SUBCHAPTER 2. DEFINITIONS**5:10-2.1 Tense, gender and number**

Words used in the present tense include the future; words used in the masculine gender include the feminine and neuter; words used in the singular include the plural and the plural the singular.

5:10-2.2 Definitions

The following words and terms, when used in this chapter, shall have the following meanings, unless the context clearly indicates otherwise.

“Act”, See “Law or Act” of this section.

“Adjoining grade elevation” means the average elevation of the final grade adjoining all exterior walls of a building, calculated from grade elevations taken at intervals of 10 feet around the perimeter of the building.

“Alteration”, as applied to a building or structure, means a change or rearrangement in the structural parts or in the egress facilities of any such building or structure, or any enlargement thereof, whether by extension on any side or by any increase in height, or the moving of such building or structure from one location or position to another.

“ANSI” means the American National Standards Institute, Inc.

“Approved” means approved by the Bureau of Housing Inspection or its duly authorized representative.

“Architect” means a person registered to practice the profession of architecture under the laws of the State of New Jersey.

“ASHRAE” means the American Society of Heating, Refrigerating and Air-Conditioning Engineers.

“Attic” means the space between the ceiling beams of the top story and the roof rafters.

“Basement” means that portion of a building which is partly below and partly above grade, and has at least one half its ceiling height above grade.

“Basin” means a plumbing fixture located in a bathroom or in close proximity thereto and used exclusively for sanitation operations.

“Bathroom” means any enclosed space containing one or more bathtubs, or showers, or both, and which also may contain water closets, lavatories or fixtures serving similar purposes.

“Board” means the Hotel and Multiple Dwelling Health and Safety Board. (See N.J.S.A. 55:13A-3(c).)

“BOCA” means the Building Officials and Code Administrators International.

“Building” means a structure built, erected and framed of component structural parts designed for the housing, shelter, enclosure and support of individuals, animals or property of any kind which is enclosed within exterior walls on all sides.

“Bureau” means the Bureau of Housing Inspection. (See N.J.S.A. 55:13A-3(d).)

“Ceiling height” means vertical distance between the finished floor and the finished ceiling.

“Cellar” means that portion of a building which is partly or completely below grade, and has more than one-half its ceiling height below grade.

“Central heating” means the provision of heat throughout a building by means of one or more heating units or furnaces centrally located in a building, rather than by means of individual heating units or furnaces located in some or all of the units of dwelling space in said building.

“Child-protection window guard” or “window guard” means a bar, screen or grille assembly designed to be installed in a window for the purpose of preventing accidental fall or ejection of a child through the window.

“Chimney” means a vertical enclosure containing one or more flues used to remove hot gases from burning fuel, refuse, or from industrial processes.

“Commissioner” means the Commissioner of the Department of Community Affairs, New Jersey or his duly authorized representative.

“Common area” means all areas accessible to, and which may be utilized by either occupants of a building or the general public, or both, including, but not limited to, vestibules, hallways, stairways, landings and common space and occupiable room or space, as hereinafter defined, which is not part of any dwelling unit. This definition shall also mean and include any area accessible to the owner or manager or any person employed in the maintenance of the building which is not part of any dwelling unit.

“Concurrent loads” means two or more elements of dead or live load that, for purposes of design, are considered to act simultaneously.

“Condominium” means the form of ownership of real property under a master deed providing for ownership by one or more owners of units, together with an undivided interest in common elements appurtenant to each such unit. (See N.J.S.A. 46:8B-3 and 55:13A-3(q).)

“Construction” means any or all work or operations necessary or incidental to the erection, demolition, assembling, installing, or equipping of buildings, or any alterations and operations incidental thereto. The term “construction” shall include land clearing, grading, excavating and filling. It shall also mean the finished product of any such work or operations.

“Construction class (group)” means the category in which a building or space is classified based on the fire-resistance

ratings of its construction elements as set forth in the current edition of the BOCA National Building Code.

