Administrative Report

Presented by Bill O'Sullivan, Air and Energy Advisor

1. BPU launching electric vehicle (EV) infrastructure stakeholder process - On Friday, 9/15/17, from 10 to 12:00, BPU is holding the first of 3 stakeholder meetings on EV infrastructure needs and whether BPU should regulate charging stations that sell electricity to the public.
2. Air Rules
 - a. Gasoline Station Stage 2 Decommissioning and Stage 1 Improvement - A public hearing was held on 8/24/2017, and the comment period closed on 9/1/17. 10 comments were received. A response to comments and adoption document is expected in about 2 months.
 - b. Resiliency and Air Toxics Permit Rule Revision - A public hearing was held on 9/6/17, and the comment period closes on 10/6/17. 2 persons commented at the public hearing.
3. Proposed Used Oil Distillation Facility - On 8/29/17, there was a preapplication meeting with Buckeye Pennsauken Terminal and Topsail Energy on their proposed 3000 barrel per day used oil recycling facility, which would include distillation, storage tanks, thermal oxidation air pollution control, and diesel engines.
4. Electric Vehicle (EV) News
 - a. National Drive Electric Week (9/9 to 9/17) - DAQ has a slideshow in the DEP lobby, and face book posts are being done daily.
 - b. ChargeVC 9/15/17 press conference - This nonprofit coalition of EV stakeholders is releasing a "roadmap" of recommendations to promote the acceleration of EV sales and installation of EV infrastructure in NJ. Recommendations include rebates for EV purchases, numeric goals for EVs and chargers, and EV contribution to the transportation trust fund. Peg Hanna will invite ChargeEV to present their recommendations to the CAC at the October meeting.
 - c. DEP Workplace Charging Grant Update - \$850,000 has been allocated since start of program. So far \$644,580 total invoices have been received for the completion of 137 charging stations. 52 charging stations, costing \$235,000, are on the waitlist for more funding.
 - d. VW mitigation funds - A draft trust agreement was filed with the judge last week for approval, which would establish the "trust effective date" and start a 60-day clock for states to sign on to receive mitigation funds for state use. Mitigation being done directly by VW proceeds independent of the mitigation funds which will be available to states.
5. USEPA Reconsidering Light Duty Vehicle Green House Gas (GHG) Standards - In the 8/21/17 Federal Register, USEPA announced that it would reconsider whether the light-duty vehicle GHG standards previously established for model years 2021 to 2025 are appropriate. A final determination is expected by 4/1/18. Comments are due by 10/5/17.
6. NACAA Twitter Account - The National Association of Clean Air Agencies has established a twitter account @WeAre4CleanAir.
