(b) Prior to the first card being dealt for the first of the three rounds of play, each player shall be required to make two or three wagers against the dealer as required by N.J.A.C. 19:47-2.3(a) and (d) by placing the wagers in the designated betting areas on the layout. A casino licensee may, in its discretion, require every player to place a wager against all three of the dealer's hands. The minimum number of wagers required and the minimum and maximum limits for each wager shall be posted at the table in accordance with N.J.A.C. 19:47-8.3.

(c) After all wagers have been placed, the dealer shall deal the cards in accordance with N.J.A.C. 19:47-2.6(e). (d) Any player may elect to make an insurance wager pursuant to N.J.A.C. 19:47-2.9 on any or all of his or her wagers made in accordance with (b) above. Such wager or wagers shall be decided individually based on the second card dealt to each of the dealer's hands.

2. If a wager remains on the second or third spot of a player's betting area, the dealer shall then collect all of his or her cards except his or her original face up card.

(g) If the dealer's cards have been collected and discarded in accordance with (f)2 above, the dealer shall move his or her original face up card to the area of the layout designated for the dealer's second hand and shall deal a second card to his or her original face up card in accordance with N.J.A.C. 19:47-2.6(h) and any additional cards required by N.J.A.C. 19:47-2.12(b).

(h) Once all wagers on the dealer's second hand have been decided, the dealer shall collect all losing wagers and

pay off all winning wagers based on wagers placed in the second spot of each player's betting area. The dealer shall then collect all of his or her cards except his or her original face up card and place them face down in the discard rack. With each consecutive win, the dealer shall move the lammer button onto the designated betting area labeled "3," then onto "4," and then onto "5." If the player wins the fifth consecutive blackjack hand, the player shall win the streak wager in addition to the basic blackjack wager.

(e) If a player loses a blackjack hand during the pendency of a streak wager, the streak wager shall lose and the dealer shall collect the losing streak wager and the losing blackjack wager from that player.

(g) A push shall not advance or lose a streak wager.

(h) A player who elects to split pairs on any hand during the pendency of a streak wager must win a majority of the split hands to advance the consecutive winning streak; otherwise the streak wager is lost. If a player wins and loses the same number of split hands, the streak wager is not advanced or lost. A push on a split hand shall not advance or lose a streak wager.

(i) A streak wager shall have no bearing upon any other wager made by a player at the game of blackjack.

(j) A casino licensee shall pay winning streak wagers at no less than the amounts listed below:

| <u>Streak wager</u> | <u>Streak payout</u> |

| 5 consecutive winning hands | 37 to 1 |

(k) A player may make more than one streak wager at a time on a blackjack hand, provided that:

1. All such streak wagers are placed simultaneously (that is, placing streak wagers on designated betting areas "3" and "4" at the same time) and prior to any cards being dealt for that hand;

2. A player who makes a multiple streak wager may not place any additional streak wagers until all prior streak wagers made by that player have been determined; and

3. When multiple streak wagers are in play, the dealer shall move the lammer to the next applicable streak betting area, if any, prior to paying any winning streak wager.

(l) The streak wager may not be offered at a blackjack table which offers multiple action blackjack wagers pursuant to N.J.A.C. 19:47-2.18, a progressive blackjack wager pursuant to N.J.A.C. 19:47-2.19 or a bonus blackjack wager pursuant to N.J.A.C. 19:47-2.20.

(d) A match-the-dealer wager shall be made by placing gaming chips, plaques or, if applicable, a match play coupon on the appropriate area of the blackjack layout, except that a verbal wager accompanied by cash may be accepted provided that it is confirmed by the dealer and casino supervisor at the table prior to the first card being dealt to any player, and that such cash is expeditiously converted into gaming chips or plaques in accordance with N.J.A.C. 19:45-1.18(a).

(e) Immediately after the second card is dealt to each player, and prior to any additional cards being dealt to any player at the table or the dealer and before any card reader device is utilized, all losing match-the-dealer wagers shall be collected by the dealer, and then all winning match-the-dealer wagers shall be paid in accordance with (f) below.

19:47-14.9 Seven-card stud poker; procedures for dealing of cards; completion of each round of play

(a) Each casino licensee shall be required to observe the procedures set forth in this section for each game of seven-card stud high, seven-card stud high-low split or seven-card stud high-low split eight or better poker offered in its casino room or casino simulcasting facility.

(b) Each poker table shall be restricted to a maximum of eight players as determined by the casino licensee. Each player who elects to participate in a round of play may be required to place an ante. The rule governing the placement of an ante and the amount of the ante, if any, shall be posted on a sign at each poker table in accordance with N.J.A.C. 19:47-8.3.

(c) Starting with the first player to the left of the dealer and continuing in a clockwise rotation around the poker table, the

dealer shall deal two rounds of cards face down and one round of cards face up to each player.