“Cooperative” means a housing corporation or association which entitles the holder of a share or membership interest thereof to possess and occupy for dwelling purposes a house, apartment or other structure owned or leased by said corporation or association, or to lease or purchase a dwelling constructed or to be constructed by said corporation or association. (See N.J.S.A. 55:13A-3(r).)

“Corridor” means an enclosed passage providing a means of access from rooms or spaces to an exit.

“Court” means an open, uncovered, and unoccupied space on the same lot with a building.

“Crawl space” means an unoccupiable area in a building not more than 48 inches in height.

“Dead-end” means a portion of a corridor in which the travel to an exit is in one direction only.

“Demolition” means the dismantling or razing of all or part of a building, including operations incidental thereto.

“Department” means the Department of Community Affairs, State of New Jersey.

“Design winter conditions” means the design temperature at the nearest locality reported in the latest edition of the Handbook of the American Engineers Society of Heating, Refrigeration and Air Conditioning Engineers (ASHRAE).

“Deterioration” means decay, damage, loss of material or ability to function as intended caused by exposure to the elements.

“Director” means the Director of the Division of Housing and Development.

“Drainage system” means all the piping within public or private premises, which conveys sewage, rain water, or other liquid wastes to a legal point of disposal, but shall not include the mains of public sewer system or private or public sewage-treatment or disposal plant.

“Duct (Ventilation)” means a pipe, tube, shaft, conduit, or an enclosed space within a wall or structure, used for conveying air.

“Dumbwaiter” means a hoisting and lowering mechanism equipped with a car that moves in guides in a substantially vertical direction, the floor area of which does not exceed nine square feet, whose total inside height, whether or not provided with fixed or movable shelves does not exceed four feet, the capacity of which does not exceed 500 pounds and that is used exclusively for carrying materials.

“Dwelling space”. (See N.J.A.C. 5:10-2.2, definition of “Unit of dwelling space”).

“Dwelling unit” means a room or rooms, or suite or apartment, that is occupied or intended to be occupied for sleeping or dwelling purposes by one or more persons. (See N.J.S.A. 55:13A-3(h).)

“Egress or means of egress” means a path by which ambulatory persons can travel safely and without assistance from a unit of dwelling space, dwelling unit or rooming unit along a continuous and unobstructed line to an exterior open area.

“Electrically supervised”, as applied to a control circuit, means that in the event of interruption of the current supply or in the event of a break in the circuit, a specific signal will be given.

“Elevator” means a hoisting and lowering mechanism equipped with a car or platform that moves in guides in a substantially vertical direction, and that serves two or more floors of a building.

“Emancipated minor” means any person under the age of 18 who is gainfully employed and who is self-supporting or who is married to a spouse who is gainfully employed and who supports the said minor, or who is a student living away from home and in regular attendance in an institution of higher learning.

“Engineer” means a person licensed to practice the profession of engineering under the law of the State of New Jersey.

“Exit” means a means of egress from the interior of a building to an open exterior space, including any or all of the following: door openings, enclosed vertical exits, grade passageways, horizontal exits, exterior stairs, or fire escapes; but not including access stairs, aisles, corridor doors or corridors.

“Extermination” means the process of controlling and eliminating of insects, rodents or other pests by eliminating their harborage places, by removing or making inaccessible materials that may serve as their food, by poisoning, spraying, fumigating, trapping, or by any other recognized and lawful pest-elimination methods.

“Fire resistance rating” means the time in hours or fractions thereof that materials or their assemblies will withstand fire exposure as determined by a fire test made in conformity with recognized standards.

“Fire separation wall” means a fire resistance rated assembly of materials having protected openings which is designed to restrict the spread of fire.

“Fire wall” means a fire resistance rated wall, having no unprotected openings, which restricts the spread of fire and extends openings, which restricts the spread of fire and extends continuously from the foundation to or through the roof.

“Floor area” means the projected horizontal area enclosed inside of walls, partitions, or other enclosing construction.

“Flue” means an enclosed passageway in a chimney to carry products of combustion to the outer air.

