573(c)
7:1A-2.5, 2.12, 2.13	Water Supply Bond Act loans	14 N.J.R. 499(c)	R. 1982 d.281	14 N.J.R. 915(a)
7:1C-1.5	Fees for 90-day construction permits	13 N.J.R. 123(c)	R. 1981 d.187	13 N.J.R. 334(b)
7:1C-1.5	Maximum fees for waterfront development permits	13 N.J.R. 564(a)	R. 1981 d.473	13 N.J.R. 943(b)
7:1C-1.13	90-day construction permits	Procedural	R. 1981 d.48	13 N.J.R. 128(b)
7:1D	Repeal of various rules	12 N.J.R. 454(b)	R. 1980 d.433	12 N.J.R. 643(a)
7:1G	Pinelands Comprehensive Management Plan	12 N.J.R. 309(a)	R. 1980 d.370	12 N.J.R. 575(c)
7:1G	Drought Crisis	Emergency	R. 1981 d.93	13 N.J.R. 195(c)
7:1G	Water rationing plan	Emergency	R. 1981 d.203	13 N.J.R. 397(d)
7:1G-3.1	Drought crisis	Emergency	R. 1981 d.147	13 N.J.R. 334(c)
7:1G-3.3	Drought emergency	Emergency	R. 1981 d.105	13 N.J.R. 204(a)
7:1G-3.7, 3.8	Rules of Drought Coordinator	Emergency	R. 1981 d.222	13 N.J.R. 399(a)
7:1G-3.8	Water rationing plan	Emergency	R. 1981 d.266	13 N.J.R. 400(a)
7:1G-4.1	Use of fresh water for horticulture	Emergency	R. 1981 d.159	13 N.J.R. 335(a)
7:1G-5.4-5.7	Drought crisis	Emergency	R. 1981 d.147	13 N.J.R. 334(c)
7:1G-5.8	Landlord/tenant: Excess use charges	Emergency	R. 1981 d.217	13 N.J.R. 400(b)
7:1H	County environmental health services	11 N.J.R. 616(a)	R. 1980 d.362	12 N.J.R. 514(a)

