

FUTURE OF WORK TASK FORCE

ROADMAP AND RECOMMENDATIONS

Appointed by Governor Murphy in 2019, the Future of Work Task Force was established to evaluate how technological advancements will shape the future of New Jersey's economy and workforce, and produce an evidence-based policy roadmap to prepare the state for the future of work. This Roadmap and Recommendations highlights 19 core recommendations that underscore the State's need to invest in policies, platforms, and programs that respond to both the challenges and the opportunities technology creates to foster worker rights, worker safety and lifelong learning. Many of the Roadmap's recommendations have already been implemented.

ABOUT THE FUTURE OF WORK TASK FORCE

The Future of Work Task Force was established by Governor Murphy via Executive Order 41 to evaluate how technological advancements will shape the future of New Jersey's economy and workforce, and produce an evidence-based policy roadmap to prepare the state for the future of work. Specifically, the Task Force is charged with the following objectives:

- Determine which technologies will impact work in New Jersey, which industries and sectors will be affected and to what extent.
- Identify the groups of residents in New Jersey likely to be most affected by these changes and how effects will vary based on differing demographics, including gender, race, income, location, and education.
- Explore the ways in which the same innovative technologies might improve workplace conditions, create different jobs, and grow the state's economy.
- Devise innovative, impactful, and cost-effective strategies for what State government, universities, private corporations, non-profits, and individuals can do to prepare for these changes and ensure a prosperous and equitable future.

- Produce an evidence-based policy roadmap for New Jersey to prepare for the future of work.

GET INVOLVED

Throughout the lifespan of the Future of Work Task Force, there will be numerous opportunities for industry, academic institutions, public policy stakeholders, and the general public to contribute to and strengthen the Task Force's work. To become aware of specific opportunities, please sign up below to stay in touch with the Task Force and be kept up-to-date on its work.