“Footing” means a foundation element consisting of an enlargement of a foundation pier or foundation wall, wherein the soil materials along the sides of and underlying the element may be visually inspected prior to and during its construction.

“Foundation (Building)” means a construction that transfers building loads to the support soil.

“Foundation wall” means a wall extending below grade.

“Fresh air” means outdoor air.

“Garbage” means rubbish and refuse as defined in this section.

“Grade” means a reference plane representing the average of finished ground level adjoining the building at all exterior walls.

“Grade passageway” means a horizontal extension of a vertical exit or a passage leading from a yard or court to an open exterior space.

“Guest” means any person who occupies a unit of dwelling space either as a temporary occupant or transient in an establishment holding itself out as serving transients or on a temporary or permanent basis in an establishment providing housekeeping or dining services on a regular basis to occupants.

“Habitable room” means a residential room or space, having an area exceeding 59 square feet in which the ordinary functions of domestic life are carried on, and which includes bedrooms, living rooms, studies, recreation rooms, kitchens, dining rooms, and other similar spaces, but does not include closets, halls, stairs, laundry rooms, or bathrooms.

“Hazard” means a condition which because of faulty construction or maintenance of the premises creates significant and recognizable danger or risk to the health and safety of persons on or near the premises.

“Height (Buildings)” means the vertical distance from the curb level to the highest point of the roof beams in the case of flat roofs, or to a point at the average height of the gable

in the case of roofs having a pitch of more than one foot in 4½ feet; except that where the curb level has not been legally established, or where every part of the building is set back more than 25 feet from a street line, the height shall be measured from the adjoining grade elevation.

“Hotel” means any building, including but not limited to any related structure, accessory building and land appurtenant thereto, and any part thereof, which contains ten or more dwelling units or has sleeping facilities for 25 or more persons and is kept, used, maintained, advertised as, or held out to be, a place where sleeping or dwelling accommodations are available to guests. “Hotel” also means any facility that is commonly regarded as a hotel, motor hotel, motel or established guesthouse in the community in which it is located. “Hotel” does not include those facilities that are excluded by statute. (See N.J.S.A. 55:13A-3(j).)

“Infestation” means the presence within a hotel or multiple dwelling of any insects, rodents or other pests. Infestation shall include breeding areas on the exterior of the premises so located that products thereof may spread to the interior of any building subject to these regulations.

“Janitorial services” means cleaning and maintaining of common areas including the making of minor repairs, attendance to the furnishing of heat and hot water where the owner is responsible for operation and maintenance thereof, the removal of garbage, refuse and rubbish from the premises, and the removal of snow, ice, dirt, and other matter creating obstructions or hazards from pedestrian paths, sidewalks and gutters.

“Kitchen” means any room or part of a room used for cooking or the preparation of food.

“Law” or “Act” means N.J.S.A. 55:13A-1 et seq., the Hotel and Multiple Dwelling Law.

“Leader” means a vertical drainage pipe for conveying storm water from roof or gutter drains to a building house storm drain, building house drain (combined) or other means of disposal. The leader shall include the horizontal pipe to a single roof drain or gutter drain.

“Live load” means all occupants, materials, equipment, constructions or other elements of weight supported in, on or by a building that will or are likely to be moved or relocated during the expected life of the building.

“Mechanical ventilation” means the process of introducing outdoor air into, or removing vitiated air from a building by mechanical means. A mechanical ventilating system may include air heating, air cooling or air conditioning components.

“Minor” means any person who is under the age of 18. (See N.J.A.C. 5:10-2.2, definitions of “Emancipated minor” and “Unemancipated minor”.)

“Multiple dwelling” means any building or structure and any land appurtenant thereto, and any portion thereof, in which three or more dwelling units are occupied or intended to be occupied by three or more persons living independently of each other. “Multiple dwelling” also means any group of ten or more buildings on a single parcel of land or on contiguous parcels under common ownership, in each of which two dwelling units are occupied or intended to be occupied by two persons or households living independently of each other, and any land appurtenant thereto, and any portion thereof. “Multiple dwelling” does not include those buildings and structures that are excluded by statute. (See N.J.S.A. 55:13A-3(k).)

