General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF INTENT TO SETTLE

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to enter an ADMINISTRATIVE CONSENT ORDER (ACO) that would resolve violations of the Freshwater Wetlands Protection Act, N.J.S.A. 13:9B-1 et seq. which occurred during the closure of the Linden Municipal Landfill. The ACO would also resolve non-compliances with the Terms and Conditions of a Freshwater Wetlands Individual Permit issued by the Department to the City of Linden in 1997 for activities within wetlands at the Linden Airport. The ACO is the result of a multi-media effort by the Compliance and Enforcement Program to resolve all outstanding Solid Waste, Land Use, Water and Air issues in one settlement document.

In addition to guiding post-closure activities at the Landfill, the ACO requires the City of Linden to provide mitigation for the 10.27 acres of wetland impacts which occurred at the landfill and during expansion and development activities at the Airport. The mitigation will take the form of a comprehensive wetland enhancement project within approximately 50 acres of tidal and freshwater wetlands bounded by the Landfill, the Rahway River, Kings Creek and an unnamed tributary.

The ACO also requires the establishment of a Rahway River Greenway and the development of public access facilities and environmental education programs, such as trails, fishing access, boat ramp and wildlife viewing. The City of Linden will pledge \$1 million toward the Greenway project, while the DEP will commit \$1 million of natural resource damage funds to the public access enhancements.

The ACO also requires the City of Linden to pay a penalty for past Solid Waste, Air and Freshwater Wetlands violations.