N.J.A.C. CITATION		PROPOSAL NOTICE (N.J.R. CITATION)	DOCUMENT CITATION	ADOPTION NOTICE (N.J.R. CITATION)
7:2-11.22	Swimming River Natural Area map	12 N.J.R. 505(d)	R. 1981 d.4	13 N.J.R. 91(a)
7:7	Repeal of various rules	12 N.J.R. 454(b)	R. 1980 d.433	12 N.J.R. 643(a)
7:7-2	Waterfront and coastal resource development	12 N.J.R. 252(a)	R. 1980 d.375	12 N.J.R. 576(a)
7:7-2	Waterfront development permits	13 N.J.R. 73(c)	R. 1981 d.355	13 N.J.R. 564(b)
7:7D-2.3, 2.5, 2.8	CAFRA procedural rules	13 N.J.R. 75(a)	R. 1981 d.267	13 N.J.R. 401(b)
7:7E	Waterfront and coastal resource development	12 N.J.R. 252(a)	R. 1980 d.375	12 N.J.R. 576(a)
7:7E	Coastal resource and development policies	13 N.J.R. 76(a)	R. 1981 d.186	13 N.J.R. 338(a)
7:7E-3.10, 3.30, 3.33, 3.37, 4.10, 4.11, 5.5	Coastal resources and development policies	13 N.J.R. 565(a)	R. 1982 d.114	14 N.J.R. 385(c)
7:7E-7.2	Affordable housing and coastal development	13 N.J.R. 864(a)	R. 1982 d.31	14 N.J.R. 206(a)
7:7E-8.7, 8.16, 8.17	Coastal resources and development policies	13 N.J.R. 565(a)	R. 1982 d.114	14 N.J.R. 385(c)
7:8	Repeal of various rules	12 N.J.R. 454(b)	R. 1980 d.433	12 N.J.R. 643(a)
7:9-3	Repeal of various rules	12 N.J.R. 454(b)	R. 1980 d.433	12 N.J.R. 643(a)
7:9-4, -5, -6	Water quality standards	12 N.J.R. 108(c)	R. 1981 d.80	13 N.J.R. 194(b)
7:9-10.2, 10.3, 10.9	Pinelands and coastal area sewerage approval	14 N.J.R. 504(a)	R. 1982 d.298	14 N.J.R. 979(a)
7:9-10.4, 10.5, 10.6	One-year suspension of rules	14 N.J.R. 504(a)	R. 1982 d.298	14 N.J.R. 979(a)
7:9-13.3, 13.5, 13.6	Sewer extension ban	12 N.J.R. 639(b)	R. 1981 d.224	13 N.J.R. 402(a)
7:9-15	Grants for restoring publicly owned freshwater lakes	12 N.J.R. 310(a)	R. 1980 d.374	12 N.J.R. 575(e)
7:10-8	Repealed: See 7:18	13 N.J.R. 260(d)	R. 1981 d.279	13 N.J.R. 481(c)
7:12-1.1, 1.3,	Condemnation of certain shellfish beds	13 N.J.R. 191(b)	R. 1981 d.190	13 N.J.R. 339(b)
7:12-1.2-1.5	Shellfish beds: Reclassification	14 N.J.R. 310(a)	R. 1982 d.182	14 N.J.R. 655(a)
7:12-1.3	Condemnation of certain shellfish areas	13 N.J.R. 566(a)	R. 1981 d.431	13 N.J.R. 755(b)
7:12-2	Shellfish waters condemnation	13 N.J.R. 191(b)	R. 1981 d.190	13 N.J.R. 339(b)
7:13-1.11	Flood plain delineation along Mullica River	12 N.J.R. 69(a)	R. 1981 d.8	13 N.J.R. 91(c)
7:13-1.11	Flood plain delineation along Cedar Creek	12 N.J.R. 70(a)	R. 1981 d.9	13 N.J.R. 91(d)
7:13-1.11	Flood plain delineation of Great Egg Harbor River	12 N.J.R. 506(a)	R. 1981 d.88	13 N.J.R. 194(d)
7:13-1.11	Flood plain delineation of Mullica River and tributaries	12 N.J.R. 506(b)	R. 1981 d.89	13 N.J.R. 194(e)
7:13-1.11	Flood hazard area delineations	12 N.J.R. 640(b)	R. 1981 d.144	13 N.J.R. 339(c)
7:13-1.11	Flood hazard area delineations	12 N.J.R. 640(a)	R. 1981 d.145	13 N.J.R. 340(a)
7:13-1.11	Delaware Basin floodway delineations	13 N.J.R. 805(a)	R. 1982 d.154	14 N.J.R. 472(b)
7:13-1.11	Floodway delineations along Tuckahoe River	13 N.J.R. 921(a)	R. 1982 d.155	14 N.J.R. 473(a)
7:13-1.11	Floodway delineations in Hackensack basin	14 N.J.R. 19(a)	R. 1982 d.156	14 N.J.R. 473(b)
7:13-1.11	Floodway delineations: Woodbridge and Rahway rivers	13 N.J.R. 920(a)	R. 1982 d.157	14 N.J.R. 473(c)
7:13-1.11	Delineated streams along Upper Mullica River	14 N.J.R. 367(b)	R. 1982 d.209	14 N.J.R. 755(c)
7:14	Pollutant discharge and waste management	12 N.J.R. 569(f)	R. 1981 d.84	13 N.J.R. 194(c)
7:14-1.4	New definition of "treatment works"	12 N.J.R. 311(b)	R. 1980 d.424	12 N.J.R. 642(b)
7:14-5, App. A	Statewide septage management	13 N.J.R. 124(a)	R. 1982 d.82	14 N.J.R. 336(c)

(Title 19 Subtitle K, Transmittal 3 dated January 14, 1981)

**YOUR BASIC RULE
RESEARCH STARTS WITH
THE 31-VOLUME NEW JERSEY
ADMINISTRATIVE CODE—
THE OFFICIAL COMPILATION OF
AGENCY RULES AND REGULATIONS**

Virtually every undertaking in New Jersey is in some way affected by agency rulemaking. The standards, practices and procedures set by the State's executive departments and semiautonomous agencies operate with the full force of law.

Now, with Legislative Oversight a reality, rulemaking assumes even greater complexity. Without full knowledge of the substance of new regulations, every attorney practicing administrative law in this State is at a very real disadvantage—and so are his clients.

A subscription to New Jersey Administrative Code (31 loose-leaf volumes) includes one year of updated replacement pages, plus 24 issues of the twice-monthly New Jersey Register – the official interim supplement to the Code.

ADMINISTRATIVE CODE TITLES Prices