“Municipality” means in addition to its legal meaning, two or more municipalities acting in concert through any public agency, joint committee, contractual arrangement or in any other manner authorized by law.

“Mutual housing corporation” means a not-for-profit corporation incorporated under the laws of the State of New Jersey on a mutual or cooperative basis within the scope of the “Lanham War Housing Act,” 42 U.S.C. Sect. 1501 et seq., which acquired a National Defense Housing Project pursuant to said act. (See N.J.S.A. 55:13A-3(p).)

“Natural ventilation” means ventilation by opening to outer air through windows, skylights, doors, louvers or stacks with or without wind-driven devices.

“New Jersey Uniform Construction Code” means N.J.S.A. 52:27D-119 et seq., N.J.A.C. 5:23-1.1 et seq., and the Subcodes adopted pursuant thereto.

“NFPA” means the National Fire Protection Association.

“Occupancy” means the purpose or activity for which a building or space is used or is designed or intended to be used.

“Occupant” means any person or persons, including guests, in actual physical possession or occupancy of a unit of dwelling space on a regular basis. For purposes of assigning specific duties or responsibilities, the term “occupant”, unless the text indicates otherwise, shall mean the tenant, lessee, head of the family or household, or other adult person or emancipated minor assuming basic responsibility for the continued renting or occupancy of the dwelling space.

“Occupiable room” means a room or space, other than a habitable room, designed for human occupancy or use, in which persons may remain for a period of time for rest, amusement, dining, shopping, storing goods or other similar purposes, or in which persons may be engaged at work.

“Owner” means any person who owns, purports to own, or exercises control of any hotel, multiple dwelling or retreat lodging facility. (See N.J.S.A. 55:13A-3(l).)

“Partition” means a vertical unit or assembly of materials that separates one space from another within any story of a building.

“Person” means any individual, corporation, association, or other entity. (See N.J.S.A. 1:1-2 and 55:13A-3(m).)

“Plumbing” means the practice, materials, and fixtures used in the installation, maintenance, extension, and alteration of all piping, fixtures, appliances, equipment and appurtenances in connection with any of the following: sanitary drainage or storm drainage facilities, the venting system and the public or private water supply systems, within or adjacent to any building; also the practice and materials used in the installation, maintenance, extension, or alteration of storm water, liquid waste, or sewerage, and water-supply systems of any premises and their connection with any point or public disposal or other acceptable terminal.

“Plumbing fixtures” means installed receptacles, devices, or appliances that are supplied with water or which receive or discharge liquids or liquid-borne wastes.

“Potable water” means water free from impurities present in amounts sufficient to cause disease or harmful physiological effects. Its bacteriological and chemical quality shall conform to the requirements of the Department of Health.

“Premises” means land, improvements thereon, or any part thereof.

“Project” means a group of buildings subject to the Act that:

1. Are or are represented to be under common or substantially common ownership;
2. Are on a single lot or contiguous lots, and
3. Are named, designated or advertised as a common entity. Lots shall be considered to be contiguous even if they are separated by a public right-of-way. (See N.J.S.A. 55:13A-3(o).)

“Protective equipment” means any equipment, device, system or apparatus required or permitted to be constructed or installed in any hotel or multiple dwelling for the protection of occupants, intended occupants or the general public. (See N.J.S.A. 55:13A-3(i).)

“Refuse” means all putrescible solid wastes (except body wastes), including but not limited to garbage, rubbish, ashes, street cleanings, dead animals, abandoned automobiles, and solid market and industrial wastes.

“Regulations” means the rules contained in this chapter.

“Repair” means the replacement of existing work with equivalent materials for the purpose of its maintenance, but not including additional work that would affect safety, or affect required exit facilities, or a vital element of an elevator, plumbing, gas piping, wiring, ventilating, or heating installation, or any work that would be in violation of a provision of this code or any other law governing building construction.

