

Immunization Information Systems (IIS)

Contacts for IIS Immunization Records

CDC does NOT have vaccination record information!

If you currently live or have lived in an area with an operational immunization information system (IIS), you may try to

- contact the [IIS in your state](#) or in the state where you or your child received their last shots to see if they have records
- contact your immunization provider directly or your local or state immunization program through your [state's health department](#) [↗](#)
- look for additional suggestions on how to locate immunization records: [child](#) | [adult](#).
- reference the [grantee immunization web sites](#).

For general immunization-related questions you also may contact the CDC Information Contact Center at 1-800-CDC-INFO (1-800-232-4636).

Find Your Child's Immunization Record Through Your State's IIS

Click a letter to "jump" to a state. (Cities are listed within the state)
