MUNICIPAL ROAD MILEAGE

1971

Compiled by the
Bureau of Local State Aid Programs

January 19, 1972

Preface

The municipal road mileages listed on the following pages were gathered in accordance with Section 1.1, Chapter 15, Title 27 of the Revised Statutes of New Jersey which authorizes the Commissioner of Transportation to request the latest official map of the municipality showing all municipal roads and indicating those which are improved and those which are unimproved with the mileage of each.

Mileages listed as improved include all roads with constructed surfaces adequately drained and passable at all times of the year by modern motor vehicles that the municipality has jurisdiction over.

Mileages listed as unimproved include all other existing public thoroughfares that are on dedicated rights-of-way and are open and regularly used by the public but unsuitable for modern vehicle travel all year round, that the municipality has jurisdiction over.

Road mileage questionnaires were sent to all municipalities in the State on December, 1970 requesting the information concerning their road mileage. This procedure is followed every five years to provide updated information for the computation of the municipalities' formula allocations.

In the five year period between reportings of the mileage, an increase of 1,401.89 miles or 7.1 percent in the improved road mileage and a decrease of 1,241.48 miles or 32.2 percent of the unimproved road mileage was reported. The total road mileage increased by 160.41 miles from 23,597.31 in 1966 to 23,757.72 miles in 1971 or an increase of 0.7 percent. The following page lists a summary of the road mileages in the various categories.