“Required” means required by the provisions of these regulations.

“Retreat lodging facility” means a building or structure, including but not limited to any related structure, accessory building, and land appurtenant thereto, and any part thereof, owned by a nonprofit corporation or association which has tax-exempt charitable status under the Federal Internal Revenue Code and which has sleeping facilities used exclusively on a transient basis by persons participating in programs of a religious, cultural or educational nature, conducted under the sole auspices or one or more corporations or associations having tax-exempt charitable status under the Federal Internal Revenue Code, which are made available without any mandatory charge to such participants. (See N.J.S.A. 55:13A-3(s).)

“Roof” means the topmost slab or deck of a building, either flat or sloping with its supporting members, not including vertical supports.

“Rooming unit” means a unit of dwelling space located within a multiple dwelling or a hotel, forming a single habitable unit used or intended to be used for living and sleeping, but not for cooking or eating purposes.

“Rubbish” means nonputrescible solid waste consisting of both combustible and noncombustible waste, such as paper, wrappings, cigarettes, tin cans, yard clippings, leaves, wood, glass, bedding, crockery and similar materials.

“Sanitary system” means either the public system for disposal of sewage from the premises or, in the absence of such system, any private system available to the premises for the disposal of sewage.

“Self-closing”, as applied to an opening protective, means a door, window, damper, or other device and its assembly that is normally kept in a closed position and that is equipped with an approved device to insure immediate closing after having been opened for use.

“Sewage” means any liquid waste containing animal or vegetable matter in suspension or solution, and may include liquids containing chemicals in solution.

“Shaft” means a vertical, inclined or offset passage, duct or hoistway, penetrating through two or more floors of a building or through a floor and roof, for the transmission of

light, air, materials or persons, or the passage of pipes or other mechanical facilities.

“Shall”, as used in this chapter, is always to be construed as mandatory.

“Sink” means a plumbing fixture located in a kitchen area and used exclusively for food preparation operations.

“Story” means that portion of a building that is between a floor level and the next higher level or roof above.

“Street” means a thoroughfare dedicated or devoted to public use by legal mapping or other lawful means.

“Structure” means an assembly of materials forming a construction for occupancy or use, including among others: buildings, stadia, tents, reviewing stands, platforms, stagings, observation towers, radio towers, tanks, trestles, open sheds, coal pockets, shelters, fences and display signs.

“Transient,” as applied to occupancy, means occupancy for not more than 90 days by a person having a principal residence elsewhere.

“Unemancipated minor” means any person under the age of 18 who is not an “emancipated minor” as defined herein.

“Unit of dwelling space”, see “Dwelling unit” of this section. (See N.J.S.A. 55:13A-3(h).)

“Use (used)” means the purpose for which a building, structure, or space is occupied or utilized, unless otherwise indicated by the text. Use (used) shall be construed as if followed by the words “or is intended, arranged, or designed to be used”.

“Useable floor area” means that part of the floor area within a unit of dwelling space that can be considered useable for general living purposes, excluding areas devoted to built-in equipment, such as, wardrobes, cabinets, closets, kitchen units, and equipment or fixtures which are not readily available for use as floor area.

“Ventilation” means the supply and removal of air to and from any space by natural or mechanical means. (See also N.J.A.C. 5:10-2.2, definitions of “Mechanical ventilation” and “Natural ventilation”.)

“Water distribution piping” means the pipes in a building or premises that convey water from the water service pipe to the plumbing fixtures and other water outlets.

“Water service pipe” means the pipe from the water (street) main or other source of water supply to the building served.

“Water (street) main” means a water supply pipe for public or community use controlled by public authority.

“Water supply system” means the water service pipe, the water distribution piping, and all of the necessary connecting pipes, fittings, control valves, and appurtenances used for conveying water in the plumbing system.

“Window guard” see “Child-protection window guard.”

