For Each Other, For Us All

This is a community toolkit developed for the New Jersey Department of Health as part of the State’s effort to educate New Jerseyans about the importance of COVID-19 testing and contact tracing.

We’re pleased to provide you with this digital toolkit that contains some of the shareable content local departments of health and other community leaders can distribute to their networks and in their communities. This toolkit includes static images and GIFs. This content is formatted so it is easily sharable via digital means.

We hope that this toolkit provides to you and your community the assets you need to ensure our entire state learns how testing and contact tracing are critical in the fight against COVID-19.
