New Jersey 2009 Census of Horticultural Specialities Percent of Value of Sales Total

The 2009 Census of Horticulture counted 623 operations in New Jersey with sales of \$347,601,000 a decrease of 122 operations since the 1998 Census of Horticulture. However, sales of horticulture crops increased by 44 percent over this same time period.

Categories where sales increased from the previous Census of Horticultural, included Nursery Stock, Annual Bedding and Garden Plants, Cut Flowers, Transplants for Commercial Vegetable Production, Potted Herbaceous Perennial Plants, and Propagative Materials.

Categories with a lower sales from the previous Census of Horticulture, included Sod, Sprigs and Plugs, Potted Flowering Plants, Cut Christmas Trees, Foliage Plants, and Food Crops Under Protection.

Northeast II

Workers Up 5 Percent, Wages Up 6 Percent

Workers: There were 37,000 hired workers on Northeast II Region farms and ranches the week of October 10, 2010, through October 16, 2010, unchanged from a year ago. States included in the Northeast Region II are Delaware, Maryland, New Jersey, and Pennsylvania. Hours worked during the reference week averaged 41.9 compared to 41.0 the previous year.

Wages: Farm operators in the Northeast Region II paid their hired workers an average wage of \$12.05 per hour during the October 2010 reference week, up 1.17 cents from a year earlier. Field workers received an average of \$11.84 per hour, up 1.56 cents from last October, while livestock workers earned \$10.17 per hour compared with \$9.50 a year earlier.

Hours Worked: The number of hours worked averaged 41.9 hours for hired workers during the survey week, up 2 percent from a year ago.

United States

Workers Up 4 Percent, Wage Rates Up 2 Percent

Workers: There were 1,157,000 hired workers on the Nation's farms and ranches during the week of October 10-16, 2010, up 4 percent from a year ago. Of these hired workers, 826,000 were hired directly by farm operators. Agricultural service employees on farms and ranches made up the remaining 331,000 workers.

Wages: Farm operators paid their hired workers an average wage of \$11.13 per hour during the October 2010 reference week, up 20 cents from a year earlier. Field workers received an average of \$10.49 per hour, up 27 cents from last October, while livestock workers earned \$10.27 per hour compared with \$10.28 a year earlier. The field and livestock worker combined wage rate, at \$10.43 per hour, was up 19 cents from last year.

Hours Worked: The number of hours worked averaged 41.7 hours for hired workers during the survey week, up 7 percent from a year ago.

November Farm Prices Received Index Up 4 Points

The preliminary All Farm Products Index of Prices Received by Farmers in November, at 159 percent, based on 1990-1992=100, increased 4 points (2.6 percent) from October. The Crop Index is up 9 points (5.4 percent) and the Livestock Index increased 1 point (0.7 percent). Producers received higher prices for soybeans, corn, lettuce, and eggs and lower prices for hogs, milk, apples, and cucumbers. In addition to prices, the overall index is also affected by the seasonal change based on a 3-year average mix of commodities producers sell. Increased monthly marketings of milk, cotton, cattle, and corn offset decreased marketings of soybeans, potatoes, peanuts, and lettuce.

The preliminary All Farm Products Index is up 23 points (17 percent) from November 2009. The Food Commodities Index, at 155, increased 3 points (2.0 percent) from last month and increased 19 points (14 percent) from November 2009.

November Prices Paid Index Up 2 Points

The November Index of Prices Paid for Commodities and Services, Interest, Taxes, and Farm Wage Rates (PPITW) is 188 percent of the 1990-1992 average. The index is up 2 points (1.1 percent) from October and 10 points (5.6 percent) above November 2009. Higher prices in November for complete feeds, nitrogen, and supplements more than offset lower prices for other services, feeder pigs, and hay & forages.