SUBCHAPTER 3. HOTEL AND MULTIPLE DWELLING HEALTH AND SAFETY BOARD

5:10-3.1 Organizational meetings; officers

(a) The organizational meeting of the Board shall be held on the second Tuesday of June in each year at 10:00 A.M. in the building in which the office of the Director is located.

(b) A majority of the members of the Board shall constitute a quorum. However, even in the absence of a quorum, a majority of the members of the Board who are present, shall have the power to adjourn the meeting until a specified future time.

(c) The Board shall, at its organizational meeting, elect a Chairman, a Vice-Chairman, a Secretary and such other officers as it may deem appropriate. All officers shall serve until the next organizational meeting or until their successors shall have qualified.

(d) All officers other than the Secretary shall be elected from among the members of the Board. The Secretary may be either a member of the Board or an employee of the Division. If an employee of the Division, he shall not enter upon the office of Secretary without the consent of the Director and shall serve at the pleasure of the Director.

(e) A vacancy in any office shall be filled by the Board for the remaining unexpired term. If any member of the Board who is an officer ceases to be a member of the Board, his office shall forthwith be deemed vacant.

Case Notes

Reasonable penalty for failure to correct code violations found appropriate. *Bureau of Housing Inspection v. Murnick*, 97 N.J.A.R.2d (CAF) 50.

5:10-3.2 Special meetings

(a) A special meeting of the Board may be called at any time by the Commissioner, the Director, the Chairman of the Board or by petition of any three members of the Board.

(b) The person or persons calling the special meeting shall give written notice to the Secretary stating the purpose of the meeting and the time and place at which it is to be held. No meeting shall be held in any place other than the building in which the office of the Director is located without the consent of either the Commissioner or the Director.

(c) The Secretary shall give written notice of the time and place of the special meeting to all members of the Board, the Commissioner, the Director and the Chief of the Bureau at least 10 days prior to such a meeting.

5:10-3.3 Rules of procedure

All business of the Board shall be conducted in accordance with the current edition of Robert's Rules of Order (Revised), except insofar as such rules may conflict with provisions of the Act or of this chapter. Officers shall have the duties prescribed in said rules.

1. For purposes of this subchapter, a window in a room or hallway shall not be considered to be on the first floor if the finished surface of the floor of that room or hallway is more than six feet above grade as measured at the location of the window.

(c) All leases offered to tenants in multiple dwellings, other than multiple dwellings under a condominium, cooperative or mutual housing form of ownership, shall contain a clear, legible and conspicuous notice advising tenants and prospective tenants that the owner is required by law to provide, install and maintain window guards in the apartment of any tenant who has a child or children 10 years of age or younger living in the apartment and makes a written request to the owner or the owner's representative that the window guards be installed, and that the owner is also required, upon the written request of any such tenant, to provide, install and maintain window guards in the building hallways to which persons in the tenant's unit have access without having to go out of the building. A lease offered to a tenant of a first floor unit shall not be required to refer to window guards in the apartment, but only to window guards in the hallways above the first floor to which persons in the tenant's unit have access without having to go out of the building.

(d) At least once in each calendar year, the owner or other person who manages or controls a multiple dwelling, other than a multiple dwelling exempted by (c) above, shall deliver to each tenant a clear and legible notice containing the information required by (c) above. This notice shall be hand-delivered to the tenant or sent to the tenant, at the unit, by ordinary or certified mail. However, no additional notice shall be required in any year in which a tenant receives a copy of a lease or a lease renewal that is in conformity with (c) above. A notice given to a tenant of a first floor unit shall not be required to refer to window guards in the apartment, but only in the hallways above the first floor to which persons in the tenant's unit have access without having to go out of the building.

5:10-27.2 General installation requirements

(a) Window guards shall be installed in accordance with all applicable requirements of the State Uniform Construction Code, N.J.A.C. 5:23, and with manufacturer's instructions.

(b) Any window guard installed on an emergency egress window shall be releasable or removable from the inside without use of a key, tool or excessive force. For purposes of this subchapter, an "emergency egress window" is any window in a sleeping room located on the second or third floor, other than a window providing access to a fire escape.

