

New Jersey Library Construction Bond Act

UPDATED ON February 8, 2023

Background

On July 21, 2017, Governor Chris Christie signed the New Jersey Library Construction Bond Act, P.L. 2017, c. 149, which authorized the issuance of \$125 million in general obligation bonds to finance capital projects at public libraries. The State Library developed the rules to implement the Act for the construction, reconstruction, extension, improvement, and furnishing of New Jersey's public libraries. These rules (regulations) became effective November 4, 2019.

- The original Library Construction Bond Act (LCBA) law, P.L. 2017, c. 149, can be found [here](#).
- The regulations governing the LCBA program can be found [here](#).

The State Library issued two rounds of grant solicitations, the first in Winter 2020 and the Second in Spring 2021.

Round One – Winter 2020

Round 1 of the New Jersey Library Construction Bond Act passed both the Assembly and the Senate on November 16, 2020. It was signed by Governor Phil Murphy on November 20, 2020.

Round Two – Reallocation of Grant Funds

On October 19, 2022, the State Library, through the President of Thomas Edison State University, submitted a request to the Joint Budget Oversight Committee (JBOC) seeking approval of the reallocation of \$1,764,447, appropriated to Newark Public Library during the second round of Library Construction Bond Act (LCBA) funding, to two projects which were submitted for consideration during the Round 2 application period, but were not awarded grants due to limited funding. Both libraries were eligible to receive grants under the Bond Act and were included on the alternate list of recommended projects to receive grants in the event that funding became available. On December 30, 2022, JBOC unanimously approved the reallocation request.
