Garnishment

The Department of Treasury has added the New Jersey Department of Labor (NJDOL) to the New Jersey Comprehensive Financial System (NJCFS) garnishment (tax offset) process for the inclusion of state vendors who have outstanding unemployment, disability, workforce, and family leave insurance contributions, interest, penalties and assessments.

State vendors who have not paid their unemployment, disability, workforce and/or family leave insurance contributions, interest, penalties or assessments by the prescribed payment due date may be included in the daily state vendor liability garnishment file that NJDOL now sends to NJCFS. Employers subject to garnishment must also pay a fine equal to 25% of contributions owed. (N.J.S.A. 43:21-14.4)

A state vendor who is unable to submit its full tax payment on or before the due date should call **our Collections Unit at 609-633-6400, option 1**, to make arrangements for payment of the liability in order *not* to be included in the NJCFS garnishment process.