(c) Any window guard installed on a window that is not an emergency egress window, including any window in a unit located above the third floor and any window in a room on the second or third floor that is not a sleeping room, shall

be designed, constructed and installed so that it cannot be removed, opened or dislodged without the use of a key or tool; provided, however, that no window guard shall be installed on any window giving access to a fire escape.

5:10-27.3 (Reserved)

5:10-27.4 Specifications for window guards

(a) Window guards shall be so constructed as to reject the passage of a solid four-inch sphere at every space and interval.

(b) Window guards shall bear a 150 pound load at center-span when extended to maximum width.

(c) Window guards shall be constructed of metal or of other material of comparable strength and durability. In order to avoid obstruction of light and air, the diameter or width of metal rods used in window guards shall not exceed one-half inch.

(d) Window guards shall be designed, constructed and installed so as to serve their intended protective purpose without any risk of collapse, breakage, spreading of the bars or other malfunction.

(e) In a room, window guards shall be of at least a height sufficient to allow a total openable window area, for all windows in the room, of not less than four percent of the floor area of the room. In a public hallway, window guards shall protect the full openable area of each window.

(f) Window guards shall be securely fastened in order to bear the required load.

(g) All window guards shall be so designed and installed as to prevent the lower window from being raised four inches or more above the lowest section of the top horizontal bar of the window guard. Where necessary, rigid metal stops shall be installed securely in the upper tracks of each side of the bottom window.

(h) Screws used to mount window guards and stopping devices shall be:

1. Minimum size No. 10 and long enough to penetrate one inch into a wooden window frame; or
2. Of an adequate type, size and length to be securely fastened to a metal window frame.

(i) The coating of window guards shall be unleaded.

(j) Window guards shall be installed only in sound (non-rotting) mountings or tracks.

(k) Window guards installed prior to November 20, 1995 shall be accepted as being in conformity with this subchapter if they were designed and installed in accordance with the rules and specifications established by the New York City

Department of Health and if such installation is not in violation of N.J.A.C. 5:10-27.2. Window guards installed on or after November 20, 1995 that are so constructed as to reject the passage of a solid four-inch sphere at every space and interval and are otherwise designed and installed in accordance with the rules and specifications established by the New York City Department of Health, and not in violation of N.J.A.C. 5:10-27.2, shall be accepted as being in conformity with this subchapter.

5:10-27.5 Additional specifications for window guards for other than double hung windows

(a) Window guards intended for casements, sliders and other types or combinations of windows in which the height of the openings is not subject to limitation, shall be of such size as to fill the entire aperture, and shall reject passage of a solid four-inch sphere at every space or interval.

(b) Except as otherwise provided in (c) below, sliding windows and vertical pivoting windows may be equipped with stopping devices in place of window guards as follows:

1. For sliding windows, solid metal blocks, measuring at least one-half the depth of the window track and one-half the width, shall be securely fastened into the bottom and upper window tracks to prevent the window from opening four inches or more.

2. For vertical pivoting windows, metal stopping devices shall be securely fastened to the upper and lower window frames so as to prevent the window from pivoting open four inches or more. The height of the stopping devices shall extend no less than one inch nor more than two inches beyond the window frame as needed to stop the window. The protruding edge of the stopping device shall be smooth and rounded.

(c) Use of such stopping devices in lieu of window guards shall be allowed within dwelling units only where they do not preclude meeting the requirement, as per N.J.A.C. 5:10-16.2, that the total openable window and/or openable skylight area in each room be equal to at least four percent of the floor area of the room.

5:10-27.6 Prohibited acts

No person shall obstruct or interfere with the installation of child-protection window guards required under P.L. 1995, c.120 and under this subchapter, nor shall any person remove or otherwise render ineffective such window guards; provided, however, that the owner or the representative of the owner may remove window guards from an unoccupied unit or, with the consent of the tenant, from a unit in which no child 10 years of age or under resides.