(d) Once each player has received three cards in accordance with (c) above, the first betting round shall commence by comparing the up-card of each player. For the purposes of this subsection only, in the event that two or more up-cards are of the same rank, the up-cards shall then be ranked by suit, with the highest to lowest ranked suits in order as follows: spades, hearts, diamonds, clubs. Betting shall be commenced by:

1. For high poker, the player with the lowest ranked up-card;
2. For high-low split poker, the player with the highest ranked up-card. For this purpose, an ace shall be considered ranked below a two; and
3. For high-low split eight or better poker, the player with the lowest ranked up-card. For this purpose, an ace shall be considered the highest ranking card.

(e) Following the placement of the forced bet required by (d) above, each subsequent player may, proceeding in a clockwise rotation from the player who placed the forced bet, fold, call or raise the bet. After the last player has responded to the most recent bet, the betting round shall be considered complete.

(f) Upon completion of the first betting round, the dealer shall burn the top card of the deck and then, starting with the first remaining player to his or her left, deal a fourth card face up to each player who made or called the last wager. The next betting round shall commence as follows:

1. The player with the highest ranking poker hand showing shall be required to bet or check; or
2. If the highest ranking poker hand showing is held by two or more players, the player closest to the left of the dealer shall be required to bet or check.

(g) Following the initial bet or check required by (f) above, each subsequent player, proceeding in a clockwise rotation, may fold, call, raise or, if the preceding players have not made a bet, check. Each player may check until a bet has been made. Once a bet has been made, the next player in a clockwise rotation may fold, call or raise. After the last player has responded to the most recent bet, the betting round shall be considered complete.

(h) The dealer shall then deal two additional rounds of cards face up and one round of cards face down to each player who made or called the last wager with each such round followed by a betting round conducted in accordance with the provisions of (f) and (g) above. Prior to each round of cards being dealt, the dealer shall burn the top card of the deck. If insufficient cards remain in the deck to give each remaining player a seventh and final card, the top card of the deck shall be burned and a common card shall be dealt face

up in the center of the table. If there is either one or no card remaining in the deck, the dealer shall shuffle burn cards, burn a card and then deal the common card.

(i) If more than one player remains in the round of play after the final betting round has been completed, a showdown shall be used to determine the winner of the pot. Each player remaining in the game shall form a five card poker hand from the seven cards which he or she was dealt. This five card hand shall constitute the poker hand of that player at the showdown. The winner of the pot shall be:

1. In high poker, the player with the highest ranking five card high hand;

2. In high-low split poker or high-low split eight or better poker, the player with the highest ranking five card high hand and the player with the highest ranking five card low poker hand, subject to the provisions of (j) below, who shall divide the pot equally.

i. If a pot cannot be divided equally, the excess amount, which shall not exceed \$1.00, shall be given to the player with the highest ranking high hand.

ii. If a tie exists between two or more players for the highest ranking high hand, the high hand share of the pot shall be divided equally among the tied players. If the high hand share of the pot cannot be divided equally among the tied players, the excess, which shall not exceed \$1.00, shall be given to the player with the highest ranking high poker card by suit.

iii. If a tie exists between two or more players for the highest ranking low hand, the low hand share of the pot shall be divided equally among the tied players. If the low hand share of the pot cannot be divided equally among the tied players, the excess, which shall not exceed \$1.00, shall be given to the player with the lowest ranking low poker card by suit.

iv. For purposes of this subsection, the cards shall be ranked by suit with the highest to lowest ranked suit in order as follows: spades, hearts, diamonds and clubs.

(j) In seven-card stud high-low split eight or better poker, a winning low hand may not contain any pairs or a nine, 10, jack, queen or king. This defines the qualifying clause known as "eight or better." In the event that none of the hands of the remaining players satisfies this requirement, the entire pot shall be awarded to the player with the highest ranking high hand.

(k) In seven-card stud high-low split poker and seven card stud high-low split eight or better poker, the player may form two different hands of five cards each out of the player's seven available cards, enabling that player to contend for both the high hand and low hand share of the pot. A player may use the same five card grouping to make a high poker hand and a low poker hand. For example:

1. A hand consisting of a two, three, four, five and six would qualify as a straight for purposes of the high hand and as a high ranking low hand; or

2. A hand consisting of five cards of the same suit, none higher than an eight, would qualify as a flush for purposes of the high hand and as a high ranking low hand.

(l) In seven-card stud high-low split poker and seven-card stud high-low split eight or better poker, an ace may be used concurrently as a low card to satisfy a low hand and as a high card to satisfy a high hand.

ii. The player randomly determined by rank of a single card dealt; and

3. Thereafter, the button shall rotate around the table in a clockwise manner after each round of play.

(d) The player to the immediate left of the button shall be required to initiate the first betting round by placing a blind bet in accordance with the posted table requirements.
